## CHAIRMAN AND PRESIDENT'S LETTER

Dear Shareholder:

We are pleased to present to you the 2005 annual report of the Lehman Brothers First Trust Income Opportunity Fund. The report includes portfolio commentary, a listing of the Fund's investments, and its financial statements for the reporting period.

The high yield market was volatile over the course of 2005, with changes in interest rates being the primary source of the volatility. With fears of higher inflation, a spike in Treasury rates, and Federal Reserve Chairman Alan Greenspan's comments about a bond market "conundrum," high yield bonds declined in value. While interest rates were the main culprit, a modest increase in spreads over the year also contributed to price declines. However, the attractive coupon levels associated with high yield securities more than offset any price declines and resulted in a positive overall return for the market.

The Fund's investment objective is to seek high total return through income plus capital appreciation. The Fund pursues this investment objective by investing primarily in high yield debt securities\*. Its performance is dependent on several factors, including the rate of interest received on securities held by the Fund, the interest cost of Money Market Cumulative Preferred Shares issued by the Fund, and the results of interest rate hedges used by the Fund in seeking to manage short-term interest rate costs.

Portfolio Manager Ann H. Benjamin and her team of seasoned investment

professionals at Lehman Brothers Asset Management LLC manage the portfolio. The team takes a proactive approach to high yield asset management, integrating detailed security and industry analysis within the context of a global economic outlook. Ann's portfolio co-managers and research analysts are industry specialists who carry out independent primary research on companies and industries. In addition to seeking value from specific issue selections, they also implement strategies seeking to take advantage of valuation opportunities across industry sectors and credit quality tiers.

We thank you for the trust you have placed in us by investing in the Lehman Brothers First Trust Income Opportunity Fund. We will continue to do our best to earn it.

Sincerely,

/s/ Kurt A. Locher

\* Portfolios that invest in bonds and other fixed income securities can provide regular income and have historically been less volatile than most stock funds. However, they are subject to risks including credit risk, default on principal or interest payments and interest rate fluctuations. High-yield bonds, also known as "junk bonds," are subject to additional risks such as the increased risk of default.

LEHMAN BROTHERS FIRST TRUST INCOME OPPORTUNITY FUND ANNUAL REPORT 2005

PORTFOLIO MANAGER'S REPORT

For the annual reporting period ended December 31, 2005, the Lehman Brothers First Trust Income Opportunity Fund (NYSE: LBC) returned 3.63% on a Net Asset Value (NAV) basis and 5.40% on a Market Value basis.

For the year, the high yield bond market\* produced modest returns that were driven by higher interest rates, despite historically low default levels and a relatively benign credit environment. While most sectors in the high yield market performed fairly well, three sectors in particular weighed on the market's overall performance. These sectors included the Autos, which were affected by credit downgrades of both General Motors and Ford, and Forest and Paper Products. Automotive suppliers in particular were hurt by cost pressures from GM and Ford. In general, credit spreads were only modestly wider for the year, but returns were dampened primarily by the rise in interest rates.

The portfolio's relative outperformance came from a number of market sectors. For example, an overweight in the strongly performing gaming sector helped results. We purposefully maintained an underweight position in the weak paper sector, which helped our returns relative to the broad market. In the Media sector, the Fund's strong performance was mostly the result of good security selection. Other areas that did well included Wireless and Health Care. In the Wireless segment, we enjoyed favorable security selection and benefited from an overweight, as the sector as a whole was strong. In Health Care, the portfolio also benefited from positive security selection. The majority of our alpha generation came from security selection.

Looking ahead, there are a number of factors that we believe bode well for the high yield market. First, we anticipate that the Federal Reserve Board's tightening cycle is going to end sometime in the first part of 2006. Second, although default rates among lower quality bonds may experience a slight uptick,

Edgar Filing: LEHMAN BROTHERS FIRST TRUST INCOME OPPORTUNITY FUND - Form N-CSR

they are still low relative to historical standards. Third, the economy generally appears to be doing well.

