Information Concerning the Board of Directors and Committees

The business of the Company is conducted under the general management of the Board of Directors as provided by the laws of North Carolina and our Bylaws. During the year ended December 31, 2002, the Board of Directors held six formal meetings, excluding actions that were taken by unanimous written consent during the year. Each member of the board attended at least 75% of the 2002 meetings of the Board of Directors and Board committees of which he or she was a member.

The Board of Directors has an Audit Committee and a Compensation Committee. The Board has no Nominating Committee. The Audit Committee currently consists of Messrs. Pirotte, Tracy and Farinholt. The Audit Committee held five formal meetings during 2002 to discuss quarterly results and the year end audit with our auditors. The Audit Committee makes recommendations to the Board of Directors concerning its review of our internal controls and disclosure controls, our accounting system and the annual audit, and regarding the selection of and authorization for the payment of fees to our independent auditors. The Compensation Committee currently consists of Messrs. Pirotte, Puckett and Farinholt. The Compensation Committee recommends employee salaries and incentive compensation to the Board of Directors and administers our stock option plans. During 2002, the Compensation Committee held three meetings, excluding actions that were taken by unanimous written consent during the year.

Vote Required

The six nominees receiving the highest number of affirmative votes of the shares present or represented and entitled to be voted at the Meeting shall be elected as directors of the Company.

The Board of Directors has unanimously approved and recommends that you vote FOR the election of the management nominees listed above.

PROPOSAL NO. 2 RATIFICATION OF SELECTION OF INDEPENDENT AUDITORS

The Board of Directors has appointed the firm PricewaterhouseCoopers LLP (PWC), Raleigh, North Carolina, to serve as our independent auditors for the year ending December 31, 2003, and recommends that the shareholders ratify such action. Shareholder ratification of the selection of PWC as our independent auditors is not required by our bylaws or otherwise. However, the Board is submitting the selection of PWC to our shareholders for ratification as a matter of good corporate practice. If the appointment of PWC is not ratified by the shareholders, the Board of Directors will reconsider its selection. PWC has audited our accounts since 1994 and has advised us that it does not have, and has not had, any direct or indirect financial interest in the Company or its subsidiaries in any capacity other than that of serving as independent auditors. Representatives of PWC are expected to attend the Meeting. They will have an opportunity to make a statement, if they desire to do so, and will also be available to respond to appropriate questions.

Audit Fees

PWC billed the Company aggregate fees of \$70,000 for professional services rendered for the audit of our annual financial statements for fiscal year 2002 and for reviews of the financial statements included in our quarterly reports on Form 10-Q for the first three quarters of fiscal 2002.

All Other Fees

PWC billed the Company aggregate fees of \$15,960 for professional services rendered in fiscal 2002 other than audit services and review of quarterly reports. These fees resulted primarily from services rendered for the review of our fiscal 2001 tax returns. The Audit Committee of the Board of Directors considered these activities to be compatible with the maintenance of PWC independence. We did not engage PWC in fiscal 2002 to perform any services for financial information systems design or implementation.

Vote Required

The affirmative vote of the holders of a majority of the shares of our Common Stock and preferred stock present or represented and voting on this proposal at the Meeting shall constitute ratification of the appointment of PWC.

The Board of Directors has unanimously approved and recommends a vote FOR the ratification of the appointment of PWC as our independent auditors for the year ending December 31, 2003.

OTHER INFORMATION

Principal Shareholders

The following table sets forth certain information regarding the ownership of shares of our Common Stock and Series A Preferred Stock as of the Record Date by (1) each person known by the Company to own beneficially more than 5% of the outstanding shares of Common Stock or Series A Preferred Stock, (2) each of our current directors, (3) each of our Chief Executive Officer and current four most highly compensated executive officers other than the Chief Executive Officer whose cash compensation for the year ended December 31, 2002 exceeded \$100,000 (collectively, the Named Executive Officers), and (4) all of our current directors and executive officers as a group. As of the Record Date, we had 9,727,872 shares of Common Stock and 81,000 shares of Series A Preferred Stock outstanding. Each share of Series A Preferred Stock is convertible into ten shares of Common Stock. Except as indicated in footnotes to this table, the persons named in this table have sole voting and investment power with respect to all shares of Common Stock indicated. Share ownership in the case of Common Stock includes shares issuable upon conversion of Series A Preferred Stock and upon exercise of outstanding options and warrants that may be exercised within 60 days after the Record Date for purposes of computing the percentage of Common Stock owned by such person but not for purposes of computing the percentage owned by any other person. Percentage voting power is calculated assuming the Common Stock and Series A Preferred Stock vote together as one class with each share of Common Stock entitled to one vote and each share of Series A Preferred Stock entitled to ten votes.

