CORPORATE INVESTORS
2014 Annual Report

BABSON CAPITAL CORPORATE INVESTORS

Babson Capital Corporate Investors is a closed-end investment company, first offered to the public in 1971, whose shares are traded on the New York Stock Exchange.

INVESTMENT OBJECTIVE & POLICY

Babson Capital Corporate Investors (the “Trust”) is a closed-end management investment company, first offered to the public in 1971, whose shares are traded on the New York Stock Exchange under the trading symbol “MCI”. The Trust’s share price can be found in the financial section of newspapers under either the New York Stock Exchange listings or Closed-End Fund Listings.

The Trust’s investment objective is to maintain a portfolio of securities providing a fixed yield and at the same time offering an opportunity for capital gains. The Trust’s principal investments are privately placed, below-investment grade, long-term debt obligations. Such direct placement securities may, in some cases, be accompanied by equity features such as warrants, conversion rights, or other equity features and, occasionally, preferred stocks. The Trust typically purchases these investments, which are not publicly tradable, directly from their issuers in private placement transactions. These investments are typically mezzanine debt instruments with accompanying private equity securities made to small or middle market companies. In addition, the Trust may invest, subject to certain limitations, in marketable investment grade debt securities, other marketable debt securities (including high yield securities) and marketable common stocks. Below-investment grade or high yield securities have predominantly speculative characteristics with respect to the capacity of the issuer to pay interest and repay principal.

Babson Capital Management LLC (“Babson Capital”) manages the Trust on a total return basis. The Trust distributes substantially all of its net income to shareholders each year.

Accordingly, the Trust pays dividends to shareholders four times a year in January, May, August, and November. The Trust pays dividends to its shareholders in cash, unless the shareholder elects to participate in the Dividend Reinvestment and Share Purchase Plan.

In this report, you will find a complete listing of the Trust’s holdings. We encourage you to read this section carefully for a better understanding of the Trust. We cordially invite all shareholders to attend the Trust’s Annual Meeting of Shareholders, which will be held on April 17, 2015 at 1:00 P.M. in Springfield, Massachusetts.

PROXY VOTING POLICIES & PROCEDURES; PROXY VOTING RECORD

The Trustees of Babson Capital Corporate Investors (the “Trust”) have delegated proxy voting responsibilities relating to the voting of securities held by the Trust to Babson Capital. A description of Babson Capital’s proxy voting policies and procedures is available (1) without charge, upon request, by calling, toll-free 1-866-399-1516; (2) on the Trust’s website at <http://www.BabsonCapital.com/mci>; and (3) on the U.S. Securities and Exchange Commission’s (“SEC”) website at <http://www.sec.gov>. Information regarding how the Trust voted proxies relating to portfolio securities during the most recent 12-month period ended June 30, 2014 is available (1) on the Trust’s website at <http://www.BabsonCapital.com/mci>; and (2) on the SEC’s website at <http://www.sec.gov>.

FORM N-Q

The Trust files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. This information is available (i) on the SEC’s website at <http://www.sec.gov>; and (ii) at the SEC’s Public Reference Room in Washington, DC (which information on their operation may be obtained by calling 1-800-SEC-0330). A complete schedule of portfolio holdings as of each quarter-end is available on the Trust’s website at <http://www.BabsonCapital.com/mci> or upon request by calling, toll-free, 1-866-399-1516.

Babson Capital Corporate Investors

TO OUR SHAREHOLDERS

I am pleased to share with you the Trust's Annual Report for the year ended December 31, 2014.

PORTFOLIO PERFORMANCE

The Trust's net total portfolio rate of return for 2014 was 13.8%, as measured by the change in net asset value and assuming the reinvestment of all dividends and distributions. The Trust's total net assets were \$280,130,264 or \$14.34 per share, as of December 31, 2014. This compares to \$268,687,514 or \$13.85 per share, as of December 31, 2013. The Trust paid a quarterly dividend of \$0.30 per share for each of the four quarters of 2014, for a total annual dividend of \$1.20 per share. In 2013, the Trust also paid four quarterly dividends of \$0.30 per share, for a total annual dividend of \$1.20 per share. Net investment income for 2014 was \$1.23 per share, including approximately \$0.21 per share of non-recurring income, compared to 2013 net investment income of \$1.19 per share, which included approximately \$0.04 per share of non-recurring income.

The Trust's stock price increased 6.4% during 2014, from \$14.93 as of December 31, 2013 to \$15.89 as of December 31, 2014. The Trust's stock price of \$15.89 as of December 31, 2014 equates to a 10.8% premium over the December 31, 2014 net asset value per share of \$14.34. The Trust's average quarter-end premium for the 3-, 5-, 10- and 25-year periods ended December 31, 2014 was 16.2%, 16.5%, 12.7%, and 4.0%, respectively.

The table below lists the average annual net returns of the Trust's portfolio, based on the change in net assets and assuming the reinvestment of all dividends and distributions. Average annual returns of the Barclays Capital U.S. Corporate High Yield Index and the Russell 2000 Index for the 1-, 3-, 5-, 10- and 25-year periods ended December 31, 2014 are provided for comparison purposes only.

PORTFOLIO ACTIVITY

The Trust closed 18 new private placement investments, as well as five "add-on" investments in existing portfolio companies in 2014. The 18 new investments were in Airxcel Holdings; Avantech Testing Services LLC; Clarion Brands Holding Corp.; Dunn Paper; ECG Consulting Group; ERG Holding Company LLC; GenNx Novel Holding, Inc.; Grakon Parent; GTI Holding Company; Hartland Controls Holding Corporation; HHI Group, LLC; Handi Quilter Holding Company; Impact Confections; MES Partners, Inc.; Money Mailer; Polytex Holdings LLC; PPC

Event Services and VP Holding Company. The five “add-on” investments were in ARI Holding Corporation; Church Services Holding Company; Merex Holding Corporation; MVI Holding, Inc. and Netshape Technologies, Inc. A brief description of these investments can be found in the Consolidated Schedule of Investments. The total amount invested by the Trust in these transactions was \$51,852,942, which was up 41.5% from the \$36,653,347 of new private placement investments made by the Trust in 2013.

