Earnings before Interest, Taxes, Depreciation and Amortization (Adjusted EBITDA) is one of our key financial ratios in that it is the basis for determining our maximum borrowing capacity at any one time. Our bank credit agreements contain a financial covenant that our total interest-bearing debt not exceed 3.50x Adjusted EBITDA (or 3.75x Adjusted EBITDA after certain material acquisitions) for the most recent four quarters. These bank credit agreements allow us to add estimated EBITDA from acquired businesses for periods we did not own the acquired businesses. The bank credit agreements also provide for an adjustment to EBITDA, subject to certain specified limitations, for non-cash charges or gains and cash restructuring expenses that are non-recurring in nature. If this financial covenant is violated, we may incur additional financing costs or be required to pay the debt

before its maturity date. Adjusted EBITDA is non-GAAP measure and, accordingly, should not be considered in isolation or as a substitute for net earnings, cash flows from operations or other income or cash flow data prepared in accordance with GAAP or as a measure of our operating performance or liquidity. The calculation of Adjusted EBITDA is as follows:

Adjusted EBITDA, as presented, may not be comparable to similarly titled measures of other companies. During 2014, we incurred \$38,705 of costs associated with refinancing of debt. This category of expense is not in the definition of EBITDA for debt covenant calculation purposes per our debt agreements. As such, it was not added back in the Adjusted EBITDA reconciliation to cash flows from operations or net earnings for the year ended December 27, 2014.

**RISK FACTORS**

*Investing in the notes involves various risks, including the risks described below and in the documents we incorporate by reference herein. You should carefully consider these risks and the other information contained in this prospectus supplement and the accompanying prospectus before deciding to invest in the notes. Additional risks not currently known to us or that we currently believe are immaterial also may impair our business operations, financial condition and liquidity.*

***Our level of indebtedness is substantial and effectively reduces the amount of funds available for other business purposes.***

As of March 31, 2018, we had approximately \$755.0 million of total indebtedness. In addition, we had approximately \$585.3 million of additional available borrowings under our revolving credit facility. Interest costs related to the notes and other debt we may incur will be substantial. Our increased level of indebtedness could reduce funds available for additional acquisitions, capital expenditures or other business purposes, impact our ratings, restrict our financial and operating flexibility or create competitive disadvantages compared to other companies with lower debt levels.

Our ability to make payments of principal and interest on our indebtedness depends upon our future performance, which will be subject to general economic conditions and financial, business and other factors affecting our consolidated operations, many of which are beyond our control. If we are unable to generate sufficient cash flow from operations in the future to service our debt and meet our other cash requirements, we may be required, among other things:

to seek additional financing in the debt or equity markets;

to refinance or restructure all or a portion of our indebtedness, including the notes;

to sell selected assets or businesses; or

to reduce or delay planned capital or operating expenditures.

Such measures might not be sufficient to enable us to service our debt and meet our other cash requirements, including the notes. In addition, any such financing, refinancing or sale of assets might not be available on economically favorable terms or at all.

***There may not be an active trading market for the notes.***

The underwriters have advised us that they currently intend to continue to make a market in the notes as permitted by applicable laws and regulations. However, the underwriters are not obliged to do so and they may discontinue any such market making activities at any time without notice. We do not currently plan to list the notes on any national securities exchange or arrange for their quotation on an automated quotation system. Therefore, we cannot assure you that there will be an active trading market for the notes at any time. In addition, the liquidity of any trading market in the notes, and the market prices quoted for the notes, may be adversely affected by changes in the overall market for these notes, prevailing interest rates, ratings assigned to the notes, time remaining to the maturity of the notes, outstanding amount of the notes, the market for similar securities, prospects for other companies in our industry and changes in our consolidated financial condition, results of operations or prospects.

Table of Contents

***The notes are the unsecured obligations of Valmont Industries, Inc. and its subsidiaries that guarantee the notes. The notes are not obligations of our other subsidiaries and will be structurally subordinated to creditor claims against these non-guarantor subsidiaries. Structural subordination increases the risk that we will be unable to meet our obligations on the notes.***

The notes are exclusively the obligations of Valmont Industries, Inc. and its subsidiaries that guarantee the notes. The notes are not obligations of our other subsidiaries. A substantial portion of our operations are conducted through these non-guarantor subsidiaries. As a result, our cash flow and ability to service our debt, including the notes, depends, in part, upon the earnings of our non-guarantor subsidiaries and the distribution to us of earnings, loans or other payments by such non-guarantor subsidiaries.

Our subsidiaries are separate and distinct legal entities. Certain of our subsidiaries will not guarantee the notes and are under no obligation to pay any amounts due on the notes or to provide us with funds for our payment obligations, whether by dividends, distributions, loans or other payments. Payments to us by our subsidiaries will also be contingent upon such subsidiaries' earnings and business considerations and may be subject to legal and contractual restrictions. As of March 31, 2018, we had approximately \$1.43 billion of total liabilities on a consolidated basis. Of this amount, our non-guarantor subsidiaries had approximately \$457.9 million of liabilities (including trade payables and excluding intercompany debt) to which the notes will be structurally subordinated.

Our right to receive any assets of any of our non-guarantor subsidiaries upon their liquidation or reorganization, and therefore the right of the holders of the notes to participate in those assets, will be effectively subordinated to the claims of the creditors of such non-guarantor subsidiaries, including senior and subordinated debt holders and bank and trade creditors. In addition, even if we were a creditor of any of our non-guarantor subsidiaries, our rights as a creditor would be subordinate to any security interest in the assets of such non-guarantor subsidiaries and any indebtedness of such non-guarantor subsidiaries senior to that held by us.

***Federal and state laws allow courts, under certain circumstances, to void guarantees and require note holders to return payments received from guarantors.***

The notes will be guaranteed, jointly and severally, by certain of our current and future direct and indirect subsidiaries. The guarantees may be subject to review under U.S. federal bankruptcy law and comparable provisions of state fraudulent conveyance and fraudulent transfer laws if a bankruptcy or insolvency proceeding or a lawsuit is commenced by or on behalf of us or one of our subsidiary guarantors or by our unpaid creditors or the unpaid creditors of one of our subsidiary guarantors. Under these laws, a court could void the obligations under the guarantee, subordinate the guarantee of the notes to that subsidiary guarantor's other debt or take other action detrimental to the holders of the notes and the guarantees of the notes, if, among other things, the subsidiary guarantor, at the time it incurred the indebtedness evidenced by its guarantee:

issued the guarantee to delay, hinder or defraud present or future creditors; or

received less than reasonably equivalent value or fair consideration for issuing the guarantee at the time it issued the guarantee; and

was insolvent or rendered insolvent by reason of issuing the guarantee;

was engaged, or about to engage, in a business or transaction for which its remaining assets constituted unreasonably small capital to carry on its business; or

intended to incur, or believed that it would incur, debts beyond its ability to pay as they mature.

In those cases where our solvency or the solvency of one of our subsidiary guarantors is a relevant factor, the measures of insolvency will vary depending upon the law applied in any proceeding to

Table of Contents

determine whether a fraudulent transfer has occurred. Generally, however, a party would be considered insolvent if:

the sum of its debts, including contingent liabilities, was greater than the fair saleable value of all of its assets;

the present fair saleable value of its assets was less than the amount that would be required to pay its probable liability on its existing indebtedness, including contingent liabilities, as they become absolute and mature; or

it could not pay its indebtedness as it becomes due.

We cannot be sure as to the standard that a court would use to determine whether or not a party was solvent at the relevant time, or, regardless of the standard that the court uses, that the issuance of the guarantees would not be voided or the guarantees would not be subordinated to the subsidiary guarantors' other debt. If such a case were to occur, the guarantee could also be subject to the claim that, since the guarantee was incurred for our benefit and only indirectly for the benefit of the subsidiary guarantor, the obligations of the applicable subsidiary guarantor were incurred for less than fair consideration. The indenture governing the notes provides that the guarantees will be limited in amount to an amount not to exceed the maximum amount that can be guaranteed by the subsidiary guarantor without rendering such guarantee voidable under applicable law relating to fraudulent conveyance or fraudulent transfer or similar laws affecting the rights of creditors generally.

***The notes will be subject to the prior claims of any future secured creditors.***

The notes are unsecured obligations, ranking effectively junior to our outstanding secured indebtedness and any additional secured indebtedness we may incur. As of March 31, 2018, we had \$755.0 million of secured indebtedness. Accordingly, the notes will be subordinated to the extent we or our subsidiaries have or will obtain secured borrowings. The indenture governing the notes permits us to incur secured debt under specified circumstances and permits our foreign subsidiaries that do not guarantee the notes to incur secured debt without restriction. If we incur any such additional secured debt, our assets securing any such indebtedness will be subject to prior claims by our secured creditors unless the debt is subject to the covenant herein under "Description of Notes Limitations on Liens," in which case the additional debt will rank equally with the notes. In the event of our bankruptcy, insolvency, liquidation, reorganization, dissolution or other winding up, or upon any acceleration of the notes, our assets that secure other indebtedness will be available to pay obligations on the notes only after all other such debt secured by those assets has been repaid in full. Any remaining assets will be available to you ratably with all of our other unsecured and unsubordinated creditors, including trade creditors. If there are not sufficient assets remaining to pay all these creditors, then all or a portion of the notes then outstanding would remain unpaid.

***The indenture governing the notes contains negative covenants. The limitation on liens and sale/leaseback covenants do not apply to certain of our subsidiaries and contain exceptions that would allow us and our subsidiaries to grant liens or security interests with respect to our assets, rendering the holders of the notes structurally or contractually subordinated to new lenders. The indenture governing the notes does not contain any financial covenants.***

The indenture governing the notes contains negative covenants. The limitation on liens and sale/leaseback covenants apply to us, but not to certain of our subsidiaries. As a result, such subsidiaries will not be restricted under the indenture from granting liens or security interests with respect to all or any of their assets without having to provide similar liens or security to the holders of the notes, or from entering into sale/leaseback transactions. Exceptions to the limitation on liens covenant would allow us and our subsidiaries to incur substantial additional amounts of indebtedness, and to grant liens or

Table of Contents

security interests in connection with those borrowings. The indenture governing the notes does not contain any financial covenants.

***The provisions of the notes will not necessarily protect you in the event of certain highly leveraged transactions.***

Upon the occurrence of a Change of Control Triggering Event (as defined herein) you will have the right to require us to repurchase the notes as provided in the indenture governing, and on the terms set forth in, the notes. However, the Change of Control Triggering Event provisions will not afford you protection in the event of certain highly leveraged transactions that may adversely affect you. For example, any leveraged recapitalization, refinancing, restructuring or acquisition initiated by us generally will not constitute a Change of Control (as defined herein) that would potentially lead to a Change of Control Triggering Event. As a result, we could enter into any such transaction even though the transaction could increase the total amount of our outstanding indebtedness, adversely affect our capital structure or credit rating or otherwise adversely affect the holders of the notes. These transactions may not involve a change in voting power or beneficial ownership or result in a downgrade in the ratings of the notes, or, even if they do, may not necessarily constitute a Change of Control Triggering Event that affords you the protections described in this prospectus supplement. If any such transaction were to occur, the value of your notes could decline.

***We may not be able to repurchase all of the notes upon a Change of Control Triggering Event, which would result in an event of default under your notes.***

We will be required to offer to repurchase the notes upon the occurrence of a Change of Control Triggering Event as provided in the indenture governing the notes. However, we may not have sufficient funds to repurchase the notes in cash at such time. In addition, our ability to repurchase the notes for cash may be limited by law or the terms of other agreements relating to our indebtedness outstanding at the time, which agreements may provide that a Change of Control Triggering Event constitutes an event of default or prepayment under such other indebtedness. Our failure to make such a repurchase would result in an event of default under your notes.

***Ratings of the notes may change and affect the market price and marketability of the notes.***

The trading price for the notes will depend on a number of factors, including:

our credit ratings with major credit rating agencies

the prevailing interest rates being paid by other companies similar to us

the market price of our common shares; our financial condition, operating performance and future prospects; and

the overall condition of the financial markets and global and domestic economies.

