PRG-SCHULTZ INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2007 and 2006
(Unaudited)

Note A Basis of Presentation

The accompanying Condensed Consolidated Financial Statements (Unaudited) of PRG-Schultz International, Inc. and its wholly owned subsidiaries (the Company) have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions for Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three-month and nine-month periods ended September 30, 2007 are not necessarily indicative of the results that may be expected for the year ending December 31, 2007.

Disclosures included herein pertain to the Company's continuing operations unless otherwise noted.

For further information, refer to the Consolidated Financial Statements and Footnotes thereto included in the Company's Form 10-K for the year ended December 31, 2006.

Certain reclassifications have been made to the 2006 amounts to conform to the presentation in 2007. These reclassifications include the reclassification of the Company's Meridian VAT reclaim (Meridian) business unit as discontinued operations (see Note B).

During the third quarter of 2007, management re-evaluated its policy related to the amortization of its customer relationships intangible asset. The customer relationships intangible asset was acquired as part of a business combination completed in January 2002. Originally valued at \$27.7 million, the asset has been amortized since the acquisition using the straight-line method over a twenty year expected life. Management's recent re-evaluation concluded that the original twenty year life continues to be a reasonable expectation. However, because of the expectation that revenues and profits from these customers will likely decline in future years, management has concluded that an accelerated method of amortization of the customer relationships intangible asset would be more appropriate. The accelerated method results in amortization of the net unamortized June 30, 2007 balance over the remaining 14.5 year life at a rate that declines at approximately 8% per year. The Company adopted the new method in the third quarter of 2007 and the resulting change in amortization is being accounted for on a prospective basis in accordance with Statement of Financial Accounting Standards (SFAS) No. 142 *Goodwill and Other Intangible Assets* (SFAS No. 142). Amortization expense in the third quarter of 2007 was increased by \$0.3 million as a result of the change in method.

New Accounting Standards

In June 2006, the Financial Accounting Standards Board (FASB) issued Interpretation No. 48 *Accounting for Uncertainty in Income Taxes - an Interpretation of FASB Statement No. 109* (FIN No. 48). The Interpretation prescribes a more-likely-than-not recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The Interpretation also offers guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. The Company adopted FIN No. 48 effective January 1, 2007. In accordance with FIN No. 48, paragraph 19, the Company's policy for recording interest and penalties associated with tax positions is to record such items as a component of income before taxes. As a result of the implementation of FIN No. 48, the Company recognized a \$0.3 million increase in liability for unrecognized tax benefits, which was accounted for as an increase to the January 1, 2007 accumulated deficit balance.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS No. 157). SFAS No. 157 defines fair value, establishes a framework for measuring fair value in accordance with accounting principles generally accepted in the United States, and expands disclosures about fair value measurements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007, with earlier application encouraged. Any amounts recognized upon adoption as a cumulative effect adjustment will be recorded to the opening balance of retained

earnings (deficit) in the year of adoption. The Company is currently evaluating the impact of adopting SFAS No. 157 on its consolidated financial statements.

Table of Contents**PRG-SCHULTZ INTERNATIONAL, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115* (SFAS No. 159). This standard permits an entity to choose to measure certain financial assets and liabilities at fair value. SFAS No. 159 also revises provisions of SFAS No. 115 that apply to available-for-sale and trading securities. This statement is effective for fiscal years beginning after November 15, 2007. The Company is currently evaluating the effect, if any, that the adoption of this pronouncement will have on its consolidated financial statements.

Note B Discontinued Operations

The following table summarizes the components of earnings (loss) from discontinued operations for the three and nine-month periods ended September 30, 2007 and 2006 (in thousands):

Components of discontinued operations:	Three Months Ended		Nine Months Ended	
	September 30, 2007	2006	September 30, 2007	2006
Revenues	\$	\$ 9,903	\$ 17,386	\$ 31,319
Operating income (loss)	(11)	1,147	713	2,597
Gain on sale or disposal			19,460	245
Income tax expense	(11)	1,147	20,173	2,842
		420	409	954
Earnings (loss) from discontinued operations	\$ (11)	\$ 727	\$ 19,764	\$ 1,888

On May 30, 2007, the Company sold its Meridian VAT reclaim business (Meridian) to Averio Holdings Limited, a Dublin, Ireland based company affiliated with management of Meridian (Averio). The Company received proceeds from the sale of EUR 16.8 million (approximately \$22.4 million). Averio is also required to pay the Company, as additional purchase price consideration, EUR 1.5 million (approximately \$2.0 million) on each of December 31, 2007, 2008 and 2009. However, the additional payments owed on December 31, 2008 and 2009 are subject to certain place of supply legislation remaining in effect in the European Union without amendment prior to the relevant payment date. All U.S. dollar equivalents provided herein are based on May 30, 2007 exchange rates and, as a result, the actual U.S. dollar value of future payments to be made by Averio could vary.

Meridian had previously been reported as a separate reportable operating segment. Meridian's operating results for all periods presented have been reclassified and are included in discontinued operations. The Company recognized a second quarter 2007 gain on sale of approximately \$19.5 million as a result of the transaction. Such gain excludes the contingent payments due in December 2008 and 2009. Current assets of discontinued operations as of September 30, 2007 include the EUR 1.5 million receivable from Averio due on December 31, 2007. Meridian's December 31, 2006 balance sheet balances have been reclassified as assets and liabilities of discontinued operations. The major classes of each are as follows (in thousands):

	December 31, 2006
Current assets of discontinued operations:	
Cash and cash equivalents	\$ 4,785
Restricted cash	3,299
Receivables	1,218

Prepaid expenses and other current assets		714
Funds held for client obligations		42,304
	\$	52,320
Noncurrent assets of discontinued operations:		
Property and equipment, net	\$	1,593
Other assets		2,528
	\$	4,121
Current liabilities of discontinued operations:		
Accounts payable and accrued expenses	\$	5,717
Accrued payroll and related expenses		3,802
Deferred revenue		3,385
Obligations for client payables		42,304
	\$	55,208

Table of Contents**PRG-SCHULTZ INTERNATIONAL, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

On January 11, 2006, the Company consummated the sale of its Channel Revenue business unit. The Channel Revenue business unit was sold for \$0.4 million in cash to Outsource Recovery, Inc. Outsource Recovery also undertook to pay the Company an amount equal to 12% of gross revenues received by Outsource Recovery during each of the calendar years 2006, 2007, 2008 and 2009 with respect to Channel Revenue. The Company recognized a first quarter 2006 gain on disposal of approximately \$0.3 million. On July 17, 2006, the Company completed the sale of its Airline business unit to a former employee. During the nine-month period ended September 30, 2006, the Company recognized losses of \$0.4 million relating to the sale of the Airline business unit.

During the first quarter of 2006, the Company recognized a gain on the sale of discontinued operations of approximately \$0.3 million related to the receipt of the final portion of the revenue-based royalty from the sale of the Logistics Management Services business in October 2001.

Note C Earnings (Loss) Per Common Share

The following tables set forth the computations of basic and diluted earnings (loss) per common share for the three and nine months ended September 30, 2007 and 2006 (in thousands, except per share data):

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2007	2006	2007	2006
Numerator for basic and diluted earnings (loss) per common share:				
Loss from continuing operations before discontinued operations	\$ (2,980)	\$ (4,961)	\$ (2,681)	\$ (20,061)
Preferred dividends	(151)	(292)	(487)	(662)
Loss for purposes of computing basic and diluted loss per common share from continuing operations	(3,131)	(5,253)	(3,168)	(20,723)
Earnings (loss) from discontinued operations	(11)	727	19,764	1,888
Earnings (loss) for purposes of computing basic and diluted net earnings (loss) per common share	\$ (3,142)	\$ (4,526)	\$ 16,596	\$ 18,835
Denominator:				
Denominator for basic earnings (loss) per common share weighted-average shares outstanding	10,275	6,575	9,247	6,391
Effect of dilutive securities				
Denominator for diluted earnings (loss) per common share	10,275	6,575	9,247	6,391
Basic and diluted earnings (loss) per common share:				
Loss from continuing operations before discontinued operations	\$ (0.31)	\$ (0.80)	\$ (0.34)	\$ (3.24)
Discontinued operations	(0.00)	0.11	2.14	0.29
Net earnings (loss)	\$ (0.31)	\$ (0.69)	\$ 1.80	\$ (2.95)

For the three and nine months ended September 30, 2007, approximately 0.9 million shares subject to outstanding stock options and 2006 MIP awards were excluded from the computation of diluted earnings (loss) per common share (calculated using the treasury stock method), due to their antidilutive effect to earnings (loss) per common share from continuing operations. For the three and nine months ended September 30, 2007, 8.4 million shares and 9.1 million shares, respectively, underlying the senior convertible notes were excluded from the computation of diluted earnings (loss) per common share due to their antidilutive effect to earnings (loss) per common share from continuing operations. For the three and nine months ended September 30, 2007, 2.8 million shares and 3.1 million shares, respectively, underlying the Series A convertible preferred stock were excluded from the computation of diluted earnings (loss) per common share due to their antidilutive effect to earnings (loss) per

Table of Contents

PRG-SCHULTZ INTERNATIONAL, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

common share from continuing operations. For the three and nine months ended September 30, 2006, all shares related to stock-based compensation plans and convertible securities were excluded from the computations of diluted earnings (loss) per common share due to their antidilutive effect.

Note D Stock-Based Compensation

The Company has three stock compensation plans: (1) the Stock Incentive Plan, (2) the HSA Acquisition Stock Option Plan, and (3) the 2006 Management Incentive Plan (collectively, the Plans). The Plans are described in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2006.

During the first quarter of 2007, one executive officer of the Company was granted 20,000 Performance Units under the 2006 Management Incentive Plan (the 2006 MIP). The award had a grant date fair value of \$0.3 million and vests ratably over four years.