Mark X. Triscott	4,966(7)	1%	\$ 6.00	5/7/2012	\$ 18,739(8)	\$ 47,487(8)

- (1) The total number of options granted to employees in 2002 for purposes of this table includes the extended options for Messrs. Funkhouser and Riddle as set forth beside footnotes (4) in the table. Excluding the extended options, the options granted to Messrs. Riddle and Triscott represent 15% and 2%, respectively, of the total options granted to employees in 2002.
- (2) The exercise price may be paid in cash, in shares of Common Stock with a market value as of the date of exercise equal to the option price or a combination of cash and shares of Common Stock.
- (3) These amounts represent certain assumed rates of appreciation only. Actual gains, if any, on stock option exercises are dependent on the future performance of the Common Stock, and overall market conditions. The amounts in these columns may not necessarily be achieved.
- (4) Does not represent a new grant, but rather an extension of the term of a prior grant otherwise scheduled to expire 5 years prior to the extended expiration date set forth in the table. These options were not repriced. They retain the same exercise price, representing the fair market value on the date of grant in 1994.
- (5) This amount includes the value of the options on the date of extension, or \$685,400, measured as the difference between the market value (\$6.52 per share) and exercise price on the date of extension multiplied by the number of options. The balance of this amount represents the potential appreciation from the market price over the remaining exercise period (from the date the options were extended to the new expiration date).
- (6) This amount includes the value of the options on the date of extension, or \$682,707, measured as the difference between the market value (\$6.52 per share) and exercise price on the date of extension multiplied by the number of options. The balance of this amount represents the potential appreciation from the market price over the remaining exercise period (from the date the options were extended to the new expiration date).
- (7) These grants were made in December 2002 for Mr. Riddle and May 2002 for Mr. Triscott. Each grant becomes exercisable over four years from the date of grant, based on continued employment with us. To the extent not already exercisable, the options become fully vested by their terms upon the consummation of a merger in which we are not the surviving corporation, a transfer of all our stock, a sale of substantially all of our assets or a dissolution or liquidation of the Company, unless the successor corporation assumes the outstanding options or substitutes substantially equivalent options.
- (8) The compounding assumes a 10-year exercise period.
- (9) This amount includes the value of the options on the date of extension, or \$108,796, measured as the difference between the market value (\$6.52 per share) and exercise price on the date of extension multiplied by the number of options. The balance of this amount represents the potential appreciation from the market price over the remaining exercise period (from the date the options were extended to the new expiration date).
- (10) This amount includes the value of the options on the date of extension, or \$22,840, measured as the difference between the market value (\$6.52 per share) and exercise price on the date of extension

multiplied by the number of options. The balance of this amount represents the potential appreciation from the market price over the remaining exercise period (from the date the options were extended to the new expiration date).

The following table sets forth information concerning option holdings as of December 31, 2002 by the Named Executive Officers. There were no option exercises by the Named Executive Officers in 2002.

The warrant has standard price-based antidilution protection for issuances at less than fair market value and it expires on the earlier of February 25, 2005 or upon a change of control transaction.

Employment Contracts and Termination of Employment and Change of Control Arrangements

In the interest of promoting organizational stability in the context of a potential acquisition or change of control, we entered into a change of control agreement with Mr. Funkhouser in October 1997. Under this agreement, if Mr. Funkhouser resigns or his employment by the Company is terminated for any reason within two years following a change of control of the Company, he is entitled to receive a severance payment from the Company, payable in full and in cash within 30 days, equal to two times the total compensation paid by the Company to Mr. Funkhouser, including all wages, salary, bonuses and incentive compensation, during the twelve months preceding the year in which the severance obligation becomes payable.

Mr. McGowan has an employment arrangement whereby if he is terminated without cause, he is entitled to receive a severance payment equal to three months of his then current salary.

