Date: July 17, 2003

### **Exhibit Index**

Exhibit Number	Description
99.1	Interim Report and Financial Statements of Rogers Communications Inc. for the second quarter and six months ended June 30, 2003.

014, of which around 11% is exported. Meanwhile, products with great added value, such as MAP and DCP are usually marketed instead of phosphate rock, due to cost-benefit relationship.

Brazil is one of the largest agribusiness markets in the world due to its high production, exportation and consumption of grains and biofuel. It is the fourth-largest consumer of fertilizers in the world and one of the largest importers of phosphates, potash, urea and phosphoric acid. Brazil imports 95% of its consumed potash, which corresponds approximately to 9 Mtpa of KCL (potassium chloride) in 2014 from Belarussian, Canadian, Russian, German, and Israelis in descending order, which represents a 14% increase compared to 2013. In terms of global potash consumption, China, the United States, Brazil, and India represent approximately 61% of global consumption, where Brazil is responsible for 15% of this total. Vale s fertilizer projects are highly competitive in terms of cost and logistics to meet the demand in the Brazilian market.

Most phosphate rock concentrate is consumed locally by downstream integrated producers, while logistics with the seaborne market correspond to 14% of total phosphate rock production. Major phosphate rock exporters are concentrated in North Africa, mainly through State-owned companies, with the Moroccan OCP Group holding 33% of the total seaborne market. Brazil imports 58% of the total phosphate nutrients needed as phosphate fertilizer products. The phosphate rock imports supply non-integrated producers of phosphate fertilizers such as SSP, TSP and MAP.

Nitrogen-based fertilizers are basically derived from ammonia (NH3), which, in turn, is produced from the nitrogen that is present in the air and in natural gas, making it a nutrient with high level of energy. Ammonia and urea are the main consumables of nitrogen based fertilizers. The consumption of nitrogen-based fertilizers presents a regional profile due to the high cost associated with transportation and storage of ammonia, which requires refrigerated and pressurized facilities. Consequently, only 10% of ammonia produced in the world is traded. Asia receives the largest volume of imports, with 37% of the global market. Major exporting countries are Russia, Trinidad y Tobago, and Saudi Arabia.

### 5. Infrastructure

# 5.1. Logistics Services

Vale has developed its logistics business based on the transportation needs of its mining operations, while Vale also provides transportation services for other customers.

Vale conducts its logistics businesses at the parent-company level, through subsidiaries, affiliates, and joint ventures, as set forth in the following table.

Vale	Railroad (EFVM and EFC), port, and maritime operations	Brazil			
VLI (1)	Port, maritime and railroad operations in land terminals. Holding general cargo assets.	Brazil	37,6	37,6	FI-FGTS, Mitsui and Brookfield
MRS	Railroad operations	Brazil	46.8	47.6	CSN, Usiminas and Gerdau
CPBS	Port, maritime and railroad operations	Brazil	100.0	100.0	
PTVI PTV	Port, maritime and railroad operations	Indonesia	59.3	59.3	Sumitomo, public investors

- (1) BNDES holds debentures issued by Vale, exchangeable in part to Vale s share in VLI. If BNDES exercises its right on these debentures, Vale s share in VLI will be reduced by 8%
- (2) Vale holds control of its participation in CEAR through 85% interest in SDCN, holding 51% of CEAR.
- (3) Vale holds control of its participation in CDN through 85% interest in SDCN, holding 51% of CDN.
- (4) Upon conclusion of transactions with Mitsui, Vale holds 21.7% of the voting capital of CEAR, 21.7% of the voting capital of CDN, 40% of the voting capital of CLN, and 50% of the voting capital of VLL.

Table of Contents		

#### 5.1.1. Railroads

- Brazil
- <u>Vitória a Minas railroad (EFVM</u> The EFVM railroad links Vale s Southeastern System mines in the Iron Quadrangle region in the State of Minas Gerais to the Tubarão Port, in Vitória, in the State of Espírito Santo. Vale operates this 905-kilometer railroad under a 30-year renewable concession, which expires in 2027. The EFVM railroad consists of two lines of track extending for a distance of 601 kilometers to permit continuous railroad travel in opposite directions, and single-track branches of 304 kilometers. Industries are located in this area and major agricultural regions are also accessible to it. VLI holds rights to use the railroad transportation capacity at Vale s EFVM line. In 2014, EFVM carried daily an average of 326,8 metric tons of iron ore, or a total of 79.4 billion ntk of iron ore and other cargo, of which 17.2 billion ntk, or 21.7%, consisted of cargo transported for customers, including iron ore for Brazilian customers. The EFVM railroad also carried 955 thousand passengers in 2014. On December 31, 2014, Vale had a fleet of 323 locomotives and 15,146 wagons at EFVM.
- <u>Carajás railroad (EFC)</u>. The EFC railroad connects Vale s mines in the Northern System in the Carajás region in the State of Pará to the maritime terminal Ponta da Madeira, in São Luís, in the State of Maranhão. Vale operates the EFC railroad under a 30-year renewable concession, which expires in 2027. EFC extends for 892 kilometers from mines in Carajás to the Ponta da Madeira maritime terminal located near the Itaqui Port. Its main cargo is iron ore, principally carried mainly for the Company. VLI holds rights to use the railroad transportation capacity at Vale s EFC line. In 2014, EFC carried daily an average of 319,0 metric tons of iron ore. In 2014, the EFC railroad carried a total of 105.9 billion ntk of iron ore and other cargo, 3.5 billion ntk of which was cargo for customers, including iron ore for Brazilian customers. EFC also carried 307 thousand passengers in 2014. EFC supports the largest capacity train in Latin America, which measures 3.5 kilometers, weighs 42,01 gross metric tons when loaded and has 330 cars. In 2014, EFC had a fleet of 277 locomotives and 16,158 wagons.

The principal items of cargo of the EFVM and EFC railroads are:

- Iron ore, iron ore pellets, and manganese ore, carried for the Company and its customers;
- Steel, coal, pig iron, limestone and other raw materials carried for customers with steel mills located along the railroad;
- Agricultural products, such as grains, soybean meal and fertilizers; and
- Other general cargo, such as pulp, fuel and chemical products.

We charge market prices for customer freight, including iron ore pellets originating from joint ventures and other enterprises in which we do not have 100% equity interest. Market prices vary based on the distance traveled, the type of product transported and the weight of the freight in question, and are regulated by the Brazilian transportation regulatory agency, ANTT (Agência Nacional de Transportes Terrestres). VLI provides logistic integrated solutions through 7,920 km of railroads in Brazil (Centro-Atlântica Railway and Norte-Sul Railway), five land terminals with total capacity of storage of 240,000 tons and three maritime terminals and port operations. Vale holds 37.6% interest in VLI and is party in a shareholders agreement with FI-FGTS, Mitsui, and Brookfield.

Main railroads owned by VLI are:

- Centro-Atlântica Railway. Central-east regional railway network of the Brazilian national railway system under a 30-year renewable concession, which expires in 2026. The central east network has 7,220 kilometers extending into the States of Sergipe, Bahia, Espírito Santo, Minas Gerais, Rio de Janeiro, Goiás and the Federal District.
- Norte-Sul Railway. A 30-year renewable sub concession for commercial operation of a 720-kilometer stretch of the North-South railroad, in Brazil, between the cities of Acailandia, in the State of Maranhão, and Porto Nacional, State of Tocantins. This railroad is connected to EFC, creating a new corridor for the transportation of general cargo, mainly for the export of soybeans, rice and corn produced in the center-northern region of Brazil.

In 2014, VLI carried a total of 31.95 billion tku load, including 18.7 billion tku of Centro-Atlântica Railway and Norte-Sul Railway and 13.3 billion tku through Vale s operational agreements.

Additionally, Vale holds direct and indirect interest in MRS Logística S.A. (MRS), company that holds the concession to operate the railroad connecting the States of Rio de Janeiro, São Paulo and Minas Gerais, which is 1,643 km-long. In 2014, the MRS railroad carried a total of 164 million metric tons of cargo, including 70.5 million metric tons of iron ore and other cargo from Vale.

### Table of Contents

• Africa

The Nacala logistic corridor, currently in the ramp up phase, connects the Moatize unit to the Nacala-à-Velha maritime terminal, located in Nacala, Mozambique, crossing the Republic of Malawi. The Nacala corridor is a railroad and a port infrastructure, including greenfield railroads and existing portions in Mozambique and Malawi and a new port for coal in Mozambique. The Nacala Corridor will allow the Moatize mine expansion and will offer support to Vale s operations in the Southern Africa. In Mozambique, Vale operates under two concession agreements maintained by Vale s subsidiary Corredor Logístico Integrado de Nacala S.A. (CLN), which mature in 2043. In addition, Vale is refurbishing existing railroads under the concession granted by Vale s subsidiary Corredor de Desenvolvimento do Norte S.A. (CDN), which matures in 2035. In Malawi, Vale operates under the concession held by its subsidiary Vale Logistics Limited (VLL), which matures in 2041. Vale is rehabilitating existing railroads under the concession held by its subsidiary Central East African Railway Company Limited (CEAR), which was extended to 2013, with automatic renewal for a 30-year period starting from the beginning of railroad services under concession of VLL railroad.

In December 2014, Vale entered into an investment agreement under which Mitsui acquired Vale s share in the Nacala Corridor. Vale s indirect interest in CLN, CDN, VLL and CEAR will be transferred to a controlling company jointly held (50% each) and controlled by Vale and Mitsui. Mitsui will invest US\$ 313 million on this controlling company, in *equity* and *quasi-equity instruments, to be used to fund the project.* Vale and Mitsui are looking for project funding in the Project finance modality, to fund other capital expenses required by the Nacala Corridor project and to replace part of the funds application provided by Vale. The transaction is subject to certain conditions precedent and the closure is expected to 2015.

5.1.2. Ports and maritime terminals

• Brasil

Vale operates a port and maritime terminals principally as means to conclude the delivery of its iron ore and pellets to bulk carrier vessels serving the seaborne market. For more information, see item 1.1 Iron Ore and Pellets in this section of the Reference Form. Vale also uses its port and terminals to handle customers cargo. Tubarão Port. The Tubarão Port, which covers an area of approximately 18 square kilometers, is located near the Vitória Port, State of Espírito Santo, and contains: the iron ore maritime terminal and general cargo terminals (the Praia Mole Terminal and the Terminal de Produtos Diversos). The Iron Ore Maritime Terminal has two piers.

- The Iron Ore Maritime Terminal has two piers. Pier I can maintain two anchored vessels at a time, one of up to 170,000 DWT on the southern side and one of up to 200,000 DWT on the northern side. Pier II can accommodate one vessel of up to 405,000 DWT at a time, limited at 23 meters draft plus tide. In Pier I, there are two ship loaders, which can load up to a combined total of 13,500 metric tons per hour each. In Pier II there are two ship loaders that could work alternately and can each load up to 16,000 metric tons per hour continuously. In 2014, 101.5 million metric tons of iron ore and pellets were shipped through the terminal. The iron ore maritime terminal has a storage yard capacity of 3.4 million metric tons.
- Praia Mole Terminal is principally a coal terminal and handled 11.3 million metric tons in 2014. VLI is entitled to use the terminal capacity of Praia Mole.

- Terminal de Produtos Diversos handled 7.4 million metric tons of grains and fertilizers in 2014. VLI is entitled to use the terminal capacity of Produtos Diversos.
- Ponta da Madeira Maritime Terminal. The Ponta da Madeira Maritime Terminal is located near the Itaqui Port, State of Maranhão. Pier I can accommodate vessels displacing up to 420,000 DWT and has a maximum loading rate of 16,000 tons per hour. Pier III, with two berths and three ship loaders, can accommodate vessels of up to 200,000 DWT on the south berth and 180,000 DWT on the north berth or two 180,000 DWT ships simultaneously), depending on tide conditions, with maximum loading rate of 8,000 metric tons per hour in each. Pier IV (south berth) can accommodate vessels displacing up to 420,000 DWT and two ship loaders operating alternately with maximum loading rate of 16,000 tons per hour. Cargo shipped through Vale s Ponta da Madeira maritime terminal consists of its own iron ore production. Other cargo includes manganese ore produced by Vale and pig iron and soybeans for unrelated parties. In 2014, 112.3 million metric tons of iron were handled through the terminal. The Ponta da Madeira maritime terminal has a storage yard with capacity of 8.9 million metric tons, to be expanded to 10.7 million metric tons.
- Itaguaí maritime terminal Cia. Portuária Baía de Sepetiba (CPBS). CPBS is a wholly owned subsidiary that operates the Itaguaí terminal, in the Sepetiba Port, State of Rio de Janeiro. Itaguaí s maritime terminal has docks that allow the loading of ships up to 17.8 meters of draft and up to 200,000 DWT. In 2014, the terminal loaded approximately 23.8 million metric tons of iron ore
- Guaíba Island maritime terminal. We operate a maritime terminal on Guaíba Island in the Sepetiba Bay, in the State of Rio de Janeiro. The iron ore terminal has a pier (with two branches) that allows the loading of ships of up to 350,000 DWT. In 2014, the terminal loaded approximately 40.6 million metric tons of iron ore.
- VLI also operates the *Inácio Barbosa maritime terminal (TMIB*., owned by Petrobras, in the State of Sergipe; the Maritime Terminal TIPLAM, in the State of São Paulo, owned jointly by VLI and Vale Fertilizantes; and Pier II in the port of Itaqui, that can receive vessels of up to 155,000 DWT with load rate of a maximum of 8,000 tons per hour
- Argentina

Vale Logistica Argentina S.A. ( Vale Logistica Argentina ) operates a terminal at the San Nicolas port located in the province of Buenos Aires, Argentina, where it has been authorized to use a 20,000 square meters storage yard until October 2016 and has executed an agreement with unrelated parties to an additional 15,000 square meters storage yard. We handled 1.12 million metric tons of iron ore and manganese through this port in 2014, from Corumbá, Brazil, and carried through the Paraná and Paraguay rivers to be transported to Brazilian, Asian and European markets. The loading rate at this port is 24,000 tons per day and unloading rate of 13,200 tons per day.

Oman

Vale Oman Distribution Center LLC ( VODC ) operates a distribution center in Liwa, Oman. The maritime terminal has a 1.4 km deep water pier, which is integrated to a storage Yard with movement and processing capacity of 40 Mtpa of iron ore and pellets per year. The nominal loading capacity of this port is 10,000 tons/hour and nominal unloading of 9,000 tons/hour.

Table of Contents
• Indonesia
PTVI owns and operates two ports in Indonesia to support its nickel mining activities.
The Balantang Special Port is located in Balantang Village, in the South Sulawesi, and has two types of piers with total capacity of 10,000 DWT: two resources for barges of up to 4,000 DWT each for bulk dry volume and a dock for general cargo of up to 2,000 DWT.
The Harapan Tanjung Mangkasa Special Port is located in Lampia Village, in the South Sulawesi, with armoring buoys that can accommodate vessels displacing up to 20,000 DWT, and a terminal that can accommodate fuel tankers with displacing up to 2,000 DWT, with total capacity of 22,000 DWT.
• New Caledonia
We have and operate a port in Prony Bay, South Province, New Caledonia. This port has three terminals, including a passenger boat terminal for two vessels of up to 50 meters, a dock for dry bulk material for vessels of up to 55,000 DWT to unload at 8,000 tons a day and a general cargo dock for vessels of up to 215 meters. The general cargo dock can receive containers at 10 units per hour, liquid fuels (GLP, BPF, Diesel) at 350 cubic meters per hour, and <i>break-bulk</i> . The containers patio, a covered area of about 13,000 square meters, can receive up to 1,000 units. A bulk storage patio is linked to the port by a belt with storage capacity of 94,000 tons of limestone, 95,000 tons of sulfur and 60,000 tons of coal.
• Malaysia
The Maritime Terminal Teluk Rubiah ( TRMT ) is located in the State of Perak, Malaysia, and has one dock and two moors that allow unloading vessels with approximate capacity of 400,000 DWT and loading ships with capacity of up to 220,000 DWT. In 2014, the terminal unloaded 3.09 million metric tons of iron ore and loaded 2.58 million metric tons of iron ore.
5.1.3. Navigation

Vale continues to develop and operate a low cost fleet of vessels, comprised of company-owned vessels and freight vessels through mid and long-term lease agreements, to carry its cargo from Brazil to its markets. Vale has 32 vessels in operation, including 19 Valemax vessels, with capacity of 400,000 DWT, and other 13 capesize vessels, with capacities varying between 150,000 to 250,000 DWT. Vale also operates 16 Valemax vessels under long-term agreements. To support its strategy to deliver iron ore, Vale holds and operates two floating transfer stations in the Subic Bay, the Philippines, that transfers iron ore from Valemax vessels to smaller vessels that deliver the cargo to its destination. With this service, the Company expects to improve its ability to offer iron ore products to the Asian market at competitive prices and to increase its market share in China and the global seaborne market. In 2014, the Company carried approximately 158 million metric tons of iron ore and pellets on

CFR and CIF basis. (cost and freight) .

In 2014, Vale entered into cooperation agreements for the transportation of iron ore with carriers and financial institutions, located in China and in Hong Kong. Under these agreements, Vale is negotiating (i) long-term freighting agreements to guarantee long-term loading capacity to transport iron ore from Brazil to Asia and protect Vale against the volatility of freight costs, and (ii) the sale of six ore carrying 400,000 DWT ships.

On the Paraná and Paraguay fluvial system, the Company carries transport iron ore and manganese through (i) its subsidiary, Transbarge Navigacion, which transported by rivers 2.35 million tons in 2014 and (ii) freighted vessels. Barges are unloaded at the terminals of our local clients at contracted terminals in Argentina or at the facilities of its subsidiary, Vale Logistica Argentina, which carries ore in ocean vessels. Vale Logística Argentina carried 1.05 million tons of ore (out of a total capacity of 3 million tons) though the port of Saint Nicolas in seaborne vessels in 2014. In 2010, Vale acquired two new tugboats, named Morro Alto and Morro Azul, which started operating in 2015.

Vale manages a fleet with 26 tugboats, owning 25 vessels and one vessel is leased. Vale directly operates ten tugboats in the ports of Vitória and Mangaratiba, in the States of Espírito Santo and Rio de Janeiro, respectively. Six tugboats in the port of São Luis and Aracaju, in the States of Maranhão and Sergipe, respectively, are operated by consortium companies, in which Vale holds 50% interest. Other ten tugboats are freighted to and operated by third parties, under their responsibility, in other ports in Brazil.

5.1.4. Energy

Vale manages its power generation portfolio based on the current and projected energy needs of its operations, with the goal of reducing energy costs and minimizing the risk of energy shortages.

### • Brazil

Energy management and efficient supply in Brazil are priorities for us, given the uncertainties associated with changes in the regulatory environment, and the risk of rising prices. In 2014 Vale s total installed energy capacity in Brazil was 1.3 GW. Vale uses the electricity produced by these plants for its internal consumption needs. Vale currently has interest in nine hydroelectric power plants and four small-sized hydroelectric plants in operation. The hydroelectric power plants of Igarapava, Porto Estrela, Funil, Candonga, Aimorés, Capim Branco

125

### **Table of Contents**

I, Capim Branco II and Machadinho are located in the Southern and Southeastern areas and the Estreito plant is located in the Northern area. Small hydroelectric plants of Melo, Nova Maurício, Ituerê and Glória are located in the Southeast. The Aliança Geração joint venture is held by Vale and CEMIG Geração e Transmissão S.A. ( CEMIG GT ) at the following hydroelectric plants: Porto Estrela, Igarapava, Funil, Capim Branco I e II, Aimorés and Candonga.

By means of Vale s subsidiary Aliança Norte Energia Participações S.A., Vale indirectly holds 4.59% of the stocks in Norte Energia S.A. ( NESA ), a company incorporated with the sole purpose of deploying and operating the Belo Monte Hydroelectric Plant, in the State of Pará. Vale s interest grants it the right to acquire 9% of the power generated by the plant, under a long term power purchase agreement, signed in 2012. For more information on this operation, see item 6.5 in this Reference Form.

Vale also produces palm oil in the State of Pará, which will be used to produce biodiesel, through an extraction plant with installed capacity of 100,000 tons of palm oil per year. Biodiesel will be mixed with regular diesel to produce a fuel known as B20 (with 20% biodiesel), to be used in its fleet of locomotives, trucks, and heavy machinery used in operations of the North System.

#### Canada

In 2014, Vale s hydroelectric power plants in Sudbury generated 17% of the electricity requirements of its Sudbury operations. The power plants consist of five separate generation stations with an installed capacity of 56 MW. The output of the plants is limited by water availability, and by restrictions imposed by a water management plan regulated by the Government of the Province of Ontario. In 2014, the average requirements for power was 195 MW to all surface plants and mines in the Sudbury area.

In 2014, diesel generation provided 100% of the electric requirements of Vale s Voisey s Bay operations. We have six diesel generators on-site producing an average of 12 MW.

### Indonesia

Energy costs are a significant component of Vale s nickel production costs for the processing of saprolitic lateritic ores at PTVI operations in Indonesia. A great portion of the PTVI s electric furnace power requirements are supplied at low-cost by its three hydroelectric power plants located in the Larona River: (i) the Larona plant with average generation capacity of 165 MW, (ii) the Balambano plant with average generation capacity of 110 MW; and (iii) the Karebbe plant with average generation capacity of 90 MW. These plants help reducing the costs by replacing the diesel used in power generation for hydroelectric power, reducing CO2 emissions, replacing non-renewable power generation, which allow us to increase current nickel production capacity in Indonesia.

### 6. Other Investments

Vale holds 25% in iron ore pelleting plants in China: Zhuhai YPM and Anyang. The remaining shares of Zhuhai YPM are held by Zhuhai Yueyufeng Iron and Steel Co. Ltd. and Halswell Enterprises Limited, while the remaining shares of Anyang are held by Anyang Iron & Steel Co., Ltd.

Vale holds 25% in the coal operations in China, in Longyu (Henan Province) and Yankuang (Shandong Province). Longyu produces metallurgic and thermal coal and other related products, and the remaining capital is held by Yongmei Group Co., Ltd. (formerly known as Yongcheng Coal & Electricity (Group) Co. Ltd.), Shanghai Baosteel International Economic & Trading Co., Ltd. and other minor shareholders. Yankuang produces metallurgic coal coke, methanol, tar oil, and benzene, and the remaining shares are held by Yankuang Group Co. Ltd. and Itochu Corporation.

Vale owns 50.0% of capital stock of California Steel Industries, Inc. ( CSI ), a producer of flat rolled steel and pipes, located in California, in the United States. The remaining 50% belongs to JFE Steel. CSI s annual production capacity is of about 2.8 million metric tons of flat products and pipes. Additionally, Vale holds a 26.9% stake in ThyssenKrupp Companhia Siderúrgica do Atlântico ( TKCSA ), an integrated producer of steel plates located in the State of Rio de Janeiro. The plant was commissioned in 2010, and produced 4.1 Mt in 2014. The final production capacity of TKSCA is 5.0 Mtpa of plates and will require 8.5 million metric tons per year of iron ore and pellets, while working in full capacity, supplied exclusively by Vale.

We are also engaged in two other steel projects in Brazil: Companhia Siderúrgica do Pecém ( CSP ), which is being constructed, and Aços Laminados do Pará ( Alpa ), which is under analysis considering discussions with the Brazilian government.

Additionally, we hold minor interest in two bauxite mining companies, both in Brazil: Mineração Rio do Norte S.A. (MRN) and Mineração Paragominas S.A. (Paragominas), and we have agreed upon transferring Vale s interest in Paragominas to Hydro in two equal installments in 2014 and 2016. For more information on this transaction, see item 6.5 in this Reference Form. Vale concluded the transfer of the 2014 portion in December and is currently holding indirectly 13.63% in Paragominas.

Lastly, we have an onshore and offshore hydrocarbon exploration portfolio in Brazil and in Peru, which is currently under review, and, consequently, some concessions may be terminated or granted, provided that there is compliance with appropriate regulatory terms.

e. Key o	consumables and raw materials:
	iption of the relationships with suppliers, including whether they are subject to governmental control or regulation, identifying itutions and applicable legislation
prospero partners	mpany is committed to build a sustainable business model and contribute to a just, environmentally balanced and economically bus society. The Company adopts the strategy in relation to its suppliers to maintain a long-term relationship in order to promote hips aimed at gains for both parties, through continuous innovation and development and supply of goods and quality services at a ble cost.
	to achieve continuous improvement and contribute to advances in the production chain, the management of relationships with its scomprises the following steps:
(i) (environ	Certification and registration of suppliers based on Vale s values, taking into account also the identification and analysis of supply risks amental, institutional, labor, social security, financial, health and safety, ethics, and social responsibility);
	Third party Due Diligence aiming to mitigate reputation risks, arising out of eventual engagement by Vale s commercial partners with hat violate human rights or anticorruption laws applicable to Vale, as the <i>Foreign Corrupt Practices Act FCPA</i> and the <i>UK Bribery Act</i> Brazilian law against corruption (Federal Law no. 12.846, dated August 1, 2013);
(iii)	Monitoring the financial health of Vale s main suppliers of material, equipment, and services;
(iv) adheren	periodic performance evaluations to ensure compliance with applicable requirements and as defined in the contracting stage, as well as ce to agreement expectations;
(v)	Development and support in suppliers training; and
(vi)	Promotion and prospection of new suppliers.

Under the UN s Universal Declaration of Human Rights, Vale respects and promotes human rights in its activities, through its production chain and in regions where the Company operates.

In this sense, Vale aims to establish commercial relationships with suppliers who share its principles and values and who respect human rights.

Vale s principles and values are disclosed to its suppliers in its Suppliers Code of Ethics and Conduct, document signed by all the companies that have entered into a supply agreement with Vale. Note that this Code is available at the Company website (www.vale.com).

The suppliers agreements are preceded by a search in the list disclosed at the website of the Ministry of Labor and Employment (MTE) that includes individuals or legal entities found to be engaged in employing workers under slave work or analogous conditions and the list CEIS (National Registry of Suspected Companies) that lists companies with no good standing and suspended by the federal government.

The guidelines and criteria Vale adopts to evaluate its suppliers are based on the above mentioned environmental legal requirements applicable to suppliers whose operational processes involve the use of natural resources or are potentially polluting or likely to cause environmental degradation. In addition to these legal aspects, its Environmental Management criteria and the principles of its Sustainable Development Policy are considered.

With regard to recipients of waste generated in its production processes, they all are subject to audit by the Department of the Environment and Sustainable Development during their initial approval and periodic revalidation.

The main environmental laws applicable to this process are:

- a) Environmental Permit
- Federal Law 6938/81 National Environmental Policy
- CONAMA Resolution (National Council for the Environment) 237/97
- Complementary Law 140/11
- CONAMA Resolution (National Council for the Environment) 01/86.
- Federal Law 10165/00
- Federal Law 12651/12
- IBAMA (Brazilian Institute of Renewable Natural Resources) Normative Instructions 96/06 and 97/06.

• Federal Decree 4047/02
• Law 6360/76 - ANVISA - National Agency for Sanitary Surveillance
c) Transportation of Dangerous Goods
• Decree 96044/88
• ANTT Resolution (National Ground Transportation Agency) 420/02
d) Radioactive Material
• CNEN Resolution (National Nuclear Energy Council) NE 2.01
• CNEN Resolution (National Nuclear Energy Council) NE 5.02
e) Explosive Materials
• Federal Decree 3665/00
f) Controlled Chemicals
• Ministry of Justice Decree 1274/2003.
ii. Potential dependence on few suppliers
The main consumables purchased by us in fiscal year ending on December 31, 2014 were: (i) materials and other equipment, including tires, conveyor belts, parts and components, mining equipment, railroad gear, industrial installations and maintenance workshops, which, (ii) fuel and gas, and (iii) electricity. Moreover, the main rendering of services included operational services, maintenance of equipment and facilities, and

transportation	services.

The main categories of equipment purchased by the Company were transportation locomotive equipment and wagons. Vale s largest group of suppliers of these types of equipment are General Electric, Catterpillar, Astra Vagoane Calatori and Amsted-Maxion, accounting jointly for 4% of total purchases of supplies for the Company in the year ending on December 31, 2014.

Fuel consumption is quite intense, especially in operations and transport of iron ore. Vale s main supplier of this consumable item is Petrobras Distribuidora, which accounted for approximately 80% of its purchase of fuels in the year ending on December 31, 2014.

In 2014, the Company used 58% of the electricity provided by self-production in Brazil and the remaining portion was consumed through purchase of power in the market, which main suppliers were Cemig, Eletronorte, and Enertrade.

The 10 largest input, equipment and service providers represented 23% of the total purchases of the Company by December 31, 2014.

### iii. Possible volatility in their prices

We have some contracts where prices are pegged to market indexes (parametric formulas) and therefore subject to these volatilities. Prices can also vary in relation to historical prices depending on offer versus demand in the market at the time of competition.

### **Table of Contents**

### 7.4 Customers that accounted for more than 10% of total net revenues

In 2014, no customers accounted for more than 10% of Vale s net revenue.

### 7.5 Relevant effects of State regulation on the Company s activities

# a. Need for government authorization for the exercise of activities and long-standing relationship with the government to obtain such permits

Vale is subject to a wide range of governmental regulations in all jurisdictions where we operate worldwide. The following discussion summarizes the regulations that have the most significant impact on Vale s operations.

### Mining rights

Mining and mining processing are subject to specific regulations and private and public permits, which differ depending on the jurisdiction. These permits usually include concessions, licenses, prospecting applications, permits, releases, authorizations or franchises (all of which we generically refer to below as <u>concessions</u>). Some concessions have indefinite duration or duration linked to depletion of the reserve, but many have specific expiration dates, and may be renewable or not. The legal and regulatory regime governing concessions differs among jurisdictions or even locations, and there are differences between applicable legal and regulatory regimes, depending on the jurisdiction. In many jurisdictions, mineral resources belong to the State and may only be extracted upon obtaining the appropriate federal government approval (see <u>Regulation on mining activities</u>). In other jurisdictions, as Canada, a substantial part of our mining operations is conducted pursuant to mining rights or leases, often from government agencies.

The table below summarizes Vale s principal mining concessions and other similar rights. In addition to the concessions described below, we have exploration licenses and applications covering 5.1 million hectares in Brazil (out of which, 4.32 million are already under application) and 10.7 million hectares in other countries.

		Approximate area covered (in thousand	
Location	Concession or other right	hectares)	Expiration date
Brazil			
	Exploration Concession (including applications)	662,932	Undetermined
Canada			
	Exploration Concession (name varies according to the province)	278,208	2015-2035
Indonesia (1)			

	Employment Agreement (Contract of Work)	118,435	2025
Australia			
	Exploration Concession (Mining concessions)	19.209	2015-2041
New Caledonia			
	Exploration Concession (Mining concessions)	20,157	2015-2051
Peru (2)			
	Exploration Concession (Concesión de Exploración)	199,398	Undetermined
Argentina (3)			
	Exploration Concession (Manifestación de Descubrimiento)	40,108	Undetermined
Mozambique (4)			
	Exploration Concession (Mining Concession)	23.780	2032

<sup>(1)</sup> Entitled to two 10-year extensions subject to approval by the government of Indonesia. Concessions with no production have maturity dates between 2023 and 2028.

- (4) Entitled to 25-year extensions subject to the approval by the Government of Mozambique.
- (5) In Sudbury, maturity is subject to the current renewal applications that take years to be approved, but are ongoing. In Newfoundland & Labrador, mining licenses were reorganized and some of them terminated in 2014.

<sup>(2)</sup> The Peruvian mining regime includes only one type of license.

<sup>(3)</sup> Vale has returned part of its mining rights in Argentina, due to market conditions. Vale has paid and will continue paying its commitments related to potash concessions in Rio Colorado and will examine alternatives to increase perspectives in the project.

### **Table of Contents**

Many concessions impose specific obligations on the concessionaire governing such matters as how operations are conducted and what investments are required. Vale s ability to maintain its mining rights depends on meeting these requirements, which often involve significant capital expenditures and high operating costs.

### Regulation of mining activities

- Brazil. Mining activity in Brazil is currently ruled by the 1967 Brazilian Mining Code, which provides for different enjoinment regimes for mineral substances, which differ according to the mineral to be explored and the size of the Project to be developed. Currently, there are five mining enjoinment regimes, namely: Research Authorization, Concession, License Registry or Mining Licensing, Permission to Explore and Monopoly. The Federal Government has sent to the National Congress in June 2013, the proposal for a new Brazilian Mining Code, which is under discussion. This proposal includes, among others, maintenance of the main rights on mining licenses existing until the date of promulgation, a review on royalties, new regime for concessions for exploration for a period of up to 40 years (renewable for periods of up to 20 years) through bidding processes, and creation of a Mining Agency aiming to simplify the process to grant mining rights. This proposal is being discussed at the Congress.
- Indonesia. As required by the mining law that come into effect in 2009, PTVI renegotiated the terms in its labor agreement with the government, resulting in the execution of an amendment in October 2014. The purpose of the renegotiation was divided into six strategic points identified by the government: (1) size of the area under the labor agreement; (2) continuity of commercial operations; (3) State revenue; (4) domestic processing and refining; (5) divestments; and (6) priority use of local labor, assets and services. The amendment ensures the future of PTVI and Vale s commercial strategy, ensuring its rights and obligations. According to the terms in the amendment, the PVTI labor agreement matures in 2025, and PTVI may request two extensions for its operations, each one for a ten-year period, under a commercial license, upon approval by the Indonesian government. Under the terms in the amendment, Vale ensures a detailed agricultural project, reduced the work area from 190,510 hectares to 118,435 hectares, increased its divestment obligation by Vale in PTVI to 15% in the next five years and agreed upon paying a right to use fee related to the nickel market price, varying 2% to 3% over market price. Additionally, the amendment describes investment commitments consistent with PTVI growth strategy, reflecting PTVI commitment to prioritize local labor, assets, and services.
- New Caledonia. The mining law that passed in 2009 requires that new mining projects should obtain formal authorization from government authorities rather than a declaration, as required by the pervious legislation. We filed a new license application updated in March 2014, and it is expected that the authorization will be issued by April 2015. A recent bill, if approved, may postpone the approval of Vale s authorization to April 2016. Vale s current license will remain valid and in force until the application is approved. Although we believe it is unlikely that the authorization application will be rejected, the governmental entities may impose new conditions regarding the authorization. Additionally, in 2014, local authorities of New Caledonia proposed the creation of a protected swamp zone covering 27% of the total area of VNC, with potential to affect mining activities. This swamp zone is adjacent to the area close to the facility to store disposals, which could raise the need of additional investments by Vale.
- Guinea. Vale held 51% interest in VBG Vale BSGR Limited (VBG), that held iron ore concession rights in South Simandou (Zogota) and exploration licenses in North Simandou (Blocks 1 and 2), in Guinea. Upon approval of the Guinea Mining Code in 2011 (amended in 2013), the government started in 2012, a process to review existing agreements, aiming standardization under the new code. VBG suspended the works in the areas, after the technical commission established by the government started this process of review. In April 2014, the Government of Guinea revoked VBG mining rights according to technical recommendations by such commission, concluding that VBG rights were acquired by means of corrupt practices engaged by BSGR, partner of Vale in the *joint venture* VBG, prior to Vale s participation in the project. Vale acquired its interest in VBG following conclusion of comprehensive *due diligence* carried out by external consultants and based on representations that VBG had acquired its mining rights legally and with no guarantees or undue payments. The government decision does not

indicate any engagement of Vale in alleged corruption practices and does not prohibit Vale s engagement in any redistribution of mining titles in the future. Vale is evaluating its rights and legal options against BSGR. In March 2015, Vale transferred its share in VGB to BSGR. This transfer does not represent any type of agreement with BSGR, and Vale is still entitled to enforce to BSGR the losses of investments in VBG.

Mozambique. The Parliament approved a new mining law in August 2014. Although the new mining law has revoked the previous law, this law established a stability clause applicable to rights acquired under the previous law and also maintained in effect the agreements executed under the other law. Changes brought by this law include (i) imposition of a new legal regime for the acquisition of assets and services (procurement), which should occur by means of trending processes when such acquisition exceeds a previously defined amount (which is still under discussion) and (ii) the change in the legal regime applicable to the transfer of mining rights and obligations related to mining companies, which now requires prior approval by the Government of Mozambique for this transfer to branches of the Company and third parties. Except for main changes above, Vale does not expect its operations to be affected adversely by the approval of the new mining

130

### **Table of Contents**

law. It is important to also note that the parties holding mining rights granted according to the prior regime are entitled to convert their shares into mining rights subject to the regime of the new mining law. Regulation of the new mining law is pending.

#### **Environmental regulations**

Environmental aspects associated to Vale s activities, products, services and projects are subject to the environmental regulation. This regulation imposes the need to obtain specific environmental licenses, authorizations, and permits required to approve projects, install and operate the activities, which are subsidized by several studies on environmental impact and mitigation measures required by environmental entities. Likewise, each significant change to the company s activities and operations require submission of information to competent environmental entities to maintain legal conformity.

Environmental licenses issued for each operation, as well as the environmental legislation, set control measures and performance standards that should be met by the Company during its activities, demanding specific investments for environment preservation and legal compliance.

For purposes of improving the environmental licensing process, Vale developed the Best Practice Guide that offers (i) closer integration between the environment and project teams, for purposes of anticipating possible opportunities and obstacles that may rise reviewing projects; (ii) the use of fully-qualified technical teams; (iii) greater interaction with environmental entities; and (iv) deployment of an Executive Committee to respond for decisions on licensing processes.

Vale s activities, products and services are related to the sue of natural resources, mostly, protected by law, as for instance, water consumption, and evaluation of their impact on different ecosystems like, for instance, hydrographic basins and their surroundings, cavities, forests, sea, coasts. The Brazilian legal system provides for the possibility of administrative, civil and criminal responsibility, with sanctions in case of non-compliance with the legislation. Regarding environmental civil liability, financial guarantees may be used in some cases, as in case of decommissioning of assets held by the Company and remediation of possible environmental liabilities arising out of these procedures.

Legislation on Environmental Infringements

Federal Decree no. 6.514/08, that deals with environmental infringements and regulates the Environmental Crimes Law (Law no. 9.805/98), sets forth about infringements to flora and other protected areas, determining penalties for non-compliance with legislation that could vary from warning, suspension of work, stoppage of activities, and fine, which may vary from R\$5,000.00 to R\$50,000.00.

Legislation on protected areas

Protection of forests and other vegetation forms is regulated by Federal Law no. 12.651/12, that created the new Forest Code and a set of federal, state and municipal regulations.

Federal Law 12.651/12 sets forth the obligation of owners or holders of rural properties to maintain a Legal Reserve area duly protected, which will vary according to the bioma where the rural property is located, and may be equal to 80% in the Legal Amazon area. Recently, the Rural Environmental Registry was created, tool used to register electronically the Legal Reservation areas and other protected areas in the property.

The creation and protection of Conservation Units (UCs), in turn, are established in Federal Law 9.885/00, which sets forth the National Conservation Unit System (SNUC). UCs are governed by the creation decrees and management plans, and interferences within their limitations without approval of the applicable managing entity may characterize administrative infringement and cause application of penalties.

Waste Management and Contaminated Areas

Separation, collection, storage, transportation, treatment, and final disposal of residues, are regulated by the National Policy for Solid Residues, created by Law no. 12305/10. This law requires that appropriate transportation, treatment, and final disposal activities are performed by companies licensed by competent environmental authorities.

If the activity causes contamination of the ground and underground water, the Company may be required to remediate and repair such areas, and may be subject to the application of other administrative and criminal sanctions and indemnities in the civil sphere.

### **Table of Contents**

The holder of a contaminated property must automatically repair any environmental damage or adverse impact, regardless of the contamination cause, which may cause significant expenses (obligation bound to the property, and not the party exploring it). Note that the responsibility for an environmental damage is not subject to the statute of limitations, that is, it never matures over time.

Cavities

Natural underground cavities represent fragile ecosystems that comprise the national speleological assets. Intervention in natural underground cavities is regulated by Federal Decree 6.640/2008, which sets forth about the means to intervene in such areas, according to the degree of relevance of the cavity. Interference in cavities imposes the need of carrying out broad technical studies and is subject to complex discussions with applicable entities. The occurrence of natural underground cavities may be determining in planning and deployment of mining projects, and limit or alter exploration plans, as well as generate additional costs related to the preservation of the cavity or compensation measures arising out of impacts to such cavities.

Archeological sites and historical and cultural interest areas

The Federal Constitution provides that the government and the civil society are responsible for protecting the cultural heritage. In areas with the potential of having archeological sites and historic and cultural interest areas, the Company must obtain the appropriate authorization from the National Institute of Historical and Artistic Heritage (IPHAN) at project planning. Non-authorized interference on cultural, historical, and archeological areas is considered to be an administrative infringement, subject to penalties.

Hydric resources

The Company must obtain and pay to use hydric resources, and should pay for their use. According to the National Policy of Hydric Resources, the following rights on the following uses of hydric resources are subject to the grant by the Public Authority: (1) derivation or capture of portion of water existing in a water body for final consumption; (2) extraction of water from underground water reserve for final consumption or as input of productive process; (3) release of sewage in water bodies, as well as other liquid or gas effluents, whether or not treated, for purposes of diluting, transporting, or final disposition of them; (4) use of hydroelectric potential, and (5) other uses that alter the regime, the quantity, and quality of the water existing in a water body.