On September 12, 2007, options for 17,391 shares of common stock were granted to each of the Company's six non-employee directors. The options have an exercise price of \$12.89 per share, expire seven years after their grant date and become fully vested at the earlier of the date of the Company's 2008 annual meeting of shareholders or June 1, 2008. The awards had an aggregate grant date fair value of \$0.9 million.

On September 19, 2007, options aggregating 511,000 shares were granted to 67 non-executive employees of the Company. The options have an exercise price of \$13.54 per share, expire seven years after their grant date and vest over three years, one-third on each of the first three anniversaries of the grant date. The awards had an aggregate grant date fair value of \$4.6 million.

During the first nine months of 2007, Performance Units outstanding under the 2006 MIP increased by 776,200 as a result of anti-dilution adjustments which occur automatically pursuant to the terms of the 2006 MIP as the Company's convertible securities are converted into common stock. As of September 30, 2007, a total of 1,600,575 Performance Units were outstanding, 1,310,589 of which were vested.

During the third quarter of 2007, options for 9,000 shares were exercised for an aggregate price of less than \$0.1 million.

Selling, general and administrative expenses for the three months ended September 30, 2007 and 2006 include \$6.9 million and \$4.1 million, respectively, related to stock-based compensation charges. Selling, general and administrative expenses for the nine months ended September 30, 2007 and 2006 include \$12.3 million and \$4.8 million, respectively, related to stock-based compensation charges. Stock-based compensation charges for the three and nine months ended September 30, 2006 includes \$1.7 million resulting from the voluntary surrender of an option grant by the Chief Executive Officer of the Company.

At September 30, 2007, there was \$9.4 million of unrecognized stock-based compensation expense related to stock options and 2006 MIP Performance Unit awards which is expected to be recognized over a weighted average period of 1.89 years.

Note E Operating Segments and Related Information

Prior to the second quarter of 2007, the Company had two reportable operating segments, Accounts Payable Services and Meridian. Also, the Company included the unallocated portion of corporate selling, general and administrative expenses not specifically attributable to Accounts Payable Services or Meridian in a category referred to as corporate support.

The Accounts Payable Services segment principally consists of services that entail the review of client accounts payable disbursements to identify and recover overpayments. This operating segment includes accounts payable services provided to retailers and wholesale distributors (the Company's historical client base) and accounts payable and other services provided to various other types of business entities and governmental agencies including the Centers for Medicare and Medicaid Services. The Accounts Payable Services segment conducts business in North America, South America, Europe, Australia and Asia.

Table of Contents**PRG-SCHULTZ INTERNATIONAL, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

On May 30, 2007, the Company sold Meridian which had previously been reported as a separate reportable operating segment. Meridian's operating results for all periods presented have been reclassified and are reported in discontinued operations.

Management evaluates the performance of its Accounts Payable Services operating segment based upon revenues and measures of profit or loss it refers to as EBITDA and Adjusted EBITDA. The corporate support function is also evaluated based upon EBITDA and Adjusted EBITDA. Adjusted EBITDA is earnings from continuing operations before interest, taxes, depreciation and amortization (EBITDA) adjusted for charges associated with the Company's operational restructuring and exit activities, stock-based compensation, intangible asset impairment charges and severance charges viewed by management as individually or collectively significant. During the periods presented, the Company did not have any inter-segment revenues. Segment information for continuing operations for the three and nine months ended September 30, 2007 and 2006 follows (in thousands):

	Accounts Payable Services	Corporate Support	Total
Three Months Ended September 30, 2007			
Revenues	\$ 53,207	\$	\$ 53,207
EBITDA	\$ 14,420	\$ (12,231)	\$ 2,189
Severance and restructuring expenses		1,644	1,644
Stock-based compensation		6,886	6,886
Adjusted EBITDA	\$ 14,420	\$ (3,701)	\$ 10,719
Three Months Ended September 30, 2006			
Revenues	\$ 54,830	\$	\$ 54,830
EBITDA	\$ 11,642	\$ (8,707)	\$ 2,935
Severance and restructuring expenses	153		153
Stock-based compensation		4,101	4,101
Adjusted EBITDA	\$ 11,795	\$ (4,606)	\$ 7,189
Nine Months Ended September 30, 2007			
Revenues	\$ 163,552	\$	\$ 163,552
EBITDA	\$ 42,651	\$ (26,834)	\$ 15,817

Adjusted EBITDA	\$ 32,474	\$ (14,882)	\$ 17,592

Table of Contents**PRG-SCHULTZ INTERNATIONAL, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The following table reconciles loss from continuing operations before discontinued operations to EBITDA and Adjusted EBITDA for each of the three and nine month periods ended September 30, 2007 and 2006 (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2007	2006	2007	2006
Loss from continuing operations before discontinued operations	\$ (2,980)	\$ (4,961)	\$ (2,681)	\$ (20,061)
Income taxes	337	306	1,212	760
Interest, net	3,133	5,278	12,023	12,137
Loss on financial restructuring		(82)		10,047
Depreciation and amortization	1,699	2,394	5,263	7,733
EBITDA	2,189	2,935	15,817	10,616
Severance and restructuring charges	1,644	153	1,644	2,141
Stock-based compensation	6,886	4,101	12,315	4,835
Adjusted EBITDA	\$ 10,719	\$ 7,189	\$ 29,776	\$ 17,592

The composition and presentation of segment information as presented above differs from the composition and presentation of such information as previously reported. Segment information for the three and nine months ended September 30, 2006 has been reclassified to conform to the 2007 presentation. Virtually all assets of the Company as of September 30, 2007 and December 31, 2006 are allocable to the Accounts Payable Services segment except for those identified in the Condensed Consolidated Balance Sheets as those of discontinued operations.

Note F Comprehensive Income

The Company applies the provisions of SFAS No. 130, *Reporting Comprehensive Income*. This Statement establishes items that are required to be recognized under accounting standards as components of comprehensive income. SFAS No. 130 requires, among other things, that an enterprise report a total for comprehensive income in condensed financial statements of interim periods issued to shareholders. For the three-month periods ended September 30, 2007 and 2006, the Company's consolidated comprehensive loss was \$(1.9) million and \$(4.3) million, respectively. For the nine-month periods ended September 30, 2007 and 2006, the Company's consolidated comprehensive income (loss) was \$19.6 million and \$(17.5) million, respectively. The difference between consolidated comprehensive income (loss), as disclosed here, and traditionally determined consolidated net earnings, as set forth on the accompanying Condensed Consolidated Statements of Operations (Unaudited), results from foreign currency translation adjustments.

Note G Cash Equivalents

Cash and cash equivalents include all cash balances and highly liquid investments with an initial maturity of three months or less. The Company places its temporary cash investments with high credit quality financial institutions. At times, certain investments may be in excess of the Federal Deposit Insurance Corporation insurance limit.

At September 30, 2007 and December 31, 2006, the Company had cash and cash equivalents of \$27.8 million and \$30.2 million, respectively, of which cash equivalents represent approximately \$17.4 million and \$22.2 million, respectively. The Company had \$17.1 million and \$20.5 million in cash equivalents at U.S. banks at September 30, 2007 and December 31, 2006, respectively. At September 30, 2007 and December 31, 2006, certain of the Company's international subsidiaries held \$0.3 million and \$1.7 million, respectively, in temporary investments, the majority of which were at banks in Latin America.

PRG-SCHULTZ INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note H Financial Restructuring**2006 Financial Restructuring**

On March 17, 2006, the Company completed an exchange offer (the Exchange Offer) for its \$125 million of 4.75% Convertible Subordinated Notes due 2006 (the Convertible Subordinated Notes). As a result of the Exchange Offer, substantially all of the outstanding Convertible Subordinated Notes were exchanged for (a) \$51.5 million in principal amount of 11.0% Senior Notes Due 2011, (b) \$59.6 million in principal amount of 10.0% Senior Convertible Notes Due 2011, and (c) 124,094 shares, or \$14.9 million liquidation preference, of 9.0% Series A Convertible Participating Preferred Stock.

The new instruments issued in the exchange were initially recorded at their estimated fair values. Information regarding these estimated fair values is as follows (\$ in 000 s):

	11% Senior Notes	10% Senior Convertible Notes	9% Series A Preferred Stock
Imputed borrowing rates used for valuation	16%	17%	18%
Fair values of cash flows based on imputed rates	\$ 42,795	\$ 42,891	\$ 10,109
Fair values of conversion features		21,993	16,777
Total estimated fair value	42,795	64,884	26,886
Face value of instruments issued	51,455	59,566	14,891
Excess of face value over fair value	\$ 8,660		
Excess of fair value over face value		\$ 5,318	\$ 11,995

The aggregate fair value of the new instruments issued exceeded the book value of the exchanged Convertible Subordinated Notes by approximately \$10 million. Such amount was recognized as a loss on financial restructuring in the first quarter of 2006. The Company incurred \$1.3 million of costs related to the issuance of the new preferred stock. Such amount was charged to additional paid-in capital in the first quarter of 2006. The Company incurred costs of \$5.1 million in connection with the issuance of the new senior notes and senior convertible notes. Such amount was capitalized and was being amortized over the term of the notes.

The excess of the fair value of the preferred stock over its stated liquidation (redemption) value was credited to additional paid-in capital. The excess of the principal balance of the new senior notes over their fair value was recorded as a note discount and was being amortized on the interest method over the term of the notes. The excess of the fair value of the new senior convertible notes over their principal balance was recorded as a note premium and was being amortized on the interest method over the term of the notes.

As a part of its financial restructuring in March 2006, the Company entered into a senior secured credit facility with Ableco LLC (Ableco) and The CIT/Group/Business Credit, Inc. The credit facility included (1) a \$25.0 million term loan, and (2) a revolving credit facility that provided for revolving loan borrowings of up to \$20.0 million. The Company incurred \$2.6 million of costs in connection with entering into the senior secured credit facility. Such amount was capitalized and was being amortized over the term of the indebtedness.

