Edgar Filing: FOXBY CORP. - Form N-CSR

Fellow Shareholders:

We are pleased to submit this 2006 Annual Report for Foxby Corp. and to welcome our new shareholders who find the Fund's flexible total return investment approach attractive. As a non-diversified, closed end fund seeking total return, the Fund uses a flexible strategy in the selection of securities, and is not limited by the issuer's location, size, or market capitalization. The Fund may invest in equity and fixed income securities of both new and seasoned U.S. and foreign issuers, including securities convertible into common stock and debt securities. The Fund also may employ aggressive and speculative investment techniques, such as selling securities short, employing futures and options, derivatives, and borrowing money for investment purposes, an approach known as "leveraging," and may invest defensively in high grade money market instruments.

Market Report

After increasing the Federal funds target rate by a quarter of one percent at each of its four meetings in the first half of 2006, the Federal Open Market Committee ("FOMC") left the target rate unchanged at 5.25% in the second half of the year. Since the FOMC had signaled that future rate increases would depend on current data regarding inflation and economic growth, the FOMC appeared to view the economy as moderating in each of these respects, although it indicated a continuing concern with inflation. The FOMC's restraint was well received, causing equities to rise and other interest rates to decline towards the end of the year. As U.S. interest rates fell, the U.S. dollar weakened versus the euro, yen, and British pound. The second half also saw bonds rallying as oil prices dropped and overall corporate earnings remained strong.

More recently, the U.S. Department of Labor reported that U.S. non-farm payrolls expanded by a seasonally adjusted 167,000 jobs, with solid gains in the service sector and moderate declines in the manufacturing and construction sectors. The report indicated that the United States showed a net increase of 1.8 million jobs in 2006, compared with 1.9 million in 2005 and 2.1 million in 2004. At the same time, the unemployment rate remains near a five year low.

Notwithstanding these positive signs for the U.S. economy, we remained concerned by the U.S. current-account deficit - the combined balances for trade in goods and services, income, and net unilateral current transfers - which increased to \$225.6 billion in the third quarter of 2006 from \$217.1 billion in the second quarter. With this trend, our foreign debt will be reaching increasingly high levels. While a weaker U.S. dollar might contribute to closing the deficit by making U.S. exports cheaper and more competitive for sales abroad, the buying power of Americans for products from abroad would be lessened.

Total Return Allocation

In view of these market conditions, the Fund's general strategy in 2006 was to increase its holdings of foreign stocks, particularly in Asia, and larger capitalization growth stocks. Over the course of the year, the Fund re-aligned its portfolio's focus on commodity based businesses towards precious metals, oil, and zinc, and reduced its overall exposure to U.S. markets. For the 2006 year, the Fund had a market total return on the American Stock Exchange of 17.56% on a net asset value total return of 16.00%. In the same period, the Standard & Poor's 500 returned 15.79%, according to Morningstar. These are satisfying results for our total return investment process, which we believe provides an attractive strategy for the Fund over the long term.

Our current view of financial conditions suggests that the Fund will

Edgar Filing: FOXBY CORP. - Form N-CSR

benefit over the course of 2007 from our flexible portfolio approach, investing opportunistically in a variety of markets, and employing aggressive and speculative investment techniques as deemed appropriate.

At December 31, 2006, the Fund's top ten holdings comprised approximately 40% of net assets. As a percent of net assets, investments in U.S. equities accounted for about 63% and foreign equities about 50%, reflecting 13% leverage. As the Fund pursues its total return objective through this flexible approach, these holdings and allocations are subject to substantial change at any time. By way of illustration, the Fund employed leverage of about 2%, and 14% at December 31, 2005 and 2004, respectively.

We thank you for investing with Foxby and share your enthusiasm for the Fund: affiliates of the Investment Manager own approximately 24.4% of the Fund's shares. We believe that shares of the Fund are attractive, and look forward to serving your investment needs over the years ahead.

Sincerely,

/s/ Thomas B. Winmill

Notes to Financial Statements - December 31, 2006

1. Organization, Investment Objectives, and Summary of Significant Accounting Policies

Organization and Investment Objectives - Foxby Corp., a Maryland corporation registered under the Investment Company Act of 1940, as amended (the "Act"), is a non-diversified, closed end management investment company whose shares are listed on the American Stock Exchange. The Fund's non-fundamental investment objective is total return which it may seek from growth of capital and from income in any security type and in any industry sector.

The following is a summary of the Fund's significant accounting policies.