Our strategy is to stay focused on intermediate duration bonds in the BB area of the market, where we are seeing the best value. The spread conversion between B- and BB-rated bonds is extremely narrow, so there is little to gain from taking on the excess risk in the B-rated segment of the market. We therefore expect to continue to move up the credit quality spectrum (within the non-investment grade category) as our lower quality bonds mature and are called or tendered. In addition, we continue to focus on industries with stable cash flows, such as Cable, Media, Health Care and Gaming.

We also plan to underweight the cyclical segment of the market. From a valuation perspective, cyclical components are trading similarly to more defensive industries and, to us, appear fully valued. Over the past year, we began lowering our cyclical weighting and we plan to maintain a significant underweight until valuations in this area of the market start to look more attractive.

Sincerely,

/s/ Ann H. Benjamin

LEHMAN BROTHERS FIRST TRUST INCOME OPPORTUNITY FUND

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2005

NOTE 1 -- ORGANIZATION

Lehman Brothers First Trust Income Opportunity Fund (the "Fund") was organized as a statutory trust under the laws of the state of Delaware on April 8, 2003, and is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as a diversified, closed-end management investment company. Lehman

## Edgar Filing: LEHMAN BROTHERS FIRST TRUST INCOME OPPORTUNITY FUND - Form N-CSR

Brothers Asset Management Inc. (the "Adviser") is investment adviser to the Fund. Lehman Brothers Asset Management LLC (formerly Lincoln Capital Fixed Income Management Company, LLC) is the sub-adviser to the Fund. The Fund's common shares are listed on the New York Stock Exchange under the symbol LBC.

The Fund's investment objective is to seek high total return (income plus capital appreciation). The Fund will pursue its investment objective by investing its assets primarily in high yield debt securities.

### NOTE 2 -- SIGNIFICANT ACCOUNTING POLICIES

The preparation of financial statements in accordance with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates. The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements.

a) **VALUATION:** Debt securities are valued using an independent pricing service approved by the Board of Trustees, which utilizes closing market prices, market quotations and transactions, quotations from dealers and various relationships among securities in determining value. Securities for which closing market prices or market quotations are not available or are not considered by the Adviser to be reflective of a security's market value, are valued at fair value as determined in good faith under consistently applied procedures established by and applied under the supervision of the Board of Trustees. Criteria considered in making this determination may include, but are not limited to, a review of other securities by the same issuer for which market quotations are available, recent bid and ask prices for the security, the issuer's position in and economic outlook of the industry and, if necessary, a review of similar securities in similar industries. Securities with remaining maturities of 60 days or less are valued at amortized cost. This method involves valuing a portfolio security initially at its cost and thereafter assumes a constant amortization to maturity of any discount or premium.

b) **SECURITY TRANSACTIONS AND RELATED INVESTMENT INCOME:** Security transactions are recorded on a trade date basis. Dividend income is recorded on the ex-dividend date. Interest income, including amortization of premium and accretion of discount on securities, is recorded on the accrual basis. Realized gains and losses on investments are recorded on the basis of identified cost.

c) **FEDERAL INCOME TAXES:** It is the policy of the Fund to continue to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and distribute all of its net taxable income, including any net realized gains on investments, to its shareholders. Therefore, no federal income tax provision is required.

d) **REVERSE REPURCHASE AGREEMENTS:** The Fund is permitted to enter into reverse repurchase agreements with banks or securities firms deemed creditworthy by the Adviser. A reverse repurchase agreement involves the sale of a security by the Fund, with an agreement to repurchase the same or substantially similar security at an agreed upon price and date. Securities purchased subject to repurchase agreements must have an aggregate market value greater than or equal to the repurchase price plus accrued interest at all times. Reverse repurchase agreements involve the risk that the market value of the securities purchased with the proceeds from the sale of securities received by the Fund may decline below the price of the securities that the Fund is obligated to repurchase. There were no reverse repurchase agreements outstanding at December 31, 2005.