Carbon emissions and climate change

Climate changes may adversely affect technical requirements of Company projects, the use of equipment and the provision of services, that may have impact on the schedule and cost of Company activities.

Gas emissions that cause the greenhouse effect may, for instance, impact the operations of the Company by imposing taxation over greenhouse gas emission and/or the establishment of emission limits. These measures will demand more intense power effectiveness actions and the Company should search for a power matrix based on renewable sources.

There is a global trend to tax effects arising out of climate changes, that could affect new businesses in the future, especially initiatives aiming carbon taxation in navigation, which could raise our freight costs, namely for the Asian market.
The Company maintains policies and plans to prevent and mitigate climate changes, adopted in its operations around the world and applicable to the suppliers chain.
Environmental Liability
Environmental liability may occur in three different and independent spheres: (i) civil; (ii) administrative and (iii) criminal.
• Civil Liability: the entrepreneur, regardless of the existence of guilt, must compensate or repair damages caused to the environment and third parties affected by its activities. The environmental legislation sets forth the joint responsibility between polluting agents (Federal Law 6.938/81), which implies responsibility of all parties engaged in an event that causes environmental damages.
• Administrative Responsibility: Administrative responsibility arises out of an action or omission those results in violation against any rule related to environmental protection (Federal Decree 6.514/08). Sanctions against an administrative infraction may include warning, fine, non-use of product, suspension of sale and manufacturing of product, suspension of work or activity, demolition of work, suspension of tax benefits and cancellation or interruption of credit facilities granted by State banks, as well as prohibition to be hired by public entities.
132

# Table of Contents

• Criminal Responsibility: In the criminal sphere, Federal Law 9.605/98 (Environmental Crime Law) causes any person, individual or legal entity engaged in conducts deemed to be damaging to the environment to be subject to its effects. The Law also provides for the possibility of piercing the corporate veil of the entity causing the environmental infringement in some cases. Applicable sanctions to legal entities may be (i) partial or total suspension of the activity; (ii) temporary interdiction of establishment, work, or activity; and, (iii) prohibition of contracting with Public Authorities, as well as obtain subsidies, subventions, or donations.
Environmental legislation is becoming increasingly stricter worldwide, which consequently will lead to greater investments in Vale projects. In particular, there is expectation for heightened attention from various governments to reducing greenhouse gases, as result of concerns with climate changes. There are several examples of environmental regulations and compliance initiatives that may affect Vale s operations.
• Canada and Indonesia. In Canada, more strict rules on liquid effluents have been proposed, which may demand changes to the current control systems. In Indonesia, in turn, the existence of specific regulation on the emission of Sulphur oxides, particulate materials and metals imposes to the Company the need to make significant investments on infrastructure (control processes and equipment) in order to ensure legal conformity of the processes with the regulation.
• <i>China</i> . An amendment to the environmental protection law has been approved in April 2014, establishing stricter obligations on the prevention and control of pollution for companies while setting forth more severe penalties.
• New Caledonia. A new law, approved in the South Province in New Caledonia, will impose more rigid limits to emissions of nitrogen and Sulphur oxide and particles from large electric burning plants, impacting the power station that provides power to Vale s operation in New Caledonia. In order to be in conformity with the new law, investments must be made by the Company to improve the control system for such emissions
• United Kingdom. A recent regulatory change on effluents was issued, causing significant impact on the control systems for final treatment and other activities associated to decommission of industrial landfills, which consequently resulted in substantial increase of operation costs in Clydach
Royalties and other taxes on mining activities
In many jurisdictions, we must pay royalties or fees on the Company revenues or profits from extraction and sale of minerals. These payments are an important element in the economic development of a mining operation. The following royalties and fees apply in some of the jurisdictions in which Vale has its largest operations:

Brazil. In Brazil, we pay a royalty known as the CFEM (Compensação Financeira pela Exploração de Recursos Minerais or

Financial Compensation for Exploration of Mineral Resources) on the revenues from the sale of minerals we extract, net of taxes, insurance costs and costs of transportation. The current annual CFEM rates on Company products are: 2% for iron ore, copper, nickel, fertilizers and other

materials; 3% on bauxite, potash and manganese ore; and 1% on gold. The Federal Government sent to the Congress in June 2013, a proposal for the new Brazilian Mining Code, which is under discussion. This proposal includes, among other issues, preservation of key rights for existing mining licenses until the date of publication, review of royalties, new exploration concession regime for a period of up to 40 years (renewable for periods of up to 20 years) though bidding process and establishment of a Mining Agency for purposes of simplifying the process of granting of mining rights. Vale is currently engaged in several administrative and legal proceedings that relate to the non-payment of amounts due as CFEM. See item 4.3 in this Reference Form for further information.

- <u>Brazilian States</u>. Several Brazilian states created a mining production tax (Taxa de Fiscalização de Recursos Minerais [Mining Resources Supervision Tax] TFRM) with rates that vary between R\$ 0.50 to R\$ 2.5697 per metric ton of ore produced or transferred out of the state.
- <u>Canada</u>. The Canadian provinces in which we operate charge us a tax on profit from mining operations. Profit from mining operations is generally determined by reference to gross revenue from the sale of products of mine output and deducting certain costs, such as mining and processing costs and investment in processing assets. The rates are 10% in Ontario; up to 17% in Manitoba; and a combination of mining fee and royalties equal to 16% in Newfoundland and Labrador. The mining fee paid is deductible for corporate income tax purposes.
- Indonesia. Our subsidiary PTVI pays royalties on, without limitation, nickel production on the concession area. The payment of royalties is based on sales volume (US\$78 per metric ton of nickel in matte, and US\$ 140 per metric ton for total production below 500 tons or US\$ 156 per metric ton for total production above 500 tons of contained cobalt). In 2014, the payment of royalties corresponded to 1.13% of the revenue from the sale of matte nickel, while the annual average of royalties paid for the 2011-2014 period corresponded to 0.80% of the revenue from the sale of matte nickel, including the payment of additional royalties in 2014 for the production above 160 million pounds in 2013, as agreed upon in the previous regime. After execution of the amendment to

### **Table of Contents**

the Employment Agreement in October 2014, PTVI started to pay mining royalties corresponding to 2% over its matte nickel revenue, when LME nickel price is lower than US\$ 21,000 per metric ton; 3% over its matte nickel revenue, when LME nickel price is equal or higher than US\$ 21,000 per metric ton.

- Australia. In Australia, royalties are paid on the revenues from sales of minerals. In the State of Queensland, royalty applicable to coal is 7% of the net income (deducting freight costs and other costs) up to A\$100 per ton and 12.5% of the amount between A\$100 and A\$150 per ton and 15% subsequently. In the State of New South Wales, the royalty applicable to coal is the percentage on the total production or total revenue (which is net of some expenses and fees) minus permitted deductions, equal to 6.2% for deep underground mines, 7.2% for underground mines, and 8.2% for open pit mines. There is also an additional 1.95% royalty (for coal recovered between December 1, 2012 and June 30, 2013) and 1% (for coal recovered after July 1, 2013) from the value of recovered coal, paid only by the titleholders of exploration concessions that are subject to the payment of tax for the leasing of natural resources.
- <u>Mozambique.</u> The Congress approved in September 2014 a new tax regime for the mining and oil sectors, that could affect mining projects in Mozambique. The new law guaranteed stability and security of tax regimes provided for in mining agreements executed prior to the new tax law. Vale is analyzing the effects of this change to its operations in Mozambique.
- Zambia. The government of Zambia recently introduced substantial changes to the tax regime for the mining industry, which came into effect on January 1, 2015. The government replaced the income tax of mining companies for a mining royalty corresponding to 8% of the income from underground mine operations, and a 20% mining royalty of the income from open pit mines. Operations generating income from the transportation or processing of ore, concentrate or other semi-processed minerals, will be subject to 30% income tax. Previously, the royalty fee for underground and open pit mine operations were 6% for every ore. The impact of these changes on mine operations will depend on operational costs, with royalty increase based on the market price for minerals, placing a greater burden on high cost operations, compared to the previous system based on operational profit. Considering operations of Vale s joint venture in Zambia are underground, these operations will be subject to an 8% mining royalty fee.

### Regulation of other activities

In addition to mining and environmental regulation, we are subject to comprehensive regulatory regimes for some of our other activities, including rail transport, port operations, and electricity generation. We are also subject to workers health and safety legislation, safety and support of communities near mines, and other matters. Descriptions below relate to some regulatory regimes applicable to our operations:

• <u>Brazilian railroad and ports regulation</u>. Aiming to ensure the reliability on the railroad and port logistics aimed to meet specific needs to more large volumes with operation efficiency, Vale acts in these sectors by means of its assets Estrada de Ferro Carajás, Estrada de Ferro Vitória a Minas and its port terminals detailed in this Reference Form. For that end, Vale holds the concession of railroad services and authorizations to explore its Private Port Terminals, and under lease preceded by bidding process to explore the Private Terminal, in the case of the wholly owned subsidiary, Companhia Portuária Baía de Sepetiba (<u>CPB</u>S).

In these activities, Vale is subject to regulatory inspection by the National Agency of Land Transportation (ANTT), linked to the Ministry of Transportation for railways; and the National Agency of Water Transportation (ANTAQ), linked to the Secretary of Ports of the Presidency of the Republic, for port activities. Both Agencies were created in 2001 by Federal Law no. 10.233/01, that established attributions to inspect compliance with the granting contracts and establish complementary rules to regulate the railroad and port sectors. Regulatory acts issued by the ANTT in recent years include rules dealing with User Regulations, rules for determination of goals, rules for sharing infrastructure in 2011 and independent railroad operator in 2014. In terms of ports, Law 12.815/2013 presented substantial changes, for instance, the end of restrictions associated to third party cargo, and ANTAQ promoted adaptation of adherence agreements and issued new resolutions with procedures for new grants, inspection of private terminals, and applicable penalties.

- Regarding prices, railroads are subject to tariff tables determined by ANTT, with annual adjustments, applicable to third party users of railroad services. When carrying own cargo, a transfer price was set merely for purposes of accompaniment of the concession. In case of port terminals, this is a private economic activity exercised with free prices. For own cargo, there is no price asked, considered to be production cost, except for the service provided by CPBS to Vale, as this is a specific purpose company, it asks for fee for port movements.
- Regulation of chemical products. Some of our products are subject to regulations applicable to the marketing, distribution and use of chemicals in their compositions. For example, the European Commission has adopted a European Chemicals Policy, known as REACH (Registration, Evaluation, and Authorization of Chemicals). Under REACH, manufacturers and importers are required to register substances prior to their entry into the European market and in some cases may be subject to an authorization process. A company that fails to comply with the REACH regulation could face fines and penalties.
- <u>Regulation in Transocean transportation of iron ore and iron ore fines.</u> Vale is subject to rules issued by the International Maritime Organization ( IMO ) that governs the safe shipment of products, including iron ore. IMO is discussing the prejudicial impact of

### **Table of Contents**

certain substances to the marine environment, that could cause changes to the waste management procedures currently adopted in maritime transportation.

b. Environmental policy of the Company and costs incurred for compliance with environmental regulation and, where appropriate, other environmental practices, including adherence to international standards of environmental protection

Vale s governance structure is based on policies with guidelines and principles that direct the strategy, the process and the actions taken by the Company. Key policies related to the environment are the Sustainable Development Policy, the Security and Health Policy, the Climate Global Change Policy, and the Human Rights Policy. These policies, with specific plans and programs for each Vale unit provide the necessary guidance to achieve its sustainability goals and its short, medium, and long term business decisions.

Vale s Environmental Management System determines the development and implementation of effective control, monitoring, conservation, environmental protection and rehabilitation, aimed at ensuring the minimization of the environmental impacts on the ecosystems in which it operates. Vale s management system is based on ISO 1400(International Organization for Standardization) guidelines, to which it adds additional requirements that make up Vale s standard of environmental quality, which, in some cases, establish more restrictive requirements to the list of applicable legal requirements, for purposes of promoting continuous improvement of environmental management. Aiming to assess the effectiveness of the environmental management system, Vale submits the operations, periodically, to internal and external audits.

Listed below are our units with ISO 14001:

- Iron ore: Ferrosos Sul, Ferrosos Sudeste, Ferrosos Centro-Oeste, Ferrosos Norte and Complexo de Tubarão;
- Manganese: Conselheiro Lafaiete (Morro da Mina);
- Nickel: Onça Puma, Vale Europa (Refineries Acton and Clydach), Vale Dalian (China), Vale KNC (South Korea), Vale Taiwan (Taiwan) and Vale Matsusaka (Japan);
- Logistics: Port and railway operation at Complexo de Tubarão;
- Copper: Minas do Sossego and Salobo;
- Fertilizers: Cubatão (1, 2 and 3), Catalão, Araxá, Tapira and Uberaba.

In the last three years, US\$3,757.80 million was invested in environmental management actions; these actions were focused on compliance with regulations or other environmental practices.

As Vale is a mining company, air emissions is one a significant environmental aspect inherent to its operations and impose to the Company the need to deploy specific control actions in order to ensure conformity of its activities with legal requirements (emission standards and air quality in neighboring communities) and Vale s performance standards. Vale s systems and equipment related to pollution control include: a water aspersion system for unpaved roads, as well as the use of chemical inhibiting substances to control dust, filters and electrostatic precipitators complemented by integrated monitoring systems and online control software. For more details, see Vale s 2014 Sustainability Report, on page 77.

Another relevant aspect of the Environmental Management System is the rational use and quality of the water resources where we have control systems for the effluents generated, as well as programs and development of technologies for continual reduction of consumption and/or re-use. For more details, see Vale s 2014 Sustainability Report, on pages 85 and 90.

The waste management program is another initiative that prioritizes minimization of generation, as well as re-use and recycling procedures, as well as adequate disposal practices.

The orientation for decommissioning of assets include practices and procedures implemented over the project life cycle. These procedures are aligns with the guidelines of the *Comissão de Valores Mobiliários* - CVM and the Securities Exchange Commission - SEC (IAS 37) for the annual estimates of asset demobilization costs and provisioning of resources for future deactivation and recovery of the area. The definition of future use of each unit is established in the Closing Plan, considering environmental, social and economic aspects, according to the specific operational procedure, noting that the Sustainability Report reflects the percentage of compliance with these guidelines. For more details, see Vale s 2014 Sustainability Report, on page 78.

In regards to risk management, the tailings dams are highly relevant and are submitted to periodic safety audits, as well as to operation and monitoring practices to evaluate geotechnical stability.

Vale s environmental program also includes management of recovery of degraded areas (RAD) in the territories where the Company has activities, whether or not these areas were degraded by operational activities. RAD management also covers the preparation of restoration and repair projects aimed at protection of water resources, harmonization of scenery, geotechnical stability, increasing, gene flow and the

### **Table of Contents**

well-being of human populations. We have partnerships with universities, institutions and governmental research agencies to optimize methods of protecting the ecosystem. For more details, see Vale s 2014 Sustainability Report, on page 95.

Vale acts in several areas, including areas of high cultural value and high relevance for biodiversity. In all the stages of our projects, we develop and support actions that encourage the conservation and sustainable use of natural resources through the adoption of good practices to mitigate negative impacts and promote positive impacts in the locations where we act.

For preservation of biodiversity and ecosystem services, Vale contributes to the maintenance of protected natural areas, whether its own or in partnership with local governments, intended for conservation, and promotion of engagement with communities, scientific institutions, governments and other relevant actors. For more details, see Vale s 2014 Sustainability Report, on pages 91 to 95.

In order to build a positive legacy, in the past 25 years, Vale has offered support to indigenous communities in education, health, infrastructure development and technical assistance to improve the quality of life and self-sufficiency of these communities. For more details, see Vale s 2014 Sustainability Report, on page 73.

### c. Reliance on patents, trademarks, licenses, concessions, franchises, contracts, royalties for the development of relevant activities.

We operate mines, railways, ports, marine terminals and power plants, in general, through concessions granted by federal and State governments in several countries. Accordingly, we depend greatly on the concession of operating licenses for such assets for the development of our activities. For more information on our permits and concessions, see item 9.1 b of this form.

Additionally, our intangible assets portfolio, as a whole, generates added value for our operating units in different aspects, whether by the commercial side, which includes technology transfer, open innovation, and economic exploration, whether as unique competitiveness tool, as it creates technological barriers to competitors, or even as instrument to increase productivity and/or reduce personal and environmental risks, as patents related to employee health and security in strategic areas. Among our intangible assets, we consider our registrations for the brand VALE as the most relevant ones for our activities which, with other assets, offer direct technical and financial benefits for our activities in different production fronts.

#### 7.6 Relevant revenue from abroad

Fiscal year ending on December 31, 2014

Revenue from customers attributed to:	Revenue (R\$ thousands)	% In total income
China	29,762,000	40
Japan	8,530,000	12
United States	3,210,000	4
Europe	15,732,000	21

Middle East/Africa/Oceania Other countries	4,410,000 12,685,000	17
Total income from abroad	74,329,000	100

# 7.7 Effects of foreign regulations on activities

For information on the effects of foreign regulations on our activities see item 7.5 in this Reference Form.

### Sustainability

The Company, with the support by its Board of Directors, reaffirms in the document available at http://www.vale.com, its commitment with the United Nations Global Pact and reports, in such document, the progress in the deployment of its principles.

The focus of Company investments is the development of world-class assets, with long use life, low cost, high-quality products, employing state of the art technology and expansion capacity, taking into account value generation linked to commitments assumed with people at different sites where the Company acts and with the planet.

The pillar Incorporate Sustainability into Business is one of the five pillars in Vale s environmental strategy and in order to leverage progress in its management the Company established global policies as the Sustainable Development Policy, the Human Rights Policy, and the Health and Security Policy. Additionally, Vale (i) maintains the Sustainability Action Plan (PAS), which indicators are related to issues that aim continuous improvements of Company performance regarding sustainability aspects; (ii) established priority environmental aspects as diminishing the issuance of greenhouse gas effects, preservation of the quality of water resources and protection of natural areas, and (iii) is committed to promoting the sustainability agenda with its vendors and clients and to acting to promote the sustainable development in partnership with governments and the society.

Additionally, Vale s variable compensation program binds the economic and financial performance to operational excellence and sustainability which in turn are linked to issues that aim continuous improvement. These indicators are focused on the environment, and starting in 2014, incorporate social issues of the operational units as well. Environmental indicators consider water, residues, emissions, direct and indirect power, and the recovery of damaged areas. Social indicators contemplate issues addressed at the integrated demand management model.

In 2015, Vale was selected, for the fifth consecutive year, to be part of the BM&F Bovespa ISE Corporate Sustainability Index and also continued to be part of the ICO2 Efficient Carbon Index.

The Company is part of the group of companies of the United Nations Lead Global Pact and is committed with the promotion of its principles, in issues related to human rights, labor rights, fight against corruption, and environment protection. The Company is also member of the ICMM Council, which provides an important exchange aiming continuous improvement of sustainability in our activity sector.

The Company obtained the best grade, regarding quality in transparency related to the disclosure of information on climate changes, among Latin American companies that respond to the CDP questionnaire.

In issues as sustainability practices, Vale continued to deploy measures to reduce the incurrence of accidents in 2014. In Brazil, the Lost Work Case Frequency Rate (LWCFR), measured in number of accidents with lost work per million man/hours worked, was 0.50. The Total Recordable Injury Frequency Rate (TRIFR), in number of accidents per million man/hours worked was 1.49, decreasing 26.24% compared to the year before. Global indicators reflect, likewise, progress in our goals, with a 13.04% reduction in LWCFR, reaching 0.60 in 2014, and 20.61% reduction in TRIFR compared to 2013, totaling 2.08 in 2014.

The Company has a global sponsorship policy for projects that contemplates the following foundations:

- Cultural: the Company acknowledges in culture a genuine form to express life in society, rich in its ability to reveal histories, values, expressions, and costumes. Furthermore, the Company believes that cultural diversity is an essential asset to be protected. Based on this view, the company looks for projects that acknowledge, value, protect, and promote material and non-material cultural assets, especially music.
- Technical Institutional: the Company supports projects and partnerships that contribute to the theoretical and practical evolution of knowledge aiming sectors the company Works with, whether directly connected to its business and other areas of institutional interest or areas related to its mission.

Additionally, the Company follows a specific policy for social actions in the Brazilian territory, that sets forth base rules for this investment and defines as priority areas health, education, and job and income generation, although the rules also apply, similarly, to the cultural area, including cultural equipment management.

Table of Contents
7.9 Other relevant information
Lei 12.973
On May 13, 2014, Law 12.973 (regulated by Normative Instructions 1515 and 1520) was issued, significantly altering the federal tax legislation in effect, broadly affecting taxation in Brazilian companies. Issues addressed by Law 12.973, include:
• new mechanism to tax in Brazil profits generated abroad by direct and indirect subsidiaries abroad, by the competence regime and affiliates by cash regime, calculated in the balance sheet according to local practices, with the ability to discount taxes paid abroad with limitations. When specific terms set forth by the law are met, there could be (1) consolidation of results (profits and losses) from direct and indirect subsidiaries qualified for taxation purposes by 2022, and (2) payment differed for up to 8 years of taxes due over the profit of qualified foreign companies. This change may case increase of income tax starting in 2015;
• <u>extinction of the Transitory Tax Regime (RTT)</u> , by adapting tax rules in effect to new accounting rules in effect in Brazil. In general, Law 12.973 regulated the tax treatment applicable to revenue, costs, expenses, and equity changes recognized by Brazilian companies according to new accounting criteria adopted in Brazil, which are the result of the process of convergence between accounting rules then in effect in Brazil to international standards (IFRS).
• <u>changes to the rules of tax amortization for impairment paid in the acquisition of corporate interest</u> . Among different new rules related to impairment in the acquisition of interest, Law 12.973 determined that the only impairment entitled to be deducted from the IRPJ and CSLL calculation base is impairment generated between independent parts, and deduction of impairment generated between companies of the same group or by the exchange of shares (between the respective issuers), is no longer accepted. Additionally, Law 12.973 established the order in which the PPA (purchase price allocation) will appear in acquisitions and corporate reorganizations.
• new concept of gross income, for purposes of incurrence of PIS and COFINS. Law 12.973 has also broaden the concept of gross income, which may impact calculation of PIS and COFINS, incurring on the gross income of corporations.
• treatment given to dividends and interest on own capital ( JCP ). Law 12.973 recognized exemption of profits or dividends distributed by November 12, 2013, date when MP 627 was published, exceeding the profit calculated based on accounting criteria in effect in 2007. To calculate the JCP deductible limit, Law 12.973 authorized the use of the net equity value of the respective Brazilian company, as calculated based on the terms in Law 6.404/76.
New rules arising out of Law 12.973 have been in in effect on January 1, 2015.

#### 8.1 -Description of the Economic Group

#### a. direct and indirect controllers

Valepar S.A. is a holding company that has direct control of Vale, with a participation, on December 31, 2014, of 33.12% of the Company s capital stock. Valepar is controlled by: (i) Litel Participações S.A., a holding company (52.340%); (ii) Bradespar S.A., a holding company (17.23%); (iii) Mitsui & Co., Ltd, a trading company (15.09%); (iv) BNDES Participações S.A., a holding company (9.60%); and (v) Eletron S.A., a holding company (0.02%).

Litel Participações S.A. is a holding company controlled by BB Carteira Ativa (80.13%), an investment fund, administered by BB Gestão de Recursos Distribuidora de Títulos e Valores Mobiliários S.A., whose shares are 100% owned by Previ Caixa de Previdência dos Funcionários do Banco do Brasil (Previ). Previ is a closed, private pension fund and its participants are employees of the Banco do Brasil and of Previ itself. Previ management is divided between the Advisory Board and the Board of Directors. The Board of Directors is composed of six members: President, Director of Administration, and Directors for Investments, Social Security, Share Participation, and Planning. The Advisory Board is composed of six members and their substitutes. Three are elected by the participants and users of the pension fund, and three others are indicated by the Banco do Brasil. According to the Charter of Previ, the Advisory Board is the highest body of the organizational structure of Previ and responsible for defining the general policy for the administration of the entity.

Bradespar S.A. is a holding company controlled by: (i) Cidade de Deus Companhia Comercial de Participações S.A., a holding company (12.93%); (ii) NCF Participações S.A., a holding company (9.33%); and (iii) Fundação Bradesco, a non-profit entity with the objective of providing education and professional training for children, youths, and adults (5.20%). The Cidade de Deus Companhia Comercial de Participações S.A. is controlled by: Nova Cidade de Deus Participações S.A., a holding company (45.05%); Fundação Bradesco (33.31%), and Mmes. Lina Maria Aguiar (8.54%) and Lia Maria Aguiar (6.72%)]. NCF Participações S.A. is controlled by: Fundação Bradesco (60.41%); Cidade de Deus Companhia Comercial de Participações S.A. (39.51%); and Nova Cidade de Deus Participações S.A. (0.08%). Nova Cidade de Deus Participações S.A. is controlled by Fundação Bradesco (73.93%) and BBD Participações S.A. (26.07%). BBD Participações S.A. has its capital dispersed among multiple shareholders, and NCD Participações S.A. is the largest of them, with 21.86% of the total share capital. In accordance with the terms of the Statute of the Fundação Bradesco, all directors, Executive Directors, and members of the Board of Directors of Bradespar, as well as all directors and members of the Board of Cidade de Deus Companhia Comercial de Participações S.A., act as members of Fundação Bradesco highest decision-making body, known as the *Mesa Regedora*.

Mitsui & Co., Ltd is a trading company, headquartered in Japan, which has its capital spread among many shareholders, but whose largest shareholders are the following Japanese banks: (i) the Master Trust Bank of Japan, Ltd. (trust account) with 8.07% of the share capital; and (ii) Japan Trustee Services Bank, Ltd. (trust account) with 5.89% of the share capital.

BNDES Participações S.A. is a holding company 100% owned by Banco Nacional de Desenvolvimento Econômico e Social (BNDES), holding direct (5.21% of the capital stock on December 31, 2014) and indirect interest on the Company, as shareholder of Valepar, as detailed above.). BNDES is a public company endowed with legal personality under private law, whose shares are 100% owned by the Federal Government.

Eletron S.A. is a holding company controlled by Opportunity Anafi Participações S.A. (99.99%), a holding company controlled by Belapart S.A. (21.73%), Opportunity Holding FIP (56.54%), and Valetron S.A. (21.73%). Belapart S.A. and Valetron S.A. [sic] are corporate holding companies controlled by Ms. Verônica Valente Dantas, who owns 56.16% of the total share capital of each of the above-mentioned companies]. Opportunity Holding FIP is an equity investment fund, managed by Opportunity Private Equity Gestora de Recursos Ltda.

### Table of Contents

### 9.1 - Relevant non-current assets / 9.1.b - Patents, trademarks, licenses, concessions, franchises, and contracts for technology transfer

pe of asset	Description of asset	Territory affected	Duration	Events which might cause a loss of rights	Consequences of loss of rights
ncessions	Mining concessions in Brazil	662,932 hectares	Undetermined	Persistent breach of current mining legislation: predatory mining; mining stopped without notice to, and consent of, the competent agency; not answering repeated requests for routine inspections.	Interruption and/or cancellation of mining operations in Brazil
ncessions	Lease license to mining in Canada	278,208 hectares	2015-2035	Failure to pay taxes (mining tax or rental fees), non-compliance with regulation, failure to present renewal application. Rejection of application for renewal, noncompliance with renewal requirements.	Interruption and/or cancellation of mining operations and/or mineral exploration in Canada
					152

Type of asset	Description of asset	Territory affected	Duration	Events which might cause a loss of rights	Consequences of loss of rights
Concessions	•	118,435 hectares		End of the term of the contract; cancellation due to errors or irregularity in the procedure for or in the act of its granting; and in the case of the bankruptcy or dissolution of the concessionaire. Breach of legislation.  The Contract of Work of mines that Vale has in Indonesia expires in 2025. However, according to the new Mining Law, Vale may request at least	Interruption and/or cancellation of mining operations in Indonesia.
Concessions	Mining concessions in Australia	19,209 hectares	2015-2041	one extension of 10 years.  Non-payment of lease/royalties; failure to submit report on activities.  Breach of legislation.	Interruption and/or cancellation of mining operations in Australia.
Concessions	Mining concessions in New Caledonia	20,157 hectares	2015-2051	Non-payment of fees, non-payment of lease/royalties; non-submission of report on activities; lack of activity on the concessions. Breach of legislation.	Interruption and/or cancellation of mining operations in New Caledonia; impossibility of adding mineral resources that allow expanding our mining activities outside the area of the VNC project.

### Table of Contents

Type of asset Concessions	Description of asset Mining concessions in Peru	<b>Territory affected</b> 199,398 hectares		Events which might cause a loss of rights Non-payment of fees for more than two consecutive years and non-payment of fines. Breach of legislation.	Consequences of loss of rights Interruption and/or cancellation of mining operations in Peru.
Concessions	Mining concessions in Guinea	40,108 hectares	Undetermined	Failure to present the request for measurement, failure to use legal labor (LL), non-payment of fee ( <i>canon minero</i> )	Interruption and/or cancellation of mining operations in Argentina.
Concessions	Mining concessions in Mozambique	23,780 hectares	2032	In this country, the reasons for loss of the concession are, above all, related to: (i) the abandonment or the mine; (ii) the performance of mining activities under health and safety conditions that are not compatible with the requirements of local legislation; (iii) the lack of payment of fees regarding production of minerals and other levies due as a result of carrying out mining activity; and (iv) bankruptcy of the company, failure to demarcate the area, failure to pay specific taxes, failure to present working reports, and non-performance of work in accordance with the mining plan.	Interruption and/or cancellation of mining operations in Mozambique.

	hydraulic energy Mello Dam				small hydroelectric plant.
Trademarks	Registration of Mixed Trademark Vale	172 countries	2017 (extendible every 10 years)	Within the administrative sphere (the Brazilian National Institute for Industrial Property INPI), the registration of trademarks already granted may be contested through nullification procedures or be subject to petitions for partial or total cancellation under the allegation that the trademark is not being used in the way that the registration was granted. In the judicial sphere, third parties may sue for the nullification of trademark registrations alleging violation of their rights to industrial property. Trademark registrations are maintained by periodic payments to INPI. The payment of the fees due and the continual use of the trademarks are indispensable to avoid the termination of their registration and the consequent cessation of the rights of the holder.	The loss of rights to trademarks results in the impossibility of stopping third parties from using identical or similar trademarks to brand even competing products and services, since the holder loses the right to the exclusive use of them. There also exists the possibility that the holder be subject to criminal and civil lawsuits for improper use, in the case of the violation of the rights of third parties, resulting in the impossibility of using the trademarks when carrying out its activities. It is not possible to quantify the impact of these events.

#### **Description of activities**

Develop studies for technical-economic viability, as well as market studies, business plans, and other related studies to build an integrated steel plant in Marabá ( Project ), in the State of Pará, dedicated to the production of steel, including one or more plants for sintering, coking, high furnace, steel mill, and machines for ingot casting/finishing for the Project. The studies will also include market, engineering, and environmental assessments, budgets, and fiscal and economic analysis (the Project Study ). Acquire the premises where the Project will be installed and sign the necessary agreements for said acquisition. Obtain the required licenses for the implementation of the Project, including, but not limited to the environmental licenses. Negotiate all commercial agreements that are necessary for the implementation of the Project, including the supply of iron ore/pellets, contracts for the supply of coal, of ferroalloys, and contracts for the supply of logistic services, among others.

#### 9.2 Other Relevant Information

As of December 31, 2014, Vale considered as intangibles assets of Intellectual Property a total of 6,906 processes throughout the world, in a total of 172 countries (170 patents in Brazil and 1,347 abroad; 925 trademark processes in Brazil and 1,640 abroad; and 2,147 domain names in Brazil and 604 abroad; and 72 software in Brazil and 1 abroad).

Tabl	le of	Contents

#### 10. Director Comments

#### 10.1. General Financial and Equity Conditions

Financial information included in this Reference Form, except expressly otherwise noted, refers to consolidated financial Statements of years ending on December 31, 2012, 2013, and 2014.

Information in this item 10 in the Reference Form should be read and analyzed jointly with our consolidated financial Statements, available at our website (www.vale.com.br) and the website of Comissão de Valores Mobiliários (www.cvm.gov.br).

#### a. General Financial and Equity Conditions

In 2014, Vale net operational revenue was R\$ 88,3 billion, and the operational margin (prior to the recoverable values of noncurrent assets and loss in the measuring of the sale of noncurrent assets) was 22.3%. The operational profit was R\$ 16,6 billion in 2014, an approximate 50% reduction compared to the operational profit in 2013, mainly due to a drop in ore prices. Continuous Company efforts to cut costs, investment discipline and focus on core business were seen this year. Vale had a 11.9% reduction in net operational costs (including SG&A, research and development, pre-operational and stoppage, as well as other costs), corresponding to R\$ 1,277 billion, relative to 2013. This drop was due mainly to the reduction of costs related to operation stoppage and optimization in the Company s cost structure, after adjustments made in 2013. Additionally, in 2014, Vale had a reduction of 49.7% in the impairment of assets, R\$ 5,390 billion in 2013 to R\$ 2,713 billion in 2014, due to return on the Onça Puma operation. Cash generation, measured in Adjusted EBITDA(1), was R\$ 31,1 billion in 2014.

In 2013, as a result of the Company s focus on investments in world-class assets, several adjustments were made, among the non-realization of the potash project (PRC) in Argentina, and the sale of the company Tres Valles, as described in Explanatory Note no. 7 of the Company s 2013 Accounting Statements. Besides, Vale also reported an operation in the Tax Recovery Program REFIS, which substantially involved all of the claims related to income tax collection and social contributions on capital gains of subsidiary and associated companies abroad, whose loss expectations were classified as possible. Such factors negatively affected our financial performance in 2013, resulting in financial indicators reduction relative to what was obtained in 2012. In this scenario, we had a net loss of R\$ 258 million in 2013; relative to 2012 s net profit of R\$ 9.4 billion.

2012 was a very challenging year for the world s economy, which, amidst a cloud of uncertainties, grew below the long-term trend for the second consecutive year. One of the consequences of the adverse macroeconomic scenario was the general drop in the price of minerals and metals, with the exception of gold, a very valuable metal whose prices are influenced by other factors. The iron ore price became very volatile, showing great low volatility particularly in the third quarter.

Regarding the main conditions of the Company, it is worth noting that on December 31, 2014, the total net debt was R\$ 66,354 billion, compared to R\$ 56,520 billion, R\$ 50,444 billion, respectively on December 31, 2013 and 2012. Despite the increase on the net debt in reais in

the period between 2012 and 2014, the absolute debt in dollars decreased a little, from US\$ 30,546 billion on December 31, 2012
(1) Adjusted ERITDA excluding non-recurrent effect

#### Table of Contents

to US\$ 29,655 billion on December 31, 2013 and US\$ 28,807 billion on December 31, 2014. The increase in the net debt in reais is due to real devaluation against the US dollar and the lower cash position on December 31, 2014 compared to December 31, 2013.

On December 31, 2014, the current liquidity index of the Company (which is the index found by dividing the current asset by the current liability) was 1.56, compared to 2.25 on December 31, 2013 and 1.78 on December 31, 2012. The decrease in the liquidity index in 2014 compared to two years before resulted mainly from lower cash generation from operational activities due to the lower price of most *commodities*.

In the same period, the Company debt index, which is found by dividing the current and noncurrent liabilities by total assets on December 31, 2014, was 0.52 compared to 0.48 on December 31, 2013 and 0.43 on December 31, 2012. This behavior demonstrates the exchange variation over the debt.

On December 31, 2014 the Company had controlling shareholders equity of R\$ 146,414 billion compared to R\$ 148,346 billion on December 31, 2013 and R\$ 149,664 billion on December 31, 2012. Shareholders equity suffered a slight variation, mainly justified by the use of the net profit of the year to pay the shareholders compensation and set forth provisions.

#### Table of Contents

In 2014, 2013 and 2012, Vale delivered to its shareholders dividends in the amount of US\$ 4.2 billion, US\$ 4.5 billion and US\$ 6.0 billion, respectively.

Ferrous minerals sales iron ore, pellets, manganese ore and ferroalloy, represented 68.4% of total net operating revenues in the year ended on December 31, 2014, relative to 74.6% in the year ended on December 31, 2013, after the general load was discontinued. In contrast, in 2012, these sales represented 73.7% of our total net operating revenue.

Basic metals participation in the total net revenue was 20.6% in 2014 compared to 15.5%, after discontinuation of the general load in 2013. In turn, in 2012, the participation was 15.3%.

Fertilizer revenue was 6.4% in 2014 compared to 6.0%, after discontinuation of the general load in 2013. In 2012, fertilizer revenue was 7.7%.

Other products represent 4.6% of the 2014 total operating net revenue, relative to 3.9% in 2013. In 2012, the contribution was 3.3%.

Business segments	Fiscal y	Fiscal year end on December 31		
	2012	2013	2014

#### Table of Contents

#### b. Capital Structure

On December 31, 2014, 2013, and 2012, our equity was R\$ 149.601 billion, R\$ 152.121 billion, and R\$ 152.909 billion; our gross debt added was R\$ 76.517 billion, R\$ 68.977 billion, and R\$ 61.856 billion; and our cash position was R\$ 10.555 billion, R\$ 12.465 billion, and R\$ 11.918 billion; and our gross debt index and obligations with third parties/shareholders equity and participation of non-controlling shareholders was 51.7%, 47.9%, and 42.7%.

#### i. Hypotheses of Redemption

#### ii. Redemption Value Method

Our by-laws do not authorize the application of profits or reserves to redeem or amortize shares. Additionally, on the date of this Reference Form, our Management does not intend to call a Special Shareholders Meeting for this purpose.

#### c. Payment Capacity in Relation to the Financial Commitments Assumed

- (1) Vale enjoys a healthy financial position, supported by strong cash generation, ample liquidity, availability of short- and long-term credit facilities, and a portfolio of debt with low risk. This position gives us the capacity to easily pay our financial commitments.
- (2) The leverage, measured by the gross debt//adjusted(4) EBITDA, showed reduction, as the following table illustrates:

	Fisca	l year end on December 31	
In R\$ billions	2012	2013	2014
Operating Income - EBIT	15,035	33,433	17,572

#### d. Source of financing for working capital and investments in non-current assets

The sources of funds utilized by Vale in the last three years were generation of operating cash, loans and financing, and issue of bonds and securities, convertible or not, launched in the capitals market and sale of investments.

Operating activities from continuing operations generated cash flows of R\$ 27,792 billion in 2014, compared to R\$ 31.876 billion in 2013, and R\$ 32.143 billion in 2012. Operating cash flow suffered a reduction in 2012 determined mainly by price drops in our products. In 2013, operating cash flow suffered variation mainly due to the gold stream operation outsourced in February 2013 with Silver Wheaton Corp. (SLW) to sell 70% of the payable gold flows produced as a byproduct in the nickel mines in Sudbury Coleman, Cooper Cliff, Creighton, Garson, Stobie, Totten and Victor for a 20 year term, and with Silver Wheaton (Caymans) Ltd. to sell 25% of the payable gold flows produced as a by-product in the copper mine in Salobo for the longevity of the mine. In 2014, the operating cash flow suffered variation mainly due to the drop of the price of ore and pellets

Among other more relevant operations in the three-year period, the following are highlighted:

• In December 2014, Vale acquired exporting prepayment with the Bank of China, in the amount of US\$ 300 million. The total term of this operation is 6 years and by December 31, 2014 there was no disbursement related to this operation.

deployment of S11D and CLN S11D projects. The financing shall be in effect for ten years and funds will be disbursed in up to three years, according to the projects schedule. By December 31, 2014, R\$ 1.9 billion were disbursed under this agreement.
• In January 2014, Vale issued infrastructure debentures in the amount of US\$ 376.5 million (equivalent to R\$ 1.0 billion). Infrastructure debentures are to be adjusted and will pay annual interest, according to IPCA + 6.46% per year (equivalent to NTN-B 2020 0.15%), IPCA + 6.57% per year (equivalent to NTN-B 2022 0.10%), IPCA + 6.71%
(5) EV, <i>enterprise value</i> , equals the sum of the company s market capitalization with the net debt.
184

#### **Table of Contents**

per year (equivalent to NTN-B $2024 + 0\%$ ) and IPCA + $6.78\%$ per year (equivalent to	NTN-B $2030 + 0\%$ ), and mature in $2021$ , $2024$ , $2026$ ,
and 2029, depending on the series.	

