CARBO CERAMICS INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(\$ in thousands, except per share data)
(Unaudited)

1. Basis of Presentation

The accompanying unaudited consolidated financial statements of CARBO Ceramics Inc. have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments, consisting only of normal recurring adjustments, considered necessary for a fair presentation have been included. The results of the interim periods presented herein are not necessarily indicative of the results to be expected for any other interim period or the full year. The consolidated balance sheet as of December 31, 2007 has been derived from the audited financial statements at that date. These financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto for the year ended December 31, 2007 included in the annual report on Form 10-K of CARBO Ceramics Inc. for the year ended December 31, 2007.

The consolidated financial statements include the accounts of CARBO Ceramics Inc. and its operating subsidiaries (the Company). The significant operating subsidiaries include: CARBO Ceramics (China) Company Limited, CARBO Ceramics (Eurasia) LLC, and Pinnacle Technologies, Inc. The consolidated financial statements also include a 49% interest in a fracture-related services company in Canada that was acquired in April 2005 and a 32% interest in a Texas-based equipment manufacturing company that was acquired in October 2007, both reported under the equity method of accounting, and a 6% interest in a Texas-based electronic equipment manufacturing company that was acquired in March 2008 that is reported under the cost method of accounting. All significant intercompany transactions have been eliminated.

Change in Method of Accounting for Inventories - During the second quarter of 2008, the Company changed its method of accounting for inventories from the first-in, first-out (FIFO) method to the weighted average cost method. The Company believes that the weighted average cost method more appropriately reflects costs in relation to the physical movement of bulk-processed finished goods. A change in accounting method requires retroactive application and thus restatement of all prior periods presented. However, this change in inventory costing method did not result in a material cumulative difference or a material difference in any one reporting period, and consequently the prior periods have not been restated. The cumulative effect of the accounting change, which was immaterial, was reflected in the results of operations in the second quarter of 2008.

2. Sale of Assets (Discontinued Operations)

On August 28, 2008, the Company entered into a definitive agreement to sell a substantial portion of the assets of its wholly-owned subsidiary, Pinnacle Technologies, Inc. (Pinnacle), to Halliburton Energy Services, Inc. (Halliburton). The sale, which includes all of the fracture and reservoir diagnostic business, the Pinnacle name and related trademarks, was completed on October 10, 2008, for \$143,740 in cash, including \$6,740 for preliminary working capital adjustments. The final purchase price is subject to post-closing working capital adjustments. The group of assets sold meets the definition of a *component of an entity* as defined by the Financial Accounting Standards Board's SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets (as amended)*. The Company has no continuing involvement in these operations. Consequently, the related operations are reported as discontinued operations and the related assets and liabilities, which are held for sale, are presented as assets and liabilities of discontinued operations in the consolidated balance sheets. The Company retains the hydraulic fracturing simulation software FracProPT, the hydraulic fracturing design, engineering and consulting business and Applied Geomechanics, Inc., a provider of tiltmeter technology for geotechnical applications. Previously, the Pinnacle assets and operations were presented in the Fracture and Reservoir Diagnostics segment, one of the Company's two reportable segments. Segment information is no longer presented because the remaining operations, which were previously reported in the Fracture and Reservoir Diagnostics segment, do not meet the criteria for a reportable segment.

Table of Contents

The detail of assets and liabilities of discontinued operations reported in the consolidated balance sheets are as follows:

	September 30, 2008	December 31, 2007
Current assets:		
Trade accounts and other receivables, net	\$ 23,178	\$ 17,597

Table of Contents**3. Earnings Per Share**

The following table sets forth the computation of basic and diluted earnings per share from continuing operations:

	Three months ended September 30,		Nine months ended September 30,	
	2008	2007	2008	2007
Numerator for basic and diluted earnings per share:				
Net income from continuing operations	\$ 15,312	\$ 12,854	\$ 39,916	\$ 37,695
Denominator:				
Denominator for basic earnings per share Weighted-average shares	24,481,635	24,376,869	24,466,490	24,356,648
Effect of dilutive securities:				
Employee stock options	24,976	84,799	47,088	84,203
Nonvested and deferred stock awards	60,597	42,512	46,823	33,490
Dilutive potential common shares	85,573	127,311	93,911	117,693
Denominator for diluted earnings per share Adjusted weighted-average shares	24,567,208	24,504,180	24,560,401	24,474,341
Basic earnings per share	\$ 0.62	\$ 0.53	\$ 1.63	\$ 1.55
Diluted earnings per share	\$ 0.62	\$ 0.52	\$ 1.62	\$ 1.54

4. Common Stock Repurchase Program

On August 28, 2008 the Company's Board of Directors authorized the repurchase of up to two million shares of the Company's common stock. Shares are effectively retired at the time of purchase. As of September 30, 2008, the Company repurchased and retired 72,600 shares at an aggregate price of \$3,540.

