EXPLANATORY NOTE

The purpose of this Schedule 14A is to file a press release issued by Telephone and Data Systems, Inc. (“TDS”) on May 2, 2014 relating to earnings for the first quarter of 2014.

IMPORTANT INFORMATION: TDS and its directors, executive officers and other members of its management and employees may be deemed to be participants in the solicitation of proxies from the shareholders of TDS in connection with the TDS 2014 annual meeting of shareholders. Information regarding TDS directors and executive officers and other participants that may be soliciting proxies on behalf of the TDS board of directors and their respective interests in TDS by security holdings or otherwise is set forth in TDS’s definitive proxy statement relating to its 2014 annual meeting, as filed with the Securities and Exchange Commission (“SEC”) on April 18, 2014. The 2014 proxy statement, other solicitation material and other reports that TDS files with the SEC, when available, can be obtained free of charge at the SEC’s web site at www.sec.gov or from TDS as provided on its website at www.teldta.com. TDS SHAREHOLDERS ARE ADVISED TO READ CAREFULLY THE PROXY STATEMENT AND OTHER SOLICITATION MATERIAL FILED BY TDS IN CONNECTION WITH THE TDS 2014 ANNUAL MEETING OF SHAREHOLDERS BEFORE MAKING ANY VOTING DECISION BECAUSE THEY CONTAIN OR WILL CONTAIN IMPORTANT INFORMATION RELATING TO THE ELECTION OF DIRECTORS OF TDS.

Exhibit 99.1 NEWS RELEASE

As previously announced, TDS will hold a teleconference May 2, 2014 at 9:30 a.m. CDT. Interested parties may listen to the call live via the Events & Presentations page of investors.teldta.com.

FOR IMMEDIATE RELEASE

TDS reports first quarter 2014 results

CHICAGO, (May 2, 2014) — Telephone and Data Systems, Inc. (NYSE:TDS) reported operating revenues of \$1,196.0 million for the first quarter of 2014, versus \$1,308.6 million for the comparable period one year ago. Net income attributable to TDS shareholders and related diluted earnings per share were \$18.3 million and \$0.16 respectively, for the first quarter of 2014, compared to \$1.4 million and \$0.01, respectively, in the comparable period one year ago.

Year-over-year comparisons are affected by U.S. Cellular's divestiture transaction, the deconsolidation of certain U.S. Cellular partnerships, and acquisitions at TDS Telecom, in 2013.

"Our businesses made significant progress in the quarter to execute on their customer strategies and improve operating efficiency," said LeRoy T. Carlson, Jr., TDS president and CEO. "While we have considerable work to do to improve our financial and operating performance, I believe we're focused on the right areas.

"U.S. Cellular continues to attract new customers and drive smartphone adoption and data use, leading to higher average revenue per customer. Substantial progress has been made to restore high standards of service following the billing system conversion, and U.S. Cellular has already leveraged the system to deliver new services like our Shared

Connect Plans and no contract Simple Connect Plans.

“TDS Telecom increased average revenue per customer for both residential and commercial wireline customers, with higher-tier TDS TV packages and faster broadband speeds, and new *managed*IP plans. We also continued to improve the overall efficiency of the wireline business. Revenues increased 77 percent at OneNeck IT Solutions, our hosted and managed services business, driven by revenues from acquisitions and increased revenues for recurring services.

“As we continued to execute our integration and customer strategies for Baja Broadband, we also agreed to acquire Bend Broadband, a premier cable and broadband provider to residential and business customers in Central Oregon. BendBroadband’s high-capacity, all-digital network, technology leadership, and customer-centered approach will be tremendous assets as we develop a premier cable broadband business.”

2014 Estimated Results

U.S. Cellular capital expenditures for 2014 are expected to be approximately \$640 million, down from \$738 million in 2013.

TDS Telecom estimates for full-year 2014 results are shown below. Such estimates represent management's view as of May 2, 2014. Such forward-looking statements should not be assumed to be current as of any future date. TDS undertakes no duty to update such information, whether as a result of new information, future events or otherwise. There can be no assurance that final results will not differ materially from such estimated results.

		TDS Telecom 2014 Estimated Results (1)		
		Current		Previous
(Dollars in millions)				
Operating revenues		\$1,050-\$1,100		Unchanged
Adjusted income before income taxes (2)		\$250-\$280		Unchanged
Capital expenditures		\$200		Unchanged

(1) These estimates do not reflect the effects of the acquisition of BendBroadband.

(2) Adjusted income before income taxes is defined as income before income taxes, adjusted for the items set forth in the reconciliation below. Adjusted income before income taxes excludes these items in order to show operating results on a more comparable basis from period to period. In addition, TDS may exclude other items from adjusted income before income taxes if such items help reflect operating results on a more comparable basis. TDS does not intend to imply that any such amounts that are excluded are non-recurring, infrequent or unusual; such amounts may occur in the future. Adjusted income before income taxes is not a measure of financial performance under Generally Accepted Accounting Principles in the United States ("GAAP") and should not be considered as an alternative to income before income taxes as an indicator of the company's operating performance or as an alternative to cash flows from operating activities, determined in accordance with GAAP, as an indicator of cash flows or as a measure of liquidity. TDS believes adjusted income before income taxes is a useful measure of TDS' operating results before significant recurring non-cash charges, discrete gains and losses, and financing charges (interest expense). The following table provides a reconciliation of income before income taxes to adjusted income before income taxes for 2014 estimated results, three months ended March 31, 2014, and 2013 actual results:

		TDS Telecom				
			Actual Results			
		2014 Estimated Results		Three Months Ended		Year Ended

			March 31, 2014		December 31, 2013
(Dollars in millions)					
Income before income taxes	\$25-\$55		\$19		\$49
Depreciation, amortization and accretion expense	\$225		\$54		\$203
(Gain) loss on investments					(\$1)
Interest expense					(\$2)
Adjusted income before income taxes	\$250-\$280		\$73		\$249

Stock repurchase summary

TDS began repurchasing under its \$250 million repurchase authorization on Aug. 5, 2013. The following represents repurchases of TDS Common Shares.