e) **INTEREST RATE SWAP CONTRACTS:** The Fund may enter into interest rate swap transactions. A swap is an agreement to exchange the return generated by one

Edgar Filing: LEHMAN BROTHERS FIRST TRUST INCOME OPPORTUNITY FUND - Form N-CSR

instrument for the return generated by another instrument. The Fund may enter into interest rate swap agreements to manage its exposure to interest rate risk. Interest rate swap contracts involve the exchange by the Fund with another party of their respective commitments to pay or receive interest. Swaps are marked to market daily based upon quotations from market makers and the change in value, if any, is recorded as unrealized gain or loss in the Statement of Operations. Net payments of interest on interest rate swap contracts are included as part of realized gain or loss. Entering into these agreements involves, to varying degrees, elements of credit and market risk in excess of the amounts recognized on the Statement of Assets and

Liabilities. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparty to these agreements may default on its obligation to perform and that there may be unfavorable changes in interest rates. At December 31, 2005, the Fund had the following open swap agreements:

NOTIONAL AMOUNT	EXPIRATION DATE	DESCRIPTION
\$ 22,500,000	03/15/06	Agreement with Citibank N.A. dated 03/11/04 to pay the notional amount multiplied by 1.78% and to receive the notional amount multiplied by the 1 month U.S. Dollars -- London Interbank Offered Rate -- British Bankers Association (USD -- LIBOR -- BBA).
\$ 22,500,000	03/15/07	Agreement with Citibank N.A. dated 03/11/04 to pay the notional amount multiplied by 2.27% and to receive the notional amount multiplied by the 1 month U.S. Dollars -- London Interbank Offered Rate -- British Bankers Association (USD -- LIBOR -- BBA).
\$ 22,500,000	09/28/07	Agreement with Citibank N.A. dated 09/24/04 to pay the notional amount multiplied by 3.22% and to receive the notional amount multiplied by the 1 month U.S. Dollars -- London Interbank Offered Rate -- British Bankers Association (USD -- LIBOR -- BBA).

Periodically, the Fund receives from or deposits, with the counter party, a specific amount of cash equal to the market value of the interest rate swap contracts. At December 31, 2005, the Fund had \$1,226,000 payable for collateral on interest rate swap contracts under this arrangement.

NOTE 3 -- FEES AND TRANSACTIONS WITH RELATED PARTIES

The Fund pays all expenses incurred in connection with the operations of the Fund. These expenses, among others, include custodian and fund accounting and administrative fees, legal and audit fees, fees and expenses of the disinterested Trustees, registration fees, and printing expenses.

The Fund pays the Adviser a monthly fee computed at an annual rate of 0.60% of the Fund's average daily "Managed Assets" (net assets, including assets attributable to any outstanding preferred shares, plus the aggregate principal amount of any borrowings). The Adviser is responsible for developing, implementing and supervising the Fund's investment program and providing certain administrative services to the Fund. The Adviser has retained Lehman Brothers

Asset Management LLC ("LBAM LLC") to serve as the sub-adviser of the Fund and to manage the Fund's investment portfolio. The Adviser compensates LBAM LLC for its services as sub-adviser. The Adviser pays LBAM LLC a monthly sub-advisory fee calculated at the following annual percentage rates of the Fund's average daily Managed Assets: 0.55% on the Fund's first \$25 million of Managed Assets, 0.45% on the next \$25 million of Managed Assets, 0.35% on the next \$50 million of Managed Assets, and 0.30% on Managed Assets that are in excess of \$100 million. The Adviser and LBAM LLC are wholly owned subsidiaries of Lehman Brothers Holdings Inc., a publicly traded corporation.