The condition of the financial markets and prevailing interest rates have fluctuated in the past and are likely to fluctuate in the future. Such fluctuations could have an adverse effect on the price of the notes. In addition, credit rating agencies continually review their ratings for the companies that they follow, including us. The credit rating agencies also evaluate the industries in which we operate as a whole and may change their credit rating for us based on their overall view of such industries.

There is no assurance that our credit ratings will not be lowered, suspended or withdrawn entirely by the rating agencies, if, in each rating agency's judgment, circumstances so warrant. It is also possible that our ratings may be lowered in connection with future events, such as future acquisitions. Holders of notes will have no recourse against us or any other parties in the event of a change in or suspension or withdrawal of such ratings. Any lowering, suspension or withdrawal of such ratings may have an

Table of Contents

adverse effect on the market price or marketability of the notes. In addition, any decline in the ratings of the notes may make it more difficult for us to raise capital on acceptable terms.

**USE OF PROCEEDS**

We intend to use the net proceeds from the sale of the notes offered hereby (estimated at \$235,340,900 before offering expenses but after deducting the underwriting discounts) for general corporate purposes, including to finance the redemption of a portion or all of our outstanding 2020 Notes at the make-whole redemption price required by the 2020 Notes.

**DESCRIPTION OF THE NOTES AND GUARANTEES**

*The following description of the notes (referred to in the accompanying prospectus generally as debt securities) and guarantees supplements the more general description that appears in the accompanying prospectus. You should read this section together with the section entitled "Description of Debt Securities and Guarantees" in the accompanying prospectus. If there are any inconsistencies between the information in this section and the information in the accompanying prospectus, the information in this section controls.*

*The following description is only a summary of certain terms of the notes, guarantees and the indenture and supplemental indenture governing the notes and guarantees. We urge you to read the indenture and supplemental indenture in their entirety because the indenture and supplemental indenture, and not this summary, define your rights as a holder of the notes. The following summary does not purport to be complete and is subject to, and is qualified in its entirety by reference to, the Trust Indenture Act of 1939, as amended, which we refer to as the TIA, and to all of the provisions of the indenture and supplemental indenture and those terms made a part of the indenture and supplemental indenture by reference to the TIA as in effect on the date of the closing of the offering of the notes. We provide our definitions for the capitalized terms in this section that we otherwise do not define either at the end of the relevant subsection or at the end of this section.*

*For purposes of this section, references to the "Company," "we," "us," "our" or similar terms refer to Valmont Industries, Inc., not including its subsidiaries.*

**General Description of the Notes**

The notes offered hereby will constitute an additional issuance of our 5.00% Senior Notes due 2044 and our 5.25% Senior Notes due 2054. The 2044 Notes will mature on October 1, 2044 and the 2054 Notes will mature on October 1, 2054. The notes will be issued in fully registered form only in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. Interest on the notes will accrue from, and including, the most recent preceding interest payment date to, but excluding, the relevant interest payment date at a rate of 5.00% per year on the 2044 Notes and at a rate of 5.25% per year on the 2054 Notes. Interest on the new 2044 Notes and the new 2054 Notes will be payable semi-annually on April 1 and October 1 beginning on October 1, 2018, to the persons who are registered holders of the notes at the close of business on March 15 and September 15 of each year immediately preceding the respective interest payment dates, except that interest payable at maturity will be paid to the same persons to whom principal of the notes is payable. The notes offered hereby and the existing notes have identical terms (except for the issue price, the issue date and the initial interest payment date) and together form a single series of senior debt securities. The 2044 Notes and the 2054 Notes will each be treated as a single series of senior debt securities under the indenture and, immediately upon settlement, the new 2044 Notes will have the same CUSIP number as and will trade interchangeably with the existing 2044 Notes and the new 2054 Notes will have the same CUSIP number as and will trade interchangeably with the existing 2054 Notes. Holders of the notes offered hereby and the existing notes will vote as one class under the indenture.

Interest will be computed on the basis of a 360-day year consisting of twelve 30-day months. The interest period relating to an interest payment date (including the maturity date) shall be the period from, and including, the most recent preceding interest payment date to, but excluding, the relevant interest payment date.

All payments on the notes, including principal, premium, if any, and interest will be payable at the corporate trust office of the trustee, as paying agent under the indenture as set forth in the indenture.

If any interest payment date, maturity date or redemption date of a note falls on a day that is not a business day, the required payment of principal and interest may be made on the next succeeding business day as if made on the date that the payment was due and no interest will accrue on that

payment for the period from and after that interest payment date, maturity date or redemption date as the case may be, to the date of that payment on the next succeeding business day. The term "business day" means, with respect to any note, any day other than a Saturday, a Sunday or a day on which banking institutions or trust companies in New York, New York or Chicago, Illinois are authorized by law to close.

The notes constitute a series of debt securities to be issued under the senior indenture dated as of April 12, 2010, as supplemented by the second supplemental indenture and third supplemental indenture (together, the "Indenture"), between us, the Guarantors and Wells Fargo Bank, National Association, as trustee, the terms of which are more fully described elsewhere in this prospectus supplement and in the accompanying prospectus.

Currently, the notes will be limited to \$450 million aggregate principal amount for the 2044 Notes (which includes the \$200 million principal amount of the notes in this offering and \$250 million principal amount of existing notes) and \$305 million aggregate principal amount for the 2054 Notes (which includes the \$55 million principal amount of the notes in this offering and \$250 million principal amount of existing notes). The indenture does not limit the aggregate principal amount of debt securities that we may issue thereunder and provides that we may issue debt securities from time to time in one or more additional series. The terms of the indenture and notes do not limit our ability to incur additional indebtedness. The terms of the indenture and notes do not necessarily afford holders of notes protection in the event of a highly leveraged transaction or other transaction involving us that may adversely affect holders.

The notes will not be subject to any sinking fund.

### **Ranking of the Notes**

The notes are:

general unsecured obligations of the Company;

ranked equally in right of payment with all of the Company's existing and future senior unsecured debt;

ranked senior in right of payment to all of the Company's existing and future subordinated debt, if any;

ranked effectively junior to all debt and other liabilities (including trade payables) of our Subsidiaries (if any) that are not Guarantors; and

fully and unconditionally guaranteed by the Guarantors.

### **The Guarantees**

The notes are fully and unconditionally guaranteed by the Guarantors, which currently consists of the same Subsidiaries that guarantee our Revolving Credit Facility. The Guarantees will be:

general unsecured obligations of each Guarantor;

ranked equally in right of payment with all existing and future senior unsecured debt of such Guarantor; and

ranked senior in right of payment to all existing and future subordinated debt of such Guarantor, if any.

Each Guarantor jointly and severally guarantees the Company's obligations under the notes. The obligations of each Guarantor under its Guarantee are limited as necessary to prevent such Guarantee from constituting a fraudulent conveyance or fraudulent transfer under applicable law. See "Risk

Table of Contents

Factors Risk Factors Relating to the Offering Federal and state laws allow courts, under certain circumstances, to void guarantees and require note holders to return payments received from guarantors." Each Guarantor that makes a payment or distribution under a Guarantee will be entitled to a pro rata contribution from each other Guarantor based on the net assets of each other Guarantor.

Each Guarantor may consolidate with or merge into or sell its assets to us or another Guarantor, or with or to other persons upon the terms and conditions set forth in the indenture. A Guarantor may not sell or otherwise dispose of all or substantially all of its assets, or consolidate with or merge with or into another person (whether or not such Guarantor is the surviving person), unless certain conditions are met. See "Description of Debt Securities and Guarantees Covenants Consolidation, Merger or Sale of Assets" in the accompanying prospectus.

The Guarantee of a Guarantor will be deemed automatically discharged and released in accordance with the terms of the indenture. See "Description of Debt Securities and Guarantees Subsidiary Guarantee" in the accompanying prospectus.

**Optional Redemption**

We may redeem the 2044 Notes prior to April 1, 2044 (six months prior to the maturity date) or the 2054 Notes prior to April 1, 2054 (six months prior to the maturity date) at our option, in whole at any time or in part from time to time, at a redemption price equal to the greater of (1) 100% of the principal amount of the notes to be redeemed, and (2) as determined by the Quotation Agent, the sum of the present values of the remaining scheduled payments of principal and interest on the notes to be redeemed (not including any portion of those payments of interest accrued to the date of redemption) from the redemption date to the maturity date of the notes being redeemed, in each case, discounted to the date of redemption on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Adjusted Treasury Rate plus 30 basis points for the 2044 Notes and 35 basis points for the 2054 Notes, plus, in each case, accrued and unpaid interest on the notes to the date of redemption.

At any time on or after April 1, 2044 (six months prior to the maturity date), we may also redeem the 2044 Notes at our option, in whole at any time or in part from time to time, at a redemption price equal to 100% of the principal amount of the 2044 Notes to be redeemed plus, in each case, accrued and unpaid interest on the notes to the date of redemption.

At any time on or after April 1, 2054 (six months prior to the maturity date), we may also redeem the 2054 Notes at our option, in whole at any time or in part from time to time, at a redemption price equal to 100% of the principal amount of the 2054 Notes to be redeemed plus, in each case, accrued and unpaid interest on the notes to the date of redemption.

We will mail notice (or with respect to global notes, to the extent permitted or required by applicable DTC procedures or regulations, send electronically) of any redemption at least 30 days, but not more than 60 days, before the date of redemption to each holder of the notes to be redeemed. If less than all the notes are to be redeemed at any time, subject to DTC procedures, the trustee will select notes to be redeemed on a pro rata basis or by any other method the trustee deems fair and appropriate, and the identification of the particular notes will be included in the notice to holders. Unless we default in payment of the redemption price, on and after the date of redemption, interest will cease to accrue on the notes or portions thereof called for redemption.

**Change of Control Offer**

If a Change of Control Triggering Event occurs, each holder of the notes will have the right to require us to purchase all or a portion (equal to \$2,000 principal amount and any integral multiples of \$1,000 in excess thereof) of such holder's notes pursuant to the offer described below (a "Change of Control Offer") at a purchase price equal to 101% of the aggregate principal amount of the notes

Table of Contents

repurchased, plus accrued and unpaid interest, if any, to the date of repurchase (the "Change of Control Payment"), subject to the rights of holders of notes on the relevant record date to receive interest due on the relevant interest payment date.

We will be required to send a notice to each holder of the notes by first-class mail (or with respect to global notes, to the extent permitted or required by applicable DTC procedures or regulations, send electronically), with a copy to the trustee, within 30 days following the date upon which any Change of Control Triggering Event occurred, or at our option, prior to any Change of Control but after the public announcement of the pending Change of Control. The notice will govern the terms of the Change of Control Offer and will describe, among other things, the transaction that constitutes or may constitute the Change of Control Triggering Event and the purchase date. The purchase date will be at least 30 days but no more than 60 days from the date such notice is sent, other than as may be required by law (a "Change of Control Payment Date"). If the notice is sent prior to the date of consummation of the Change of Control, the notice will state that the Change of Control Offer is conditioned on the Change of Control being consummated on or prior to the Change of Control Payment Date.

On the Change of Control Payment Date, we will, to the extent lawful:

accept for payment all properly tendered notes or portions of notes not validly withdrawn;

deposit with the paying agent the required payment for all properly tendered notes or portions of notes not validly withdrawn; and

deliver or cause to be delivered to the trustee the repurchased notes, accompanied by an officers' certificate stating, among other things, the aggregate principal amount of repurchased notes.

We will not be required to make a Change of Control Offer with respect to the notes upon the occurrence of a Change of Control Triggering Event if a third party makes such an offer in the manner, at the times and otherwise in compliance with the requirements for such an offer made by us and the third-party purchases all notes properly tendered and not withdrawn under its offer.

We will comply with the requirements of Rule 14e-1 under the Exchange Act, and any other securities laws and regulations thereunder, to the extent those laws and regulations are applicable, in connection with the repurchase of notes as a result of a Change of Control Triggering Event. To the extent that the provisions of any such securities laws or regulations conflict with the Change of Control Offer provisions of the notes, we will comply with those securities laws and regulations and will not be deemed to have breached our obligations under the Change of Control Offer provisions of the notes by virtue of any such conflict.