Repurchase Period	# Shares	Cost (in millions)	
2014 (first quarter)	157,891	\$	3.8
2013 (full year)	338,851	\$	9.7
Total	496,742	\$	13.5

Conference Call Information

TDS will hold a conference call on May 2, 2014 at 9:30 a.m. CST.

- Access the live call on the Events & Presentations page of investors.teldta.com or at <http://www.videonewswire.com/event.asp?id=99006>.
- Access the call by phone at 877-407-8029 (US/Canada), no pass code required.

Before the call, certain financial and statistical information to be discussed during the call will be posted to investors.teldta.com. The call will be archived on the Events & Presentations page of investors.teldta.com.

About TDS

Telephone and Data Systems, Inc. (TDS), a Fortune 500® company, provides wireless; cable and wireline broadband, TV and voice; and hosted and managed services to approximately 5.8 million customers nationwide through its business units, U.S. Cellular, TDS Telecom, OneNeck IT Solutions and Baja Broadband. Founded in 1969 and headquartered in Chicago, TDS employed 10,600 people as of March 31, 2014.

Safe Harbor Statement Under the Private Securities Litigation Reform Act of 1995: All information set forth in this news release, except historical and factual information, represents forward-looking statements. This includes all statements about the company's plans, beliefs, estimates, and expectations. These statements are based on current estimates, projections, and assumptions, which involve certain risks and uncertainties that could cause actual results to differ materially from those in the forward-looking statements. Important factors that may affect these forward-looking statements include, but are not limited to: impacts of any pending acquisition and divestiture transactions, including, but not limited to, the ability to obtain regulatory approvals, successfully complete the transactions and the financial impacts of such transactions; the ability of the company to successfully manage and grow its markets; the overall economy; competition; the access to and pricing of unbundled network elements; the ability to obtain or maintain roaming arrangements with other carriers on acceptable terms; the state and federal telecommunications regulatory environment; the value of assets and investments; adverse changes in the ratings afforded TDS and U.S. Cellular debt securities by accredited ratings organizations; industry consolidation; advances in telecommunications technology; uncertainty of access to the capital markets; pending and future litigation; changes in income tax rates, laws, regulations or rulings; acquisitions/divestitures of properties and/or licenses; changes in customer growth rates, average monthly revenue per user, churn rates, roaming revenue and terms, the availability of handset devices, or the mix of products and services offered by U.S. Cellular and TDS Telecom. Investors are encouraged to consider these and other risks and uncertainties that are discussed in the Form 8-K Current Report used by TDS to furnish this press release to the Securities and Exchange Commission ("SEC"), which are incorporated by reference herein.

* U.S. Cellular's Core Markets excludes the results of the Divestiture Markets and NY1 and NY2 Partnerships for the periods presented.

Refer to U.S. Cellular's Form 8-K filed on May 3, 2013 for pro forma financial information related to the Divestiture Transaction and the NY1 and NY2 Deconsolidation for the three months ended March 31, 2013, as if the transactions had occurred at the beginning of the period.

- (1) ARPU metrics are calculated by dividing a revenue base by an average number of customers by the number of months in the period. These revenue bases and customer populations are shown below:
 - a. Postpaid ARPU consists of total postpaid service revenues and postpaid customers.
 - b. Prepaid ARPU consists of total prepaid service revenues and prepaid customers.
 - c. Billed ARPU consists of total postpaid, prepaid and reseller service revenues and postpaid, prepaid and reseller customers.
 - d. Service revenue ARPU consists of total retail service revenues, inbound roaming and other service revenues and postpaid, prepaid and reseller customers.
- (2) Churn metrics represent the percentage of the postpaid or prepaid customers that disconnect service each month. These metrics represent the average monthly postpaid or prepaid churn rate for each respective period.
- (3) Smartphones represent wireless devices which run on an Android, Apple, BlackBerry or Windows Mobile operating system, excluding tablets.
- (4) Smartphone penetration is calculated by dividing postpaid smartphone customers by total postpaid customers.
- (5) Used only to calculate market penetration of consolidated markets and consolidated operating markets, respectively. See footnote (6) below.
- (6) Market penetration is calculated by dividing the number of wireless customers at the end of the period by the total population of consolidated markets and consolidated operating markets, respectively, as estimated by Claritas.

	Total residential revenue per connection (5)	\$ 57.37	\$ 55.27	\$ 55.67					

(1) The individual circuit connecting a customer to TDS Telecom's central office facilities.

- (2) The number of customers provided high-capacity data circuits via various technologies, including DSL and dedicated internet circuit technologies.
- (3) The number of customers provided video services using IP networking technology.
- (4) The number of telephone handsets, data lines and IP trunks providing communications using IP networking technology.
- (5) Total residential revenue divided by the average number of total residential connections.
- (6) Generally, a home or business receiving video programming counts as one video connection. In counting bulk residential or commercial connections, such as an apartment building or hotel, connections are counted based on the number of units/rooms within the building receiving service.
- (7) Broadband and voice connections reflect billable number of lines into a building for high speed data and voice services, respectively.