First Trust Portfolios L.P. ("First Trust") serves as the Fund's distribution and marketing agent, and investor servicing agent. As the Fund's distribution and marketing agent, First Trust provides certain distribution and marketing services for the Fund's common shares including preparing marketing materials and presentations, developing contacts with brokers whose clients may have an interest in acquiring Fund shares and replying to information requests from prospective investors. In consideration for these services, First Trust receives a fee paid by the Adviser.

First Trust, as the investor servicing agent, developed and maintains a website for the Fund, assists in the review of shareholder materials, assists in the dissemination of the Fund's net asset value and market price, provides ongoing shareholder and account maintenance services, replies to information requests from shareholders and aids in secondary market support. In consideration for these services, the Fund pays First Trust a monthly fee computed at the annual rate 0.05% of the Fund's average daily Managed Assets. For the year ended

21

December 31, 2005, the Fund paid First Trust, as the investor servicing agent, a fee equal to \$136,411.

The Fund pays no compensation to its officers or to its Trustees who are interested Trustees of the Adviser or its affiliates.

#### NOTE 4 -- INVESTMENT IN SECURITIES

For the year ended December 31, 2005, purchases and sales of investments, other than short-term securities, aggregated \$251,964,596 and \$258,950,264, respectively.

#### NOTE 5 -- MONEY MARKET CUMULATIVE PREFERRED SHARES

The Fund is authorized to issue 3,750 Money Market Cumulative Preferred Shares ("MMP"), each without par value. On October 22, 2003, the Fund issued 3,600 MMP with proceeds of \$90,000,000 in a public offering. The underwriting commissions and offering costs of \$1,236,545 were incurred in connection with the offering and were charged directly to paid-in capital of the common shares. Distributions to preferred shareholders are cumulative at a rate which was established at the offering and is reset every twenty-eight days based on the results of an auction. The Fund pays commissions to certain broker-dealers at the end of each auction at an annual rate of 0.25%. For the year ended December 31, 2005, Lehman Government Securities, Inc., an affiliate of the Adviser, earned \$225,000 in commissions.

The MMP are redeemable at the option of the Fund at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends, on any dividend payment date. The MMP are also subject to mandatory redemption at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends, if the Fund defaults on its asset maintenance requirements with respect to the MMP and fails to cure such a default within the time permitted. If the dividends on the

Edgar Filing: LEHMAN BROTHERS FIRST TRUST INCOME OPPORTUNITY FUND - Form N-CSR

MMP shall remain unpaid in an amount equal to two full years' dividends, the holders of the MMP, as a class, have the right to elect a majority of the Board of Trustees. In general, the holders of the MMP and the common shares have equal voting rights of one vote per share, except that the holders of the MMP, as a separate class, have the right to elect at least two members of the Board of Trustees and to vote under certain other circumstances specified in the Fund's Amended By-Laws. The MMP have a liquidation preference of \$25,000 per share, plus accumulated and unpaid dividends. The Fund is required to maintain certain asset coverage with respect to the MMP as defined in the Fund's Amended By-Laws and the 1940 Act.

NOTE 6 -- DISTRIBUTIONS TO SHAREHOLDERS

The Fund intends to make monthly distributions of net investment income to common shareholders, after payments of any dividends on outstanding MMP. Distributions to common shareholders are recorded on the ex-dividend date. Distributions to preferred shareholders are recorded daily and are payable at the end of each dividend period. Each dividend payment period for the MMP is generally twenty-eight days. For the year ended December 31, 2005, the dividend rates for MMP ranged from 2.41% to 4.35%. The dividend rate for MMP on December 31, 2005 was 4.35%. In addition, at least annually, the Fund intends to distribute net capital gains, if any. The timing and characterization of certain income and capital gains distributions are determined in accordance with federal tax regulations which may differ from U.S. generally accepted accounting principles. Permanent differences between book and tax accounting relating to distributions are reclassified to paid-in capital.