2014 Annual Report

The Trust's new investment activity in 2014 benefited from a strong rebound in middle market merger and acquisition activity during the year. In fact, middle market buyout volume in 2014 was at its highest level since 2007. The dark cloud on the horizon, though, continues to be the high purchase prices and leverage levels that are common in buyout transactions today. Competition for new investment opportunities remains intense, as there continues to be an overabundance of private debt and equity capital looking to be invested. Attractive companies are being aggressively pursued by both buyers and lenders alike. As a result, average purchase price multiples in 2014 were at their highest level in the past 15 years. Leverage multiples also increased during the year, to their second highest level in the past 15 years.

Though we were active investors on behalf of the Trust in 2014, we did so, and will continue to do so, cautiously and with discipline, consistent with our longstanding investment philosophy of seeking to take prudent levels of risk and getting paid appropriately for the risk taken. We are not willing to provide financial leverage at levels that we believe are imprudent. In 2014, in the face of these aggressive market conditions, we continued our history of investing in companies at lower than market leverage levels. The average leverage of the Trust's new private placement investments in 2014 was 4.0x times EBITDA, compared to the 5.3 times EBITDA for the market as a whole. This approach has served us well over the long term and through all kinds of market cycles.

In addition to strong new investment activity, the condition of the Trust's existing portfolio remained solid throughout the year. Sales and earnings for the Trust's portfolio companies as a whole continued their upward momentum. We had significantly more credit upgrades in the portfolio this year than downgrades, while the number of companies on our watch list or in default remained at or near the lowest level we have seen over the last seven years.

We had 32 companies exit from the Trust's portfolio during 2014. This is an unprecedented high level of exit activity for the Trust's portfolio and is another indicator of how active and aggressive the market was in 2014. In 28 of these exits, the Trust realized a positive return on its investment. These investments were: AHC Holding Company, Inc.; Apex Analytix Holding Corporation; Baby Jogger Holdings LLC; CDNT, Inc.; Connor Sport Court International, Inc.; Duncan Systems, Inc.; ELT Holding Company; Handi Quilter Holding Company; Home Décor Holding Company; Jason Partners Holdings LLC; KPHI Holdings, Inc.; LPC Holding Company; MBWS Ultimate Holdco, Inc.; MEGTEC Holdings, Inc.; NT Holding Company; Ontario Drive & Gear Ltd.; PKC Holding Corporation; PPT Holdings LLC; Postle Aluminum Company LLC; Precision Wire Holding Company; Snacks Parent Corporation; SouthernCare Holdings, Inc.; Specialty Commodities, Inc.; Stag Parkway Holding Company; Terra Renewal LLC; TruStile Doors, Inc.; U-Line Corporation; and UMA Enterprises, Inc. Four long-standing troubled investments, HM Holding Company; Pacific Consolidated Holdings LLC; Sencore Holdings Company; and Strata/WLA Holding were realized in 2014 at a loss. The Trust also benefited from dividends associated with the recapitalizations of six companies during the year. The Trust realized significant net gains from these exits and recapitalizations.

The level of refinancing activity in the portfolio in 2014, though still robust, was down from the unprecedented level of refinancings we saw in 2013. These transactions, in which the debt instruments held by the Trust were fully or partially prepaid, are being driven by companies seeking to take advantage of low interest rates and the abundant availability of capital. During 2014, we had 20 portfolio companies fully or partially prepay their debt obligations to the Trust, compared to 32 such prepayments in 2013.

The unprecedented level of exit activity in the portfolio this year, along with another year of above-average prepayment activity, was the principal reason that the Trust's net investment income, excluding non-recurring items, declined from \$1.15 per share in 2013 to \$1.02 per share in 2014.

Babson Capital Corporate Investors

OUTLOOK FOR 2015

We have started the year off with a healthy backlog of deal flow. Surveys of middle market financiers indicate that most expect 2015 to be another active year in terms of deal flow. We did see the pressure on leverage levels and investment returns stabilize as we progressed through 2014, and that is expected to continue into 2015. As a result, we are optimistic about the outlook for new investment activity for the Trust in 2015. We also have a number of portfolio companies that are in the process of being sold and we are hopeful that those exits will once again generate significant gains for the Trust. Rest assured that despite constantly changing market conditions, we will continue to employ on behalf of the Trust the same investment philosophy that has served it well since its inception: investing in companies which we believe have a strong business proposition, solid cash flow and experienced, ethical management. We believe this philosophy, along with Babson Capital's seasoned investment-management team, positions the Trust well to meet its long-term investment objectives.

While the Trust was able to maintain its \$0.30 per share quarterly dividend in 2014 for a total annual dividend of \$1.20 per share, we must make note again, as we did in last year's Annual Report, that this dividend level may not be sustainable throughout 2015. The Trust's net investment income per share, excluding non-recurring income, of \$1.02 per share in 2014 was once again below the dividend rate. Net investment income per share from recurring sources has been below the dividend rate for every quarter since the third quarter of 2013. As we have discussed in prior reports, net investment income is down due principally to the considerable reduction in the number of private debt securities in the portfolio resulting from the high level of exits and prepayment activity that has occurred over the last two years. We have been able to maintain the \$0.30 per share quarterly dividend with current income, non-recurring income and earnings carried forward from prior quarters. Over time, however, the Trust's dividend-paying ability tends to be correlated with its recurring earnings capacity. In 2014, the Trust earned an unusually high \$0.21 per share of non-recurring income, mostly due to dividend distributions from the recapitalization of a few portfolio companies. This income has replenished the Trust's earnings carry-forwards somewhat and should be available to supplement recurring income for the next few quarters. Unless market conditions change dramatically though, it is still unlikely that we will be able to rebuild the portfolio back to its former size in the near term and grow net investment income. As a result, it is likely that in 2015 we will have to reduce the dividend from the current \$0.30 per share quarterly rate. As we move through 2015, we and the Board of Trustees will continue to evaluate the current and future earnings capacity of the Trust and formulate a dividend strategy that is consistent with that earnings level.

