SIMTEK CORPORATION

NOTES TO FINANCIAL STATEMENTS

1. SIGNIFICANT ACCOUNTING POLICIES:

The financial statements included herein are presented in accordance with the requirements of Form 10-QSB and consequently do not include all of the disclosures normally made in the registrant's annual Form 10-KSB filing. These financial statements should be read in conjunction with the financial statements and notes thereto included in Simtek Corporation's Annual Report and Form 10-KSB filed on March 23, 2001 for fiscal year 2000.

In the opinion of management, the unaudited financial statements reflect all adjustments of a normal recurring nature necessary to present a fair statement of the results of operations for the respective interim periods. The year-end balance sheet data was derived from audited financial statements, but does not include all disclosures required by generally accepted accounting principles. Results of operations for the interim periods are not necessarily indicative of the results of operations for the full fiscal year.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS - On June 30, 2001, the FASB approved the issuance of SFAS No. 141, Business Combinations and SFAS No. 142, Goodwill and other Intangible Assets. SFAS 141 states that all business combinations should be accounted for using the purchase method of accounting; use of pooling-of-interest method is prohibited. Accounting for the excess of the fair value of net assets of cost (negative goodwill), will be allocated to certain assets first with any remaining excess recognized as an extraordinary gain. SFAS No. 141 is effective for business combination completed after June 30,

Edgar Filing: SIMTEK CORP - Form 10QSB

2001. Adoption of SFAS No. 141 is not expected to have a material impact on the accounting for business acquisitions prior to July 1, 2001. SFAS No. 142 addresses the accounting for all purchased intangible assets but not the accounting for internally developed intangible assets. Goodwill will no longer be amortized and will be reviewed for impairment in accordance with SFAS No. 142. Goodwill will be tested annually and on an interim basis if an event or circumstance occurs between the annual tests that might reduce the fair value of the reporting unit below its carrying value. SFAS No. 142 is effective for fiscal years beginning after December 31, 2001, with early adoption permitted under certain circumstances. Goodwill and intangible assets acquired in a transaction completed after June 30, 2001 but before SFAS No. 142 is initially applied will be accounted for in accordance with SFAS No. 142. Therefore amortization of goodwill acquired prior to July 1, 2001 will cease when the company elects to adopt SFAS No. 142.

2. LINE OF CREDIT:

In April 2001, Simtek Corporation ("Simtek" or the "Company") renewed its revolving line of credit for another year in the amount of \$250,000.

7

SIMTEK CORPORATION

3. GEOGRAPHIC CONCENTRATION:

Sales by location for the three months ended June 30, 2001 and 2000 were as follows (as a percentage of sales):

	2001	2000
United States	49%	40%
Europe	11%	19%
Far East	29%	34%
All others	11%	7%
---	---	---
100%	100%	100%

4. POOLING OF INTEREST:

On March 13, 2001, Simtek acquired 100% of the common stock of Q-DOT Group ("Q-DOT"). Q-DOT specializes in advanced technology, research, and development for data acquisition, signal processing, imaging and data communications. Shareholders of Q-DOT exchanged their shares in Q-DOT for shares in Simtek in a business combination that has been accounted for as a pooling of interests. The consolidated financial statements and the accompanying notes reflect Simtek's financial position and the results of operations as if Q-DOT was a wholly-owned subsidiary of Simtek since inception.

For the three months ended June 30, 2001 and 2000 Q-DOT had revenue of \$436,856 and \$530,070, respectively and net income of \$2,816 and a net loss of \$98,677, respectively. The acquisition did not have a material impact on earnings (loss) per share for either of the interim periods.

5. BUSINESS SEGMENTS

The Company has two reportable segments. One segment designs and produces

Edgar Filing: SIMTEK CORP - Form 10QSB

semiconductor devices for sale into the semiconductor market. The second segment specializes in advanced technology research and development for data acquisition, signal processing, imaging and data communications that is supported by government and commercial contracts. Although both segments are managed as part of an integrated enterprise, they are reported herein in a manner consistent with the internal reports prepared for management.