- In January 2014, Vale acquired a financing in the amount of US\$ 775 million with the Canadian agency EDC. The financing was divided into two tranches, that are in effect for 5 and 7 years. The amount was fully disbursed by December 31, 2014.
- In December 2013, Vale issued R\$ 650 million in export credit notes from Brazilian commercial banks with maturity in 2023.
- In October, November and December 2013, Vale acquired export pre-payments with maturity in five and seven years, linked to future sales, totaling US\$ 1.4 billion (equivalent to R\$ 3.2 billion).
- In July 2013, Vale acquired a new revolving credit facility in the amount of US\$ 2.0 billion (equivalent to R\$ 4.7 billion), with a five year maturity in a best effort transaction.
- In July 2013, Vale signed a financing contract with Banco Safra, a BNDES financing agent, in the amount of R\$ 109.3 million. This contract is for the purchase of domestic equipment and was fully disbursed by December 31, 2014.
- In October 2012, Vale issued an export credit note in the amount of R\$ 2.5 billion from a Brazilian commercial bank that has a 10 year maturity. The amount was fully paid on December 31, 2012.
- In October 2012, Vale Fertilizantes signed a new contract with BNDES in the amount of R\$ 88.6 million. This contract was to supplement resources in the project for the expansion of phosphoric and sulfuric acid production capacity at the industrial plant located in Uberaba (MG) Phase III, as well as for the expansion of the phosphate concentrate production capacity in Tapira (MG) and Catalão (GO).
- IN September 2012, Vale priced the offer of US\$ 1.5 billion (equivalent to R\$ 3.5 billion) in bonus. The bonus has a 5.625% coupon per year, paid every six months, and they were prices at 99.198% of the bond s face value. The bonus matures in September 2042 and they were issued with a 300 points base spread over US Treasure bonds, resulting in a performance of 5.681% per year to the investor.
- In September 2012, BNDES approves a financing contract in the amount of R\$ 3.9 billion to Vale, to implement the CLN 150 Mtpa project, whose purpose is to expand to 150 million tons per year the transport and shipping capacity of iron ore in Vale s Northern System, which includes the Carajás Railroad (EFC) and the railroad and maritime terminals in Ponta da Madeira, in the States of Pará and Maranhão. The financing payments will follow the projects execution schedule. On December 31, 2014, Vale had paid US\$ 1.3 billion (equivalent to R\$ 3.3

billion) from this line of credit.

- In August 2012, Vale International signed a pre-paid export contract with a commercial bank in the amount of US\$ 150 million (equivalent to R\$ 2.3 billion), with maturity 5 years after payment. On December 31, 2013, Vale International had fully paid the line.
- In July 2012, Vale priced the offer of 750 million (equivalent to R\$ 2.4 billion in 10.5 years bonus). Vale will used net resources from this offer for general corporate purposes. The notes maturing in 2023, the amount of 750 million (equivalent to R\$ 2.4 billion) have a 3.75% coupon per year, paid annually, and they were price at 99.608% of the bond s face value. The bonus matures on January 10, 2023 and they were issued with an 180 base point spread on the mid-swap, or with a 225.7 base point spread on the return of German Bund bonds, resulting in a performance of 3.798% per year for the investor.
- In April 2012, Vale priced the bonus offer from its full subsidiary Vale Overseas Limited (Vale Overseas) at US\$ 1.250 billion (equivalent to R\$ 2.9 billion), guaranteed by Vale. The bonus were consolidated in a single series with Vale Overseas bonus issued on January 11, 2012, at US\$ 1.0 billion (equivalent to R\$ 2.3 billion) with a 4.375% coupon and maturity in 2022. The bonus issued in April will have a 4.375% coupon per year, paid every six months, at a price that is 101.345% of the bond s face value. These bonus mature in January 2022 and they were issued

Table of Contents
with a 200 base-point spread on US Treasury bonds, resulting in a performance of 4.205% per year for the investor.
• In January 2012, Vale priced the bonus offer from its full subsidiary Vale Overseas Limited (Vale Overseas) at US\$ 1.0 billion (equivalent to R\$ 2.3 billion). The bonus have a 4.375% coupon per year, paid every six months, at a price that is 98.804% of the bond s face value. These bonus mature in January 2022 and they were issued with a 255 base-point spread on US Treasury bonds, resulting in a performance of 4.525% per year for the investor.
e. Potential sources of financing used for working capital and for investments in non-current assets for coverage of liquidity deficiency
In the regular course of business, Vale s principal need for funds refers to capital investments, payments of dividends and debt service. The sources of funds frequently used are operating cash flow and financing.
The main sources of financing to cover liquidity deficiency are the facilities related to the export transactions offered by local banks (Advance on Foreign Exchange Contract ACCs, and Advance on Delivered Exchange Instruments - ACEs).
Vale has, moreover, revolving lines of credit available that may be used at the option of the debtor. In 2013, Vale obtained another revolving line of credit in the amount of US\$ 32.0 billion (equivalent to R\$ 4.7 billion), with maturity period of 5 years, totaling, in lines of this type, available on December 31, 2014, \$US\$ 5.0 billion (equivalent to R\$ 13.3 billion), that may be used by Vale, Vale Canada Ltd. (Vale Canada), and Vale International S.A. (Vale International). In years ended on December 31 2012 and 2014, Vale did not contract revolving facilities.
By December 31, 2014, Vale had not used any of this available credit.
f. Indebtedness levels and composition of such debts
On December 31, 2014, the total debt was R\$ 76.517 billion, with a tranche of R\$ 3.485 billion guaranteed by Vale s assets, with an average maturity period amortization of 9.1 years and an average cost of 4.5% per year in US dollars.

DEBT STRUCTURE

ON DECEMBER 31,

In R\$ billion	2012	2013	2014
Gross debt	61,856	68,977	76,517
Tranche guaranteed by assets of Vale	5%	5%	5%
Average term of amortization (in years)	10.14	9.89	9.10
Average cost (in US dollars)	4.6%	4.6%	4.5%

Since July 2005, Vale has been considered investment grade. Vale currently has the following credit risk ratings: BBB+ (Standard & Poor s), Baa2 (Moody s), BBB high (Dominion Bond Ratings) and BBB+ (Fitch).

#### i. Relevant loan and financing contracts

The most important categories of the total debt of the Company are presented below. The values presented exclude the accumulated costs.

• Loans and financing contracted in US dollars (R\$ 18.7 billion, R\$ 15.5 billion, and R\$ 11.7 billion on December 31, 2014, 2013, and 2012, respectively). These loans include credit facilities for

- Fixed income instruments issued in US dollars (R\$ 35.3 billion, R\$ 32.4 billion, and R\$ 27.86 billion on December 31, 2014, 2013, and 2012, respectively). Vale issued several debt securities in the capital market, inclusive through its wholly owned subsidiary Vale Overseas in the total amount of US\$ 12.8 billion (equivalent to R\$ 430.0 billion). The subsidiary Vale Canada issued debt securities in the amount of US\$ 700 million (equivalent to R\$ 1.6 billion).
- Fixed income instruments issued in euros (R\$ 4.8 billion, R\$ 4.8 billion and R\$ 4.0 billion on December 31, 2014, 2013, and 2012, respectively). Vale issued debt securities in the capital market in the total amount of 1.5 Billion (equivalent to R\$ 4.8 billion).
- Other debts (R\$ 16.5 billion, R\$ 15.2 billion, and R\$ 17.5 billion on December 31, 2014, 2013, and 2012, respectively). The Company has several loans acquired in Brazil, mainly with the BNDES and some private Brazilian banks, as well as loans and financing in other currencies.

#### ii. Other long-term relationships with financial institutions

Vale and its associated and subsidiary companies have a commercial relationship in the normal course of their business with some of the main financial institutions in the country, according to regular financial market practices.

#### iii. Degree of subordination among debts

There is no degree of contractual subordination among the Company sunsecured financial debts. Financial debts that are secured through collateral have the privileges and prerogatives granted by the law.

Additionally, considering the total of current and non-current liabilities of the Company, the R\$ 156,329 billion or 97.8 %, corresponded to unsecured debts on December 31, 2014 (compared to R\$ 136,350 billion or 97.6% on December 31, 2013 and R\$ 110,964 billion, or 97.4% on December 31, 2012). Such amounts are subject to the preference of Company obligations that appear as collateral, including mortgage of assets totaling, on December 31, 2014, R\$ 3,485 or 2.2 % of the total of current and non-current liabilities of the Company, relative to the amount of R\$ 3,410 billion or 2.4% on December 31, 2013 and R\$ 2,963 billion or 2.6% on December 31, 2012

iv. Any restrictions that might be imposed on the issuer in particular, in relation to limits of indebtedness and contracting the company s debts, the distribution of dividends, the disposal of assets, the issue of new securities and the transfer of corporate control

Some long-term financial instruments contain obligations related compliance with financial indicators. The main indicators are: (i) debt on Earnings Before Interest Tax, Depreciation and Amortization (EBITDA), and (ii) interest coverage. Vale is in conformity with the levels required for the indicators. It is believed that the current clauses will not significantly restrict the capacity to contract new debts to meet capital needs. Additionally, no clause directly restricts the ability to distribute dividends or interest on own equity. For more information on these financial indices, please see item 3.7 of this Reference Form

## g. Limits of use of financing already contracted

Infrastructure debentures issues by the Company and certain financing contracts signed by Vale establish restrictions in connection with the use of funds. The following is a description of the relevant infrastructure debentures and financing contracts:

## Table of Contents

Date	Counterparty	Allocation	Value	Percentage Used	Disbursement of funds
<u>5/19/2014</u>	BNDES	Funding of S11D and CLN S11D projects	R\$6.2 billion	<u>30%</u>	The credit is available in tranches, according to the projects schedule

<sup>(1)</sup> Relative to the net operating revenue.

Year ending on December 31, 2013 compared to the year ended on December 31, 2014

Revenues

The net operating revenue reached R\$ 88,275 billion in 2014, compared to R\$ 101,490 billion in 2013, corresponding to a 13% decrease. The
revenue decrease was mainly due to the drop in commodities prices, partially offset by the increase in the volume of iron ore sales resulting from
the <i>ramp-up</i> of ore projects.

Iron Ore

The revenue from the sales of ore decreased by 26.0%, from R\$ 61,271 billion in 2013 to R\$ 45,341 billion in 2014, especially due to the drop in ore price. This drop was mainly offset by the increase in sales volume, with the ramp up of some ore projects.

Table of Contents
Pellets
The revenue from the sale of pellets decreased by 4.4%, from R\$ 12,972 billion in 2013 to R\$ 12,397 billion in 2014, due to the drop in the price reference index of ore IODEX partially offset by the increase in the quality premium attributed to pellets.
Manganese ore and ferroalloys
The revenue from the sale of manganese and ferroalloys decreased by 18.2%, from R\$ 1,140 billion in 2013 to R\$ 0,933 billion in 2014, due to the drop in volume and prices.
Coal
The revenue from the sale of coal decreased by 20.5%, from R\$ 2,188 billion in 2013 to R\$ 1,740 billion in 2014, due to the drop in prices and suspension of operations of Integra and Isaac Plains, partially offset by the increased volume in Moatize. Suspension of operations of Integra and Isaac Plains was due to the economic unviability of the current market conditions.
Base Metals
Nickel and other products
There was a 17.0% increase in the revenue from these products, from R\$ 12,566 billion in 2013 to R\$ 14,703 billion in 2014, especially due to the increase in nickel price, responding to the demand cycle, and the increase volume of sales of nickel, due to the return of production at Onça Puma, after recovery of the furnace.
Copper
The revenue from the sale of copper increased by 8.0%, from R\$ 3,180 billion in 2013 to R\$ 3,434 billion in 2014, due to the increased sales volume driven by the <i>ramp-up</i> of Salobo II, copper operation in Brazil.

Fertilizers

Potash
The revenue from the sale of potash decreased by 16.4%, from R\$ 434 million in 2013 to R\$ 363 million in 2014, due to the decrease in sales volume and prices due to the lower demand resulting from weak conditions in the global market of fertilizers.
Phosphate
The revenue from the sale of phosphate decreased by 4.1%, from R\$ 4,443 billion in 2013 to R\$ 4,259 billion in 2014, due to the decrease in prices due to the lower demand resulting from weak conditions in the global market of fertilizers.
Nitrogen
The revenue from the sale of nitrogen decreased by 17.2%, from R\$ 990 million in 2013 to R\$ 820 million in 2014, partially due to the sale of the company Araucária in 2013.
191

Table	$\alpha f$	Contents

Other products and services

The revenue from other products and services increased by 26.9%, from R\$ 1,850 billion in 2013 to R\$ 2,347 billion in 2014, due to the drop in the sale of steel.

### **Costs of Business Areas**

Comments on the Cost of Business Areas

The cost of product sold was R\$ 50,003 billion in 2014, a R\$ 5,523 billion increase compared to R\$ 44,480 billion in 2013, especially due to exchange variation and greater volume sold. The cost of ferrous minerals increased by R\$ 5,082 billion (19.7%) and the cost of base metals increased by 747 million (7.5%), both increases especially due to the greater volume sold. Moreover, costs with coal and fertilizers increased by R\$ 29 million and reduced by R\$ 293 million, respectively.

Costs related to each business area are detailed below:

#### CPV BY BUSINESS AREA

in R\$ million	2013	2014
Ferrous	25,758	30,840
Base metals	10,088	10,835
Coal	2,485	2,514
Fertilizers	4,699	4,406
Others	1,450	1,408
Cost with no depreciation	44,480	50,003

It is important to note that all amounts mentioned were considered after discounting depreciation.

### Sales and administrative expenses

Sales and administrative expenses decreased by 7.2%, from R\$ 2,804 billion in 2013 to R\$ 2,603 billion in 2014, especially due to the continuous simplification of our corporate structure.

Research and development expenses remained stable, from R\$ 1,745 billion in 2013 to R\$ 1,738 billion in 2014.

### Noncurrent asset impairment

In 2014, asset impairment totaled R\$ 2,713 billion mainly due to Vale Fertilizantes and Vale BSGR Limited, in the amount of R\$ 5,593 billion, and the review in the impairment of Onça Puma, which was registered in 2012, in the amount of R\$ 4,295 billion. Impairment in 2013 registered in the amount of R\$ 5,390 billion refers mainly to the suspension of the Rio Colorado Project (PRC) in the amount of R\$ 4,963 billion and pelleting plants in the amount of R\$ 427 million.

192

Table of	Contents
----------	----------

#### Pre-operational and operation stoppage expenses

In 2014, pre-operational and operation stoppage expenses were R\$ 2,563 billion, representing a R\$ 1,472 billion decrease compared to 2013, especially due to lower expenses with the Rio Colorado and Long Harbor Projects.

#### Other operational expense/income

Other operational expenses increased by 18.7%, from R\$ 2,157 billion in 2013 to R\$ 2,560 billion in 2014. If excluding the transaction nonrecurring positive effect of the sale of 25% of payable gold flow produced as byproduct of the copper mine of Salobo during the mine life, and 70% of payable gold flow produced as byproduct of the nickel mines in Sudbury Coleman, Copper Cliff, Creighton, Garson, Stobie, Totten, and Victor paid in the first quarter in 2013, expenses would decrease by 3.4% from 2013 to 2014.

#### Loss in the measurement or sale of noncurrent assets

The result of the sale of assets decreased by 13.2%, from R\$ 508 million in 2013 to R\$ 441 million in 2014. In 2013, the result referred to the loss in the sale of Tres Valles, while in 2014 the loss referred to the termination of the area of Vale Canada Limited. For more information, see explanatory note 30 in the Company financial Statement.

#### Result from shareholding

The result from shareholding increased by 14.2%, from R\$ 999 million in 2013 to R\$ 1,141 billion in 2014, especially due to discontinued consolidation of VLI into Vale results.

#### Net Financial Results

Net income decreased by 20.0%, from R\$ 18,442 billion expense in in 2013 to R\$ 14,753 billion expense in 2014, due to the impact of the Fiscal Recovery Program REFIS (REFIS), registered in 2013.

#### Taxation on profits

In 2014, the net income tax expense was R\$ 2,600 billion, compared to R\$ 15,249 billion in 2013, basically due to company results abroad taxed at rates other than the ones applicable to the controlling company and the inability to reduce the impairment of certain assets.

### Net profit attributable to controlling shareholders

Net loss in the amount of R\$ 258 million in 2013 turned into net profit of R\$ 219 million in 2014, especially due to factors mentioned above.

Table of Contents

Position on December 31, 2013 compared to the position on December 31, 2014
2 control on Decompose 5.3, 2010 compose of the provider of Decompose 5.3, 201
Vale has assets and debts referenced to different currencies, the main ones being the <i>real</i> , the US dollar and the Canadian dollar. On December 31, 2014, the Company had 55% of assets related to Brazilian <i>reais</i> , 12% to US dollars, 19% to Canadian dollars and 14% to other currencies, while the majority of our debt was expressed in US dollars. Consequently, the effects of changes in exchange rates had an impact on the financial Statements, especially the depreciation of the <i>real</i> by 13 % against the US dollar between December 31, 2013 and 2014.
Current Assets
Cash and cash equivalents
The 15.3% decrease, from R\$ 12,465 billion on December 31, 2013 to R\$ 10,555 billion on December 31, 2014, occurred as a function of the non-recurring transaction of the sale of 25% of payable gold flows in 2013 and the negative impact from the drop of commodities prices in the generation of operational cash flow in 2014, partially offset by the increase of volume and reduction of expenses.
Inventories
The 23.7% increase, from R\$ 9,662 billion on December 31, 2013 to R\$ 11,956 billion on December 31, 2014, was mainly due to the ramp up of the distribution center in Malaysia, as well as exchange variation.
195

Table of Contents
Taxes on estimated profit
Taxes on estimated profit decreased by 24.5%, from R\$ 5,563 billion on December 31, 2013 to R\$ 4,200 billion on December 31, 2014, due to offset values of income tax and social contribution.
Non-current assets held for sale and discontinued operations
The sale of assets totaled R\$ 9,669 billion on December 31, 2014, refers mainly to the divestment in power generation assets and share held in the assets in Nacala, comparing to R\$ 8,822 billion on December 31, 2013 refers to the sale of power generation assets and general load.
Noncurrent Assets
Deferred taxes on profit
The amount of deferred taxes on profits decreased by 0.3%, from R\$ 10,596 billion on December 31, 2013 to R\$ 10,560 billion on December 31, 2014, due to fiscal loss.
Investments
Investments increased by 30.7%, from R\$ 8,397 billion on December 31, 2013 to R\$ 10,978 billion on December 31, 2014, reflecting the investment increase on affiliates due to the consolidation of Vale Logística da Argentina S.A. which investment was partially sold and the remaining portion is no longer consolidated.
Fixed Assets
Fixed assets increased by 8.5%, from R\$ 191,308 billion on December 31, 2013 to R\$ 207,507 billion on December 31, 2014, due to Capex execution, mainly the S11D project, including the Integrated Logistic Corridor of Nacala - CLN and partial impairment of assets related to Onça Puma in 2012.

Current liabilities
Accounts payable to suppliers and contractors
Accounts payable to suppliers and contractors increased by 30.9%, from R\$ 8,837 billion on December 31, 2013 to R\$ 11,566 billion on December 31, 2014, was basically due to the extension on the average due date of payments.
Derivatives
Derivatives increased by 576.3%, from R\$ 0,556 billion on December 31, 2013 to R\$ 3,760 billion on December 31, 2014, basically due to appreciation of US dollar against real, with a loss in swap mark-to-market, which goal is to reduce the volatility of cash flow.
196

Table of Contents
Loans and financing
The 9.4% reduction in the long-term loan current debt, from R\$ 4,158 billion on December 31, 2013 to R\$ 3,768 billion on December 31, 2014 was due to the due date of long term debts, acquired in reais.
Liabilities related to non-current assets held for sale and discontinued operations
Liabilities related to non-current assets held for sale decreased by 72.0%, from R\$ 1,050 billion on December 31, 2013 to R\$ 0,294 billion on December 31, 2014, due to the conclusion of the general load sale and negotiation at the Nacala corridor with Mitsui.
Noncurrent Liabilities
Derivatives
Derivatives increased by 22.3%, from R\$ 3,496 billion on December 31, 2013 to R\$ 4,276 billion on December 31, 2014, basically due to appreciation of US dollar against real, with a loss in swap mark-to-market, which goal is to reduce the volatility of cash flow.
Loans and financing
Loans and financing increased by 12.2%, from R\$ 64,819 billion on December 31, 2013 to R\$ 72,749 billion on December 31, 2014, reflecting exchange variation, as considerable portion of loans were acquired in foreign currency.
Provisions for contingencies
Provisions for contingencies increased by 13.9%, from R\$ 2,989 billion on December 31, 2013 to R\$ 3,405 billion on December 31, 2014, reflecting the changes to the prognosis of part of the lawsuits where Vale appears as party.
Obligations for asset retirement

Obligations for asset retirement increased by 43.9%, from R\$ 5,969 billion on December 31, 2013 to R\$ 8,588 billion on December 31, 2014, was due to the reduction in the discount rate and annual revision of realized estimates.
Debentures
Debentures increased by 10.2%, from R\$ 4,159 billion on December 31, 2013 to R\$ 4,584 billion on December 31, 2014, due to mark-to-market.
Shareholders Equity held by Controlling Shareholders
Shareholders equity held by controlling shareholders decreased by 3%, from R\$ 148,346 billion on December 31, 2013 to R\$ 146,385 billion on December 31, 2014, due to realization of provisions for shareholders compensation.

<sup>(1)</sup> Relative to the net operating revenue

Year ending on December 31, 2012 compared to the year ended on December 21, 2013

#### Revenues

The net operating revenue reached R\$ 101.940 billion in 2013, compared to R\$ 91.269 billion in 2012, corresponding an 11.2% increase. The revenue growth was mainly due to increase in volume and price of iron ore, metallurgic coal and basic metals.

Mineral Ore

Mineral ore sales revenue increased by 15.7%, from R\$ 52.959 billion in 2012 to R\$ 61.271 billion in 2013, mainly due to price recovery and volume sold.

198

Table of Contents
Pellets
Pellets save revenue increased 1.5%, from R\$ 12.778 billion in 2012 to R\$ 12.972 billion in 2013, due to better pellet. Pollution concerns in China is making the metallurgic industry increase their installed capacity use, to phase out some of the inefficient plants, and reduce the sintering and pelleting capacity. These measure increased demand for higher quality iron ore, ore lump and pellets staring in 2013 s second semester. Consequently, premium lumps and pellets reached high prices at the end of 2013 and they shall remain high in 2014
Manganese ore and Ferroalloys
Sales revenue from manganese ore and ferroalloys increased 8.1%, from R\$ 1.055 billion in 2012 to R\$ 1.140 billion in 2013. Manganese sales revenue increase due to greater volume and prices. Ferroalloy sales revenue was slightly lower due to volume drops are the sale of the European operations (Dunkerque and Mo I Rana) concluded at the end of 2012 as well as lower prices.
Coal
Coal sales revenue increased by 3.7%, from R\$ 2.109 billion in 2012 to R\$ 2.188 billion in 2013, due to increased sales volume, caused by the ramp-up at Moatize, a coal mine in Mozambique, and due to a significant improvement in person and by Carborough Down significant performance improvement (a coal operation in Australia, )
Base Metals
Nickel and other products
There was a 7.8% increase in these products revenue, from R\$ 11.656 billion in 2012 to R\$ 12.566 billion in 2013, mainly due increased nickel sales volume.
Copper
Copper sales revenue increased by 39.7%, from R\$ 2.277 billion in 2012 to R\$ 3.180 billion in 2013, due to increased sales volume increase resulting from Salobo s ramp-up, a copper operation in Brazil

Fertilizers
Potash
Potash sales revenue decreased by 23.7%, from R\$ 569 million in 2012 to R\$ 434 million in 2013, due to a drop in sales volume and price as the result of less demand due to the fertilizer global market s weak conditions.
Phosphates
Phosphates sales revenue decreased by 9.8%, from R\$ 1.366 billion in 2012 to R\$ 0.99 billion in 2013, partly due to sales volume and price drop resulting from the fertilizer global market s weak conditions.
Nitrogen
Nitrogen sales revenues dropped 27.5%, from R\$ 1.366 billion in 2012 to R\$ 0.990 million in 2013, partially due to the Araucária share sale in 2013 s second quarter.
Other products and services
Sales revenue for other products and services increased by 92.9%, from R\$ 959 million in 2012 to R\$ 1.850 million in 2013.
199

## Table of Contents

### Costs of Business Areas

Comments on Cost by Business Area

The cost of sold product was R\$ 44,480 billion in 2013, a R\$ 1,793 billion increase compared to R\$ 42,687 billion in 2012, mainly due to exchange variation and greater sales volume. The cost of ferrous minerals decreased by R\$ 59 million (0.2%), especially due to exchange variation while the cost of base metals increased by R\$ 923 million. Additionally, costs with coal and fertilizers increased by R\$ 452 million and reduced by R\$ 252 million, respectively.

Costs related to each business area are detailed below:

#### **CPV BY BUSINESS AREA**

in R\$ million	2012	2013
Ferrous	25,817	25,758
Base metals	9,165	10,088
Coal	2,033	2,485
Fertilizers	4,951	4,699
Others	721	1,450
Cost with no depreciation	42,687	44,480

It is important to note that all amounts mentioned were considered after discounting depreciation.

### Sales and administrative expenses

Sales and administrative expenses decreased 424.0%, from R\$ 4.249 billion in 2012 to R\$ 2.804 billion in 2013, mainly due to making our organizational structure simples.

### Research and development expenses

Research and development expenses decreased 39.5%, from R\$ 2.866 billion in 2012 to R\$ 1.745 billion in 2013, mainly due to a reduction in our project portfolio and the closing of exploration offices worldwide.

Asset	1111	nairr	nent
$\Delta$	1111	pani	псп

In 2013 there was reduction in impairment in the amount of R\$ 5.390 billion. This reduction was mainly due to suspension of the Rio Colorado Project (PRC) in the amount of R\$ 4.963 billion and of the pelleting plants, reported to be in the amount of R\$ 427 million.] The 2012 reduction in 2012 in the amount of R\$ 8.211 billion refers mainly to estimate loss of R\$ 5.769 billion and in coal plants in Australia in the amount of R\$ 2.139 billion.

#### Pre-operational expenses and operation shutdown

In 2013, pre-operational expenses and operational shutdown summed up to R\$ 4.035 billion, an increase of R\$ 890 million relative to 2012, particularly due to greater expenses with the Rio Colorado and Long Harbour projects.

### Other operating costs and expenses

Other operating expenses reduced 45.8%, from R\$ 3.981 billion in 2012, to R\$ 2.157 billion in 2013, mainly due to less contingencies and provisions made during the year, such as, the non-recurring impact of expenses with the Financial Offset for the Exploration of Mineral Resources (CFEM), which was R\$ 1.100 billion.

### Result from the sale of non-current assets held for sale

Assets sales revenue decreased 51.0%, from R\$ 1.036 billion in 2012 to R\$ 508 million in 2013, due to losses in the Tres Valles sale; while in 2012, the results referred to losses from the sale of the company Araucária.

200

Table of Contents
Result from Corporate Participations
The result from corporate participations decreased 19.5%, from R\$ 1.241 billion in 2012 to R\$ 999 million in 2013, mainly due to performance drop at Samarco.
Net Financial result
The net financial expenses dropped 123.8% from R\$ 8.239 billion in expenses in 2012 to R\$ 18.448 billion in 2013, due to interest rates and fines from the Tax Recovery Program REFIS ( REFIS ).
Reduction of the investments recoverable value
There was no reduction of investments recoverable value in 2013. The reduction reported for 2012 in the amount of R\$ 4.002 billion had an impact on our investment in Norsk Hydro (R\$ 2.026 million), on ThyssenKrupp CSA (R\$ 1.804 billion), and on the Vale Soluções em Energia (R\$ 172 million).
Taxation on profits
In 2013, we recorded a tax expense on net income of R\$ 15.249 billion, compared to R\$ 2.595 billion in 2012, basically due joining REFIS for the payment of sums relative to taxation on the profit from Vale s foreign subsidiaries and affiliated companies in 2013 and 2012.
Net income attributed to controlling shareholders
The reduction in net profit, from R\$ 9.391 billion in 2012 to the net loss of R\$ 258 million in 2013, resulted mainly from the previously mentioned factors.

Table of Contents

Position on December 31, 2012 compared with the position on December 31, 2013
Vale has assets and debts referenced to different currencies, the main ones being the <i>real</i> , the US dollar and the Canadian dollar. On December 31, 2013, the Company had 54% of assets related to Brazilian <i>reais</i> , 9% to US dollars, 18% to Canadian dollars and 19% to other currencies, while the majority of our debt was expressed in US dollars. Consequently, the effects of changes in exchange rates had an impact on the financial Statements, especially the depreciation of the <i>real</i> by 14.6 % against the US dollar between December 31, 2012 and December 31, 1013.]
Current Assets
Cash and cash equivalents.
The 4.6% increase, from R\$ 11.918 billion on December 31, 2012 to R\$ 12.465 billion on December 31, 2013, occurred as a function of the gold stream operation with gold and resources from asset disposal, partially offset by REFIS payment.
Short-term investments.
The 98.4% reduction, from R\$ 506 million on December 31, 2012 to R\$ 80 million on December 31, 2013, resulted from bonds maturing in 2013.
Inventories
The 6.4% decrease in inventories, from R\$ 10.320 billion on December 31, 2012 to R\$ 9.662 billion on December 31, 2013, was due to the operating cycle.
Taxes on estimated profit
There was a 277.9% increase on taxes on estimated profit, from R\$ 1.472 billion on December 31, 2012 to R\$ 5.563 billion on December 31, 2013, reflecting values to be recovered from losses suffered by companies abroad.

Non-current assets held for sale and phased out operations

Assets sales totaled R\$ 8.822 billion on December 31, 2013, reflecting the disposal of energy generation assets and general load, compared to R\$ 935 million from December 31, 2012, relative to the disposal of the company Araucária.
Non-current assets
Deferred taxes on profits
The amount of deferred taxes on profits reported increased 27.9%, from R\$ 8.282 billion on December 31, 2012 to R\$ 10.596 billion on December 31, 2013, due to reported differences relative to share debentures, derivatives, and interest rates equalization on equity.
Investments
Investments dropped 35.6%, from R\$ 13.044 billion on December 31, 2012 to R\$ 8.397 billion on December 31, 2013, reflecting the final lock-up period for the Norsk Hydro share renegotiation. From this date, the Norsk Hydro shares may be traded in the market, and for this reason we stopped calculating the equity equivalence for this share, as it is not treated as a financial asset available for sale.

203

Table of Contents
Fixed assets
The 10.3 % increase in fixed assets, from R\$ 173.455 billion on December 31, 2012 to R\$ 191.308 billion on December 31, 2013, occurred due to Capex execution, mainly of the S11D project.
Current liabilities
Accounts payable to suppliers and contractors
The 4.5% reduction in accounts payable to suppliers and contractors, from R\$ 9.255 billion on December 31, 2012 to R\$ 8.837 billion on December 31, 2013, was basically due to payments made during the term.
Portion of liabilities of long-term loans
The 41.4% reduction in the portion liabilities of long-term loans, from R\$ 7.093 billion on December 31, 2012 to R\$ 4.158 billion on December 31, 2013, was due to -long-term loans- maturing in 2013.
Liabilities related to non-current assets held for sale and phased out operations
Liabilities related to non-current assets held for sale increased 184.6%, from R\$ 345 million on December 31, 2012 to R\$ 1.050 billion on December 31, 2013, due to the sale of the energy and general load in 2013.
Non-current liabilities
Derivatives financial instruments
The increase in derivatives financial instruments was 118.4%, from R\$ 1.601 billion on December 31, 2012 to R\$ 3.496 billion on December 31, 2013, basically due to the appreciation of the American dollar against the <i>real</i> , with a loss in the swaps market, whose purpose is to reduce cash flow volatility.

Loans and financing
The increase in loans and financing was 18.4%, from R\$ 54.763 billion on December 31, 2012 to R\$ 64.819 billion on December 31, 2013, reflecting the exchange rate variation, since a considerable share of the loans were retained in foreign currency.
Provisions for contingencies
Provisions for contingencies was reduced to 29.1%, from R\$ 4.218 billion on December 31, 2012 to R\$ 2.989 billion on December 31, 2013, reflecting the REFIS agreements.
Provision with obligations for asset retirement
The reduction of 9.1% in provisions with obligation for asset retirement, from R\$ 5.472 billion on December 31, 2012 to R\$ 5.969 billion on December 31, 2013, was due to -the annual review of the estimates.
204

## Table of Contents

#### Shareholder Debentures

The 23.1% increase of shareholder debentures, from R\$ 3,379 billion on December 31, 2012 to R\$ 4,159 billion on December 31, 2013, refers to mark to market.

Shareholders Equity of Controlling Shareholders

The shareholders equity of the controlling shareholders decreased by 1.0%, from R\$ 149,664 billion on December 31, 2012 to R\$ 148,346 billion on December 31, 2013, due to period s income and accrued translation adjustments.

### Analysis of Cash Flow 2014 vs. 2013

The following table shows the values related to the consolidated cash flow Statements for the years ended December 31, 2013 and December 31, 2014:

(in R\$ million)	2014	%	2013
Operating cash flow:			
Net gains (loss)	219	n/a	(258)
Adjustments to consolidate net profit with revenues from operational			
activities	27,573	(15.1)	32,491
Net revenue from operational activities	27,792	(16.4)	32,233
Net revenue used in investment	(22,360)	(3.4)	(23,150)
Net revenue from (used in) financing	(8,634)	(8.1)	(9,396)
Increase (reduction) in cash and cash equivalents	(3,202)	n/a	(313)
Beginning of the year cash and cash equivalents	12,465	4.6	11,918
Effect of exchange variations in cash and cash equivalents	1,292	50.2	860
End of the year cash and cash equivalents	10,555	(15.3)	12,465

Year ended on December 31, 2013 compared to year ended on December 31, 2014

#### Net operating revenues

Net operating revenues totaled R\$ 27,792 billion in 2014, compared to R\$ 32,233 billion in 2013, representing a 16.4% decrease, basically due to the drop in the iron ore price.

		c	/ 1		
Vet Operating	revenues	trom	าเรอป	In	invectments

Net revenues used in investments totaled R\$ 22,360 billion in 2014, con	pared to R\$ 23,150 billion in 2013, representing a 3.4% decrease, due to
the reduction in investment sale.	

## Net revenue from (used in) financing

Net revenue from (used in) financing totaled R\$ 8,634 billion in 2014, compared to R\$ 9,396 billion in 2013, representing a 8.1% decrease, due to the funding levels in 2014.

## Analysis of Cash Flow 2013 vs. 2012

The following table shows the values related to the consolidated cash flow Statements for the years ended December 31, 2012 and December 31, 2013:

205

## Table of Contents

(in R\$ million)	2013	%	2012
Operating cash flow			
Year s net revenues (loss)	(258)	(97.3)	9,391
Adjustments to consolidate the year s net revenues with			
operating revenues	32,491	37.9	23,690
Operating net revenues	32,233	(2.6)	33,081
Investments net revenues	(23,150)	(23.1)	(30,093)
Financing net revenues	(9,396)	(519.5)	2,240
Cash and cash equivalents increase (reduction)	(313)	(106.0)	5,228
Beginning of the year cash and cash equivalents increase	11,918	80.8	6,593
Effect of exchange rate variations on cash and cash			
equivalents	860	786.6	97
End of the year cash and cash equivalents	12,465	4.6	11,918

Year ended on December 31, 2012 compared to the year ended on December 31, 2013

## Net Operating Revenues

Net operating revenues were R\$ 32.233 billion in 2013 compared to R\$ 33.081 billion in 2012, a drop of 2.6%, mainly due to REFIS operations.

### Net Operating Revenues (used in) investment

Net revenues used in investments reached R\$ 23.150 billion in 2013, relative to R\$ 30.093 billion in 2012, a drop of 23.1% due to fixed assets purchase drop.

## Net Operating Revenues (used in) financing

Net revenues used in/from financing reached R\$ 9.396 billion in 2013, relative to R\$ 2.240 billion in 2012, a 519.5% drop due to 2012 funding levels.

#### 10.2 Operating and Financial Results

### a) Results of Vale Operations, in particular:

## i. Description of key components of revenue

Net operating revenues totaled R\$ 888,278 billion in 2014, with a 13.0% decrease compared to R\$ 101.490 billion in 2013, and a 11.2% drop relative to the R\$ 91.269 billion in 2012.

206

### Table of Contents

Individually, the most important product in terms of revenue generation in 2014, 2013, and 2012 was iron ore.

	Fiscal year ended December 31,					
R\$ million	2011	%	2012	%	2013	%

Iron ore and pellets

The demand for iron ore and pellets is a result of the global demand for carbon steel, which in turn is highly influenced by global industrial production. The pricing of iron ore and pellets is done according to several levels of quality and physical characteristics. Several factors affect the prices of different types of iron ore, such as the iron content in deposits, the size of particles, humidity and the type and concentration of contaminants (such as phosphorus, alumina and manganese) in the ore. Generally, the classification of ore into thin ore, lump ore and pellet feed determines price differences.

Demand from China has been one of the main drivers of worldwide demand and prices.

Chinese imports of iron ore reached 933 million metric tons in 2014, 15% above the level of 810 million metric tons in 2013, 25% above the 745.5 million metric tons in 2012, and due mainly to the departure of local producers with non-competitive costs, as continual growth of steel production in that country grew only 2%.

Our iron ore prices are grounded in a variety of price option that are usually based on spot indices for the specification of prices charged to clients. Final prices may be based on spot rates for months prior to the shipping date or the shipping quarter, or according to the spot rate at delivery to customer.

Fine iron ore prices command premiums as a function of the content of iron. The lump ore and pellet prices contain premiums in relation to fine
iron ore prices and are determined based on client negotiations. The average prices for iron ore in 2014 were 23% and 14% lower than the
average prices in 2013 and 2012. The average price for pellets in 2013 decreased by 8% relative to average prices in 2013 and increased by 8%
relative to average prices in 2012.

Manganese and ferroalloys

The prices of manganese ore and ferroalloys are mainly influenced by trends in the carbon steel market. The prices of ferroalloys are also influenced by the prices of its main inputs, such as manganese ore, energy and coke. Manganese ore sales are based on the spot market or calculated on a quarterly basis. Ferroalloys prices are determined on a quarterly basis.

Coal

The demand for metallurgical coal is driven by the demand for steel, especially in Asia. The demand for thermal coal is directly related to electricity consumption, which will continue to be driven by worldwide economic growth, especially in emerging economies. Since April 2010, the prices for metallurgical coal have been established on a quarterly basis for most volumes sold in the transoceanic market, while some

<u>Table of Contents</u>
players are selling it on a quarterly basis, and a minority continues to use annual pricing. The prices of thermal coal are set in spot negotiations and/or through annual contracts.
Nickel
Nickel is traded on the London Metal Exchange (LME), and it is mainly used to produce stainless steel. Most nickel products are priced using a discount or a premium to the LME price, depending on the technical and physical characteristics of the product. Nickel demand is heavily affected by production of stainless steel, which represented 68% of consumption in 2014.
Vale has short-term fixed-volume contracts with customers for the majority of our expected annual nickel sales. These contracts, together with its sales of nickel products to be used for other purposes (high nickel alloys, steel alloys, forging, plating, batteries and special applications), provide stable demand for a significant portion of its annual production. In 2014, 61% of the refined nickel sales were destined to applications outside the stainless steel industry. This, when compared to the industry average of 32% among nickel producers, results in its sales volume being more stable. As a result of its focus on such higher-value segments, the average realized nickel prices have typically exceeded LME prices.
Copper
Copper prices are determined on the basis of: (a) copper prices in final markets, such as the LME and the NYMEX; and (b) for intermediate products, such as copper concentrate (which represents the majority of the company s sales) and copper anode, treatment and refining rates are negotiated with each client. According to a pricing system known as MAMA (month after month of arrival), sale prices of copper concentrate and anode are provisionally set at the time of shipment, and the final prices are based on the LME at a future time, typically three months after shipment of product.
Fertilizers
The demand for fertilizers depends on the same market fundamentals as those for global demand for minerals, metals and energy. The rapid <i>per capita</i> growth of emerging economies causes changes in food, marked by an increase in the consumption of proteins, which contributes to higher demand for fertilizers. Demand is also driven by biofuels that are emerging as an alternative source of energy to reduce global dependency on greenhouse gases [sic], and essential raw materials for the production of biofuels sugar cane, corn and palm which are intensively used in fertilizers.
Fertilizers are sold in the market mainly on a cash basis using international reference prices, although certain large importers, such as China and

India, often sign annual contracts. Seasonality is an important factor for determining price throughout the year, given that agricultural production

in each region depends on the climactic conditions of the harvest.

Exchange Rates
The impact of exchange rate variations on Vale s operational results are described in item 10.2 (b) of this Reference Form.
b. Variations in revenues attributable to changes in prices, exchange rates, inflation, changes in volumes and the introduction of new products and services
Exchange rate variations
Most of the Company s revenues are expressed in US dollars, whereas most of our costs of goods sold are expressed in other currencies, mainly the Brazilian <i>real</i> (54% on December 31, 2014), the US dollar (30% on December 31, 2014), Canadian dollars (13% on December, 31, 2014), Indonesian rupees, Australian dollars, the euro, and others(7). As a result, changes in exchange rates affect the Company s operating margin.
Most of our long-term debt is expressed currencies other than the Brazilian real, mainly in American dollars (approximately 70% on December 31, 2014). Due to the fact that Vale s functional currency is the Brazilian <i>real</i> , changes in the value of the US dollar against the
(7)

$T_{2}$	ble	$\alpha$ f	Contents

Brazilian real result in exchange gains or losses on our net liabilities, which, in turn, affect our financial results.

