Item 8.01. Other Events

OGE Energy Corp. (the "Company") is the parent company of Oklahoma Gas and Electric Company ("OG&E"), a regulated electric utility with approximately 792,000 customers in Oklahoma and western Arkansas, and OGE Enogex Holdings LLC and its subsidiaries, a midstream natural gas pipeline business with principal operations in Oklahoma.

As previously reported, on July 28, 2011, OG&E filed an application with the Oklahoma Corporation Commission ("OCC") requesting an annual rate increase of \$73.3 million to OG&E's weather-normalized annual revenues. OG&E announced on July 2, 2012 that it had executed a settlement agreement (the "Settlement Agreement") with the OCC Staff, the Attorney General's Office of Oklahoma, The Oklahoma Industrial Energy Consumers and other parties associated with its requested rate increase. The Settlement Agreement is filed as Exhibit 99.02 hereto and is incorporated herein by reference.

Key terms of the Settlement Agreement are as follows:

- An annual net increase of approximately \$4.3 million in OG&E's rates to its Oklahoma retail customers;
- OG&E's Oklahoma retail authorized return on equity will be 10.2 percent;
- The rate of return to be used under various recovery riders previously approved by the OCC, including riders for OG&E's smart grid implementation and Crossroads wind farm will be based on OG&E's actual debt and equity ratios as reflected in OG&E's application and a 10.2 percent return on equity;
- Depreciation rates proposed by OG&E will be implemented in the same month new customer rates go into effect;
- The pension and postretirement medical cost tracker will remain in effect;
- A procedure was established to expedite the recovery of the cost of specified high-voltage transmission projects; and
- Extension of funding for OG&E's system hardening program.

OG&E expects the impact of the rate increase on its customers and service territory to be minimal over the next 12 months as the rate increase will be more than offset by lower fuel costs attributable to prior fuel over recoveries from lower than forecasted fuel costs. A hearing before the OCC occurred on July 9, 2012, at which time the Settlement Agreement was presented and approved by the OCC. OG&E plans to implement the new rates as soon as administratively possible.

A copy of the Company's press release announcing the Settlement Agreement is attached as Exhibit 99.01 and incorporated herein by reference.
