Independent Auditors' Report

To the Retirement Committee of the  
Armstrong Wood Products, Inc. Salaried  
Employees' Profit Sharing Plan:

We have audited the accompanying statements of net assets available for benefits of the Armstrong Wood Products, Inc. Salaried Employees' Profit Sharing Plan as of December 31, 2002 and 2001, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in Note 1 to the financial statements, on December 6, 2000, Armstrong World Industries, Inc. filed a voluntary petition for relief under Chapter 11 of the U.S. Bankruptcy Code in order to use the court-supervised reorganization process to achieve a resolution of its asbestos liability.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Armstrong Wood Products, Inc. Salaried Employees' Profit Sharing Plan as of December 31, 2002 and 2001, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

**SALARIED EMPLOYEES PROFIT SHARING PLAN**

Notes to Financial Statements

**(1) General Information**

The Armstrong Wood Products Inc., Salaried Employees Profit Sharing Plan (the Plan) was established on January 5, 1976 by Armstrong Wood Products, Inc. (formerly known as Triangle Pacific Corp.) (the Company or Plan Administrator). The Plan was amended and restated effective January 1, 1993, to comply with applicable requirements of the Internal Revenue Code. On July 22, 1998, the Company was acquired by Armstrong World Industries, Inc. (a subsidiary of Armstrong Holdings, Inc.). On December 6, 2000, Armstrong World Industries, Inc. (Armstrong) filed a voluntary petition for relief under Chapter 11 of the U.S. Bankruptcy Code in Wilmington, DE in order to use the court-supervised reorganization process to achieve a resolution of its asbestos liability. Management does not believe that Armstrong's bankruptcy filing had an adverse impact on the operations of the Plan.

**(2) Plan Merger**

On October 17, 2002, Armstrong's Retirement Committee unanimously passed a resolution to merge the Plan into the Retirement Savings and Stock Ownership Plan of Armstrong World Industries, Inc. on or around December 16, 2002. Effective December 20, 2002, all plan assets and liabilities were transferred out of the Plan.

In the Retirement Savings and Stock Ownership Plan of Armstrong World Industries, Inc., separate balances are maintained for contributions made by or on behalf of each participant. The balances in each fund reflect the participants' contributions together with dividends, interest, other income, and realized and unrealized gains and losses allocated thereon.

**(3) Plan Description**

The following description of the Plan provides only general information. Participants should refer to the Plan document for more detailed information.

**(a) General**

The Plan was a defined contribution plan which provided retirement benefits to salaried employees of the Company who had worked 1,000 hours in a consecutive 12-month period, and had attained age 21. Effective November 1, 2001, the Plan was amended to allow for immediate participation by employees upon the completion of one hour of service. The Plan was administered by Armstrong Wood Products, Inc., and advised by the Company's Administrative Committee, whose members were appointed by the Board of Directors of the Company. The Plan was subject to the provisions of the *Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974* (ERISA).

*(b) Contributions*

Participants were permitted to contribute up to 16% of their eligible compensation to the Plan, as defined by the Plan documents and were subject to the Internal Revenue Service limitations. Participants elected to invest their contributions in any of the available investment funds offered by Fidelity Management Trust Company, the Trustee. The Company provided a 50% match of active participants' contributions, for up to 6% of the participant's eligible compensation. In addition to the Company match, the Company made discretionary contributions to the profit sharing portion of the Plan which were determined by the Board of Directors of Armstrong Wood Products, Inc. The profit sharing contribution for the year ended December 31, 2001 was \$0. Effective July 3, 2002 the Plan

was amended to eliminate the profit sharing portion of the Plan for employees of the Armstrong Flooring Products Wood Flooring Division.

*(c) Participant Accounts*

Separate balances were maintained for contributions made by or on behalf of each participant. The balances in each fund reflected the participants' contributions together with dividends, interest, and realized and unrealized gains and losses allocated thereon.

*(d) Vesting*

As a result of the Plan merger, all active participants became 100% vested in the balances in all of his or her accounts. Any participant who was inactive as of the Plan merger date was not eligible for the 100% vesting in the Company match, but was subject to previous vesting rules:

Years of Vesting Service	Vested Percentage
less than 1	0%
1 but less than 2	20%
2 but less than 3	40%
3 but less than 4	60%
4 but less than 5	80%
5 or more	100%

If a participant's employment terminated due to death or disability, the participant became fully vested with respect to Company contributions.

*(e) Participant Loans*

Effective November 1, 2001, the Plan was amended to allow participant loans. Participants could borrow from the Plan an amount greater than \$1,000 but less than 50% of the participant's vested account balance. In no event could the participant borrow more than \$50,000. Loans issued prior to the plan merger (Note 2) were charged an interest rate at 1% above the prime rate of interest being charged by local banks at the time the loan was authorized.

*(f) Payment of Benefits*

Upon termination of service due to death, disability, or retirement, a participant elected to receive the vested value of his or her account as a lump-sum distribution, a rollover into another investment, or by purchasing an annuity under the terms of an annuity contract. For termination of service due to other reasons, a participant received the value of the vested interest in his or her account as a lump-sum distribution. Active employees were allowed to make hardship withdrawals from their vested account balance, subject to the determination by the Plan Administrator that the withdrawal was required to meet an immediate and heavy financial need.

**SALARIED EMPLOYEES PROFIT SHARING PLAN**

Notes to Financial Statements

**(g) Forfeitures**

Company contributions forfeited by terminating employees (\$65,615 in 2002 and \$171,603 in 2001) were used to reduce future Company contributions to the Plan. The Company reinstated forfeited balances to the accounts of participants who rejoined the Company within five years of their termination.

**(4) Summary of Significant Accounting Policies**

**(a) Basis of Presentation**

The financial statements of the Plan are prepared under the accrual method of accounting.

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from estimates recorded.

**(b) Investments in Master Trust**

The money market portfolio is stated at cost, which approximates fair value. The value of the participant loans represents the unpaid principal of employee loans. The value of all other investments is based on the net asset value.

Securities transactions are recognized on the settlement date (that date on which payment for a buy or sell order is made or received), since adjustment to a trade-date basis would not be material. Dividend income is recorded on the ex-dividend date. Interest income on participant loans is recorded when paid.

Realized gains and losses on investments are determined by the average cost method.

**(c) Administrative Expenses**

In accordance with the provisions of the Plan, unless paid by the Company, all costs of administering the Plan are charged to the Plan. During 2002 and 2001, all significant expenses were paid by the Company.

**(5) Investments in Master Trust**

Assets were held in a Master Trust administered by Fidelity Management Trust Company, as Trustee, and were segregated into seven investment options. Certain Plan investments were shares of mutual funds managed by Fidelity Management Trust Company, and therefore, transactions related to these shares qualified as party-in-interest transactions.

The following is a brief description of the investment funds to which Plan participants elected to allocate their contributions. Participants should refer to fund prospectuses for more complete information regarding the investment funds.

1. **Armstrong Holdings, Inc. common stock** Effective April 1, 1999, the Plan was amended to include Armstrong World Industries, Inc. common stock as one of the investment options.