On September 15, 2006, the Company issued \$2.9 million of additional senior convertible notes in lieu of the semiannual cash interest payment. As of December 31, 2006, 37,030 shares of Series A convertible preferred stock had been converted into 1,618,995 shares of common stock.

Table of Contents**PRG-SCHULTZ INTERNATIONAL, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Activity related to the senior notes and senior convertible notes during the year ended December 31, 2006 is summarized as follows (in 000 s):

	11% Senior Notes	10% Senior Convertible Notes
Initial carrying value estimated fair value at date of issuance March 17, 2006	\$ 42,795	\$ 64,884
Fair value of additional notes issued September 15, 2006 as paid-in-kind interest payment (Face value of \$2,945)		3,869
Amortization of discount (premium)	1,001	(723)
Carrying value December 31, 2006	\$ 43,796	\$ 68,030

Activity related to the Series A preferred stock during the year ended December 31, 2006 is summarized as follows (in 000 s):

	9% Series A Preferred Stock
Initial carrying value liquidation value at date of issuance March 17, 2006	\$ 14,891
Liquidation value of preferred shares converted to common shares	(4,587)
Accumulated dividends (accrual basis)	895
Liquidation value December 31, 2006 (accrual basis)	\$ 11,199

2007 Conversions, Repayments, Redemptions and New Credit Facility

During the first quarter of 2007, 19,249 shares of Series A preferred stock and \$0.6 million in principal amount of senior convertible notes were converted into 945,028 shares of common stock. During the second quarter of 2007, 6,413 shares of Series A preferred stock and \$5.9 million in principal amount of senior convertible notes were converted into 1,199,089 shares of common stock. During the first quarter of 2007, the Company repaid \$9.6 million of the \$25 million term loan. During the second quarter of 2007, the Company repaid the remaining \$15.4 million balance of the term loan with a portion of the proceeds of the Meridian sale. Upon the full satisfaction of the term loan, the Company wrote-off \$1.1 million of unamortized deferred loan costs associated with the term loan.

In September 2007, the Company initiated the redemption of all of the then outstanding 11% senior notes, 10% senior convertible notes and 9% Series A convertible preferred stock. In September 2007, the Company also entered into an amended and restated credit facility with Ableco consisting of a \$20 million revolving credit facility, a \$45 million term loan (funded in October 2007) and a delayed funding facility to fund the redemption of any convertible securities that did not convert to common stock prior to their redemption dates. At September 30, 2007, there were no borrowings outstanding under the revolving credit facility.

During the third quarter of 2007, 14,056 shares of Series A preferred stock and \$29.8 million in principal amount of senior convertible notes were converted into 5,263,714 shares of common stock. In October 2007, 47,026 shares of

Series A preferred stock and \$26.1 million in principal amount of senior convertible notes were converted into 6,284,489 shares of common stock. In October 2007, the \$51.5 million of 11% senior notes were fully redeemed, along with a \$0.3 million interest payment and \$1.0 million prepayment premium. The redemption was funded with a portion of the Company's unrestricted funds and the proceeds of the Ableco \$45 million term loan. The Ableco delayed funding facility was not used, and therefore terminated, since the remaining outstanding 10% senior convertible notes and 9% Series A convertible preferred stock, after conversions by holders prior to the redemption dates, totaled less than \$0.2 million and were redeemed with available unrestricted funds.

Following the completion of the conversions and redemptions, the Company had approximately 21.5 million shares of common stock outstanding, a \$45 million term loan, cash and cash equivalents exceeding \$20 million and no borrowings outstanding under the revolving credit facility.

Table of Contents**PRG-SCHULTZ INTERNATIONAL, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The principal portion of the \$45 million term loan with Ableco must be repaid in quarterly installments of \$1.25 million each commencing in April 2008 with the then remaining balance being due in September 2011. Interest accrues at the Company's option at either prime plus 1.75% or at LIBOR plus 4.5% and is payable monthly. Interest on outstanding balances under the revolving credit facility, if any, will accrue at the Company's option at either prime or at LIBOR plus 2%. The Company must also pay a commitment fee of 0.5% per annum, payable monthly, on the unused portion of the \$20 million revolving credit facility.

The Company incurred approximately \$3 million of costs in connection with the amended and restated Ableco credit facility. Such amount has been capitalized and will be amortized over the life of the facility. The face amount of the 11% senior notes redeemed exceeded their carrying amount net of discount and deferred loan costs by \$8.4 million. Such amount, along with the \$1.0 million prepayment premium, \$9.4 million in total, is expected to be reported as a loss on debt extinguishment in the fourth quarter of 2007.

Activity related to the senior notes and senior convertible notes during the nine months ended September 30, 2007 and subsequent thereto is summarized as follows (in 000's):

	11% Senior Notes	10% Senior Convertible Notes
Carrying value December 31, 2006	\$ 43,796	\$ 68,030
Carrying value of notes converted into common stock prior to September 30, 2007 (Face value of \$36,239)		(38,961)
Amortization of discount (premium)	1,016	(853)
Carrying value September 30, 2007	\$ 44,812	\$ 28,216
Carrying value of notes converted into common stock subsequent to September 30, 2007 (Face value of \$26,121)		(28,054)
Carrying value of notes redeemed in October 2007	(44,812)	(162)
Balance	\$	\$

Activity related to the Series A preferred stock during the nine months ended September 30, 2007 and subsequent thereto is summarized as follows (in 000's):

	9% Series A Preferred Stock

Table of Contents**PRG-SCHULTZ INTERNATIONAL, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Note I Commitments and Contingencies*****Legal Proceedings***

On April 1, 2003, Fleming Companies, one of the Company's larger U.S. Accounts Payable Services clients at the time, filed for Chapter 11 bankruptcy reorganization. During the quarter ended March 31, 2003, the Company received approximately \$5.6 million in payments on account from Fleming. On January 24, 2005, the Company received a demand from the Fleming Post Confirmation Trust (PCT), a trust which was created pursuant to Fleming's Chapter 11 reorganization plan to represent the client, for preference payments received by the Company. The demand stated that the PCT's calculation of the preferential payments was approximately \$2.9 million. The Company disputed the claim. Later in 2005, the PCT filed suit against the Company seeking to recover approximately \$5.6 million in payments that were made to the Company by Fleming during the 90 days preceding Fleming's bankruptcy filing, and that are alleged to be avoidable either as preferences or fraudulent transfers under the Bankruptcy Code. The Company believes that it has valid defenses to certain of the PCT's claims in the proceeding. In December 2005, the PCT offered to settle the case for \$2 million. The Company countered with an offer to waive its bankruptcy claim and to pay the PCT \$250,000. The PCT rejected the Company's settlement offer, and although the parties have agreed to settlement mediation, the litigation is ongoing.

In the normal course of business, the Company is involved in and subject to other claims, contractual disputes and other uncertainties. Management, after reviewing with legal counsel all of these actions and proceedings, believes that the aggregate losses, if any, will not have a material adverse effect on the Company's financial position or results of operations.

Retirement Obligations

The July 31, 2005 retirements of the Company's former Chairman, President and CEO, John M. Cook, and the Company's former Vice Chairman, John M. Toma, resulted in an obligation to pay retirement benefits of approximately \$7.0 million to be paid in monthly cash installments principally over a three-year period, beginning February 1, 2006. On March 16, 2006, the terms of the applicable severance agreements were amended in conjunction with the Company's financial restructuring. Pursuant to the terms of the severance agreements, as amended (1) the Company's obligations to pay monthly cash installments to Mr. Cook and Mr. Toma were extended from 36 months to 58 months and from 24 months to 46 months, respectively; however, the total dollar amount of monthly cash payments to be made to each remained unchanged, and (2) the Company agreed to pay a fixed sum of \$150,000 to CT Investments, LLC, to defray the fees and expenses of the legal counsel and financial advisors to Messrs. Cook and Toma. The original severance agreements, and the severance agreements, as amended, also provide for an annual reimbursement, beginning on or about February 1, 2007, to Mr. Cook and Mr. Toma for the cost of health insurance for themselves and their respective spouses (not to exceed \$25,000 and \$20,000, respectively, subject to adjustment based on changes in the Consumer Price Index), continuing until each reaches the age of 80. At September 30, 2007, accrued payroll and related expenses and noncurrent compensation obligations include \$1.4 million and \$3.6 million, respectively, related to these obligations.

Operational Restructuring Obligations

On August 19, 2005, the Company announced that it had taken the initial step in implementing an operational restructuring plan, necessitated by the Company's declining revenue trend over the previous two and one-half years. On September 30, 2005, the Company's Board of Directors approved the restructuring plan and authorized implementation of the plan. The operational restructuring plan encompassed exit activities, including reducing the number of clients served, reducing the number of countries in which the Company operates, reducing headcount, and terminating operating leases. Almost all of the savings were realized in the area of selling, general and administrative expenses and only a small percentage of the Company's auditor staff was directly impacted by the reductions.

The Company recognized \$0.2 million and \$2.1 million in operational restructuring expense for the three and nine months ended September 30, 2006, respectively. As of December 31, 2006, the operational restructuring plan as originally contemplated and approved in 2005 had essentially been completed. During August of 2007, the Company sub-leased and exited approximately 25% of its remaining headquarters office space. As a result, the Company

recognized a \$1.6 million lease exit restructuring charge in the third quarter of 2007 in accordance with SFAS No. 146 *Accounting for Costs Associated with Exit or Disposal Activities*. As of September 30, 2007,

Table of Contents

PRG-SCHULTZ INTERNATIONAL, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

accrued payroll and related expenses included \$1.4 million for severance and other costs related to the Company's expense reduction initiatives. Accounts payable and accrued expenses and other long-term liabilities at September 30, 2007 include \$1.0 million and \$3.5 million, respectively, related to operating leases terminated or exited early.

