Only holders of the Company's common stock of record on the books of the Company at the close of business on the Record Date are entitled to notice of and to vote at the Meeting or at any adjournment or postponement thereof. As of the Record Date, there were 2,990,201 shares of the Company's common stock issued and outstanding, each of which is entitled to one vote on all matters other than the election of Directors. Any other matters that properly come before the Meeting will be decided by a majority of votes cast, unless a different vote is required by law, the Articles of Incorporation, or the Bylaws. Abstentions and broker non-votes are counted only for purposes of determining whether a quorum is present at the Meeting.

COMPENSATION DISCUSSION AND ANALYSIS**Overview of Compensation Program**

The Compensation Committee (for purposes of this analysis, the Committee) of the Board has responsibility for establishing, implementing and continually monitoring adherence with the Company s compensation philosophy. The Committee ensures that the total compensation paid to the named executive officers is fair, reasonable and competitive. Generally, the types of compensation and benefits provided to the named executive officers, including the actively-employed named executive officers, are similar to those provided to other executive officers in publicly traded financial institutions.

On February 6, 2009, The Company accepted capital from the U.S. Department of the Treasury and became a participant in the Capital Purchase Program implemented as a component of the Troubled Asset Relief Program. As a participant, the Company is subject to certain executive compensation restrictions established under the American Recovery and Reinvestment Act of 2009 (the Stimulus Bill), which was enacted on February 17, 2009. As of the writing of the Compensation Discussion and Analysis, the rules and procedures for applying, and complying with, the executive compensation restrictions were being developed by Treasury, U.S. Securities and Exchange Commission and other regulators and had not yet been fully announced to the public. Therefore, while these executive compensation restrictions will obviously impact our compensation programs moving forward, the committee cannot yet state with certainty the precise impact the restrictions will have on such compensation programs. The Company and the committee intend to comply to the extent required with the Stimulus Bill s executive compensation restrictions and, to that end, are working with legal counsel and other advisors to determine the extent to which those restrictions will impact the Company s compensation programs.

Throughout this proxy statement, the individuals who served as the Company s Chief Executive Officer and Chief Financial Officer during fiscal 2008, as well as the other individuals included in the Summary Compensation Table on page 15, are referred to as the named executive officers.

Compensation Philosophy and Objectives

The Committee believes that the most effective executive compensation program is one that is designed to reward the achievement of specific annual, long-term and strategic goals by the Company, and which aligns the interests of the executive officers with the Company s overall business strategy, values and management initiatives. These policies are intended to reward executives for strategic management and the enhancement of shareholder value and support a performance-oriented environment that rewards achievement of internal goals. The Committee evaluates both performance and compensation to ensure that the Company maintains its ability to attract and retain superior employees in key positions and that compensation provided to key employees remains competitive relative to the compensation paid to similarly situated executives of our peer companies. To that end, the Committee believes executive compensation packages provided by the Company to its executives, including the named executive officers, should be designed to include both cash and stock-based compensation that reward performance as measured against established goals.

Role of Executive Officers in Compensation Decisions

The Committee makes all compensation decisions for the named executive officers and approves recommendations regarding equity awards to all named executive officers of the Company. Decisions regarding the non-equity compensation of other executive officers are made by the Committee and the Chief Executive Officer.

The Committee and the Chief Executive Officer annually reviews the performance of each member of the named executive officers (other than the Chief Executive Officer whose performance is reviewed by the Committee). The conclusions reached and recommendations based on these reviews, including with respect to salary adjustments and annual award amounts, are presented to the Committee. The Committee can exercise its discretion in modifying any recommended adjustments or awards to executives.

Setting Executive Compensation

Based on the foregoing objectives, the Committee has structured the Company's annual and long-term incentive-based cash and non-cash executive compensation to motivate executives to achieve the business goals set by the Company and reward the executives for achieving such goals. To that end, the Committee has retained Amalfi Consulting, LLC to provide research for benchmarking purposes related to executive compensation. Additionally, the Company subscribes to and participates in the Mississippi Bankers Association survey, which provides the Committee with comparative compensation data from the Company's market areas and its peer groups. This information is used by the committee to ensure that it is providing compensation opportunities comparable to its peer group, thereby allowing the Company to retain talented executive officers who contribute to the Company's overall and long-term success.