Security Valuation - Securities traded on a national securities exchange are valued at the last reported sales price on the day the valuations are made. Securities traded primarily on the NASDAQ Stock Market ("NASDAQ") are normally valued by the Fund at the NASDAQ Official Closing Price ("NOCP") provided by NASDAQ each business day. The NOCP is the most recently reported price as of 4:00:02 p.m., Eastern time, unless that price is outside the range of the "inside" bid and asked prices (i.e., the bid and asked prices that dealers quote to each other when trading for their own accounts); in that case, NASDAQ will adjust the price to equal the inside bid or asked price, whichever is closer. Because of delays in reporting trades, the NOCP may not be based on the price of the last trade to occur before the market closes. Such securities that are not traded on a particular day, securities traded in the over-the-counter market that are not on NASDAQ, and foreign securities are valued at the mean between the current bid and asked prices. Certain of the securities in which the Fund invests are priced through pricing services that may utilize a matrix pricing system which takes into consideration factors such as yields, prices, maturities, call features, and ratings on comparable securities. Bonds may be valued according to prices quoted by a dealer in bonds that offers pricing services. Debt obligations with remaining maturities of 60 days or less are

Edgar Filing: FOXBY CORP. - Form N-CSR

valued at cost adjusted for amortization of premiums and accretion of discounts. Securities for which quotations are not readily available or reliable and other assets may be valued as determined in good faith under the direction of and pursuant to procedures established by the Fund's Board of Directors.

Foreign Currency Translation - Securities denominated in foreign currencies are translated into U.S. dollars at prevailing exchange rates. Realized gain or loss on a sale of investments denominated in foreign currencies is reported separately from gain or loss attributable to the change in foreign exchange rates for those investments.

Repurchase Agreements - The Fund participates in repurchase agreements with the Fund's custodian. The custodian takes possession of the underlying collateral securities which are valued daily to ensure that the fair market value, including accrued interest, is at least equal, at all times, to the repurchase price. In the event of default on the obligation to repurchase, the Fund has the right to liquidate the collateral and apply the proceeds in satisfaction of the obligation. Under certain circumstances, in the event of default or bankruptcy by the other party to the agreement, realization and/or retention of the collateral may be subject to legal proceedings.

Short Sales - The Fund may sell a security it does not own in anticipation of a decline in the fair value of the security. When the Fund sells a security short, it must borrow the security sold short and deliver it to the broker-dealer through which it made the short sale. A gain, limited to the price at which the Fund sold the security short, or a loss, unlimited in size, will be recognized upon the termination of a short sale.

Futures Contracts - The Fund may engage in transactions in futures contracts. Upon entering into a futures contract, the Fund is required to deposit with the broker an amount of cash or cash equivalents equal to a certain percentage of the contract amount. This is known as the "initial margin." Subsequent payments ("variation margin") are made or received by the Fund each day, depending on the daily fluctuation of the value of the contract. The daily change in the contract is included in unrealized appreciation/depreciation on investments and futures contracts. The Fund realizes a gain or loss when the contract is closed. Futures transactions sometimes may reduce returns or increase volatility. In addition, futures can be illiquid and highly sensitive to changes in their underlying security, interest rate or index, and as a result can be highly volatile. A small investment in certain futures could have a potentially large impact on the Fund's performance.

Notes to Financial Statements - December 31, 2006 (Continued)

Security Transactions - Investment transactions are accounted for on the trade date (the date the order to buy or sell is executed). Dividend income and distributions to shareholders are recorded on the ex-dividend date and interest income is recorded on the accrual basis. Withholding taxes on foreign dividends have been provided for in accordance with the Fund's understanding of the applicable country's tax rules and rates.

Expenses - Certain expenses are applicable to multiple funds. Expenses directly attributable to the Fund are charged to the Fund. Expenses borne by the complex of related investment companies, which includes open end and closed end investment companies for which the Investment Manager and its affiliates serve as investment manager, that are not directly attributed to the Fund, are allocated among the Fund and the other investment companies in the complex on

Edgar Filing: FOXBY CORP. - Form N-CSR

the basis of relative net assets, except where a more appropriate allocation of expenses to each investment company in the complex can otherwise be made fairly.

Expense Reduction Arrangement - Through arrangements with the Fund's custodian and cash management bank, credits realized as a result of uninvested cash balances were used to reduce custody and transfer agency expenses, respectively. For financial reporting purposes, the Fund included these credits as expense reductions in the Statement of Operations.

Use of Estimates - In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management makes estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income Taxes - No provision has been made for U.S. income taxes because the Fund's current intention is to continue to qualify as a regulated investment company under the Internal Revenue Code and to distribute to its shareholders substantially all of its taxable income and net realized gains. Foreign securities held by the Fund may be subject to foreign taxation. Foreign taxes, if any, are recorded based on the tax regulations and rates that exist in the foreign markets in which the Fund invests.