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations*****Introduction***

Prior to the second quarter of 2007, the Company conducted its operations through two reportable operating segments, Accounts Payable Services and Meridian VAT Reclaim. The Company's operating structure also included the unallocated portion of corporate selling, general and administrative expenses not specifically attributable to the operating segments in a category referred to as corporate support.

On May 30, 2007, the Company sold its Meridian VAT reclaim business (Meridian) to Averio Holdings Limited, a Dublin, Ireland based company affiliated with management of Meridian (Averio). Meridian's operating results for all periods presented in the Condensed Consolidated Financial Statements (Unaudited) have been reclassified and are now reported in discontinued operations. Unless stated otherwise, the discussion which follows pertains to the Company's continuing operations.

The Accounts Payable Services segment principally consists of services that entail the review of client accounts payable disbursements to identify and recover overpayments. This operating segment includes accounts payable services provided to retailers and wholesale distributors (the Company's historical client base) and accounts payable and other services provided to various other types of business entities and governmental agencies, including the Centers for Medicare and Medicaid Services. The Accounts Payable Services segment conducts business in North America, South America, Europe, Australia and Asia.

The Company's revenues are based on specific contracts with its clients. Such contracts generally specify: (a) time periods covered by the audit; (b) nature and extent of audit services to be provided by the Company; (c) the client's duties in assisting and cooperating with the Company; and (d) fees payable to the Company, generally expressed as a specified percentage of the amounts recovered by the client resulting from overpayment claims identified. Clients generally recover claims by either taking credits against outstanding payables or future purchases from the involved vendors, or receiving refund checks directly from those vendors. The manner in which a claim is recovered by a client is often dictated by industry practice. In addition, many clients establish client-specific procedural guidelines that the Company must satisfy prior to submitting claims for client approval. For some services provided by the Company, client contracts provide for compensation to the Company in the form of a flat fee, or fee rate per hour, or per unit of usage for the rendering of that service.

The Company generally recognizes revenue on the accrual basis except with respect to certain international Accounts Payable Services units where revenue is recognized on the cash basis in accordance with guidance issued by the Securities and Exchange Commission in Staff Accounting Bulletin (SAB) No. 104, *Revenue Recognition*. Revenue is generally recognized when invoiced. Invoicing typically occurs for a contractually specified percentage of amounts recovered when it has been determined that the client has received economic value (generally through credits taken against existing accounts payable due to the involved vendors or refund checks received from those vendors), and when the following criteria are met: (a) persuasive evidence of an existing contractual arrangement between the Company and the client exists; (b) services have been rendered; (c) the fee billed to the client is fixed or determinable; and (d) collectability is reasonably assured. In certain limited circumstances, the Company will invoice a client prior to meeting all four of these criteria. In those instances, revenue is deferred until all of the criteria are met. Historically, there has been a certain amount of revenue that, even though meeting the requirements of the Company's revenue recognition policy, relates to underlying claims ultimately rejected by the Company's clients' vendors. In that case, the Company's clients may request a refund of such amount. The Company records such refunds as a reduction of revenue. The Company also maintains a refund liability for estimated refunds on previously recognized revenue.

The Company derives a relatively small amount of revenues on a fee-for-service basis where revenue is based upon a flat fee, or fee per hour, or fee per unit of usage. The Company recognizes revenue for these types of services as they are provided and invoiced and when the revenue recognition criteria described above have been satisfied.

On March 29, 2005, the Company announced that the Centers for Medicare & Medicaid Services (CMS), the federal agency that administers the Medicare program, awarded the Company a contract to provide recovery audit services for the State of California's Medicare spending. The three-year contract was effective on March 28, 2005. To fully address the range of payment recovery opportunities, the Company sub-contracted with Concentra Preferred Systems, Inc., a business unit of Concentra Network Services, now Viant, Inc. (Viant), the nation's largest provider of

specialized cost containment services for the healthcare industry, to add Viant's clinical experience to the Company's expertise in recovery audit services.

Table of Contents

The CMS contract was awarded as part of a demonstration program by CMS to recover overpayments through the use of recovery auditing. The Company began to incur capital expenditures and employee compensation costs related to this contract in 2005. Such capital expenditures and employee compensation costs have and will continue to be incurred during 2007 as the Company continues to build this business. During the second quarter of 2007, the Company's CMS contract was amended to include recovery audit services for the State of Arizona's Medicare spending. Revenues from the auditing of Medicare payments made in California made an important contribution to the Company's overall revenues in the three and nine-month periods ended September 30, 2007. Management remains optimistic that the audit of Medicare payments as part of the demonstration program will make an important contribution to future earnings; however, for numerous reasons, including the Company's limited ability to influence the timing of the processing of identified claims by third party claims processors and program limitations imposed by CMS, the Company's revenues from its Medicare audit efforts may vary significantly from period to period.

In late 2006, legislation was passed that mandated that recovery audit of Medicare be extended beyond March 27, 2008, the end of the three-year recovery audit demonstration project under the original authorizing legislation, and that CMS enter into additional contracts with recovery audit contractors to expand recovery auditing of Medicare out to all fifty states by January 1, 2010. On October 19, 2007, CMS issued a Request for Proposal (RFP) which included a deadline for response of no later than November 19, 2007, and a planned initial roll out beginning April 1, 2008. On November 7, 2007, CMS issued an amendment to the RFP which made a number of significant changes to the original RFP, including, among other things, the introduction of a new provision which limits the scope of the Medicare payments to be reviewed by participating recovery audit contractors to those made on or after October 1, 2007. The amendment also extended the deadline for response to the RFP to December 3, 2007. The Company intends to submit a proposal responding to the RFP by the revised December 3, 2007 deadline.

CMS's recovery audit contractor program is designed, among other things, to recover improper payments made to healthcare providers such as hospitals and physicians' practices. These providers, both individually and collectively through provider associations, have sought and will likely continue to seek to end or severely limit this legislatively mandated program. The recovery audit program generally and recovery audit contractors, including the Company, have been and will likely continue to be the subject of complaints by health care providers and their associations, and efforts, including political pressures, to end or limit CMS's recovery audit program are likely to continue for the foreseeable future. These complaints and pressures could lead to additional program changes and limitations or to the discontinuation of CMS's recovery audit program entirely. As an example of the impact of such efforts and pressures, on November 8, 2007, legislation was introduced in Congress proposing a one year halt to CMS's recovery audit program and calling for an assessment of the program by the U.S. Government Accountability Office. Although it is difficult to assess the prospects for the success of any particular legislative or other effort to limit or end the recovery audit program at this time, management believes that opposition efforts are likely to continue as long as the program is successful at recovering meaningful amounts of improper payments made to healthcare providers.

Despite the uncertainties associated with CMS's recovery audit contractor program, including those relating to the efforts to end or severely restrict the program, the 2006 legislation mandating the national expansion of the Medicare recovery auditing program, CMS's RFP process and the recent RFP amendment, and the proposed legislation introduced in Congress on November 8, 2007, management continues to believe that recovery auditing of Medicare spending provides significant opportunities for the Company. The Company continues to strengthen its Medicare recovery audit capabilities in preparation for these opportunities.

Critical Accounting Policies

The Company's significant accounting policies have been fully described in Note 1 of Notes to Consolidated Financial Statements of the Company's Annual Report on Form 10-K for the year ended December 31, 2006. Certain of these accounting policies are considered critical to the portrayal of the Company's financial position and results of operations, as they require the application of significant judgment by management; as a result, they are subject to an inherent degree of uncertainty. These critical accounting policies are identified and discussed in the Management's Discussion and Analysis of Financial Condition and Results of Operations section of the Company's Annual Report on Form 10-K for the year ended December 31, 2006. Management bases its estimates and judgments on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of

which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. On an ongoing basis, management evaluates its estimates and judgments, including those considered critical. The development, selection and evaluation of accounting estimates, including

Table of Contents

those deemed critical, and the associated disclosures in this Form 10-Q have been discussed with the Audit Committee of the Board of Directors.

During the third quarter of 2007, management re-evaluated its policy related to the amortization of its customer relationships intangible asset. The customer relationships intangible asset was acquired as part of a business combination completed in January 2002. Originally valued at \$27.7 million, the asset has been amortized since the acquisition using the straight-line method over a twenty year expected life. Management's recent re-evaluation concluded that the original twenty year life continues to be a reasonable expectation. However, because of the expectation that revenues and profits from these customers will likely decline in future years, management has concluded that an accelerated method of amortization of the customer relationships intangible asset would be more appropriate. The accelerated method results in amortization of the net unamortized June 30, 2007 balance over the remaining 14.5 year life at a rate that declines at approximately 8% per year. The Company adopted the new method in the third quarter of 2007 and the resulting change in amortization is being accounted for on a prospective basis in accordance with Statement of Financial Accounting Standards (SFAS) No. 142 *Goodwill and Other Intangible Assets* (SFAS No. 142). Amortization expense in the third quarter of 2007 was increased by \$0.3 million as a result of the change in method.