As always, I would like to thank you for your continued interest in and support of Babson Capital Corporate Investors. I look forward to seeing you at the Trust's annual shareholder meeting in Springfield on April 17, 2015.

Sincerely,

Michael L. Klofas
President

(a) Per share amounts were adjusted to reflect a 2:1 stock split effective February 18, 2011.

(b) Calculated using average shares.

(c) Rounds to less than \$0.01 per share.

- (d) Net asset value return represents portfolio returns based on change in the Trust's net asset value assuming the reinvestment of all dividends and distributions which differs from the total investment return based on the Trust's market value due to the difference between the Trust's net asset value and the market value of its shares outstanding; past performance is no guarantee of future results.
- (e) As additional information, this ratio is included to reflect the taxes paid on retained long-term gains. These taxes paid are netted against realized capital gains in the Statement of Operations. The taxes paid are treated as deemed distributions and a credit for the taxes paid is passed on to the shareholders.

Babson Capital Corporate Investors

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. History

Babson Capital Corporate Investors (the “Trust”) commenced operations in 1971 as a Delaware corporation. Pursuant to an Agreement and Plan of Reorganization dated November 14, 1985, approved by shareholders, the Trust was reorganized as a Massachusetts business trust under the laws of the Commonwealth of Massachusetts, effective November 28, 1985.

The Trust is a diversified closed-end management investment company. Babson Capital Management LLC (“Babson Capital”), a wholly-owned indirect subsidiary of Massachusetts Mutual Life Insurance Company (“MassMutual”), acts as its investment adviser. The Trust’s investment objective is to maintain a portfolio of securities providing a fixed yield and at the same time offering an opportunity for capital gains. The Trust’s principal investments are privately placed, below-investment grade, long-term debt obligations. Such direct placement securities may, in some cases, be accompanied by equity features such as common stock, warrants, conversion rights, or other equity features and, occasionally, preferred stocks. The Trust typically purchases these investments, which are not publicly tradable, directly from their issuers in private placement transactions. These investments are typically mezzanine debt instruments with accompanying private equity securities made to small or middle market companies. In addition, the Trust may invest, subject to certain limitations, in marketable investment grade debt securities (including high yield securities), other marketable debt and marketable common stocks. Below-investment grade or high yield securities have predominantly speculative characteristics with respect to the capacity of the issuer to pay interest and repay capital.

On January 27, 1998, the Board of Trustees authorized the formation of a wholly-owned subsidiary of the Trust (“CI Subsidiary Trust”) for the purpose of holding certain investments. The results of CI Subsidiary Trust are consolidated in the accompanying financial statements. Footnote 2.D below discusses the Federal tax consequences of the

Determination of Fair Value

The determination of the fair value of the Trust’s investments is the responsibility of the Trust’s Board of Trustees (the “Trustees”). The Trustees have adopted procedures for the valuation of the Trust’s securities and has delegated responsibility for applying those procedures to Babson Capital. Babson Capital has established a Pricing Committee which is responsible for setting the guidelines used in following the procedures adopted by the Trustees and ensuring that those guidelines are being followed. Babson Capital considers all relevant factors that are reasonably available, through either public information or information directly available to Babson Capital, when determining the fair value of a security. The Trustees meet at least once each quarter to approve the value of the Trust’s portfolio securities as of the close of business on the last business day of the preceding quarter. This valuation requires the approval of a majority of the Trustees of the Trust, including a majority of the Trustees who are not interested persons of the Trust or of Babson Capital. In approving valuations, the Trustees will consider reports by Babson Capital analyzing each portfolio security in accordance with the procedures and guidelines referred to above, which include the relevant factors referred to below. Babson Capital has agreed to provide such reports to the Trustees at least quarterly. The consolidated financial statements include private placement restricted securities valued at \$186,055,909 (66.42% of net assets) as of December 31, 2014 whose values have been estimated by the Trustees based on the process described above in the absence of readily ascertainable market values. Due to the inherent uncertainty of valuation, those estimated values may differ significantly from the values that would have been used had a ready market for the securities existed, and the differences could be material.

Following is a description of valuation methodologies used for assets recorded at fair value:

Corporate Public Securities – Bank Loans, Corporate Bonds, Preferred Stocks and Common Stocks

The Trust uses external independent third-party pricing services to determine the fair values of its Corporate

CI Subsidiary Trust.

2. Significant Accounting Policies

The following is a summary of significant accounting policies followed consistently by the Trust in the preparation of its consolidated financial statements in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

The Trustees have determined that the Trust is an investment company in accordance with Accounting Standards Codification 946, Financial Services - Investment Companies, for the purpose of financial reporting.

A. Fair Value Measurements:

Under U.S. GAAP, fair value represents the price that should be received to sell an asset (exit price) in an orderly transaction between willing market participants at the measurement date.

Public Securities. At December 31, 2014, 100% of the carrying value of these investments was from external pricing services. In the event that the primary pricing service does not provide a price, the Trust utilizes the pricing provided by a secondary pricing service.

Public debt securities generally trade in the over-the-counter market rather than on a securities exchange. The Trust’s pricing services use multiple valuation techniques to determine fair value. In instances where significant market activity exists, the pricing services may utilize a market based approach through which quotes from market makers are used to determine fair value. In instances where significant market activity may not exist or is limited, the pricing services also utilize proprietary valuation models which may consider market characteristics such as benchmark yield curves, option adjusted spreads, credit spreads, estimated default rates, coupon rates, anticipated timing of principal underlying prepayments, collateral, and other unique security features in order to estimate the relevant cash flows, which are then discounted to calculate the fair value.

2014 Annual Report

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

The Trust's investments in bank loans are normally valued at the bid quotation obtained from dealers in loans by an independent pricing service in accordance with the Trust's valuation policies and procedures approved by the Trustees.

Public equity securities listed on an exchange or on the NASDAQ National Market System are valued at the last quoted sales price of that day.

