## EXPLANATORY NOTE

Agnico Eagle Mines Limited (the "Company") is a Canadian issuer eligible to file its annual report pursuant to Section 13 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), on Form 40-F pursuant to the multi-jurisdictional disclosure system of the Exchange Act. The Company is a "foreign private issuer" as defined in Rule 3b-4 under the Exchange Act. Equity securities of the Company are accordingly exempt from Sections 14(a), 14(b), 14(c), 14(f) and 16 of the Exchange Act pursuant to Rule 3a12-3 under the Exchange Act.

## FORWARD-LOOKING INFORMATION

This Annual Report on Form 40-F and the exhibits attached hereto (the "Form 40-F") contain "forward-looking statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995. These statements relate to, among other things, the Company's plans, objectives, expectations, estimates, beliefs, strategies and intentions and can generally be identified by the use of words such as "anticipate", "believe", "budget", "could", "estimate", "expect", "forecast", "intend", "likely", "may", "plan", "project", "schedule", "should", "target", "will", "would" or other variations of these terms or similar words. Forward-looking statements in this Form 40-F include, but are not limited to, the following:

the Company's outlook for 2014 and future periods;

statements regarding future earnings, and the sensitivity of earnings to gold and other metal prices;

anticipated levels or trends for prices of gold and byproduct metals mined by the Company or for exchange rates between currencies in which capital is raised, revenue is generated or expenses are incurred by the Company;

estimates of future mineral production and sales;

estimates of future costs, including mining costs, total cash costs per ounce, all-in sustaining costs, minesite costs per tonne and other expenses;

estimates of future capital expenditure, exploration expenditure and other cash needs, and expectations as to the funding thereof;

statements regarding the projected exploration, development and exploitation of certain ore deposits, including estimates of exploration, development and production and other capital costs and estimates of the timing of such exploration, development and production or decisions with respect thereto;

estimates of mineral reserves, mineral resources and ore grades and statements regarding anticipated future exploration results;

estimates of cash flow;

estimates of mine life;

anticipated timing of events with respect to the Company's minesites, mine construction projects and exploration projects;

## Edgar Filing: AGNICO EAGLE MINES LTD - Form 40-F

estimates of future costs and other liabilities for environmental remediation;

statements regarding anticipated legislation and regulation regarding climate change and estimates of the impact on the Company; and

other anticipated trends with respect to the Company's capital resources and results of operations.

Forward-looking statements are necessarily based upon a number of factors and assumptions that, while considered reasonable by the Company as of the date of such statements, are inherently subject to significant business, economic and competitive uncertainties and contingencies. The factors and assumptions of the Company upon which the forward-looking statements in the Form 40-F are based, and which may prove to be incorrect, include, but are not limited to, the assumptions set out elsewhere in the Form 40-F as well as: that there are no significant disruptions affecting the Company's operations, whether due to labour disruptions, supply disruptions, damage to equipment, natural or man-made occurrences, mining or milling issues, political changes, title issues or otherwise; that permitting, development and expansion at each of the Company's mines and mine development projects proceed on a basis consistent with current expectations, and that the Company

---

## Edgar Filing: AGNICO EAGLE MINES LTD - Form 40-F

does not change its exploration or development plans relating to such projects; that the exchange rates between the Canadian dollar, Euro, Mexican peso and the U.S. dollar will be approximately consistent with current levels or as set out in the Form 40-F; that prices for gold, silver, zinc, copper and lead will be consistent with the Company's expectations; that prices for key mining and construction supplies, including labour costs, remain consistent with the Company's current expectations; that production meets expectations; that the Company's current estimates of mineral reserves, mineral resources, mineral grades and mineral recovery are accurate; that there are no material delays in the timing for completion of development projects; and that there are no material variations in the current tax and regulatory environment that affect the Company.