Transactions between reportable segments are recorded at cost. Substantially all operating expenses are identified per each segment. Substantially all of the Company's assets are located in the United States of America.

SIMTEK CORPORATION

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

RESULTS OF OPERATIONS:

Simtek Corporation ("Simtek" or the "Company") recorded net product sales of \$4,732,759 for the second quarter of 2001 and \$9,064,480 for the six months ended June 30, 2001 up from \$3,851,977 recorded for the second quarter 2000 and \$7,678,004 recorded for the six months ended June 30, 2000. Product sales from the Company's 4 kilobit, 16 kilobit, 64 kilobit and 256 kilobit nonvolatile semiconductor memory products were \$4,068,373 and \$2,970,028 for the three months ended June 30, 2001 and 2000, respectively and \$7,770,629 and \$5,483,421 for the six months ended June 30, 2001 and 2000, respectively. The increase in sales was due primarily to an increase in large customers placing production orders of our products, worldwide, along with an increase in product availability which allowed us to fill delinquent orders to the Company's customers. Sales of the Company's high end industrial and military products decreased by approximately \$231,000 in the three months ended June 30, 2001 as compared to the three months ended June 30, 2000. This decrease was due to a continued decrease in defense contracts. One distributor of the Company's nonvolatile semiconductor memory products and two direct customers accounted for approximately 47% of the Company's net product sales for the three months ended June 30, 2001. Products sold to distributors are re-sold to various end customers. The revenue generated from the sale of the Company's logic products was \$227,530 and \$351,879 for the three months ended June 30, 2001 and 2000, respectively and \$500,378 and \$740,881 for the six months ended June 30, 2001 and 2000, respectively. This decrease was due to the completion of production contracts in 2000 and the internal activities focusing on integration of the logic business into the Company's operations. The revenue generated from research and development contracts acquired in the Q-DOT merger was \$436,856 and \$530,070 for the three months ended June 30, 2001 and 2000, respectively and \$793,473 and \$1,453,702 for the six months ended June 2001 and 2000, respectively. This decrease was primarily due to reduced billing rates against government contract due to employee attrition.

The Company saw a decrease of approximately 3% in our gross margin percentages for the three months ended June 30, 2001 as compared to the three months ended June 30, 2000 and an approximate 9% decrease in our gross margin percentages for the six months ended June 30, 2001 as compared to the six months ended June 30, 2000. These decreases were due primarily to an increase in the cost of the silicon wafers required to produce our products. In March 2001, the Company was able to negotiate better pricing from this supplier and the Company negotiated better pricing from our test subcontractor. Management believes that these cost reduction measures should have an impact on the gross margins beginning in the third quarter of 2001.

During the second quarter 2001, the Company purchased wafers built on 0.8 micron technology from Chartered Semiconductor Manufacturing Plc. of Singapore ("Chartered") to support sales of its nonvolatile semiconductor memory products. Sales of the Company's logic products were supported with 0.5 micron wafers purchased from United Microelectronics Corp. ("UMC") of Taiwan and 0.35 micron wafers purchased from Chartered.

Total other operating expenses saw an increase of approximately \$460,000 in the three months ended June 30, 2001 as compared to the three months ended June 30, 2000. Research and Development saw an increase of approximately \$178,000

Edgar Filing: SIMTEK CORP - Form 10QSB

primarily due to an approximate \$192,000 increase in payroll and payroll overhead costs, a decrease of approximately \$31,000 in legal fees and an approximate \$17,000 increase in contract services. Administration saw an approximate \$233,000 increase, primarily due to an approximate increase of \$258,000 which was related to the amortization of the shares of stock issued in September 2000, to two investment banker firms in return for services, and an increase of approximately \$80,000 in legal and audit fees related to the acquisition of Q-DOT and securities work. These increases were offset by a

10

SIMTEK CORPORATION

decrease of approximately \$105,000 in payroll and payroll overhead costs that occurred at Q-DOT. Sales and Marketing saw an increase of approximately \$49,000, primarily due to an increase in sales commissions of approximately \$61,000 paid to independent sales representatives as a direct result of our increased revenue which was offset by a decrease of approximately \$12,000 in payroll and payroll overhead costs from Q-DOT.