It is anticipated that the services provided by the third-party consultant will be used as the basis of comparison of compensation between the Company and the companies in the Compensation Peer Group.

Effect of the America Reinvestment and Recovery Act of 2009

On February 17, 2009, President Obama signed into law the America Reinvestment and Recovery Act of 2009 (ARRA). ARRA contains expansive new restrictions on executive compensation for financial institutions and other companies participating in the CPP. These restrictions apply to us.

ARRA prohibits the payment of any bonus, retention award, or incentive compensation to the Chief Executive Officer of the Company for as long as any CPP-related obligations are outstanding. The prohibition does not apply to bonuses payable pursuant to a written employment contract in effect prior to February 11, 2009. Long-term restricted stock is excluded from ARRA's bonus prohibition, but only to the extent the value of the stock does not exceed one-third of the total amount of annual compensation of the employee receiving the stock, the stock does not fully vest until after all CPP-related obligations have been satisfied, and any other conditions which the Treasury may specify have been met.

ARRA prohibits any payment to the Chief Executive Officer and the next five highest paid Executive Officers of the Company upon termination of employment for any reason for as long as any CPP-related obligations remain outstanding.

Under ARRA CPP-participating companies are required to recover any bonus or other incentive payment paid to the Chief Executive Officer and the next twenty highest paid employees of the Company on the basis of materially inaccurate financial or other performance criteria.

ARRA prohibits CPP participants from implementing any compensation plan that would encourage manipulation of the reported earnings of the company in order to enhance the compensation of any of its employees. Earlier Treasury guidelines did not contain a similar requirement.

10

ARRA requires the Chief Executive Officer and the Chief Financial Officer of any publicly-traded CPP-participating company to provide a written certification of compliance with the executive compensation restrictions in ARRA in the company's annual filings with the SEC (presumably its annual report on Form 10-K or proxy statement).

ARRA requires each CPP-participating company to implement a company-wide policy regarding excessive or luxury expenditures, including excessive expenditures on entertainment or events, office and facility renovations, aviation or other transportation services.

ARRA directs the Treasury to review bonuses, retention awards, and other compensation paid to the Chief Executive Officer and the next twenty highest paid employees of the Company of each company receiving CPP assistance before ARRA was enacted, and to seek to negotiate with the CPP recipient and affected employees for reimbursement if it finds any such payments were inconsistent with CPP or otherwise in conflict with the public interest.

The Compensation Committee will consider these new limits on executive compensation and determine how they impact the Company's executive compensation program.

2008 Executive Compensation Components

Historically, and for the fiscal year ended December 31, 2008, the principal components of compensation for named executive officers were:

- o base salary;
- o performance-based incentive bonus compensation;
- o equity incentive compensation;
- o retirement and other benefits; and
- o Perquisites and other personal benefits.

Base Salary

The Company provides named executive officers and other employees with base salary to compensate them for services rendered during the fiscal year. Base salary ranges for named executive officers are determined for each executive based on his or her position and responsibility.

During its review of base salaries for executives, the Committee primarily considers: 1) performance of the Company; 2) market data provided by our outside consultants; 3) internal review of the executive's compensation, both individually and relative to other officers; and 4) individual performance of the executive. Salary levels are typically considered annually as part of the Company's performance review process as well as upon a promotion or other change in job responsibility. Merit based increases to salaries of the named executive officers are based on the Committee's assessment of the individual's performance.