The forward-looking statements in the Form 40-F reflect the Company's views as at the date hereof and involve known and unknown risks, uncertainties and other factors which could cause the actual results, performance or achievements of the Company or industry results to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, among others, the risk factors set out under "Risk Factors" on page 78 of the Company's annual information form for the year ended December 31, 2013, which is filed as Exhibit 99.1 to this Form 40-F and incorporated by reference herein (the "AIF"). Given these uncertainties, readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date made. Except as otherwise required by law, the Company expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any such statements to reflect any change in the Company's expectations or any change in events, conditions or circumstances on which any such statement is based. This Form 40-F contains information regarding estimated total cash costs per ounce, all-in sustaining costs and minesite costs per tonne in respect of the Company or at certain of the Company's mines and mine development projects. The Company believes that these generally accepted industry measures are realistic indicators of operating performance and are useful in allowing year over year comparisons. Investors are cautioned that this information may not be suitable for other purposes.

### CURRENCY

The Company presents its consolidated financial statements in United States dollars. All dollar amounts in this Form 40-F are stated in United States dollars ("U.S. dollars", "\$" or "US\$"), except where otherwise indicated. On March 21, 2014, the noon exchange rate (as reported by the Bank of Canada) of United States dollars into Canadian dollars ("C\$") was US\$1.00 equals C\$1.12.

### NOTE TO INVESTORS CONCERNING ESTIMATES OF MINERAL RESERVES AND MINERAL RESOURCES

The mineral reserve and mineral resource estimates contained in this Form 40-F have been prepared in accordance with the Canadian securities regulatory authorities' (the "CSA") National Instrument 43-101 *Standards of Disclosure for Mineral Projects* ("NI 43-101"). These standards are similar to those used by the United States Securities and Exchange Commission's (the "SEC") Industry Guide No. 7, as interpreted by Staff at the SEC ("Guide 7"). However, the definitions in NI 43-101 differ in certain respects from those under Guide 7. Accordingly, mineral reserve information contained or incorporated by reference herein may not be comparable to similar information disclosed by U.S. companies. Under the requirements of the SEC, mineralization may not be classified as a "reserve" unless the determination has been made that the mineralization could be economically and legally produced or extracted at the time the reserve determination is made. The SEC does not recognize measures of "mineral resource".

The mineral reserve figures presented herein are estimates, and no assurance can be given that the anticipated tonnages and grades will be achieved or that the indicated level of recovery will be realized. The Company does not include equivalent gold ounces for byproduct metals contained in mineral reserves in its calculation of contained ounces.

#### Cautionary Note to Investors Concerning Estimates of Measured and Indicated Mineral Resources

The Form 40-F uses the terms "measured mineral resources" and "indicated mineral resources". Investors are advised that while those terms are recognized and required by Canadian regulations, the SEC does not recognize them. **Investors are cautioned not to assume that any part or all of mineral deposits in these categories will ever be converted into mineral reserves.**

---

**Cautionary Note to Investors Concerning Estimates of Inferred Mineral Resources**

The Form 40-F uses the term "inferred mineral resources". Investors are advised that while this term is recognized and required by Canadian regulations, the SEC does not recognize it. "Inferred mineral resources" have a great amount of uncertainty as to their existence and as to their economic and legal feasibility. It cannot be assumed that any part or all of an inferred mineral resource will ever be upgraded to a higher category. Under Canadian rules, estimates of inferred mineral resources may not form the basis of feasibility or pre-feasibility studies, except in rare cases. **Investors are cautioned not to assume that any part or all of an inferred mineral resource exists, or is economically or legally mineable.**

**NOTE TO INVESTORS CONCERNING CERTAIN MEASURES OF PERFORMANCE**

The Form 40-F presents certain measures, including "total cash costs per ounce", "minesite costs per tonne" and "all-in sustaining costs", that are not recognized measures under United States generally accepted accounting principles ("US GAAP"). This data may not be comparable to data presented by other gold producers. For a reconciliation of these measures to the most directly comparable financial information presented in the consolidated financial statements prepared in accordance with US GAAP, see the Company's management's discussion and analysis for the year ended December 31, 2013, which is filed as Exhibit 99.3 to this Form 40-F and incorporated by reference herein (the "Annual MD&A"). The Company believes that these generally accepted industry measures are realistic indicators of operating performance and are useful in allowing year over year comparisons. However, these non-US GAAP measures should be considered together with other data prepared in accordance with US GAAP, and these measures, taken by themselves, are not necessarily indicative of operating costs or cash flow measures prepared in accordance with US GAAP. This Form 40-F also contains information as to estimated future total cash costs per ounce, all-in sustaining costs and minesite costs per tonne. The estimates of total cash costs per ounce, all-in sustaining costs and minesite costs per tonne are based upon the total cash costs per ounce, all-in sustaining costs and minesite costs per tonne that the Company expects to incur to mine gold at its mines and projects and, consistent with the reconciliation of these actual costs referred to above, do not include production costs attributable to accretion expense and other asset retirement costs, which will vary over time as each project is developed and mined. It is therefore not practicable to reconcile these forward-looking non-US GAAP financial measures to the most comparable US GAAP measure.