5. Dividends Paid

On July 15, 2008, the Board of Directors declared a cash dividend of \$0.17 per common share payable to shareholders of record on July 31, 2008. The dividend was paid on August 15, 2008. On October 14, 2008, the Board of Directors declared a cash dividend of \$0.17 per common share payable to shareholders of record on October 31, 2008. The dividend is payable on November 14, 2008.

6. Comprehensive Income

The following table sets forth the components of comprehensive income for the three and nine months ended September 30, 2008 and 2007:

	Three months ended September 30,		Nine months ended September 30,	
	2008	2007	2008	2007
Net income	\$ 18,420	\$ 14,063	\$ 46,181	\$ 40,243
Foreign currency translation adjustment	(2,650)	814	(832)	852
Comprehensive income	\$ 15,770	\$ 14,877	\$ 45,349	\$ 41,095

The foreign currency translation adjustment for the three months ended September 30, 2008 and 2007 is net of deferred income tax (benefit) expense of \$(1,427) and \$438, respectively. For the nine months ended September 30, 2008 and 2007, the foreign currency translation adjustment is net of deferred income tax (benefit) expense of \$(448)

and \$1,589, respectively.

7. Stock Based Compensation

The Company has three stock based compensation plans: a restricted stock plan and two stock option plans. The restricted stock plan provides for granting shares of Common Stock in the form of restricted stock awards to employees and non-employee directors of the Company. Under the restricted stock plan, the Company may issue up to 375,000 shares, plus (i) the number of shares that are forfeited, and (ii) the number of shares that are withheld from the participants to satisfy minimum statutory tax withholding obligations. No more than 75,000 shares may be granted to any single employee. One-third of the shares subject to award vest

Table of Contents

(i.e., transfer and forfeiture restrictions on these shares are lifted) on each of the first three anniversaries of the grant date. All unvested shares granted to an individual vest upon retirement at or after the age of 62. The stock option plans provided for granting options to purchase shares of the Company's Common Stock to employees and non-employee directors. Under the terms of the stock option plans the Company's ability to issue grants of options has expired. However, there are outstanding stock options that were previously granted under the stock option plans. Under the stock option plans, the Company was permitted to grant options for up to 2,175,000 shares. The exercise price of each option generally was equal to the market price of the Company's Common Stock on the date of grant. The maximum term of an option is ten years and options generally become exercisable (i.e., vest) proportionately on each of the first four anniversaries of the grant date. The Company's policy is to issue new shares upon exercise of options. As of September 30, 2008, 136,090 shares were available for issuance under the restricted stock plan and no options were available for issuance under the stock option plans.

The Company also has a Director Deferred Fee plan (the "Plan") that permits non-employee directors of the Company to elect once in December of each year to defer in the following calendar year the receipt of cash compensation for service as a director, which would otherwise be payable in that year, and to receive those fees in the form of the Company's Common Stock on a specified later date that is on or after the director's retirement from the Board of Directors. The number of shares reserved for an electing director is based on the fair market value of the Company's Common Stock on the date immediately preceding the date those fees would have been paid absent the deferral. As of September 30, 2008, 5,849 shares were reserved for future issuance in payment of \$273 deferred under the Plan by electing directors.

A summary of stock option activity and related information for the nine months ended September 30, 2008 is presented below:

	Options	Weighted-Average Exercise Price	Aggregate Intrinsic Value
Outstanding at January 1, 2008	171,075	\$ 22.43	
Granted			
Exercised	(112,012)	\$ 21.52	
Forfeited			
Outstanding at September 30, 2008	59,063	\$ 24.15	\$1,622
Exercisable at September 30, 2008	59,063	\$ 24.15	\$1,622

As of September 30, 2008, all compensation cost related to stock options granted under the plan has been recognized. The weighted-average remaining contractual term of options outstanding at September 30, 2008 was 3.8 years. The total intrinsic value of options exercised during the nine months ended September 30, 2008 was \$3,537.