Performance-Based Incentive Compensation

Edgar Filing: FIRST BANCSHARES INC /MS/ - Form DEF 14A

The Company has established an incentive bonus compensation plan that is based upon individual performance as well as team and corporate performance. Named executive officers in the Company have unique performance goals in up to nine (9) categories. The individual measures relate primarily to sales, service quality, regulatory compliance, timeliness, and financial goals. The particular measures on an individual's performance depend on the actions that are determined to be most important for that individual to achieve for the current year. The estimated bonus payouts are accrued throughout the year. Cash bonuses may be granted to executives at each year end depending on the achievement of a corporate performance target such as earnings per share, which was used in 2008. The Company's Chief Executive Officer has measures that are company-wide in nature. The measures for 2008 were for net income, earnings per share and return on equity. Each measure was weighted equally for 2008.

11

For the year ended December 31, 2008, the following cash bonuses were awarded:

David E. Johnson	\$ 0.00
M. Ray "Hoppy" Cole, Jr.	0.00
DeeDee Lowery	1,929.50
David O. Thoms, Jr	0.00
Carol M. Daniel(1)	3,000.00

Equity Incentive Compensation

1999 Stock Option Plan

On May 27, 1999, the Company's shareholders approved the 1999 Stock Incentive Plan (1999 Plan). The Plan provides for the granting of options to purchase up to 213,376 shares of the Company's common stock to the Company's and its subsidiary's directors, key employees, and management. Under the 1999 Plan, the Company may grant either incentive stock options or nonqualified stock options. Options granted to directors vest in equal amounts over three years. Stock options granted to management vest based on annual goals or after nine years and eleven months, if still employed. At December 31, 2008, 213,356 options were granted, and 95,530 had been exercised or forfeited. All options expire and are void unless exercised before April 15, 2009. The options are exercisable at not less than the market value of the Company's common stock at the grant.

2007 Stock Option Plan

In 2007, the Company adopted the 2007 Stock Incentive Plan. The 2007 Plan provides for the granting of up to 315,000 shares of Company Common Stock, \$1.00 par value per share. Shares issued under the Plan may consist in whole or in part of authorized but unissued shares or treasury shares.

Awards of Company Common Stock under the 2007 Plan may take the form of a stock option, restricted stock, incentive stock option (a stock option which meets the applicable requirements of the Internal Revenue Code), restricted stock appreciation rights (an award entitling a holder to receive an amount in cash, Company Common Stock, or a combination of both determined by reference to the excess of the fair market value of a specified number of shares of Company Common Stock over a specified price which shall not be less than the fair market value of the shares as of the date of the grant), restricted stock awards (a transfer of shares subject to certain restrictions on transfer or other incidents of ownership or subject to specified performance standards), performance equivalent rights (an award entitling a holder to receive an amount in cash, Company Common Stock, or a combination of both determined by reference to the cash dividends paid on a specified number of shares of Company Common Stock from the date of grant), performance unit awards, restricted stock units or other stock awards (including without limitation, awards entitling recipients to receive shares of Company Common Stock to be delivered in the future) (collectively referred to as "Awards"). As of December 31, 2008, no awards have been granted.

Retirement and Other Benefits

All employees of the Company, including named executive officers, are eligible to participate in the First Bancshares, Inc. 401K Plan and Trust.

12

The Company sponsors an Employee Stock Ownership Plan (ESOP), which was established in 2001 for all employees who have completed one year of service for the Company and attained age 21. Employees are eligible to vest after five years of service. Contributions to the plan are at the discretion of the Board. As of December 31, 2008, the ESOP held 6,891 shares of Company common stock and had no debt obligations.

Perquisites and Other Personal Benefits

The Company provides named executive officers with perquisites and other personal benefits and the Committee believe are reasonable and consistent with its overall compensation program to attract and retain superior employees for key positions. The Committee periodically reviews the levels of perquisites and other personal benefits provided to named executive officers.

The named executive officers participate in the Company's broad-based employee benefit plan including medical, dental, supplemental disability and term life insurance programs. Some of the named executive officers are provided use of company automobiles. The vehicle is provided primarily for their business travel and use is taxed through the Company's payroll process. Each named executive officer and certain other senior management are entitled to receive a cash payment upon such executive's death through the death benefit funded by bank owned life insurance.

Attributed costs of the personal benefits described above for the named executive officers for the year ended December 31, 2008, are included in the "Summary Compensation Table" on page 15.