On December 31, 2014 our debt expressed in *reais* was R\$ 20,952 billion. Since most of our revenue is in US dollars, Vale uses derivatives to convert our debt from Brazilian *reais* to US dollars. As a consequence of the depreciation of the Brazilian *real* against the US dollar in 2014 and inflation, the net exchange rate and monetary variation caused a negative impact on our net profits of R\$ 5,445 billion in the year. The net result of the currency and interest rate swaps, structured mainly to convert the debt expressed in Brazilian *reais* into US dollars to protect our cash flow from currency price volatility, produced a negative accounting effect of R\$ 1,8 billion in 2014, of which R\$ 11 million generated a negative impact on the cash flow.

Regarding years 2012, 2013 e 2014, most part of the company revenue was in US dollars, while most part of the costs of assets sold was in other currencies, especially real (57% in 2012, 54% in 2013 and 54% in 2014), additional to US dollar (24% in 2012, 27% in 2013 and 30% in 2014), Canadian dollar (15% in 2012, 14% in 2013 and 13% in 2014), Indonesian Rupiah, Australian dollars, Euro, and others. Exchange rates, thus, affected the Company s operating margin.

Most of the long term debt in years 2012 and 2013 was in currencies other than real, especially US dollar (approximately 70% in 2012 and 70% in 2013). As Vale s functional currency is real, changes to the US dollar against the real, caused variations to net liabilities, resulting in exchange gains or losses in the financial income.

On December 31, 2012 and December 31, 2013, the debt in reais was R\$ 17,552 billion and R\$ 18,807 billion, respectively. As most of the revenue was in US dollars, Vale used derivatives to translate the debt in real into US dollars. As consequence of real depreciation against the US dollar in 2012 and in 2013 (additional to inflation, this year), net exchange and monetary variation caused negative impact on net profit of R\$ 4,144 billion in 2012 and R\$ 6,484 billion in 2013. The net income from *swaps* and interest rates, structured mainly to translate the debt in real into US dollar to protect cash flow against exchange volatility, produced (i) negative accounting effect of R\$ 280 million in 2012, out of which R\$ 956 million generated positive cash flow; and (ii) negative accounting effect of R\$ 1.872 billion in 2012, of which R\$ 362 million generated a positive impact on the cash flow.

j) Variations in the inflation rates

i)

The company s revenues are not significantly affected by inflation rates.

Variations attributable to price changes, volume changes and the introduction of new products and services

Vale s operating revenue is directly affected by changes to its products  $\,$  prices and services, as well as by changes to the volumes sold, as discussed in item  $\,$  10.2(a)(ii)  $\,$  of this Reference Form.

c. results and the issuer	Impact of inflation, price variations of main inputs and products, exchange rate and interest rates on operating s financial result
For comments on the in	inflationary impact, price variations in the main products and exchange rates, see item 10.2 (b) of this Reference Form
1	k of interest rates for loans and financings. Debt tied to interest rates in US\$ consists mainly of loans, including export, loans from commercial banks and multilateral organizations. In general, these debts are indexed to the LIBOR (London

#### Table of Contents

Interbank Offered Rate). The natural hedge between US interest rate fluctuations and prices of metals mitigates the volatility of the Company s cash flow. In the event of an imbalance in this natural hedge, Vale assesses the possibility of contracting financial instruments to provide the desired protection. The floating rate of its debt expressed in Brazilian *reais* includes debentures, loans obtained from the BNDES, fixed assets and financing for the purchase of services in the Brazilian market. The interest on these obligations is tied primarily to the CDI (Interbank Deposit Certificate), the reference interest rate on the Brazilian interbank market and the TJLP (long-term interest rate). Approximately 30% of the debt on December 31, 2014 was in reais and the remaining 70% was in other currencies. Approximately 30% of the debt on December 31, 2012 was in reais, and the additional 65% in other currencies.

On December 31, 2014, around 45.2% of the debt was tied to the floating interest rate, compared to 45.3% on December 31, 2013 and 45.3% on December 31, 2012.

Fuel costs are an important component of our production cost and represented 6.4% of our total cost of products sold in 2014, 7.4% in 2013, and 7.6% in 2012. Decreases in the price of oil and gas impact positively all the Company businesses according to local prices used by each unit. Electricity costs were 2.4% in 2014, 2.7% in 2013, and 3.4% in 2012.

#### 10.3 Relevant effects on Financial Statements

The impairment registered in 2014 resulted in a loss of about R\$ 2,713 billion. This amount refers to the Company s assets recoverable value, based on the premise that includes the discounted cash flow and the commodities price.

Vale does not provide guidance regarding its future financial performance. Vale seeks to disclose as much information as possible about its views on the different markets where it operates, its strategic guidelines and implementation in order to give the capital markets a sound basis for their expectations regarding the Company s performance in the medium and long term.

### a. Introduction or disposal of operating segment

In September 2013, the Company made public its intention to give away the control over its subsidiary VLI S.A. (VLI), responsible for operations in the General Load sector. Consequently, the General Load sector in 2013 was treated as under a phasing out process and assets and liabilities were reclassifies as non-current assets/liabilities held for sale.

As part of the closure process, Vale signed share transfer agreements of (a) 20% of the VLI s capital to Mitsui & Co. Ltd. (Mitsui) for the amount of R\$ 1,5 billion, (b) 15.9% to Accrued Severance Pay FGTS (Portuguese acronym) (FGTS) in the amount of R\$ 2 billion, which equity is managed by Caixa Econômica Federal., and (c) 26.5% to the investment fund managed by Brookfield Asset Management for the amount of R\$ 2,0 billion. This transaction was concluded on April 14, 2014. Revenue from the sale to FI-FGTS and R\$ 800 million of proceedings of the sale to Mitsui will be comprised by capital investment on VLI, who issued new shares to Mitsui and FI-FGTS. Amount invested in VLI will be used to fund part of the VLI s investment plan. The remaining revenue of the transaction, R\$ 709 million, was paid directly to Vale by Mitsui.

<u>Table of Contents</u>
Additionally, on December 23, 2013, Vale entered into an agreement with a fund managed by Brookfield Asset Management (Brookfield) to sell 26.5% of its share in VLI, for R\$ 2 billion. This transaction was concluded on August 19, 2014, and now Vale holds 37.6% of the capital of VLI. Vale, Mitsui, FI-FGTS and Brookfield jointly control VLI, under a shareholders agreement. For more information, see items 6.5 and 10.3 in this Reference Form.
b. Incorporation, acquisition or divestiture of stakeholder positions
Main Acquisitions
2014
There were no shareholding acquisitions in fiscal year 2014 that have caused or may cause relevant effects on the financial Statements.
2013
Share increase in the Belvedere coal project.
On January 31, 2013, Vale Belvedere Pty Ltd. signed agreements to complete a purchase option exercised in June 2010 by means of which it purchased 24.5% additional share in the Belvedere da Aquila Resources Limited (Aquila) coal project. The purchase price of A\$ 150 million (equivalent to US\$ 156 million using the AUD/USD tax rate of 1.04) is equivalent to the market price, using as base date the date when the option is exercised (June 2010), as determined by an independent assessor hired by Vale and Aquila at the time. The outcome of this transaction is that Vale Belvedere Pty Ltd. increased is Belvedere share to 100%. Additionally, Vale Belvedere Pty Ltd. agrees to pay the amount of A\$ 20 million (equivalent to US\$ 21 million) to settle lawsuits and disputes associated with Belvedere and Aquila.
Overall, Vale paid US\$ 338 million for 100% of Belvedere. Belvedere is a future growth option.

It is a project for an underground coal mine located in the southern Bowen Basin, near the city of Moura, in the State of Queensland, Australia. The project was approved by Vale s Board of Directors. According to preliminary estimates, Belvedere can potentially reach a production

Increased share in the Capim Branco I and II hydroelectric power plants

capacity of 7.0 million metric tons per year of mainly metallurgic coal.

On March 12, 2013, Vale, together with Cemiq Capim Branco Energia S.A., purchased, by means of preference rights stipulated in the Consórcio Capim Branco contract, for R\$ 223 million , 12.47% shares from Suzano Papel e Celulose S.A. and Suzano Holding S.A. of equity in the Capim Branco I and II, which can produce 1,524 giga watts hour per year of energy until the end of the concession in 2036. The purchase of the additional shares of the Capim Branco I and II hydroelectric power plants adds value to the extent that produces immediate reduction in the cost of energy by our operations. It is a low risk investment with a clearly higher return to Vale s equity cost.

2012

Assets leasing and potash mining rights

On April 23, 2012, Vale renewed with Petróleo Brasileiro S.A. (Petrobras) the contract renewal for assets leasing and potash mining rights in Sergipe for 30 years, allowing it to continue to

#### Table of Contents

explore the potash mine in Taquari-Vassouras and the development of the Carnalita project. When it begins to produce, it has been estimated that Carnalita will have the largest potash operation in Brazil, with an estimated production capacity of 1.2 million tons of potash per year. The contract is in line with Vale s growth strategy to become one of the global leaders in the fertilizer industry.

Continuing with its corporate structure optimization process, in the second quarter of 2012, Vale acquire more than 10.46% of participation in Empreendimentos Brasileiros de Mineração S.A. (EBM), whose main asset is the participation in the Minerações Brasileiras Reunidas S.A. MBR (MBR), which owns the Ibarito, Vargem Grande, and Paraopeba mines.

As a result of this acquisition, Vale has increased its participation in EBM s capital to 96.7% and in MBR s to 98.3%, and the amount of R\$ 450 million was known as the result of the operation with non-controlling shareholders in Net Equity.

#### Main investment disposals and asset sales

In accordance with the strategy, the Company continues to reduce our stakes in non-core assets.

The following is a summary of the main disposals and sales of assets during the three-year period under discussion.

#### 2014

Sale of share in Vale Moçambique and the Logistic Corridor of Nacala

On December 9, 2014, Vale announced the execution of an investment agreement with Mitsui, under which Mitsui will hold 15% of Vale s 95% share in Vale Moçambique (<u>VM</u>) (concessionaire of 95% of the Moatize mine) and 50% of Vale s share in the Logistic Corridor of Nacala (<u>CLN</u>).

The transaction is comprised by the capital increase and partial assignment of the debt held by VM and CLN with Vale, and Vale now indirectly holds 81% of the Moatize mine and approximately 35% of the Nacala Logistical Corridor, under joint control with Mitsui.

The amount attributed to Mitsui s 15% share in VM is US\$ 450 million. Moreover, Mitsui may pay US\$ 30 million more related to an *earn out* clause. On the other hand, *claw-back* clause of up to US\$ 120 million is included in these US\$ 450 million. The earn outs amounts as well as the claw-back amounts are conditioned to mass recovery goals of the refining plant and production goals agreed upon between Vale and Matsui. As result of these clauses, the final amount attributed to the 15% share in VM may vary between US\$ 330 million and US\$ 480 million.

Additionally, Mitsui will be responsible for funding, *pro-rata* to its 15% share, its portion in the investment needed to complete the expansion of the Moatize mine, which amount is estimated at US\$ 188 million.

Upon concluding the transaction, Mitsui will contribute with US\$ 313 million to fund the CLN and, therefore, will hold 50% of these instruments, having joint control with Vale over the CLN. Until conclusion of this transaction and delivery by Mitsui, Vale will continue to fund the CLN with loans by Vale itself.

Table of Contents
The conclusion of this transaction is subject to some precedent conditions and is expected to occur in 2015.
The transaction is essential to continue with the investment in Mozambique and Malawi, as it complements funds needed to conclude Moatize and Nacala Logistical Corridor projects. The transaction also supports Vale s strategy to operate world-class assets, improves its balance sheet and reduces its need of future investment, while minimizing the exposure to project risk.
Sale of shares in Vale Florestar
On June 4, 2014, Vale announced the execution with a subsidiary of Suzano Papel e Celulose S.A. ( <u>Suzano Subsidiary</u> ), company that produces eucalyptus cellulose, an agreement to sell its entire share in Vale Florestar Fundo de Investimento em Participações ( <u>FIP Vale Florestar</u> ), in the amount of R\$205 million. All usual precedent conditions and approvals, including by Conselho Administrativo de Defesa Econômica CADE were complied with and, thus, the transaction was effective on August 8, 2014.
BNDESPar, Petros and FUNCEF, other shareholders of FIP Vale Florestar also sold their respective shares to the Suzano Subsidiary, that now holds 100% of FIP Vale Florestar.
Sale of maritime transport assets and cooperation agreement
In September 2014, Vale Internacional and China Ocean Shipping Company ( <u>Cosc</u> o) entered into a strategic cooperation agreement for maritime iron ore transportation. Under this agreement, four gross 400 thousand tons VLOCs (Very Large Ore Carriers), currently owned and operated by Vale Internacional, will be sold to Cosco. The transaction aims to reduce the asset base and release capital, preserving the maritime iron ore transportation capacity of Vale.
Also in September 2014, Vale Internacional and China Merchants Group entered into an agreement that covers a strategic cooperation between both maritime iron ore transportation companies. Under this agreement, the companies agreed upon a long term freight agreement to carry iron ore from Brazil to China, using VLOCs to be built and operated by China Merchants Group.
2013
Sales of part of the gold flow produced as a by product

On February 28, 2013, Vale Switzerland, after approval by the Board of Directors, finalized the contract with Silver Wheaton Corp. (SLW), a Canadian company with share traded in the Toronto Stock Exchange and in the New York Stock Exchange, for the sale of 70% of payable gold flow produced as a byproduct in certain nickel mines in Sudbury, for a period of 20 years, and with Silver Wheaton (Caymans) Ltd. for the sale of 25% of the payable gold flow produced as byproduct in the Salobo copper mine, for the extent of the mine s longevity. In addition to the initial payment of US\$ 1.9 billion in cash, Vale Switzerland received 100 million in SLW warrants with a strike price of US\$ 65 and a 10-year term. Additionally, Vale will receive cash payments in the future for each ounce (oz.) of gold delivered to SLW as per the agreement, at

Table of Contents		

the lowest amount between US\$ 400 per ounce (plus a 1% annual adjustments starting in 2016 in the case of Salobo) and the market price.

This transaction frees a considerable amount contained in Vale s world class basic metals assets, to the extent that it attributes to the payable gold produced in Salobo de amount of US\$ 5.32 billion, in addition to the payments of US\$ 400 per ounce delivered, given that there will be no additional cost to extract the gold contained in the condensed copper produced at Salobo. The execution of Vale strategic plan reinforces the Company s confidence in the high potential of its world-class basic metals and the belief that they will general significant value to shareholders across the cycles.

The agreement signed with Silver Wheaton (Caymans) Ltd. Was amended on March 2, 2015 for purposes of having the agreement cover the purchase of additional 25% flow of payable gold. Under the terms in the amendment, Vale will receive an initial cash payment in the amount of US\$ 900 million, and future payments in cash per ounce (oz) of gold delivered to Silver Wheaton based on the lowest value between US\$ 400 per ounce and market value. This amount will be adjusted annually at 1% starting in 2017. Additionally, Vale may also receive an additional payment in cash depending on the decision to expand the copper ore processing capacity in Salobo to 28 Mtpa more before 2036, provided that such additional payment may vary between US\$ 88 million and US\$ 720 million, depending on the time and size of the expansion).

Sale of shareholding position in VLI

For information on this operation, see item 10.3 (a) above.

Norsk Hydro total share sale

On November 14, 2013, Vale announce that it would sell all of its 22% Norsk Hydro ASA (Hydro) shares, held by its subsidiary Vale Austria Holding GmbH (currently named Vale International Holdings GmbH) (<u>Vale Austria</u>), for the price of NOK 25.00 per share, resulting in the amount of NOK 11.196 billion, equivalent to US\$ 1.822 billion (equivalent to R\$ 4,243 billion). Vale Austria held these shares since 2011, when it restructured its aluminum assets portfolio. After this transaction is concluded, Vale Austria will no longer hold Hydro shares.

In the same operation, on November 9, 2014, Vale Austria Holdings GmbH, currently known as Vale International Holdings GmbH (Vale Austria) sold to Norsk Hydro ASA (Hydro) shares issued by Mineração Paragominas S.A. representing 20% of its capital, as exercise of a *put option*. The remaining 20% interest held by Vale Austria in the capital stock of Mineração Paragominas S.A. is also subject to a Vale *put option*, which can be exercised starting on February 28, 2016.

Tres Valles share sales

On December 12, 2013, Vale concluded the Sociedade Contractual Minera Tres Valles (Tres Valles) sale for US\$ 25 million (equivalent to R\$ 54 million) to Inversiones Porto San Giorgio S.A. (ISG), a company controlled by the Chilean group Vecchiola S.A.

Tres Valles is a company that produces cathode copper in the Coquimbo region in Chile. The transaction included Vale total share of 90% in Tres Valles equity and also certain mining right

#### Table of Contents

held by Vale in the Coquimbo region. Tres Valles has underground and opencast mines and it has the production capacity of 18,500 metric tons of cathode copper.

Energy production assets sale

On December 19, 2013, Vale signed agreements with CEMIG Geração e Transmissão S.A. ( CEMIG GT ) for the sale of 49% of its shares of 9% of Norte Energia S.A. ( Norte Energia ) s equity, a company in charge of the construction, operation, and exploration of the Belo Monte hydroelectric power plant (Belo Monte), for R\$ 305 million, and for the creation of a joint venture of energy generation assets.

For this goal, two distinct vehicles were created to host energy generation projects and assets. In the first, Aliança Norte Energia Participações S.A., (<u>Aliança Norte</u>), created by Vale and CEMIG GT, respectively holding 51% and 49% of the capital stock. This company was created in two phases: initially, Vale transferred its 9% share held in Norte Energia to its subsidiary Aliança Norte and, subsequently, CEMIG GT acquired 49% of the shares of this company for approximately R\$ 305 million. This transaction was concluded on March 31, 2015, and Vale reduced its share in the total capital of Norte Energia to 4.59%, although it remains entitles to acquiring 9% of the power produced by the plant, according to the terms in the long term power acquisition agreement entered in 2012.

The second vehicle, Aliança Geração de Energia S.A. ( Aliança Geração de Energia ), was formed by Vale and CEMIG GT, respectively with 55% and 45% of the total equity, by means of contribution of its share in the following energy generation assets: Porto Estrela, Igarapava, Funil, Capim Branco I and II, Aimorés and Cadonga. These power plants hold 1.158 MW of attributed installed capacity and an average of 652 MW of secured energy. Electric energy supply to Vale operations will be secured by long-term contracts with Aliança Geração de Energia, in order to maintain the same amount of energy currently supplied to our operations.

The transaction related to Aliança Geração de Energia was concluded on February 27, 2015, and such conclusion had no impact on financial disbursements or income and was executed by delivering the above-mentioned assets.

Purified phosphoric acid sales

On December 20, 2013, Vale signed a contract with Israel Chemicals Ltd. (ICL) for the sale of all of its shares, corresponding to 44.25%, of Fosbrasil s equity, a company that produces purified phosphoric acid, located in Cajati, in the State of São Paulo, for US\$ 52 million.

On December 18, 2014, upon compliance with preconditions, including approval by the Conselho Administrativo de Defesa Econômica (CADE), this transaction was concluded by Vale, that no longer holds any shares in Fosbrasil.

Log-in share sale

On December 26, 2013, Vale, according to the rules in CVM s Instruction No. 168, from December 23, 1991, as edited, held an auction to dispose of 28,737, 367 of common shares it owned from Log-in Logística Intermodal S.A. (Log-in), a company listed in the BM&FBOVESPA (ticker symbol: LOGN3), corresponding to all of the ordinary shares issued by Log-in and held by Vale, for the price of R\$ 8.11 per share, totaling R\$ 233 million. The completion of this transaction took place on January 2, 2014.

Table of Contents
2012
Sale of CADAM Participation
On April 26, 2012, Vale signed an agreement to sell its participation in 61.5% of Cadam S.A. (CADAM) for US\$ 30.1 million (equivalent to R\$ 58.0 million), to KaMin LLC (a closed capital American company). CADAM produces kaolin and operated an open mine in the State of Amapá, a processing plant, and a private port, both in the State of Pará. The mine and the plant are interconnected via a 5.8 km pipeline. Vale will receive US\$ 30.1 million for CADAM s share control, to be paid within five years. The transaction was concluded on May 7, 2012. Out of this amount, US\$ 11.0 million were paid by Vale by December 31, 2014. CADAM s sale is part of the Company s continued efforts to optimize its assets portfolio. Together with the sale of Pará Pigmentos S.A. (PPSA), in 2010, CADAM s sale consolidates the kaolin sales business.
Sale of Colombia coal assets
On May 25, 2012, Vale, and Vale International Holdings GmbH and Vale International S.A., signed an agreement to sell its thermal coal operations in Colombia to CPC S.A.A, a company affiliated to Colombia Natural Resources S.A.S. (CNR), a closed capital company, for US\$ 407 million (equivalent to R\$ 843 million) in cash. On June 20, 2012, the transaction was approved by the regulatory authorities of the Netherlands. The sale was concluded on June 25, 2012.
The thermal coal operations in Colombia are an integrated mine-rail-port system consisting of: (a) 100% coal mine in El Hatillo and a coal deposit in Cerro Largo, both in Cesar s department; (b) 100% of the Sociedad Portuária Rio Córdoba (SPRC), a coal port operation on Colombia Atlantic coast, and (c) 8.43% participation in the Ferrocarriles Del Norte de Colombia S.A. (FENOCO) railway, which holds concession and operation of the railway connecting the coal mines to SPRC.
Sale of manganese ferroalloy assets in Europe
On July 10, 2012, Vale and Vale International S.A. signed an agreement to sell its manganese ferroalloy operations in Europe to Glencore Internacional Plc. Subsidiaries, a company listed in the London and Hong Kong stock markets, for US\$ 160 million (equivalent to R\$ 325 million) in cash, subject to the fulfillment of certain precondition. The manganese ferroalloy operations in Europe consist of: (a) 100% of Vale Manganese France SAS, located in Dunkirk, in France; and, (b) 100% of the Vale Manganese Norway AS, located in Mo I Rana, Norway. The sale was concluded on October 31, 2012.
Sale of marine transport assets

On August 31, 2012, Vale International signed with Polaris Shipping Co. Ltd. (Polaris), agreements for the sale, for US\$ 600 million, of 10 large ore carriers. These carriers were acquired in 2009 / 2010 and converted from oil tankers to ore carriers, each with an approximate capacity of 300,000 DWT, so that Vale International would have at its disposal a marine fleet dedicated to the transport of iron ore to its clients. The transaction aimed to reduce the asset base, release capital and preserve Vale s ability to transport iron ore maintaining the ships at its disposal, under freight agreements, but eliminate the risks involved in ownership and operation.

#### Table of Contents

Sale of fertilizer assets

On December 18, 2012, Vale Fertilizantes S.A. signed with Petrobras an agreement to sell the company Araucária Nitrogenados, a nitrogen production operation located in Araucária in the State of Paraná, for US\$ 234 million, subject to adjustments. On May 31, 2013, the transaction was closed upon transferring the shares of Araucária Nitrogenados held by Vale Fertilizantes to Petrobras. As expected, payment has been done in quarterly installments, in amounts that are equivalent to the royalties owned by Vale Fertilizantes, parent company of Vale Potássio do Nordeste S.A. relative to the leasing of mining rights at Taquari-Vassouras and the Carnalita project.

CADE approved the transaction with no restrictions on May 15, 2013.

Sale of participation in oil and gas concession

On December 21, 2012, Vale signed an agreement with Statoil Brasil Óleo e Gás Ltda (Statoil) to sell its 25% participation in the BM-ES-22A concession in the Espírito Santo Basin for the amount of US\$ 40 million (equivalent to approximately R\$ 90 million), in cash. The completion of this transaction happened on March 19, 2014. Vale s strategy for sustainable growth and value generation encompasses multiple options, and the active management of its portfolio is an important action to optimize the allocation of capital and to focus management efforts.

#### c. Unusual events or operations

#### 2014

#### Impairment of assets

The Company identified evidences of *impairment* in some investments, intangible and fixed assets. Main impairment adjustments are presented below:

			December 31, 2014			December 31, 2013	
Assets	Cash Generating Unit	Net Accounting Value	Recoverable Value	Impairment Adjustment	Net Accounting Value	Recoverable Value	Impairment Adjustment

Table of Contents
2013
On November 2013, Vale decided to join the Tax Recovery Program REFIS for the payment of amounts relative to taxation on the profit from its subsidiaries and affiliated companies abroad from 2003 to 2012. By joining the REFIS, Vale generated a substation reduction in the amounts under dispute and is in consonance with the Company s goals to eliminate uncertainties to focus on its business, in order to keep potential benefits from legal appeals under the tax regime for its foreign subsidiaries.
Among the options offered by REFIS legislation, Vale chose to make early payment of debts relative to 2003, 2004, and 2006, and to pay principal tranches, fines and interest for the remaining years of 2005, and 2007 through 2012.
The payments face value resulting from Vale's decision reached the amount of R\$ 22.2 billion. Considering early payments and payment of the first tranche, in 2013 R\$ 6.0 billion were paid. The remaining amount in 2014, that is, R\$ 16.7 billion, will be paid in 166 monthly tranches. For further details, see Explanatory Note No. 19 of the accounting statements relative to the fiscal year ended on December 31, 2013.
2012
Income Tax
In June 2012, the Company decided to incorporate Vale Fertilizantes in the Nague. Consequently, the value of the acquired assets and liabilities stated in the Nague s accounting statements, deducted from the values amortized in the acquisition date, are the operations tax basis. As a result, after the incorporation was concluded, there is no difference between the tax basis and the accounting values of the acquired net assets, and consequently, there is no more deferred income tax liability. The balance of the deferred income tax liability initially stated (accounted for when of the purchasing accounting) totaling R\$ 2,533 million, was reverted and fully acknowledged for the fiscal year s result, in connection with the incorporation g Vale Fertilizantes in the Nague.
Assets recoverable value
Vale found evidence of a reduction in assets recoverable value in some of the investments in affiliated companies and joint ventures and in fixed assets. The following table shows the adjustments made:

#### 10.4 Changes in Accounting Practices. Corrections and Remarks.

#### a. Significant changes in accounting practices

#### 2014

In 2014 there was no significant change in any pronouncement. All pronouncements in 2014 aim adoption of new accounting guidelines starting in 2016, and among which IFRS 15 - *Revenue from Contracts with Customers* is the most significant one. IFRS 15 covers recognition of revenue from contracts with clients (except contracts within the scope of leasing agreements, insurance agreements, and financial instruments), and replaces the current pronouncements IAS 18 Revenue, IAS 11 *Construction contracts*.

2012	
There were no	o significant changes in the consolidated accounting statements in the fiscal year that ended
	223

#### **Table of Contents**

on December 31, 2012. Vale drafted its consolidated accounting statements in IFRS based on the pronouncements already issued by the CPC and referenced by the CVM. The pronouncements issued by the IASB, and still not referenced by the CVM, will not be adopted in advance by the Company.

Considering the option given by the pronouncement of the CPC 19(R1) Investment in Joint Controlled Enterprise (Joint Venture), issued on August 4, 2011 and anticipating the consequences of the CPC 18(R2) Investment in Associated Company, Controlled Company and in Joint Venture (correlated to IFRS 11), the Company, for the purposes of consolidated statements, chose not to show its participation in controlled companies of shared control by the proportional consolidated method, and chose to present its investment in these entities using the equity equivalence method in the fiscal year of 2012.

Additionally to what is said above, for specific contracts, the Company assumes risks related to product transportation and negotiates the freight cost directly for the client. However, for these contracts, in 2011 and 2010, the main portion of the freight related to CFR (international term for freight and cost) of iron ore and pellets was recorded as if Vale was an operation agent, appearing in freight net income. Vale reviewed the 2011 and 2010 statements to reflect the income of such sales accordingly with the total value charged from clients. As consequence, freight costs related to this operation appears as cost of sold product.

For more information, see Explanatory Note 2 in the financial statements relative to fiscal year ended on December 31, 2012.

#### c. Corrections and remarks in the auditor s opinion

There were no corrections on the opinions drafted by our independent auditors relating to the financial statements for 2012, 2013, and 2014.

There are no paragraphs to emphasize in the financial statements for December 31, 2014.

As result of a difference between practices adopted in Brazil and those defined through the International Financial Reporting Standards (IFRS), the opinion by independent auditors on the accounting statements ending on December 31, 2012, 2013, and 2014 present the emphasis paragraph as follows:

#### • On December 31, 2012, 2013, and 2014:

As described in Note 2, individual financial statements were prepared in accordance with accounting practices adopted in Brazil. In the case of Vale S.A., these practices differ from IFRS, applicable to separate accounting statements, only related to the evaluation of investments in subsidiaries, affiliates, and joint ventures, by the equity method, as in accordance to IFRS, the fair value method should be adopted.

As discussed on Note 6 of the 2013 accounting statements, the Company changed how it pays employee benefits in 2013. Our opinion is not an exception in regards to this topic.

In 2014, KPMG Auditores Independentes assumed as responsible for the independent audit of Company Financial Statements, and issued the report of the financial statements for 2014. Amounts corresponding to years ended on December 31, 2013 and 2012, presented for purposes of comparison were previously audited by PricewaterhouseCoopers Auditores Independentes, who issued reports dated February 26, 2014 and February 27, 2013, respectively, that present no changes.

#### 10.5 Critical Accounting Policies

Preparation of financial statements requires the use of certain critical accounting estimates and also the exercise of judgment by the Company s Management in the process of applying the Group s accounting policies.

#### **Table of Contents**

These estimates are based on the best information available in each fiscal year. Changes in facts and circumstances may lead to revision of estimates, therefore the actual future results may differ from estimates.

Significant estimates and assumptions used by the Company s Management in preparing these financial statements are thus presented:

a) Mineral reserves and useful life of the mines

The estimates of proven and probable reserves are regularly evaluated and updated. These reserves are determined using generally accepted geological estimates. The calculation of reserves requires that the Company assume positions of future conditions that are uncertain, including future ore prices, exchange and inflation rates, mining technology, availability of permits and production costs. Changes in some of these assumptions could have a significant impact on proven reserves and probable reserves recorded.

The estimated volume of mineral reserves is based on calculation of the portion of the mines that is depleted, and the estimated useful life of the mine is a major factor in quantifying the provision of environmental rehabilitation of mines during the write-down of fixed assets. Any change in the estimates of the volume of mine reserves and the useful life of the assets linked to them may have a significant impact on charges for depreciation, depletion and amortization, which are recognized in the financial statements as cost of goods sold. Changes in the estimated useful life of the mines could cause a significant impact on estimates of the provision for environmental costs of recovery after write-down of fixed assets and impairment analysis.

#### b) Disposal of Assets

The Company recognizes an obligation according to the fair value for disposal of assets during the period in which they occur, pursuant to the Accounting Statement s Explanatory Note 3(b). The Company believes the accounting estimates related to recovery of degraded areas and closure costs of a mine are a critical accounting policy because they involve significant values for the provision and it is expected to involve several assumptions, such as interest rates, inflation, the useful life of the asset considering the current stage of depletion and the projected dates of depletion of each mine. These estimates are reviewed each year.

#### c) Taxation on profit

The Company recognizes the effect of the deferred tax from the tax loss and/or temporary differences in its consolidated financial statements and the financial statements of the controlling company.

Determination of the provision for income taxes or deferred income tax, assets and liabilities, and any provision for losses on tax credits requires estimates from Management. For each future tax credit, the Company assesses the likelihood of part or the entire asset not being recovered. The

provision for devaluation depends on the assessment by the Company, the probability of generating taxable income in the future, on production and sales planning, commodity prices, operating costs, restructuring plans, the costs of recovering degraded areas, and planned capital costs.

#### **Table of Contents**

d) Provision for legal suits

Provisions for legal suits are only recorded when the possibility of loss is considered to be probable by the legal director and their legal advisers.

Legal suit provisions are recorded when the value of losses can be reasonably estimated. By their nature, legal suits will be resolved when one or more future events occur or fail to occur. The occurrence of such events does not typically depend on the Company s activities, which makes it difficult to give precise estimates about the date on which such events are recorded. Assessing such liabilities, particularly in the uncertain legal environment in Brazil, and well as in other jurisdictions, involves exercising significant estimates and judgments from management regarding the results of future events.

e) Employee Retirement Benefits

The amounts reported in this section depend on a number of factors that are determined based on actuarial calculations that use several assumptions to determine costs and liabilities, among other things. One of the assumptions used in determining the amounts to be recorded in the financial statements is the discount and corrective interest rate. Any changes in these assumptions will affect the accounting records.

At the end of each year, the Company, together with external actuaries, reviews which assumptions should be used for the following year. These assumptions are used to update and discount the fair value of assets and liabilities, costs and expenses, and to determine future values of estimated cash outflows that are necessary to pay pension plan obligations.

f) Reduction in Recoverable Value of Assets

Every year the Company tests the recoverability of its tangible and intangible assets separated by cash-generation unity, usually employing discounted cash flow criteria, which depends on several estimates that are influenced by market conditions prevailing at the time that such recoverability is tested.

g) Fair Value of Derivatives and Other Financial Instruments

The fair value of financial instruments not traded in an active market is determined by using valuation techniques. The Company uses its judgment to choose the various methods and to define assumptions, which are mainly based on market conditions existing at balance sheet date

The analysis of the impact if actual results vary from Management s estimates is presented in 2014 accounting statements explanatory note 22 on the topic of Sensitivity Analysis.

Table of Contents
10.6 - Internal Controls
a. Degree of efficiency of such controls, and any imperfections and actions taken to correct them
Vale s Management evaluated the effectiveness of internal controls related to financial statements through a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements.
Management established a process for evaluating internal controls using a process mapping methodology and risk assessment to identify applicable controls in order to mitigate the risks affecting the Company s ability to start, authorize, record, process and release relevant information in the financial statements.
At the end of fiscal year, based on tests performed by Management during the period, no shortcomings were identified in the implementation of relevant controls. During the fiscal year, whenever mistakes are identified in the implementation of controls, they are corrected through the application of action plans to ensure their correct execution at the end of the fiscal year.
Vale s Directors understand that the process-mapping and risk-assessment methodology used are adequate to ensure the efficiency, accuracy and reliability of its internal controls.
a) Deficiencies and recommendations on internal controls included in the independent auditor s report
The independent auditors did not present any deficiencies about the effectiveness of internal controls adopted by Vale.
10.7 Public Sale of Securities
a. How resources resulting from the sale were used
2014

In February 2014, Vale closed the public distribution offer of 1,000,000 (one million) simple debentures, chirographic non-convertible into shares, in up to four series, with par value of R\$ 1,0 thousand, total of R\$ 1,0 billion. Debentures are to be adjusted and will pay annual interest, according to IPCA + 6.46% per year (equivalent to NTN-B 2020 0.15%), IPCA + 6.57% per year (equivalent to NTN-B 2022 0.10%), IPCA + 6.71% per year (equivalent to NTN-B 2024 + 0%) and IPCA + 6.78% per year (equivalent to NTN-B 2030 + 0%), and mature in 2021, 2024, 2026, and 2029, depending on the series. Debentures are unsecured guarantees and will be *pari passu* to all Vale obligations of similar nature.

Net revenue from the Issuance were fully destined to be used or to reimburse expenses, costs and/or debts related to the projects of investment on Company infrastructure deemed to be priority, under the terms in article 2 in Law 12.431, in Decree 7.603 and Order by the Ministry of Transportation.

For more information on this issue, see item 18.5 in this Reference Form.

2013

There was no public sale of securities in 2013.

Table of Contents
2012
Vale priced US\$ 1 billion in bonds maturing in 2022.
In January 2012, Vale priced the bonds offer from its whole subsidiary Vale Overseas Limited (Vale Overseas) at US\$ 1.0 billion (equivalent to R\$ 2.0 billion). The bonds have a 4.375% coupon rate per year, paid biannually, at a price that is 98.804% of the bond s face value. These bonds mature in January 2022 and were issued with a 255 basis points spread over the US Treasury bonds, resulting in a 4.525% yield to the investor. The bonds are a Vale Overseas unguaranteed obligation, and are totally and unconditionally guaranteed by Vale. The guarantee is equally valid as payment for all other obligations of debt without Vale s guarantees.
Vale used this offer s net revenues for general corporate purposes.
Vale priced US\$ 1.250 billion in bonds maturing in 2022.
In April 2012, Vale priced the bonds offer of its whole subsidiary Vale Overseas Limited (Vale Overseas) at US\$ 1.250 billion (equivalent to R\$ 2.6 billion), guaranteed by Vale. Bonds were consolidated in a single series, with Vale Overseas bonds, issued on January 11, 2012, at US\$ 1 billion (equivalent to R\$ 2.0 billion) with a 4.375% coupon rate and 2022 maturity. Bonds issued in April will have a 4.375% coupon rate of 101.345% of the bond s face value. These bonds mature in January 2022 and were issued with a 200 basis points spread over the US Treasury bonds, resulting in a 4.205% yield per year to the investor. The bonds are a Vale Overseas unguaranteed obligation, and are totally and unconditionally guaranteed by Vale. The guarantee is equally valid as payment for all other obligations of debt without Vale s guarantees.
Vale used the net revenues from this offer for general corporate purposes.
Vale priced 750 million in bonds maturing in 2023
In July 2012, Vale priced the bonds offer of 750 million (equivalent to R\$ 1.9 billion) of 10.5 years. Vale will use the net revenue from this offer general corporate purposes. The notes maturing in 2023, in the amount of 750 million (equivalent to R\$ 1.9 billion), have a 3.75% coupon rate per year, paid annually, and were priced at 99.608% of the bond s face value. The bonds mature on January 10, 2023, and were issued with a 180 basis point spread over the mid-swap, or a 225.7 basis point spread over the German Bund s bonds return, resulting in a 3.798% yield per year to the investor. The bonds are an unguaranteed obligation and are <i>pari passu</i> for Vale s entire obligation of a similar nature.
Vale has used net revenues from this offer for general corporate purposes.

Vale priced US\$ 1.5 billion in bonds maturing in 2042.

In September 2012, Vale price an offer of US\$ 1.5 billion (equivalent to R\$ 3.1 billion) in bonds with a 5.625% annual coupon rate, paid biannually, and that were priced at 99.198% of the bond s face value. The bonds mature in September 2042, and were issued with a 300 basis point spread over the US Treasury bonds, resulting in a 5.681% annual yield for the investor. The bonds are an obligation without guarantees and are *pari passu* for Vale s entire obligation of a similar nature.

Vale has used net revenues from the offer for general corporate purposes.

### v. agreements for futures from financing

#### 1. Base Metal

Nickel Operations Project New Caledonia

Regarding the construction and installment of the nickel processing plant in New Caledonia, Vale offered guarantees for the financing, acquired to pay for this operation, as required by the French Girardin tax law. Vale provided guarantees to the agent acting on behalf of the tax benefit, of investors (BNP Paribas), related to certain payments due by Vale Nouvelle-Calédonie SAS (VNC). Consistent with the commitments assumed, construction of the plant ended on December 31, 2012. Additionally, Vale has also committed that the assets associated the Girardin Law would be operated for five years, starting on December 31, 2012, under specific production criteria, which remain consistent with the current plans. Vale believes that the probability of the guarantee being claimed is remote.

### 2. Participating Debentures

Due to the 1997 privatization, the Company issued debentures for existing shareholder, including the Brazilian Government. The terms of the debentures were established to make sure that the pre-privatization shareholders had a share in potential future benefits, which were to be obtained by means of the exploration of certain mineral resources.

A total 388,559,056 debentures were issued in the nominal amount of R\$ 0.01 (one cent of a real), whose value will be adjusted based on the Market Price General Index ( IGP-M ), as defined in the Debenture Deed. On December 31,2014, December 31, 2013, and December 31, 2012, the debentures fair value was R\$ 5 million, R\$ 4 million, and R\$ 3 million, respectively.

The owners of these debentures have the right to receive premiums payable every six months, equivalent to a percentage of the net revenues from certain mineral resources, as per the Debenture Deed. In April and October 2013, the Company paid semi-annual yields in the amount of R\$ 13 million and R\$ 9 million, respectively. In April and October 2014, the Company paid semestrial compensation in the total amount of R\$ 123,7 million and R\$ 160,7 million to debenture holders, respectively. The amount of semestrial compensation paid in 2014 include the payment of premium for copper (R\$ 12,6 million in April and R\$ 9,3 million in October) and, for the first time, the payment of premium for iron ore (R\$ 11,1 million in April and R\$ 151, 4 million in October).

### 3. Guarantee granted to affiliates

Vale granted corporate guarantees, according to the shareholding limit, to a facility acquired with Bando Nacional de Desenvolvimento Econômico e Social - BNDES, Caixa Econômica Federal and Banco BTG Pactual S.A. by its affiliate Norte Energia. On December 31, 2014, the amount guaranteed by Vale was R\$ 1,385 million. On December 31, 2013 and 2012, the amount guaranteed by Vale was R\$ 695 million and R\$ 188 million, respectively.

On December 31, 2014, the company had granted a total of R\$ 1,195 million in guarantee for the loan of Companhia Siderúrgica do Pecém S.A. CSP, corresponding to its shareholding position in that company.