A summary of restricted stock activity and related information for the nine months ended September 30, 2008 is presented below:

	Shares	Weighted-Average Grant-Date Fair Value
Nonvested at January 1, 2008	99,721	\$45.10
Granted	58,595	\$37.07
Vested	(39,050)	\$46.29
Forfeited	(1,412)	\$45.15

Nonvested at September 30, 2008	117,854	\$40.72
---------------------------------	---------	---------

As of September 30, 2008, there was \$2,779 of total unrecognized compensation cost, net of estimated forfeitures, related to restricted shares granted under the restricted stock plan. That cost is expected to be recognized over a weighted-average period of 1.7 years. The total fair value of shares vested during the nine months ended September 30, 2008 was \$1,807.

Table of Contents

The Company also has an International Long-Term Incentive Plan that provides for granting units of stock appreciation rights (SARs) or phantom shares to key international employees. One third of the units subject to award vest and cease to be forfeitable on each of the first three anniversaries of the grant date. Participants awarded units of SARs have the right to receive an amount, in cash, equal to the excess of fair market value of a share of Common Stock as of the vesting date, or in some cases on an later exercise date chosen by the participant, over the exercise price. Participants awarded units of phantom shares are entitled to a lump sum cash payment equal to the fair market value of a share of Common Stock on the vesting date. In no event will Common Stock of the Company be issued under the International Long-Term Incentive Plan. As of September 30, 2008, there were 6,125 units of phantom shares granted under the plan, of which 225 have been forfeited and none have vested, with a total value of \$304.

8. Foreign Currencies

As of September 30, 2008, the Company's net investment that is subject to foreign currency fluctuations totaled \$83,640 and the Company has recorded cumulative foreign currency translation adjustments of \$2,796, net of deferred income taxes. These currency translation adjustments are included in Other Comprehensive Income. Also, the Company's subsidiary in Russia has borrowed funds from another subsidiary of the Company to finance construction of a manufacturing plant in Russia. This indebtedness, while eliminated in consolidation of the financial statements, is subject to exchange rate fluctuations between the local reporting currency and the currency in which the debt is denominated. Currency exchange rate fluctuations associated with this indebtedness result in gains and losses that impact net income. The gains and losses are presented in Other Income (Expense). During the third quarter of 2008, this indebtedness was significantly reduced. Amounts outstanding under the loan totaled \$4,595 as of September 30, 2008.

9. Income Taxes

During the third quarter of 2008, the Company determined that depletion deductions should be claimed for the Company's kaolin mining activities, which supply its lightweight ceramic proppant operations, and also completed and filed its prior year federal and state income tax returns. The mining depletion adjustment recorded during the quarter relates to amounts claimed on the 2007 tax return filed during the quarter, additional amounts to be claimed through the filing of an amended tax return for 2006 as well as deductions available to the Company for mining activities conducted during the first and second quarters of 2008. As the depletion deductions and other adjustments recognized represent permanent differences, the Company reduced its year to date income tax expense by \$2,078, which represents \$298 of 2008 estimated tax and \$1,780 related to tax return filings for 2007 and 2006.

10. New Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board (the FASB) issued SFAS No. 157, *Fair Value Measurements* (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value and requires enhanced disclosures about fair value measurements. Effective January 1, 2008, the Company adopted SFAS 157. The adoption did not have a material impact on the Company's financial position, results of operations or cash flows.

In February 2007, the FASB issued Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS 159). SFAS 159 provides an option to report selected financial assets and liabilities at fair value and establishes presentation and disclosure requirements. The fair value option established by SFAS 159 permits the Company to elect to measure eligible items at fair value on an instrument-by-instrument basis and then report unrealized gains and losses for those items in the Company's earnings. Effective January 1, 2008, the Company adopted SFAS 159. The Company elected to not account for any other assets or liabilities at fair value and therefore the adoption did not have a material impact on the Company's financial position, results of operations or cash flows.

In April 2008, the FASB issued FSP No. 142-3, *Determination of the Useful Life of Intangible Assets*. FSP No. 142-3 amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under FASB Statement No. 142, *Goodwill and Other Intangible Assets*. FSP No. 142-3 is effective for financial statements issued for fiscal years beginning after December 15, 2008. The Company is currently evaluating FSP No. 142-3 and has not yet determined the impact of adoption.

Table of Contents

In June 2008, the FASB issued FSP No. Emerging Issue Task Force (EITF) 03-6-1, Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities . FSP No. EITF 03-6-1 concluded that unvested share-based payment awards that contain nonforfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and shall be included in the computation of basic earnings per share (EPS) pursuant to the two-class method. This FSP becomes effective on April 1, 2009 and it will apply retrospectively to EPS data for all periods presented in the financial statements or in financial data. The Company does not currently anticipate that adoption will have a material impact on its earnings per share data.