NOTE 7 -- SHARES OF BENEFICIAL INTEREST

The Fund's Declaration of Trust authorizes the Trustees to issue an unlimited number of common shares for the Fund, each without par value. Transactions in common shares were as follows:

	YEAR ENDED DECEMBER 31, 2005		YEAR ENDED DECEMBER 31, 2004	
	SHARES	AMOUNT	SHARES	AMOUNT
Shares issued pursuant to the Fund's dividend reinvestment plan	8,148	\$ 120,786	8,448	\$ 128,713
Increase derived from capital share transactions	8,148	\$ 120,786	8,448	\$ 128,713

NOTE 8 -- CONCENTRATION OF CREDIT RISK

The Fund will normally invest at least 80% of its Managed Assets in investments offering high current income, which generally will be in the lower rating categories of recognized rating agencies. These investments are regarded as predominantly speculative with respect to capacity to pay interest and repay principal in accordance with the terms of the obligations and will generally involve more credit risk than securities in the higher rating categories. In addition, the trading market for high yield investments may be relatively less liquid than the market for higher-rated investments.

NOTE 9 -- RISK ASSOCIATED WITH THE USE OF LEVERAGE

The Fund's use of leverage through the issuance of preferred shares and borrowings, as well as the economic leverage inherent in certain derivatives, including credit default swaps, creates risks for holders of common shares. There is no assurance that the Fund's leveraging strategies will be successful. If the Fund issues preferred shares or borrows money to make additional investments and the income and capital appreciation from those investments exceed the dividends payable on the preferred shares or the costs of borrowing, the Fund's investment return will be greater than if leverage had not been used. However, if the dividends payable on the preferred shares or the costs of borrowing exceed the income and capital appreciation from the additional investments, the Fund would lose money and its investment return will be lower than if leverage had not been used. Leverage creates risks which may adversely affect the return for holders of common shares, including:

- (a) the likelihood of greater volatility of net asset value and market price of the Fund's common shares;
- (b) the possibility either that common share income will fall if the preferred share dividend rate rises or the Fund's borrowing costs increase, or that common share income will fluctuate because of changes in the preferred share dividend rates or borrowing costs.

NOTE 10 -- INDEMNIFICATIONS

In the ordinary course of business, the Fund enters into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

NOTE 11 -- FEDERAL INCOME TAX INFORMATION

For the years ended December 31, 2005 and December 31, 2004, the tax character of distributions paid was \$21,925,912 and \$21,569,758 of ordinary income, respectively. For the year ended December 31, 2005 the tax character of distributions for long term capital gains and return of capital was \$568,757 and \$49,045, respectively.

As of December 31, 2005, the components of accumulated earnings on a tax basis were as follows:

Capital and other losses	\$ (585,602)
Unrealized gains	4,420,050*
-----	
TOTAL ACCUMULATED EARNINGS	\$ 3,834,448

\* The difference between book-basis and tax-basis net unrealized gains is attributed primarily to wash sales.

A permanent difference incurred during the period ended December 31, 2005, resulting from differences in book and tax accounting due to the tax treatment for paydown gains and losses on mortgage backed securities, the tax treatment for swaps and return of capital distributions, and a redesignation of distributions paid, has been reclassified at year end by increasing undistributed net income by \$1,388,978, decreasing undistributed realized gain by \$1,339,933 and decreasing paid in capital by \$49,045.

At December 31, 2005 the Fund elected to defer post October 31 net capital losses by \$585,602.

NOTE 12 -- SUBSEQUENT EVENT (UNAUDITED)

At its meeting held on February 15, 2006, the Board of Trustees of the Fund (the "Board") nominated for election as trustees of the Fund (at the annual meeting of the shareholders of the Fund scheduled to be held on April 19, 2006) the following individuals: John Cannon, Faith Colish, C. Anne Harvey, Barry Hirsch, Robert A. Kavesh, Howard A. Mileaf, Edward I. O'Brien, Jack L. Rivkin, William E. Rulon, Cornelius T. Ryan, Tom D. Seip, Candace L. Straight, Peter E. Sundman and Peter P. Trapp. These individuals currently serve as the trustees/directors of the Neuberger Berman family of funds ("NB Trustees"). This family of funds is advised by an affiliate of Lehman Brothers Asset Management Inc. ("LBAM"), the Fund's investment adviser. The current members of the Board have determined not to continue serving as Trustees of the Fund upon the election of the NB