Base metals operations

Nickel Operations New Caledonia

In October 2012, Vale signed an agreement with Sumic, shareholder of VNC, to reflect Sumic s agreement with the dilution of its share in VNC from 21% to 14.5%. Originally, Sumic has the option to sell his VNC shares to Vale if the defined cost of the initial project of nickel development exceeded the R\$ 12 billion (US\$ 4,6 billion) limit and an agreement in case if lack of consent on how to proceed with the project. On May 27, 2010, the limit was reached. Vale discussed it and decided to extend the option. As a result of the October 2012 agreement, the option s trigger change from a cost limit to a production limit, which should have been achieved in December 2014. VNC did not achieve test production in December 2014. In February 2015, Vale entered into another amendment to the Sumic s Shareholders Agreement, which altered the test production and extended it to December 2015. If VNC achieve test production by December 2015, the option is automatically triggered and Sumic remains as shareholder of VNC. If VNC fails to achieve test production by December 2015, the option is automatically triggered and Sumic will sell its share to Vale.

### Nickel Operations Indonesia

In October 2014, our subsidiary PT Vale Indonesia TBK ( PTVI ), a company listed in Indonesia, renegotiated its operation license (known as Contract of Work - CoW ). Renegotiation included the following key points: (i) *Royalty* royalty will be 2% of matte nickel sales and will increase to 3%, based on a defined nickel price limit; (ii) *Divestment* the Company agrees upon divesting 15% of its share within five years while partner Sumitomo Mining Metal Co., Ltd will also divest 5% of its share; (iii) *Continuity of Business Operations* provided that the Company complies with its obligations under the CoW, which may require the continuous right to operate until; (iv) *Size of the CoW Area PTVI*, which will reduce its CoW area by 72 kha, with no impact on the deployment of the growth strategy; (v) *Domestic Processing PTVI* in agreement with the obligation to use domestic processing and refining; and (vi) *Priority to Use Workforce, Products, and Services PTVI* in agreement with the obligation to prioritize the use of domestic workforce and services. The renegotiated agreement had net impact, recorded as loss in the measurement or sale of noncurrent assets equal to R\$ 441 million (US\$ 167 million) due to the reduction to the CoW area.

## • Nickel <u>Operations</u> <u>Canada</u>

The Development Agreement, as amended, between Vale Canada, Vale Newfoundland & Labrador Limited (<u>VNL</u>L) and the Province of Newfoundland and Labrador (<u>Province</u>) rule VNLI rights and obligations related to the development and operation of the Voisey s Bay mine as well, as obligations on processing in the Province and exporting of concentrate copper and nickel.

On December 19, 2014, the Sixth Amendment of the Development Agreement was signed (<u>Sixth Amendment</u>). The Sixth Amendment, among other things: (i) increase the amount of concentrate nickel that VNLL is allowed to export to the Province in additional 94,000 tons, higher or

lower than the existing limit of 539,000 tons, (ii) extends the term applicable for VNLL to export concentrate nickel to December 2020, and (iii) allows VNLL to export medium content concentrate nickel (<u>middlings</u>), at VNLL discretion, to achieve the ramp-up schedule for the processing plant in Long Harbour (<u>LHP</u>P). In turn, VNLL has agreed, among other things, upon: (i) return to the Province a number of nickel units to be processed equivalent to the exported amount, (ii) replacing <u>middlings</u> with an equivalent number of nickel units within twelve months from the date when <u>middlings</u> were exported, (iii) making certain payments to the government related to the additional amount of concentrate nickel exported by VNLL; (iv) diligently proceeding with the building of LHPP, and (v) investing on the Province community.

Additionally, for commitments contained in the Sixth Amendment, other key commitments in the Development Agreement, as amended, remain binding. Therefore, under the terms in the Development Agreement, VNLL has a potential obligation guaranteed by letters of credit and other bonds, which may

### Table of Contents

be due and payable if certain commitments related to the underground mine are postponed or unachieved.

In these operations, we offered letters of credit and guarantees in the amount of R\$ 2,6 billion (US\$ 1 billion) associated to items as environmental claims, commitments with asset retirement, power agreements, post-employment benefits, agreements of community service and importing and exporting commitments.

### 2. Concessions and Sub-Concession Agreements

### Railway transportation companies

The Company entered into concession contracts with the Brazilian Government, through the Ministry of Transport, for exploration and development of public railway transport of cargo and passengers, supervised by the National Agency of Land Transportation (ANTT). The accounting records of concessions are classified as intangible assets.

Termination of the concession for the railways Vitória-Minas and Carajás are June 2027. Contractual bases and termination dates of the railroad transportation concessions have not been subject to change in the fiscal year.

The concession will be terminated if one of the following takes place: the end of the contractual period, expropriation, forfeiture, termination of period, cancellation, bankruptcy or closure of the Concessionary.

### Port Terminals

Vale owns specialized port terminals, as follows:

TERMINAL	GRANTEE	LOCATION	TERMINATION
Terminal de Tubarão	Vale S.A.	Vitória - ES	2039
Terminal de Praia Mole	Vale S.A.	Vitória - ES	2039
Terminal Marítimo de Ponta da Madeira	Vale S.A.	São Luis - MA	2039
Terminal da Ilha Guaíba	Vale S.A.	Mangaratiba RJ	2039
	CPBS - Companhia Portuária Baía de		
Terminal de Exportação de Minério	Sepetiba	Itaguaí/RJ	2021
	MCR - Mineração Corumbaense		
	Reunida		
Terminal de Gregório Curvo	S.A.	Corumbá/MS	2039

The contractual bases and expiration dates of the railway transport did not change during the period.

Except for Terminal de Exportação de Minério granted to CPBS Companhia Portuária Baía de Sepetiba, the Adherence Agreements applicable to other port terminals were adapted to the new port law, Law 12.815/2013, and new Agreements were executed in September 2014, for 25 years, renewable for equal periods.

There are no other items not shown in Vale s financial statements other than those previously reported.

<ul> <li>a. Investments, including: (i) quantitative and qualitative description of ongoing and planned investments;</li> <li>(ii) sources of investment financing; and (iii) relevant ongoing and planned divestments.</li> </ul>
b. Already-disclosed acquisition of plant, equipment, patents or other assets that should materially affect Vale s production capacity
c. New products and services, including: (i) description of ongoing research already published; (ii) the total amounts spent by the issuer on research to develop new products or services; (iii) ongoing projects already announced; and (iv) the total amounts spent by the issuer to develop new products or services
NOTE: To convert the amounts of investments made, the average exchange rates in the periods were used for conversion.
In 2015, investments on corporate social responsibility will be R\$ 2,239 million, comprised by R\$ 1,751 million in environmental protection and conservation and R\$ 488 million on social programs.
In 2014, Vale investments (projects execution and operation maintenance) were R\$ 28,207 billion. A total of R\$ 18,649 billion were invested on project executions and R\$ 9,558 billion on the maintenance of existing operations. Investments on corporate social responsibility summed R\$ 2,693 billion, where R\$ 2,050 billion are destined to environmental protection, and R\$ 0,643 billion to social projects. Investments on acquisitions totaled R\$ 162 million in 2014.
Starting in 2013, expenses with Research and Development (R&D) were not included in the investments amount, which, in turn, include project execution and maintenance of existing operations, and are based in disbursements.
In 2013, Vale s investments (project execution and maintenance of existing operations) cost R\$ 30.750 billion. R\$ 20.845 were invested in project execution and R\$ 9.906 billion in the maintenance of existing operations. Investments in corporate social responsibility reached R\$ 2.776 billion, R\$ 2.194 billion of which were dedicated to environmental protection and R\$ 572 million to social projects.
Acquisition investments summed up to R\$ 579 million in 2013. The main acquisitions are discussed in item 10.3 of this Reference Form.
In 2012, investments excluding acquisitions were R\$ 34.660 billion below what was budgeted. Of the total amount invested in 2012, R\$ 22.639 billion was allocated to project development, R\$ 2.997 billion to R&D, and R\$ 9.025 billion to sustaining existing operations. Investments in corporate social responsibility were R\$ 2.626 billion (R\$ 2.005 billion agreemented for environmental protection, and R\$ 621 million to social

projects).

Investments in acquisitions were R\$ 1.267 billion in 2012. The main acquisitions are commented on in item 10.3 of this Reference Form

In 2014, Vale started operations in eight projects: the 5th line in Brucutu, Tubarão VIII, Teluk Rubiah, Salobo II, Serra Leste, Vargem Grande, Long Harbour, and Nacala.

237

### Table of Contents

In 2013, Vale started operations in five projects: (i) Conceição Itabiritos, an iron ore processing plant in Minas Gerais; (ii) Planta 2, a dry processing plant previously known as *Adicional* 40 Mtpa, in Pará; (iii) CLN 150, a logistic corridor in Brazil s Northern System (including Pier IV with its first cradle in Ponta Madeira), (iv) Long Harbour, a nickel and copper hydrometallurgical refinery in Canada, and (v) Totten, nickel and copper mine in Canada.

In 2012, Vale started operations in two projects (a) Salobo I, a copper and gold operation in Pará, and (b) Lubambe, a copper operation located in Africa s copper belt, in Zambia.

### 2015 Capital Budget

In December 2014, our Board of Directors approved the investment budget for 2015, including expenditures of US\$ 6,358 billion (equal to R\$ 14,971 billion) for project execution, and US\$ US\$ 3,809 billion (equal to R\$ 8,969 billion) dedicated to the maintenance of existing operations.

Our main iron ore growth initiatives respond for 71% of the US\$ 6,358 billion budget for project development in 2015. These programs include: (i) expansion of our integrated iron ore operations in Carajás (US\$ 3,696 billion) through S11D and CLN S11D projects; and (ii) conclusion of Itabiritos project to partially replace the capacity, increase production and improve the quality of the iron ore produced in the South and Southeastern Systems (US\$ 659 million), including Conceição Itabiritos II, Vargem Grande Itabiritos and Cauê Itabiritos projects.

The following table shows the estimated allocation of investments for the maintenance of existing operations:

### INVESTMENTS TO MAINTAIN OPERATIONS 2015 ALLOCATION BY BUSINESS AREA

There are no other factors that have relevantly influenced the Company s operating performance that have not been identified or commented on other items in this section.

Additional Information subsequent to December 31, 2014

On May 15, 2015, Vale concluded contracting a revolving credit facility in the amount of US\$ 3 billion, with a five-year term.

This revolving credit facility will replace the US\$ 3 billion revolving credit facility contracted in 2011. Vale also has another credit facility for US\$ 2 billion, in a total of US\$ 5 billion in revolving credit facilities. This represents an additional liquidity source and may be used by Vale and some of its subsidiaries at any time of their use life (YS\$ 2 billion by 2018 and US\$ 3 billion by 2020).

The revolving credit facility was contracted with a group created by 24 global banks, led by BNP Paribas, Citibank, Crédit Agricole, and Sumitomo. This group is also comprised by The Bank of Nova Scotia, Intesa San Paolo, Canadian Imperial Bank of Commerce, Royal Bank of Canada, Mizuho, HSBC, Bank of Montreal, TD Securities, Barclays, Industrial and Commercial Bank of China, Société Générale, Standard Chartered, Santander, JP Morgan, Bank of Tokyo-Mitsubishi UFJ, Morgan Stanley, Bank of America, Goldman Sachs, ANZ Banking Group, and DZ Bank.

### 12.1 Description of Administrative Structure

### a. Powers of each body and committee

### **Board of Directors:**

The Board of Directors of Vale is comprised of 11 members and their respective deputies, with unified term of two years, and subject to reelection. Under Vale By-Laws, the Chairman of the Board of Directors and Managing Director positions cannot be held by one single individual. Also under the terms of the Bylaws, the Board of Directors has the powers contemplated in law:

- I. Electing, evaluating, and removing Vale s Executive Directors, and determining their attributions
- II. Distributing the compensation set by the general assembly among its members and the Executive Board;
- III. Attributing to an Executive Director the role of Investors Relations;
- IV. Approving policies of selection, evaluation, development, and compensation of the members of the Executive Board;
- V. Setting the general direction on the businesses of Vale, its fully-owned subsidiaries and controlled companies;
- VI. Approving Vale s general Human Resource policies proposed by the Executive Board;
- VII. Approving strategic guidelines and the strategic plan of Vale proposed annually by the Executive Board;
- VIII. Approving Vale s annual and multi-annual budgets proposed by the Executive Board;
- IX. Monitoring and evaluating the financial and economic performance of Vale, being entitled to request reports from the Executive Board with specific performance indicators;
- X. Approving investment and/or development opportunities proposed by the Executive Board that exceed the limits established for the Executive Board as defined by the Board of Directors;
- XI. Issuing opinions on merger, split-off, or incorporation decisions of which Vale is a party, as well as share purchases, proposed by the Executive Board;
- XII. In accordance with the corporate purpose of Vale, making decisions on the setting-up of companies or transformation into a different type of company, direct or indirect participation or withdrawal from other companies, consortia, foundations, and other organizations through exercise of withdrawal rights, exercise or non-exercise of rights of preference in subscription and acquisition, directly or indirectly, of corporate equity or of any other form of participation or withdrawal as prescribed by law, including, but not limited to, merger, split-off, and incorporation of companies in which it participates;
- XIII. Approving the corporate risk and financial policies of Vale, proposed by the Executive Board;
- XIV. Approving the issuance of simple debentures, not convertible into shares and without collateral, proposed by the Executive Board;

XV. Approving the accounts of the Executive Board, presented in the Annual Management Report, as well as Financial Statements, for later submission for appreciation by the annual general shareholders meeting;

XVI. Approving profit application in the fiscal year, distribution of dividends, and, when necessary, capital budget, proposed by the Executive Board, for later submission for appreciation by the annual general shareholders meeting;

XVII. Appointing and removing external auditors of Vale, by recommendation of the Supervisory Board, according to item (ii) in § 1 in Article 39;

XVIII. Appointing and removing the person responsible for internal auditing and for the Ombudsman of the company, who shall report directly to the Board of Directors;

XIX. Approving policies and the annual internal audit plan of Vale, as well as to acknowledge the respective reports and determine the adoption of any necessary measures;

XX. supervising the management by Executive Directors and examining at any time the books and papers of Vale, requesting information on contracts executed or to be executed, and any other acts, in order to ensure the financial integrity of Vale;

XXI. Approving alterations in corporate governance rules, including without limitation the accountability and information disclosure processes;

XXII. Approving policies on employee conduct based on the ethical and moral standards described in the Code of Ethics and Conduct of Vale, to be complied with by all managers and employees at Vale, its subsidiaries and controlled companies;

XXIII. Approving policies to avoid conflicts of interest between Vale and its shareholders or managers, as well as on the adoption of measures considered necessary in the event such conflicts arise;

XXIV. Approving Vale s policies of institutional responsibility, especially those related to: the environment, work health and safety, and the social responsibility of Vale, proposed by the Executive Board;

### **Table of Contents**

XXV. Establishing criteria for the Executive Board for purchase of, financed sale of, or placing liens on, fixed assets and for the constitution of encumbrances, compliant with the terms in article 7 in the By-Laws;

XXVI. Approving the provision of guarantees in general for the Executive Board to obtain loans, and finance, and other contracts,

XXVII. Establishing criteria for the Executive Board for the execution of commitments, non-exercise of rights and transactions of any nature, except waiver of preemptive rights in the subscription and purchase of corporate shares, under the terms in item XII in article 14 in the By-Laws;

XXVIII. Approving any matters which are not under responsibility of the Executive Board, under the terms in the By-Laws, as well as matters which limitations are outside of the scope of the Executive Board, as provided for in article 14 in the By-Laws;

XXIX. Approving any reformulations, alterations or amendments to shareholder agreements or consortia contracts or agreements among shareholders or among consortia parties of companies in which the company participates and, moreover, signing of new agreements and/or consortia contracts that address matters of this nature:

XXX. Authorizing the negotiation, signing, or alteration of contracts of any kind or value between Vale and (i) its shareholders, either directly or through intermediary companies, (ii) companies that directly or indirectly participate, in the capital of a controlling shareholder or which are controlled by or are under joint control of entities that participate in the capital of the controlling shareholder and/or (iii) companies in which the controlling shareholder of the Company participates, and the Board of Directors may establish delegations, with standards and procedures that meet the requirements and nature of operations, without prejudice of keeping the aforementioned group duly informed of all company transactions;

XXXI. Comment on any issue to be presented at the annual shareholders meeting;

XXXII. Authorizing the purchase of shares of their own issuance for maintenance in treasury, cancelation or subsequent sale;

XXXIII. Approving or delegating to the Executive Board recommendation of persons who should form part of the administrative, consulting, and financial bodies of those companies and organizations in which Vale participates, either directly or indirectly;

XXXIV. Approving recommendations submitted by the Supervisory Board of the Company in the exercise of its legal and statutory attributions.

#### **Advisory Committees:**

The Board of Directors counts on the assistance, on a permanent basis of five (5) technical and advisory committees, as follows: Executive Development Committee; Strategic Committee; Finance Committee; Accounting Committee, and Governance and Sustainability Committee.

The mission of these committees is to assist the Board of Directors, including the monitoring of Vale activities, in order to provide more effective and higher quality solutions.

## **Executive Development Committee:**

Under terms of article 21 of the Bylaws, the Executive Development Committee shall be responsible for:

- I Issuing reports on the human resources general policies of the Company submitted by the Executive Board to the Board of Directors;
- II Analyzing and issuing reports on the proposal of distribution of the annual global amount reserved for compensation of managers and appropriateness of the remuneration model for members of the Executive Board;
- III Submitting and keeping current the methodology of performance evaluation of the members of the Executive Board; and
- IV Helping the Board of Directors to define the goals to evaluate the performance of the Executive Board.
- V Accompanying the development of the succession plan of the Executive Officers.

## **Strategic Committee:**

Under terms of article 22 of the Bylaws, the Strategic Committee is responsible for:

245

### Table of Contents

- I Recommending Vale s strategic guidelines and strategic plan;
- II Recommending investment and/or divestment opportunities to the Board of Directors;
- III Recommending operations relating to merger, split-off, and incorporation of Vale and its subsidiaries.

### **Finance Committee:**

Under terms of article 23 of the Bylaws, the Financial Committee is responsible for:

- I Evaluating the risks and internal financial control systems of the Company;
- II Evaluating the compatibility between the shareholders remuneration level and the parameters established in the annual budget and financial planning, as well as their consistency with the general policy on dividends and the capital structure of the company;
- III Evaluating Vale s annual budget and the annual investment plan;
- IV Evaluating Vale s annual fund raising and risk exposure limit plan;
- V- Evaluating Vale s risk management process;
- VI Accompanying the financial performance of capital projects and current budget.

### **Accounting Committee:**

Under terms of article 24 of the Bylaws, the Comptroller s Committee is responsible for:

- I Issuing reports on policies and the Company s annual auditing plan submitted by the employee responsible for internal auditing, and on its execution;
- II Tracking the results of the Company s internal auditing, and identifying, prioritizing, and submitting to the Board of Directors actions to be monitored by the Executive Board;
- III Evaluating, upon request by the Board of Directors, the internal audit procedures and performance, regarding best practices;
- IV Supporting the Board of Directors, upon request, in the process to choose and evaluate the annual performance of those responsible for Vale s internal audit

### **Governance and Sustainability Committee:**

Under terms of article 25 of the Bylaws, the Committee on Governance and sustainability is responsible for:

- I Evaluating the efficiency of Vale s governance practices and the workings of the Board of Directors, and submitting improvements;
- II Submitting improvements to the Code of Ethics and Behavior and the management system in order to avoid conflicts of interest between the company and its shareholders or managers;
- III Evaluating transactions with related parties submitted to analysis of the Board of Directors, as well as issuing reports on potential conflicts of interest involving related parties
- IV Evaluating the proposal to change Policies that are not attributed to other committees, the By-Laws and Internal Regulations of Vale s Advisory Committees;
- V Analyzing and proposing improvements to Vale s Sustainability Report;
- VI Evaluating Vale s performance regarding sustainability aspects and proposing improvements based on a long term strategic view;
- VII Supporting the Board of Directors, upon request, in the process to choose and evaluate the annual performance of those responsible for Vale s Ombudsman;
- VIII Supporting the Board of Directors, upon request, in the process to evaluate the Ouvidoria while dealing with issues related to Ombudsman and violations against the Code of Ethics and Behavior.

### **Executive Board:**

The Executive Board of Vale is comprised by, at least, 6, and at the most, 11 members, with a term of two years, subject to reelection. Under Vale By-Laws, the Chairman of the Board of Directors and Managing Director positions cannot be held by one single individual. Also, under terms of the Bylaws, the Executive Board has the following responsibilities, in addition to those contemplated in law:

- XX. Informing the Board of Directors of the limits of the individual responsibility of Executive Directors, within the limits of the Executive Board as established by the Board of Directors;
- XXI. Establishing, based on the limitations determined by the Board of Directors to the Executive Board, the limitations along the hierarchic line of Vale s management organization
- XXII. Laying down voting guidelines to be followed at the General Assemblies or their equivalent by its representatives in the companies, foundations and other organizations in which Vale participates, directly or indirectly, respecting the investment opportunities the , and guidelines approved by the Board of Directors, as well as the respective budget and all within its respective limits in regard to, among other things, indebtedness, the sale of or placing of liens on assets, the waiver of rights, and the increase or reduction of corporate equity;

### **Table of Contents**

XXIII. Complying and requiring compliance with the general direction of the company as determined by the Board of Directors; and

XXIV. Appointing, for approval by the Board of Directors, the people to be members at management, Consulting, and fiscal boards of the companies and entities where Vale holds interest, including indirect interest

### **Non-Statutory Committees:**

The Executive Board shall have, for advice on a permanent basis, two (2) technical and advisory committees, denominated as follows: Disclosure Committee and Risk Management Committee.

### **Disclosure Committee:**

The primary attributes of the Disclosure Committee are (a) the evaluation of the relevance of acts or events that have occurred and are related to the business of Vale; and (b) the oversight of the disclosure of information to the capital markets pursuant to the terms of the Disclosure Policy. For more information on the Disclosure Committee see item 21.1.

### **Risk Management Executive Committee:**

The primary responsibilities of the Risk Management Executive Committee are issuing an opinion on Vale s principles and instruments of risk management; and periodic reporting to the Executive Board on (a) the primary risks to which Vale is exposed (by type of risk and/or business) and the impact of these risks on the asset portfolio and cash flow; (b) how the risks are being monitored and managed, and (c) the impact on the profile of risk of the asset portfolio and on cash flow resulting from the inclusion of new investments and/or projects in the business plan, and, if necessary, what strategies of risk mitigation are recommended. The Risk Management Executive Committee reports regularly to the Executive Board, and the latter is responsible for evaluating and approving strategies for risk mitigation over the long term, as recommended by the Risk Management Committee.

### **Supervisory Board:**

The Supervisory Board is comprised by at least 3 and at the most 5 permanent members and the same number of deputy members. The Supervisory Board shall be responsible for exercising the functions attributed to it by the applicable prevailing legislation, in Vale By-Laws, and as regulated by its own Internal Rules to be approved by its members.

The Supervisory Board, additionally to attributions set forth in Law 6404/76, is responsible to:

I. Identify critical accounting aspects and analyze appropriate application of generally accepted accounting principles;			
II - monitor the integrity of the financial serviewing financial content decisions in such documents and decisions in such documents are decisions in such documents and decisions in such documents are decisions and decisions are decisions and decisions are decisions and decisions are decisions and decisions are decisions are decisions and decisions are decisions are decisions are decisions and decisions are	statements, the annual report, the semestral and quarterly reports of the Company, ebating them with the Management and the External Auditor;

- IX deliberate with the External Audit the acquisition of services unrelated to the audit of financial statements, being entitled to pre-approve a list of services that could be provided by the Auditor, to be periodically reviewed;
- X be aware of Internal Audit reports, by the External Auditor and the Controlling Committee, analyzing recommendations and opinions and inviting them to attend, if needed, meetings of the Supervisory Board;
- XI ensure coordination between the Internal Audit and the External Auditor, ensure that the Internal Audit has sufficient resources to perform its functions, review and monitor its effectiveness and that it is in an appropriate position within the Company functional structure;
- XII evaluate the report issued by the External Auditor, with material questions addressed to the Management, regarding accounting records, financial statements, internal control systems applicable to Vale and its subsidiaries and affiliates, accompanied by the respective comments and responses by the Management;
- XIII. Mediate eventual disputes between Management and the External Auditor regarding the financial statements of the Company, and guarantee that the Board of Directors promptly receives relevant information on questions in the report on internal controls by the External Auditor;
- XIV evaluate financial controls, internal controls and the Company risk management system, in order to ensure effectiveness and appropriateness as well as funds spent, qualification, and experience of the responsible parties and their training programs;
- XV discuss with the External Auditor, Internal Audit, Controlling Committee, and the Financial Executive Directors, the result of the evaluation of the internal control systems as a whole, aiming its improvement and certifying that recommendations made and not questioned by Executive Directors will be deployed within the appropriate terms;
- XVII Evaluate the effectiveness of procedures adopted by the Company to receive, process and deal with claims related to accounting matters, internal accounting controls, and auditing matters, that should guarantee the confidentiality and unknown identity of the claimant, compliant with applicable laws;
- XVIII prepare the annual budget, including, especially, services provided by external assistants (lawyers, consultants, analysts, and others) for purposes of helping it to achieve its purpose, being entitled to approve the payment to these assistants and any administrative expenses needed for performance of their functions, always compliant with the budget;
- XIX engage in the attributions applicable to its supervision position during Company liquidation, according to applicable laws; and
- XX engage in any other attributions or duties, competence of independent members of the Board, under the terms in the Trading Regulation, according to exemptions granted by the Hong Kong Stock Exchange (HKSE) to the Company.

### **Internal Audit:**

The main role of Vale s Internal Audit area is to support the management and the Company as a whole to improve its internal controls, in order to allow that eventual deficiencies found are solved effectively and timely. The main mechanism used for evaluation purposes by the Internal Audit are the goals and procedures established in the Annual Audit Plan (Plan), approved by the Board of Directors of Vale, evaluating compliance with it by other areas of Vale. The Plan, in turn, is the schedule of audit examinations, as well as budget and resources needed to perform such evaluation. It is based on a methodology focused on risk, including the history of works done, information included by the Management and the Board of Directors. The non-statutory director of Internal Audit should review and adjust the Plan, accordingly, in response to changes in Vale businesses and considering eventual risks, operations, systems, and controls. Any significant deviation from the approved Plan must be notified to the Board of Directors, by the Controlling Committee.

The Internal Audit area was created by the end of the 1960s and is currently directly subordinated to the Board of Directors, and the Controlling Committee, also subordinated to the Board of Directors, accompanies the performance of the Internal Audit.

#### **Table of Contents**

b.	ate of formation of the Supervisory Board, if it is not permanent, and of the formation of the commi	ittees
υ.	ate of formation of the Supervisory doard, if it is not permanent, and of the formation of the commi	utees.

The Supervisory Board has been a permanently functioning body since September 25, 1997.

The five Advisory Committees were formed by the Board of Directors on December 19, 2001, and pursuant to resolutions of the Special Shareholders Meeting held on December 27, 2002, upon which date their existence became part of the Bylaws.

The Disclosure Committee and the Risk Management Committee were formed upon deliberations by the Board of Directors on June 19, 2002 and December 12, 2005, respectively.

#### c. Mechanisms for evaluating the performance of each body or committee

Pursuant to Chapter VI of the Internal Regulations of the Supervisory Board and provisions of the Sarbanes-Oxley Law, the Supervisory Board evaluates its own performance annually at the end of each audit cycle. The self-evaluation process considers the following: matters covered in monthly meetings, financial Statements, risk management, and internal controls, management and internal audit responsibility, relationship with external auditors, resources and special research, formation of the Supervisory Board, and training and professional development of members. Only the independent auditors of Vale shall have knowledge of the self-evaluation conducted by the members of the Supervisory Board.

As of December 31, 2014, Vale did not have in place mechanisms of formal evaluation of the performance of its Board of Directors and of its Committees. For a description of the individual evaluation of the Executive Directors, see item 12.1(e) of this Reference Form.

#### d. On Executive Officers, their responsibilities and individual powers

#### **Chief Executive Officer:**

Under terms of article 33 of the Bylaws, the Chief Executive Officer has the following responsibilities:

- I. Presiding over meetings of the Executive Board;
- II. Exercising executive direction of the Company, with powers to coordinate and supervise the activities of the other Executive Officers, exerting his best efforts to ensure faithful compliance with the decisions and guidelines laid down by the Board of Directors

and the General Assembly;

III. Coordinating and supervising the activities of the business areas and units that are directly subordinated to him;
IV. Selecting and submitting to the Board of Directors the names of candidates for Executive Officer posts to be elected by the Board of Directors, as well as to propose their respective removal;
V. Coordinating and processing the decision-making of the Executive Board in order to prioritize consensual decision among its members. If consensus is not achieved, the Chief Executive Officer may (i) withdraw the subject in debate; (ii) articulate the position of the majority, including making use of the deciding vote or (iii) in the interest of the Company and through well-based reasoning, decide individually on matters of joint deliberation; in this case he must report to the Board of Directors on the use of this prerogative at the first meeting of the Board of Directors that occurs after the corresponding decision. Decisions related to annual and multi-annual budgets and the Strategic Plan and the Annual Report on Administration of Vale shall be taken by a majority of votes, when considering all of the Executive Officers, so long as the favorable vote of the Chief Executive Officer is among the m;
VI. Indicating who among the Executive Officers shall replace an Executive Officer in case of a temporary impairment or absence;
VII. Keeping the Board of Directors informed about the activities of Vale;
VIII. Preparing the annual report and drawing up the balance sheet together with the other Executive Officers.
Executive Officers:
Under terms of article 34 of the Bylaws, the Executive Officers have the following responsibilities:
I Performing the services for which they are responsible;
II Participating in meetings of the Executive Board, contributing to the definition of the policies to be followed by the company reporting on matters of the respective areas of responsibility;
250

#### Table of Contents

III Complying with and ensuring compliance with the policy and general direction of the company s business established by the Board of Directors, each being responsible for his specific area of activities; and

IV Contracting the services of attorneys, consultants, analysts, and other resources necessary for performance of the functions of the Supervisory Board, within budget, as well as contracting experts under terms of article 163 §8 of Law 6,404/76.

In addition to this, under terms of article 28 of the Bylaws and within the limits established for each Executive Officer, decisions on matters affecting the specific area of responsibility of each one shall be made by him alone, so long as the matter does not affect the area of responsibility of another Executive Officer, or in conjunction with the Chief Executive Officer in matters or situations pre-established by the latter.

e. Mechanisms of evaluation of the performance of members of the Board of Directors, of the Committees, and of the Committees and directorate

The members of the Board of Directors are evaluated annually based on their performance according to objective and measurable goals coming from the strategic planning and annual budget approved by the Board of Directors. These goals are based on Vale s performance, by means of measurement of the following indicators: asset cash flow and general indicators of productivity, safety, and the environment. The goals are monitored by the area of budget and performance management. The final result is approved by Vale s Board of Directors.

As of December 31, 2014, Vale did not have mechanisms in place for formal evaluation of the performance of members of its Board of Directors and its Committees.

#### Table of Contents

#### 12.2 Description of the rules, policies, and practices relating to General Assemblies

#### a. Notification Periods

Vale customarily calls for the General Shareholders Meetings by notification, at least 30 days before the meeting in the first convocation, and 15 days prior in the second convocation, upon calling, in accordance with the recommendations of the CVM and commitments assumed before the Hong Kong Stock Market.

In addition, pursuant to article 8, §2 of Vale s Bylaws, a holder of special class preferred shares (Golden Shares) shall be called formally by the company, by means of personal correspondence directed to his legal representative at least fifteen (15) days in advance, for the purpose of considering any matter subject to the right of veto specified in Article 7 of the Bylaws and in item 18 of this Reference Form.

#### b. Powers

Vale s General Shareholders Meeting has powers pursuant to Law 6.404/76, and the General Shareholders Meeting shall be responsible to:

- I amend the bylaws;
- II elect or dismiss, at any time, members of the Company Board of Directors and Supervisory Board, provided that the Board of Directors is entitled to elect and dismiss Company directors and determine their attributions;
- III annually receive accounts from manager and deliberate on financial Statements;
- IV global compensation for Company s managers and members of the Supervisory Board
- V authorize the issuance of debentures, provided that the Board of Directors may authorize the issuance of debentures in specific cases provided for in Law 6.404/76 and the Company Bylaws;
- VI suspend the exercise of shareholders rights;
- VII deliberate on the valuation of assets provided by shareholders to comprise the capital stock;
- VIII authorize the issuance of beneficiaries;
- IX deliberate on the transformation, merger, incorporation and division of the company, its dissolution and liquidation, elect and dismiss liquidating agents and appreciate the accounts; and
- X authorize managers to declare bankruptcy and composition with creditors.

c. Addresses (physical or electronic) at which documents relating to the General Assembly shall be available to shareholders for their review

At Vale s headquarters at Avenida Graça Aranha n° 26, 12 andar, Centro, city of Rio de Janeiro, State of Rio de Janeiro, Brazil and at the electronic addresses of Vale (www.vale.com) the Comissão de Valores Mobiliários - CVM (www.cvm.gov.br), BM&FBOVESPA Bolsa de Valores, Mercadorias e Futuros (www.bmfbovespa.com.br); the Securities and Exchange Commission (www.sec.gov) and the Hong Kong Stock Market (www.hkex.com.hk).

#### d. Identification and handling of conflicts of interests

According to Vale s Bylaws, the Board of Directors may set policies to avoid conflicts of interest between Vale and its shareholders or its managers, as well as on the adoption of provisions deemed necessary should conflicts of interest arise.

On December 19, 2013, the Board of Directors approved the Policy on Transactions with Related Parties, which sets forth the guidelines and principles to assure that the transfer, onerous or free of charge, of resources, services, or obligations engaging people and/or companies with whom Vale may contract under conditions which are not independent conditions as the ones that characterize transactions with third parties (Related Parties and Transactions with Related Parties, respectively), is conducted within Market standards, compliant with the best corporate governance practices, the appropriate transparency, prioritizing the best interests of Vale, avoiding abuses or misuse of company assets. This policy applies to Vale, its controlled companies, joint ventures and entities where Vale holds significant influence, Vale shareholders, managers, and controlling shareholders, as well as kin to Vale managers and controlling shareholders. For more information on the Policy on Transactions with Related Parties, see item 16.1 in this Reference Form.

Under terms of the Bylaws and the Policy for Transactions with Related Parties, the Governance and Sustainability Committee may issue reports related to potential conflicts of interest between Vale and its shareholders or managers. The Committee may also evaluate the selection process and conditions of transactions to be considered by the Board of Directors.

#### Table of Contents

Additionally, Vale shareholders or shareholders	representatives at General Meetings should comply with the following procedure in case of
conflict of interests:	

- The shareholder or shareholder representative must immediately state its particular conflict interest. Should be failed to do so, another person may state such conflict;
- As soon as the conflict of interest is stated regarding a specific issue, the respective Vale s shareholder or shareholder representative will have access only to documents and information on the matter that is disclosed to the Market, under the terms in the effective legislation, and should be away, even physically, of the discussions at the General Meeting, compliant with his legal duties. The statement of conflict of interests, absence, and temporary reservation should be recorded in the minutes.

If requested by the President, the shareholders or shareholder representatives engaged in a situation of conflict of interests may partially attend the discussion, aiming to provide more information on the Transaction with Related Party object of the discussion. In this case, they should be removed at the final portion of the discussion.

#### e. Request for power-of-attorney by the directors to exercise voting rights

There are no rules, policies or practices for requesting powers-of-attorney by the directors to exercise voting rights in General Shareholders Meetings.

f. Necessary formalities to accept powers-of-attorney granted for shareholders, indicating whether Vale accepts powers from shareholders electronically

A shareholder who wishes to attend the General Meetings must provide identification and proof of Vale share ownership issued by the depositary financial institution.

Any shareholder may appoint a proxy, or more than one as the case may be, to attend meetings and vote in his name. If represented by proxy, the shareholder shall comply with the terms of Art. 126, Law No. 6,404/76, and must have been appointed by power-of-attorney no earlier than one year and qualify as a shareholder, manager, attorney who is a Member of the Order of Attorneys of Brazil, or be a financial institution. If the power-of-attorney is in a foreign language, it should be accompanied by corporate documents in the case of a legal entity, and of a letter of mandate duly translated into Portuguese, and notarized and with a consular stamp.

According to CVM s understanding, under the terms in Circular Order CVM/SEP 002/15, corporate shareholders may be represented at the Meetings by their legal representatives or by duly established attorneys, according to the terms in the acts of incorporation of the shareholder and the applicable rules in the Civil Code. The attorney must not necessarily be shareholder of manager of Vale or, be a lawyer. In case of power of attorney in foreign language, this should be accompanied by corporate documents, related to the corporation and the power of attorney duly translated into Portuguese, consularized and notarized.

For the purposes of facilitating the Assemblies, shareholders represented by proxy may, at their exclusive disc within 72 (seventy two) hours prior to the Assemblies.	cretion, deliver the documents

g. Maintenance of Internet forums and pages intended to receive and share shareholder comments relating to meetings.

Vale does not keep Internet forums and pages for shareholders to receive and share comments relating to meeting minutes. Despite the above, Vale makes available, following the management proposal related to General and Extraordinary Shareholders Meetings held on April 17, 2015, an email address (rio@vale.com) where shareholders can solve their questions and find additional clarification on matters included in the agenda.

h. Transmission of meetings by live video or audio.

Vale does not accept powers-of-attorney granted electronically by shareholders.

Vale does not transmit meetings by live video or audio.

i. Mechanisms allowing for inclusion of shareholders proposals.

There are no mechanisms allowing for inclusion on the agenda of proposals formulated by shareholders, except for those mechanisms contemplated in applicable law.

12.4 Board of Director	s rules, policies and practices
------------------------	---------------------------------

#### a. Frequency of meetings

The Board of Directors ordinarily holds meetings once a month, and special meetings whenever called by the Chairman or, in his absence, by the Vice-Chairman or by any other two (2) board members.

Meetings of the Board of Directors are held at the Company headquarters, and may exceptionally be held elsewhere, and attendance may be by means of teleconference, videoconference or other communication means that ensures effective participation and voting authenticity.

#### b. Shareholder provisions establishing voting restrictions on members of the Board of Directors

Vale does not have a shareholders—agreement. However, controlling shareholders of Valepar S.A. signed a Private Shareholders—Agreement of Valepar S.A. (Shareholders—Agreement) to be in effect for 20 years from the date of signature, extendable for equal periods of ten years.

The Shareholders Agreement sets forth that the signatories agree upon guiding their representatives at General Meetings and Meetings of the Board of Directors of Vale to vote according to the decisions at Valepar Prior Meeting.

Except for qualified quorum mentioned below, at Prior Meetings matters should be decided by simple majority of votes of the attending Signatories.

According to the Shareholders Agreement, there should be approval by at least 75% of the holders of common shares for adoption of the following:

- Changes to Vale By-Laws, except when required by law;
- Increase of Vale s capital stock by the subscription of shares, creation of new stock class, changes to the characteristics of existing stock or capital reduction;

	256
• attributio	Determination of the compensation of members of the Board of Directors and Executive Directors, as well as their respective ns;
•	Approval and change of Vale business plan;

For furth	er information, see item 15.5 in this Reference Form.
<i>c</i> .	Rules on identifying and handling conflicts of interest
people a	ts forth the guidelines and principles to assure that the transfer, onerous or free of charge, of resources, services, or obligations engaging and/or companies with whom Vale may contract under conditions which are not independent conditions as the ones that characterize ons with third parties (Related Parties and Transactions with Related Parties, respectively), is conducted within Market standards,

compliant with the best corporate governance practices, the appropriate transparency, prioritizing the best interests of Vale, avoiding abuses or misuse of company assets. This policy applies to Vale, its controlled companies, joint ventures and entities where Vale holds significant influence, Vale shareholders, managers, and controlling shareholders, as well as kin to vale managers and controlling shareholders. For more

information on the Policy on Transactions with Related Parties, see item 16.1 in this Reference Form.

Thus, the corporate policy described below to identify and resolve conflicts of interest in meetings of the Board of Directors and the Executive Board, applying Brazilian laws.

- member of Vale Board of Directors or Executive Directors in conflict of interest must promptly state its particular conflict of interest. Should be failed to do so, another person may state such conflict;
- as soon as the conflict of interest is stated regarding a specific issue, the member of Vale Board of Directors or Executive Director of Vale will not receive documents or information on the matter and should be away, even physically, compliant with his legal duties. The statement of conflict of interests, absence, and temporary reservation should be recorded in the minutes.
- in case of Transactions with Related Parties including a signatory shareholder of Valepar Shareholders. Agreement and, therefore, member of Vale s controlling body, the member(s) of the Board of Directors appointed by him should not receive documents or information on the matter and should be away, even physically, requesting registration in the specific minutes, of the reason for his removal. Such member(s) should return to deliberation to state his vote, compliant with the terms in Valepar Shareholders. Agreement, and applicable legal terms:
- when requested by the Chairman of the Board of Directors or the President, as the case may be, members of the Board of Directors ort Executive Directors of Vale engaged in a conflict of interest may partially attend the discussion aiming to provide more information on the Transaction with Related Parties in question. In this case, they should be removed from the final portion of the

Table of Contents
discussion.
Any violation against the terms in the Policy will be deemed as a violation against the Code of Ethics and Conduct and will be subject to procedures and penalties set forth there in. Additionally, the violator will also be subject to punishments set forth in the law, additionally to be responsible for losses and damages caused to Vale or to third parties.
Furthermore, the Code of Ethics and Conduct provides that the members of the Board of Directors and the Advisory Committees, the Supervisory Board, Officers, employees and interns, and controlled companies (provided that they are subject to the laws of the local jurisdiction), are required to defend the interests of Vale in matters in which they are participating and avoid situations in which conflicts of interest with Vale may arise, and when that is not possible, to abstain from representing Vale in the matter in question, immediately disclosing the conflict to his immediate superior.
Violations of the Code of Ethics, rules, and disciplinary standards of Vale subject violators to disciplinary penalties, which may include warning (verbal or formal), suspension, and termination of employment. In applying disciplinary penalties, the nature and seriousness of the infraction shall be considered, noting Vale human resources rules and applicable law.