Future debt of the Company may also prohibit the Company from purchasing notes in the event of a Change of Control, provide that a Change of Control is a default or require repurchase upon a Change of Control. Moreover, the exercise by the noteholders of their right to require the Company to purchase the notes could cause a default under other debt, even if the Change of Control itself does not, due to the financial effect of the purchase on the Company.

Finally, the Company's ability to pay cash to the noteholders following the occurrence of a Change of Control may be limited by the Company's then existing financial resources. There can be no assurance that sufficient funds will be available when necessary to make the required purchase of the notes. See "Risk Factors Risk Factors Relating to the Offering We may not be able to repurchase all of the notes upon a Change of Control Triggering Event, which would result in a default under the notes."

Table of Contents

Except as described above with respect to a Change of Control, the indenture does not contain provisions that permit the holder of the notes to require that the Company purchase or redeem the notes in the event of a takeover, recapitalization or similar transaction.

The definition of Change of Control includes a phrase relating to the direct or indirect sale, lease, transfer, conveyance or other disposition of "all or substantially all" of our properties or assets and those of our subsidiaries taken as a whole. Although there is a limited body of case law interpreting the phrase "substantially all," there is no precise established definition of the phrase under applicable law. Accordingly, the ability of a holder of notes to require us to repurchase the notes of that series as a result of a sale, lease, transfer, conveyance or other disposition of less than all of our assets and the assets of our subsidiaries, taken as a whole, to another person or group may be uncertain.

For purposes of the foregoing discussion, the following definitions apply:

**"Change of Control"** means the occurrence of any of the following:

the direct or indirect sale, lease, transfer, conveyance or other disposition (other than by way of merger or consolidation), in one or more series of related transactions, of all or substantially all of our assets and the assets of our subsidiaries, taken as a whole, to any "person" (as that term is used in Section 13(d)(3) of the Exchange Act), other than us or one of our subsidiaries;

the consummation of any transaction (including, without limitation, any merger or consolidation) the result of which is that any "person" (as that term is used in Section 13(d)(3) of the Exchange Act), other than us or one of our subsidiaries, becomes the "beneficial owner" (as defined in Rule 13d-3 under the Exchange Act), directly or indirectly, of more than 50% of our then outstanding Voting Stock or other Voting Stock into which our Voting Stock is reclassified, consolidated, exchanged or changed, measured by voting power rather than number of shares;

the Company consolidates with, or merges with or into, any person, or any person consolidates with, or merges with or into, the Company, in any such event pursuant to a transaction in which any of the outstanding Voting Stock of the Company or such other person is converted into or exchanged for cash, securities or other property, other than any such transaction where the shares of the Voting Stock of the Company outstanding immediately prior to such transaction constitute, or are converted into or exchanged for, a majority of the Voting Stock of the surviving person immediately after giving effect to such transaction;

the first day on which a majority of the members of our board of directors are not Continuing Directors; or

the adoption of a plan relating to our liquidation or dissolution.

Notwithstanding the foregoing, a transaction will not be considered to be a Change of Control if (a) we become a direct or indirect wholly-owned subsidiary of a holding company and (b)(x) immediately following that transaction, the direct or indirect holders of the Voting Stock of the holding company are substantially the same as the holders of our Voting Stock immediately prior to that transaction or (y) immediately following that transaction, no person is the beneficial owner, directly or indirectly, of more than 50% of the Voting Stock of such holding company.

**"Change of Control Triggering Event"** means the occurrence of both a Change of Control and a Rating Event that relates to such Change of Control.

**"Continuing Directors"** means, as of any date of determination, any member of our board of directors who:

was a member of such board of directors on the first date that any of the notes were issued; or

Table of Contents

was nominated for election, elected or appointed to such board of directors with the approval of a majority of the Continuing Directors who were members of such board of directors at the time of such nomination, election or appointment (either by a specific vote or by approval of a proxy statement in which such member was named as a nominee for election as a director).

Under a Delaware Chancery Court interpretation of the foregoing definition of "Continuing Directors," a board of directors may approve, for purposes of such definition, a slate of shareholder-nominated directors without endorsing them or while simultaneously recommending and endorsing its own slate instead. The foregoing interpretation would permit our board to approve a slate of directors that included a majority of dissident directors nominated pursuant to a proxy contest, and the ultimate election of such dissident slate would not constitute a "Change of Control" that could trigger your right to require us to repurchase your notes as described above.

**"Rating Agencies"** means:

each of Moody's Investors Service, Inc., a subsidiary of Moody's Corporation, and its successors, and Standard & Poor's Ratings Services, a division of The McGraw-Hill Companies, Inc., and its successors; and

if either such Rating Agency ceases to rate the notes or fails to make a rating of the notes publicly available for reasons outside of the Company's control, a substitute Rating Agency chosen by the Company.

**"Rating Event"** means with respect to a Change of Control, if the notes carry immediately prior to the first public announcement of the occurrence of such Change of Control or of the intention to effect such Change of Control:

an investment grade credit rating (BBB /Baa3, or equivalent, or better) from both Rating Agencies, and the rating from both Rating Agencies is, within 60 days of the earlier of the occurrence of such Change of Control or the first public announcement of the intention to effect such Change of Control (which period shall be extended so long as the rating of the notes is under publicly announced consideration for possible downgrade by either Rating Agency), either downgraded to a non-investment grade credit rating (BB+/Ba1 or equivalent, or worse) or withdrawn and is not within such period subsequently (in the case of a downgrade) upgraded to an investment grade credit rating or (in the case of a withdrawal) replaced by an investment grade credit rating;

a non-investment grade credit rating (BB+/Ba1, or equivalent, or worse) from both Rating Agencies, and the rating from both Rating Agencies is, within 60 days of the earlier of the occurrence of such Change of Control or the first public announcement of the intention to effect such Change of Control (which period shall be extended so long as the rating of the notes is under publicly announced consideration for possible downgrade by either Rating Agency), either downgraded by one or more notches (for illustration, Ba1 to Ba2 being one notch) or withdrawn and is not within such period subsequently upgraded to its earlier credit rating or better by both Rating Agencies; or

both (i) an investment grade credit rating (BBB /Baa3, or equivalent, or better) from one Rating Agency, and the rating is, within 60 days of the earlier of the occurrence of such Change of Control or the first public announcement of the intention to effect such Change of Control (which period shall be extended so long as the rating of the notes is under publicly announced consideration for possible downgrade by either Rating Agency), either downgraded to a non-investment grade credit rating (BB+/Ba1, or equivalent, or worse) or withdrawn and is not within such period subsequently (in the case of a downgrade) upgraded to an investment grade credit rating by such Rating Agency or (in the case of a withdrawal) replaced by an investment grade credit rating from such Rating Agency and (ii) a non-investment grade credit rating

Table of Contents

(BB+/Ba1, or equivalent, or worse) from the other Rating Agency, and the rating is, within 60 days of the earlier of the occurrence of such Change of Control or the first public announcement of the intention to effect such Change of Control (which period shall be extended so long as the rating of the notes is under publicly announced consideration for possible downgrade by either Rating Agency), either downgraded by one or more notches (for illustration, Ba1 to Ba2 being one notch) or withdrawn and is not within such period subsequently upgraded to its earlier credit rating or better by such Rating Agency;

provided that in making the relevant decision(s) referred to above to downgrade or withdraw such ratings, as applicable, the relevant Rating Agency announces publicly or confirms in writing to the Company that such decision(s) resulted, in whole or in part, from the occurrence of such Change of Control or the first public announcement of the intention to effect such Change of Control.

"**Voting Stock**" means, with respect to any specified person as of any date, the Capital Stock of such person (whether now or hereafter authorized, regardless of whether such Capital Stock shall be limited to a fixed sum or percentage with respect to the rights of the holders thereof to participate in dividends and in the distribution of assets upon the voluntary or involuntary liquidation, dissolution or winding up of such corporation) that is at the time entitled to vote generally in the election of the board of directors of such person.

**Material Covenants**

*Limitations on Liens*

So long as any notes are outstanding, we will not, nor will we permit any Guarantor or Domestic Subsidiary to, incur, issue, assume or guarantee any indebtedness for borrowed money, which we refer to as "Debt," secured by any mortgage or other encumbrance, which we refer to as a "Mortgage," on any Principal Property owned by us, one of our Guarantors or one of our other Domestic Subsidiaries or any shares of stock or Debt of any Restricted Subsidiaries, without concurrently securing the notes equally and ratably with such Debt so long as such Debt shall be so secured. This restriction does not apply to Debt secured by:

- (1) Mortgages existing at the time of the indenture;
- (2) Mortgages on property of, or on any shares of stock of, any person existing at the time it becomes a Subsidiary; provided such Mortgages were in existence before the contemplation of such person becoming a Subsidiary;
- (3) Mortgages on property of the Company, a Guarantor or a Domestic Subsidiary or shares of stock of a Restricted Subsidiary (a) existing at the time of acquisition thereof (including acquisition through merger or consolidation), (b) to secure the payment of all or any part of the purchase price or construction cost thereof or (c) to secure any Debt incurred prior to, at the time of, or within 180 days after, the acquisition of such property or shares or the completion of any such construction and commencement of full operation of such property for the purpose of financing all or any portion of the purchase price or construction cost thereof;
- (4) Mortgages in favor of us or any Restricted Subsidiary;
- (5) Mortgages in favor of the United States, any state or any subdivision, department, agency or other instrumentality thereof, to secure progress, advance or other payments pursuant to any contract or provision of any statute;
- (6) Mortgages in favor of the administrative agent and lenders under the Revolving Credit Facility securing any obligations under the Revolving Credit Facility; provided that the principal amount of the Debt secured does not exceed the aggregate amount of the commitments under the Revolving Credit Facility in effect on the date the notes are issued; or
- (7) extensions, renewals or replacements (or successive extensions, renewals or replacements), in whole or in part, of any Mortgage referred to in (1) through (6).

Table of Contents

Notwithstanding the limitations on liens described above, we, any Guarantor or any Restricted Subsidiary may incur, issue, assume or guarantee any Debt secured by a Mortgage on any Principal Property owned by us or one of our Guarantors or of our other Domestic Subsidiaries or any shares of stock or Debt of any Restricted Subsidiaries, in addition to that permitted above and without any obligation to secure the notes, provided that at the time of such incurrence, issuance, assumption or guarantee of such Debt that is so secured by a Mortgage on any Principal Property owned by us or one of our Guarantors or of our other Domestic Subsidiaries or any shares of stock or Debt of any Restricted Subsidiaries, and after giving effect thereto, Exempted Debt, in the aggregate, does not exceed 15% of our Consolidated Net Tangible Assets, taken as a whole.

***Limitation on Sale and Leaseback***

So long as any notes are outstanding, we will not, nor will we permit any Restricted Subsidiary to, sell and leaseback for more than one year any Principal Property owned by us, a Guarantor or a Domestic Subsidiary. This restriction does not apply if (a) we or such Restricted Subsidiary would be entitled as described in " Limitations on Liens" above to incur Debt secured by a Mortgage on such Principal Property in a principal amount equivalent to the Attributable Debt in respect of such arrangement without equally and ratably securing the notes or (b) we retire Funded Debt or cause Funded Debt to be retired equal to the greater of the net proceeds of such sale or the fair market value of the Principal Property to be subject to such arrangement.

Notwithstanding the limitations on sale and leaseback transactions described above, we, a Guarantor or any Domestic Subsidiary may enter into a sale and leaseback transaction of any Principal Property in addition to that permitted above and without any obligation to retire any notes or other indebtedness referred to above, provided that at the time of entering into such sale and leaseback transaction and after giving effect thereto, Exempted Debt, in the aggregate, does not exceed 15% of our Consolidated Net Tangible Assets, taken as a whole.