**DISCLOSURE CONTROLS AND PROCEDURES**

The Company's management, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the Company's disclosure controls and procedures as of December 31, 2013 pursuant to Rule 13a-15 under the Exchange Act. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and that management is required to apply its judgment in evaluating the benefits of possible controls and procedures relative to their costs.

Based on such evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that, as of December 31, 2013, the Company's disclosure controls and procedures were designed at a reasonable assurance level and were effective to provide reasonable assurance that information the Company is required to disclose in reports that the Company files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and that such information is accumulated and communicated to the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

**MANAGEMENT'S ANNUAL REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING**

Management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is a process designed by, or under the supervision of, the Company's Chief Executive Officer and Chief Financial Officer and effected by the Company's board of directors (the "Board"), management and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2013. In making this assessment, the Company's management used the criteria outlined by the Committee of Sponsoring Organizations of the Treadway Commission in *Internal Control - Integrated Framework* issued in 1992. Based on its assessment, management concluded that, as of December 31, 2013, the Company's internal control over financial reporting was effective.

The effectiveness of the Company's internal control over financial reporting as of December 31, 2013 has been audited by Ernst & Young LLP, an independent registered public accounting firm, as stated in its attestation report on page 2 of the Company's Annual Audited Consolidated Financial Statements, which are filed as Exhibit 99.2 to this Form 40-F and incorporated by reference herein (the "Annual Financial Statements").

The Company will continue to periodically review its disclosure controls and procedures and internal control over financial reporting and may make modifications from time to time as considered necessary or desirable.

**ATTESTATION REPORT OF THE REGISTERED PUBLIC ACCOUNTING FIRM**

Ernst & Young LLP's attestation report on the effectiveness of the Company's internal control over financial reporting is found on page 2 of the Annual Financial Statements.

**CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING**

Management regularly reviews its system of internal control over financial reporting and makes changes to the Company's processes and systems to improve controls and increase efficiency, while ensuring that the Company maintains an effective internal control environment. Changes may include such activities as implementing new, more efficient systems, consolidating activities and migrating processes.

There was no change in the Company's internal control over financial reporting that occurred during the period covered by this Form 40-F that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

**NOTICES PURSUANT TO REGULATION BTR**

None.

**IDENTIFICATION OF THE AUDIT COMMITTEE**

The Board has a separately-designated standing Audit Committee established in accordance with section 3(a)(58)(A) of the Exchange Act. The Audit Committee is composed of Dr. Leanne Baker (Chair), Mr. Mel Leiderman, Mr. Bernard Kraft and Dr. Sean Riley, as described under "Audit Committee - Composition of the Audit Committee" on page 96 of the AIF.

**AUDIT COMMITTEE FINANCIAL EXPERT**

## Edgar Filing: AGNICO EAGLE MINES LTD - Form 40-F

The Board has determined that the Company shall have at least one "audit committee financial expert" (as defined in paragraph (8) of General Instruction B to Form 40-F) and that Messrs. Bernard Kraft and Mel Leiderman are the Company's "audit committee financial experts" serving on the Audit Committee of the Board. Each of the Audit Committee financial experts is "independent" under applicable listing standards.

### **PRINCIPAL ACCOUNTANT FEES AND SERVICES**

Ernst & Young LLP served as the Company's independent public accountant for each of the fiscal years in the two-year period ended December 31, 2013. For a description of the total amount billed to the Company by Ernst & Young LLP for services performed in the last two fiscal years by category of service (audit fees, audit-related fees, tax fees and all other fees), see "Audit Committee External Auditor Service Fees" on page 97 of the AIF.