23

Trustees as Trustees of the Fund. This determination was based on the Board's and the nominating committee's consideration of management's recommendation that the board oversight of the Fund be transitioned to the NB Trustees. Specifically, following thorough review of the matter, and based on representations from LBAM and representatives from NBMI (the investment adviser to the Neuberger Berman family of funds), the Board agreed that transitioning the Fund's governance to the NB Trustees would likely result in the realization of cost savings and operational efficiencies for the Fund and its shareholders. To accomplish this transition, and consistent with management's recommendation, the Board voted to nominate all of the NB Trustees for election as Trustees of the Fund.

OTHER INFORMATION

SHAREHOLDER VOTING RESULTS (UNAUDITED)

The annual meeting of the Trust's shareholders was held on May 25, 2005 at which shareholders considered and approved the following proposals. The voting results were the following:

With respect to the election of Stephanie E. Dolan as a Trustee of the Fund:

11,799,430.812 shares of Common Shares and MMP Shares, voting together as a single class, or 99.514% of shares cast, in the affirmative, with 57,670 shares, or 0.486% of shares cast, withheld;

With respect to the election of Scott Hall as a Trustee of the Fund:

11,803,145.812 shares of Common Shares and MMP Shares, voting together as a single class, or 99.545% of shares cast, in the affirmative, with 53,955 shares, or 0.455% of shares cast, withheld; and

With respect to the election of Michael M. Knetter as a Trustee of the Fund:

1,917 MMP shares, or 100% of shares cast, in the affirmative, with 0 shares or 0% of shares cast withheld.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

## Edgar Filing: LEHMAN BROTHERS FIRST TRUST INCOME OPPORTUNITY FUND - Form N-CSR

To the Shareholders and Board of Trustees  
Lehman Brothers First Trust Income Opportunity Fund

We have audited the accompanying statement of assets and liabilities of Lehman Brothers First Trust Income Opportunity Fund (the "Fund"), including the schedule of investments, as of December 31, 2005, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the periods indicated therein. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Fund's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2005, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from brokers were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Lehman Brothers First Trust Income Opportunity Fund, at December 31, 2005, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the periods indicated therein, in conformity with U.S. generally accepted accounting principles.

### DIVIDEND REINVESTMENT PLAN

The Fund has a Dividend Reinvestment Plan (the "Plan") commonly referred to as an "opt-out" plan. Each common shareholder will have all distributions of dividends and capital gains automatically reinvested in additional common shares by Investors Bank & Trust Company, as agent for shareholders pursuant to the Plan (the "Plan Agent"), unless the shareholder elects to receive cash or unless the shares are registered in the name of a broker-dealer or other nominee (that is, in "street name") and the respective nominee does not participate in the Plan. For Plan participants, the Plan Agent will either (i) effect purchases of common shares under the Plan in the open market or (ii) distribute newly issued common shares of the Fund. Shareholders who elect not to participate in the Plan will receive all distributions in cash paid by check mailed directly to the

shareholder of record (or if the shares are held in street or other nominee name, then to the nominee) by the Plan Agent, as dividend disbursing agent. Certain broker-dealers and nominees do not permit their clients to participate in dividend reinvestment plans. Shareholders whose common shares are held in the name of a broker or nominee should contact the broker or nominee to determine whether and how they may participate in the Plan.