12.9 Existence of relationship (as a spouse or significant other) or kinship to the second degree related to managers of the company, entities controlled by the Company, and controlling shareholders

#### Justification for not completing the chart:

Each and every Member of the Board of Directors, Executive Board and Supervisory Board of Vale have declared, individually for all lawful purposes, that he or she is not related (as spouse, or significant other) or has any other kindred relationship to the second degree to (i) other managers of Vale; (ii) managers of companies controlled directly or indirectly by Vale; (iii) Vale s direct or indirect controlling shareholders; and (iv) the members of management of Vale s direct or indirect controlled entities.

In addition, all members of the Board of Directors, the Executive Board and of the Supervisory Board of companies controlled directly or indirectly by Vale have declared individually for all lawful purposes that the y have no conjugal or stable union or kinship to the second degree with entities controlled directly or indirectly by Vale.

### Table of Contents

12.10 Subordination, rendering of services or control relationships the between directors/officers, entities controlled by the Company, controlling shareholders, and others

#### Justification for not completing the chart:

Each and every Member of the Board of Directors, Executive Board and Supervisory Board of Vale have declared, individually for all lawful purposes, that there are no service provision or control relations maintained in the last three (3) fiscal years, between them and (i) the direct or indirect subsidiary of Vale; (ii) the direct or indirect controllers of Vale; or (iii) suppliers, clients, debtors, or other relevant creditors of Vale, its subsidiaries or controllers.

#### Table of Contents

#### 12.11 Agreements, including insurance policies for the payment or reimbursement of expenses incurred by directors/officers

Vale maintains a global coverage liability insurance policy for Directors and Administrators with a group of insurers lead by Zurich Insurance, Plc, through payment of a premium of US\$ 396,595.52, in effect between March 1, 2015 and March 01, 2016, and with total indemnity limit corresponding to US\$ 200 million. This insurance covers members of the Board of Directors, Executive Board, Supervisory Board, and any other body mentioned in the Bylaws, as well as certain employees at the management and strategic levels, in both the Company and its subsidiaries (collectively referred to as the <u>Insured</u>). The policy covers financial losses resulting from claims against the Insured for acts or omissions in the exercise of their functions of employment. The policy, in addition to contemplating the repair of damages caused to third parties, Vale, and its controlled companies brought by government agencies, also covers agreements previously authorized by the insurer for the purpose of bringing to close judicial or administrative suits. In addition, the policy provides coverage for payment of defense costs of the Insured, if and when incurred. In addition to those coverage mentioned above, the insurance provides additional guarantees for liability cases that may affect spouses, heirs, successors, legal representatives, and persons designated by Vale to act as managers of external entities.

12.12	Other relevant information

Information on the publication of the notice to shareholders (item 12.3)

Regarding item 12.3, Vale hereby notes that the publication of the notice to shareholders about availability of financial Statements related to fiscal years ending on December 31, 2014, 2013, and 2012, was not done, under the terms in § 5, in article 133 in the Law of Corporations, considering such documents were published up to one (1) month before the date of the respective general shareholders meeting.

Information regarding conditions for effectiveness of the position of Ms. Jennifer Anne Maki (item 12.6/8)

On May 21, 2015, Ms. Jennifer Anne Maki was nominated by the Company Board of Directors to act as Executive Director, responsible for Vale s base metals area. The position is subject to obtaining the appropriate visa and appropriate work permit to be issued by the Ministry of Labor and Employment.

Information on the election and resignation of Mr. Marco Geovanne Tobias da Silva (item 12.6/8)

Vale notes that in spite of having been elected to the position of independent member of the Board of Directors at the General Shareholder Metting of April 17, 2015, and having taken office on the same date, Mr. Marco Geovanne Tobias da Silva resigned from his position for personal reasons.

#### Information about item 12.10

Regarding item 12.10, Mr. Victor Guilherme Tito, elected at the General Shareholders Meeting of Vale on April 17, 2015, informed that he has been an employee at BNDES, indirect shareholder of the Company, since 2006. Note also that Lucio Azevedo and Carlos Roberto de Assis Ferreira, permanent and deputy members of the Board of Directors, respectively, inform that, although they are employees of Vale, they were assigned to the Union of Workers at Railway Companies of the States of Maranhão, Tocantins, and Pará [Sindicato dos Trabalhadores em Empresas Ferroviárias dos Estados do Maranhão, Pará e Tocantins] and the Metabase Union of Itabira and Region [Sindicato Metabase de Itabira e Região], respectively, under the terms in the legislation in effect, and, therefore, the individually represent for all due purposes that there are no relations or control between them and (i) any direct or indirect subsidiary of Vale; (ii) Vale s direct and indirect controllers; or (iii) relevant suppliers, clients, debtors, or creditors of Vale or its affiliates or subsidiaries.

Vale	S	Corporate	Governance	Practices and	l the	Brazilian	Institute of	of C	orporate Governance	IBGC

According to the Brazilian Institute of Corporate Governance (<u>IBG</u>C), corporate governance is the system by which companies are directed and monitored, including the relationships among shareholders, board of directors, directors, independent auditors, and fiscal board. Basic principles guiding this practice are: (i) transparency; (ii) equity; (iii) accountability; and (iv) corporate responsibility.

The principle of transparency means that the management should engage the desire to inform, not only the company s financial performance, but also other factors (although intangible) that guide corporate actions. Equity means just and egalitarian treatment or of all minority groups, collaborators, users, suppliers, or creditors. Accountability, in turn, is characterized by the accountability related to acts of agents of corporate governance appointed, with full responsibility held by those engaged in the acts. Lastly, corporate responsibility represents a broader view of corporate strategy, including considerations of social and environmental nature in the definition of businesses and operations.

From corporate governance practices recommended by the IBGC in its Code of Best Practices of Corporate Governance, the Company adopts, including, the following:

- non-accumulation of the positions of chairman of the Board of Directors and President in the same person;
- clear nature of the By-Laws regarding the following: (i) competences of the Board of Directors and the executive Board; and (ii) system for voting, appointment, and removal and term of members of the Board of Directors and Executive Board; and
- transparency in the disclosure of management annual reports.
- policy to disclose information that governs the disclosure of information representing relevant acts or facts about Vale and its subsidiaries and, that elects our Executive Director of Investor Relations as the main responsible for the disclosure of information;
- policy to negotiate securities issued by Vale, approved by our Board of Directors; and
- code of ethics and conduct, to be complied with by all employees, executive directors, and members of the Board of Directors and its Committees, members of the Supervisory Board, contracted parties and anyone acting on behalf of Vale).

On November 28, 2013, Vale approved its Global Anti-Corruption Policy, applicable to all the employees (temporary or not) and managers of the Company and its controlled companies, as well as all its vendors acting in the name of Vale and its controlled companies or in its interest. This policy sets forth the prohibition regarding some behaviors, as well as procedures to prevent and accuse corruption acts.

13 - Management Remuneration
13.1 Description of the compensation policy, including Non-Statutory Boards
a. Objectives of the compensation policy or practices
According to the provisions of Article 10, Paragraph 3 of the Bylaws of the Company, the overall and annual compensation for Company Managers is set at the Annual General Meeting, and takes into account their responsibilities, the time they dedicate to their functions, competence and professional reputation, and the market value of their services.
Vale is one of the largest diversified mining companies in the world, and one of the largest private companies in Latin America. It has operations in over 25 countries having shareholders on every continent, and employing around 76,500 employees and 42,000 subcontracted workers active in its operations, as of December 31, 2014.
Clearly, Vale is a global company of great complexity and magnitude, whose administration requires an in-depth understanding of its area of business and market, combined with total commitment.
As global company, Vale is aware that retaining and engaging the right professionals in strategic roles, especially Executive Directors, is critical for its success today, in the mid and long terms. As such, the market is always the benchmark, from the perspective of global competition, thus Vale takes into consideration, to determine managers compensation, compensation policies used by top mining companies, as well as from large global corporations from other industries.
Thus, the goal of Vale s compensation policy is to attract, motivate, and retain its talents, and considers market practices at locations where the company operates, its alignment with company strategy in the short and long terms, its shareholder value, and business sustainability.
b. Composition of compensation packages
(i) Description of the elements of the compensation packages and the objectives of each of them.
Board of Directors

## **Fixed Compensation**

<i>Pro-labore.</i> The compensation for the members of the Board of Directors is made up exclusively of the payment of a fixed monthly fee; this
fixed compensation is designed to remunerate the services of each board member, within their scope of responsibility as members of Vale s
Board of Directors. The overall annual compensation for the Managers, including the members of the Board of Directors, the Statutory Board,
the Supervisory Board and the advisory committees is set at the Annual General Meeting and distributed by the Board of Directors.

Direct and indirect benefits. The members of the Board of Directors do not have the right to direct or indirect benefits.

Participation on Committees. The members of the Board of Directors do not have the right to remuneration for participation on committees.

#### **Variable Remuneration**

The members of the Board of Directors do not have the right to variable remuneration, including bonuses, profit sharing, participation in meetings, and commissions.

## **Post-employment Benefits**

The members of the Board of Directors do not have the right to post-employment benefits.

Table of Contents
Benefits Resulting from the Termination of Holding a Position
The members of the Board of Directors do not have the right to benefits resulting from the termination of holding a position.
Remuneration Based on Shares
The members of the Board of Directors do not have the right to remuneration based on shares.
Supervisory Board Supervisory Board
Fixed Compensation
<i>Pro-labore</i> . The compensation for the members of the Supervisory Board is made up of a fixed monthly fee (honorarium), excluding benefits, representation monies, and profit shares. Members of the Supervisory Board are also entitled to refund for their costs with travelling and accommodation expenses incurred while performing their duties. Deputies are compensated when they undertake the function when a seat is vacant, or when the member of the board in question is absent or unable to exercise the function. The aim of the fixed compensation is to remunerate the services of each board member, within their scope of responsibility as members of the Company s Supervisory BoardSupervisory Board. The fees for Supervisory BoardSupervisory Board members are determined as a percentage of the average compensation to the Executive Directors.
Direct and Indirect Benefits. Members of the Supervisory BoardSupervisory Board do not have the right to direct or indirect benefits.
Participation on Committees. The members of the Supervisory BoardSupervisory Board do not have the right to remuneration for participation on committees.
Variable Remuneration
The members of the Supervisory BoardSupervisory Board do not have the right to variable remuneration, including bonuses, profit sharing, participation in meetings, and commissions.

Post-employment Benefits
The members of the Supervisory BoardSupervisory Board do not have the right to post-employment benefits.
Benefits Resulting from the Termination of Holding a Position
The members of the Supervisory BoardSupervisory Board do not have the right to benefits resulting from the termination of holding a position.
Remuneration Based on Shares
The members of the Supervisory BoardSupervisory Board do not have the right to remuneration based on shares.
Advisory Committees
Fixed Compensation
<i>Pro-labore</i> . The compensation for the members of the Board of Directors Advisory Committees (Strategy Committee, Finance Committee, Executive Development Committee, Financial Control Committee, and Governance and Sustainability Committee) considers exclusively the payment of a fixed monthly fee (fees), except for committee members who are Vale Managers, who will not be eligible for compensation for sitting on the committees, as set forth in Paragraph 2 of Article 15 of Vale s Bylaws. The aim of the compensation is to remunerate each member s services within the scope of their responsibility as members of the Company s respective Advisory Committees. The compensation for Advisory Committee members is defined by the Board of Directors.
Direct and Indirect Benefits. Advisory committee members are not entitled to direct or indirect benefits.
Variable Remuneration
The members of the Advisory Committees do not have the right to bonuses, profit sharing, or commissions.

Table of Contents
Post-employment Benefits
The members of the Advisory Committees do not have the right to post-employment benefits.
Benefits Resulting from the Termination of Holding a Position
The members of the Advisory Committees do not have the right to benefits resulting from the termination of holding a position.
Remuneration Based on Shares
The members of the Advisory Committees do not have the right to remuneration based on shares.
Statutory Directors (Executive Officers)
Fixed Compensation
<i>Pro-labore.</i> Statutory Directors are entitled to receive a fixed monthly compensation aiming to remunerate the services rendered by them within the scope of the individual responsibility attributed to each one managing the Company.
Direct and indirect benefits. Statutory Directors are entitled to a package of benefits that is also compatible with market practices, including private healthcare, hospital and dental care, a designated car with driver, private pension scheme and life insurance. Not only are the benefits in line with market practices, but they are also aimed at assuring the executives and their dependents peace of mind when it comes to fundamental issues such as healthcare.
Participation on Committees. Statutory Directors do not have the right to remuneration for participation on committees.
Variable compensation

*Bonus*. Statutory Directors are entitled to variable annual payment (bonus) based on the Company s earnings and defined by indicators and objectives, measurable targets derived from the strategic plan, and the annual budget approved by the Board of Directors. While assuring market competitiveness, the main aim of the bonus is to acknowledge an executive s contribution to the Company s performance and earnings.

Others. Statutory Directors do not have the right to variable compensation, profit sharing, participation in meetings, or commissions.

#### Post-employment benefits

Statutory Directors may have medical healthcare, hospital and dental care paid by the Company up to 24 (twenty-four) months after their termination, in order to allow them to look for alternatives outside the corporative plan.

#### Benefits Resulting from the Termination of Holding a Position

The members of the Statutory Board do not have the right to benefits resulting from the termination of holding a position, except, however, as described in item 13.12 of this Reference Form, for eventual indemnity due to termination or no renewal of the employment agreement entered by and between these directors and the Company, provided that these events are a Company initiative. For more information, see item 13.12 in this Reference Form.

Edgal Filling. Hedelite delimineration and Frontier to
Table of Contents
Compensation based on shares
Long-term Incentives ILP (Portuguese acronym) (by 2014) and Virtual Share Program PAV (starting in 2014)
The Long-term Incentives (ILP) represents a variable payment based on the Company s expected future performance aimed at retaining and engaging the Executives and aligning them with the future vision of the Company. The program was introduced in 2007 and the first payment was made in January 2010.
Starting in 2014, the ILP was replaced by the Virtual Shares Program (PAV), whose basis of calculation is the basis of compensation received by Statutory Directors, and the parameters of this calculation will be pre-established for each hierarchical level in each of the countries where the Company operates. The program lasts for 4 years and not for 3 years, as described in the above paragraph. The program allows early gradual payments, starting in 2014. Thus, payment can be made in accrued tranches of 20% (at the end of the second year), 30% (at the end of the third year) and 50% (at the end of the fourth year), for as long as performance conditions for each year are reached, as set forth in PAV, that is, placement of Vale within a group comprised by 12 companies of similar size (peer group). The payment metrics is the Total Shareholder Return (TSR) relative to the peer group, taking into consideration the businesses and region in which Vale operates and the influence of the Brazilian market s fluctuation. If Vale is at the top of this ranking, the calculated value is increased by 50%. This percentage is decreasing, and on the third place, the value is unchanged, and starting on the tenth position, there is no payment whatsoever.
For further details, see items 13.1 (b)(iii), (c), and (d) and 13.4 in this Reference Form.
Matching
Like the PAV (and the ILP replaced by PAV in 2014), <i>Matching</i> is a variable, long-term form of compensation based on the Company's expected future performance. The plan's purpose is to encourage an owner's feeling, while also helping to retain executives and reinforce a sustained performance culture. The plan was established in 2008, and was altered in 2014 for purposes of changing the calculation methodology to enter the plan, now considering for such calculation (i) the monthly portion of the fixed compensation received by beneficiaries of this plan, and (ii) parameters predetermined for each hierarchic level and country where the Company operates. Currently, adherence to the program is voluntary to all executives at Vale. Except for the CEO and Executive Directors, for whom adherence and retention in the program is now mandatory.
For more information, including the methodology for calculation used to determine the value of the compensation of beneficiaries under this Plan see items 13.1(b)(iii) (c) and (d) and 13.4 in this Reference Form

Non-Statutory Board

The non-statutory directors are Company employees with a labor contract. These directors may hold global corporate or business unit functions or regional or local corporate functions, or are responsible for operational systems or areas in the Company s different businesses.

#### **Fixed Compensation**

*Pro-Labore*. Non-Statutory Directors are entitled to a fixed monthly compensation based on the Company s organizational chart, which is aligned to market practices. The aim of the fixed salary is, as set out in the labor contract signed by each executive, to remunerate the services rendered within the scope of responsibility attributed to each one undertaking their respective duties within the company.

Direct and indirect benefits. Non-Statutory Directors are entitled to benefits compatible with market practices, including medical healthcare, hospital and dental care, private pension scheme (Valia) and life insurance. Not only are the benefits in line with market practices, but they are also aimed at assuring the executives and their dependents peace of mind when it comes to fundamental issues such as healthcare. For more information about the Complementary Benefits plan (Valia), see item 13.10 of the Reference Form.

Participation on Committees. The non-statuary directors do not have the right to remuneration for participation on committees.

#### Variable compensation

*Profit Sharing*. Variable annual payment (PLR) based on the Company s earnings and defined by indicators and objective, measurable targets derived from the strategic plan, and the annual budget approved by the Board of Directors. While assuring market competitiveness, the main aim of the profit sharing is to acknowledge an executive s contribution to the Company s performance and earnings 13.1 (d) below, describes in detail the

<b>m</b>	. 1		c			
Tal	hl	e	ot	on	itei	nts

methodology for calculation used to determine the value of the compensation of the Non-Board of Directors, pursuant to what is Stated below.

Other. Non-Statutory Board members are not entitled to bonus, participation in meetings, or commissions.

#### Post-employment benefits

Non-Statutory Directors may enjoy the Medical, Dental, Hospital Assistance paid by the Company after termination of their employment, in order to be able to look for alternatives outside the corporate plan.

#### Benefits Resulting from the Termination of Holding a Position

Non-Statutory Directors receive customized service of orientation for outplacement to be performed by the specialist company appointed by Vale.

#### Compensation based on shares

Long-Term Incentive ILP (by 2014) and Virtual Share Program PAV (starting in 2014)

The Long-term Incentive ( ILP ) represents a variable payment based on the Company expected future performance and aimed at retaining and engaging the Executives and aligning them with the future vision of the Company. The program was introduced in 2007 and the first payment was made in January 2010. Starting in 2014, the ILP was replaced by the Virtual Shares Program (PAV), whose basis of calculation is the basis of compensation received by Statutory Directors, and the parameters of this calculation will be pre-established for each hierarchical level in each of the countries where the Company operates. The program lasts for 4 years and not for 3 years. Additionally, PAV allows early gradual payments, starting in 2014. Thus, payment can be made in accrued tranches of 20% (at the end of the second year), 30% (at the end of the third year) and 50% (at the end of the fourth year), for as long as performance conditions for each year are reached, as set forth in PAV, that is, placement of Vale within a group comprised by 12 companies of similar size (peer group). The payment metrics is the Total Shareholder Return (TSR) relative to the peer group, taking into consideration the businesses and region in which Vale operates and the influence of the Brazilian market s fluctuation. If Vale is at the top of this ranking, the calculated value is increased by 50%. This percentage is decreasing, and on the third place, the value is unchanged, and starting on the tenth position, there is no payment whatsoever.

For further details, see items 13.1 (b)(iii), (c) and (d) and 13.4 in this Reference Form.

Matching

Like PAV (and the ILP, replaced by PAV in 2014) *Matching* is a variable, long-term form of compensation based on the Company's expected future performance. The plan's purpose is to encourage a feeling of ownership, while also helping to retain executives and reinforce a sustained performance culture. The plan was established in 2008, and was altered in 2014 for purposes of changing the calculation methodology to enter the plan, now considering for such calculation (i) the monthly portion of the fixed compensation received by beneficiaries of this plan, and (ii) parameters predetermined for each hierarchic level and country where the Company operates. Currently, adherence to the program is voluntary to all executives at Vale. Except for the CEO and Executive Directors, for whom adherence and retention in the program is now mandatory.

For more information, including the methodology for calculation used to determine the value of the compensation of beneficiaries under this Plan, see items 13.1(b)(iii), (c), and (d) and 13.4 in this Reference Form.

#### Non-Statutory Committees

The Company also has two non-statutory committees: the Risk Committee and the Communication Committee. All the seats on the non-statutory committees are held by the Company s statutory and non-statutory directors, who do not receive any extra compensation for this function.

#### (ii) Proportion of each element to make up the total compensation package

The approximate proportions of each element in the total compensation for 2014 were as shown in the table below:

#### Table of Contents

	Board of	Supervisory	Statutory	Non- Statutory

<sup>(1)</sup> Excluding members of these committees who are members of the board of the Company.

#### (iii) Methodology for the calculation and readjustment of each compensation element

The global annual compensation to managers, including members of the Board of Directors, the Statutory Board, the Supervisory BoardSupervisory Board and Advisory Committees, is determined at the Annual General Meeting and distributed by the Board of Directors.

#### **Board of Directors**

The fixed compensation of the principal members of the Board of Directors is represented by the fixed monthly payments (fees), while the fixed monthly compensation for deputies is 50% of the value received by the principal members of the Board of Directors. Values are annually defined according to the market practice, checked through referential researches conducted by specialized companies, where the effect of the compensation for similar companies can be observed. There is no variable compensation for the members of the Board of Directors.

#### Supervisory BoardSupervisory Board

<sup>(2)</sup> Payments related to Vale s portion of social security - INSS.

The fixed compensation of the members of the Supervisory BoardSupervisory Board is represented by the fixed monthly payments (fees), having as reference the value of 10% of the compensation that, in average, is granted to the Statutory Directors, not computing the benefits, representation monies, and profits participation. The members of the Supervisory BoardSupervisory Board also have the right to a refund for transport and lodging expenses that are necessary in performing their duties, and deputies will be paid only when they act as members due to vacancy, impediment or absence of the respective member. There is no variable compensation for the members of the Supervisory BoardSupervisory Board.

#### **Advisory Committees**

For members of the Advisory Committees of the Board of Directors - Strategic Committee, Financial Committee, Executive Performance Committee, Controlling Committee, and Governance and Sustainability Committee compensation considers solely the payment of a fixed monthly compensation (fees), except for committee members that are Vale managers, who will not receive compensation for sitting in the committees, as per the terms of §2 of

#### Table of Contents

Article 15 of Vale s Bylaws. The members of the Advisory committee also do not receive any other type of fixed compensation. Contractual compensation has the purpose of compensating the services of each advisor within the scope of the responsibility attributed to each of the Company s Advisory Committees, defined by the Board of Directors. Determination and adjustment of the compensation for the member of the Advisory Committee are based on the fixed compensation determined for the Board of Directors.

#### Executive (Statutory) Directors

The fixed compensation of the Statutory Directors is represented by the fixed monthly payment, defined according to the market practice, checked through referential researches conducted by specialized companies where the effect of the compensation for similar companies can be observed, and annually readjusted by the National Broad Consumer Price Index (IPCA), and assessed by the Executive Development Committee and approved by the Board of Directors.

Direct and indirect benefits (medical healthcare, hospital care, dental care, car with driver, private pension plan, and life insurance) to which they have the right, are calculated according to the market practice checked through referential research conducted by specialized companies where the effect of the concession of benefits for the participating companies of similar size can be observed and assessed by the Executive Development Committee and approved by the Board of Directors.

The bonus of the Statutory Directors is calculated based on the earnings of the Company, and may vary between 0% and 200% of the annual fixed payment; this depends on the goals set forth for each fiscal year. Adjustment of the variable compensation is aligned with salary adjustments, since the basis for such variable compensation is a multiplier of the monthly base salary.

Until 2014, the methodology for the calculation of the compensation based on shares of the Statutory Directors (under the ILP) considered the 75% percentage of the bonus for Executive Directors, and 125% of the bonus for the President, out of the value effectively paid as such, and transformed, as reference, into a number of common shares issued by Vale (virtual shares), considered the average quotation of the common shares issued by the Company during the last 60 trading days of the last fiscal. If the executive member remains in the Company, by the end of three years the number of virtual shares is transformed into a monetary value by the average quotation of the common shares issued by the Company of the last 60 trading days of the third year. Additionally, the program also takes into consideration the performance of the Company (Total Shareholder Return (TSR)) regarding a group of 20 similar companies (peer group). If Vale is first in this ranking, the value settled will be increased in 50%. This is a decreasing percentage, so in the 5th position the value remains unchanged, and as of the 15th position, there is no payment. Terms and conditions above are applicable to the beneficiaries of cycles starting in 2011, 2012, and 2013 under the respective program.

Starting in 2014, the ILP was replaced by PAV, whose basis of calculation is the basis of compensation received by Statutory Directors, and the parameters of this calculation will be pre-established for each hierarchical level in each of the countries where the Company operates. The program lasts for 4 years and not for 3 years, as described in the above paragraph. The program allows early gradual payments, starting in 2014. Thus, payment can be made in accrued tranches of 20% (at the end of the second year), 30% (at the end of the third year) and 50% (at the end of the fourth year), for as long as performance conditions for each year are reached, as set forth in PAV, that is, placement of Vale within a group comprised by 12 companies of similar size (peer group). The payment metrics is the Total Shareholder Return (TSR) relative to the peer group, taking into consideration the businesses and region in which Vale operates and the influence of the Brazilian market s fluctuation. If Vale is at the top of this ranking, the calculated value is increased by 50%. This percentage is decreasing, and on the third place, the value is unchanged, and starting on the tenth position, there is no payment whatsoever.

Until 2014, the methodology for the calculation of the Matching determined that the executive member could allocate 30% or 50% of his short-term variable payment (bonus) to the purchase of class A preferred shares issued by Vale, through a pre-defined financial institution, under market conditions and without any benefit offered by Vale, on the days set forth in the plan. The bonus percentage that could be allocated by each executive member for participating in the Matching Plan is defined as of the valuation of his performance and potential. This shall be granted to those executive members who acquire shares as per the terms and conditions set forth in the Matching Plan and who three years after the acquisition, still remain linked to Vale and have kept the ownership of all the shares acquired. At the end of the three years period, the administrators shall end the cycle, and shall give a calculation of effective compliance of the conditions set forth in the manual of the above referred plan. If the terms of the plan have been adhered to, the Company shall pay the executive member a liquid value, as a prize, equal to

#### **Table of Contents**

the amount he bought in shares at the beginning of the program. After the payment of the incentive, the executive members can freely negotiate the preferred shares issued by Vale to be acquired in order to become eligible for the Matching Plan and in agreement with the law in force. Terms and conditions above are applicable to the beneficiaries of cycles starting in 2011, 2012, and 2013 under the respective program.

Starting in 2014, the calculation methodology to the Matching program was determined as the fixed compensation received by beneficiaries of this plan, and parameters predetermined for each hierarchic level and country where the Company operates. Additionally, adherence to the program continues to be voluntary to all executives at Vale, except for the CEO and Executive Directors, for whom adherence and retention in the program is now mandatory. Except for changes above, other terms and conditions of this plan remain unaltered.

#### Non-statutory Board

The fixed compensation for the Non-statutory Directors is represented by a fixed monthly payment, with a labor contract. Every year, the Department of Human Resources of Vale hire specialized companies to perform analysis of compensations; the analysis is made pursuant to the complexity of each position compared in the market. The comparison is made with national and multinational companies of similar sizes of several sectors, and the equalization of the comparison is through a scoring system. This system of valuation is known as Hay System, a system of points created by The Hay Group that evaluates the weight of the positions based on their complexity, allowing their global ranking. This system is one of the most used worldwide for this purpose. There is no predetermined index or periodicity for the readjustment of the fixed compensation and when there are readjustments, they are based on the market evolution and the merit of the executive member.

Direct and indirect benefits (medical healthcare, hospital care, dental care, private pension plan, and life insurance) to which they have right, are calculated according to the market practice checked through referential research conducted by specialized companies where the effect of the concession of benefits for similar companies in the same segment can be observed.

The component of profit sharing of the Non-statutory Directors is calculated based on the earnings of the Company, and it ranges from 0% to 200% of the annual fixed portion, depending on the goals set for each fiscal year. The readjustment of the variable compensation is aligned with the readjustment of wages, because the base of the variable compensation is a multiplier of the monthly base wage.

Until 2014, he methodology for the calculation of the compensation based on shares of the Non-statutory Directors (under the ILP) took into account 75% out of the bonus granted for directors responsible for global corporate duties or business units and the 50% out of the bonus granted for directors responsible for regional or local corporate duties of the value actually paid for this purpose. This amount is transformed, as reference, into a number of common shares issued by Vale (virtual shares), and considered the average quotation of the common shares issued by the Company during the last 60 trading days of the last fiscal year. If the executive member remains in the Company, by the end of three years the number of virtual shares is transformed into a monetary value by the average quotation of the common shares issued by the Company of the last 60 trading days of the third year. Additionally, the program also takes into consideration the performance of the Company (Total Shareholding Return (TSR)) regarding a group of 20 similar companies (peer group). If Vale is first in this ranking, the value settled will be increased in 50%. This is a decreasing percentage, so in the 5th position the value remains unchanged, and as of the 15th position, there is no payment. Terms and conditions above are applicable to the beneficiaries of cycles starting in 2011, 2012, and 2013 under the respective program.

Starting in 2014, the ILP was replaced by PAV, whose basis of calculation is the basis of compensation received by Statutory Directors, and the parameters of this calculation will be pre-established for each hierarchical level in each of the countries where the Company operates. The program lasts for 4 years and not for 3 years, as described in the above paragraph. The program allows early gradual payments, starting in 2014. Thus, payment can be made in accrued tranches of 20% (at the end of the second year), 30% (at the end of the third year) and 50% (at the end of the fourth year), for as long as performance conditions for each year are reached, as set forth in PAV, that is, placement of Vale within a group comprised by 12 companies of similar size (peer group). The payment metrics is the Total Shareholder Return (TSR) relative to the peer group, taking into consideration the businesses and region in which Vale operates and the influence of the Brazilian market s fluctuation. If Vale is at the top of this ranking, the calculated value is increased by 50%. This percentage is decreasing, and on the third place, the value is unchanged, and starting on the tenth position, there is no payment whatsoever.

Until 2014, the calculation of the Matching determined that the executive member could allocate 30% or 50% of his short-term variable payment (bonus) to the purchase of class A preferred shares issued by Vale, through a pre-

#### **Table of Contents**

defined financial institution, under market conditions and without any benefit offered by Vale, on the days set forth in the plan. The bonus percentage that could be allocated by each executive member for participating in the Matching Plan is defined as of the valuation of his performance and potential. This is be granted to those executive members who acquire shares as per the terms and conditions set forth in the Matching Plan and who three years after the acquisition, still remain linked to Vale and have kept the ownership of all the shares acquired. At the end of the three years period, the administrators end the cycle, and shall give a calculation of effective compliance of the conditions set forth in the manual of the above referred plan. If the terms of the plan have been adhered to, the Company shall pay the executive member a liquid value, as a prize, equal to the amount he bought in shares at the beginning of the program. After the payment of the incentive, the executive members can freely negotiate the preferred shares issued by Vale to be acquired in order to become eligible for the Matching Plan and in agreement with the law in force. Terms and conditions above are applicable to the beneficiaries of cycles starting in 2011, 2012, and 2013 under the respective program.

Starting in 2014, the calculation methodology to the Matching program was determined as the fixed compensation received by beneficiaries of this plan, and parameters predetermined for each hierarchic level and country where the Company operates. Except for changes above, other terms and conditions of this plan remain unaltered.

#### (iv) Reasons that justify the composition of the compensation

Reasons that justify the composition of the compensation are incentive to management improvement and presence of executives with the Company, aiming to achieve gains due to the commitment to long-term results and short-term performance of the Company. For directors, Vale adopts a composition model of the compensation that concentrates a significant payment of the total compensation in the variable components (both of short- and long-term), being a part of the policy of risk and earnings sharing with the main executive members of the Company.

# c. Main performance indicators that are taken into consideration when determining each element of the compensation package

All the definitions concerning the compensation are sustained by market research, supported by one or more specialized consultancies. Regarding Statutory Directors, these definitions are also assessed by the Executive Development Committee and approved by the Board of Directors.

The main performance indicators taken into account while defining compensation are those related to Company s performance, for instance EBITDA, as well as general productivity, safety, and environmental indicators.

The performance indicators taken into account while determining compensation of the ILP (replaced by PAV in 2014), PAV and Matching are the value of the Company s shares in the market, and in the case of the ILP (replaced by PAV) and PAV, the Company position in relation to a group of companies of similar size (peer group).

#### d. How the compensation package is structured to reflect the development of the performance indicators

The definition of the executives performance targets, which are used to structure the payment of their profit share (bonus), derive from the strategic plan and the budget, both approved by the Board of Directors, which are reviewed each year to sustain the targets and expected results for the Company.

The performance indicators taken into account while determining compensation of the long term incentive plans, namely the ILP (in force until 2014), PAV (in force since 2014) and Matching are the value of the Company s shares in the market, and in the case of the PAV, its position in relation to a group of 12 companies of similar size (peer group). The peer group applicable to the ILP, replaced in 2014 by PAV, was comprised by 20 companies of similar size.

#### e. How the compensation policy is aligned with the Company s short-, medium- and long-term interests

The Company compensation policy is based on its performance and financial sustainability in the short, medium, and long term, in line with its strategic plan, while also assuring shareholder value.

As such, the ILP (replaced by PAV in 2014) and Matching were structured with three-year grace period for the payment of compensation, and PAV, with a four-year grace period. These terms were established to align these programs with the evolution of the Company s performance indicators.

13.4 With respect to the stock-based compensation plan for the Board of Directors and the Statutory Board, which was in force in the last fiscal year and which is estimated for the current fiscal year:
The Company has two stock-based compensation plans for the Statutory Board, which do not extend to the Board of Directors. Neither plan grants permission for Company stock purchasing option, but only the payment of a bonus as per the market quotation for the Company stock.
a. General Terms and Conditions
Long-Term Program (_ILP())ntil 2014) and the Virtual Shares Program (_PAV ) (starting in 2014)
This is a long-term incentive program introduced in 2007 based on the Company's expected performance in the future. The amount to be paid to the Statutory Directors in the ILP was defined based on the percentage of the short-term (bonus) variable tranche, of 125% for the President and

This is a long-term incentive program introduced in 2007 based on the Company s expected performance in the future. The amount to be paid to the Statutory Directors in the ILP was defined based on the percentage of the short-term (bonus) variable tranche, of 125% for the President and 75% for the other members of the board, from the amount to be effectively paid for this purpose. This amount was transformed, as a reference, in a number of common shares issued by Vale (virtual shares), during the last 60 trading days of the last fiscal. If the executive member remains in the Company, by the end of three years the number of virtual shares is transformed into a monetary value [by the average quotation of the common shares issued by the Company of the last 60 trading days of the third year. The program also takes into consideration the performance of the Company regarding a group of 20 similar companies (peer group). If Vale is first in this ranking, the value settled will be increased in 50%. This is a decreasing percentage, so in the 5th position the value remains unchanged, and as of the 15th position, there is no payment. The terms and conditions described above are applicable to beneficiaries from the 2011, 2012 and 2013 cycle within the scope of said program.

Starting in 2014, the ILP was replaced by PAV, whose basis of calculation is the basis of compensation received by Statutory Directors, and the parameters of this calculation will be pre-established for each hierarchical level in each of the countries where the Company operates. The program lasts for 4 years and not for 3 years, as described in the above paragraph. The program allows early gradual payments, starting in 2014. Thus, payment can be made in accrued tranches of 20% (at the end of the second year), 30% (at the end of the third year) and 50% (at the end of the fourth year), for as long as performance conditions for each year are reached, as set forth in PAV, that is, placement of Vale within a group comprised by 12 companies of similar size (peer group). The payment metrics is the Total Shareholder Return (TSR) relative to the peer group, taking into consideration the businesses and region in which Vale operates and the influence of the Brazilian market s fluctuation. If Vale is at the top of this ranking, the calculated value is increased by 50%. This percentage is decreasing, and on the third place, the value is unchanged, and starting on the tenth position, there is no payment whatsoever.

## Matching

This is a variable, long-term form of compensation created in 2008, based on the Company's expected performance in the future. The main purpose of this program is to encourage an ownership feeling as well as to leverage executive retention and reinforce a sustainable performance culture. To become eligible for the Matching program, an executive may allocate 30.0% to 50.0% of his/her bonus (short-term variable compensation) for the purchase of Class A preferred stock issued by Vale, through the mediation of a pre-defined financial institution, under market

#### **Table of Contents**

conditions, on the days set in the scheme, without any benefit being offered by Vale.

Those executives who acquire shares under the terms and conditions of the Matching scheme on the stipulated dates and who are still in the employment of Vale three years after they were acquired and who have kept the ownership of all the shares purchased are eligible for a cash prize. At the end of the three-year period, when the cycle reaches its conclusion, the Managers check that the terms of the scheme, as set forth in the manual, have been followed. Assuming that the terms of the plan have been observed, the Company pays the executive a net value, as a prize, based in the market value of the Company s shares held by the executive during the program. After the incentive has been paid, the executives are free to sell the preferred stock issued by Vale that they had acquired to be eligible to the Matching scheme, in compliance with existing legislation. Until 2014, the bonus percentage to be allocated to each executive to be part of the Matching Plan was defined based on the analysis of its performance and potential. The terms and conditions above described are applicable to the beneficiaries of the 2012 and 2013 cycles in the scope of said program.

Starting in 2014, the basis of calculation for the Matching program is the fixed remuneration received by the Company Statutory Directors, and the parameters for this calculation will be pre-established for each of the hierarchical levels for each of the countries in which the Company operates. Additionally, joining in the program in at a voluntary basis for all executives except for the President and Members of the Board, for whom joining and staying in the program is mandatory. Except for the above-mentioned changes, the additional terms and conditions of the program remain unaltered.

#### b. Major Plan Objectives

The major objectives of the compensation programs based on shares aforementioned are retention of the Company's major executives, keep them engaged to the Company and encourage the ownership feeling, so that they become committed to mid and long terms results.

#### c. How the plans contribute for the achievement of these objectives

The compensation plans based on shares aforementioned promote the alignment of the stockholders and the Statutory Directors interests, as they ensure that there are only gains for the executives as long as there are gains for the Company as well.

#### d. Where the plans fit into the Company's compensation policy

The compensation plans based on shares aforementioned fit into Vale's compensation policy once they respond for the long-term alignment of executives with the interests of the Company and the shareholders, contributing for sustainability, and fostering a competitiveness level that complies with the Company business and retention of qualified professionals. They have been designed upon the support provided by specialized consulting services and upon the consideration of domestic and international market trends and moves.

#### e. How the plans promote the alignment between management and the Company interests at short, mid and long term

The design of compensation plans based on shares aforementioned incorporates the Company performance rate factors upon company stocks fluctuated value in three (for ILP and Matching) or four years (for PAV) and, in case of ILP or the replacing PAV starting in the 2014 cycle, Company performance relative to other companies of similar size within the same industry and the same reference period. This peer group is comprised by 20 companies, in the case of the ILP, and 12 companies, for PAV, currently in force for cycles starting in 2014. Thus, the plans align the medium- and long-term interests of both the managers and the Company.

For further information on the changes made to the aforementioned programs, see item (a) above).

#### f. Maximum number of comprised stocks

Not applicable. No stock purchasing option is granted within the scope of either the ILP or PAV (replacing the ILP) or the Matching programs. The number of virtual ordinary stocks granted as reference within the scope of the ILP varied with the short-term variable remuneration of each executive and with the average market price shares issued by Vale at a set number of trading days before the approval. In case of PAV, replacing the ILP, the number of common virtual shares granted as reference under this plan varies according to the base compensation of each executive and the average quotation of shares issued by Vale in a specific number of trade days prior to the granting.

#### **Table of Contents**

In the Matching Program, the executive has the option to allocate 30 or 50% of their bonus to purchase Company s class A preferred stocks and become eligible to participate in the program, after their potential and performance assessment. Starting in 2014, the calculation base for the Matching program is the fixed compensation received by Statutory Directors of the Company, and parameters for this calculation are pre-determined for each hierarchic level and each country where the Company operates.

#### g. Maximum number of options to be granted

Not applicable. No stock purchasing option is granted within the scope of the compensation plans based on shares aforementioned.

#### h. Stock purchasing conditions

Not applicable. The ILP and Matching programs do not grant stock purchasing options to executives. Once assessed, the amount owed to executives within the scope of these plans is paid in cash.

#### i. Criteria for stock pricing or option reference period

Not applicable. As no stock purchasing option is granted within the scope of either Plan, it makes no sense setting criteria for stock pricing or option reference period.