### **AUDIT COMMITTEE PRE-APPROVAL POLICIES AND PROCEDURES**

For a description of the pre-approval policies and procedures of the Company's Audit Committee, see "Audit Committee Pre-Approval Policies and Procedures" on page 97 of the AIF. No audit-related fees, tax fees or other non-audit fees were approved by the Audit Committee pursuant to paragraph (c)(7)(i)(C) of Rule 2-01 of Regulation S-X.

### **CODE OF ETHICS**

The Company has a "code of ethics" (as defined in paragraph (9) of General Instruction B to Form 40-F) that applies to its Chief Executive Officer, Chief Financial Officer, principal accounting officer, controller and persons performing similar functions. The Company's code of ethics is available on the Company's website at [www.agnicoeagle.com](http://www.agnicoeagle.com) or, without charge, upon request from the Corporate Secretary, Agnico Eagle Mines Limited, Suite 400, 145 King Street East, Toronto, Ontario M5C 2Y7 (telephone 416-947-1212).

### **OFF-BALANCE SHEET ARRANGEMENTS**

Not applicable.

### **CONTRACTUAL OBLIGATIONS**

For tabular disclosure of the Company's contractual obligations, see page 15 of the Annual MD&A under the heading "Liquidity and Capital Resources".

### **MINE SAFETY DISCLOSURE**

Not applicable.

### **CORPORATE GOVERNANCE**

The Company is subject to a variety of corporate governance guidelines and requirements enacted by the Toronto Stock Exchange (the "TSX"), the CSA, the New York Stock Exchange (the "NYSE") and the SEC. The Company is listed on the NYSE and, although the Company is not required to comply with most of the NYSE corporate governance requirements to which the Company would be subject if it were a U.S. corporation, the Company's governance practices differ from those required of U.S. domestic issuers in only the following respects. The NYSE rules for U.S. domestic issuers require shareholder approval of all equity compensation plans (as defined in the NYSE rules) regardless of whether new issuances, treasury shares or shares that the Company has purchased in the open market are used. The TSX rules require shareholder approval of share compensation arrangements involving new issuances of shares, and of certain amendments to such arrangements, but do not require such approval if the compensation arrangements involve only shares purchased in the open market. The NYSE rules for U.S. domestic issuers also require shareholder approval of certain transactions or series of related transactions that result in the issuance of common shares, or securities convertible into or exercisable for common shares, that have, or will have upon issuance, voting power equal to or in excess of 20% of the voting power outstanding prior to the transaction or if the issuance of common shares, or securities convertible into or exercisable for common shares, are, or will be upon issuance, equal to or in excess of 20% of the number of common shares outstanding prior to the transaction. The TSX rules require shareholder approval of acquisition transactions resulting in dilution in excess of 25%. The TSX also has broad general discretion to require shareholder approval in connection with any issuances of listed securities. The written charter of the Company's compensation committee does not include an annual performance evaluation of the compensation committee or the rights and

responsibilities of the committee with respect to retaining or obtaining advice from an independent compensation consultant, legal counsel or other adviser, as required

---

## Edgar Filing: AGNICO EAGLE MINES LTD - Form 40-F

under the NYSE rules. The TSX rules do not have such requirements. The Company complies with the TSX rules described in this paragraph.

### **UNDERTAKING**

The Company undertakes to make available, in person or by telephone, representatives to respond to inquiries made by the SEC staff, and to furnish promptly, when requested to do so by the SEC staff, information relating to: the securities in relation to which the obligation to file an annual report on Form 40-F arises; or transactions in said securities.

### **CONSENT TO SERVICE OF PROCESS**

Concurrently with the filing of this Form 40-F, the Company is filing a Form F-X with the SEC.

Any change to the name or address of the Company's agent for service shall be communicated promptly to the SEC by amendment to the Form F-X referencing the file number of the Company.

### **INCORPORATION BY REFERENCE**

This Form 40-F, which includes the exhibits filed herewith (other than the section of the AIF entitled "Ratings"), is incorporated by reference into the Company's Registration Statements on Form F-3D (registration nos. 333-183723 and 333-190888) and Form S-8 (registration nos. 333-130339 and 333-152004). Each of the AIF (other than the section entitled "Ratings"), the Annual Financial Statements and the Annual MD&A is incorporated by reference as an exhibit to the Company's Registration Statement on Form F-10 (registration no. 333-189715).