***Additional Subsidiary Guarantees***

If any of our Subsidiaries, including any Subsidiary that we or any of our Subsidiaries may organize, acquire or otherwise invest in after the date of the indenture that is not a Guarantor, guarantees, or, in the case of Domestic Subsidiaries, becomes otherwise obligated under, the Revolving Credit Facility, then such Subsidiary shall (i) execute and deliver to the trustee a supplemental indenture in form substantially as set forth in an exhibit to the Indenture pursuant to which such Subsidiary shall unconditionally guarantee all of the Company's obligations under the notes and the indenture on the terms set forth in the indenture and (ii) deliver to the trustee an opinion of counsel that such supplemental indenture and Guarantee has been duly authorized, executed and delivered by such Subsidiary and constitutes a legal, valid, binding and enforceable obligation of such Subsidiary. Thereafter, such Subsidiary shall be a Guarantor for all purposes of the indenture; provided, further, however, that any such Guarantee shall be automatically released as provided under the last paragraph above under " The Guarantees."

**Governing Law; Jury Trial Waiver**

The Indenture will be governed by, and construed in accordance with, the laws of the State of New York without regard to the conflict of laws principles thereof. The Indenture provides that the Company, the Guarantors and the trustee, and each holder of a note by its acceptance thereof, irrevocably waives, to the fullest extent permitted by applicable law, any and all right to trial by jury in any legal proceeding arising out of or relating to the Indenture, the Notes or any transaction contemplated thereby.

**Same-Day Settlement and Payment**

The notes will trade in the same-day funds settlement system of DTC until maturity or until we issue the notes in definitive form. DTC will therefore require secondary market trading activity in the notes to settle in immediately available funds. We can give no assurance as to the effect, if any, of settlement in immediately available funds on trading activity in the notes.

**Further Issues**

We may from time to time, without notice to or the consent of the registered holders of the notes, create and issue additional debt securities having the same terms as, and ranking equally and ratably with, the notes in all respects (or in all respects except for the payment of interest accruing prior to the Issue Date of such additional debt securities, the issue date, public offering price, and, if applicable, the first payment of interest following the Issue Date of such additional debt securities), so that such additional debt securities will be consolidated and form a single series with, and have the same terms as to status, redemption or otherwise as, the notes.

Any additional debt securities that are consolidated and form a single series with the notes will be issued for U.S. federal income tax purposes in a "qualified reopening" or with no more than a *de minimis* amount of original issue discount. For the avoidance of doubt, if any additional debt securities are not fungible with the notes issued hereunder for U.S. federal income tax purposes, such debt securities shall have a separate CUSIP.

We may at any time and from time to time purchase notes in the open market or otherwise.

**Book-Entry System; Delivery and Form**

The notes will be represented by one or more global notes in definitive, fully registered form without interest coupons. Each global note will be deposited with the trustee as custodian for DTC and registered in the name of DTC or a nominee of DTC for the accounts of institutions that have accounts with DTC ("*participants*").

Investors may hold their interests in a global note directly through DTC if they are DTC participants, or indirectly through organizations that are DTC participants. Except in the limited circumstances described below, holders of notes represented by interests in a global note will not be entitled to receive their notes in fully registered definitive form, which notes we refer to as "definitive notes."

DTC has advised us as follows: DTC is a limited-purpose trust company organized under New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code and a "clearing agency" registered pursuant to the provisions of Section 17A of the Exchange Act. DTC was created to hold securities of its participants and to facilitate the clearance and settlement of securities transactions among its participants in such securities through electronic book-entry changes in accounts of the participants, thereby eliminating the need for physical movement of securities certificates. DTC's participants include securities brokers and dealers

Table of Contents

(which may include the underwriters), banks, trust companies, clearing corporations and certain other organizations. Access to DTC's book-entry systems is also available to others such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a participant, whether directly or indirectly.

***Ownership of Beneficial Interests***

We expect that, pursuant to the procedures established by DTC, upon the issuance of each global note, DTC will credit, on its book-entry registration and transfer system, the respective principal amount of the individual beneficial interests represented by the global note to the accounts of participants. Ownership of beneficial interests in each global note will be limited to participants or persons that may hold interests through participants. Ownership of beneficial interests in each global note will be shown on, and the transfer of those ownership interests will be effected only through, records maintained by DTC (with respect to participants' interests) and such participants (with respect to the owners of beneficial interests in the global note other than participants).

So long as DTC, or its nominee, is the registered holder and owner of a global note, DTC or such nominee, as the case may be, will be considered the sole legal owner of the notes represented by the global note for all purposes under the indenture, the notes and applicable law. Any notices required to be given to the holders while the Notes are global notes will be given to DTC. Except as set forth below, owners of beneficial interests in a global note will not be entitled to receive definitive notes, will not be entitled to have the notes represented by the global note registered in their names and will not be considered to be the owners or holders of any notes under the global note. We understand that under existing industry practice, in the event an owner of a beneficial interest in a global note desires to take any actions that DTC, as the holder of the global note, is entitled to take, DTC would authorize the participants to take such action, and that participants would authorize beneficial owners owning through such participants to take such action or would otherwise act upon the instructions of beneficial owners owning through them. No beneficial owner of an interest in a global note will be able to transfer the interest except in accordance with DTC's applicable procedures. Because DTC can only act on behalf of participants, who in turn act on behalf of others, the ability of a person having a beneficial interest in a global note to pledge that interest to persons that do not participate in the DTC system, or otherwise to take actions in respect of that interest, may be impaired by the lack of a physical certificate of that interest.

All payments on the notes represented by a global note registered in the name of and held by DTC or its nominee will be made to DTC or its nominee, as the case may be, as the registered owner and holder of the global note.

We expect that DTC or its nominee, upon receipt of any payment of principal or interest in respect of a global note, will credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of the global note as shown on the records of DTC or its nominee. We also expect that payments by participants to owners of beneficial interests in the global note held through such participants will be governed by standing instructions and customary practices, as is now the case with securities held for accounts of customers in the names of nominees for such customers. Such payments, however, will be the responsibility of such participants and indirect participants, and neither we, the underwriters, the trustee nor any paying agent will have any responsibility or liability for any aspect of the records relating to, or payments made on account of, beneficial ownership interests in any global note or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests or for any other aspect of the relationship between DTC and its participants or the relationship between such participants and the owners of beneficial interests in the global note.

Table of Contents

Unless and until it is exchanged in whole or in part for definitive notes, no global note may be transferred except as a whole by DTC to a nominee of DTC or by a nominee of DTC to DTC or another nominee of DTC. Transfers between participants in DTC will be effected in the ordinary way in accordance with DTC rules and will be settled in same-day funds.

We expect that DTC will take any action permitted to be taken by a holder of notes (including the presentation of notes for exchange as described below) only at the direction of one or more participants to whose account the DTC interests in a global note are credited and only in respect of such portion of the aggregate principal amount of the notes as to which such participant or participants has or have given such direction. However, if there is an event of default under the notes, DTC will exchange each global note for definitive notes, which it will distribute to its participants.

Although we expect that DTC will agree to the foregoing procedures in order to facilitate transfers of interests in each global note among participants of DTC, DTC is under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued at any time. Neither the underwriters, the trustee nor we will have any responsibility for the performance or nonperformance by DTC or their participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

The indenture provides that if:

DTC notifies us that it is unwilling or unable to continue as depository or if DTC ceases to be eligible under the indenture and we do not appoint a successor depository within 90 days; or

we determine that the notes shall no longer be represented by global notes, and we execute and deliver to the trustee, in our discretion, a company order to such effect,

the global notes will be exchanged for notes in definitive form of like tenor and of an equal principal amount, in authorized denominations. Such definitive notes shall be registered in such name or names as DTC shall instruct the trustee. We expect that such instructions may be based upon directions received by DTC from participants with respect to ownership of beneficial interest in global securities.

We have obtained the information in this section concerning DTC and DTC's book-entry system from sources that we believe to be reliable, but neither we nor the trustee take responsibility for its accuracy.

***Holding through Euroclear and Clearstream***

If the depository for a global security is DTC, you may hold interests in the global security through Clearstream Banking, *société anonyme*, which we refer to as "Clearstream" or Euroclear Bank S.A./N.V., as operator of the Euroclear System, which we refer to as "Euroclear," in each case, as a participant in DTC. Euroclear and Clearstream will hold interests, in each case, on behalf of their participants through customers' securities accounts in the names of Euroclear and Clearstream on the books of their respective depositories, which in turn will hold such interests in customers' securities in the depositories' names on DTC's books.

Payments, deliveries, transfers, exchanges, notices and other matters relating to the notes made through Euroclear or Clearstream must comply with the rules and procedures of those systems. Those systems could change their rules and procedures at any time. We have no control over those systems or their participants, and we take no responsibility for their activities. Transactions between participants in Euroclear or Clearstream, on the one hand, and other participants in DTC, on the other hand, would also be subject to DTC's rules and procedures.

Investors will be able to make and receive through Euroclear and Clearstream payments, deliveries, transfers, exchanges, notices and other transactions involving any securities held through those systems only on days when those systems are open for business. Those systems may not be open

Table of Contents

for business on days when banks, brokers and other institutions are open for business in the United States.

In addition, because of time-zone differences, U.S. investors who hold their interests in the notes through these systems and wish on a particular day to transfer their interests, or to receive or make a payment or delivery or exercise any other right with respect to their interests, may find that the transaction will not be effected until the next business day in Luxembourg or Brussels, as applicable. Thus, investors who wish to exercise rights that expire on a particular day may need to act before the expiration date. In addition, investors who hold their interests through both DTC and Euroclear or Clearstream may need to make special arrangements to finance any purchases or sales of their interests between the U.S. and European clearing systems, and those transactions may settle later than transactions within one clearing system.

**MATERIAL U.S. FEDERAL TAX CONSIDERATIONS**

The following is a general summary of certain material U.S. federal income tax consequences of the ownership and disposition of the new 2044 Notes and new 2054 Notes (sometimes collectively referred to as "New Notes" or "notes"). This summary is based upon the Internal Revenue Code of 1986, as amended (the "IRC"), the U.S. Treasury regulations promulgated thereunder, administrative pronouncements and judicial decisions, all as of the date hereof and all of which are subject to change, possibly with retroactive effect. Unless otherwise indicated, this summary addresses only the U.S. federal income tax consequences relevant to investors who purchase notes at the time of original issuance at their "issue price" and applies only to beneficial owners that hold the notes as "capital assets" within the meaning of section 1221 of the IRC.

This summary does not address all of the U.S. federal income tax considerations that may be relevant to a particular holder in light of the holder's individual circumstances or to holders subject to special rules under U.S. federal income tax laws, such as banks and other financial institutions, insurance companies, real estate investment trusts, regulated investment companies, tax-exempt organizations, entities and arrangements classified as partnerships for U.S. federal income tax purposes and other pass-through entities (such as S corporations), dealers in securities or currencies, traders in securities that elect to use a mark-to-market method of accounting, persons liable for U.S. federal alternative minimum tax, U.S. Holders (as defined below) whose functional currency is not the U.S. dollar, U.S. expatriates and certain former citizens or long-term residents, persons holding notes as part of a "straddle" or other integrated investment and persons required for U.S. federal income tax purposes to conform the timing of income accruals with respect to the notes to its financial statements under Section 451(b) of the IRC. The discussion does not address any foreign, state, local or non-income tax consequences of the acquisition, ownership or disposition of the notes (such as U.S. federal estate or gift tax laws), nor does it address the potential application of the Medicare tax on net investment income.

If a partnership (or other entity or arrangement classified as a partnership for U.S. federal income tax purposes) is a beneficial owner of a note, the U.S. federal income tax treatment of a partner in that partnership will generally depend upon the status of the partner and the activities of the partnership. Partnerships that are beneficial owners of notes and partners in such partnerships are urged to consult with their own tax advisors regarding the U.S. federal income and other tax consequences of the ownership and disposition of the notes.

This discussion is for general purposes only. Holders are urged to consult their own tax advisors regarding the application of the U.S. federal income tax laws to their particular situations and the consequences under federal estate or gift tax laws, as well as foreign, state, or local laws and tax treaties, and the possible effects of changes in the tax laws.