11. Legal Proceedings

The Company is subject to legal proceedings, claims and litigation arising in the ordinary course of business. While the outcome of these matters is currently not determinable, management does not expect that the ultimate cost to resolve these matters will have a material adverse effect on the Company's consolidated financial position, results of operations, or cash flows.

On January 26, 2007, following self-disclosure of certain air pollution emissions, the Company received a Notice of Violation (NOV) from the State of Georgia Environmental Protection Division (EPD) regarding appropriate permitting for emissions of two specific substances from its Toombsboro facility. Pursuant to the NOV, the Company conducted performance testing of these emissions and provided updated results in the course of additional dialogue with the relevant government agencies, including discussions of emissions at the Company's nearby McIntyre, Georgia manufacturing facility. Following these discussions, a second NOV was issued on May 22, 2007 for the McIntyre plant for alleged violations similar to those in the January NOV related to the Toombsboro facility. The Company submitted to the EPD a schedule of responsive activities in mid-June 2007, submitted additional information to the EPD during the second quarter of 2008 and continues to respond to EPD inquiries. The EPD has not yet issued a response regarding required remedial actions or fines, if any, resulting from the NOVs and as such the Company does not at this time have an estimate of costs associated with compliance.

12. Subsequent Events

On October 10, 2008, the Company awarded 15,400 shares of restricted stock to certain employees. The fair value of the stock award on the date of grant totaled \$590, which will be expensed net of estimated forfeitures over the three year vesting period.

As part of the Board of Directors' authorization for the repurchase of up to two million shares of the Company's Common Stock, the Company repurchased an additional 167,400 shares subsequent to September 30, 2008. As of November 5, 2008, the Company repurchased a total of 240,000 shares at an aggregate price of \$11,092.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Business

The Company manufactures ceramic proppant and provides services and software that are used in the hydraulic fracturing of natural gas and oil wells.

On August 28, 2008, the Company entered into a definitive agreement to sell a substantial portion of the assets of its wholly-owned subsidiary, Pinnacle Technologies, Inc. ("Pinnacle") to Halliburton Energy Services, Inc. ("Halliburton"). The sale, which includes all of the fracture and reservoir diagnostic business, the Pinnacle name and related trademarks, was completed on October 10, 2008, for \$143.7 million cash, including \$6.7 million for preliminary working capital adjustments. The final purchase price is subject to post-closing working capital adjustments. The group of assets sold meets the definition of a *component of an entity* as defined by the Financial Accounting Standards Board's SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets (as amended)*. The Company has no continuing involvement in these operations. Consequently, the related operations are reported as discontinued operations and the related assets and liabilities, which are held for sale, are presented as assets and liabilities of discontinued operations in the consolidated balance sheets. The Company retains the hydraulic fracturing simulation software FracProPT, the hydraulic fracturing design, engineering and consulting business and Applied Geomechanics, Inc., a provider of tiltmeter technology for geotechnical applications. Prior to the sale, the Pinnacle assets and operations were reported in the Fracture and Reservoir Diagnostics segment, one of the Company's two reportable segments. Segment information is no longer presented because the remaining businesses, which were previously reported in the Fracture and Reservoir Diagnostics segment, do not meet the criteria for a reportable segment. Also, on August 28, 2008, the Company's Board of Directors authorized the repurchase of up to two million shares of the Company's common stock. As of September 30, 2008, the Company repurchased and retired 72,600 shares at an aggregate price of \$3.5 million.

Critical Accounting Policies

The consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States, which require the Company to make estimates and assumptions (see Note 1 to the consolidated financial statements included in the Company's annual report on Form 10-K for the year ended December 31, 2007). The Company believes that some of its accounting policies involve a higher degree of judgment and complexity than others. Critical accounting policies for the Company include revenue recognition, estimating the recoverability of accounts receivable, inventory valuation, accounting for income taxes, accounting for long-lived assets and accounting for legal contingencies. Critical accounting policies are discussed more fully in the Company's annual report on Form 10-K for the year ended December 31, 2007. During the second quarter of 2008, the Company changed its method of accounting for inventories from the first-in, first-out (FIFO) method to the weighted average cost method. There has been no change in the Company's evaluation of its other critical accounting policies since the preparation of that report.