Indemnifications - The Fund indemnifies its officers and directors for certain liabilities that might arise from their performance of their duties for the Fund. Additionally, in the normal course of business the Fund enters into contracts that contain a variety of representations and warranties and which may provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown as it involves future claims that may be made against the Fund under circumstances that have not occurred.

2. Fees and Transactions with Related Parties

The Fund retains CEF Advisers, Inc. as its Investment Manager pursuant to an Investment Management Agreement ("IMA"). Under the terms of the IMA, the Investment Manager receives a management fee, payable monthly, based on the average daily net assets of the Fund at the annual rate of 1/2 of 1% per annum. Certain officers and directors of the Fund are officers and directors of the Investment Manager. Pursuant to the IMA, the Fund reimburses the Investment Manager for providing at cost certain administrative services comprised of compliance and accounting services.

For the year ended December 31, 2006, the Fund incurred total administrative cost of \$17,622, comprised of \$9,861 and \$7,761 for compliance and accounting services, respectively. Of the 2,602,847 shares of Fund common stock outstanding at December 31, 2006, Investor Service Center, Inc., an affiliate of the Investment Manager, owned 24.4%.

Notes to Financial Statements - December 31, 2006 (continued)

3. Distributable Earnings

At December 31, 2006, the Fund had a net capital loss carryover of \$15,691,817, of which \$7,884,812, \$6,343,522, \$414,304, \$837,334, and \$211,845 expires in 2008, 2009, 2010, 2011, and 2013, respectively, that may be used to offset future realized capital gains for federal income tax purposes.

Edgar Filing: FOXYBY CORP. - Form N-CSR

As of December 31, 2006, the components of distributable earnings on a tax basis were as follows:

Capital loss carryover	\$(15,691,817)
Post-October net capital losses	--
Unrealized appreciation	521,018

	\$(15,170,799)
	=====

Federal income tax regulations permit Post-October net capital losses to be deferred and recognized on the tax return of the next succeeding taxable year.

Accounting principles generally accepted in the United States of America require certain components of net assets to be reclassified between financial and tax reporting. These reclassifications have no effect on net assets or net asset value per share. For the year ended December 31, 2006, the Fund reclassified \$99,181 from accumulated investment loss to paid-in capital.

4. Investment Transactions

Purchases and sales of investment securities (excluding short term investments) aggregated \$9,193,774 and \$8,549,146, respectively, for the year ended December 31, 2006. At December 31, 2006, for federal income tax purposes the aggregate cost of securities was \$8,036,705 and net unrealized appreciation was \$521,018, comprised of gross unrealized appreciation of \$1,350,418 and gross unrealized depreciation of \$829,400.

(a) Illiquid and Restricted Securities

The Fund owns securities which have a limited trading market and/or certain restrictions on trading and, therefore, may be illiquid and/or restricted. Such securities have been valued at fair value in accordance with the procedures described in Note 1. Due to the inherent uncertainty of valuation, these values may differ from the values that would have been used had a ready market for these securities existed and these differences could be material. Illiquid and/or restricted securities owned at December 31, 2006, were as follows:

5. Bank Line of Credit

Edgar Filing: FOXBY CORP. - Form N-CSR

The Fund, Global Income Fund, Inc., Midas Fund, Inc., and Midas Special Fund, Inc. (the "Borrowers") have entered into a committed secured line of credit facility with State Street Bank & Trust Company ("Bank"), the Fund's custodian. Global Income Fund, Inc. is a closed end investment company managed by the Investment Manager, and Midas Fund, Inc. and Midas Special Fund, Inc. are open end investment companies managed by an affiliate of the Investment Manager. The aggregate amount of the line of credit is \$25,000,000, which was renewed and increased from \$9,000,000, effective June 15, 2006. The borrowing of each Borrower is collateralized by the underlying investments of such Borrower. The Bank will make revolving loans to a Borrower not to exceed in the aggregate outstanding at any time with respect to any one Borrower, the least of \$25,000,000, the maximum amount permitted pursuant to each Borrower's investment policies, or as permitted under the Act. The commitment fee on this facility is 0.10% per annum on the unused portion of the commitment, based on a 360-day year. All loans under this facility will be available at the Borrower's option of (i) overnight Federal funds or (ii) LIBOR (30, 60, 90 days), each as in effect from time to time, plus 0.75% per annum, calculated on the basis of actual days elapsed for a 360-day year. For the year ended December 31, 2006, the average daily interest rate was 5.60% based on the balances outstanding during the period and the weighted average amount outstanding during the period was \$535,668. The line of credit balance outstanding at December 31, 2006 was \$958,215, collateralized by investment securities with a market value of approximately \$4,800,000.