Annually, Babson Capital conducts reviews of the primary pricing vendors to validate that the inputs used in that vendor's pricing process are deemed to be market observable as defined in the standard. While Babson Capital is not provided access to proprietary models of the vendors, the reviews have included on-site walk-throughs of the pricing process, methodologies and control procedures for each asset class and level for which prices are provided. The review also includes an examination of the underlying inputs and assumptions for a sample of individual securities across asset classes, credit rating levels and various durations, a process Babson Capital continues to perform annually. In addition, the pricing vendors have an established challenge process in place for all security valuations, which facilitates identification and resolution of prices that fall outside expected ranges. Babson Capital believes that the prices received from the pricing vendors are representative of prices that would be received to sell the assets at the measurement date (exit prices) and are classified appropriately in the hierarchy.

Corporate Restricted Securities –
Corporate Bonds

Both the company's EBITDA and valuation multiple are considered significant unobservable inputs. Significant increases/ (decreases) to the company's EBITDA and/or valuation multiple would result in significant increases/(decreases) to the equity value. An increase/(decrease) to the discount would result in a (decrease)/increase to the equity value.

Short-Term Securities

Short-term securities, of sufficient credit quality, with more than sixty days to maturity are valued at fair value, using external independent third-party services. Short-term securities having a maturity of sixty days or less are valued at amortized cost, which approximates fair value.

Quantitative Information about Level 3 Fair Value Measurements

The following table represents quantitative information about Level 3 fair value measurements as of December 31, 2014.

| | Valuation Technique | Unobservable Inputs | Range | Weighted Average |
|-------------------|-----------------------|------------------------------------|----------------------------------|------------------|
| Corporate | Discounted Cash Flows | Discount | 8.0% to 16.1% | 12.8% |
| Bonds | | Rate | | |
| Equity Securities | Market Approach | Valuation Multiple | 4.5x to 11.6x | 7.5x |
| | | Discount for lack of marketability | 0% to 24% | 3.1% |
| | | EBITDA | \$3.2 million to \$135.6 million | 21.1 million |

Fair Value Hierarchy

The Trust categorizes its investments measured at fair value in three levels, based on the inputs and assumptions used to determine fair value. These levels are as follows:

Level 1 – quoted prices in active markets for identical securities

Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

The fair value of certain notes is determined using an internal model that discounts the anticipated cash flows of those notes using a specific discount rate. Changes to that discount rate are driven by changes in general interest rates, probabilities of default and credit adjustments. The discount rate used within the models to discount the future anticipated cash flows is considered a significant unobservable input. Significant increases/(decreases) in the discount rate would result in a significant (decrease)/increase to the notes' fair value.

Level 3 – significant unobservable inputs (including the Trust's own assumptions in determining the fair value of investments)

The fair value of certain distressed notes is based on an enterprise waterfall methodology which is discussed in the equity security valuation section below.

Corporate Restricted Securities – Common Stock, Preferred Stock and Partnerships & LLC's

The fair value of equity securities is determined using an enterprise waterfall methodology. Under this methodology, the enterprise value of the company is first estimated and that value is then allocated to the company's outstanding debt and equity securities based on the documented priority of each class of securities in the capital structure. Generally, the waterfall proceeds from senior debt tranches of the capital structure to senior then junior subordinated debt, followed by each class of preferred stock and finally the common stock.

To estimate a company's enterprise value, the company's trailing twelve months earnings before interest, taxes, depreciation and amortization ("EBITDA") is multiplied by a valuation multiple. A discount for lack of marketability is applied to the end result.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

B. Accounting for Investments:

Investment transactions are accounted for on the trade date. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis, including the amortization of premiums and accretion of discounts on bonds held using the yield- to-maturity method. The Trust does not accrue income when payment is delinquent and when management believes payment is questionable.

Realized gains and losses on investment transactions and unrealized appreciation and depreciation of investments are reported for financial statement and Federal income tax purposes on the identified cost method.

C. Use of Estimates:

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

D. Federal Income Taxes:

The Trust has elected to be taxed as a “regulated investment company” under the Internal Revenue Code, and intends to maintain this qualification and to distribute substantially all of its net taxable income to its shareholders. In any year when net long-term capital gains are realized by the Trust, management, after evaluating the prevailing economic conditions, will

The CI Subsidiary Trust is not taxed as a regulated investment company. Accordingly, prior to the Trust receiving any distributions from the CI Subsidiary Trust, all of the CI Subsidiary Trust’s taxable income and realized gains, including non-qualified income and realized gains, is subject to taxation at prevailing corporate tax rates.

The components of income taxes included in the consolidated Statement of Operations for the year ended December 31, 2014 were as follows:

recommend that the Trustees either designate the net realized long-term gains as undistributed and pay the Federal capital gains taxes thereon or distribute all or a portion of such net gains. In 2014, the fund incurred \$3,541,164 of tax as a result of retaining capital gains.

The Trust is taxed as a regulated investment company and is therefore limited as to the amount of non-qualified income that it may receive as the result of operating a trade or business, e.g. the Trust's pro rata share of income allocable to the Trust by a partnership operating company. The Trust's violation of this limitation could result in the loss of its status as a regulated investment company, thereby subjecting all of its net income and capital gains to corporate taxes prior to distribution to its shareholders. The Trust, from time-to-time, identifies investment opportunities in the securities of entities that could cause such trade or business income to be allocable to the Trust. The CI Subsidiary Trust (described in Footnote 1 above) was formed in order to allow investment in such securities without adversely affecting the Trust's status as a regulated investment company.