Total other operating expenses saw an increase of approximately \$1,131,000 in the six months ended June 30, 2001 as compared to the six months ended June 30, 2000. Research and Development saw an approximate increase of \$249,000, which was related to an approximate \$301,000 increase in payroll and payroll overhead costs and a decrease of approximately \$22,000 in product development costs and an approximate \$30,000 decrease in repair and maintenance. Administration saw an approximate increase of \$725,000, which was primarily related to an approximate increase of \$516,000 which was related to the amortization of the shares of stock issued in September 2000, to two investment banker firms in return for services and an approximate \$209,000 increase in legal and audit fees related to the acquisition of Q-DOT and securities work. Sales and Marketing saw an approximate \$157,000 increase due primarily in an approximate increase in payroll and payroll overhead costs of \$32,000 from Simtek, an approximate increase of \$125,000 related to sales commissions to independent sales representatives as a direct result of revenue.

The Company recorded a net loss of \$47,122 and a net income of \$217,997 for the three months ended June 30, 2001 and 2000, respectively, and a net loss of \$561,685 and a net income of \$756,146 for the six months ended June 30, 2001 and 2000, respectively. The increase in net losses was due primarily to decreased gross margin percentages and the increase in administration costs.

FUTURE RESULTS OF OPERATIONS

The Company's ability to remain profitable will depend primarily on its ability to continue reducing manufacturing costs and to increase net product sales by increasing the availability of existing products, by the introduction of new products and by expanding its customer base. Additionally, market conditions may make it more difficult to receive enough raw materials, processed silicon wafers and support services to satisfy customer demand. The Company is currently deciding which new or derivative product it will develop next.

As of June 30, 2001, the Company had received purchase orders during the second quarter expected to be filled within the next six months of approximately \$4,100,000. Orders are cancelable prior to 30 days before the scheduled shipping date and, therefore, should not be used as a measure of future product sales.

Edgar Filing: SIMTEK CORP - Form 10QSB

LIQUIDITY AND CAPITAL RESOURCES

As of June 30, 2001, the Company had net working capital of \$3,895,961 as compared to a net working capital of \$3,995,092 as of June 30, 2000. The Company may require additional capital to fund production and marketing of any new products it may develop. The Company does not have any commitments for such additional capital as of the date of this report.

The change in cash flows for the six months ended June 30, 2001 used in operating activities was primarily a result of a net loss of \$561,685 which is offset by \$222,480 in depreciation and amortization, an increase in reserves of \$11,642, customer deposits of \$2,000 and a decrease in prepaid expenses and other expenses of \$548,846 and a decrease of \$53,634 in accrued expenses. Increases in accounts receivable, inventory and accounts payable of \$659,541, \$1,209,591 and \$773,165, respectively were related to increased product demand. The change in cash flows used in investing activities were primarily due to the purchase of equipment required to test our products of \$290,683 and payments on

11

SIMTEK CORPORATION

a capital lease obligation of \$23,132. The change in cash flows used in financing activities of \$80,976 was due primarily to payments on a line of credit and notes payable and the buyback of Simtek common stock and receipts from deferred revenue.

The change in cash flows for the six months ended June 30, 2000 provided by operating activities was primarily due to a net income of \$756,147, depreciation of \$214,797, contributed services of \$35,000, an increase in reserve accounts of \$366,491 and a decrease of \$24,750 in customer deposits. Increases in accounts receivable, inventory, accounts payable and accrued expenses of \$635,612, \$146,584, \$89,673, \$140,251, respectively, were related to increased product sales. Cash flows used in investing activities were due primarily to the purchase of equipment required to test our products of \$238,275 and payments on a capital lease obligation of \$18,542 both of which were offset by a decrease of \$100,000 in restricted cash. Cash flows used in financing activities of \$19,992 were due primarily to payments on notes payable and on a line of credit that was offset by the purchase of stock options by the Company's employees.