6. Recently Issued Accounting Standards

In June 2006, the Financial Accounting Standards Board ("FASB") issued FASB Interpretation No. 48 ("FIN 48"), "Accounting for Uncertainty in Income Taxes - an Interpretation of FASB Statement No. 109, Accounting for Income Taxes." FIN 48 establishes a minimum threshold for financial statement recognition of the benefit of positions taken in filing tax returns (including whether an entity is taxable in a particular jurisdiction), and requires certain expanded tax disclosures. FIN 48 to be implemented no later than June 29, 2007, and is to be applied to all open tax years as of the date of effectiveness. The FASB issued Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" ("FAS 157"), in September 2006, which is effective for fiscal years beginning after November 15, 2007. FAS 157 defines fair value, establishes a framework for measuring fair value, and expands the required financial statement disclosures about fair value measurements. Management is currently evaluating the impact of adopting FIN 48 and FAS 157.

(a) Total return on market value basis is calculated assuming a purchase of common stock on the opening of the first day and sale on the closing of the last day of each period reported. Dividends and distributions, if any, are assumed for purposes of this calculation, to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Generally, total return on net asset value basis will be higher than total return on market value basis in periods where there is an increase in the discount or a decrease in the premium of the market value to the net asset value from the beginning to the end of such periods. Conversely, total return on net asset value basis will be lower than total return on market value basis in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of such periods. Total return calculated for a period of less than one year is not annualized. The calculation does not reflect brokerage commissions, if any.

(b) Annualized.

Edgar Filing: FOXBY CORP. - Form N-CSR

We have audited the accompanying statement of assets and liabilities of Foxby Corp. (the "Fund"), including the schedule of portfolio investments as of December 31, 2006, the related statements of operations and of cash flows for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, and the financial highlights for each of the four years in the period then ended and the nine months ended December 31, 2002, and the year ended March 31, 2002. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audit.

We conducted our audits in accordance with auditing standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2006 by correspondence with the custodian. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Foxby Corp. as of December 31, 2006, the results of its operations, and cash flows, the changes in its net assets, and the financial highlights for the periods noted above, in conformity with accounting principles generally accepted in the United States of America.

DIVIDEND REINVESTMENT PLAN

The Fund has adopted a Dividend Reinvestment Plan (the "Plan"). Under the Plan, each dividend and capital gain distribution, if any, declared by the Fund on outstanding shares will, unless elected otherwise by each shareholder by notifying the Fund in writing at any time prior to the record date for a particular dividend or distribution, be paid on the payment date fixed by the Board of Directors or a committee thereof in additional shares. If the Market Price (as defined below) per share is equal to or exceeds the net asset value per share at the time shares are valued for the purpose of determining the number of shares equivalent to the cash dividend or capital gain distribution (the "Valuation Date"), participants will be issued additional shares equal to the amount of such dividend divided by the greater of that net asset value per share or 95% of that Market Price per share. If the Market Price per share is less than such net asset value on the Valuation Date, participants will be issued additional shares equal to the amount of such dividend divided by the Market Price. The Valuation Date is the day before the dividend or distribution payment date or, if that day is not an American Stock Exchange trading day, the next trading day. For all purposes of the Plan: (a) the Market Price of the shares on a particular date shall be the average closing market price on the five trading days the shares traded ex-dividend on the Exchange prior to such date or, if no sale occurred on any of these days, then the mean between the closing bid and asked quotations, for the shares on the Exchange on such day, and (b) net asset value per share on a particular date shall be as determined by or on behalf of the Fund.

WITHHOLD from the members of the Compensation Committee if:

- o There is a negative correlation between the chief executive's pay and company performance (see discussion under Equity Compensation Plans);
- o The company reprices underwater options for stock, cash or other consideration without prior shareholder approval, even if allowed in their equity plan;
- o The company fails to submit one-time transfers of stock options to a shareholder vote;
- o The company fails to fulfill the terms of a burn rate commitment they made to shareholders;
- o The company has backdated options (see "Options Backdating" policy);
- o The company has poor compensation practices (see "Poor Pay Practices" policy). Poor pay practices may warrant withholding votes from the CEO and potentially the entire board as well.

WITHHOLD from directors, individually or the entire board, for egregious actions or failure to replace management as appropriate.

CLASSIFICATION/DECLASSIFICATION OF THE BOARD

Vote AGAINST proposals to classify the board. Vote FOR proposals to repeal classified boards, and to elect all directors annually.