Net investment income and net realized gains or losses of the Trust as presented under U.S. GAAP may differ from distributable taxable earnings due to earnings from the CI Subsidiary Trust as well as certain permanent and temporary differences in the recognition of income and realized gains or losses on certain investments. Permanent differences will result in reclassifications to the capital accounts. In 2014, the Trust decreased undistributed net investment income by \$184,393, decreased accumulated net realized gains by \$8,406,814, increased retained net realized gain on investments by \$9,562,441 and decreased additional paid in capital by \$971,234 to more accurately display the Trust's capital financial position on a tax-basis in accordance with U.S. GAAP. These

re-classifications had no impact on net asset value.

| State | | 50,103 |
| Total current | | 786,938 |
| Deferred: | | |
| Federal | \$ | 169,346 |
| State | | 4,052 |
| Total deferred | | 173,398 |
| Total income tax expense from continuing operations | \$ | 960,336 |

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of the existing assets and liabilities and their respective tax basis.

The tax effects of temporary differences that give rise to significant portions of the deferred tax assets and liabilities as of December 31, 2014 were as follows:

| | | |
|--------------------------------|----|-------------|
| Deferred tax liabilities: | | |
| Unrealized gain on investments | | 1,154,830 |
| Total deferred tax liabilities | | 1,154,830 |
| Net deferred tax liability | \$ | (1,154,830) |

The Trust recognizes a tax benefit from an uncertain position only if it is more likely than not that the position is sustainable, based solely on its technical merits and consideration of the relevant taxing authority's widely understood administrative practices and precedents. If this threshold is met, the Trust measures the tax benefit as the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. The Trust has evaluated and determined that the tax positions did not have a material effect on the Trust's financial position and results of operations for the year ended December 31, 2014.

A reconciliation of the differences between the Trust's income tax expense and the amount computed by applying the prevailing U.S. Federal tax rate to pretax income for the year ended December 31, 2014 is as follows:

| Income tax expense | \$ 960,336 | 38.58% |

Each of the Trust's Federal tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service.

E. Distributions to Shareholders:

The Trust records distributions to shareholders from net investment income and net realized gains, if any, on the ex-dividend date. The Trust's net investment income dividend is declared four times per year, in April, July, October, and December. The Trust's net realized capital gain distribution, if any, is declared in December.

The components of capital shown in the following table represent the Trust's undistributed net investment income, undistributed net capital gain, losses the Trust may be able to offset against gains in future taxable years, as well as unrealized appreciation (depreciation) on securities and other fund investments, if any, at December 31, 2014, each of which is determined on a U.S. Federal tax basis:

3. Investment Services Contract

A. Services:

Under an Investment Services Contract (the "Contract") with the Trust, Babson Capital agrees to use its best efforts to present to the Trust a continuing and suitable investment program consistent with the investment objectives and policies of the Trust. Babson Capital represents the Trust in any negotiations with issuers, investment banking firms, securities brokers or dealers and other institutions or investors relating to the Trust's investments. Under the Contract, Babson Capital also provides administration of the day-to-day operations of the Trust and provides the Trust with office space and office equipment, accounting and bookkeeping services, and necessary executive, clerical and secretarial personnel for the performance of the foregoing services.

B. Fee:

For its services under the Contract, Babson Capital is paid a quarterly investment advisory fee of 0.3125% of the net asset value of the Trust as of the last business day of each fiscal quarter, which is approximately equal to 1.25% annually. A majority of the Trustees, including a majority of the Trustees who are not interested persons of the Trust or of Babson Capital, approve the valuation of the Trust's net assets as of such day.

4. Senior Secured Indebtedness

MassMutual holds the Trust's \$30,000,000 Senior Fixed Rate Convertible Note (the "Note") issued by the Trust on November 15, 2007. The Note is due November 15, 2017 and accrues interest at 5.28% per annum.

Edgar Filing: BABSON CAPITAL CORPORATE INVESTORS - Form N-CSR

The tax character of distributions declared during the years ended December 31, 2013 and 2012 was as follows:

| Distributions paid from: | 2014 | 2013 |
|--------------------------|---------------|---------------|
| Ordinary Income | \$ 23,378,280 | \$ 23,206,251 |
| Long-term Capital Gains | \$ - | \$ - |

MassMutual, at its option, can convert the principal amount of the Note into common shares. The dollar amount of principal would be converted into an equivalent dollar amount of common shares based upon the average price of the common shares for ten business days prior to the notice of conversion. For the year ended December 31, 2014, the Trust incurred total interest expense on the Note of \$1,584,000.

The Trust may redeem the Note, in whole or in part, at the principal amount proposed to be redeemed together with the accrued and unpaid interest thereon through the redemption date plus a Make Whole Premium. The Make Whole Premium equals the excess of (i) the present value of the scheduled payments of principal and interest which the Trust would have paid but for the proposed redemption, discounted at the rate of interest of U.S. Treasury obligations whose maturity approximates that of the Note plus 0.50% over (ii) the principal of the Note proposed to be redeemed.

Management estimates that the fair value of the Note was \$32,463,970 as of December 31, 2014.

7. Aggregate Remuneration Paid to Officers, Trustees and Their Affiliated Persons

For the year ended December 31, 2014, the Trust paid its Trustees aggregate remuneration of \$330,600. During the year, the Trust did not pay any compensation to any of its Trustees who are "interested persons" (as defined by the 1940 Act) of the Trust. The Trust classifies Messrs. Noreen and Joyal as "interested persons" of the Trust.

All of the Trust's officers are employees of Babson Capital. Pursuant to the Contract, the Trust does not compensate its officers who are employees of Babson Capital (except for the Chief Compliance Officer of the Trust unless assumed by Babson Capital). For the year ended December 31, 2014, Babson Capital paid the compensation of the Chief Compliance Officer of the Trust.

Mr. Noreen, one of the Trust's Trustees, is an "affiliated person" (as defined by the 1940 Act) of MassMutual and Babson Capital.

The Trust did not make any payments to Babson Capital for the year ended December 31, 2014, other than amounts payable to Babson Capital pursuant to the Contract.