The Plan Agent serves as agent for the shareholders in administering the Plan. After the Fund declares a dividend or makes a capital gain distribution, the Plan Agent will, as agent for the participants, either (i) receive the cash payment and use it to buy common shares in the open market, on the New York Stock Exchange or elsewhere, for the participants' accounts or (ii) distribute newly issued common shares of the Fund on behalf of the participants. The Plan Agent will receive cash from the Fund with which to buy common shares in the open market if, on the determination date, the net asset value per share exceeds the market price per share plus estimated brokerage commissions on that date. The Plan Agent will receive the dividend or distribution in newly issued common shares of the Fund if, on the determination date, the market price per share plus estimated brokerage commissions equals or exceeds the net asset value per share of the Fund on that date. The number of shares to be issued will be computed at a per share rate equal to the greater of (i) the net asset value or (ii) 95% of the closing market price per share on the payment date.

Participants in the Plan may withdraw from the Plan upon written notice to the Plan Agent. Such withdrawal will be effective immediately if received not less than ten days prior to a distribution record date; otherwise, it will be effective for all subsequent dividend record dates. When a participant withdraws from the Plan or upon termination of the Plan as provided below, certificates for whole common shares credited to his or her account under the Plan will be issued and a cash payment will be made for any fraction of a common share credited to such account. In the alternative, upon receipt of the participant's instructions, common shares will be sold and the proceeds sent to the participant less brokerage commissions and any applicable taxes.

The Plan Agent maintains each shareholder's account in the Plan and furnishes confirmations of all acquisitions made for the participant. Common shares in the account of each Plan participant will be held by the Plan Agent on behalf of the participant. Proxy material relating to shareholders' meetings of the Fund will include those shares purchased as well as shares held pursuant to the Plan.

In the case of shareholders, such as banks, brokers or nominees, which hold common shares for others who are the beneficial owners, the Plan Agent will administer the Plan on the basis of the number of common shares certified from time to time by the record shareholders as representing the total amount registered in the record shareholder's name and held for the account of beneficial owners who are participants in the Plan.

The Plan Agent's fees for the handling of reinvestment of dividends and other distributions will be paid by the Fund. Each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of distributions. There are no other charges to participants for reinvesting dividends or capital gain distributions; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants.

The automatic reinvestment of dividends and other distributions will not relieve participants of any income tax that may be payable or required to be withheld on such dividends or distributions.

The Fund and the Plan Agent reserve the right to amend or terminate the Plan. All correspondence concerning the Plan should be directed to: Investors Bank & Trust Company, 200 Clarendon Street, Mail Stop OPS22, Boston, MA 02116

capacity as a committee member or a member of the board of trustees); and (ii) he is not an "interested person" of the Registrant as that term is defined in Section 2(a)(19) of the Investment Company Act of 1940, as amended (the "1940 Act").

### ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

- (a) **AUDIT FEES:** The aggregate fees billed to the Registrant for professional services rendered by its independent auditors, Ernst & Young LLP, for the audit of the Registrant's annual financial statements for the year ended 2005 and 2004 were \$34,500, and \$36,400.
- (b) **AUDIT RELATED FEES:** The aggregate fees billed to the Registrant for professional services rendered by its independent auditors, Ernst & Young LLP, for the the initial and year end agreed upon procedures reporting for the preferred shares for the years ended 2005 and 2004 were \$6,000 and \$5,400, respectively.
- (c) **TAX FEES:** The aggregate fees accrued for professional services rendered by Ernst & Young LLP for tax compliance, tax advice, and tax planning for the years ended 2005 and 2004 were \$8,700 and \$4,250, respectively. Such services included the preparation of the year-end tax provision and excise tax work.
- (d) **ALL OTHER FEES:** The aggregate fees billed to the Registrant for professional services rendered by its independent auditors, Ernst & Young LLP, other than services reported in Audit Fees, Audited-Related Fees, and Tax Fees for years ended 2005 and 2004 were \$0 and \$0, respectively.
- (e) (1) The Registrant's Audit Committee pre-approved the provision of audit and non-audit services by Ernst & Young LLP for the fiscal years ended December 31, 2005 and December 31, 2004. The Registrant has not delegated the pre-approval of audit and non-audit services to a member of the audit committee. Rather, any action of the audit committee with respect to the pre-approval process requires the vote of a majority of the audit committee members present, whether in person or otherwise, at the meeting at which such action is considered. One member of the audit committee shall constitute a quorum for the purpose of taking any action.  
(2) The percentage of services described in each of paragraphs (b) through (d) of this Item that were approved by the audit committee pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X are as follows:
  - (b) 100%
  - (c) 100%