INDEPENDENT CHAIR (SEPARATE CHAIR/CEO)

Generally vote FOR shareholder proposals requiring an independent director fill the position of chair, unless there are compelling reasons to recommend against the proposal, such as a counterbalancing governance structure. This should include all of the following:

- o Has a designated lead director, elected by and from the independent board members with clearly delineated and comprehensive duties. (The role may alternatively reside with a presiding director, vice chairman,

Edgar Filing: FOXBY CORP. - Form N-CSR

or rotating lead director; however the director must serve a minimum of one year in order to qualify as a lead director.) At a minimum these should include:

- Presiding at all meetings of the board at which the chairman is not present, including executive sessions of the independent directors,
 - Serving as liaison between the chairman and the independent directors,
 - Approving information sent to the board,
 - Approving meeting agendas for the board,
 - Approves meetings schedules to assure that there is sufficient time for discussion of all agenda items,
 - Having the authority to call meetings of the independent directors,
 - If requested by major shareholders, ensuring that he is available for consultation and direct communication;
- o Two-thirds independent board;
 - o All-independent key committees;
 - o Established governance guidelines;
 - o The company does not under-perform its peers*.

*Starting in 2007, the industry peer group used for this evaluation will change from the 4-digit GICS group to the average of the 12 companies in the same 6-digit GICS group that are closest in revenue to the company, and identified on the executive compensation page of proxy analyses. To fail, the company must under-perform its index and industry group on all 4 measures (1 and 3 year performance, industry peers, and index).

MAJORITY VOTE SHAREHOLDER PROPOSALS

Generally vote FOR precatory and binding resolutions requesting that the board change the company's bylaws to stipulate that directors need to be elected with an affirmative majority of votes cast, provided it does not conflict with the state law where the company is incorporated. Binding resolutions need to allow for a carve-out for a plurality vote standard when there are more nominees than board seats. Companies are strongly encouraged to also adopt a post-election policy (also know as a director resignation policy) that will provide guidelines so that the company will promptly address the situation of a holdover director.

3. PROXY CONTESTS

VOTING FOR DIRECTOR NOMINEES IN CONTESTED ELECTIONS

Vote CASE-BY-CASE on the election of directors in contested elections, considering the following factors:

- o Long-term financial performance of the target company relative to its industry;
- o Management's track record;
- o Background to the proxy contest;

Edgar Filing: FOXBY CORP. - Form N-CSR

- o Qualifications of director nominees (both slates);
- o Strategic plan of dissident slate and quality of critique against management;
- o Likelihood that the proposed goals and objectives can be achieved (both slates);
- o Stock ownership positions.

REIMBURSING PROXY SOLICITATION EXPENSES

Vote CASE-BY-CASE on proposals to reimburse proxy solicitation expenses. When voting in conjunction with support of a dissident slate, vote FOR the reimbursement of all appropriate proxy solicitation expenses associated with the election.

4. TAKEOVER DEFENSES

POISON PILLS

Vote FOR shareholder proposals requesting that the company submit its poison pill to a shareholder vote or redeem it UNLESS the company has: (1) A shareholder approved poison pill in place; or (2) The company has adopted a policy concerning the adoption of a pill in the future specifying that the board will only adopt a shareholder rights plan if either:

- o Shareholders have approved the adoption of the plan; or
- o The board, in its exercise of its fiduciary responsibilities, determines that it is in the best interest of shareholders under the circumstances to adopt a pill without the delay in adoption that would result from seeking stockholder approval (i.e. the "fiduciary out" provision). A poison pill adopted under this fiduciary out will be put to a shareholder ratification vote within twelve months of adoption or expire. If the pill is not approved by a majority of the votes cast on this issue, the plan will immediately terminate.

Vote FOR shareholder proposals calling for poison pills to be put to a vote within a time period of less than one year after adoption. If the company has no non-shareholder approved poison pill in place and has adopted a policy with the provisions outlined above, vote AGAINST the proposal. If these conditions are not met, vote FOR the proposal, but with the caveat that a vote within twelve months would be considered sufficient.

Vote CASE-by-CASE on management proposals on poison pill ratification, focusing on the features of the shareholder rights plan. Rights plans should contain the following attributes:

- o No lower than a 20% trigger, flip-in or flip-over;
- o A term of no more than three years;
- o No dead-hand, slow-hand, no-hand or similar feature that limits the ability of a future board to redeem the pill;
- o Shareholder redemption feature (qualifying offer clause); if the board refuses to redeem the pill 90 days after a qualifying offer is announced, ten percent of the shares may call a special meeting or seek a written consent to vote on rescinding the pill.