Results of Operations

Three Months Ended September 30, 2008

Revenues. Revenues of \$102.6 million for the quarter ended September 30, 2008 increased 38% compared to \$74.3 million in revenues for the quarter ended September 30, 2007. Revenues increased primarily due to a 35% increase in proppant sales volume and a 2% increase in the average selling price of proppant sold. Worldwide proppant sales totaled 306 million pounds for the third quarter of 2008 compared to 226 million pounds for the third quarter of 2007. North American sales volume increased 47% due primarily to increased U.S. sales volume driven by sales of CARBOHYDROPROP, a ceramic proppant introduced in early 2008 to be cost competitive with resin-coated sand, and increased demand for most of the Company's other products in key U.S. markets. Sales volume in Canada and Mexico increased 37% and 16%, respectively. These increases were partially offset by the impact of overseas sales which declined 6% compared to last year's third quarter. The average selling price of proppant in the third quarter of 2008 was \$0.324 per pound compared to the third

Table of Contents

quarter 2007 average selling price of \$0.318 per pound.

Gross Profit. Gross profit for the third quarter of 2008 was \$32.1 million, or 31% of revenues, compared to \$25.1 million, or 34% of revenues, for the third quarter of 2007. Gross profit for the third quarter of 2008 increased by 28% compared to last year's third quarter as a result of increased revenues. Despite the revenue and gross profit growth, gross profit as a percentage of revenues declined primarily due to increased sales of lower-margin CARBOHYDROPROP™, higher manufacturing costs in the Company's U.S. plants primarily resulting from increases in the cost of natural gas and raw materials consumed in the production of bauxite-based products, and increased freight to transport product to customer locations.

Selling, General and Administrative (SG&A) and Other Operating Expenses. Expenses consisted of \$10.2 million of SG&A expenses and \$1.4 million of other operating expenses for the third quarter of 2008 compared to \$7.6 million of SG&A expenses and \$0.2 million of other operating expenses for the corresponding period in 2007. As a percentage of revenues, SG&A expenses decreased to 9.9% compared to 10.2% for the third quarter of 2007. Increases in SG&A expenses related to marketing, engineering and information technology activities. Other operating expenses of \$1.4 million in the third quarter of 2008 mainly resulted from write-off of a prepayment for the purchase of ceramic proppant from a China proppant manufacturer while other operating expenses of \$0.2 million in the third quarter of 2007 mainly consisted of startup costs for the Company's new manufacturing facility in Russia.

Other Income (Expense). Other income of \$1.6 million for the quarter ended September 30, 2007 declined \$2.0 million to a net expense of \$0.4 million in the same period in 2008 due primarily to exchange rate fluctuations between the local reporting currency and the currency in which certain liabilities of the Company's subsidiary in Russia are denominated.

Income Tax Expense. Income tax expense was \$4.8 million, or 23.8% of pretax income, for the third quarter of 2008 compared to \$6.1 million, or 32.3% of pretax income, for the same period last year. During the third quarter of 2008, the Company determined that depletion deductions should be claimed for the Company's kaolin mining activities, which supply its lightweight ceramic proppant operations, and also completed and filed its prior year federal and state income tax returns. The mining depletion adjustment recorded during the quarter relates to amounts claimed on the 2007 tax return filed during the quarter, additional amounts to be claimed through the filing of an amended tax return for 2006 as well as deductions available to the Company for mining activities conducted during the first and second quarters of 2008. As the depletion deductions and other adjustments recognized represent permanent differences, the Company reduced its year to date income tax expense by \$2.1 million, which represents \$0.3 million of 2008 estimated tax and \$1.8 million related to tax return filings for 2007 and 2006.

Income from Discontinued Operations, Net of Income Taxes. Income from discontinued operations of \$3.1 million increased 157% compared to \$1.2 million for the same period last year. The \$1.9 million increase is mainly attributed to a \$4.2 million increase in gross profit offset by increases in selling, general, and administrative expenses and income taxes of \$1.1 million and \$1.2 million, respectively. The increase in gross profit was attributed to an increase of \$6.8 million in sales offset by an increase in cost of sales of \$2.6 million.

Nine Months Ended September 30, 2008

Revenues. Revenues of \$282.2 million for the nine months ended September 30, 2008 exceeded revenues of \$219.0 million for the same period in 2007 by 29%. Revenues increased primarily due to a 31% increase in sales volume partially offset by a 3% decrease in the average selling price. Worldwide proppant sales totaled 869 million pounds in the first nine months of 2008 compared to 661 million pounds for the same period in 2007. North American sales volume increased 35% over last year, driven by the continued strength in the U.S. market resulting from the introduction of CARBOHYDROPROP™ in early 2008 as well as increased demand for most of the Company's other products. Overseas sales volume increased 18% led by an increase in Russia, which is due to the start-up of a manufacturing plant in that market during the second quarter of 2007. The average selling price per pound of ceramic proppant in the first nine months of 2008 was \$0.313 versus \$0.322 for the same period last year. The lower average selling price was due to increased sales of CARBOHYDROPROP™, increased sales in Russia where the average selling price is lower than North America and a change in the mix of other products sold.

