- Restructuring Overview

Edgar Filing: USX CORP - Form 425

[Slide 27] - Separation Capital Structure Issues

- Marathon will remain legally obligated for virtually all of the existing USX debt except for the \$325 million USSK debt
- Terms of separation require \$900 million value transfer from Marathon to U. S. Steel
- After separation, U. S. Steel's indebtedness and other obligations will equal attributed debt less \$900 million
- Despite the value transfer, U. S. Steel is expected to have a funding need. The Senior Notes addressed a portion of this funding need