In the ILP, replaced by PAV, the amount owed to executives was calculated as per the valuation of a given number of Vale's virtual ordinary stocks within the period of the past three years, and is based upon the stock average initial quotation of the last 60 stock market floor sessions prior to the incentive grant, and the stock average final quotation at the closing of the last 60 stock market floor sessions of the third year. This amount is then multiplied by a factor of Company performance relative to a peer group of 20 global companies of a similar size. Based on the Company s position relative to this group of global companies, the ILP may be increase in 50% or it may drop to zero.

Under PAV, starting in 2014, the calculation base is the base compensation received by Statutory Directors, and the parameters of this calculation will be pre-established for each hierarchical level in each of the countries where the Company operates. The program lasts for 4 years and not for 3 years, as described in the above paragraph. The program allows early gradual payments, starting in 2014. **Therefore**, payment may be done in accrued tranches of 20% (by the end of the second year), 30% (by the end of the third year), and 50% (by the end of the fourth year), provided that the performance condition at each is met, as set forth in PAV, namely, placement of Vale within the group comprised by 12 companies of similar size (peer group). The payment metric is the Total Shareholder Return (TSR) related to the peer group, considering the businesses and areas where Vale operates and the influence of variations in the Brazilian market. If Vale is at the top of this ranking, the calculated value is increased by 50%. This percentage is decreasing, and on the third place, the value is unchanged, and starting on the tenth position, there is no payment whatsoever.

However, for the Matching Plan, the net amount to be paid to executives as incentives is calculated upon the number of Company class A preferred stocks purchased by the executive to become eligible for the Plan.

#### j. Criteria for establishing the reference period

Not applicable. As mentioned above, compensation plans based on shares aforementioned do not grant stock purchasing option. Therefore, there is no reference period. However, both Programs pre-establish that the payment of incentives be made after a grace period of three years (for ILP and Matching) or four years (for PAV, replacing the ILP since 2014). In case of PAV, payment may be done in cumulative installments equal to 20% (by the end of the second year), 30% (by the end of the third year), and 50% (by the end of the fourth year), provided that the performance condition at each is met, as set forth in PAV, namely, placement of Vale within the group comprised by 12 companies of similar size (peer group). The payment metric is the Total Shareholder Return (TSR) related to the peer group.

#### k. Liquidation conditions

Both compensation plans based on shares aforementioned pre-establish that premiums be paid in cash.

#### l. Restrictions to stock transfer

With respect to the Matching Plan, the executive will lose his/her right to the premium if he/she transfers, within the three-year period, any Company preferred stock that is plan-bonded.

#### Table of Contents

Also under the Plan, operations with derivatives are void, when involving the sale of securities of Vale, as well as the lease to third parties of shares held by the member of the program, considering that one of the goals of the Matching program is the exposure and alignment of the executive to the Company traded shares in the period of the Plan. Operations described above are void as well (involving the sale of derivatives and share lease) related to aby of Vale shares held by the executive, even when acquired out of the Plan, while the executive is an active member of the Plan.

Not applicable to the ILP or PAV (replacing the ILP), though, once this Plan's participants are not required to retain their stockholding position in the company nor are they granted any stocks within the scope of the Plan.

m. Criteria and events that, upon occurrence, shall result in the plan suspension, change or extinction

With respect to the Matching Plan, any transference of Vale s issued preferred stocks that are plan-bonded before the three-year grace period or the executive s severance generate the extinction of any rights whatsoever that they would otherwise be entitled to within the scope of the Plan.

However, with respect to the ILP or the PAV (replacing the ILP), the executive s severance generates the extinction of any rights whatsoever that they would otherwise be entitled to within the scope of the Plan.

n. Effects generated by the Company s Board and Committee Manager s departure upon his/her rights as provided by the stock-based compensation plan

As the Plan works as a retention mechanism, if the Manager resigns, he/she shall lose all his/her rights to share-based compensation. In case the Manager s contract is rescinded or not renewed by the Company, the participant shall receive the values he had purchased prior to the contract rescission or termination date.

- 13.5 Participation in stock, quotas, or other convertible securities held by executive officers and fiscal council members by board or committee
- a. The number of stocks or quotas issued by the Company, held directly or indirectly, in Brazil or overseas, and other stock-convertible securities by its board of directors members, statutory directors, or fiscal council members, grouped by board or committee, on the closing day of the last accounting reference period:

Shares issued by VALE S.A.

#### Table of Contents

13.11 Maximum, minimum, and average individual compensation of the executive board, statutory board, and the fiscal board

#### Justification for not filling out this table.

Information not disclosed due to legal decision, which is that, the award granted in the case of ordinary proceedings No. 0002888-21.2010.4.02.5101 processed by the 5th Circuit Court of Federal Justice of Rio de Janeiro made final the injunction previously granted to IBEF/RJ, (to which Vale and the company executives are linked), determining that CVM shall be absent from (a) deploying the requirement in sub-item 13.11 in exhibit 24 to CVM Instruction 480, (b) applying any penalty related to failure to comply with this requirement by IBEF associates. CVM appealed the decision. On February 6, 2014, the case was sent to the Federal Regional Court of the 2nd Region to be tried as an appeal with no suspension effects. Thus, at least until CVM s appeal is tried, the decision continues to have the aforementioned effects.

#### Table of Contents

#### 13.12 Compensation or indemnity mechanisms applicable to managers in the occurrence of dismissal or retirement

The contracts signed by members of the Statutory Board have a provision for indemnity for contract rescission, non-renewal or retirement, provided that such events are generated by the Company. In the latter case, the following amounts and conditions are provided for: (i) a compensatory indemnity for each and every amount due, corresponding to six (6) times the amount of the last fixed monthly compensation paid to Executive Directors and twelve (12) times for the President, as well as the payment of the indemnity corresponding to 2 (two) fixed annual salaries, to be paid in eight quarterly equal payments conditioned to a non-compete agreement to be in force for the following 24 months.

No other type of contract agreement is drawn with members of the Board of Directors or the Supervisory Board. The same applies to any other types of contract agreements, life insurance policies or any other instruments that might underlie compensation or indemnity mechanisms in case an executive is dismissed.

For details related to insurance policies related to the payment or reimbursement of expenses incurred by Company managers, see item 12.11 in this Reference Form.

#### Proposal for global compensation

The proposal for global compensation of the managers for the fiscal year 2015 was submitted to the General Annual Meeting intended to fix as a global sum the amount of up to R\$ 107,110,935.81 (one hundred and seven million one hundred ten thousand nine hundred thirty five reais and eighty one cents), to be distributed by the Board of Directors, taking into account **the provisions in current law and in the Articles of Incorporation of Vale. It should be emphasized that the amount proposed considers** the responsibilities of the administrators, the time devoted to their positions, the competence, the professional reputation, and the value of their services in the market. It is important to note that the proposal for overall compensation shown above considers the remuneration of the members of the Advisory Committees and charges related to that remuneration, an amount that is not shown in item 13.2.

The above amount comprises: (a) up to R\$ 6,063,946.79 (six million sixty three thousand nine hundred forty six reais and seventy nine cents) corresponding to the fixed compensation of the members of the Board of Directors, and of the members of the Supervisory Board, under the terms of Act No. 6404/76, Art. 163, net of social fees under Vale s responsibility; (b) up to R\$ 55,131,508.14 (fifty five million, one hundred thirty one thousand, five hundred and eight reais and fourteen cents) corresponding to the fixed and variable compensation of the Executive Directors, which takes into account an Board of Directors comprised by 8 Executive Directors, net of social fees under Vale s responsibility, and excluding direct and indirect benefits. The individual and fixed compensation is compatible with the values paid to the executive members of similar companies, while the payment of the variable compensation, corresponding to the bonus and the long-term incentive, is linked to the fulfillment of predetermined goals, based on the performance of the Company. Thus, the payment of the variable compensation is equivalent to the partial or total fulfillment of the predetermined goals, and they may also be not owed in the event of not reaching such goals; (c) up to R\$ 45,310,680.88 (forty five million, three hundred and ten thousand six hundred and eighty reais and eighty eight cents) corresponding to taxes and charges that have an incidence over the compensation and the responsibility of Vale, and also, benefits of any nature; and (d) up to R\$ 604,800.00 (six hundred and four thousand eight hundred reais) corresponding to the remuneration of the members of the Advisory Committees and charges related to that remuneration.

#### d. Company s exposure to labor liabilities and contingencies

On December 31, 2014, the Company was a defendant in 21,781 labor lawsuits, involving the total amount of R\$ 10.5 billion, for which there is a R\$ 1.9 billion in provisions by reason of the risks involved. The labor lawsuits brought against the Company deal with matters such as: overtime, hours traveling, additional pay for unhealthy and dangerous working conditions, pay equity, and outsourcing, among others.

For a more detailed description of the labor lawsuits considered relevant to the Company s and its subsidiaries businesses, see items 4.3 a 4.7 of this Reference Form.

## 14.2 Relevant changes Human Resources

Due to the reduce interest held by Vale in General Load companies in 2014, the results of such companies is not consolidated in the total number of employees, own or third party.

#### **Table of Contents**

#### 14.3 Description of Company employee remuneration policies

#### a. Salary and variable remuneration policy

Vale follows the practice already adopted in recent years to carry out comparative research on remuneration and offers all its own employees a salary equal to or higher than the legal minimum practiced in each location. Additionally, through compensation, Vale promotes the engagement of its employees and increasingly encourages performance through different rewards, in order to strengthen the culture of constant pursuit of results. The remuneration package also allows alignment of goals and individual results with Vale s.

In Vale s own units, performance assessment for the variable short term compensation (annual) is based on annual goals aligned to Company strategy and budget defined by the Board of Directors. These evaluations are conducted through an interactive process between employees and their managers, as well as using computer systems, in which the results are logged. In this program, employees are rewarded for achieving and/or exceeding their goals, and also according to results found by the main corporate indicator (Operational Cash Flow subtracted from Current Investments). The goal schedule of each employee is comprised by categories, including sustainability, financial and economic, operational excellence, and area-specific goals, and at the beginning of each year, results and goals of the previous year are determined. Each result achieved in the goals represents a number of points and the sum of all points is one of the factors that, with Vale s result, will define the employee short-term variable compensation.

Since November 2007, Vale has signed collective agreements valid for two years with all trade unions representing 100% of the total number of Company employees in Brazil. As a result of the agreements, for the period 2011-2013 and 2013/2015, there was a salary increase of 8.0% in 2012, 6.0% in 2013, and 5.4% in 2014. In Canada, Australia, Indonesia, New Caledonia, Mozambique, Peru, England, and Oman, Vale negotiates collective agreements with workers trade unions, with a duration of typically between one and five years.

Certain employees who are part of the management framework of Vale may also participate in long-term incentives, depending on eligibility for each plan, such as: (i) Matching, a program based on shares with the objective of encouraging the owner's view of the Company and increasing the ability to attract and retain managers, where the qualified employee may acquire, with his own funds, preferred shares of Vale (time 0), and if the employee holds these shares, as well as maintains its employment relation with Vale for a period of three (3) years, additionally to complying with the requirements defined in the annual program manual, he will be entitled to receiving from Vale the equivalent to the same number of shares purchased at time 0; (ii) Long Term Incentive—ILP, program that grants virtual shares of Vale to the leaders and considers the performance related to the total shareholder return (TSR) compared with a defined group of comparable companies (*peer group*), during the three (3) year cycle. The last year of concession of the ILP was the Cycle beginning in 2013, but the terms and conditions of the ILP are still applicable to its beneficiaries. Starting in 2014, the ILP was replaced by the Virtual Shares Program—PAV, a program also based on Vale common virtual shares, with operation and conditions similar to the ILP, where participants have the chance of receiving, in a four (4) year cycle, an amount equivalent to the market value of a specific number of Vale common shares. For more information about the ILP, the PAV and *Matching*, see item 13.4 in this Reference Form.

#### Table of Contents

The salary and variable remuneration policy for non-statutory directors is described in item 13 of this Reference Form.

#### b. Benefits policy

One of Vale s guidelines is to guarantee that the benefits are offered consistently at the different locations where the company is present, compliant with the goals of each business, the corporate human resources philosophy and strategy, as well as respecting legal requirements of the country and considering local market conditions. Vale offers its employees a compensation and benefits package that contributes to the attraction, retention, and engagement strategy.

Vale offers to 100% of its employees medical assistance and life insurance benefits, and for the most part of its employees Vale offers insurance against personal accidents, private pension, transport voucher, education, and meal at work, food voucher and Employee Assistance Program.

Regarding pension funds, Vale recommends that in locations where the financial market allows long-term asset management in a sustainable manner, that the definite contribution model is offered.

#### c. Characteristics of compensation plans based in shares for non-administrative employees

Compensation plans based in shares described in item 13.4 of this Reference Form include the Company s non-statutory directors, as well as other leadership levels, according to qualification rules applicable to each plan. The characteristics of these plans are described in item 13.4 of this Reference Form.

#### Table of Contents

#### 14.4 - Description of the relationships between the issuer and trade unions

Vale builds a harmonious relationship with trade unions all around the world. That covers approximately 50 trade unions in Brazil and 12 trade unions in the rest of the world. Today, there are collective agreements in Brazil, Canada, the United Kingdom, Norway, France, Peru, Mozambique, Australia, New Caledonia, Indonesia and, in 2013, we entered into our first collective agreement in Oman

In Brazil, on December 31, 2014, all collective agreements were concluded without the occurrence of strikes at key Brazilian operations, this in a year when there were strikes in several production sectors in the country.

Vale continued to favor long-term collective labor agreements respecting the specificities of each country. For example, in Brazil, Vale is one of the few companies that, since 2007, has been signing two-year long collective labor agreements. This also occurs in New Caledonia, where agreements have a term of three years, and Canada, where we have agreements with a five-year term.

Vale has been a pioneer in Brazil in the conclusion of collective agreements of participation in the results with defined goals and a two-year term, and our goal is to keep this practice.

Since 2005, employees elect, by direct election, a permanent member for the Board of Directors and the respective deputy member. Elections are a result of a joint effort between company and unions.

In Brazil, in every semester since 2010, the company meets with the unions to discuss themes such as Health and Safety in the Workplace . Brazilian Central Unions also take part in these meetings.

	es not have a shareholders agreement. However, the controlling shareholders of Valepar S.A. signed a Private Instrument of Agreement par S.A. shareholders (Shareholders Agreement).
<i>a</i> )	Parties
Litel Par	rticipações S.A., Bradespar S.A., Mitsui & Co. Ltd., BNDES Participações S.A. and Eletron S.A. (Signatories)
<i>b</i> )	Date of Signing
April 24	., 1997.
<i>c</i> )	Term
20 years	from the date signed, extendable for equal periods of 10 years.
d)	Description of clauses relative to the exercise of the right to vote and controlling votes.
	reholders Agreement stipulates that the Signatories shall be obliged to orientate their representatives in the General Meetings and the s of Vale s Board of Directors to vote as per agreed in the Prior Meeting of Valepar.
	e exception of permitted quorums mentioned below, items in the Prior Meetings will be decided by a simple majority of the votes of the ries present.

In accordance with the Shareholders Agreement, it is necessary to have the support of at least 75% of the holders of the relevant common shares

• amendment of Vale s bylaws, except for a legal requirement;

for the adoption of the following items:

- increase of Vale s share capital by share subscription, creation of a new class of shares, change in the characteristics of the existing shares or any reduction of Vale s share capital;
- issuance of debentures of Vale, whether or not convertible into shares of Vale, call options or any other security of Vale;
- determination of issuance price for any new shares of share capital or other security of Vale;
- amalgamation, spin-off, or merger to which Vale is a party, as well as any change to Vale s corporate form;
- · dissolution, receivership, bankruptcy or any other voluntary act for financial reorganization or any suspension thereof;
- the election and replacement of Vale s Board of Directors and of Executive Officers of Vale;
- the election and replacement of the Chairman of the Board of Vale;
- the disposal or acquisition by Vale of an equity interest in any company, as well as the acquisition of any shares of share capital of Vale for maintenance in treasury;
- the participation by Vale in a group of companies or in a consortium of any kind;
- the execution by Vale of agreements relating to distribution, investment, sales, exportation, technology transfer, trademark license, patent exploration, license to use, and leases in which Vale is a part;
- the approval and amendment of Vale s business plan;
- the determination of the compensation of the executive officers and directors of Vale, as well as the duties of the Board of Directors and the Board of Executive Officers;
- any profit sharing among the members of the Board of Directors or Board of Executive Officers of Vale
- any change in the corporate purpose of Vale;
- the distribution or non-distribution of any dividends (including distributions classified as interest on shareholders equity) on any shares of share capital of Vale other than as provided in Vale s bylaws;
- the appointment and replacement of Vale s independent auditor;
- the creation of any in rem guarantee, granting of guarantees including rendering of sureties by Vale with respect to obligations of any unrelated party, including any affiliates or subsidiaries;
- the passing of any resolution on any matter which, pursuant to applicable law, entitles a shareholder to withdrawal rights through reimbursement of his shares:
- the appointment and replacement by the Board of Directors of any representative of Vale in subsidiaries, companies related to Vale or other companies in which Vale is entitled to appoint directors and officers; and
- any change in the maximum debt limit and debt to equity threshold, as defined in the shareholders agreement, among others.

#### e) Description of clauses relative to the appointment of directors

The management of Vale s business will be carried out by experienced, independent, competent professionals, who have the required qualifications for the positions that they hold.

#### **Table of Contents**

For the purpose of electing Members of the Board at the respective General Meetings, the Signatories will indicate the total number of Board members, whose designation will fall to Valepar, proportionately to its share in the share capital of Valepar. The CEO of Vale will be selected from names in a triple list put forward by an international executive search company and elected in a meeting of the Board of Directors summoned for this purpose. It will fall to the CEO of Vale to propose to the Board of Executive Officers the names of the other directors.

Each Signatory will, during the period of his or her respective mandate, be able to replace the Board member they indicated. In this situation, all Signatories will vote in favor of the name thus proposed at the General Meeting called for this purpose.

#### f) Description of clauses relative to the transfer of shares and the preference for acquiring them

The Shareholder Agreement stipulates that Valepar S.A. will have preference as regards the Signatories for the acquisition at any time of Vale shares, as well as vetoing the direct acquisition of Vale shares by the

Signatories, unless there is authorization from the remaining Signatories, to be granted in a Prior Shareholder Meeting, at which the issue must be approved by a quorum of 75% of the total of the common Valepar shares, related to the shareholder agreement.

In line with the Shareholder Agreement, it is necessary to have the Approval of the Shareholders of 100% of the common shares related to the Agreement in question for the disposal in any form of Vale shares owned by Valepar.

g) Description of clauses which restrict or tie voting rights of members of the Board of Directors

See line d.

The following is additional information related to Vale controlling group:

1) As described in item 15.1, Litel Participações S.A., is one of the indirect controllers of Vale, and it is controlled by BB Carteira Ativa.

**BB** Carteira Ativa shares are 100% owned by PREVI Caixa de Previdência dos Funcionários do Banco do Brasil (PREVI). BB Carteira Ativa is managed by BB Gestão de Recursos Distribuidora de Títulos e Valores Mobiliários S.A.

Previ is a private pension fund and its participants are employees of the Banco do Brasil and of Previ itself. Previ management is divided between the Board of Directors and the Board of Executive Officers. The Board of Executive Officers is composed of six members: President, Director of Administration, and Directors for Investments, Security, Participations, and Planning. The Board of Directors is composed of six members and their substitutes. Three are elected by the participants and users of the security, and three others indicated by the Banco do Brasil. According to the Statutes of Previ, the Board of Directors is the part of the organizational structure responsible for defining the general policy of the administration of the entity.

On December 31, 2013 the Board of Directors was composed of the following board members: Robson Rocha (President), Alexandre Correa Abreu, Paulo Roberto Lopes Rocci, Rafael Zanon Guerra de Araújo, and Haroldo do Rosário Vieira; and Antonio José de Carvalho; and their respective substitutes: Carlos Eduardo Leal Neri, Eduardo Cesar Pasa, Carlos Alberto Araújo Netto, José Ulisses de Oliveira, Jr., José Souza de Jesus, and José Bernardo de Medeiros Neto. The Board of Executive Officers was composed of the following members: Marco Geovanne Tobias da Silva (President in Office), Cecília Mendes Garcez Siqueira (Director of Administration), Marcio Hamilton Ferreira (Director of Investments), Arthur Prado Silva (Director of Participations in Office), Décio Bottechia Júnior (Director of Planning), and Marcel Juviniano Barros (Director of Security). The Audit Committee was composed of the following members: Odali Dias Cardoso (President), Williams Francisco da Silva, Aureli Carlos Balestrini, Adriano Meira Ricci; and by their corresponding substitutes: Diusa Alves de Almeida, Iris Carvalho Silva, Daniel André Stieler and Carlos Célio de Andrade Santos. At the time, Mr. Marco Geovanne Tobias da Silva, replacing Mr. Dan Antonio Marinho Conrado, temporarily assumed the office as President of PREVI and Mr. Arthur Prado Silva, replacing Mr. Marco Geovanne Tobias da Silva, temporarily assumed the office as Director of Participations at PREVI. The Director of Participations is responsible for monitoring the companies which make up the variable income portfolio and the real estate portfolio, especially as concerns the shareholdings and Previ s share and representation in the administrative and supervisory organs of the companies or undertakings, with a view to adopting any measures necessary to assure best corporate governance practices for companies in which investments have been made.

It is important to note that following the base date above, December 31, 2014, Mr. Marco Geovanne Tobias da Silva left the position of Executive Officer at Previ in May 2015.

2) As described in the item 15.1, Fundação Bradesco is one of the indirect controlling of Vale.

The Fundação Bradesco is a non-profit entity which has worked to foster and develop children and adolescents through schools in low income areas. The activities of the Bradesco Foundation are financed exclusively by resources coming from donations which Bradesco and its affiliates make, as well as from dividends and interest on its own capital from its share in Bradesco capital.

According to the terms of the Fundação Bradesco bylaws, all Bradesco directors, Executive Directors and members of the Board, as well as all directors and responsible for Cidade de Deus Cia. Cial. de Participações S.A., act as members of the board of trustees of the Fundação Bradesco, known as the Mesa Regedora.

3) As described in the item 15.1, Mitsui & Co. Ltd. is one of the indirect controlling of Vale.

Mitsui & Co. Ltd., direct controlling entity of Valepar S.A., has share control spread among many shareholders. The following table presents information regarding Mitsui & Co. Ltd. on September 30, 2014:

<sup>4)</sup> As described in item 15.1, **Banco Nacional de Desenvolvimento Econômico e Social BNDES** is one of the indirect controlling entities of Vale. BNDES is a public company with legal personality under private law, whose shares are 100% owned by the Federal Government.

<sup>5)</sup> As described in item 15.1, **Opportunity Holding FIP** is one of the indirect controlling entities of Vale. Opportunity Holding FIP is an investment fund administered by BNY Mellon Serviços Financeiros DTV S.A. and managed by Opportunity Private Equity Gestora de Recursos Ltda., responsible for the fund investment decisions, being, in turn, represented by the administrators, Ms. Maria Amália Delfim de Melo Coutrim (CPF no. 654.298.507-72) and Mr. Leonardo Guimarães Pinto (CPF No. 082.887.307-01)

#### **Table of Contents**

#### 16.1 Description of rules, policies, and practices by the issuer on transactions with related parties

Vale is amongst the largest private Brazilian companies, and operates in various segments of the economy, with cash flow and wealth consistent with its size. For this reason, in view of the constant search for better trading conditions for the achievement of its activities and the investment of its resources, the Company often negotiates the terms of the transactions inherent in its businesses, which inevitably leads to agreeing on transactions with related parties whenever its best interests and those of its shareholders are served.

Thus, transactions with related parties are made by the Company in a strictly exchanged based manner, observing usual price and market conditions, and therefore do not generate any undue advantage to their counterparts nor damage to the Company.

As provided in the Bylaws, it is Vale s Board of Directors responsibility to discuss any business between the Company and (i) its shareholders, directly or through interposed companies, (ii) companies that participate, directly or indirectly, in the capital of a controlling shareholder or are Subsidiary by or under common control of entities that participate in the capital of the controlling shareholder, and/or (iii) companies in which the controlling shareholder of the company is involved. Accordingly, the Board of Directors may delegate responsibilities with limits and procedures that meet the peculiarities and nature of operations, without withholding due information on all the Company s transactions with related parties.

In December 2013, Vale also has a Policy for Transactions with Related Parties ( Policy ), which establishes guidelines and principles to ensure that the transfer, free of charge or onerous, of funds, services or obligations involving people and/or companies with whom Vale has the possibility of contracting under conditions that are not independent conditions that characterize transactions with third parties (<u>Related Parties</u> and <u>Transactions with Related Parties</u>, respectively), being conducted under market standards, including the best practices in corporate governance, with due transparency, prioritizing Vale s best interests, avoiding abuses and misuses of company assets, as well as preventing the granting of loans in favor of Related Parties, except in favor of subsidiaries and affiliates of Vale. For more information on the Policy for Transactions with Related Parties, see items 12.2 (d) and 12.4 (c) in this Reference Form.

Any violation against the terms in this Policy will be considered a violation against the Code of Ethics and Conduct and is subject to procedures and penalties set forth therein. Additionally, the infringing party will also be responsible for losses and damages caused to Vale and third parties.

Additionally, Vale has Governance and Sustainability Committee committed to reviewing and proposing improvements to its Code of Ethics and Conduct and to the management system to avoid conflicts of interest, advising on potential conflicts of interest between the Company, its shareholders, and directors, as well as under the Policy, evaluating the selection process and conditions of transactions to be appreciated by the Board of Directors.

Name of related party	Banco Nacional de Desenvolvimento Econômico e Social - BNDES
Amount (R\$)	R\$ 774,568,410.00
Amount of related party	Not applicable
Loan or other type of debt	YES
Relationship with the Issuer	Indirect controlling shareholder
Guaranties and insurance	None

Edgar Filing: ROGERS COMMUNICATIONS INC - Form 6-K

	debt payment occurs within five (5) business days as of the date of installing, under risk of, if in default, assuming all charges related to the assumptions set forth above for early expiration by default.
	The change in indirect control of Vale, during the term of the Contract, is excluded from the possibility of early expiration by default.
Date of transaction	03/28/2008
Current balance (R\$)	R\$ 781,894,939.40
Duration	09/15/2029
Interest rate	1.46%
Purpose of the contract	Financing for installation of the UHE Estreito Hydroelectric Power Plant
Conditions of termination or expiration	BNDES may terminate this contract in advance, with the enforceability of the debt and immediate suspension of any disbursement, if in addition to the cases set forth in Articles 39 and 40 of PROVISIONS APPLICABLE TO BNDES CONTRACTS, the following are certified by BNDES:
	<ul> <li>a) reducing Vale s staff without providing training programs and/or replacement programs for workers in other companies;</li> </ul>
	b) inclusion in Vale bylaws, statute, or contract, of a provision by which a special quorum is required for deliberation or approval of matters limiting or restricting control of any of these companies by the respective controlling shareholders, or even the inclusion therein, of conditions leading to:
	i) restrictions on Vale s ability to grow or its technological development;
	ii) restrictions on Vale s access to new markets; or
	iii) restrictions or loss of ability to pay financial obligations resulting from this operation;

c) give, without prior authorization from BNDES, guaranties of any kind in operations with other creditors without the same quality of guaranties provided to BNDES, with equal priority of payment;

- d) not observing the following ratios during the term of the contract:
- Adjusted EBITDA debt ratio less than or equal to 4.5, and
- Adjusted EBITDA ratio of Interest Expense greater than or equal to 2.0.

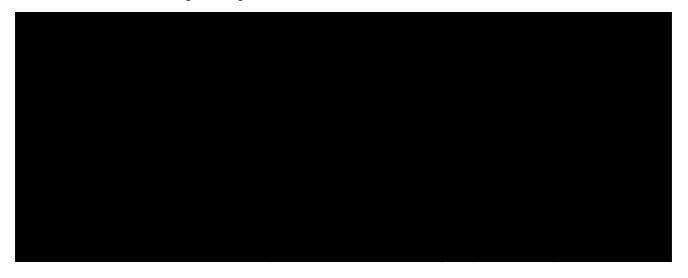

And, in case these ratios are not observed, guarantees an amount equivalent to at least 130% of the debt, as stipulated by BNDES, and within 60 days from the date of written communication.

In case the proceeds granted under this Contract are used for any purpose other than the installment of the UHE Estreito Hydroelectric Power Plant and its transmission system, BNDES, without prejudice to the terms set forth above in this Clause, will inform the Federal Public Prosecutor, pursuant to the terms of Law No. 7492 of 06.16.86.

	The contract will also expire, with the enforceability of the debt and immediate suspension of any disbursement, at the date of installing as a Federal Deputy or Senator or any person remunerated by Vale, or any owner, holder or director of Vale, or any person listed in the prohibitions provided by the Federal Constitution, article
	54, paragraphs I and II. There will be no impact on charges of default, provided that the debt payment occurs within five (5) business days as of the date of installing, under risk of, if in default, assuming all charges related to the assumptions set forth above for early expiration by default.
	The change in indirect control of Vale, during the term of the Contract, is excluded from the possibility of early expiration by default.
Nature and reasons for the operation / other relevant information	The applicable interest rates are: TJLP+1.46% per year (subcredits A and B), and TJLP (subcredit C).
	This is financing for installation of UHE Estreito Hydroelectric Power Plant.

Name of related party	Banco Nacional de Desenvolvimento Econômico e Social - BNDES
Amount (R\$)	R\$ 7,300,000.000.00
Amount of related party	Not applicable
Loan or other type of debt	YES
Relationship with the Company	Indirect controlling shareholder
Guaranties and insurance	None

Edgar Filing: ROGERS COMMUNICATIONS INC - Form 6-K

	In case of change of indirect control of VALE, without prior authorization from BNDES, does not submit a letter of guaranty issued according to the BNDES model.
	In the event proceeds granted under this contract are used for a purpose different from that provided for in Clause First: revolving credit limit, BNDES, notwithstanding above provisions, will notify the fact to the Federal Public Prosecutor pursuant to the terms of Law No. 7,492 of 06.16.86.
	The contract will also expire, with the enforceability of the debt and immediate suspension of any disbursement, at the date of installing as a Federal Deputy or Senator or anyone who is remunerated by Vale, or any owner, holder or director of Vale, or any person listed the prohibitions provided by the Federal Constitution, article 54, paragraphs I and II. There will be no impact on charges of default, provided that the debt payment occurs within five (5) business days as of the date of installing, under risk of, if in default, assuming all charges related to the assumptions set forth above for early expiration by default.
Nature and Reasons for the operation / other relevant information	The applicable interest rates are: Libor 3M+1.5% per year (subcredit A1, A2, A3, A4, A5, A6, A7, A8), Libor 3M + 2.0% per year (subcredits A9 and A10), TJLP (subcredits B4, B11, B15 and B18), TJLP + 1.30% per year (subcredit B17). TJLP + 1.36% per year (subcredits B2, B3, B6, B7, B9, B10, B13 and B14.). TJLP + 1.76% per year (subcredits B1, B5, B8 and B12). This is a Credit facility for financing Salobo I and II, Mineração Onça Puma, and Usina VIII and Itabira Capital Projects.
Name of related party	Banco Nacional de Desenvolvimento Econômico e Social - BNDES
Amount (R\$)	R\$ 3,882,956,000.00
Amount of related party	Not applicable
Loan of other type of debt	YES
Relationship with the Company	Indirect controlling shareholder
Purpose of the contract	Financing to implement the Training Program for the Northern Logistic System (CLN) in order to increase the mineral transportation capacity from 115 million tons per year (Mtpa) to approximately 150 Mtpa.
Conditions of termination or expiration	BNDES may terminate this contract in advance, with the enforceability of the debt and immediate suspension of any disbursement, if in addition to the cases set forth in Articles 39 and 40 of PROVISIONS APPLICABLE TO BNDES CONTRACTS, the following are certified by BNDES:

- a) reducing Vale s staff without providing training programs and / or replacement programs for workers in other companies
- b) the existence of a definitive legal judgment on the performance of acts by Vale consisting of an infringement of legislation which deals with combating discrimination based on race or gender, child labor and forced labor;
- c) inclusion in Vale bylaws, statute, or contract, of a provision by which a special quorum is required for deliberation or approval of matters

limiting or restricting control of any of these companies by the respective controlling shareholders, or even the inclusion therein, of conditions leading to:
i) restrictions on Vale s ability to grow or its technological development;
ii) restrictions on Vale s access to new markets; or
iii) restrictions or loss of ability to pay financial obligations resulting from this operation;
d) if required levels are not met within 60 days from the date of written notification by BNDES, not provide actual guarantees, accepted by BNDES, in value corresponding to at least 130% of the debt, except when in such period, levels described below are met:
<ul> <li>Adjusted EBITDA debt ratio less than or equal to 4.5, and</li> <li>Adjusted EBITDA ratio of Interest Expense greater than or equal to 2.0.</li> </ul>
In case of change of indirect control of Vale, without prior authorization from BNDES, does not submit a letter of guaranty issued according to the BNDES model.
In the event proceeds granted under this contract are used for a purpose different from that provided for in First Clause: implementation of Training Program for the Northern Logistics System (CLN), with the purpose of increasing ore transportation from 115 million tons per year (Mtpa) to approximately 150 Mtpa.
The contract will also expire, with the enforceability of the debt and immediate suspension of any disbursement, at the date of installing as a Federal Deputy or Senator or anyone who is remunerated by Vale, or any owner, holder or director of
Vale, or any person listed the prohibitions provided by the Federal Constitution, article 54, paragraphs I and II. There will be no impact on charges of default, provided that the debt payment occurs within five (5) business days as of the date of installing, under risk of, if in default, assuming all charges related to the assumptions set forth above for early expiration by default.
The changes in Vale s internal shareholder control, during this Contract, is excluded from the hypothesis of early termination.

#### Table of Contents

e) not observing the following ratios during the term of the contract:

- Adjusted EBITDA debt ratio less than or equal to 4.5, and
- Adjusted EBITDA ratio of Interest Expense greater than or equal to 2.0.

And, in case these ratios are not observed, guarantees an amount equivalent to at least 130% of the debt, as stipulated by BNDES, and within 60 days from the date of written communication.

Termination of the contract in advance based on provisions of Paragraph b above will not occur provided the remedy imposed has been fulfilled or while the penalty imposed to the Beneficiary is being fulfilled following the due legal procedure.

In the event of any of the situations provided for in Paragraph b above, observing the provisions of above paragraph, BNDES may only declare the expiration in advance of the debt resulting from the Contract within 60 days after giving notice to the Beneficiary.

In case proceeds granted under this Contract are used for any purpose other than general investments for installation of UHE Estreito Hydroelectric Power Plant and its transmission system, BNDES, without prejudice to the terms set forth above in this clause, will inform the Federal Public Prosecutor, pursuant to the terms of Law No. 7492 of 16.06.86.

The contract will also expire, with the enforceability of the debt and immediate suspension of any disbursement, at the date of installation as a Federal Deputy or Senator or any person remunerated by Vale, or any owner, controller or director of Vale, or any person listed in the prohibitions provided by the Federal Constitution, article 54, paragraphs I and II. There will be no impact on charges of default, provided that the debt payment occurs within five (5) business days as of the date of installing, under risk of, if in default, assuming all charges related to the assumptions set forth above for early expiration by default.

The change in indirect control of Vale, during the term of the Contract, is excluded from the possibility of early expiration by default.

#### Table of Contents

#### Conditions of termination or expiration

The contract may be terminated by operation of law, by the innocent party, without prior notice, in any of the following cases:

- 1) Default of any term, condition or provision of this contract or its exhibits, provided that the breach is not remedied within thirty (30) calendar days of the written notices provided for above. In such case, the party at fault must pay the innocent party a contractual fine of 10% (ten percent) of the annual amount in which the event occurs, which will be deducted from the losses and damages. The higher value holds, in any case, over the lower, at the risk of refund;
- 2) Bankruptcy, judicial or extrajudicial recovery, dissolution or, judicial or extrajudicial liquidation, declared or approved;
- 3) Suspension by the competent authorities of the implementation of the Services for more than thirty (30) days;
- 4) Suspension of service due to the occurrence of *force majeure* or unforeseeable circumstances as noted in the fourteenth clause for a period exceeding ninety (90) days, in which case the VENDOR has the right to receive from the PURCHASER the supplies already provided.

16.3 Identification of measures taken to address the conflict of interest and demonstration of the strictly commutative nature of conditions agreed upon or appropriate compensation payment

Transactions concluded with related parties are supported by prior, careful evaluations of the terms therein, so that they take place under strictly equitable conditions, obeying the normal market prices and conditions. Thus, transactions with related parties do not generate any undue benefits or harm to the parties involved.

To check the equitable nature of operations with related parties, the Company reviews the financial viability of each operation vis-à-vis similar market transactions between unrelated parties. The Company uses comparative analysis methods.

Transactions with related parties of the Company may, in general, be divided into: (i) Operational transactions, and (ii) Financial transactions.

Within the operational part of its activities, Vale performs a substantial volume of transactions with its wholly owned subsidiaries, subsidiaries and companies under joint control with third parties, in view of its policy of integration of its activities in the production and commercial chain. Besides the extraction of minerals, Vale invests heavily in activities related to transport, logistics, and energy services and supplies essential to achieving its corporate purpose. The Company s investments in the logistics segment are based on the transport needs for mining operations and for other products sold to customers. Additionally, Vale invests in power generation to meet its own internal needs, in order to reduce costs and minimize risks due to problems of energy supply. In this context, several operational contracts have been signed between Vale and members of companies in its group, always taking care to observe fair and balanced terms and avoid discrepancies with market conditions, as required by Corporate and Tax laws.

With respect to transactions of a financial nature, Vale seeks continuously and energetically to find the best options available in local and international markets, with a view to securing or investing resources. Overall, investments are undertaken in order to maintain the liquidity of the company available for its investments coupled with a conservative policy regarding the assuming of credit risk of counterparties, with a focus on maintaining its assets in first-tier banks.

#### Additional information about securities convertible to shares

The mandatory convertible notes belonging to the Series VALE-2012 and Series VALE.P-2012 issued on July 13, 2009 by Vale Capital II matured on June 15, 2012.

The notes in the amount of US\$292,445,150 belonging to Series VALE-2012, yielded interest of 6.75% per year, paid quarterly. At their maturity, on June 15, 2012, the Series VALE-2012 notes were exchanged for American Depositary Shares (ADS), each ADS representing one common share issued by Vale. The exchange rate was 2.7082 ADSs representing common shares for each of VALE-2-12 s notes.

The notes in the amount of US\$649,213,250 belonging to the Series VALE.P-2012, yielded interest of 6.75% per year, paid quarterly. At their maturity, on June 15, 2012, the Series VALE.P-2012 notes were exchanged for ADS, each ADS representing one preferred class A share issued by Vale. The exchange rate was 3.0993 ADSs representing ordinary shares for each of VALE-P-2012 series notes. The ADSs for which the notes were exchanges represent a total of 15,836,884 ordinary shares, equivalent to 1.3% of the common shares in circulation, and the VALE.P-2012 series notes represent a total of 40,241,968 preferential shares of class A, the equivalent to 2.2% of the preferential shares in circulation.

Other Relevant Characteristics	There are no restrictions regarding outstanding common shares issued by Vale. For information about restrictions to Vale s stock trading by the involved individuals, see description of our Negotiation Policy in item 20 on this Reference Form. All other characteristics of common shares issued by the Company that we believe are relevant were described on items above.	

Class of preferred shares	Class A Preferred
Dividend rights	Class A preferred shares have the following rights: a) priority in receiving dividends, be calculated in the form of Company bylaws, corresponding to (i) at least 3% of the net worth of the share based on the Financial Statements that served as a reference for the payment of dividends or (ii) 6% calculated on the part of the capital formed by each class of share, whichever of them is greater; (ii) the right to participate in profit sharing on equal terms with the common shares, once these have been guaranteed a dividend equal to the minimum priority; and (iii) participation in any premiums, on equal terms with the common shares, maintaining the priority for the distribution of dividends. According to the Vale Bylaws, at least 25% of the annual net profits, adjusted under the law, will be assigned to the payment of the mandatory dividend to the company s shareholders.
Description of restricted vote	Preferred shares class A will have the same political rights the common shares, with the exception of voting for the election of members of the Board of Directors, with the qualification set forth in §§ 2 and 3 of article 11 of the Company bylaws, as well as the right to elect and dismiss a member of the Supervisory Board and his Deputy. Preferred shares will exercise full and unrestricted right to vote if the Company no longer pays, for a period of three (3) consecutive financial years, the minimum dividends assured to holders of preferred shares, to which they have a right under the terms above.
Right to reimbursement of capital	No
Circumstances where guaranteed rights of said securities may be altered	The rights guaranteed to the class A preferred shares that are not legal may be altered by means of an amendment of the bylaws, approved at the General Meeting that can only be held in the 1st instance, with shareholders representing at least 2/3 of the voting capital, and the 2nd instance with any number of shareholders present. Changes shall be approved based on quorums and conditions set forth by the Law of Corporations. The effectiveness of the decision will depend on the prior approval or ratification within one year, without the possibility of extending this period, by holders of more than half of each class of preferred shares whose rights would be impaired, meeting at

Class of preferred shares	Class E Preferred
Dividend rights	Special class preferred shares (golden shares) have the following rights: a) priority in receiving dividends, to be calculated in the form of the Company s bylaws, corresponding to (i) at least 3% of the net worth of the share based on the Financial Statements that served as a reference for the payment of dividends or (ii) 6% calculated on the part of the capital formed by each class of share, whichever of them is greater; (ii) the participation in profit sharing on equal terms with the common shares, once these have been guaranteed a dividend equal to the minimum priority; and (iii) participation in any premiums, on equal terms with the common shares, maintaining the priority established for the distribution of dividends. According to the Company s Bylaws, at least 25% of the annual net profits, adjusted under the law, will be assigned to the payment of the mandatory dividend to the company s shareholders.
Description of restricted vote	The special class preferred shares (golden shares) have the same political rights as common shares, with the exception of voting for the election of members of the board of directors, with the qualification set out in §§ 2 and 3 of article 11 of the Company Bylaws, as well as the right to elect a member of the Supervisory Board and his Deputy. Golden shares also have a right to veto on the following subjects: (I) change in corporate name; (ii) change of headquarters; (iii) change in statutory purpose regarding mining activities; (iv) liquidation of the company; (v) transfer or closing of the activities of any or all of the following stages of the company s integrated system of iron ore: (i) mineral deposits, reservoirs. mines; (ii) railroads; (iii) ports and maritime terminals; (vi) any modification of rights assigned to types and classes of shares set forth in the bylaws; and (vii) any amendment to article 7, or any rights granted to special class shares in the Bylaws.
Right to reimbursement of capital	No
Description of Restriction	Special class preferred shares belong exclusively to the Union.
Other Relevant Characteristics	All the other characteristics of the special class preferred shares that the Company believes are relevant were described above.