8. Certifications

As required under New York Stock Exchange ("NYSE") Corporate Governance Rules, the Trust's principal executive officer has certified to the NYSE that he was not aware, as of the certification date, of any violation by the Trust of the NYSE's Corporate Governance listing standards. In addition, as required by

The Shareholders and Board of Trustees of Babson Capital Corporate Investors

We have audited the accompanying consolidated statement of assets and liabilities of Babson Capital Corporate Investors (the "Trust"), including the consolidated schedule of investments, as of December 31, 2014, and the related consolidated statements of operations and cash flows for the year then ended, the consolidated statements of changes in net assets for each of the years in the two-year period then ended, and the consolidated selected financial highlights for each of the years in the five-year period then ended. These consolidated financial statements and consolidated selected financial highlights are the responsibility of the Trust's management. Our responsibility is to express an opinion on these consolidated financial statements and consolidated selected financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements and consolidated selected financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2014, by correspondence with custodian and counterparties. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements and consolidated selected financial highlights referred to above present fairly, in all material respects, the financial position of Babson Capital Corporate Investors as of December 31, 2014, the consolidated results of their operations and cash flows for the year then ended, the consolidated changes in their net assets for each of the years in the two-year period then ended, and the consolidated selected financial highlights for each of the years in the five-year period then ended, in conformity with U.S. generally accepted accounting principles.

(a geothermal energy company); Director (since 2013), Leucadia National Corporation (holding company owning businesses ranging from insurance to telecommunications); and Director (since 2013), Baring Asset Management Korea Limited (company that engages in asset management, business administration and investment management). |

* Mr. Joyal retired as President of Babson Capital in June 2003. In addition and as noted above, Mr. Joyal is a director of Leucadia National Corporation, which is the parent company of Jefferies Group, Inc., and a former Director of Jefferies Group, Inc., which has a wholly-owned broker-dealer subsidiary that may execute portfolio transactions and/or engage in principal transactions with the Trust, other investment companies advised by Babson Capital or any other advisory accounts over which Babson Capital has brokerage placement discretion. Accordingly, the Trust has determined to classify Mr. Joyal as an “interested person” of the Trust and Babson Capital (as defined by the Investment Company Act of 1940, as amended).

DIVIDEND REINVESTMENT AND SHARE PURCHASE PLAN

Babson Capital Corporate Investors (the “Trust”) offers a Dividend Reinvestment and Share Purchase Plan (the “Plan”). The Plan provides a simple way for shareholders to add to their holdings in the Trust through the receipt of dividend shares issued by the Trust or through the investment of cash dividends in Trust shares purchased in the open market. A shareholder may join the Plan by filling out and mailing an authorization card to DST Systems, Inc., the Transfer Agent.

Participating shareholders will continue to participate until they notify the Transfer Agent, in writing, of their desire to terminate participation. Unless a shareholder elects to participate in the Plan, he or she will, in effect, have elected to receive dividends and distributions in cash. Participating shareholders may also make additional contributions to the Plan from their own funds. Such contributions may be made by personal check or other means in an amount not less than \$10 nor more than \$5,000 per quarter. Cash contributions must be received by the Transfer Agent at least five days (but no more than 30 days) before the payment date of a dividend or distribution.

Whenever the Trust declares a dividend payable in cash or shares, the Transfer Agent, acting on behalf of each participating shareholder, will take the dividend in shares only if the net asset value is lower than the market price plus an estimated brokerage commission as of the close of business on the valuation day. The valuation day is the last day preceding the day of dividend payment.

When the dividend is to be taken in shares, the number of shares to be received is determined by dividing the cash dividend by the net asset value as of the close of business on the valuation date or, if greater than net asset value, 95% of the closing share price. If the net asset value of the shares is higher than the market value plus an estimated commission, the Transfer Agent, consistent with obtaining the best price and execution, will buy shares on the open market at current prices promptly after the dividend payment date.

The reinvestment of dividends does not, in any way, relieve participating shareholders of any federal, state or local tax. For federal income tax purposes, the amount reportable in respect of a dividend received in newly-issued shares of the Trust will be the fair market value of the shares received, which will be reportable as ordinary income and/or capital gains.

As compensation for its services, the Transfer Agent receives a fee of 5% of any dividend and cash contribution (in no event in excess of \$2.50 per distribution per shareholder.)

Any questions regarding the Plan should be addressed to DST Systems, Inc., Agent for Babson Capital Corporate Investors’ Dividend Reinvestment and Share Purchase Plan, P.O. Box 219086, Kansas City, MO 64121-9086.

ITEM 2. CODE OF ETHICS.

The Registrant adopted a Code of Ethics for Senior Financial Officers (the "Code") on October 17, 2003, which is available on the Registrant's website at www.babsoncapital.com/mci. During the period covered by this Form N-CSR, the Registrant approved an amendment to its Code of Ethics. The changes to the Code of Ethics include (i) no personal trading in fixed income instruments, (ii) no short selling of any security (other than ETFs), (iii) no purchasing or selling/writing a derivative on any security type (other than an ETF, index, currency, commodity or direct obligation of the U.S. Government), and (iv) clarification regarding special circumstances when personal trading may be restricted.

The Registrant adopted the Code of Ethics of its investment adviser, Babson Capital.

Amended Code of Ethics is attached hereto as Exhibit 2.

There were no waivers from the Code.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

The Registrant's Board of Trustees has determined that Mr. Michael H. Brown, a Trustee of the Registrant and a member of its Audit Committee, is an audit committee financial expert. Mr. Brown is "independent" for purposes of this Item 3 as required by applicable regulation.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

Fees Billed to the Registrant

| | KPMG LLP Year Ended December 31, 2014 | KPMG LLP Year Ended December 31, 2013 |
|--------------------|--|--|
| Audit Fees | \$ 64,500 | \$ 64,500 |
| Audit-Related Fees | 0 | 0 |
| Tax Fees | 63,244 | 46,200 |
| All Other Fees | 0 | 0 |
| Total Fees | \$ 127,744 | \$ 110,700 |

Non-Audit Fees Billed to Babson Capital and MassMutual

| | KPMG LLP Year Ended December 31, 2014 | KPMG LLP Year Ended December 31, 2013 |
|--------------------|--|--|
| Audit-Related Fees | \$ 1,268,006 | \$ 971,856 |
| Tax Fees | 140,000 | 75,000 |
| All Other Fees | 0 | 0 |
| Total Fees | \$ 1,408,006 | \$ 1,046,856 |