SUPERMAJORITY VOTE REQUIREMENTS

Edgar Filing: FOXBY CORP. - Form N-CSR

Vote AGAINST proposals to require a supermajority shareholder vote.
Vote FOR proposals to lower supermajority vote requirements.

5. MERGERS AND CORPORATE RESTRUCTURINGS

For mergers and acquisitions, review and evaluate the merits and drawbacks of the proposed transaction, balancing various and sometimes countervailing factors including:

- o VALUATION - Is the value to be received by the target shareholders (or paid by the acquirer) reasonable? While the fairness opinion may provide an initial starting point for assessing valuation reasonableness, emphasis is placed on the offer premium, market reaction and strategic rationale.
- o MARKET REACTION - How has the market responded to the proposed deal? A negative market reaction should cause closer scrutiny of a deal.
- o STRATEGIC RATIONALE - Does the deal make sense strategically? From where is the value derived? Cost and revenue synergies should not be overly aggressive or optimistic, but reasonably achievable. Management should also have a favorable track record of successful integration of historical acquisitions.
- o NEGOTIATIONS AND PROCESS - Were the terms of the transaction negotiated at arm's-length? Was the process fair and equitable? A fair process helps to ensure the best price for shareholders. Significant negotiation "wins" can also signify the deal makers' competency. The comprehensiveness of the sales process (e.g., full auction, partial auction, no auction) can also affect shareholder value.
- o CONFLICTS OF INTEREST - Are insiders benefiting from the transaction disproportionately and inappropriately as compared to non-insider shareholders? As the result of potential conflicts, the directors and officers of the company may be more likely to vote to approve a merger than if they did not hold these interests. Consider whether these interests may have influenced these directors and officers to support or recommend the merger. The CIC figure presented in the "ISS Transaction Summary" section of this report is an aggregate figure that can in certain cases be a misleading indicator of the true value transfer from shareholders to insiders. Where such figure appears to be excessive, analyze the underlying assumptions to determine whether a potential conflict exists.
- o GOVERNANCE - Will the combined company have a better or worse governance profile than the current governance profiles of the respective parties to the transaction? If the governance profile is to change for the worse, the burden is on the company to prove that other issues (such as valuation) outweigh any deterioration in governance.

6. STATE OF INCORPORATION

REINCORPORATION PROPOSALS

Vote CASE-BY-CASE on proposals to change a company's state of incorporation, taking into consideration both financial and corporate governance concerns, including the reasons for reincorporating, a comparison of the governance provisions, comparative economic benefits, and a comparison of the jurisdictional laws. Vote FOR re-incorporation when the economic factors outweigh any neutral or negative governance changes.

Edgar Filing: FOXYBY CORP. - Form N-CSR

7. CAPITAL STRUCTURE

COMMON STOCK AUTHORIZATION

Vote CASE-BY-CASE on proposals to increase the number of shares of common stock authorized for issuance using a model developed by ISS. Vote FOR proposals to approve increases beyond the allowable increase when a company's shares are in danger of being de-listed or if a company's ability to continue to operate as a going concern is uncertain.

In addition, for capital requests that are less than or equal to 300 percent of the current authorized shares and marginally fail the calculated allowable cap (i.e., exceed the allowable cap by no more than 5 percent) vote on a CASE-BY-CASE basis, In this situation, vote FOR the increase based on the company's performance, and whether the company's ongoing use of shares has shown prudence.

ISSUE STOCK FOR USE WITH RIGHTS PLAN

Vote AGAINST proposals that increase authorized common stock for the explicit purpose of implementing a non-shareholder approved shareholder rights plan (poison pill).

PREFERRED STOCK

Vote AGAINST proposals authorizing the creation of new classes of preferred stock with unspecified voting, conversion, dividend distribution, and other rights ("blank check" preferred stock). Vote FOR proposals to create "de-clawed" blank check preferred stock (stock that cannot be used as a takeover defense). Vote FOR proposals to authorize preferred stock in cases where the company specifies the voting, dividend, conversion, and other rights of such stock and the terms of the preferred stock appear reasonable. Vote AGAINST proposals to increase the number of blank check preferred stock authorized for issuance when no shares have been issued or reserved for a specific purpose. Vote CASE-BY-CASE on proposals to increase the number of blank check preferred shares after analyzing the number of preferred shares available for issue given a company's industry and performance in terms of shareholder returns.