The Company has entered into Change of Control Agreements with certain key employees. The Change of Control Agreements are designed to promote stability and continuity of senior management. Information regarding applicable payments under such agreements for the named executive officers is provided under the "Payments Made Upon a Change of Control" on pages 19 and 20.

Deductibility of Executive Compensation

As part of its role, the Committee reviews and considers the deductibility of executive compensation under Section 162(m) (5) of the Internal Revenue Code, which provides that the Company may not deduct compensation more than \$500,000 that is paid to certain individuals. The Company believes that compensation paid under incentive plans are generally fully deductible for federal income tax purposes.

COMPENSATION COMMITTEE REPORT

The Compensation Committee certifies that it has reviewed with senior risk officers the compensation arrangements and has made reasonable efforts to ensure that such arrangements do not expose the Company to unnecessary and excessive risks that threaten the value of the financial institution.

The Compensation Committee of the Company has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussion, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in the Proxy Statement.

PROPOSAL 3 ADVISORY VOTE ON EXECUTIVE COMPENSATION

The America Reinvestment and Recovery Act of 2009 (ARRA) requires recipients of funds under CCP to permit a separate shareholder vote to approve the compensation of executives, as disclosed pursuant to the compensation disclosure rules of the Securities and Exchange Commission (which disclosure shall include the compensation discussion and analysis, the compensation tables, and any related material). ARRA further provides that this shareholder vote shall not be binding on the board of directors of a recipient of funds under CCP, and may not be construed as overruling a decision by such board, nor to create or imply any additional fiduciary duty by such board, nor shall such vote be construed to restrict or limit the ability of shareholders to make proposals for inclusion in proxy materials related to executive compensation.

These ARRA provisions give you as a shareholder the right to endorse or not endorse our executive compensation through the following resolution:

"Resolved, that the shareholders approve the compensation of the Chief Executive Officer and the four other highest paid Executive Officers of the Company as set forth under the heading `Compensation Discussion and Analysis" in the 2009 Proxy Statement, including the compensation tables and any related material."

Because your vote is advisory, it will not be binding on the Board. However, the Compensation Committee will take into account the vote when considering future executive compensation arrangements.

The Board of Directors unanimously recommends you vote FOR approval of the resolution.

We will provide the information regarding co-filers to shareowners promptly if we receive an oral or written request for the information.

PROPOSAL 4 PROPOSAL REGARDING THE ELECTION OF BOARD OF DIRECTORS

Gerald R. Armstrong, 820 Sixteenth Street, Denver, Colorado 80202; 303-355-1199; owner of 200 shares of Common Stock, submitted the following proposal:

RESOLUTION

That the shareholders of THE FIRST BANCSHARES, INC. request its Board of Directors to take the steps necessary to eliminate classification of terms of its Board of Directors to require that all Directors stand for election annually. The Board declassification shall be completed in a manner that does not affect the unexpired terms of the previously-elected Directors.

STATEMENT

Edgar Filing: FIRST BANCSHARES INC /MS/ - Form DEF 14A

The proponent believes that the election of directors is the strongest way that shareholders influence the directors of any corporation. Currently, our board of directors is divided into three (3) classes with each class serving three-year terms. Because of this structure, shareholders may only vote for one-third of the directors each year. This is not in the best interest of shareholders because it reduces accountability.

U.S. Bancorp, Associated Banc-Corp, Piper-Jaffray Companies, Fifth-Third Bancorp, Pan Pacific Retail Properties, Qwest Communications International, Xcel Energy, Greater Bay Bancorp, North Valley Bancorp, Pacific Continental Corporation, Regions Financial Corporation, CoBiz Financial Inc., Marshall & Iffley Corporation, and Wintrust Financial, Inc. are among the corporations electing directors annually because of the efforts of the proponent.

The performance of our management and our Board of Directors is now being more strongly tested due to economic conditions and the accountability for performance must be given to the shareholders whose capital has been entrusted in the form of share investments.