The category "Audit-Related Fees" reflects fees billed by KPMG for various non-audit and non-tax services rendered to the Registrant, Babson Capital Management LLC ("Babson Capital"), and Massachusetts Mutual Life Insurance Company ("MassMutual"), such as SOC-1 review, consulting and agreed upon procedures reports. Preparation of

Edgar Filing: BABSON CAPITAL CORPORATE INVESTORS - Form N-CSR

Federal, state and local income tax returns and tax compliance work are representative of the fees reported in the "Tax Fees" category. The category "All Other Fees" represents fees billed by KPMG for consulting rendered to Babson Capital and MassMutual. The Sarbanes-Oxley Act of 2002 and its implementing regulations allows the Registrant's Audit Committee to establish a pre-approval policy for certain services rendered by the Registrant's independent accountants. During 2014, the Registrant's Audit Committee approved all of the services rendered to the Registrant by KPMG and did not rely on such a pre-approval policy for any such services.

The Audit Committee has also reviewed the aggregate fees billed for professional services rendered by KPMG for 2013 and 2014 for the Registrant and for the non-audit services provided to Babson Capital, and Babson Capital's parent, MassMutual. As part of this review, the Audit Committee considered whether the provision of such non-audit services was compatible with maintaining the principal accountant's independence.

The 2013 fees billed represent final 2013 amounts, which may differ from the preliminary figures available as of the filing date of the Registrant's 2013 Annual Form N-CSR and includes, among other things, fees for services that may not have been billed as of the filing date of the Registrant's 2013 Annual Form N-CSR, but are now properly included in the 2013 fees billed to the Registrant, Babson Capital and MassMutual.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

The Registrant maintains an Audit Committee composed exclusively of Trustees of the Registrant who qualify as "independent" Trustees under the current listing standards of the New York Stock Exchange and the rules of the U.S. Securities and Exchange Commission. The Audit Committee operates pursuant to a written Audit Committee Charter, which is available (1) on the Registrant's website, www.babsoncapital.com/mci; and (2) without charge, upon request, by calling, toll-free 866-399-1516. The current members of the Audit Committee are Michael H. Brown, Susan B. Sweeney and Maleyne M. Syracuse.

ITEM 6. SCHEDULE OF INVESTMENTS

A schedule of investments for the Registrant is included as part of this report to shareholders under Item 1 of this Form N-CSR.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Summary of Babson Capital's Proxy Voting Policy:

Babson Capital views the voting of proxies as an integral part of its investment management responsibility and believes, as a general principle, that proxies should be acted upon (voted or abstained) solely in the best interest of its clients (i.e. in a manner it believes is most likely to enhance the economic value of the underlying securities held in client accounts). To implement this general principle, Babson Capital engages a proxy service provider (the "Service Provider") that is responsible for processing and maintaining records of proxy votes. In addition, the Service Provider will retain the services of an independent third party research provider (the "Research Provider") to provide research and recommendations on proxies. Babson Capital's Proxy Voting Policy is generally to vote proxies in accordance with the recommendations of the Research Provider. In circumstances where the Research Provider has not provided recommendations with respect to a proxy, Babson Capital will vote in accordance with the Research Provider's proxy voting guidelines (the "Guidelines"). In circumstances where the Research Provider has not provided a recommendation or has not contemplated an issue within its Guidelines, the proxy will be analyzed on a case-by-case basis.

Babson Capital recognizes that there may be times when it is in the best interest of clients to vote proxies (i) against the Research Provider's recommendations or (ii) in instances where the Research Provider has not provided a recommendation vote against the Guidelines. Babson Capital can vote, in whole or in part, against the Research Provider's recommendations or Guidelines, as it deems appropriate. The procedures set forth in the Proxy Voting Policy are designed to ensure that votes against the Research Provider's recommendations or Guidelines are made in the best interests of clients and are not the result of any material conflict of interest (a "Material Conflict"). For purposes of the Proxy Voting Policy, a Material Conflict is defined as any position, relationship or interest, financial or otherwise, of Babson Capital or a Babson Capital associate that could reasonably be expected to affect the independence or judgment concerning proxy voting.

Summary of Babson Capital's Proxy Voting Procedures:

Babson Capital will vote all client proxies for which it has proxy voting discretion, where no Material Conflict exists, in accordance with the Research Provider's recommendations or Guidelines, unless (i) Babson Capital is unable or determines not to vote a proxy in accordance with the Proxy Voting Policy or (ii) an authorized investment person or designee (a "Proxy Analyst") determines that it is in the client's best interests to vote against the Research Provider's recommendations or Guidelines. In such cases where a Proxy Analyst believes a proxy should be voted against the Research Provider's recommendations or Guidelines, the Proxy Administrator will vote the proxy in accordance with the Proxy Analyst's recommendation as long as (i) no other Proxy Analyst disagrees with such recommendation and (ii) no known Material Conflict is identified by the Proxy Analyst(s) or the Proxy Administrator. If a Material Conflict is identified by a Proxy Analysis or the Proxy Administrator, the proxy will be submitted to the Trading Practices Committee to determine how the proxy is to be voted in order to achieve that client's best interests.

No associate, officer, director or board of managers/directors of Babson Capital or its affiliates (other than those assigned such responsibilities under the Proxy Voting Policy) can influence how Babson Capital votes client proxies, unless such person has been requested to provide assistance by a Proxy Analyst or Trading Practices Committee member and has disclosed any known Material Conflict. Pre-vote communications are prohibited. In the event that pre-vote communications occur, it should be reported to the Trading Practices Committee or Babson Capital's Chief Compliance Officer or General Counsel prior to voting. Any questions or concerns regarding proxy-solicitor arrangements should be addressed to Babson Capital's Chief Compliance Officer and/or General Counsel.