Table of Contents***New Accounting Standards***

In June 2006, the Financial Accounting Standards Board (FASB) issued Interpretation No. 48 *Accounting for Uncertainty in Income Taxes – an Interpretation of FASB Statement No. 109* (FIN No. 48). The Interpretation prescribes a more-likely-than-not recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The Interpretation also offers guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. The Company adopted FIN 48 effective January 1, 2007. In accordance with FIN 48, paragraph 19, the Company's policy for recording interest and penalties associated with tax positions is to record such items as a component of income before taxes. As a result of the implementation of FIN 48, the Company recognized a \$0.3 million increase in liability for unrecognized tax benefits, which was accounted for as an increase to the January 1, 2007 accumulated deficit balance.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS No. 157). SFAS No. 157 defines fair value, establishes a framework for measuring fair value in accordance with accounting principles generally accepted in the United States, and expands disclosures about fair value measurements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007, with earlier application encouraged. Any amounts recognized upon adoption as a cumulative effect adjustment will be recorded to the opening balance of retained earnings (deficit) in the year of adoption. The Company is currently evaluating the impact of adopting SFAS No. 157 on its consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities – Including an amendment of FASB Statement No. 115* (SFAS No. 159). This standard permits an entity to choose to measure certain financial assets and liabilities at fair value. SFAS No. 159 also revises provisions of SFAS No. 115 that apply to available-for-sale and trading securities. This statement is effective for fiscal years beginning after November 15, 2007. The Company is currently evaluating the effect, if any, that the adoption of this pronouncement will have on its consolidated financial statements.

Results of Operations

The following table sets forth the percentage of revenues represented by certain items in the Company's Condensed Consolidated Statements of Operations (Unaudited) for the periods indicated:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2007	2006	2007	2006
Revenues	100.0%	100.0%	100.0%	100.0%
Cost of revenues	63.0	68.4	64.6	70.8
Gross margin	37.0	31.6	35.4	29.2
Selling, general and administrative expenses	33.0	30.3	28.0	26.2
Operational restructuring expenses	3.1	0.3	1.0	1.3
Operating income	0.9	1.0	6.4	1.7
Interest expense, net	5.9	9.6	7.3	7.3
Loss (gain) on financial restructuring		(0.1)		6.1
Loss from continuing operations before income taxes and discontinued operations	(5.0)	(8.5)	(0.9)	(11.7)
Income taxes	0.6	0.5	0.7	0.4

Loss from continuing operations before discontinued operations	(5.6)	(9.0)	(1.6)	(12.1)
Earnings (loss) from discontinued operations	(0.0)	1.3	12.1	1.1
Net earnings (loss)	(5.6)%	(7.7)%	10.5%	(11.0)%

Earnings (loss) from discontinued operations for the nine months ended September 30, 2007 includes the gain recognized on the sale of Meridian (11.9% of revenue). See Discontinued Operations below.

Table of Contents**Three and Nine Months Ended September 30, 2007 Compared to the Corresponding Periods of the Prior Year
Accounts Payable Services**

Revenues. Accounts Payable Services revenues for the three and nine months ended September 30, 2007 and 2006 were as follows (in millions):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2007	2006	2007	2006
Domestic Accounts Payable Services revenues	\$ 32.9	\$ 32.5	\$ 102.6	\$ 102.8
International Accounts Payable Services revenues	20.3	22.3	61.0	62.9
Total Accounts Payable Services revenues	\$ 53.2	\$ 54.8	\$ 163.6	\$ 165.7

For the quarter ended September 30, 2007 compared to the quarter ended September 30, 2006, total Accounts Payable Services revenues, including revenues generated from the Company's Medicare recovery audit work, decreased by approximately 2.9%. For the nine months ended September 30, 2007 compared to the nine months ended September 30, 2006, total Accounts Payable Services revenues, including revenues generated from the Company's Medicare recovery audit work, decreased by approximately 1.3%. The year over year trend of declining revenues is consistent with the results from the past several years, though the rate of the year over year decline for the quarter and nine months ended September 30, 2007 is lower than historical trends due in part to the revenues generated during the three and nine months ended September 30, 2007 from the Company's Medicare recovery audit work. In addition, based on the results from the past eight consecutive quarters, management believes that the Company has stemmed the rate of decline in core retail/wholesale accounts payable services revenues from an average annual rate of 12% to 15% to less than 10%, including the impact from the Company's strategy to exit less profitable clients. Improvements by clients in their own internal processes and internal audit capabilities have contributed to the Company's recent historical trend of declining core retail/wholesale accounts payable services revenues. The Company believes that the declining revenue trend in its core retail/wholesale accounts payable services is likely to continue for the foreseeable future, and as a result, the overall trend in revenues from the Accounts Payable Services as a whole is largely dependent on the Company's ability to generate additional revenues from its Medicare audit activities and its new services offerings.

The Company intends to maximize the revenue opportunities with each of its existing clients by identifying and auditing new categories of potential errors. The Company also intends to increase its emphasis on using its technology and professional experience to assist its clients in achieving objectives that do not directly involve recovery of past overpayments. These objectives are related to such things as transaction accuracy and compliance, its expertise in business process outsourcing where it involves vendor and buyer interaction, M&A due diligence analysis, and processing efficiency in the procure-to-pay value chain.

In addition the Company will continue to focus on its business within the health care industry and in particular on its Medicare recovery audit services. As discussed above, in late 2006, legislation was passed that mandated that recovery audit of Medicare be extended beyond March 27, 2008, the end of the three-year recovery audit demonstration project under the original authorizing legislation, and that CMS enter into additional contracts with recovery audit contractors to expand recovery auditing of Medicare out to all fifty states by January 1, 2010. CMS has issued a Request for Proposal in connection with the planned national expansion of the Medicare recovery audit program. For more information regarding the Company's Medicare recovery audit business and opportunities, see Introduction beginning on page 16.

Cost of Revenues (COR). COR consists principally of salary and commissions paid or payable to the Company's auditors based primarily upon the level of overpayment recoveries, and compensation paid to various types of hourly workers and salaried operational managers. Also included in COR are other direct costs incurred by these personnel, including rental of non-headquarters offices, travel and entertainment, telephone, utilities, maintenance and supplies

and clerical assistance. A significant portion of the components comprising COR for the Company's domestic Accounts Payable Services operations are variable and will increase or decrease with increases and decreases in revenues. The Company's international Accounts Payable Services also have a portion of their COR, although less than domestic Accounts Payable Services, that will vary with revenues. The lower variability is due to the predominant use of salaried auditor compensation plans in most emerging-market countries.

Table of Contents

Accounts Payable Services COR for the three and nine months ended September 30, 2007 and 2006 were as follows (in millions):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2007	2006	2007	2006
	Domestic Accounts Payable Services COR	\$ 17.6	\$ 21.3	\$ 58.4
International Accounts Payable Services COR	15.9	16.2	47.2	49.0
Total Accounts Payable Services COR	\$ 33.5	\$ 37.5	\$ 105.6	\$ 117.2

COR as a percentage of revenues decreased to 63.0% for the three months ended September 30, 2007 compared to 68.4% for the same period in 2006. For the nine months ended September 30, 2007, COR decreased to 64.5% compared to 70.7% for the same period in 2006. The improvements resulted in large measure from the Company's ongoing strategy of rationalizing its client base, focusing on its largest, most important clients, and managing expenses effectively.

Selling, General, and Administrative Expenses (SG&A). SG&A expenses include the expenses of sales and marketing activities, information technology services and the corporate data center, human resources, legal, accounting, administration, currency translation, headquarters-related depreciation of property and equipment and amortization of intangibles with finite lives. Due to the relatively fixed nature of the Company's SG&A expenses, these expenses as a percentage of revenues can vary markedly period to period based on fluctuations in revenues.

Accounts Payable Services SG&A for the three and nine months ended September 30, 2007 and 2006 were as follows (in millions):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2007	2006	2007	2006
	Domestic Accounts Payable Services SG&A	\$ 4.5	\$ 5.7	\$ 13.0
International Accounts Payable Services SG&A	2.4	2.2	7.5	7.2
Total Accounts Payable Services SG&A	\$ 6.9	\$ 7.9	\$ 20.5	\$ 23.8

SG&A expenses for the three months ended September 30, 2007 decreased by \$1.0 million for the Company's Accounts Payable Services operations, when compared to the same period of 2006. As a percentage of revenue, SG&A expenses were 13.0% compared to 14.4% for the same period in 2006. This decrease was primarily related to the operational changes and headcount reductions implemented during the fourth quarter of 2006 and the first quarter of 2007. For the nine months ended September 30, 2007 compared to the nine months ended September 30, 2006, SG&A expenses decreased by \$3.3 million and as a percentage of revenue were 12.5% for the nine months ended September 30, 2007 compared to 14.4% for the same period ended September 30, 2006. This decrease was primarily related to the operational changes and headcount reductions implemented during the fourth quarter of 2006 and first quarter of 2007.

Corporate Support

Corporate support represents the portion of corporate SG&A expenses not specifically allocated to Accounts Payable Services or to discontinued operations and totaled the following for the three and nine months ended September 30, 2007 and 2006 (in millions):

Three Months	Nine Months
---------------------	--------------------

	Ended		Ended	
	September 30,		September 30,	
	2007	2006	2007	2006
Corporate Support SG&A	\$ 10.6	\$ 8.7	\$ 25.2	\$ 19.6

For the three months ended September 30, 2007, Corporate Support SG&A expenses increased by \$1.9 million compared to the same period in 2006. This increase was primarily related to approximately \$6.9 million of stock-based compensation expense that was recorded for the three months ended September 30, 2007, compared to approximately \$4.1 million of stock-based compensation expense for the same period in 2006. The \$6.9 million of stock-based compensation expense for the three months ended September 30, 2007 included \$6.5 million resulting from the issuance of additional performance units in accordance with the anti-dilution provisions of the Company's 2006 Management Incentive Program ("2006 MIP") as the Company's 10% senior convertible notes and Series A

