Item 1.01 Entry into a Material Definitive Agreement.

On February 5, 2010, an amendment to CenterPoint Energy, Inc.'s (the "Company's") \$1.2 billion bank credit facility became effective. The amendment modifies the financial ratio covenant in that credit facility to allow for a temporary increase of the permitted ratio of consolidated indebtedness to EBITDA (as those terms are defined in the facility) from 5 times to 5.5 times if the Company's electric transmission and distribution subsidiary, CenterPoint Energy Houston Electric, LLC ("CenterPoint Houston") experiences damage from a natural disaster in its service territory and the Company certifies to the Administrative Agent that CenterPoint Houston has incurred system restoration costs reasonably likely to exceed \$100 million in a calendar year, all or part of which CenterPoint Houston intends to seek to recover through securitization financing. Such temporary increase in the financial ratio covenant would be in effect from the date the Company delivers its certification until the earliest to occur of (i) the completion of the securitization financing, (ii) the first anniversary of the Company's certification and (iii) the revocation of such certification.

The amendment described above is filed as Exhibits 4.1 to this report and is incorporated by reference herein. The foregoing summary does not purport to be complete and is qualified in its entirety by reference to the amendment.