Supplemental Executive Retirement Plan

Effective February 21, 2001, the Company implemented a non-qualified Supplemental Executive Retirement Plan, or SERP. All executive officers of the Company are eligible for the plan. SERP Agreements have been entered into with each of Messrs. Funkhouser, Riddle and McGowan. The SERP is a non-qualified, unfunded, deferred compensation plan in which each participant's account is represented by an unsecured promise by the Company to pay future benefits. Provided the participant continues to be a full-time employee, the Company will provide credits to each participant's account, the timing and amount to be determined by the Board of Directors in its sole discretion. Each allocation of these credits vests ratably on a quarterly basis over a four-year period. The account balance equals the aggregate of all allocations adjusted for investment gain or loss (as determined by the return on the investments selected by the participant and approved by the Company), less any distributions made to a participant or his beneficiaries. Each participant may make investment suggestions for his account, but the investment decision for each account is in the sole discretion of the Company. Each participant, or his beneficiaries, is entitled to receive an amount equal to his vested account balance if the participant terminates employment. Each participant, or his beneficiaries, is entitled to receive an amount equal to his total account balance (vested and unvested) if: (1) the participant suffers a disability while a full-time employee of the Company (2) the participant dies while a full-time employee of the Company, or (3) the participant is a full-time employee at his normal retirement date, defined as the first day of the calendar month following the month in which the participant retires from service on or after he reaches age 65. In addition, upon a change in control during the term of a participant's employment or up to fourteen months after termination, the participant would also receive a payment of nine times the sum of (1) all contributions made to the participant's deferral account balance (vested and unvested and disregarding investment gains and losses) as of the date of the change of control and (2) \$50,000 for Mr. Funkhouser and \$30,000 for each of Mr. Riddle and Mr. McGowan. During the year ending December 31, 2002, the Board of Directors allocated to Mr. Funkhouser's account an amount equal to 20% of his base salary, or \$50,000, and to Mr. McGowan's and Mr. Riddle's account an amount equal to 15% of each of their base salaries, equal to \$30,000 and \$26,250, respectively.

Compensation of Directors

Each of the Company's non-employee directors receives a retainer of \$5,000 per year, \$2,000 per Board meeting, \$1,000 per committee meeting and \$500 per telephonic meeting that he or she attends. In 2002, each non-employee director who is also not an affiliate of the Company received a non-qualified option grant of 5,000 shares of Common Stock upon re-election to the Board. All directors are reimbursed by the Company for expenses incurred to attend Board meetings.

Report of the Compensation Committee on Executive Compensation

Edgar Filing: PHARMANETICS INC - Form DEF 14A

The Compensation Committee of the Board of Directors (the Committee), consisting entirely of non-employee directors, approves all policies under which compensation is paid or awarded to the Company s executive officers. The Committee is currently composed of Messrs. Pirotte, Puckett and Farinholt. The Committee also administers the Company s stock plans.

Neither the material in this report nor the performance graph included in this proxy statement under the heading "Performance Graph" (the "Performance Graph") is soliciting material, is or will be deemed filed with the SEC or is or will be incorporated by reference in any filing of the Company under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, whether made before or after the date of this Proxy Statement and irrespective of any general incorporation language in such filing.

Compensation Philosophy. The Company's executive compensation program has three objectives: (1) to align the interests of the executive officers with the interests of the Company's shareholders by basing a significant portion of an executive's compensation on the Company's performance; (2) to attract and retain highly talented and productive executives; and (3) to provide incentives for superior performance by the Company's executives. To achieve these objectives, the Committee has crafted a program that consists of base salary, short-term incentive compensation in the form of cash bonuses and long-term incentive compensation in the form of stock options and the allocation of credits to the SERP. These compensation elements are in addition to the general benefits programs which are offered to all of the Company's employees.

Each year, the Committee reviews the Company's executive compensation program. In deciding base salary levels, incentive payments and granting of stock options, the Committee obtains from the Chief Executive Officer recommendations on senior executives. The Compensation Committee meets privately as necessary, without the presence of management (including the Chief Executive Officer), to determine compensation for executive officers. In reviewing recommendations, the Committee uses compensation survey data prepared by outside consultants to study the compensation packages for executives of comparable companies. The Committee assesses the competitiveness of the Company's executive compensation program and reviews the Company's financial, operational and overall performance for the previous fiscal year. For compensation paid to the Chief Executive Officer and other Named Executive Officers in 2002, no reference was made to the data for comparable companies included in the Performance Graph.

Each element of the Company's executive compensation program is discussed below.

Base Salaries. The Committee annually reviews the base salaries of the Company's executive officers. The base salaries for the Company's executive officers for fiscal 2002 were established by the Committee at the beginning of that fiscal year. In addition to considering the factors listed in the foregoing section that support the Company's executive compensation program generally, the Committee reviews the responsibilities of the specific executive position and the experience and knowledge of the individual in that position. The Committee also measures individual performance based upon a number of factors, including a measurement of the Company's historic and recent financial and operational performance and the individual's contribution to that performance, the individual's performance on non-financial goals and other contributions of the individual to the Company's success, and gives each of these factors relatively equal weight without confining its analysis to a rigorous formula. As is typical of most corporations, the actual payment of base salary is not conditioned upon the achievement of any predetermined performance target.