18.2	Description of eventual statutory regulations which limit the right to vote of large shareholders or which cause them to hold a
public o	offering

There are no statutory regulations which limit the right to vote of large shareholders or which cause them to hold a public offering.

#### Table of Contents

#### 18.9 Description of takeover bids made by the issuer for shares issued by third parties

#### Takeover to acquire shares of Vale Fertilizantes S.A.

In June, 2011, Vale announced submission to the Board of Directors of a proposal by the executive directors for a takeover of up to 100% of shares issued by the subsidiary Vale Fertilizantes, aiming to close its capital. The takeover was approved by the Board of Directors on June 30, 2011 and was registered before the Brazilian Securities Commission (CVM) on July 15, 2011.

The offer s tender was issued on November 10, 2011. The Takeover comprised the payment for shares in cash by the subsidiary Mineração Naque S.A., at R\$25.00 per share, either common or preferred shares issued by Vale Fertilizantes, corresponding to a 41% premium over the average price of preferred shares traded in the last 20 trading days prior to the disclosure of the offer, in June 2011. In December 2011, Vale concluded the Offer, resulting in the acquisition of 211,014 common shares and 82,919,456 preferred shares issued by Vale Fertilizantes, representing 83.8% of the common shares and 94.0% of preferred shares, for a total amount of R\$ 2.078 billion.

In January 2012, the Extraordinary Shareholders Meeting at Vale Fertilizantes approved the redemption of 5,314,386 remaining outstanding shares, including common and preferred shares, representing 0.94% of the total shares of Vale Fertilizantes. Vale now holds, through subsidiaries, 100% of common and preferred shares issued by Vale Fertilizantes.

right to subscribe or acquire issuer shares	date of issue, at the free discretion of their holder, for a quantity of common shares		

The Debentures can be exchanged at any time from the first day of the 11th year from date of issue, at the free discretion of their holder, for a quantity of common shares issued by Ferrovia Norte Sul S.A. (\_FNS\_) or Vale Logística de Carga Geral S.A. (\_Vale Logística\_) that matches, in each Annual Exchange Period, the application of the percentages that range from 0.74% to 9.62% (\_Percentage Of Shares In The Exchange\_) on the number of common shares in which Ferrovia Norte Sul S.A. (FNS) capital stock is divided, as long as this value is equal to or less than R\$ 1,876,280,000.00. The debenture holders may, at their sole discretion, exchange the entirety or only part of their Debentures, and each Debenture can be exchanged for the amount of shares resulting from the division between (i) the application of the Percentage of Shares in the Exchange to the number of common shares that make up the capital of FNS, as long as this value is equal to or less than R\$ 1,876,280,000.00 and (ii) the amount of Debentures fully paid.

The Percentage Of Shares In The Exchange was obtained on the basis of (i) projected economic value of FNS forecast as from the 11th year after Date Of Issue, as per cash flow projection and (ii) projected value of Nominal Unit Value as of the 11th year after Date Of Issue.

Once the Debentures are exchanged for FNS or Vale Logística controlling shares, there will be no effects on Vale s capital stock.

The number of shares issued by Vale Logística which the Debentures holders will have a right to receive at the exchange regulated will be that resulting from the multiplication of Vale Logística capital stock percentage, defined in the third clause of the first annex, by the number of shares in which Vale Logística capital stock is divided.

The debenture holders will have to choose between the exchange for FNS shares or for Vale Logística shares, provided that (i) in neither case, will the Debenture holder be able to exchange part of his debentures for FNS shares and part for Vale Logística shares; and (ii) at the time of the exchange for FNS shares, the option to exchange for Vale Logística shares will immediately be void and any blockage established may be released and vice-versa.

#### Possibility of redemption

I. Possibilities of redemption:

Vale must effect the early redemption of all (and nothing less than the entirety) of debentures outstanding within 30 (thirty) days of the occurrence of the following events:

• extinction of sub-concession contract concluded between VALEC Engenharia, Construções e Ferrovias S.A. and the FNS for the administration and operation of public rail cargo transport service on the Norte-Sul Railroad, due to expiry; buy-in; termination; agreement between the parties; annulment of sub-concession or

439

#### Table of Contents

concession or declaration of nullity of the administrative bidding procedure; and

- intervention by the Licensing Authority in the sub-concession or in the concession for the administration and operation of public rail cargo transport service on the Norte-Sul Railroad conferred granted to FNS.
- (i) Formula for calculating value of redemption:

On the payment date of the redemption, Vale will affect the settlement of the debentures which are still outstanding, at their non-amortized nominal unit value, plus the amount capitalized but not amortized, as well as the monetary interest capitalized semi-annually on the 15th of June and December each year with a grace period of 4 years counted from the date of issue and still not amortized, and remuneration in the amount of 0.8% p.a. above the TJLP (long-term interest rate) liable until such date (the <u>Value of Redemption</u>).

The Value of Redemption shall be increased by a percentage of 20% (twenty per cent) if (i) the termination of letter a above is due to the expiry of the concession or even sub-concession (ii) when the cancellation of the above-mentioned concession or sub-concession is attributable, as determined in administrative proceedings, to Vale Logística or the FNS.

#### **Characteristics of Securities**

- I. Maturity date: 12/17/2027
- II. Early maturity: Acceleration: In addition to the assumptions referred to in articles 39, 40 and 47-A of the Provisions Applicable to BNDES Agreements, debenture holders may declare all debentures to be matured in advance and require payment, by Vale, of the debt relative to the balance of debentures, plus the interest and other charges which are liable up to the date of payment in the occurrence of the following events:
- failure by Vale to fulfill any monetary obligation related to the debentures not dealt with within 10 (ten) days counted from their respective maturity date;
- failure to correct any default of any non-monetary obligation as provided in the Deed, within a forty-five-day-term.
- declaration of acceleration of any debt of Vale by reason of breach of contract which individual amount equals or exceeds R\$ 125,000,000.00 or which aggregate value, in a period of twelve (12) consecutive months, is equal to or greater than R\$ 1,000,000,000.000.

- the inclusion in the articles of incorporation or bylaws of Vale, FNS, or Vale Logística of any mechanism whereby a special quorum is required for a decision or approval of matters which limit or restrict control of Vale, FNS or Vale Logística by their controlling companies or, further, the inclusion in those documents, of mechanisms which lead to: restrictions on the growth capacity of Vale and FNS or their technological development; restrictions on access by Vale, FNS or Vale Logística to new markets; or restrictions on or impairment of the ability to pay financial obligations provided for in this Deed of Issuance.
- if the effective direct share control of Vale, FNS or Vale Logística is changed by any means, unless approved in advance by holders of debentures;
- acquisition by FNS or Vale Logística of controlling shareholding or shareholdings in other companies, joint ventures or consortia consisting of activities which are not complementary to the normal development of the corporate purpose of FNS or Vale Logística, characterizing deviation from FNS or Vale Logística corporate

#### **Table of Contents**

purpose, unless approved in advance by holders of debentures, representing the majority of debentures and the issuer shall call upon a Debenture Holder Meeting to be held at least in thirty (30) days, from the calling date, to discuss matters referred to above, and failure to hold such meeting due to lack of quorum in first instance shall imply tacit approval of the operation;

- in relation to FNS, the occurrence of any acquisition, merger, split, transformation or any other corporate reorganization, whether this reorganization be strictly corporate or performed by using relevant assets; in relation to Vale Logística, the occurrence of any acquisition (except if Vale Logística appears as acquirer in the operation and provided that the acquired company in such operation is not FNS), merger, split, transformation or any other operation or set of operations, under which a significant portion of the assets of Vale Logística are transferred to third-parties, where significant portion of assets of Vale Logística means, at a given time, 50% of all assets held by Vale Logística, and in relation to the issuer, the occurrence of corporate re-organizations which imply transferring to third parties that are not controlled by Vale, ownership of FNS or Vale Logística shares which will be the subject matter of an exchange in the terms of the Deed of Issuance, unless any of the operations referred to in this item is approved in advance by holders of debentures representing at least 50% plus one of outstanding debentures and the issuer shall call upon a Debenture Holder Meeting to be held at least in thirty (30) days, from the calling date, to discuss matters referred to above, and failure to hold such meeting due to lack of quorum in first instance shall imply tacit approval of the operation; transfer of ownership of shares issued by FNS or Vale Logística which will be the subject matter of an exchange to an issuer subsidiary should be permitted provided that the party acquiring such shares should respond, upon amendment to the Deed of Issuance, for obligations related to the exchange and the for obligations the block set forth in the Deed of Issuance; and the acquiring party should be controlled by the issuer until the maturity date;
- non-compliance, by Vale, of any provision concerning the interchangeability of debentures;
- if Vale does not support and maintain the block set forth in the Deed of Issuance, under the terms and conditions;
- if Vale does not use the proceeds generated by the issuance for capitalization of FNS, within 3 (three) days counted from the paying up of the debentures.

III. Interest: TJLP + 0.8% per year

IV. Guarantee: None

V. In the absence of a guarantee, if the credit is secured or subordinate: Secured Credit

VI. Possible restrictions imposed on the issuer:

- for distribution of dividends: None
- disposal of certain assets: Vale may dispose of any goods, if at its discretion, this act is desirable for the efficient running of its business and does not adversely affect Vale s capacity to honor its obligations in terms of the Deed of Issuance.
- assumption of new debt: none
- issuing new securities: none

VII. The fiduciary agent, indicating the key terms of the contract: none Any changes to the terms of this debenture issue will depend on the

Issuing date	01/11/2012 and 04/04/2012
Restriction to outstanding units	None
Convertibility into shares or granting the	None
right to subscribe or acquire issuer shares	
Possibility of redemption	I. Possibilities of redemption
	• Redemption by means of payment of premium, at any time, of all notes, or part of the notes, periodically, at Vale Overseas criterion.
	<ul> <li>Redemption due to changes in the tax law: if Vale or Vale Overseas are forced to maintain values greater than 15%, in the event of payment of interest over note, due to changes in the Brazilian or in Cayman tax law, Vale Overseas may redeer the entirety of the notes in advance.</li> </ul>
	II. Formula for calculating value of redemption:
	• The redemption value will be 100% of the principal value or the sum of the current value of the interest installments and the remaining principal, whichever is the greatest, deducted at the date of redemption at the rate equivalent to Treasury + 0.40%
	• Redemption due to changes in the tax law: The redemption value will be equal to 100% of the principal value plus the interests accrued up to the date of redemption.
Characteristics of Bonds	I. Maturity date: 01/11/2022
	II. Early maturity: If a default event occurs, which is not corrected or condoned, the trustee, as instructed by at least 25% of the note holders for the value of the principal showing an open debt, must declare the principal value, the interests accrued and any amount unpaid immediately due. The default events are described in the deed of issuance, including, but not limited to:
	• failure to pay interests, principal or premium, if any.
	• in relation to Vale, its relevant subsidiaries (any subsidiary which total assets are greater than 10% of the total consolidated assets of the group at the end of each fiscal year), and in regard to Vale Overseas, the occurrence of any default, in any transaction characterized as debt, that exceeds, in total, US\$ 50 million and this default results in the effective acceleration of the debt.
	failure from Vale or Vale Overseas to comply with their covenants in

relation to the note and this failure persists 60 days after Vale or Vale Overseas have

received communication from the trustee or from at least 25% of the note holders reporting the non-compliance of the obligations. These obligations include, but are not limited to: (i) obligation not to conduct a merger or sale of the entirety of the assets or a significant part of the assets of Vale or Vale Overseas, with some exceptions and (ii) limitations to granting collateral in debt transactions, with some permitted exceptions.

(8) Bonds issued by subsidiary Vale Overseas Ltd.

#### Table of Contents

- insolvency or bankruptcy.
- Vale Overseas notes become illegal, generating the acceleration of over US\$ 50 million total.
- the collateral becomes invalid or unenforceable.

III. Interest: 4.375% per year

IV. Guarantee: There is no granting of collateral: Vale guarantees, irrevocably and unconditionally, the full payment of the principal, interests and other amounts owed in relation to this note, in the event Vale Overseas fails to pay.

V. the credit is secured or subordinate: N/A

VI. Possible restrictions imposed on the issuer, in relation to:

- distribution of dividends: There are no restrictions on dividend distribution by Vale. However, Vale Overseas may not declare or pay any dividends, without the trustee s consent, as instructed by at least 25% of the note holders for the value of the principal showing an open debt.
- disposal of determined assets: Vale and Vale Overseas may not, without the consent from the majority of the note holders, participate in a merger with another company or transfer all or a significant part of its assets to a third party, except, however that: (i) the company created by this consolidation or a third party that acquired said assets undertakes to make timely payments of the principal and interests and other obligations from Vale and Vale Overseas in the deed of issuance; (ii) no default event occurs as a result of the transaction; and (iii) Vale or Vale Overseas, as applicable, provide their trustee with a certification and a legal opinion attesting that the consolidation or transfer of assets meet the requirements set forth in item (ii).
- contracting of new debt: there are no restrictions to contracting new debts by Vale. Vale Overseas may issue debts instruments within the scope of the deed of issuance, but Vale Overseas may not contract any other type of loan or financing.
- issuing new securities: Vale Overseas may issue, without the consent from the note holders, new notes according to the terms and conditions applicable to Bond VALE 2022. In addition, Vale Overseas may issue new notes under other terms and conditions. Vale has the right to guarantee, without the consent from the note holders, debts from its subsidiaries and issue its own debt.

	VII. The fiduciary agent, indicating the key terms of the contract: The Bank of New York Mellon acts as a trustee of the notes within the scope of the deed of issuance and its main role is to secure investors rights.
Conditions to alter rights assured by the securities	The deed of issuance, allows, to amend the rights and obligations of Vale Overseas and the investors in the notes. Said amendments must be executed upon the consent from
securities	100% or the majority of the note holders for the value of the principal showing an open debt, according to the type of amendment. Some non-material clarifications or amendments may be made without the consent from the note holders.

#### I. Possibilities of redemption

- Redemption by means of payment of premium, at any time, of all bonds or part of the bonds periodically, at Vale Overseas criterion.
- Redemption due to changes in the tax law: if Vale or Vale Overseas are forced to maintain values greater than 15%, in the event of payment of interest over note, due to changes in the Brazilian or in Cayman tax law, Vale Overseas may redeem the entirety of the notes in advance.

II. Formula for calculating value of redemption:

• Redemption by means of payment of premium: The redemption value will be 100% of the principal value or the sum of the current value of the interest installments and the remaining principal,

#### Table of Contents

whichever is the greatest, deducted at the date of redemption at the rate equivalent to Treasury + 0.25%.

 $\bullet$  Redemption due to changes in the tax law: The redemption value will be equal to 100% of the principal value plus the interests accrued up to the date of redemption.

#### Characteristics of Bonds

I. Maturity date: 01/23/17

II. Early maturity: if a default event occurs, which is not corrected or condoned, the trustee, as instructed by at least 25% of the note holders for the value of the principal showing an open debt, must declare the principal value, the interests accrued and any amount unpaid immediately due. The default events are described in the deed of issuance, including, but not limited to:

- failure to pay interests, principal or premium, if any.
- in relation to Vale, its subsidiaries (subsidiaries with total assets exceeding 10% of the total consolidated assets of the group at the end of each fiscal year) and Vale Overseas: the occurrence of any default, in any transaction characterized as debt, that exceeds, in total, US\$ 50 million and this default results in the effective acceleration of the debt.
- failure from Vale or Vale Overseas to comply with their covenants in relation to the note and this failure persists 60 days after Vale or Vale Overseas have received communication from the trustee or from at least 25% of the note holders reporting the non-compliance of the obligations. These obligations include, but are not limited to:
  (i) obligation not to conduct a merger or sale of the entirety of the assets or a significant part of the assets of Vale or Vale Overseas, with some exceptions and (ii) limitations to granting collateral in debt transactions, with some permitted exceptions.
- insolvency or bankruptcy.
- Vale Overseas notes become illegal, generating the acceleration of over US\$ 50 million total.
- the collateral becomes invalid or unenforceable.

III. Interest: 6.25% per year.

IV. Guarantee: There is no granting of collateral. Vale guarantees, irrevocably and unconditionally, the full payment of the principal, interests and other amounts owed in relation to this note, in the event Vale Overseas fails to pay.

V. If the credit is secured or subordinate: N/A

VI. Possible restrictions imposed on the issuer, in relation to:

- distribution of dividends: There are no restrictions on dividend distribution by Vale. However, Vale Overseas may not declare or pay any dividends, without the trustee s consent, as instructed by at least 25% of the note holders for the value of the principal showing an open debt.
- disposal of determined assets: Vale and Vale Overseas may not, without the consent from the majority of the note holders, participate in a merger with another company or transfer all or a significant part of its assets to a third party, except, however that: (i) the company created by this consolidation or a third party that acquired said assets undertakes to make timely payments of the

V. If the credit is secured or subordinate: N/A

VI. Restrictions imposed on the issuer:

- distribution of dividends: There are no restrictions on dividend distribution by Vale.
- disposal of determined assets: Vale may not, without the consent from the majority of the note holders, participate in a merger

### Table of Contents

	with another company or transfer all or a significant part of its assets to a third party, except, however that: (i) the company created by this consolidation or a third party that acquired said assets undertakes to make timely payments of the principal and interests and other obligations from Vale in the deed of issuance; (ii) no default event occurs as a result of the transaction; and (iii) Vale provide their trustee with a certification and a legal opinion attesting that the consolidation or transfer of assets meet the requirements set forth in item (ii).
	• contracting of new debt: there are no restrictions to contracting new debts by Vale.
	• issuing new securities: Vale may issue, without the consent from the note holders, new notes according to the terms and conditions applicable to Bond VALE42. In addition, Vale may issue new notes under other terms and conditions. Vale has the right to guarantee, without the consent from the note holders, its subsidiaries debts and issue its own debt.
	VII. The fiduciary agent (indicating the key terms of the contract): The Bank of New York Mellon acts as a trustee, registrar, paying agent, and transfer agent of the notes within the scope of the deed of issuance and its main role is to secure investors rights and Bank of New York Mellon Trust (Japan) Ltd. as main paying agent.
Conditions to alter rights assured by the securities	The deed of issuance allows, at any time, with some exception, amending the rights and obligations of Vale and the investors in the notes. Said amendments may only be executed by Vale and the trustee with the consent from 100% or the majority of the
	note holders for the value of the principal showing an open debt.
Relevant characteristics	None

Security	Bonds Inco 2032(11)
Quantity	bonds are issued at the minimum value of US\$ 1,000.00
Value	US\$ 400,000,000.00
Issuing date	09/23/2002
Restriction to outstanding units	None
Convertibility into shares or granting the	None
right to subscribe or acquire issuer	
shares	
Possibility of redemption	I. Possibilities of redemption:

- Redemption by means of payment of premium, at any time, at Vale Canada s criterion.
- Redemption due to changes in the tax law: if Vale Canada is forced to pay additional values to note holders, due to changes in the Canadian tax law.
- II. Formula for calculating value of redemption:

- $\bullet$  The redemption value will be 100% of the principal value or the sum of the current value of the interest installments and the remaining principal, whichever is the greatest, deducted at the date of redemption at the rate equivalent to Treasury + 0.40%
- Redemption due to changes in the tax law: The redemption value will be equal to 100% of the principal value plus the interests to any additional values established by the Canadian tax law up to the date of redemption.

### Table of Contents

Characteristics of Bonds	I. Maturity date: 10/15/2015
	II. Possibility of Early Maturity: if a default event occurs, which is not corrected or
	condoned, the trustee, as instructed by at least 25% of the note holders for the value of the principal showing an open debt, must declare the principal value, the interests accrued and any amount unpaid immediately due. The default events are described in the deed of issuance, including, but not limited to:
	• failure to pay interests, principal or premium, if any.
	• in relation to Vale Canada: the occurrence of any default, in any transaction characterized as debt that results in the effective acceleration of the debt.
	• insolvency or bankruptcy by Vale Canada in Canada.
	• failure from Vale Canada to comply with its covenants in relation to the notes. These obligations include, but are not limited to: (i) obligation not to conduct a merger or sale of the entirety of the assets or a significant part of the assets of Vale Canada, with some exceptions and (ii) limitations to granting collateral in debt transactions, with some permitted exceptions.
	III. Interest: 7,.2% per year
	IV. Guarantee: There is no granting of collateral by Vale Canada or its Relevant subsidiaries.
	V. If the credit is secured or subordinate: N/A
	VI. Possible restrictions imposed on the issuer, in relation to:
	• distribution of dividends: There are no restrictions on dividend distribution by Vale Canada.
	• disposal of determined assets: Vale Canada may not participate in a merger with another company or transfer all or a significant part of its assets to a third party, except, however that: (i) the company created by this consolidation or a third party that

acquired said assets undertakes to make timely payments of the principal and interests and other obligations from Vale Canada in the deed of issuance; (ii) no default event occurs as a result of the transaction; (iii) Vale Canada, as the case may be, provides its trustee with a certification attesting to the consolidation or transfer of assets; and (iv) if the company created by means of this consolidation or a third party acquisition of said assets were outside Canada, the Canadian tax law requirements must be met.

- contracting of new debt: there are no restrictions to contracting new debts by Vale Canada.
- issuing new securities: Vale Canada may issue, without the consent from the note holders, new notes according to the deed of issuance terms and conditions. In addition, Vale Canada may issue new notes under other terms and conditions. Vale has the right to guarantee,

### Table of Contents

	without the consent from the note holders, its subsidiaries debts and issue its own debt
	VII. The fiduciary agent, indicating the key terms of the contract: The Bank of New York Mellon acts as a trustee of the notes within the scope of the deed of issuance and its main role is to secure investors rights.
Conditions to alter rights assured by the securities	The deed of issuance allows, with certain exceptions, to amend the rights and obligations of Vale Canada and the investors in the notes. Depending on the type of changes, said amendments may be executed by Vale Canada and the trustee with the consent from the note holders. In most cases, the note holders may approve changes to the note with the consent from 66.67% of the note holders for the value of the principal showing an open debt. Some non-material clarifications and changes may be made without the note holders consent.
Other relevant characteristics	None

#### 19.4 Other relevant information

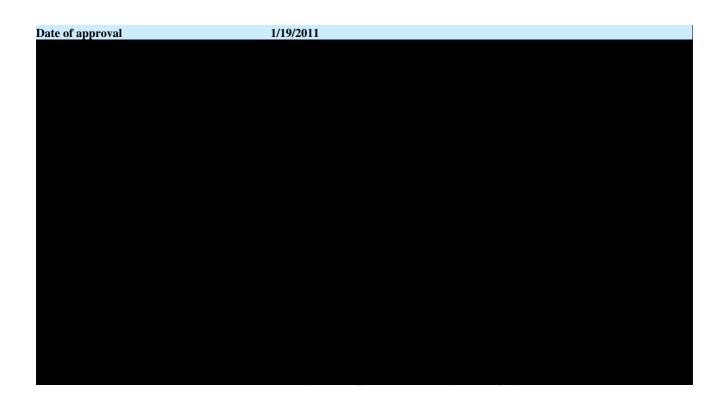

On February 19, 2001, there was approval, at the Extraordinary General Meeting, for the incorporation of shares held by minority shareholders in subsidiary MINERAÇÃO DA TRINDADE S.A (<u>SAMITR</u>I), without an increase in capital and without issuing new shares in Vale by using shares held in the Treasury, in accordance with the authorization by the CVM (Brazilian SEC) on December 13, 2000, pursuant to article 23 of the CVM Instruction No. 10 of February 14, 1980. As a result of the incorporation of SAMITRI shares into Vale s equity, the minority shareholders of SAMITRI received class A Vale preferred shares (PNA), issued by Vale and maintained in the Treasury by the Company, at a rate of one (1) share issued by Vale per lot of 628 (six hundred and twenty-eight) SAMITRI shares. With this operation, Samitri became a wholly owned subsidiary of Vale. Those holding SAMITRI shares in the name of the bearer, who contact Vale, will have their shares updated and converted into Vale PNA shares, in the proportion informed above. In this way, the Treasury shares have been disposed of in the period from 2009 to 2011 (43,800 PNA shares in 2009, 24 PNA shares in 2010, and no shares in 2011) on account of the upgrade of bearer bonds for the minority shareholders of SAMITRI.

The mandatorily convertible notes due June 15, 2012 of its wholly-owned subsidiary Vale Capital II, series VALE and VALE.P, were converted into American Depositary Shares (ADSs), representing common and class A preferred shares, respectively. The conversion rate, which is the number of ADSs deliverable upon conversion of each note on the applicable date, was 2.7082 common shares per Series VALE and 3.0993 preferred shares per Series VALE. P. the American Depositary Shares, into which the Series VALE Notes were converted, represented an aggregate of 15,836,884 common shares, and the Series VALE. P Notes represented an aggregate of 40,241,968 classes A preferred shares. Those shares were held in the treasury and were sold to be used in the conversion of the notes.

The Company does not use financial instruments with different protection purposes (*hedge*). Instruments used by the Company include: exposure to embedded derivatives and warrants from Silver Wheaton. For information on Company financial operations through the use of derivatives for hedge purposes, see item 5.2 in this Reference Form.

#### Table of Contents

#### 20.1 Information about the securities trading policy

#### Main characteristics

Vale s Trading Policy, formulated in accordance with the CVM Instruction No. 358/02 and Vale s Code of Ethical Conduct, aims to contribute to the orderly trading of securities issued by Vale, or its related companies, removing any suspected misuse of information concerning material events or facts about Vale (Insider Information).

The Trading Policy also aims to contribute to compliance with laws and regulations of the United States and Hong Kong, where Vale shares are traded in the stock exchanges in the form of ADRs and HDRs, respectively, that prohibit insider trading / dealing (using insider information for their own benefit), including the practice of tipping (providing insider information for third parties to benefit from it).

For purposes of the laws and regulations of the United States of America, a person engages in practices of (i) insider trading if he buys or sells securities using relevant and not publicly-disclosed information (material non-public information) that has been obtained or used in breach of a duty of trust and confidentiality (duty of trust and confidence), and (ii) tipping if he provides the same type of information to third parties who end up taking advantage of this information to perform insider trading.

For purposes of the laws and regulations of Hong Kong, a person engages in practices of insider dealing when, having material non-public information, he negotiates or encourages third parties to negotiate Vale s securities, or he provides the same type of information to third parties knowing, or expecting, that they will, indeed, negotiate Vale s securities.

The prohibitions contained in this Trading Policy cover any acquisition, sale, or transfer of securities issued or guaranteed by Vale.

Companies opened under the control of Vale shall adopt the Company s Trading Policy, applying, where appropriate, the same prohibitions and/or restrictions disciplined by Vale s Trading Policy.

Any violation of the provisions of the Company s Trading Policy shall be deemed a breach of the Code of Ethical Conduct of Vale and be subject to the penalties provided by law and responsibility for losses and damages caused to Vale and to third parties, in addition to any proceedings and penalties established in the Code of Ethical Conduct of Vale.

#### Table of Contents

# Blackout periods for trading and description of the oversight procedures

Related Persons cannot, in addition to what is already provided for in the CVM Instruction n  $^{\circ}$  358/02, trade securities issued by Vale and publicly quoted companies controlled by it:

- i. Thirty (30) days prior and two (2) days after the dissemination or publication of the quarterly and annual financial Statements of Vale;
- ii. In the period between the decision taken by the shareholders of Valepar S.A., controller of Vale, to: (i) modify Vale capital by means of share subscription; (ii) approve a program of acquisition or disposal of Vale shares issued by Vale itself; and (iii) distribute dividends or interest on equity, bonuses in shares or their derivatives, or splits, and the publication of the respective public notices and/or advertisements or newsletters; and
- iii. During any other period designated by the Executive Director responsible for Vale investor relations, with the prior authorization by the Chairman of the Board of Directors at the request of the CEO.

Related Persons may trade securities issued by Vale, as long as they observe the blackout periods mentioned above, with the goal of long-term investment, it being recommended they maintain ownership of securities issued by the Company for a minimum period of six (6) months.

#### Table of Contents

#### 20.2 - Other relevant information

The provisions of Vale s Trading Policy are also applied when the trading by Related Persons is carried out for their own direct and/or indirect benefit using, for example:

- A partnership directly or indirectly controlled by Related Persons;
- Third parties who have a management agreement, trust or financial asset investment portfolio management agreement with Related Persons;
- Proxies or agents of Related Persons; and
- Spouses who are not legally separated, partners and any other dependant included in the annual tax return of Related Persons.

Related Persons must guarantee, whenever possible and if they are forbidden from trading, that the above-mentioned natural and legal persons will also refrain themselves from trading securities issued by the Company.

Besides the Related Persons, the Company s Trading Policy also applies to any director who leaves the Company before the public disclosure of business or event initiated during his administration, and will extend for six months thereafter.

The restrictions contained above shall not apply to transactions made by investment funds where the Related Persons are shareholders provided that the (a) investment funds are not exclusive, and (b) trading decisions of the administrator of the fund may not be influenced by the shareholders.

Members of the Board, its advisory committees, the Executive Board and the Supervisory Board of Vale must communicate in writing pursuant to Article 11 of CVM Instruction 358/02, to the Executive Director of Investor Relations and through him to the CVM and the stock exchanges where Vale shares are listed for trading (a) the amount of securities issued by Vale and subsidiaries or their parent-held companies, as well as the property of his spouse, unless it is actually or legally separated, of a partner, any dependent included in the annual income tax and partnerships directly or indirectly controlled by them, and (b) changes in the above-mentioned positions.

The announcement referred to in the above paragraph above shall be made (a) on the first business day after taking office, and (b) within 5 (five) days after each trade and shall contain at least the following information (i) name and identification of the sender, indicating the registration number in the National Registry of Legal Entities or the Roll of Individual Taxpayers if they are domiciled for tax purposes in Brazil, (ii) quantity of each type and class, in case of shares, and the other characteristics for other securities, as well as the identification of the issuer and the balance of the position held before and after the negotiation, and (iii) form, price and date of the transactions.

The Executive Director of Investor Relations, in turn, shall submit to the CVM and the stock exchanges the information received, on an individual and consolidated basis, as the case may be, within 10 (ten) days after the end of the month when the changes to the positions held take place, or on the month when the taking of office takes place.

The Related Persons must sign their Declaration of Compliance, pursuant to article 16, § 1 of the CVM Instruction 358/02, in accordance with the model contained as an annex to the Company s Trading Policy, which will remain filed at Vale s headquarters while they continue their relationship with Vale, and at least for five years after their departure.

#### **Table of Contents**

#### 21.1 - Description of the rules, bylaws, or internal procedures regarding the disclosure of information

On May 24, 2012, the Board of Directors of Vale approved the amendment of its Policy on Disclosure of Relevant Event or Fact (<u>Disclosure Policy</u>). This Disclosure Policy governs the disclosure of information, which by its nature may generate Relevant Events or Facts and is based on the following basic principles: (i) transparency, balanced information, fair treatment, and respect for the rights of investors; (ii) adherence to the best global practices in investor relations; and (iii) obedience to specific legislation of Brazil, the United States, France, and Hong Kong; to the regulations of the Brazilian *Comissão de Valores Mobiliários* [Securities and Exchange Commission] (CVM), the U.S. Securities and Exchange Commission (SEC) of the United States of America, the *Autorité des Marchés Financiers* (AMF) of France, and the *Securities and Futures Commission* (SFC) of Hong Kong, hereinafter referred to as regulatory agencies, and to the rules of the stock exchanges where the securities issued by Vale are listed and traded.

The Disclosure Policy applies to the controlling shareholder, to members of the Board of Directors, Audit Committee, and Advisory Committees, to the Executive Officers and executives of Vale, to the administrators of its controlled companies, and to any person who, by virtue of his office, function, or position in Vale and/or its controlled companies, has knowledge of information regarding a Relevant Event or Fact about Vale.

Open capital companies under Vale control should adopt this Disclosure Policy, with adjustments that might be required by local legislation and regulation applicable to such companies and markets where the respective securities are traded.

In addition, Vale has an Information Disclosure Board, chaired by the Chief Executive Officer of Vale which is comprised of the following members: Executive Director of Finances and Investor Relations (DRI); the General Consul, Director of the Investor Relations Department, and the Director General of the Controller. The main functions of the Information Disclosure Board are: (i) to verify the existence of a Relevant Event or Fact to be disclosed and to ensure its full, simultaneous, broad and immediate general disclosure, especially in markets trading securities issued by Vale; (ii) to supervise and approve communication to general capital markets of a Relevant Event or Fact, as well as evaluate the need of eventual correction or revision; (iii) to give an opinion as to the possibility of delaying the disclosure of a Relevant Event or Fact, if its immediate disclosure puts a legitimate interest of Vale at risk; (iv) to oversee the developments or changes in the business of Vale or its controlled companies to determine if there is need for disclosure of a Relevant Event or Fact; and, (v) to analyze possible rumors and speculation in the market about Vale to evaluate the need to publish a response and/or a Statement.

Any Related Person who is aware of information related to Relevant Act or Fact shall promptly notify the Finance and Investors Relations Director and/or the Investors Relations Director.

#### Table of Contents

# 21.2 Description of the disclosure policy for relevant events or facts and of the procedures for maintaining confidentiality of relevant information not disclosed

In accordance with the Disclosure Policy, Vale will make public information of a strategic, administrative, technical, business, financial, and/or economic nature that might affect prices of its securities and/or influence decisions by investors to hold them, buy them, sell them, or exercise any rights inherent in the position of holders of securities (Relevant Event or Fact) according to applicable legislation and regulation.

The shareholders controlling Vale, the members of the Board of Directors, the Audit Committee, and the Advisory Committees, the Executive Officers and executives of Vale shall report any information regarding a Relevant Event or Fact of which they have knowledge to DRI, who will make arrangements for its prompt disclosure.

All relevant information that is not yet public knowledge and is disclosed, intentionally or not, to analysts, investors, journalists or any person who is not (i) member of Vale s Board of Directors, Supervisory Board or Executive Committees; (ii) member of the Executive Board; or (ii) employee of Vale and its subsidiaries directly engaged with the matter, should be immediately made public according to applicable rules and regulations.

The disclosure of a relevant event or fact should be made before the opening or after the close of the trading sessions of the stock exchanges where the securities issued by Vale are traded. If disclosure is imperative during a trading session, the Executive Director for Finances and Investor Relations (DRI) shall request the relevant regulatory agencies and the stock exchanges, where the securities issued by Vale are listed and traded, to suspend trading until adequate disclosure occurs.

Access to information about Relevant Events or Facts, before their public disclosure, is limited to professionals directly involved with the matter under consideration. These professionals shall store this information in an adequate manner, maintain its confidentiality until its public disclosure, and insure that their subordinates and service providers subject to obligations of confidentiality do so, as well, and assume joint responsibility with them if this is not complied with. The professionals referred to are, in addition, subject to the agreement of confidentiality maintained with Vale.

Events or facts may, exceptionally, not be disclosed if the controlling shareholders and/or the directors of Vale view that disclosure endangers legitimate company interests. In this case, the administrators can submit to the CVM their decision to keep material facts or events confidential, on an exception basis, because the company understands they present a risk, if disclosed, to the legitimate interests of the organization.

All rumors and/or speculation in the market about Vale and/or its controlled companies, which have as their topic possible Relevant Events or Facts, shall be reported to the Information Disclosure Board. If some information about a Relevant Event or Fact escapes control or if there is an abnormal oscillation of the quote, price, or volume traded of securities, the DRI shall disclose that information publicly and immediately.

Also, under pertinent laws and regulations of the regulatory agencies and the stock exchanges, where the shares issued by Vale are listed and traded, Vale will make simultaneous disclosures of information to the capital market using the following communication channels:

•	Publication of Relevant Events or Facts in newspapers of general circulation habitually used by Vale, namely, Jornal do
Commercio and Valor I	Economico, and such documents are to be sent, using the CVM s system to send periodical and eventual information (IPE
System), and availabilit	y on the page Investors Relations on the Company website, www.vale.com.;
_	Circulation of according to the conduction Depth and Chinase shall be
•	Circulation of press releases, simultaneously in Portuguese, English, and Chinese, shall be
	493

traded (as well as posted	wing the specific rules of the regulatory agencies and stock exchanges, where the shares issued by Vale are listed and d in the web sites of the regulatory agencies and/or stock exchanges), with custodial agents, escrow agents for <i>American</i> DRs) and <i>Hong Kong Depositary Receipts</i> (HDRs), capital market participants, and news agencies;
telephone numbers for c	Telephone conferences and webcasts held regularly every quarter for the disclosure of results, or in exceptional cases, if The realization of these events will be announced in advance, publicly, to capital markets, indicating the date, time, and connection. Such conferences and webcasts will be recorded and available on the Vale s website (www.vale.com) in the on, for ninety (90) days following the event;
• and place of such events	Public meetings at the discretion of the administration of Vale. Vale will publicly announce in advance the date, time, s;
of shareholder compens regulatory agencies and	Intensive use of Vale s website s Investor Relations section, with versions in Portuguese, English, and Chinese, for the of press releases, presentations made at meetings and conferences, operational information on corporate events, payments ation, issuance of debt securities, annual reports, quarterly and annual financial Statements, documents filed with stock exchanges, where the shares issued by Vale are listed and traded, quotes for Vale stock and Depositary Receipts, ly asked questions compiled by participants in the capital market; and

#### Table of Contents

21.3 - Administrators responsible for implementation, maintenance, evaluation, and supervision of the information disclosure policy

The Executive Director for Investor Relations is the one responsible for the disclosure of information regarding relevant events or facts, although the other Associated Persons (controlling shareholder, members of the Board of Directors, of the Advisory Board and of advisory committees, Executive Officers, Vale officers, managers of its controlled companies and anyone who, due to their job, role or position in Vale and/or its controlled companies, may have knowledge of information relative to any Act or Fact Relevant about Vale), respond jointly in cases of non-compliance with the rules on disclosure.

#### Table of Contents

#### 21.4 - Other relevant information

The Information Disclosure Board may, occasionally, approve the disclosure of forecasts for the behavior of the markets where the Company operates, presenting with clarity, the assumptions that support such estimates, together with the following note:

This communication may contain Statements that express Vale s expectations about future events or results. All Statements, when based on future expectations rather than on historical facts, involve various risks and uncertainties. Vale cannot guarantee that such Statements will prove correct. Such risks and uncertainties include factors relating to: (a) countries where we have operations, principally Brazil and Canada; (b) the world economy; (c) capital markets; (d) the price of minerals and metals and their dependence on global industrial production, which is cyclical by nature; and (e) the degree of global competition in the markets in which Vale operates. For additional information about factors that could cause results to differ from those estimated by Vale, please consult the reports filed with the Brazilian Securities and Exchange

Commission (CVM), the French Autorité des Marchés Financiers (AMF), the U.S. Securities and Exchange Commission (SEC), at the Stock Exchange of Hong Kong Limited, and, in particular, the factors discussed in the sections Estimates and projections and Risk factors in the Annual Report - Form 20F of Vale.

The controlling shareholders, direct or indirect, the shareholders who elect members of the Board of Directors or of the Audit Committee, and any other natural or legal person, or group of persons, acting jointly or representing the same interest, who purchase or sell a share participation that corresponds, directly or indirectly, to a variation, for increase or decrease, of five percent (5%) or more of the kind or class of shares representative of the capital stock of Vale, shall, under the terms of Article 12 of Instruction CVM 358, immediately send to Vale correspondence containing the information required in the cited Article 12.

The Executive Director for Investor Relations shall immediately inform the respective regulatory agencies and stock exchanges of the information received, as well as update the section corresponding of the Reference Form, within a maximum of seven (7) business days.