A study by researchers at Harvard Business School and the University of Pennsylvania's Wharton School titled "Corporate Governance and Equity Prices" (Quarterly Journal of Economics, February, 2003), looked at the relationship between corporate governance practices (including classified boards) and firm performance. The study found a significant positive link between governance practices favoring shareholders (such as annual directors election) and firm value.

While management may argue that directors need and deserve continuity, management should become aware that continuity and tenure may be best assured when their performance as directors is exemplary and is deemed beneficial to the best interests of the corporation and its shareholders.

The proponent regards and [as] unfounded the concern expressed by some that annual election of all directors could leave companies without experienced directors in the event that all incumbents are voted out by shareholders. In the unlikely event that shareholders do vote to replace all directors, such a decision would express dissatisfaction with the incumbent directors and reflect a need for change.

28

If you agree that shareholders may benefit from greater accountability afforded by annual election of all directors, please vote FOR this proposal.

Statement Against the Shareholder Proposal Regarding the Election of Board of Directors

Board of Directors Recommendation

All of the members of the Company's Board of Directors recommend that you vote AGAINST this proposal. The Board believes that this proposal would potentially be harmful to First Bancshares and our shareholders and opposes the proposal for the reasons discussed below.

First Bancshares' Articles of Incorporation provide for a classified board. Since the Company's inception, our Board of Directors has been divided into three classes, the members of which are elected to serve three year terms. These terms are staggered so that only one third of our directors come up for re-election each year. If approved, the proposal to require annual election of all Directors would not become effective immediately, but would require a separate adoption of an amendment to the Company's Articles of Incorporation. Such an amendment must be approved by the Company's shareholders at a subsequent annual meeting or at a special meeting called for that purpose, and the amendment must be filed with the Mississippi Secretary of State's office.

Edgar Filing: FIRST BANCSHARES INC /MS/ - Form DEF 14A

Our Board of Directors and its Nominating Committee have considered this proposal carefully. We have concluded that the Company's classified or staggered board structure is, and continues to be, in the best interests of the Company and its shareholders.

Protection from Unfair, Unsolicited Bids for the Company

Our staggered board protects against unfair or coercive attempts from outsiders to gain control of the company in a manner and at a price that might not be at fair value. The current structure would require such a hostile bidder to be successful in two successive shareholder meetings to gain control of the Board. Such protection would allow the Company to investigate alternatives to such a change in control in order to maximize shareholder value.

Stability and Continuity

Our classified board structure helps ensure that shareholders have the advantage of experienced, knowledgeable board members on a continued basis. The Company believes that this continuity enhances the long-term strategic planning process.

Accountability and Corporate Governance

Three year staggered terms do not in any way lessen the fiduciary responsibilities of our Board members. Our directors, shareholders themselves, are devoted to their ongoing responsibilities to our shareholders at large. First Bancshares has cumulative voting, meaning that shareholders can more easily directly influence the re-election of a director, or directors, during annual voting for the current class and thereby influencing the makeup and direction of the board.

Proxies solicited by the Board of Directors will be so voted unless shareholders specify otherwise in their proxies. The Affirmative vote of a majority of the votes cast at the annual meeting is required to approve this shareholder proposal.

The Audit Committee has adopted pre-approval policies and procedures, a copy of which was attached as Exhibit A to the Proxy Statement for the 2004 Annual Meeting. A copy of the pre-approval policies and procedures can be found at the Company's internet website at www.thefirstbank.com under Corporate Governance. One hundred percent of the fees set forth above were preapproved by the Audit Committee. The Audit Committee has considered whether the provision of non-audit services is compatible with maintaining the principal accountant's independence.

Solicitation of Proxies

The cost of soliciting proxies from shareholders will be borne by the Company. The initial solicitation will be by mail. Thereafter, proxies may be solicited by directors, officers and employees of the Company or the bank, by means of telephone, telegraph or personal contact, but without additional compensation therefore. The Company will reimburse brokers and other persons holding shares as nominees for their reasonable expenses in sending proxy soliciting material to the beneficial owners.