***Qualified Reopening***

We intend to treat the respective New Notes as issued pursuant to a "qualified reopening" of the existing 2044 Notes and existing 2054 Notes (collectively, the "Existing Notes"). For U.S. federal income tax purposes, debt instruments issued in a qualified reopening are deemed to be part of the same issue as the original debt instruments. Under the treatment described in this paragraph, the New Notes will be part of the same issue as the Existing Notes for U.S. federal income tax purposes, respectively, and thus, the respective New Notes will, for U.S. federal income tax purposes, have the same issue date and issue price as the respective Existing Notes. The remainder of this discussion assumes the correctness of the treatment discussed in this paragraph.

Table of Contents

***Pre-issuance Accrued Interest***

The initial offering price of the New Notes will include amounts attributable to interest accrued from April 1, 2018, which we call "pre-issuance accrued interest." Pre-issuance accrued interest will be included in the accrued interest paid on these New Notes on October 1, 2018, the first interest payment after their issuance. We intend to take the position that a portion of the interest received, in an amount equal to the pre-issuance accrued interest, on the first interest payment date of the notes issued in this offering should be treated as a return of the pre-issuance accrued interest and not as a payment of interest on the notes. Amounts treated as a return of pre-issuance accrued interest should not be taxable when received but should reduce a U.S. Holder's adjusted tax basis in a note issued in this offering by a corresponding amount.

**Tax Consequences to U.S. Holders**

***U.S. Holder***

As used herein, the term "U.S. Holder" means a beneficial owner of a note that is for U.S. federal income tax purposes:

an individual citizen or resident of the United States;

a corporation, or other entity taxable as a corporation for U.S. federal income tax purposes, created or organized in, or under the laws of, the U.S., any state therein or the District of Columbia;

an estate, the income of which is subject to U.S. federal income taxation regardless of its source; or

a trust, if (1) a U.S. court is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (2) the trust has made a valid election to be treated as a U.S. person.

The term U.S. Holder also includes certain former citizens and residents of the United States.

***Potential Contingent Payment Debt Treatment***

We may be obligated to pay amounts in excess of the stated interest or principal on the notes as described under "Description of the Notes and Guarantees Change of Control Offer." These payments may implicate the provisions of the U.S. Treasury regulations relating to "contingent payment debt instruments." According to the applicable U.S. Treasury regulations, however, certain contingent payments will not cause a debt instrument to be treated as a contingent payment debt instrument if such contingent payments, as of the date of issuance, are remote or incidental. We intend to take the position that any contingent payments are remote or incidental, and we do not intend to treat the notes as contingent payment debt instruments. Our position that any such contingent payments are remote or incidental is binding on a U.S. Holder unless such person discloses its contrary position in the manner required by applicable Treasury regulations. Our position is not, however, binding on the Internal Revenue Service (the "IRS"), and if the IRS were to successfully challenge this position, a U.S. Holder might be required to accrue additional interest income for a taxable period in excess of the stated interest rate and to treat as ordinary interest income any gain realized on the taxable disposition of a note. The remainder of this discussion assumes that the notes will not be treated as contingent payment debt instruments. Investors in these notes should consult their own tax advisors regarding the possible application of the contingent payment debt instrument rules to the notes.

Table of Contents

***Payments of Interest***

Subject to the discussion of pre-issuance accrued interest above, interest paid on a note will be taxable to a U.S. Holder as ordinary interest income at the time it accrues or is received in accordance with the U.S. Holder's method of accounting for federal income tax purposes.

A U.S. Holder that purchases a note for an amount greater than the amount payable at maturity will be considered to have purchased the note with amortizable bond premium in an amount equal to the excess of the purchase price over the sum of the amount payable at maturity. A holder may make an election to include in gross income interest that accrues on a note, as adjusted by amortizable bond premium, in accordance with a constant yield method based on the compounding of interest. If a U.S. Holder makes this election for a note with amortizable bond premium, such election will result in a deemed election to amortize bond premium for all of the holder's debt instruments with amortizable bond premium and may be revoked only with the permission of the IRS with respect to debt instruments acquired after revocation. U.S. Holders should consult their tax advisors regarding the application of these rules to the notes.

***Market Discount***

If a U.S. Holder purchases a note for an amount that is less than its stated redemption price at maturity, the amount of the difference generally will be treated as market discount for U.S. federal income tax purposes. The amount of any market discount generally will be treated as de minimis and disregarded if it is less than the product of  $\frac{1}{4}$  of 1 percent of the stated redemption price at maturity of the note multiplied by the number of complete years to maturity.

Under the market discount rules of the IRC, if a note is purchased with market discount, a U.S. Holder will generally be required to include any gain realized on the sale, exchange, retirement, redemption or other disposition of the note as ordinary income (generally treated as interest income) to the extent of the market discount which accrued but was not previously included in the U.S. Holder's gross income. In addition, a U.S. Holder may be required to defer, until the maturity of the note or its earlier disposition in a taxable transaction, the deduction of all or a portion of the interest expense on any indebtedness incurred or continued to purchase or carry the note. In general, market discount will be considered to accrue ratably during the period from the date of the purchase of the note to the maturity date of the note, unless the U.S. Holder makes an irrevocable election (on an instrument-by-instrument basis) to accrue market discount under a constant yield method. However, a U.S. Holder may elect to include market discount in income currently as it accrues (under either a ratable or constant yield method), in which case the rules described above regarding the treatment as ordinary income of gain upon the disposition of the note and the deferral of interest deductions will not apply. A U.S. Holder's election to include market discount in income currently, once made, applies to all market discount obligations acquired by such U.S. Holder on or after the first day of the first taxable year to which the election applies, and may not be revoked without the consent of the IRS.

***Sale, Exchange, Redemption or Other Taxable Disposition of the Notes***

Upon the sale, exchange, redemption or other taxable disposition of a note (any of these, a "Disposition" for purposes of this discussion), a U.S. Holder will recognize taxable gain or loss equal to the difference, if any, between (1) the amount realized on the Disposition of the note, other than amounts attributable to accrued and unpaid interest (which will be taxed as ordinary interest income to the extent such interest has not been previously included in income), and (2) the U.S. Holder's adjusted tax basis in the note. The amount realized by a U.S. Holder is the sum of the cash plus the fair market value of all other property received by the U.S. Holder on the Disposition of the note. A U.S. Holder's adjusted tax basis in a note will generally be the cost of the note to the U.S. Holder (not

Table of Contents

including any amount paid for pre-issuance accrued interest excluded from income as described above), less any amortized bond premium.

Gain or loss realized on the Disposition of a note will generally be capital gain or loss and will be long-term capital gain or loss if at the time of the Disposition, the note has been held for more than one year. For non-corporate U.S. Holders, long-term capital gains are currently taxed at a lower rate than ordinary income. The deductibility of capital losses is subject to certain limitations. U.S. Holders are urged to consult their own tax advisors regarding the deductibility of any capital losses in light of their particular circumstances.

***Backup Withholding and Information Reporting***

Information returns will be filed with the IRS in connection with interest payments on the notes and proceeds from a Disposition of the notes. A U.S. Holder will be subject to U.S. backup withholding tax at the applicable rate (currently 24% for 2018) on such payments if the U.S. Holder fails to provide its taxpayer identification number to us or the paying agent and comply with certain certification procedures. Backup withholding is not an additional tax. The amount of any backup withholding from a payment to a U.S. Holder will be allowed as a credit against the U.S. Holder's federal income tax liability and may entitle the U.S. Holder to a refund, provided that the required information is timely furnished to the IRS.

**Tax Consequences to Non-U.S. Holders**

***Non-U.S. Holder***

As used herein, the term "Non-U.S. Holder" means a beneficial owner of a note that is, for U.S. federal income tax purposes:

an individual who is classified as a nonresident for U.S. federal income tax purposes;

a foreign corporation; or

a foreign estate or trust.

"Non-U.S. Holder" does not include a holder who is an individual present in the U.S. for 183 days or more in the taxable year of Disposition of a note and who is not otherwise a resident of the U.S. for U.S. federal income tax purposes. Such a holder is urged to consult his or her own tax advisor regarding the U.S. federal income tax consequences of the Disposition of a note.

***Payments of Interest***

Subject to the discussion below under " Backup Withholding and Information Reporting", a Non-U.S. Holder will not generally be subject to U.S. federal income or withholding tax on interest paid on the notes so long as that interest is not "effectively connected" with the Non-U.S. Holder's conduct of a trade or business within the U.S. (and, if a treaty applies, is not attributable to a permanent establishment maintained by the Non-U.S. Holder in the U.S.) and:

the Non-U.S. Holder does not, directly or indirectly, actually or constructively own 10% or more of the total combined voting power of all classes of our stock entitled to vote;

the Non-U.S. Holder is not a "controlled foreign corporation" for U.S. federal income tax purposes that is related to us, actually or by attribution, through stock ownership; and

either (1) the Non-U.S. Holder certifies under penalties of perjury on IRS Form W-8BEN or IRS Form W-8BEN-E or a suitable substitute form that it is not a "U.S. person" (as defined in the IRC), and provides its name and address, and U.S. taxpayer identification number, if any, or (2) a securities clearing organization, bank or other financial institution that holds customers'

Table of Contents

securities in the ordinary course of its trade or business and holds the notes on behalf of the Non-U.S. Holder certifies under penalties of perjury that the certification referred to in clause (1) has been received from the Non-U.S. Holder or an intermediate financial institution and furnishes to us a copy thereof.

A Non-U.S. Holder that does not qualify for exemption from withholding as described above will generally be subject to withholding of U.S. federal income tax at a rate of 30% on payments of interest on the notes (except as described below with respect to effectively connected income). A Non-U.S. Holder may be entitled to the benefits of an income tax treaty under which interest on the notes is subject to a reduced rate of withholding tax or is exempt from U.S. withholding tax, provided that the Non-U.S. Holder furnishes us with a properly executed IRS Form W-8BEN or W-8BEN-E claiming the reduction or exemption and the Non-U.S. Holder complies with any other applicable procedures.

Special rules regarding exemption from, or reduced rates of, U.S. withholding tax may apply in the case of notes held by partnerships or certain types of trusts. Partnerships and trusts that are prospective purchasers of the notes are urged to consult their tax advisors regarding special rules that may be applicable in their particular circumstances.

***Sale, Exchange, Redemption or Other Taxable Disposition of the Notes***

Any gain recognized by a Non-U.S. Holder on the Disposition of a note (other than amounts attributable to accrued and unpaid interest, which will be treated as described under " Payments of Interest" above) will generally be exempt from U.S. federal income and withholding tax, unless:

the gain is effectively connected with the Non-U.S. Holder's conduct of a trade or business within the U.S. (and, if a treaty applies, is attributable to a permanent establishment maintained by the Non-U.S. Holder in the U.S.); or

the Non-U.S. Holder is an individual who is present in the U.S. for 183 days or more during the taxable year of the Disposition, and certain other conditions are met.

***Effectively Connected Income***

If a Non-U.S. Holder of a note is engaged in a trade or business in the United States, and if interest on the note is effectively connected with the conduct of this trade or business (and, if a treaty applies, is attributable to a permanent establishment maintained by the Non-U.S. Holder in the U.S.), the Non-U.S. Holder generally will be taxed in the same manner as a U.S. Holder (see " Tax Consequences to U.S. Holders" above), subject to an applicable income tax treaty providing otherwise. In such circumstances, the Non-U.S. Holder will be required to provide us with a properly executed IRS Form W-8ECI in order to claim an exemption from withholding tax. A Non-U.S. Holder engaged in a trade or business in the United States as a corporation should consult its own tax advisors with respect to other U.S. tax consequences of the ownership and Disposition of the notes, including the possible imposition of a branch profits tax at a rate of 30%, or such lower rate provided by an applicable income tax treaty.

***Backup Withholding and Information Reporting***

Information returns will be filed with the IRS to report payments made on the notes, and any taxes withheld from such payments. Copies of such information returns may also be made available to the tax authorities in the country where a Non-U.S. Holder is a resident under the provisions of an applicable income tax treaty or agreement.