Table of Contents

Gross Profit. Gross profit for the nine months ended September 30, 2008 was \$85.6 million, or 30% of revenues, compared to \$76.4 million, or 35% of revenues, for the same period in 2007. The increase in gross profit was the result of increased revenues. Despite the revenue and gross profit growth, gross profit as a percentage of revenues declined primarily as a result of lower-margin sales in Russia, increased sales of lower-margin CARBOHYDROPROP, higher manufacturing costs in the Company's U.S. plants primarily resulting from increases in the cost of natural gas and raw materials, and increased freight to transport product to customer locations.

Selling, General and Administrative (SG&A) and Other Operating Expenses. Expenses consisted of \$27.5 million of SG&A expenses and \$1.8 million of other operating expenses for the nine months ended September 30, 2008 compared to \$21.5 million and \$1.2 million, respectively, for the nine months ended September 30, 2007. As a percentage of revenues, SG&A expenses were 9.7% in 2008 compared to 9.8% in 2007. SG&A expenses increased primarily because of global marketing activity and administrative expenses supporting revenue growth. Other operating expenses of \$1.8 million for the nine months ended September 30, 2008 consisted of a \$1.4 million write-off of a 2005 prepayment for the purchase of ceramic proppant from a Chinese proppant manufacturer, \$0.2 million relating to start-up costs for the second production line at the Company's Toomsboro, Georgia facility, and a \$0.2 million loss related to equipment disposals. Other operating expenses of \$1.2 million for the nine months ended September 30, 2007 consisted primarily of start-up costs associated with the Company's new manufacturing facility in Russia.

Other Income (Expense). Other income of \$1.3 million for the nine months ended September 30, 2008 declined \$1.4 million from \$2.7 million in the same period in 2007 due primarily to exchange rate fluctuations between the local reporting currency and the currency in which certain liabilities of the Company's subsidiary in Russia are denominated.

Income Tax Expense. Income tax expense was \$17.6 million, or 30.7% of pretax income, for the nine months ended September 30, 2008 compared to \$18.7 million, or 33.2% of pretax income for the same period last year. The decrease in the effective tax rate is due to the final preparation and filing of the Company's tax returns and additional tax benefits associated with the depletion of ore minerals owned by the Company. The 2007 effective tax rate also included a reduction of deferred state taxes resulting from tax law changes in certain states.

Income from Discontinued Operations, Net of Income Taxes. Income from discontinued operations of \$6.2 million increased 146% compared to \$2.5 million for the same period last year. The growth of \$3.7 million is mainly attributed to an \$8.1 million increase in gross profit offset by increases in selling, general, and administrative expenses and income taxes of \$2.1 million and \$2.3 million, respectively. The increase in gross profit was attributed to an increase of \$14.9 million in sales offset by an increase in cost of sales of \$6.8 million.

Liquidity and Capital Resources

At September 30, 2008, the Company had cash and cash equivalents of \$31.9 million compared to cash and cash equivalents of \$12.3 million at December 31, 2007. For the nine months ended September 30, 2008, the Company generated \$45.2 million in cash from operating activities of continuing operations, received \$2.3 million in net proceeds from employee exercises of stock options and retained \$0.4 million in cash from excess tax benefits relating to stock based compensation to employees. Use of cash included \$12.4 million of capital spending, \$1.0 million to acquire a 6% ownership in another company, \$3.6 million to repurchase and retire shares of the Company's Common Stock, \$11.1 million of cash dividends and \$0.2 million from activities of discontinued operations. In addition, during the nine months ended September 30, 2008, the Company borrowed and fully-repaid a total of \$6.5 million on its credit facility.

The Company believes its 2008 results will continue to be influenced by the level of natural gas drilling in North America. The lack of credit availability and a slowing global economy raise concerns about the level of drilling activity for the remainder of 2008 and 2009. However, the Company believes that any downturn in drilling will be relatively short due to the steep decline curves in reservoirs currently producing the bulk of U.S. natural gas.

Table of Contents

The Company believes the introduction of its new *CARBOHYDROPROP* product has helped penetrate the market for sand-based proppant resulting in growth in North America. As a result, the Company has nearly reached full capacity utilization at its U.S.-based manufacturing facilities and expects to invest additional capital to expand production capacity. The Company recently announced plans to construct a third production line at its Toombsboro, Georgia manufacturing facility that is expected to add 250 million pounds of capacity in the first half of 2010 at a total cost of approximately \$70 million. Until construction of additional capacity is completed, North American sales volumes may be limited by production capacities.

