SIGNATURES

Forward Looking Statements

This Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), which are subject to the safe harbor created by such sections. When used in this Form 10-Q or future filings by First BanCorp. (the “Corporation”) with the U.S. Securities and Exchange Commission (“SEC”), in the Corporation’s press releases or in other public or stockholder communications, or in oral statements made with the approval of an authorized executive officer, the words or phrases “would,” “intends,” “will likely result,” “expect,” “should,” “anticipate,” “look forward,” “believes,” and other terms of similar meaning or import in connection with any discussion of future operating, financial or other performance are meant to identify “forward-looking statements.”

First BanCorp. wishes to caution readers not to place undue reliance on any such “forward-looking statements,” which speak only as of the date made, and to advise readers that these forward-looking statements are not guarantees of future performance and involve certain risks, uncertainties, estimates, and assumptions by us that are difficult to predict. Various factors, some of which are beyond our control, could cause actual results to differ materially from those expressed in, or implied by, such forward-looking statements.

The two hurricanes that affected the Corporation’s service areas in 2017 are discussed below in Note 2 to the financial statements and in various sections of “Management’s Discussion and Analysis of Financial Condition and Results of Operations.” These events caused significant uncertainties, the outcome of which will impact the Corporation’s future results.

Factors that could cause actual results to differ from those expressed in the Corporation’s forward-looking statements include, but are not limited to, risks described or referenced below in Part II, Item 1A. “Risk Factors” and the following:

- the actual pace and magnitude of economic recovery in the Corporation’s service areas that were affected by two hurricanes during 2017 compared to Management’s current views on the economic recovery;
- uncertainties about the effectiveness and the timing of the completion of the rebuilding taking place in the regions affected by the hurricanes, including the rebuilding of the public infrastructure, such as Puerto Rico’s power grid, how and the extent to which government, private or philanthropic funds will be invested in the affected communities, how many displaced individuals will return to their homes in both the short- and long-term, and what other demographic changes will take place, if any;

- uncertainty as to the ultimate outcomes of actions taken, or those that may be taken, by the Puerto Rico government, or the oversight board established by the Puerto Rico Oversight, Management, and Economic Stability Act (“PROMESA”) to address Puerto Rico’s financial problems, including the filing of a form of bankruptcy under Title III of PROMESA, which provides a court debt restructuring process similar to U.S. bankruptcy protection, and the effects of measures included in the Puerto Rico government fiscal plan, or any revisions to it, on our clients and loan portfolios;
- the ability of the Puerto Rico government or any of its public corporations or other instrumentalities to repay its respective debt obligations, including the effect of payment defaults on the Puerto Rico government general obligations, bonds of the Government Development Bank for Puerto Rico (the “GDB”) and certain bonds of government public corporations, and recent and any future downgrades of the long-term and short-term debt ratings of the Puerto Rico government, which could exacerbate Puerto Rico’s adverse economic conditions and, in turn, further adversely impact the Corporation;

- uncertainty about whether the Federal Reserve Bank of New York (the “New York FED” or “Federal Reserve”) will continue to provide approvals for receiving dividends from the Corporation’s subsidiary, FirstBank Puerto Rico (“FirstBank” or the “Bank”), or making payments of dividends on non-cumulative perpetual preferred stock, or payments on trust preferred securities or subordinated debt, incurring, increasing or guaranteeing debt or repurchasing any capital securities, despite the consents that have enabled the Corporation to receive quarterly dividends from FirstBank since the second quarter of 2016, to pay quarterly interest payments on the Corporation’s subordinated debentures associated with its trust preferred securities since the second quarter of 2016, and to pay monthly dividends on the non-cumulative perpetual preferred stock since December 2016;
- a decrease in demand for the Corporation’s products and services and lower revenues and earnings because of the continued recession in Puerto Rico;
- uncertainty as to the availability of certain funding sources, such as brokered certificates of deposit (“brokered CDs”);
- the Corporation’s reliance on brokered CDs to fund operations and provide liquidity;
- the risk of not being able to fulfill the Corporation’s cash obligations or resume paying dividends to the Corporation’s common stockholders in the future due to the Corporation’s need to receive regulatory approvals to declare or pay any dividends and to take dividends or any other form of payment representing a reduction in capital from FirstBank or FirstBank’s failure to generate sufficient cash flow to make a dividend payment to the Corporation;
- the weakness of the real estate markets and of the consumer and commercial sectors and their impact on the credit quality of the Corporation’s loans and other assets, which have contributed and may continue to contribute to, among other things, high levels of non-performing assets, charge-offs and provisions for loan and lease losses, and may subject the Corporation to further risk from loan defaults and foreclosures;
- the ability of FirstBank to realize the benefits of its net deferred tax assets;
- adverse changes in general economic conditions in Puerto Rico, the United States (“U.S.”), the U.S. Virgin Islands (“USVI”), and the British Virgin Islands (“BVI”), including the interest rate environment, market liquidity, housing absorption rates, real estate prices, and disruptions in the U.S. capital markets, which reduced interest margins and affected funding sources, and have affected demand for all of the Corporation’s products and services and reduced the Corporation’s revenues and earnings and the value of the Corporation’s assets, and may continue to have these effects;

- an adverse change in the Corporation's ability to attract new clients and retain existing ones;
- the risk that additional portions of the unrealized losses in the Corporation's investment portfolio are determined to be other-than-temporary, including additional impairments on the Corporation's remaining \$8.1 million of the Puerto Rico government's debt securities;
- uncertainty about regulatory and legislative changes for financial services companies in Puerto Rico, the U.S., the USVI and the BVI, which could affect the Corporation's financial condition or performance and could cause the Corporation's actual results for future periods to differ materially from prior results and anticipated or projected results;

- changes in the fiscal and monetary policies and regulations of the U.S. federal government and the Puerto Rico and other governments, including those determined by the Board of the Governors of the Federal Reserve System (the “Federal Reserve Board”), the New York FED, the Federal Deposit Insurance Corporation (“FDIC”), government-sponsored housing agencies, and regulators in Puerto Rico, and the USVI and BVI;
- the risk of possible failure or circumvention of controls and procedures and the risk that the Corporation’s risk management policies may not be adequate;
- the risk that the FDIC may increase the deposit insurance premium and/or require special assessments to replenish its insurance fund, causing an additional increase in the Corporation’s non-interest expenses;
- the impact on the Corporation’s results of operations and financial condition of acquisitions and dispositions;
- a need to recognize impairments on the Corporation’s financial instruments, goodwill or other intangible assets relating to acquisitions;
- the risk that downgrades in the credit ratings of the Corporation’s long-term senior debt will adversely affect the Corporation’s ability to access necessary external funds;
- the effect on the Corporation’s businesses, business practices and results of operations of a potential higher interest rate environment;
- uncertainty as to whether FirstBank will be able to satisfy its regulators regarding, among other things, its asset quality, liquidity plans, maintenance of capital levels and compliance with applicable laws, regulations and related requirements; and
- general competitive factors and industry consolidation.

The Corporation does not undertake, and specifically disclaims any obligation, to update any “forward-looking statements” to reflect occurrences or unanticipated events or circumstances after the date of such statements except as required by the federal securities laws.

Investors should refer to the Corporation's Annual Report on Form 10-K for the year ended December 31, 2017, as well as "Part II, Item 1A, Risk Factors," in this Quarterly Report on Form 10-Q, for a discussion of such factors and certain risks and uncertainties to which the Corporation is subject.