Table of Contents

preferred stock converted to common stock throughout the period. Stock-based compensation expense for the comparable period in 2006 included \$1.7 million resulting from the voluntary surrender by the Company's Chief Executive Officer of options previously granted to him. Most of the remainder of the 2006 amount resulted from the initial award of performance units under the 2006 MIP. Excluding the impact of stock-based compensation expense, Corporate Support SG&A expenses decreased by \$1.8 million for the quarter ended September 30, 2007 compared to the same period in 2006. Excluding the impact of the stock-based compensation, as a percentage of revenue, Corporate Support SG&A expenses for the three months ended September 30, 2007 were 7.0% compared to 8.4% for the same period in 2006. The decrease in Corporate Support SG&A expenses was primarily related to the fact that the 2007 amount and percentage reflects the full implementation of the Company's 2005 operational restructuring plan that was still being implemented during the first half of 2006. For the nine months ended September 30, 2007, Corporate Support SG&A expenses increased by \$5.6 million when compared to the same period of 2006. This increase was primarily related to approximately \$12.3 million of stock-based compensation expense that was recorded during the first nine months of 2007 compared to approximately \$4.8 million of stock-based compensation expense for the first nine months of 2006. The \$12.3 million of compensation expense for the nine months ended September 30, 2007 included \$2.8 million of compensation expense that resulted from the vesting of previously granted awards, \$8.6 million that resulted from the addition to outstanding awards under the 2006 MIP as a result of anti-dilution adjustments and \$1.0 million of compensation expense that resulted from the increase in the market value of the Company's common stock. Stock-based compensation expense for the comparable period in 2006 included \$1.7 million resulting from the voluntary surrender by the Company's Chief Executive Officer of options previously granted to him. Most of the remainder of the 2006 amount resulted from the initial award of performance units under the 2006 MIP. Excluding the impact of stock-based compensation expense, Corporate Support SG&A expenses decreased by \$1.9 million for the nine months ended September 30, 2007 compared to the same period in 2006. Excluding the impact of the stock-based compensation, as a percentage of revenue, Corporate Support SG&A expenses for the nine months ended September 30, 2007 were 7.9% compared to 8.9% for the same period in 2006. Again, the decrease in expenses was primarily related to the fact that the 2007 amount and percentage reflect the full implementation of the Company's 2005 operational restructuring plan that was still being implemented during the first half of 2006.

Operational Restructuring Expense

On August 19, 2005, the Company announced that it had taken the initial step in implementing an operational restructuring plan, necessitated by the Company's declining revenue trend over the previous two and one-half years. On September 30, 2005, the Company's Board of Directors approved the restructuring plan and authorized implementation of the plan. The operational restructuring plan encompassed exit activities, including reducing the number of clients served, reducing the number of countries in which the Company operates, reducing headcount, and terminating operating leases. Almost all of the savings were realized in the area of selling, general and administrative expenses and only a small percentage of the Company's auditor staff was directly impacted by the reductions.

The operational restructuring expense for the three and nine months ended September 30, 2007 and 2006 was as follows (in millions):

	Three Months Ended September 30, 2007		Nine Months Ended September 30, 2007	
	2007	2006	2007	2006
Restructuring expense	\$ 1.6	\$ 0.2	\$ 1.6	\$ 2.1

As of December 31, 2006, the operational restructuring plan as originally contemplated and approved in 2005 had essentially been completed. Additionally, during August of 2007, the Company sub-leased and exited approximately 25% of its remaining headquarters office space. The Company recognized a \$1.6 million lease exit restructuring charge in the third quarter of 2007. Management plans to continue to diligently manage costs on an ongoing basis.

Table of Contents**2006 Financial Restructuring**

On October 19, 2005, the Board of Directors of the Company formed a Special Restructuring Committee to oversee the efforts of the Company, with the assistance of its financial advisor, Rothschild, Inc., to restructure the Company's financial obligations, including its obligations under its then existing convertible subordinated notes, and to improve the Company's liquidity. The restructuring was successfully completed on March 17, 2006.

In the 2006 financial restructuring, the Company exchanged \$124.1 million of its existing convertible subordinated notes due November 2006 (and \$1.8 million of accrued interest thereon) for the following securities: \$51.5 million of 11% senior notes, \$59.6 million of 10% senior convertible notes that could be converted into shares of common stock, and 9% Series A convertible preferred stock having an initial liquidation preference of \$14.9 million.

As a part of its 2006 financial restructuring, the Company also entered into a senior secured credit facility with Ableco LLC (Ableco) and The CIT/Group/Business Credit, Inc., a portion of which was syndicated to the Company's prior bridge financing lenders, Petrus Securities L.P. and Parkcentral Global Hub Limited (collectively, the Petrus Entities) and Blum Strategic Partners II GmbH & Co. K.G. and Blum Strategic Partners II, L.P. (collectively, the Blum Entities). An affiliate of the Blum Entities was a member of the Ad Hoc Committee of holders of the Company's convertible subordinated notes due November 2006, with the right to designate one member of the Company's Board of Directors, and together with its affiliates, is the Company's largest shareholder. The credit facility entered into in March 2006 included (1) a \$25.0 million term loan, and (2) a revolving credit facility that provided for revolving loan borrowings of up to \$20 million. No borrowings were ever outstanding under the revolving credit facility.

On September 15, 2006, the Company issued \$2.9 million of additional senior convertible notes in lieu of the semiannual cash interest payment. As of December 31, 2006, 37,030 shares of Series A convertible preferred stock had been converted into 1,618,995 shares of common stock.

2007 Conversions, Loan Repayments, Redemptions and New Credit Facility

During the first quarter of 2007, 19,249 shares of Series A preferred stock and \$0.6 million in principal amount of senior convertible notes were converted into 945,028 shares of common stock. During the second quarter of 2007, 6,413 shares of Series A preferred stock and \$5.9 million in principal amount of senior convertible notes were converted into 1,199,089 shares of common stock. During the first quarter of 2007, the Company repaid \$9.6 million of the \$25 million term loan. During the second quarter of 2007, the Company repaid the remaining \$15.4 million balance of the term loan with a portion of the proceeds of the Meridian sale. Upon the full satisfaction of the term loan, the Company wrote-off \$1.1 million of unamortized deferred loan costs associated with the term loan.

In September 2007, the Company initiated the redemption of all of the then outstanding 11% senior notes, 10% senior convertible notes and 9% Series A convertible preferred stock. In September 2007, the Company also entered into an amended and restated credit facility with Ableco consisting of a \$20 million revolving credit facility, a \$45 million term loan (funded in October 2007) and a delayed funding facility to fund the redemption of any convertible securities that did not convert to common stock prior to their redemption dates. At September 30, 2007, there were no borrowings outstanding under the revolving credit facility.

During the third quarter of 2007, 14,056 shares of Series A preferred stock and \$29.8 million in principal amount of senior convertible notes were converted into 5,263,714 shares of common stock. In October 2007, 47,026 shares of Series A preferred stock and \$26.1 million in principal amount of senior convertible notes were converted into 6,284,489 shares of common stock. In October 2007, the \$51.5 million of 11% senior notes were fully redeemed, along with a \$0.3 million interest payment and \$1.0 million prepayment premium. The redemption was funded with a portion of the Company's unrestricted funds and the proceeds of the Ableco \$45 million term loan. The Ableco delayed funding facility was not used, and therefore terminated, since the remaining outstanding 10% senior convertible notes and 9% Series A convertible preferred stock, after conversions by the holders prior to the redemption dates, totaled less than \$0.2 million and were redeemed with available unrestricted funds.

Following the completion of the conversions and redemptions, the Company had approximately 21.5 million shares of common stock outstanding, a \$45 million term loan, cash and cash equivalents exceeding \$20 million and no borrowings outstanding under the revolving credit facility.

Table of Contents

The principal portion of the \$45 million term loan with Ableco must be repaid in quarterly installments of \$1.25 million each commencing in April 2008 with the then remaining balance being due in September 2011. Interest accrues at the Company's option at either prime plus 1.75% or at LIBOR plus 4.5% and is payable monthly. Interest on outstanding balances under the revolving credit facility, if any, will accrue at the Company's option at either prime or at LIBOR plus 2%. The Company must also pay a commitment fee of 0.5% per annum, payable monthly, on the unused portion of the \$20 million revolving credit facility.

The Company incurred approximately \$3 million of costs in connection with the amended and restated Ableco credit facility. Such amount has been capitalized and will be amortized over the life of the facility. The face amount of the 11% senior notes redeemed exceeded their carrying amount net of discount and deferred loan costs by \$8.4 million. Such amount, along with the \$1.0 million prepayment premium, \$9.4 million in total, is expected to be reported as a loss on debt extinguishment in the fourth quarter of 2007.

Discontinued Operations

On May 30, 2007, the Company sold its Meridian VAT reclaim business (Meridian) to Averio Holdings Limited, a Dublin, Ireland based company affiliated with management of Meridian (Averio). The Company received proceeds from the sale of EUR 16.8 million (approximately \$22.4 million). Averio is also required to pay the Company, as additional purchase price consideration, EUR 1.5 million (approximately \$2.0 million) on each of December 31, 2007, 2008 and 2009. However, the additional payments owed on December 31, 2008 and 2009 are subject to certain place of supply legislation remaining in effect in the European Union without amendment prior to the relevant payment date. All U.S. dollar equivalents provided herein are based on May 30, 2007 exchange rates and, as a result, the actual U.S. dollar value of future payments to be made by Averio could vary.

Meridian had previously been reported as a separate reportable operating segment. Meridian's operating results for all periods presented in the Condensed Consolidated Financial Statements (Unaudited) have been reclassified and are included in discontinued operations. The Company recognized a second quarter 2007 gain on sale of approximately \$19.5 million as a result of the transaction. Such gain excludes the contingent payments due in December 2008 and 2009. Current assets of discontinued operations as of September 30, 2007 include the EUR 1.5 million receivable from Averio due on December 31, 2007. Meridian's December 31, 2006 balance sheet balances have been reclassified as assets and liabilities of discontinued operations.