Unless the Non-U.S. Holder complies with certification procedures to establish that it is not a U.S. person, the Non-U.S. Holder may be subject to U.S. backup withholding on interest payments on the

Table of Contents

notes and proceeds from the Disposition of the notes. If the certification procedures described above are met for the Non-U.S. Holder, backup withholding will not apply to these payments.

Backup withholding is not an additional tax. The amount of any backup withholding from a payment to a Non-U.S. Holder will be allowed as a credit against the Non-U.S. Holder's U.S. federal income tax liability and may entitle the Non-U.S. Holder to a refund, provided that the required information is timely furnished to the IRS.

Non-U.S. Holders are urged to consult their tax advisors regarding the application of information reporting and backup withholding in their particular situations, the availability of an exemption therefrom, and the procedures for obtaining such an exemption, if available.

**The discussion set forth above is included for general information only and may not be applicable depending on a holder's particular situation. Holders are urged to consult their own tax advisors with respect to the tax consequences to them of the ownership and Disposition of the notes, including the tax consequences under state, local, estate, foreign and other tax laws and tax treaties and the possible effects of changes in U.S. or other tax laws.**

If an underwriter defaults, the underwriting agreement provides that the purchase commitments of the nondefaulting underwriters may be increased or the underwriting agreement may be terminated.

The expenses of the offering, not including the underwriting discount, are estimated at \$250,000 and are payable by us. The underwriters have agreed to reimburse us for certain expenses incurred by us in connection with this offering upon closing of this offering.

We have agreed to indemnify the underwriters and their controlling persons against certain liabilities in connection with this offering, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the notes, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the notes, and other conditions contained in the underwriting agreement, such as the receipt by the underwriters of officer's certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

The representative has advised us that the underwriters propose initially to offer the notes to the public at the public offering prices set forth on the cover page of this prospectus supplement and to certain dealers at such prices less a concession not in excess of 0.500% of the principal amount of the new 2044 Notes and 0.600% of the principal amount of the new 2054 Notes. After the initial offering, the public offering prices, concessions or any other terms of the offering may be changed.

Table of Contents

The notes may trade at a discount from their initial offering price, depending on prevailing interest rates, the market for similar securities, our operating performance and financial condition, general economic conditions and other factors.

It is expected that delivery of the notes will be made on or about the date specified on the cover page of this prospectus supplement, which is the seventh business day following the date of this prospectus supplement (such settlement cycle being referred to as "T+7"). Pursuant to Rule 15c6-1 under the Exchange Act, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, the purchasers who wish to trade the notes on the date of this prospectus supplement or the next succeeding business day will be required, by virtue of the fact that the notes will settle in T+7, to specify an alternate settlement cycle at the time of any such trade to prevent failed settlement. Purchasers of the notes who wish to trade the notes on the date of this prospectus supplement or the next succeeding business day should consult their own advisors.

The notes offered hereby are a reopening of the existing notes and will become part of the same series as the existing notes. We have been advised by the underwriters that they presently intend to make a secondary market in the notes after completion of the offering. However, they are under no obligation to do so and may discontinue any market-making activities at any time without any notice. No assurance can be given as to the liquidity of the trading markets for the notes or that active public markets for the notes will develop. If active public trading markets for the notes do not develop, the market prices and liquidity of the notes may be adversely affected.

In connection with the offering of the notes, certain of the underwriters may engage in transactions that may stabilize, maintain or otherwise affect the prices of the notes. Specifically, the underwriters may over-allot in connection with the offering, creating a short position. In addition, the underwriters may bid for, and purchase, the notes in the open market to cover short positions or to stabilize the prices of the notes. Any of these activities may stabilize or maintain the market prices of the notes above independent market levels, but no representation is made hereby of the magnitude of any effect that the transactions described above may have on the market prices of the notes. The underwriters will not be required to engage in these activities, may engage in these activities, and may end any of these activities at any time without notice.

We have agreed that neither we nor the guarantors of the notes will, for a period commencing on the date of this prospectus supplement through and including the closing date of the offering of the notes, without first obtaining the prior written consent of J.P. Morgan Securities LLC, directly or indirectly, issue, sell, offer to contract or grant any option to sell, pledge, transfer or otherwise dispose of, any debt securities or securities exchangeable for or convertible into debt securities, except for the notes sold to the underwriters pursuant to the underwriting agreement.

Some of the underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions. Certain underwriters or their respective affiliates are lenders and/or agents under our revolving credit facility.

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. If any of the underwriters or their affiliates have a lending relationship with us, certain of those underwriters or their affiliates routinely hedge, and certain other of those underwriters may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, these underwriters and their affiliates would hedge such exposure by

entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

The notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "MiFID II"); or (ii) a customer within the meaning of Directive 2002/92/EC (as amended, the "Insurance Mediation Directive"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended, the "Prospectus Directive"). Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the "PRIIPs Regulation") for offering or selling the notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation. This prospectus supplement has been prepared on the basis that any offer of notes in any Member State of the EEA will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of notes. This prospectus supplement is not a prospectus for the purposes of the Prospectus Directive.

*Recent Developments*

The Company adopted ASU 2016-18, *Statement of Cash Flows (Topic 230): Restricted Cash*, on the first day of fiscal 2018 which requires amounts generally described as restricted cash and restricted cash equivalents to be included within cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown in the statement of cash flows. The Company had approximately \$10 million in a restricted cash account for the pension plan at December 31, 2016, which restriction was released in fiscal 2017. The Company will be required to recast its consolidated cash flow statement for all prior years presented in its annual filing on its Form 10-K for fiscal 2018. The only affected subtotal in the cash flow statement is net cash flows from operating activities. The previously reported and revised amounts are listed below:

	Fiscal Year	
	December 30, 2017	December 31, 2016
(Dollars in thousands)		
Net cash flows from operating activities previously reported	\$ 145,716	\$ 219,168
Net cash flows from operating activities as revised	133,148	232,820

The Company had \$412.5 million of cash, cash equivalents, and restricted cash at December 31, 2016. The Company had no restricted cash at December 30, 2017 or March 31, 2018.

The Company adopted ASU 2017-07, *Presentation of Net Periodic Benefit Cost Related to Defined Benefit Plans*, on the first day of fiscal 2018 which amends the income statement presentation requirements for the components of net periodic benefit cost for an entity's defined benefit pension and post-retirement plans. The Company will be required to recast its consolidated cash flow statement for all prior years presented in its annual filing on its Form 10-K for fiscal 2018. The amount of pension expense reclassified out of selling, general, and administrative expense and into Other (expense) is less than \$2 million for each fiscal years 2017 and 2016.

The Company did not reissue the audited financial statements incorporated by reference in the Registration Statement to reflect such changes resulting from the retrospective impact of the above accounting pronouncements adopted on the first day of fiscal 2018 because the impacts were not material.

**THE SUBSIDIARY GUARANTORS**

One or more of Valmont's subsidiaries, whom we refer to as the "subsidiary guarantors" in this prospectus, may fully and unconditionally guarantee our payment obligations under any series of debt securities offered by this prospectus. The prospectus supplement relating to any such series will identify any subsidiary guarantors. Financial information concerning our subsidiary guarantors and any non-guarantor subsidiaries will be included in our consolidated financial statements filed as part of our periodic reports filed pursuant to the Securities Exchange Act of 1934, as amended (the "Exchange Act") to the extent required by the rules and regulations of the SEC.

Additional information concerning our subsidiaries and us is included in reports and other documents incorporated by reference in this prospectus. Please read "Where You Can Find More Information."

**RATIO OF EARNINGS TO FIXED CHARGES**

The following table sets forth our historical ratio of earnings to fixed charges for the periods indicated. This information should be read in conjunction with the consolidated financial statements and the accompanying notes incorporated by reference in this prospectus.

	Fiscal Years Ended						
	Three Months Ended	March 31, 2018	December 30, 2017	December 31, 2016	December 26, 2015(1)	December 27, 2014	December 28, 2013
	Ratio of earnings to fixed charges	4.99	5.30	5.19	2.75	7.20	11.87

(1) Fiscal 2015 net earnings included impairments of goodwill and intangible assets of \$41.97 million before-tax and restructuring expenses of \$39.85 million before-tax.

For purposes of these computations, earnings consist of income from continuing operations before income taxes plus fixed charges. Fixed charges include interest on indebtedness and that portion of rental expense that we believe to be representative of interest.

As of the date of this prospectus we have not issued any preferred shares.

**USE OF PROCEEDS**

Unless otherwise indicated in a prospectus supplement, the net proceeds from our sale of the securities will be used for general corporate purposes, including working capital, acquisitions, retirement of debt and other business opportunities.

**DESCRIPTION OF THE DEBT SECURITIES AND GUARANTEES**

This section describes certain general terms and provisions of the debt securities. The debt securities will be our direct general obligations and will rank equally in right of payment with all of our other unsecured and unsubordinated debt from time to time outstanding. We will issue any debt securities under a senior debt indenture dated as of April 12, 2010 between us, the subsidiary guarantors and Wells Fargo Bank, National Association, as trustee. When we offer to sell a particular series of debt securities, we will describe the specific terms for the debt securities in a supplement to

Table of Contents

this prospectus. The prospectus supplement will also indicate whether the general terms and provisions described in this prospectus apply to a particular series of debt securities. If any of the terms of a series of debt securities that are described in a prospectus supplement are inconsistent with any of the terms of the debt securities or the indenture as described in this section, then the description of those terms in that prospectus supplement will supersede and replace any different or inconsistent description in this prospectus.

We have summarized certain terms and provisions of the indenture. The summary is not complete and is qualified in its entirety by reference to the indenture, which is filed as an exhibit to the registration statement of which this prospectus forms a part. You should read the indenture for the provisions which may be important to you. The indenture is subject to and governed by the Trust Indenture Act of 1939, as amended.

The indenture does not limit the amount of debt securities that we may issue. We may issue debt securities up to an aggregate principal amount as we may authorize from time to time. The prospectus supplement will describe the terms of any debt securities being offered, including:

the designation and aggregate principal amount;

the maturity date;

the interest rate, if any, or the method for calculating the interest rate;

the interest payment dates and the record dates for the interest payments;

any mandatory or optional redemption terms or prepayment or sinking fund;

the place where we will pay principal and interest;

if other than denominations of \$2,000 or higher multiples of \$1,000, the denominations the debt securities will be issued in;

whether the debt securities will be issued in the form of global securities or certificates;

additional provisions, if any, relating to the defeasance of the debt securities;

the currency or currencies, if other than the currency of the United States, in which principal and interest will be paid;

any United States federal income tax consequences;

the dates on which premium, if any, will be paid;

our right, if any, to defer payment of interest and the maximum length of this deferral period;

any listing on a securities exchange;

the initial public offering price; and

other specific terms, including any additional events of default or covenants.

**Subsidiary Guarantee**

If specified in the prospectus supplement, one or more of the subsidiary guarantors will guarantee the debt securities of a series. Unless otherwise indicated in the prospectus supplement, the following provisions will apply to the subsidiary guarantee of the subsidiary guarantor.

## Edgar Filing: VALMONT INDUSTRIES INC - Form 424B2

### Table of Contents

Subject to the limitations described below and in the prospectus supplement, one or more of the subsidiary guarantors will jointly and severally, fully and unconditionally guarantee:

- (a) the full and punctual payment of principal of and interest on debt securities of the series when due, whether at stated maturity, by acceleration, by redemption or otherwise, and all other of our monetary obligations under the indenture and the debt securities and
- (b) the full and punctual performance within applicable grace periods of all other obligations of the Company under the indenture and the debt securities (all such obligations guaranteed by a subsidiary guarantor being herein called the "guaranteed obligations").

The subsidiary guarantors will also pay all expenses (including reasonable attorneys' fees) incurred by the applicable trustee in enforcing any rights under a subsidiary guarantee with respect to a subsidiary guarantor.

Each subsidiary guarantee will be limited in amount to an amount not to exceed the maximum amount that can be guaranteed by the subsidiary guarantor without rendering such subsidiary guarantee voidable under applicable law relating to fraudulent conveyance or fraudulent transfer or similar laws affecting the rights of creditors generally.

Each subsidiary guarantee will be a continuing guarantee and will inure to the benefit of and be enforceable by the trustee, the holders of the debt securities and their successors, transferees and assigns.