8. EXECUTIVE AND DIRECTOR COMPENSATION

POOR PAY PRACTICES

WITHHOLD from compensation committee members, CEO, and potentially the entire board, if the company has poor compensation practices, such as:

- o Egregious employment contracts (e.g., those containing multi-year guarantees for bonuses and grants);
- o Excessive perks that dominate compensation (e.g., tax gross-ups for personal use of corporate aircraft);
- o Huge bonus payouts without justifiable performance linkage or proper disclosure;
- o Performance metrics that are changed (e.g., canceled or replaced during the performance period without adequate explanation of the action and the link to performance);
- o Egregious pension/SERP (supplemental executive retirement plan) payouts (e.g., the inclusion of additional years of service not worked or inclusion of performance-based equity awards in the pension calculation);
- o New CEO awarded an overly generous new hire package (e.g., including excessive "make whole" provisions or any of the poor pay practices listed in this policy);

Edgar Filing: FOXBY CORP. - Form N-CSR

- o Excessive severance provisions (e.g., including excessive change in control payments);
- o Change in control payouts without loss of job or substantial diminution of job duties;
- o Internal pay disparity;
- o Options backdating (covered in a separate policy); and

EQUITY COMPENSATION PLANS

Vote CASE-BY-CASE on equity-based compensation plans. Vote AGAINST the equity plan if any of the following factors apply:

- o The total cost of the company's equity plans is unreasonable;
- o The plan expressly permits the repricing of stock options without prior shareholder approval;
- o There is a disconnect between CEO pay and the company's performance;
- o The company's three year burn rate exceeds the greater of 2% and the mean plus 1 standard deviation of its industry group; or
- o The plan is a vehicle for poor pay practices.

DIRECTOR COMPENSATION

Vote CASE-BY-CASE on compensation plans for non-employee directors, based on the cost of the plans against the company's allowable cap.

On occasion, director stock plans that set aside a relatively small number of shares when combined with employee or executive stock compensation plans exceed the allowable cap. Vote for the plan if ALL of the following qualitative factors in the board's compensation are met and disclosed in the proxy statement:

- o Director stock ownership guidelines with a minimum of three times the annual cash retainer.
- o Vesting schedule or mandatory holding/deferral period:
 - A minimum vesting of three years for stock options or restricted stock; or
 - Deferred stock payable at the end of a three-year deferral period.
- o Mix between cash and equity:
 - A balanced mix of cash and equity, for example 40% cash/60% equity or 50% cash/50% equity; or
 - If the mix is heavier on the equity component, the vesting schedule or deferral period should be more stringent, with the lesser of five years or the term of directorship.
- o No retirement/benefits and perquisites provided to non-employee directors; and
- o Detailed disclosure provided on cash and equity compensation delivered to each non-employee director for the most recent fiscal year in a table. The column headers for the table may include the following: name

Edgar Filing: FOXBY CORP. - Form N-CSR

of each non-employee director, annual retainer, board meeting fees, committee retainer, committee-meeting fees, and equity grants.

EMPLOYEE STOCK PURCHASE PLANS--QUALIFIED PLANS

Vote CASE-BY-CASE on qualified employee stock purchase plans. Vote FOR employee stock purchase plans where all of the following apply:

- o Purchase price is at least 85% of fair market value;
- o Offering period is 27 months or less; and
- o The number of shares allocated to the plan is ten percent or less of the outstanding shares.

EMPLOYEE STOCK PURCHASE PLANS--NON-QUALIFIED PLANS

Vote CASE-by-CASE on nonqualified employee stock purchase plans. Vote FOR nonqualified employee stock purchase plans with all the following features:

- o Broad-based participation (i.e., all employees of the company with the exclusion of individuals with 5% or more of beneficial ownership of the company);
- o Limits on employee contribution, which may be a fixed dollar amount or expressed as a percent of base salary;
- o Company matching contribution up to 25% of employee's contribution, which is effectively a discount of 20% from market value;
- o No discount on the stock price on the date of purchase, since there is a company matching contribution.

OPTIONS BACKDATING

In cases where a company has practiced options backdating, WITHHOLD on a CASE-BY-CASE basis from the members of the compensation committee, depending on the severity of the practices and the subsequent corrective actions on the part of the board. WITHHOLD from the compensation committee members who oversaw the questionable options grant practices or from current compensation committee members who fail to respond to the issue proactively, depending on several factors, including, but not limited to:

- o Reason and motive for the options backdating issue, such as inadvertent vs. deliberate grant date changes;
- o Length of time of options backdating;
- o Size of restatement due to options backdating;
- o Corrective actions taken by the board or compensation committee, such as canceling or repricing backdated options, or recouping option gains on backdated grants;
- o Adoption of a grant policy that prohibits backdating, and creation of a fixed grant schedule or window period for equity grants going forward.