On August 28, 2008, in connection with the announcement to sell certain assets of Pinnacle, the Company's Board of Directors authorized the repurchase of up to two million shares of its Common Stock. As of September 30, 2008, the Company repurchased 72,600 shares at an aggregate price of \$3.5 million.

Subject to its financial condition, the amount of funds generated from operations and the level of capital expenditures, the Company's current intention is to continue to pay quarterly dividends to holders of its Common Stock. On October 14, 2008, the Company's Board of Directors approved the payment of a quarterly cash dividend of \$0.17 per share to shareholders of the Company's Common Stock on October 31, 2008. The Company estimates its total capital expenditures for the fourth quarter of 2008 will be between \$10 million and \$15 million.

The Company maintains an unsecured line of credit of \$10.0 million. As of September 30, 2008, there was no outstanding debt under the credit agreement.

On October 10, 2008, the Company completed the sale of a substantial portion of the assets of Pinnacle for \$143.7 million in cash, including estimated working capital adjustments that are subject to post-closing adjustment. The Company anticipates that cash collected from the sale of Pinnacle's assets, cash on hand, cash provided by ongoing operating activities and funds available under its line of credit will be sufficient to meet planned operating expenses, tax obligations and capital expenditures for the next 12 months. The Company also believes that it could acquire additional debt financing, if needed.

Off-Balance Sheet Arrangements

The Company had no off-balance sheet arrangements as of September 30, 2008.

Forward-Looking Information

The statements in this Form 10-Q that are not historical statements, including statements regarding our future financial and operating performance and liquidity and capital resources, are forward-looking statements within the meaning of the federal securities laws. All forward-looking statements are based on management's current expectations and estimates, which involve risks and uncertainties that could cause actual results to differ materially from those expressed in the forward-looking statements. Among these factors are:

- changes in overall economic conditions,

- changes in the cost of raw materials and natural gas used in manufacturing our products,

- changes in demand for our products,

- changes in the demand for, or price of, oil and natural gas,

- risks of increased competition,

- technological, manufacturing and product development risks,

- loss of key customers,

- changes in foreign and domestic government regulations,

- changes in foreign and domestic political and legislative risks,

the risks of war and international and domestic terrorism,

risks associated with foreign operations and foreign currency exchange rates and controls, and

weather-related risks and other risks and uncertainties.

Additional factors that could affect our future results or events are described from time to time in our reports filed with the Securities and Exchange Commission (the SEC). See in particular our Form 10-K for the fiscal year ended December 31, 2007 under the caption Risk Factors and similar disclosures in subsequently filed reports with the SEC. We assume no obligation to update forward-looking statements, except as required by law.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company's major market risk exposure is to foreign currency fluctuations that could impact its investments in China and Russia. As of September 30, 2008, the Company's net investment that is subject to foreign currency fluctuations totals \$83.6 million and the Company has recorded cumulative foreign currency translation adjustments of \$2.8 million, net of deferred income taxes. These currency translation adjustments are included in Other Comprehensive Income. Also, the Company's subsidiary in Russia has borrowed funds from another subsidiary of the Company to finance construction of a manufacturing plant in Russia. This indebtedness, while eliminated in consolidation of the financial statements, is subject to exchange rate fluctuations between the local reporting currency and the currency in which the debt is denominated. Currency exchange rate fluctuations associated with this indebtedness result in gains and losses that impact net income. During the third quarter of 2008, this indebtedness was significantly reduced. Amounts outstanding under the loan totaled \$4.6 million as of September 30, 2008. When necessary, the Company may enter into forward foreign exchange contracts to hedge the impact of foreign currency fluctuations. There were no such foreign exchange contracts outstanding at September 30, 2008.

ITEM 4. CONTROLS AND PROCEDURES

(a) Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures are designed to ensure that information required to be disclosed in the reports filed or submitted under the Securities Exchange Act of 1934 (the "Exchange Act") is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in the reports filed under the Exchange Act is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

As of September 30, 2008, management carried out an evaluation, under the supervision and with the participation of the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives. Based upon and as of the date of that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures were effective to ensure that information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms, and to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

(b) Changes in Internal Control over Financial Reporting

There were no changes in the Company's internal control over financial reporting during the quarter ended September 30, 2008 that materially affected, or are reasonably likely to materially affect, those controls.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table provides information about the Company's repurchases of Common Stock during the quarter ended September 30, 2008:

ISSUER PURCHASES OF EQUITY SECURITIES

Period	Total Number of Shares Purchased	Average Price Paid per Share(1)	Total Number of Shares Purchased as Part of Publicly Announced Plan(2)(3)	Maximum Number of Shares that May Yet be Purchased Under the Plan(4)
07/01/08 to 07/31/08	0	\$	0	0
08/01/08 to 08/31/08	0	\$	0	0
09/01/08 to 09/30/08	72,600	\$48.76	72,600	1,927,400
Total	72,600		72,600	1,927,400

(1) Average price paid excludes commissions.