A subsidiary guarantor will be released from its obligations under the indenture:

- (a) upon the sale or other disposition of a subsidiary guarantor;
- (b) upon the sale or disposition of all or substantially all the assets of such subsidiary guarantor;
- (c) upon defeasance of the debt securities pursuant to the indenture;
- (d) upon the discharge of the Company's obligations in accordance with the indenture; or
- (e) upon delivery of an officers' certificate to the trustee that such subsidiary guarantor does not guarantee the obligations of the Company under any indebtedness for borrowed money of the Company and that such other guarantees have been released other than through discharges as a result of payment by such guarantor on such guarantees;

provided, however, that in the case of clauses (a) and (b) above, (i) such sale or other disposition is made to a person other than the Company or a subsidiary of the Company and (ii) such sale or disposition is otherwise permitted by the indenture.

At the request of the Company, and delivery to the trustee of an officers' certificate and an opinion of counsel, each stating that all conditions precedent under the indenture relating to such release have been complied with, the trustee will execute any documents reasonably requested by the Company evidencing such release, upon receipt of an officer's certificate and legal opinion to the effect that such release is permissible under the indenture. In addition, the prospectus supplement may specify additional circumstances under which a subsidiary guarantor can be released from its subsidiary guarantee.

### **Events of Default**

"Event of Default," with respect to the debt securities of any series, means:

- (1)

Edgar Filing: VALMONT INDUSTRIES INC - Form 424B2

default in the payment of the principal of any debt security of such series when the same becomes due and payable at maturity, upon acceleration, redemption or mandatory repurchase, including as a sinking fund installment, or otherwise;

Table of Contents

- (2) default in the payment of interest on any debt security of such series when the same becomes due and payable, and such default continues for a period of 30 days;
- (3) default in the performance of or breach of any other covenant or agreement of the Company or any subsidiary guarantor in the indenture with respect to any debt security of such series or in the debt security of such series and such default or breach continues for a period of 90 consecutive days or more after written notice to the Company by the trustee or to the Company and the trustee by the holders of 25% or more in aggregate principal amount of the debt securities of all series affected thereby specifying such default or breach and requiring it to be remedied and stating that such notice is a "Notice of Default" under the indenture;
- (4) certain events of bankruptcy, insolvency, reorganization or similar proceedings with respect to the Company or any subsidiary guarantor;
- (5) default on any indebtedness for money borrowed by the Company or a subsidiary in excess of \$50,000,000 in principal amount that results in the acceleration of such indebtedness prior to its maturity;
- (6) any other Events of Default set forth in the applicable prospectus supplement; and
- (7) any subsidiary guarantee ceases to be in full force and effect (other than in accordance with the terms of such subsidiary guarantee or the indenture) or any subsidiary guarantor denies or disaffirms its obligations under its subsidiary guarantee.

If an Event of Default (other than an Event of Default specified in clause (4) with respect to the Company) under the indenture occurs with respect to the debt securities of any series and is continuing, then the trustee or the holders of at least 25% in principal amount of the outstanding debt securities of that series may by written notice, require us to repay immediately the entire principal amount of the outstanding debt securities of that series (or such lesser amount as may be provided in the terms of the securities), together with all accrued and unpaid interest and premium, if any.

If an Event of Default under the indenture specified in clause (4) with respect to the Company occurs and is continuing, then the entire principal amount of the outstanding debt securities (or such lesser amount as may be provided in the terms of the securities), together with accrued and unpaid interest, will automatically become immediately due and payable without any declaration or other act on the part of the trustee or any holder.

After a declaration of acceleration or any automatic acceleration under clause (4) described above of the debt securities of any series, the holders of a majority in principal amount of outstanding debt securities of that series may rescind this accelerated payment requirement if all existing Events of Default with respect to that series, except for nonpayment of the principal and interest on the debt securities of that series that has become due solely as a result of the accelerated payment requirement, have been cured or waived and if the rescission of acceleration would not conflict with any judgment or decree. The holders of a majority in principal amount of the outstanding debt securities of any series also have the right to waive past defaults with respect to that series, except a default in paying principal or interest on any outstanding debt security of such series, or in respect of a covenant or a provision that cannot be modified or amended without the consent of all holders of the debt securities of that series.

In the event of a declaration of acceleration of the notes because an Event of Default described in clause (5) above has occurred and is continuing, the declaration of acceleration of the notes shall be automatically annulled if the event of default or payment default triggering such Event of Default pursuant to such clause (5) shall be remedied or cured, or waived by the holders of such indebtedness within 30 days after the declaration of acceleration with respect thereto and if (1) the annulment of the acceleration of the notes would not conflict with any judgment or decree of a court of competent

Table of Contents

jurisdiction and (2) all existing Events of Default, except nonpayment of principal, premium or interest on the notes that became due solely because of the acceleration of the notes, have been cured or waived. Holders of at least 25% in principal amount of the outstanding debt securities of a series may seek to institute a proceeding only after they have made written request, and offered indemnity reasonably satisfactory to the trustee to institute a proceeding and the trustee has failed to do so within 60 days after it received this notice. In addition, within this 60-day period the trustee must not have received directions inconsistent with this written request from holders of a majority in principal amount of the outstanding debt securities of that series. These limitations do not apply, however, to a suit instituted by a holder of a debt security for the enforcement of the payment of principal, interest or any premium on or after the due dates for such payment.

During the existence of an Event of Default, the trustee is required to exercise the rights and powers vested in it under the indenture and use the same degree of care and skill in its exercise as a prudent person would under the circumstances in the conduct of that person's own affairs. If an Event of Default has occurred and is continuing, the trustee is not under any obligation to exercise any of its rights or powers at the request or direction of any of the holders of the applicable debt securities unless those holders have offered to the trustee security or indemnity reasonably satisfactory to the trustee. Subject to certain provisions, the holders of a majority in principal amount of the outstanding debt securities of any series have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee, or exercising any trust, or power conferred on the trustee.

The trustee will, within 90 days after any default occurs with respect to the debt securities of any series that is known to the trustee, give notice of the default to the holders of the debt securities of that series, unless the default was already cured or waived. Unless there is a default in paying principal, interest or any premium when due, the trustee can withhold giving notice to the holders if it determines in good faith that the withholding of notice is in the interest of the holders.

We are required to furnish to the trustee an annual statement as to compliance with all conditions and covenants under the indenture.

**Covenants**

*Consolidation, Merger or Sale of Assets*

The indenture provides that we will not consolidate or combine with or merge with or into, or, directly or indirectly, sell, assign, convey, lease, transfer or otherwise dispose of all or substantially all of our properties and assets to, any person or persons in a single transaction or through a series of transactions, unless:

we shall be the continuing person or, if we are not the continuing person, the resulting, surviving or transferee person (the "surviving entity") is a company organized and existing under the laws of the United States or any State or territory;

the surviving entity will expressly assume all of our obligations under the debt securities issued under the indenture, and will, if required by law to effectuate the assumption, execute supplemental indentures which will be delivered to the trustee and will be in form and substance reasonably satisfactory to the trustee;

immediately after giving effect to such transaction or series of transactions on a pro forma basis, no default has occurred and is continuing under the indenture; and

we or the surviving entity will have delivered to the trustee an officers' certificate and opinion of counsel stating that the transaction or series of transactions and supplemental indenture, if any,

complies with this covenant and that all conditions precedent in the indenture relating to the transaction or series of transactions have been satisfied.

The indenture also provides that we will not permit any subsidiary guarantor to consolidate or combine with or merge with or into, or, directly or indirectly, sell, assign, convey, lease, transfer or otherwise dispose of all or substantially all of its properties and assets to, any person or persons (other than the Company or another subsidiary guarantor) in a single transaction or through a series of transactions, unless:

except in the case of a subsidiary guarantor (a) that has been disposed of in its entirety to another person (other than the Company or a subsidiary of the Company), whether through a merger, consolidation or sale of capital stock or assets or (b) that, as a result of the disposition of all or a portion of its capital stock, ceases to be a subsidiary, in both cases, if in connection therewith we provide an officers' certificate to the trustee to the effect that the resulting, surviving or transferee person (if not such subsidiary) shall be a person organized and existing under the laws of the jurisdiction under which such subsidiary was organized or under the laws of the United States or any State or territory, and such person shall expressly assume, by a subsidiary guarantee, in a form satisfactory to the trustee, all the obligations of such subsidiary, if any, under its subsidiary guarantee;

immediately after giving effect to such transaction or series of transactions on a pro forma basis, no default has occurred and is continuing under the indenture; and

we will have delivered to the trustee an officers' certificate and opinion of counsel stating that such consolidation, merger or transfer and such subsidiary guarantee, if any, comply with the indenture.

If any consolidation, combination or merger or any sale, assignment, conveyance, lease, transfer or other disposition of all or substantially all of our assets occurs in accordance with the indenture, the successor corporation will succeed to, and be substituted for, and may exercise every right and power of the Company under the indenture with the same effect as if such successor corporation had been named as the Company and, except in the case of (1) any lease or (2) any sale, assignment, conveyance, transfer, lease or other disposition to one or more subsidiaries of the Company, we will be discharged from all obligations and covenants under the indenture and the debt securities.

**Satisfaction, Discharge and Defeasance**

We may terminate our obligations under debt securities of any series under the indenture, when:

either:

all debt securities of such series issued that have been authenticated and delivered have been delivered by us to the trustee for cancellation; or

all the debt securities of such series issued that have not been delivered by us to the trustee for cancellation will become due and payable, or by their terms to become due and payable, within one year and we have made irrevocable arrangements satisfactory to the trustee for the giving of notice of redemption by such trustee in our name, and at our expense and we have irrevocably deposited or caused to be deposited with the trustee sufficient funds to pay and discharge the entire indebtedness on the series of debt securities to pay principal, interest and any premium;

we have paid or caused to be paid all other sums then due and payable under the indenture with respect to such securities; and

we have delivered to the trustee an officers' certificate and an opinion of counsel, each stating that all conditions precedent under the indenture relating to the satisfaction and discharge of the indenture with respect to such debt securities have been complied with.

We may elect to have our obligations under the indenture discharged with respect to the outstanding debt securities of any series ("legal defeasance"). Legal defeasance means that we will be deemed to have paid and discharged the entire indebtedness represented by the outstanding debt securities of such series under the indenture, except for:

the rights of holders of the debt securities to receive principal, interest and any premium when due;

our obligations with respect to the debt securities concerning issuing temporary debt securities, registration of transfer of debt securities, the Company's right of optional redemption, mutilated, defaced, destroyed, lost or stolen debt securities and the maintenance of an office or agency for payment for security payments held in trust;

the rights, obligations and immunities of the trustee; and

the defeasance provisions of the indenture.

In addition, we may elect to have our obligations released with respect to certain covenants in the indenture ("covenant defeasance"). Any omission to comply with these obligations will not constitute a default or an event of default with respect to the debt securities of any series. In the event covenant defeasance occurs, certain events, not including non-payment, bankruptcy and insolvency events, described under "Events of Default" will no longer constitute an event of default for that series.