SEVERANCE AGREEMENTS FOR EXECUTIVES/GOLDEN PARACHUTES

Vote FOR shareholder proposals to require golden parachutes or executive severance agreements to be submitted for shareholder ratification, unless the proposal requires shareholder approval prior to entering into employment contracts. Vote on a CASE-BY-CASE basis on proposals to ratify or cancel golden parachutes. An acceptable parachute should include, but is not limited to, the

Edgar Filing: FOXYBY CORP. - Form N-CSR

following:

- o The triggering mechanism should be beyond the control of management;
- o The amount should not exceed three times base amount (defined as the average annual taxable W-2 compensation) during the five years prior to the year in which the change of control occurs;
- o Change-in-control payments should be double-triggered, i.e., (1) after a change in control has taken place, and (2) termination of the executive as a result of the change in control. Change in control is defined as a change in the company ownership structure.

9. CORPORATE RESPONSIBILITY

ANIMAL RIGHTS

Vote CASE-BY-CASE on proposals requesting that the company evaluate their product pricing considering:

- o The existing level of disclosure on pricing policies;
- o Deviation from established industry pricing norms;
- o The company's existing initiatives to provide its products to needy consumers;
- o Whether the proposal focuses on specific products or geographic regions.

Generally vote FOR proposals requesting that companies report on the financial and legal impact of their policies regarding prescription drug re-importation unless such information is already publicly disclosed. Generally vote AGAINST proposals requesting that companies adopt specific policies to encourage or constrain prescription drug re-importation.

OUTSOURCING/OFF-SHORING

Vote CASE-BY-CASE on the election of directors and trustees, following the same guidelines for uncontested directors for public company shareholder meetings. However, mutual fund boards do not usually have compensation committees, so do not withhold for the lack of this committee.

Item 8. Portfolio Managers of Closed End Management Investment Companies

Thomas B. Winmill has been the portfolio manager of the registrant since 2005 and receives compensation for his services. As of December 31, 2006, portfolio manager compensation generally consists of base salary, benefit retirement plan, and limited bonus.

The portfolio manager's base salary is determined annually by level of

Edgar Filing: FOXYBY CORP. - Form N-CSR

responsibility and tenure at the Investment Manager or its affiliates. The portfolio manager is paid a limited annual bonus based on one to four weeks' salary.

The portfolio manager's compensation plan may give rise to potential conflicts of interest. The portfolio manager's base pay tends to increase with additional and more complex responsibilities that include increased assets under management and a portion of the bonus relates to marketing efforts, which together indirectly link compensation to sales. The management of multiple funds and accounts (including proprietary accounts) may give rise to potential conflicts of interest if the funds and accounts have different objectives, benchmarks, time horizons, and fees as the portfolio manager must allocate his time and investment ideas across multiple funds and accounts. The portfolio manager may execute transactions for another fund or account that may adversely impact the value of securities held by the registrant. Securities selected for funds or accounts other than the registrant may outperform the securities selected for the registrant. The management of personal accounts may give rise to potential conflicts of interest; there is no assurance that the registrant's code of ethics will adequately address such conflicts.

The following table provides information relating to other (non-registrant) accounts where the portfolio manager is jointly or primarily responsible for day-to-day management as of December 31, 2006. The portfolio manager does not manage such accounts or assets with performance-based advisory fees, or other pooled investment vehicles.

Number of Registered Investment Companies -----	Assets (millions) -----
2	\$171
Number of Other Accounts -----	
1	\$10

As of December 31, 2006, the dollar range of registrant shares beneficially owned by Thomas B. Winmill is \$1 - \$10,000.

Item 9. Purchases of Equity Securities by Closed-End Management Investment Company and Affiliated Purchasers.

Not applicable.

Item 10. Submission of Matters to a Vote of Security Holders.

The Nominating Committee may consider candidates as Directors submitted by current Directors, the Investment Manager, registrant stockholders, and other appropriate sources. The Nominating Committee will consider candidates submitted by a stockholder or group of stockholders who have owned at least 5% of the registrant's outstanding common stock for at least two years at the time of submission and who timely provide specified information about the candidates and the nominating stockholder or group. To be timely for consideration by the Nominating Committee, the submission, including all required information, must be submitted in writing to the attention of the Secretary at the principal executive offices of the registrant not less than 120 days before the date of the proxy statement for the previous year's annual meeting of stockholders. The Nominating Committee will consider only one candidate submitted by such a stockholder or group for nomination for election at an annual meeting of stockholders. The Nominating Committee will not consider self-nominated candidates.

- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act) that occurred during the registrant's second fiscal quarter of the period covered by the report that have materially affected, or are likely to materially affect the registrant's internal control over financial reporting.