PORTFOLIO MANAGER INFORMATION

Lehman Brothers Asset Management Inc. serves as investment adviser to the Fund, with overall responsibility for overseeing the Fund's management. Lehman Brothers Asset Management LLC ("LBAM LLC") serves as investment sub-adviser to the Fund and has day-to-day responsibility for managing the Fund's portfolio of investments. Information relating to the portfolio managers for the Fund is presented below.

Ann H. Benjamin has served as lead portfolio manager for the Fund since its inception. She is the managing director and chief investment officer of high yield for LBAM LLC. She serves as the lead portfolio manager for all of LBAM LLC's high yield strategy accounts. Ann H. Benjamin has been with LBAM LLC since March 1, 1997.

Thomas P. O'Reilly has served as portfolio and credit analyst for the Fund since its inception. He is a senior vice president and portfolio manager for LBAM LLC. He serves as portfolio and credit analyst for all of LBAM LLC's high yield strategy accounts. Thomas P. O'Reilly has been with LBAM LLC since July 1, 1997.

The Fund's portfolio managers may manage other accounts with investment strategies similar to those of the Fund, which may suggest the potential for conflicts of interest. LBAM LLC may charge varying fees to different accounts managed by the portfolio managers. The Fund's portfolio managers may participate personally in some pooled accounts, including the Fund. LBAM LCC may manage

accounts with variable fees based on performance. Theoretically, these features could create an incentive for a portfolio manager to favor the higher or variable fee accounts, or accounts in which he or she participates, which may not include the Fund. However, the Fund does not anticipate that management by a Fund portfolio manager of other accounts with a similar investment strategy would conflict with the management of the Fund. LBAM LLC has a fundamental policy to bundle trades for all accounts managed, which LBAM LLC believes promotes best execution. LBAM LLC dedicates high yield trading personnel to focus on purchasing bonds within the levels established by the portfolio managers. LBAM LLC observes the following practices and policies as part of its trading strategies: 1) adherence to the requirement that best execution is the sole criterion for evaluating trades; 2) policies and procedures requiring fair treatment of all clients; 3) professional conduct requirements mandating the primacy of the best interests of clients; 4) a policy against directing soft dollar credits to individual brokers on behalf of individual clients; 5) trading positions for all portfolios or accounts together; 6) seeking competitive bids for purchases and sales, to the extent possible; and 7) close attention to the orderly handling of cash flows. LBAM LLC manages its various portfolios and accounts without regard to management fees.

PORTFOLIO MANAGER COMPENSATION

All portfolio managers are employed and compensated by LBAM LLC, the investment sub-adviser for the Fund. LBAM LLC evaluates the performance of portfolio managers in light of LBAM LLC's success in meeting its clients stated goals and objectives (i.e. the performance of a client's portfolio; while fees for most of the high yield portfolios or accounts LBAM LLC manages are not based on performance, the performance of a portfolio or account is relevant to the portfolio manager's compensation). Based on this performance evaluation, each portfolio manager earns annual compensation comprised of a salary and bonus. A portion of bonuses may be paid through the Lehman Brothers Stock Award Program, which includes restricted stock units or options with specific terms on vesting and forfeiture.

In addition to the annual compensation and Lehman equity, a portfolio manager's success is tied to the company's success through participation in the company's Incentive Payment Pool (IPP). The IPP will be valued at a fixed multiple of future earnings. Payouts will begin in 2007 and extend through 2009.