Incentive Compensation. Cash bonuses established for executive officers are intended to motivate the individual to work hard to achieve the Company's financial and operational performance goals or to otherwise incent the individual to aim for a high level of achievement on behalf of the Company in the coming year. In 2002, the Company paid cash bonuses to its executive officers based on the achievement of Company objectives established in the beginning of 2002.

Long-Term Incentive Compensation. The Company's long-term incentive compensation plan includes stock plans and a supplemental executive retirement plan, or SERP. Each year the Committee considers granting awards under the Company's stock option plan. The Committee's decision to grant stock options is discretionary and largely determined by individual performance, strategic accomplishments, the degree to which an incentive for long-term performance would benefit the Company, as well as the number of shares and options already held by the executive officer. Option grant decisions may also be based upon outstanding individual performance, job

promotions and the assumption of greater responsibility within the Company. All executives are eligible to participate in the Company's stock plans while senior executive officers are eligible to participate in the supplemental executive retirement plan. The Company believes that placing a portion of its executives' total compensation in the form of stock or stock options achieves three objectives. It aligns the interest of the Company's executives directly with those of the Company's shareholders, gives executives a significant long-term interest in the Company's success and helps the Company retain key executives. Options generally vest over four years based on continued employment. It is the Committee's policy to grant options at fair market value unless particular circumstances warrant otherwise.

Benefits. The Company believes that it must offer a competitive benefits program to attract and retain key executives. During fiscal 2002, the Company provided the same medical and other benefits to its executive officers that are generally available to its other employees.

Compensation of the Chief Executive Officer. The Chief Executive Officer's compensation is based on the same elements and measures of performance as is the compensation for the Company's other executive officers. The Committee approved a base salary for Mr. Funkhouser for fiscal 2002 of \$250,000 and for fiscal 2003 of \$280,000 based on the same factors as were considered in determining the base salaries of the other executive officers.

Section 162(m) of the Code. It is the responsibility of the Committee to address the issues raised by Section 162(m) of the Code. This Section makes certain non-performance based compensation in excess of \$1,000,000 to executives of public companies non-deductible to the companies. All current executive compensation is fully deductible.

Report of the Audit Committee

The Audit Committee is composed of three directors who are independent as defined in Rule 4200(a)(14) of the National Association of Securities Dealers' Marketplace Rules. The members also meet the independence requirements under currently proposed Nasdaq and SEC rules regarding audit committees. The Audit Committee operates under a written charter previously approved by the Board of Directors and performs the functions described therein.

The Audit Committee reviews our company's financial reporting process on behalf of our board. Management has the primary responsibility for the financial statements and the reporting process, including the system of internal controls and procedures for financial reporting. In this context, the audit committee met quarterly during 2002 and held discussions with management and PWC, our independent auditors, regarding these matters. Management represented to the audit committee that our company's audited consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States of America and fairly present, in all material respects, the financial condition, results of operations and cash flows of our company as of and for the periods presented in the financial statements.

During its meetings with management and PWC, the Audit Committee reviewed and discussed, among other things:

the appointment of PWC as our independent auditors,

the impact of the Sarbanes-Oxley Act of 2002 and related corporate governance proposals, including the certifications required to be made by our Chief Executive Officer and Chief Financial Officer,

management evaluations of the internal controls and disclosure controls and procedures that we have adopted,

the annual external audit plan including risk assessments, and

our significant accounting policies.

The Audit Committee met in private sessions with PWC. During the private sessions, the Audit Committee confirmed that the independent auditors were satisfied with the positions taken by management in the presentation of our financial results and the independent auditors confirmed that there were no matters regarding our internal controls requiring communication to the Audit Committee under generally accepted auditing standards. In February 2003, management and PWC reviewed and discussed the audited financial statements for the fiscal year ended

Edgar Filing: PHARMANETICS INC - Form DEF 14A

December 31, 2002 with the Audit Committee, together with our disclosures under Management's Discussion and Analysis of Financial Condition and Results of Operations. This discussion included among other things:

critical accounting policies and practices used in the preparation of our financial statements,

any significant audit adjustments proposed by the independent auditors,

confirmation that there were no matters of significant disagreement between management and the independent auditors during the audit, and

other matters required to be discussed by Statements of Auditing Standards.

Based on the review and discussions described above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for fiscal 2002.

The Audit Committee has also discussed with PWC the matters required to be discussed by Statement on Auditing Standards No. 90, (Audit Committee Communications). The Audit Committee has received the written disclosures and confirmation from PWC required by Independence Standards Board Standard No. 1, as modified or supplemented, and has discussed with PWC their independence.