On January 11, 2006, the Company consummated the sale of its Channel Revenue business unit. The Channel Revenue business unit was sold for \$0.4 million in cash to Outsource Recovery, Inc. Outsource Recovery also undertook to pay the Company an amount equal to 12% of gross revenues received by Outsource Recovery during each of the calendar years 2006, 2007, 2008 and 2009 with respect to Channel Revenue. The Company recognized a first quarter 2006 gain on disposal of approximately \$0.3 million. On July 17, 2006, the Company completed the sale of its Airline business unit to a former employee. During the nine-month period ended September 30, 2006, the Company recognized losses of \$0.4 million relating to the sale of the Airline business unit.

During the first quarter of 2006, the Company recognized a gain on the sale of discontinued operations of approximately \$0.3 million related to the receipt of the final portion of the revenue-based royalty from the sale of the Logistics Management Services business in October 2001.

Operating income (loss) from discontinued operations during 2007 and 2006 relates to the winding down of the operations of business units classified as discontinued in previous periods and the operating results of Meridian through its sale date, May 30, 2007. Management does not anticipate any significant operating income (loss) from discontinued operations in the foreseeable future.

Other Items

Interest Expense. Net interest expense was \$3.1 million and \$5.3 million for the three months ended September 30, 2007 and 2006, respectively. The 2007 third quarter amount decreased compared to the same period in 2006 as a result of the pay off of the term loan and the conversions of senior convertible notes that occurred during 2007.

Net interest expense was \$12.0 million and \$12.1 million for the nine months ended September 30, 2007 and 2006, respectively. Interest expense in both periods primarily related to the debt from the Company's March 2006 financial restructuring described above. The 2007 nine-month period also includes a \$1.1 million write-off of deferred loan costs recorded as a result of the pay off of the term loan. Net interest expense in future periods is expected to decrease

significantly as a result of the conversions and redemptions described above.

Table of Contents

Income Tax Expense. The Company's effective income tax expense rates as indicated in the accompanying Condensed Consolidated Financial Statements (Unaudited) do not reflect amounts that would normally be expected because of the Company's valuation allowance against its deferred tax assets. Reported income tax expense for the three and nine month periods ended September 30, 2007 and 2006 primarily results from taxes on income of foreign subsidiaries.

In June 2006, the Financial Accounting Standards Board (FASB) issued Interpretation No. 48 *Accounting for Uncertainty in Income Taxes – an Interpretation of FASB Statement No. 109* (FIN No. 48). The Interpretation prescribes a more-likely-than-not recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The Interpretation also offers guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. The Company adopted FIN 48 effective January 1, 2007. In accordance with FIN 48, paragraph 19, the Company's policy for recording interest and penalties associated with tax positions is to record such items as a component of income before taxes. As a result of the implementation of FIN 48, the Company recognized a \$0.3 million increase in liability for unrecognized tax benefits, which was accounted for as an increase to the January 1, 2007 balance of accumulated deficit.

Liquidity and Capital Resources

As of September 30, 2007, the Company had cash and cash equivalents of \$27.8 million, and no borrowings under the revolver portion of its senior credit facility. During the first half of 2007, the Company paid-off its \$25 million term loan and as of September 30, 2007, the revolver had approximately \$13.3 million of borrowing availability. In October 2007, the Company completed the redemption of all of the securities issued in its 2006 financial restructuring See 2007 Conversions, Loan Repayments, Redemptions and New Credit Facility above.

Net cash provided by operating activities for the nine months ended September 30, 2007 was \$6.9 million. This primarily resulted from positive cash flow from operations before the impact of changes in working capital. Note that operating income for the nine months ended September 30, 2007 excluding non-cash charges (stock-based compensation, depreciation and amortization) totaled \$28.1 million. The use of approximately \$13.9 million of those funds corresponds to the reduction of current liabilities accrued in 2006. The Company also used excess cash flow funds as defined in their credit facility to pay down the term loan by \$9.6 million in March of 2007.

After transaction costs and settlement of certain inter-company balances, the Company realized approximately \$21.1 million from the sale of Meridian of which \$15.4 million was used to repay the remaining term loan balance. The Company's discontinued operations used approximately \$2.2 million of funds during the first nine months of 2007, virtually all of which related to Meridian. The Company expects that net cash provided by (used in) discontinued operations in future periods to be minimal except for the non-contingent receivable of EUR 1.5 million from the Meridian sale due in December 2007 and possibly the contingent Meridian payments due in 2008 and 2009.

The Company invested approximately \$2.2 million in capital expenditures during the first nine months of 2007, a significant portion of which related to the Company's Medicare recovery audit services.

Net cash provided by operating activities for the nine months ended September 30, 2006 was \$7.1 million which was primarily the result of the Company's net loss being offset by non-cash charges for stock-based compensation, depreciation and amortization, and the non-cash charge related to the 2006 financial restructuring. Net cash used in investing activities for the first nine months of 2006 consisted of capital expenditures of \$0.8 million. The \$0.8 million net cash used in financing activities during the nine months ended September 30, 2006 related to the 2006 financial restructuring described above.

Management believes that the Company will have sufficient borrowing capacity and cash generated from operations to fund its capital and operational needs for at least the next twelve months; however, current projections reflect that the Company's core Accounts Payable Services business will continue to decline. Therefore, the Company must continue to successfully manage its expenses and grow its other business lines in order to stabilize and increase revenues and improve profitability.

Table of Contents***Off Balance Sheet Arrangements***

As of September 30, 2007, the Company did not have any material off-balance sheet arrangements, as defined in Item 303(a)(4)(ii) of the SEC's Regulation S-K.

Executive Severance Payments

The July 31, 2005 retirements of the Company's former Chairman, President and CEO, John M. Cook, and the Company's former Vice Chairman, John M. Toma, resulted in an obligation to pay retirement benefits of \$7.0 million to be paid in monthly cash installments principally over a three-year period, beginning February 1, 2006. On March 16, 2006, the terms of the applicable severance agreements were amended in conjunction with the Company's financial restructuring. Pursuant to the terms of the severance agreements, as amended (1) the Company's obligations to pay monthly cash installments to Mr. Cook and Mr. Toma have been extended from 36 months to 58 months and from 24 months to 46 months, respectively; however, the total dollar amount of monthly cash payments to be made to each remains unchanged, and (2) the Company agreed to pay a fixed sum of \$150,000 to CT Investments, LLC, to defray the fees and expenses of the legal counsel and financial advisors to Messrs. Cook and Toma. The original severance agreements, and the severance agreements, as amended, also provide for an annual reimbursement, beginning on or about February 1, 2007, to Mr. Cook and Mr. Toma for the cost of health insurance for themselves and their respective spouses (not to exceed \$25,000 and \$20,000, respectively, subject to adjustment based on changes in the Consumer Price Index), continuing until each reaches the age of 80. At September 30, 2007, the Company's accrued payroll and related expenses and noncurrent compensation obligations include \$1.4 million and \$3.6 million, respectively, related to these obligations.

Bankruptcy Litigation

On April 1, 2003, Fleming Companies, one of the Company's larger U.S. Accounts Payable Services clients at the time filed for Chapter 11 bankruptcy reorganization. During the quarter ended March 31, 2003, the Company received approximately \$5.6 million in payments on account from Fleming. On January 24, 2005, the Company received a demand from the Fleming Post Confirmation Trust (PCT), a trust which was created pursuant to Fleming's Chapter 11 reorganization plan to represent the client, for preference payments received by the Company. The demand stated that the PCT's calculation of the preferential payments was approximately \$2.9 million. The Company disputed the claim. Later in 2005, the PCT filed suit against the Company seeking to recover approximately \$5.6 million in payments that were made to the Company by Fleming during the 90 days preceding Fleming's bankruptcy filing, and that are alleged to be avoidable either as preferences or fraudulent transfers under the Bankruptcy Code. The Company believes that it has valid defenses to certain of the PCT's claims in the proceeding. In December 2005, the PCT offered to settle the case for \$2 million. The Company countered with an offer to waive its bankruptcy claim and to pay the PCT \$250,000. The PCT rejected the Company's settlement offer, and although the parties have agreed to settlement mediation, the litigation is ongoing.

Limitation on Tax Loss and Credit Carryforwards

On March 17, 2006, as a result of the financial restructuring, the company experienced an ownership change as defined under Section 382 of the Internal Revenue Code (IRC). This ownership change resulted in an annual IRC Section 382 limitation that mathematically limits the use of certain tax attribute carryforwards. Of the \$34.1 million of U.S. federal net loss carryforwards available to the company at year end 2006, \$27.1 million of the loss carryforwards are subject to an annual usage limitation of \$1.4 million. The ownership change that took place in March 2006, resulted in the write-off of approximately \$72.6 million in previously incurred and unexpired federal net operating loss carryforward amounts and the write-off of approximately \$7.4 million in future tax deductions related to certain built-in losses associated with intangible and fixed assets. The following write-offs also took place in 2006 as a result of the ownership change: \$34.1 million in unexpired capital loss carryforwards, \$14.3 million in unexpired foreign tax credit carryforwards, and \$0.2 million in unexpired R&D credit carryforward amounts. Approximately \$191.9 million of previously incurred and unexpired state net operating losses were also written off as a result of this ownership change. The write-off of the tax attributes noted above resulted in a \$62.8 million reduction in the Company's deferred tax assets which was offset by a corresponding reduction in the previously established valuation allowance against these assets.