(2) On August 28, 2008, the Company announced the authorization by its Board of Directors for the repurchase of up to two million shares of its Common Stock.

(3) Repurchases were made under a Written Plan for the Repurchase of

Securities with an agent that complies with the requirements of Rule 10b5-1 of the Securities Exchange Act (the 10b5-1 Agreement). The agent repurchased a number of shares of our common stock determined under the terms of the 10b5-1 Agreement each trading day based on the trading price of the stock on that day. Shares were repurchased by the agent at the prevailing market prices, in open market transactions which complied with Rule 10b-18 of the Exchange Act.

- (4) Represents maximum number of shares that may be repurchased under the previously announced authorization as of September 30, 2008. As of November 5, 2008, a maximum of

1,760,000
shares may be
repurchased
under the
previously
announced
authorization.

ITEM 5. OTHER INFORMATION

Amendment of Director Deferred Fee Plan

On October 31, 2008, the Company's Director Deferred Fee Plan (the "Plan") was amended. The amendment modifies the Plan to state that upon any termination of the Plan, Plan benefits will be paid in accordance with the payment terms that would otherwise be applicable had the termination not occurred. The Company adopted the amendment in order to comply with the provisions of Section 409A of the Internal Revenue Code of 1986, as amended, and associated regulations (collectively, "Section 409A"). The foregoing summary does not

Table of Contents

purport to be complete and is qualified in its entirety by reference to the amendment, which is included as Exhibit 10.1 hereto.

Amendment to Kolstad Employment Agreement

On October 31, 2008, the Company entered into an Amended and Restated Employment Agreement (the "Amended Agreement") with Gary Kolstad, the Company's President and Chief Executive Officer. Under the Amended Agreement, the timing of the payment of severance obligations to Mr. Kolstad in the event of the termination of his employment under certain circumstances has been conformed so that a portion of such obligations will be payable in a lump sum, with the remainder of the obligations to be paid over an 18 month period. In addition, the Amended Agreement provides the Company with the right to receive notice and an opportunity to cure any event that could be asserted as Good Reason for resignation after a Change in Control (both as defined in the Amended Agreement). The Company entered into the Amended Agreement with Mr. Kolstad in order to comply with the provisions of Section 409A. The foregoing summary does not purport to be complete and is qualified in its entirety by reference to the Amended Agreement, which is included as Exhibit 10.2 hereto.

Second Amended and Restated Bylaws

The Company adopted Second Amended and Restated Bylaws effective as of October 31, 2008 (the "Amended Bylaws"). The Amended Bylaws add provisions that require the Company to receive advance notice of any item of business that is to be brought before an annual or special meeting of the shareholders of the Company. Further, the Amended Bylaws specify certain procedural conditions that must be satisfied in order for shareholders to take action by written consent. Finally, the Amended Bylaws state the size of the Board of the Directors (the "Board") will be specified by resolution of the Board from time to time, as opposed fixed in the Company's bylaws. The foregoing summary does not purport to be complete and is qualified in its entirety by reference to the Amended Bylaws, which are included as Exhibit 3.1 hereto.

ITEM 6. EXHIBITS

The following exhibits are filed as part of, or incorporated by reference into, this Quarterly Report on Form 10-Q:

3.1 Second Amended and Restated Bylaws of CARBO Ceramics Inc.

10.1 Amendment No. 1 to CARBO Ceramics Inc. Director Deferred Fee Plan.

10.2 Amended and Restated Employment Agreement, dated as of October 31, 2008, between CARBO Ceramics Inc. and Gary Kolstad.

10.3 Proppant Supply Agreement, dated August 28, 2008, by and between CARBO Ceramics Inc. and Halliburton Energy Services, Inc. (Confidential treatment has been requested for certain confidential portions of this exhibit pursuant to Rule 24b-2 under the Securities Exchange Act of 1934. In accordance with Rule 24b-2, these confidential portions have been omitted from this exhibit and filed separately with the Securities and Exchange Commission).

31.1 Rule 13a-14(a)/15d-14(a) Certification by Gary A. Kolstad.

31.2 Rule 13a-14(a)/15d-14(a) Certification by Paul G. Vitek.

32 Certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