In order to exercise either legal defeasance or covenant defeasance with respect to outstanding debt securities of any series:

we must irrevocably have deposited or caused to be deposited with the trustee as trust funds for the purpose of making the following payments, specifically pledged as security for, and dedicated solely to the benefits of the holders of the debt securities of a series:

money in an amount;

U.S. government obligations; or

a combination of money and U.S. government obligations,

in each case sufficient without reinvestment, in the written opinion of a nationally recognized firm of independent public accountants to pay and discharge, and which shall be applied by the trustee to pay and discharge, all of the principal of interest on and any premium on the debt securities at their respective due dates or maturity or if we have made irrevocable arrangements satisfactory to the trustee for the giving of notice of redemption by the trustee in our name and at our expense, the redemption date;

in the case of legal defeasance, we have delivered to the trustee an opinion of counsel (a) confirming we have received from, or there has been published by, the Internal Revenue Service a ruling or (b) stating that, under then applicable U.S. federal income tax law, in either case to the effect that, and based thereon such opinion of counsel will confirm that, the holders of the debt securities of that series will not recognize gain or loss for U.S. federal income tax purposes as a result of the deposit, defeasance and discharge to be effected and will be subject to the same U.S. federal income tax as would be the case if the deposit, defeasance and discharge did not occur;

in the case of covenant defeasance, we have delivered to the trustee an opinion of counsel stating that under the applicable U.S. federal income tax law, the holders of the debt securities

Table of Contents

of that series will not recognize gain or loss for U.S. federal income tax purposes as a result of the deposit and covenant defeasance to be effected and will be subject to the same U.S. federal income tax as would be the case if the deposit and covenant defeasance did not occur;

no default relating to bankruptcy or insolvency has occurred and is continuing at the time of such deposit;

if at such time the debt securities of such series are listed on a national securities exchange, we have delivered to the trustee an opinion of counsel to the effect that the debt securities of such series will not be delisted as a result of such deposit, defeasance and discharge;

we have delivered to the trustee an officers' certificate and an opinion of counsel stating that all conditions precedent with respect to the defeasance or covenant defeasance have been complied with; and

if the debt securities of such series are to be redeemed prior to the final maturity thereof (other than from mandatory sinking fund payments or analogous payments), notice of such redemption shall have been duly given pursuant to the indenture or provision therefor satisfactory to the trustee shall have been made.

**Modification or Waiver**

We, the subsidiary guarantors and the trustee may amend the indenture or the debt securities of any series without notice to or the consent of any holder of debt securities in order to:

cure ambiguities, defects or inconsistencies, provided that such amendment shall not adversely affect the interests of the holders in any material respect;

provide for the assumption of our obligations, or the obligations of any subsidiary guarantor, in the case of a merger or consolidation; provided that such merger or consolidation is in compliance with the terms of the indenture;

comply with any requirements of the SEC in connection with the qualification of the indenture under the Trust Indenture Act;

evidence and provide for the acceptance of appointment with respect to the debt securities of any series by a successor trustee and add to or change any of the provisions of the indenture as shall be necessary to provide for or facilitate the administration of the trusts by more than one trustee;

establish the form or forms or terms of debt securities of any series and related coupons, if any;

to add any additional event of default;

to add to our covenants for the benefit of holders of debt securities of any series or to surrender any right or power conferred upon us;

provide for uncertificated or unregistered debt securities of any series;

make any change that does not materially and adversely affect the rights of any holder; or

add guarantees with respect to, or secure, debt securities of any series.

In addition, we, the subsidiary guarantors and the trustee may otherwise amend the indenture or the debt securities of any series with the consent of the holders of a majority in principal amount of each series of outstanding debt securities affected by such amendment. However, we may not take any

Table of Contents

of the following actions without the consent of each holder of outstanding debt securities affected thereby:

change the stated maturity of the principal of, or any sinking fund obligation or any installment of interest on, such holder's debt security;

reduce the principal amount of or the interest rate of or extend the time of payment for interest on, or reduce any premium payable upon the redemption of such holder's debt security;

change the place or currency of payment of principal, or premium, if any, or interest on, such holder's debt security;

impair a holder's right to initiate suit for the enforcement of any payment on or with respect to any debt security;

reduce the percentage in principal amount outstanding of debt securities of any series which must consent to an amendment or modification of the indenture with respect to the debt securities of the relevant series;

reduce the percentage in principal amount outstanding of debt securities of the relevant series the consent of whose holders is required for any supplemental indenture or for any waiver of compliance with certain provisions of the indenture or certain defaults and their consequences provided for in the indenture; or

make any change in or release any subsidiary guarantee that would adversely affect such holder (other than in accordance with the subsidiary guarantees or the indenture).

A modification with respect to one or more particular series of debt securities, if any, will not affect the rights under the indenture of the holders of debt securities of any other series and related coupons, if any.

The holders of a majority in principal amount of the outstanding debt securities of any series may, on behalf of the holders of all debt securities of such series, waive any past default under the indenture with respect to the debt securities of such series, except a default (i) in the payment of principal of, interest on, or premium payable upon, such series or (ii) in respect of a covenant or provision which, as described above, cannot be modified or amended without the consent of each holder of debt securities of such series. Upon any such waiver, the default will cease to exist with respect to the debt securities of such series and any Event of Default arising therefrom will be deemed to have been cured for every purpose of the debt securities of such series under the indenture, but the waiver will not extend to any subsequent or other default or impair any right consequent thereon.

We may elect in any particular instance not to comply with certain covenants set forth in the indenture or the debt securities of any series if, before the time for such compliance, the holders of a majority in principal amount of the outstanding debt securities of such series either waive compliance in that instance or generally waive compliance with those provisions, but the waiver may not extend to or affect any term, provision or condition except to the extent expressly so waived, and, until the waiver becomes effective, our obligations and the duties of the trustee in respect of any such provision will remain in full force and effect.

In addition, the applicable prospectus supplement will set forth the terms and provisions relating to defeasance with respect to a particular series of debt securities.

**FORMS OF SECURITIES**

Each debt security will be represented either by a certificate issued in definitive form to a particular investor or by one or more global securities representing the entire issuance of securities. Certificated securities in definitive form and global securities will be issued in registered form.

Table of Contents

Definitive securities name you or your nominee as the owner of the security, and in order to transfer or exchange these securities or to receive payments other than interest or other interim payments, you or your nominee must physically deliver the securities to the trustee, registrar, paying agent or other agent, as applicable. Global securities name a depository or its nominee as the owner of the debt securities represented by these global securities. The depository maintains a computerized system that will reflect each investor's beneficial ownership of the securities through an account maintained by the investor with its broker/dealer, bank, trust company or other representative, as we explain more fully below.

**Registered Global Securities**

We may issue the registered debt securities in the form of one or more fully registered global securities that will be deposited with a depository or its nominee identified in the applicable prospectus supplement and registered in the name of that depository or nominee. In those cases, one or more registered global securities will be issued in a denomination or aggregate denominations equal to the portion of the aggregate principal or face amount of the securities to be represented by registered global securities. Unless and until it is exchanged in whole for securities in definitive registered form, a registered global security may not be transferred except as a whole by and among the depository for the registered global security, the nominees of the depository or any successors of the depository or those nominees.

If not described below, any specific terms of the depository arrangement with respect to any securities to be represented by a registered global security will be described in the prospectus supplement relating to those securities. We anticipate that the following provisions will apply to all depository arrangements.

Ownership of beneficial interests in a registered global security will be limited to persons, called participants, that have accounts with the depository or persons that may hold interests through participants. Upon the issuance of a registered global security, the depository will credit, on its book-entry registration and transfer system, the participants' accounts with the respective principal or face amounts of the securities beneficially owned by the participants. Any dealers, underwriters or agents participating in the distribution of the securities will designate the accounts to be credited. Ownership of beneficial interests in a registered global security will be shown on, and the transfer of ownership interests will be effected only through, records maintained by the depository, with respect to interests of participants, and on the records of participants, with respect to interests of persons holding through participants. The laws of some states may require that some purchasers of securities take physical delivery of these securities in definitive form. These laws may impair your ability to own, transfer or pledge beneficial interests in registered global securities.

So long as the depository, or its nominee, is the registered owner of a registered global security, that depository or its nominee, as the case may be, will be considered the sole owner or holder of the securities represented by the registered global security for all purposes under the applicable indenture. Except as described below, owners of beneficial interests in a registered global security will not be entitled to have the securities represented by the registered global security registered in their names, will not receive or be entitled to receive physical delivery of the securities in definitive form and will not be considered the owners or holders of the securities under the applicable indenture. Accordingly, each person owning a beneficial interest in a registered global security must rely on the procedures of the depository for that registered global security and, if that person is not a participant, on the procedures of the participant through which the person owns its interest, to exercise any rights of a holder under the applicable indenture. We understand that under existing industry practices, if we request any action of holders or if an owner of a beneficial interest in a registered global security desires to give or take any action that a holder is entitled to give or take under the applicable indenture, the depository for the registered global security would authorize the participants holding the

Table of Contents

relevant beneficial interests to give or take that action, and the participants would authorize beneficial owners owning through them to give or take that action or would otherwise act upon the instructions of beneficial owners holding through them.

Principal, premium, if any, and interest payments on debt securities represented by a registered global security registered in the name of a depositary or its nominee will be made to the depositary or its nominee, as the case may be, as the registered owner of the registered global security. None of Valmont, its affiliates, the trustee or any other agent of Valmont, or agent of the trustee will have any responsibility or liability for any aspect of the records relating to payments made on account of beneficial ownership interests in the registered global security or for maintaining, supervising or reviewing any records relating to those beneficial ownership interests.

We expect that the depositary for any of the securities represented by a registered global security, upon receipt of any payment of principal, premium, interest or other distribution of underlying securities or other property to holders on that registered global security, will immediately credit participants' accounts in amounts proportionate to their respective beneficial interests in that registered global security as shown on the records of the depositary. We also expect that payments by participants to owners of beneficial interests in a registered global security held through participants will be governed by standing customer instructions and customary practices, as is now the case with the securities held for the accounts of customers registered in "street name," and will be the responsibility of those participants.

If the depositary for any of these securities represented by a registered global security is at any time unwilling or unable to continue as depositary or ceases to be a clearing agency registered under the Exchange Act, and a successor depositary registered as a clearing agency under the Exchange Act is not appointed by us within 90 days, we will issue securities in definitive form in exchange for the registered global security that had been held by the depositary. Any securities issued in definitive form in exchange for a registered global security will be registered in the name or names that the depositary gives to the relevant trustee or other relevant agent of ours or theirs. It is expected that the depositary's instructions will be based upon directions received by the depositary from participants with respect to ownership of beneficial interests in the registered global security that had been held by the depositary.

**PLAN OF DISTRIBUTION**

We may sell the debt securities in one or more of the following ways (or in any combination) from time to time:

through underwriters or dealers;

directly to a limited number of purchasers or to a single purchaser; or

through agents.

The prospectus supplement will state the terms of the offering of the debt securities, including:

the name or names of any underwriters, dealers or agents;

the purchase price of such debt securities and the proceeds to be received by us, if any;

any underwriting discounts or agency fees and other items constituting underwriters' or agents' compensation;

any discounts or concessions allowed or reallowed or paid to dealers; and

any securities exchanges on which the securities may be listed.

Table of Contents

If we use underwriters in the sale, the securities will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions, including:

- negotiated transactions;
- at a fixed public offering price or prices, which may be changed;
- at market prices prevailing at the time of sale;
- at prices related to prevailing market prices; or
- at negotiated prices.

Unless otherwise stated in a prospectus supplement, the obligations of the underwriters to purchase any securities will be conditioned on customary closing conditions and the underwriters will be obligated to purchase all of such series of securities, if any are purchased.

We may sell the securities through agents from time to time. The prospectus supplement will name any agent involved in the offer or sale of the securities and any commissions we pay to them. Generally, any agent will be acting on a best efforts basis for the period of its appointment.

We may authorize underwriters, dealers or agents to solicit offers by certain purchasers to purchase the securities from us at the public offering price set forth in the prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on a specified date in the future. The contracts will be subject only to those conditions set forth in the prospectus supplement, and the prospectus supplement will set forth any commissions we pay for solicitation of these contracts.

Underwriters and agents may be entitled under agreements entered into with us to indemnification by us against certain civil liabilities, including liabilities under the Securities Act, or to contribution with respect to payments which the underwriters or agents may be required to make.

The prospectus supplement may also set forth whether or not underwriters may over-allot or effect transactions that stabilize, maintain or otherwise affect the market price of the securities at levels above those that might otherwise prevail in the open market, including, for example, by entering stabilizing bids, effecting syndicate covering transactions or imposing penalty bids.

Underwriters and agents may be customers of, engage in transactions with, or perform services for us and our affiliates in the ordinary course of business.

Each series of securities will be a new issue of securities and will have no established trading market. Any underwriters to whom securities are sold for public offering and sale may make a market in the securities, but such underwriters will not be obligated to do so and may discontinue any market making at any time without notice. The securities may or may not be listed on a national securities exchange.