Table of Contents

Forward Looking Statements

Some of the information in this Form 10-Q contains forward-looking statements which look forward in time and involve substantial risks and uncertainties including, without limitation, (1) statements that contain projections of the Company's future results of operations or of the Company's financial condition, (2) statements regarding the adequacy of the Company's current working capital and other available sources of funds, (3) statements regarding goals and plans for the future, (4) statements regarding the potential impact and outcome of the Company's exploration of strategic alternatives, (5) expectations regarding future accounts payable services revenue trends, (6) the anticipated impact of Medicare recovery audit services on the Company's business, (7) the Company's plans regarding the refinancing of its outstanding indebtedness, and (8) statements regarding the impact of potential regulatory changes. All statements that cannot be assessed until the occurrence of a future event or events should be considered forward-looking. These statements are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and can be identified by the use of forward-looking words such as may, will, expect, anticipate, believe, estimate and continue or similar words. Risks and uncertainties that may potentially impact these forward-looking statements include, without limitation, those set forth under Part I, Item 1A "Risk Factors" in the Company's Annual Report on Form 10-K for the year ended December 31, 2006 and the Company's other filings with the Securities and Exchange Commission.

There may be events in the future, however, that the Company cannot accurately predict or over which the Company has no control. The risks and uncertainties listed in this section, as well as any cautionary language in this Form 10-Q, provide examples of risks, uncertainties and events that may cause our actual results to differ materially from the expectations we describe in our forward-looking statements. You should be aware that the occurrence of any of the events denoted above as risks and uncertainties and elsewhere in this Form 10-Q could have a material adverse effect on our business, financial condition and results of operations.

Table of Contents**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

Foreign Currency Market Risk. Our functional currency is the U.S. dollar although we transact business in various foreign locations and currencies. As a result, our financial results could be significantly affected by factors such as changes in foreign currency exchange rates, or weak economic conditions in the foreign markets in which we provide services. Our operating results are exposed to changes in exchange rates between the U.S. dollar and the currencies of the other countries in which we operate. When the U.S. dollar strengthens against other currencies, the value of nonfunctional currency revenues decreases. When the U.S. dollar weakens, the functional currency amount of revenues increases. Overall, we are a net receiver of currencies other than the U.S. dollar and, as such, benefit from a weaker dollar. We are therefore adversely affected by a stronger dollar relative to major currencies worldwide. Given the number of variables involved in calculating our revenues and expenses derived from currencies other than the U.S. dollar, including multiple currencies and fluctuating transaction volumes, the Company believes that it cannot provide a quantitative analysis of the impact of hypothetical changes in foreign currency exchange rates that would be meaningful to investors.

Interest Rate Risk. Our interest income and expense are sensitive to changes in the general level of U.S. interest rates. In this regard, changes in U.S. interest rates affect the interest earned on our cash equivalents as well as interest paid on our debt. In September 2007, the Company entered into an amended and restated credit facility which included a \$20 million revolving credit facility and a \$45 million term loan which was funded in October 2007. The interest rate on outstanding revolving credit loans is based on a floating rate equal to the reserve adjusted London inter-bank offered rate, (LIBOR), plus 2.0% (or, at our option, a published prime lending rate). At September 30, 2007, there were no borrowings outstanding under the revolving credit facility. However, assuming full utilization of the revolving credit facility, a hypothetical 100 basis point change in interest rates applicable to the revolver would result in an approximate \$0.2 million change in annual pre-tax income. Interest on the \$45 million term loan accrues at the Company's option at either prime plus 1.75% or at LIBOR plus 4.5%. A hypothetical 100 basis point change in interest rates applicable to the term loan would result in an approximate \$0.5 million change in annual pre-tax income.

Derivative Instruments. As a multi-national company, the Company faces risks related to foreign currency fluctuations on its foreign-denominated cash flows, net earnings, new investments and large foreign currency denominated transactions. The Company uses derivative financial instruments from time to time to manage foreign currency risks. The use of financial instruments modifies the exposure of these risks with the intent to reduce the risk to the Company. The Company does not use financial instruments for trading purposes, nor does it use leveraged financial instruments. The Company did not have any derivative financial instruments outstanding as of September 30, 2007.

Stock-Based Compensation. The Company estimates the fair value of awards of restricted shares and nonvested shares, as defined in SFAS 123(R), as being equal to the market value of the common stock. Also, under SFAS 123(R), companies must classify their share-based payments as either liability-classified awards or as equity-classified awards. Liability-classified awards are remeasured to fair value at each balance sheet date until the award is settled. The Company has classified its share-based payments that are settled in cash as liability-classified awards. The liability for liability-classified awards is generally equal to the fair value of the award as of the balance sheet date times the percentage vested at the time. The change in the liability amount from one balance sheet date to another is charged (or credited) to stock-based compensation expense. Based on the number of liability-classified awards outstanding following the October 2007 conversions of senior convertible notes and Series A preferred stock into common stock, a hypothetical \$1.00 change in the market value of the Company's common stock would result in \$0.9 million change in pre-tax income.

Table of Contents

Item 4. Controls and Procedures

The Company's management conducted an evaluation, with the participation of its Chairman, President and Chief Executive Officer (CEO) and its Chief Financial Officer (CFO), of the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the Exchange Act)) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based upon that evaluation, the CEO and CFO concluded that the Company's disclosure controls and procedures were effective in reporting, on a timely basis, information required to be disclosed by the Company in the reports the Company files or submits under the Exchange Act.

Management believes that during the quarter ended September 30, 2007 the Company made progress in remediating the deficiencies reported in the Company's Annual Report on Form 10-K for the year ended December 31, 2006. Those reported deficiencies related to ineffective internal controls over revenue recognition and company level controls. Management will continue its remediation efforts and its evaluation of the effectiveness of its internal controls during the remainder of 2007. Other than as described above, there were no changes in internal control over financial reporting during the quarter ended September 30, 2007 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Table of Contents**PART II. OTHER INFORMATION****Item 1. Legal Proceedings**

See Note I of Notes to Condensed Consolidated Financial Statements (Unaudited) included in Part I. Item 1. of this Form 10-Q which is incorporated by reference.

Item 1A. Risk Factors

Except as set forth below, there have been no material changes in the risks facing the Company as described in the Company's Form 10-K for the year ended December 31, 2006 and its Form 10-Q for the quarter ended June 30, 2007. ***Recovery auditing of Medicare spending is subject to a number of pressures and uncertainties that could impact our future opportunities and revenues from this business.***

As contrasted with recovery auditing for our other retail/wholesale and commercial clients, recovery auditing of Medicare spending is a legislatively mandated program subject, among other things, to the efforts of healthcare providers and provider associations, including political pressures, to end or severely limit the Centers for Medicare and Medicaid Services (CMS) recovery audit program. These efforts and political pressures are expected to be ongoing throughout the life of the CMS recovery audit program and have recently resulted in a number of developments that may have a significant impact on our opportunities associated with the program to audit Medicare spending. In October 2007, a temporary pause was initiated in our review of certain payments made to rehabilitation hospitals. Further, on November 8, 2007, legislation was introduced in Congress proposing a one year halt to CMS's recovery audit program and calling for an assessment of the program by the U.S. Government Accountability Office. Management is unable to fully assess the prospects for the success of the newly proposed legislation. However, as previously noted, the efforts by healthcare providers and provider associations to limit or end the program are expected to be ongoing. If CMS's recovery audit program is further limited or altogether terminated, it could have a material adverse effect on our future revenues, operating results and financial condition.

Our ability to significantly grow our Medicare recovery audit services is largely dependent on the viability and continued success of, and our participation in, the planned expansion of recovery auditing of Medicare spending to all 50 states.

Given the expected continuation of the long term trend of declining revenues from our core accounts payable recovery audit business, stabilization and growth of our revenues and improvement of our profitability are largely dependent on our ability to grow our new services lines, including our Medicare recovery audit services. We have expended substantial resources, beginning in 2005, in preparing for and performing the audit of Medicare spending under the California demonstration project, including capital expenditures and employee compensation costs related to this opportunity, under which we were awarded a contract in 2005.

In late 2006, legislation was enacted that mandated that recovery audit of Medicare be extended beyond the original March 2008 termination date and that CMS enter into additional contracts with recovery audit contractors to expand recovery auditing of Medicare spending to all 50 states by January 1, 2010. While it is difficult to assess the impact of this legislation, management believes it provides additional opportunities to expand the Company's Medicare recovery audit services, and the Company is working to strengthen its capabilities for auditing Medicare spending in preparation for these opportunities, including additional capital expenditures and costs for the remainder of 2007 and the foreseeable future; however, the expansion of the Company's Medicare recovery audit services is subject to numerous risks and variables, including the timing and the scope of the rollout of the national expansion by CMS and changes in the political, legislative and regulatory environment. For example, on November 7, 2007, CMS significantly modified the request for proposal (RFP) issued in connection with the national rollout. The RFP was revised to, among other things, introduce a provision which limits the scope of the Medicare payments to be reviewed by participating recovery audit contractors to those made on or after October 1, 2007. We can provide no assurance that the national expansion of recovery auditing of Medicare spending will occur in any given manner or timeframe, including the manner and timeframes set forth in the legislation enacted in 2006 or that we will be afforded any new opportunities that result from any such expansion. If we are unsuccessful in obtaining an award of a portion of this new

Table of Contents

opportunity arising from the national rollout of Medicare recovery auditing, if the planned rollout is modified further by CMS or altogether terminated, or if our Medicare recovery audit services are not expanded as currently expected, it could have a material adverse effect on the future prospects for our business and our future financial condition and operating results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The Company's senior credit facility entered into on March 17, 2006 and amended on September 17, 2007 prohibits the payment of any cash dividends on the Company's capital stock.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Submission of Matters to a Vote of Security Holders

None.

Item 5. Other Information

On November 12, 2007, Eugene I. Davis resigned from the Board of Directors of PRG-Schultz International, Inc. (the Company). In recognition of Mr. Davis' service, contributions and accomplishments as a director of the Company, the Company accelerated the vesting of Mr. Davis' options to purchase 17,391 and 29,000 shares of common stock granted on September 12, 2007 and September 21, 2006, respectively. The options are now fully exercisable and will remain exercisable through November 12, 2010 in accordance with the terms of the option agreements. In addition, the Company agreed to pay Mr. Davis a lump sum cash payment of \$129,167.