Investment management agreements generally delegate the authority to vote proxies to Babson Capital in accordance with Babson Capital's Proxy Voting Policy. In the event an investment management agreement is silent on proxy voting, Babson Capital should obtain written instructions from the client as to their voting preference. However, when the client does not provide written instructions as to their voting preferences, Babson Capital will assume proxy voting responsibilities. In the event that a client makes a written request regarding voting, Babson Capital will vote as instructed.

Obtaining a Copy of the Proxy Voting Policy:

Clients may obtain a copy of Babson Capital's Proxy Voting Policy and information about how Babson Capital voted proxies related to their securities, free of charge, by contacting the Chief Compliance Officer, Babson Capital Management LLC, 1500 Main Street, Suite 2800, P.O. Box 15189, Springfield, MA 01115-5189, or calling toll-free, 1-877-766-0014.

ITEM 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

The following disclosure item is made as of the date of this Form N-CSR unless otherwise indicated.

PORTFOLIO MANAGER. Michael L. Klofas serves as the President of the Registrant (since 2009) and as one of its Portfolio Managers. Mr. Klofas began his service to the Registrant in 1998 as a Vice President. With over 25 years of industry experience, Mr. Klofas is a Managing Director of the Mezzanine and Private Equity Group of Babson Capital Management LLC ("Babson Capital"). Mr. Klofas joined MassMutual in 1988. Prior to joining MassMutual, he spent two years at a small venture capital firm and two years at a national public accounting firm. At MassMutual and then Babson Capital, Mr. Klofas has analyzed and invested in traditional private placements and high yield public bonds. He also spent four years leading Babson Capital's workout and restructuring activities. Since 1993, he has focused on originating, analyzing, structuring and documenting mezzanine and private equity investments. Mr. Klofas holds a B.A. from Brandeis University and an M.B.A. from Babson College. He is also a Certified Public Accountant and a Chartered Financial Analyst. Mr. Klofas also presently serves as President of Babson Capital Participation Investors, another closed-end management investment company advised by Babson Capital.

PORTFOLIO MANAGEMENT TEAM. Mr. Klofas has primary responsibility for overseeing the investment of the Registrant's portfolio, with the day-to-day investment management responsibility of the Registrant's portfolio being shared with the following Babson Capital investment professional (together with the Portfolio Manager, the "Portfolio Team").

Sean Feeley is responsible for the day-to-day management of the Registrant's public high yield and investment grade fixed income portfolio. Mr. Feeley has been a Vice President of the Registrant since 2011. Mr. Feeley is a Managing Director of Babson Capital and head of the High Yield Research Team with over 22 years of industry experience in high yield bonds and loans in various investment strategies. Prior to joining Babson Capital in 2003, he was a Vice President at Cigna Investment Management in project finance and a Vice President at Credit Suisse in leveraged loan finance. Mr. Feeley holds a B.S. from Canisius College and an M.B.A. from Cornell University. Mr. Feeley is a Certified Public Accountant and a Chartered Financial Analyst.

OTHER ACCOUNTS MANAGED BY THE PORTFOLIO TEAM. The members of the Registrant's Portfolio Team also have primary responsibility for the day-to-day management of other Babson Capital advisory accounts, including, among others, closed-end and open-end investment companies, private investment funds, MassMutual-affiliated accounts, as well as separate accounts for institutional clients. These advisory accounts are identified below.

Edgar Filing: BABSON CAPITAL CORPORATE INVESTORS - Form N-CSR

- (A) Account asset size has been calculated as of December 31, 2014.
- (B) Mr. Lloyd, as head of Babson Capital's Global Private Credit Group, has overall responsibility for all private placement mezzanine debt securities. Except for the accounts noted in the table above, Mr. Lloyd is not primarily responsible for the day-to-day management of the other accounts managed by Babson Capital's Global Private Credit Group.
- (C) Mr. Feeley has investment discretion over certain sectors of the general investment account of Massachusetts Mutual Life Insurance Company and C.M. Life Insurance Company (the "GIA"). However, since Mr. Feeley is not considered a primary portfolio manager of the GIA, these assets are not represented in the table above.
- (D) Mr. Klofas manages private placement mezzanine debt securities for the GIA. However, since Mr. Klofas is not considered a primary portfolio manager of the GIA, these assets are not represented in the table above.

MATERIAL CONFLICTS OF INTEREST. The potential for material conflicts of interest may exist as the members of the Portfolio Management Team, have responsibilities for the day-to-day management of multiple advisory accounts. These conflicts may be heightened to the extent the individual, Babson Capital and/or an affiliate has an investment in one or more of such accounts. Babson Capital has identified (and summarized below) areas where material conflicts of interest are most likely to arise, and has adopted policies and procedures that it believes are reasonable designed to address such conflicts.

Transactions with Affiliates: Babson Capital or its affiliates, including MassMutual and its affiliates, may from time to time, acting as principal, buy securities or other investments for itself from or sell securities or other investments it owns to its advisory clients. Likewise, Babson Capital may either directly or on behalf of MassMutual, purchase and/or hold securities or other investments that are subsequently sold or transferred to advisory clients. Babson Capital has a conflict of interest in connection with a transaction where it or an affiliate is acting as principal since it may have an incentive to favor itself or its affiliates over its advisory clients in connection with the transaction. To address these conflicts of interest, Babson Capital has adopted a Transactions with Affiliates Policy, which ensures any such transaction is consistent with Babson Capital's fiduciary obligations to act in the best interests of its clients, including its ability to obtain best execution in connection with the transaction, and is in compliance with applicable legal and regulatory requirements.

Cross Trades: Babson Capital may effect cross-trades on behalf of its advisory clients whereby one advisory client buys securities or other investments from or sells securities or other investments to another advisory client. Babson Capital may also effect cross-trades involving advisory accounts or funds in which it or its affiliates, including MassMutual, and their respective employees, have an ownership interest or for which Babson Capital is entitled to earn a performance or incentive fee. As a result, Babson Capital has a conflict of interest in connection with the cross-trade since it may have an incentive to favor the advisory client or fund in which it or its affiliate has an ownership interest and/or is entitled to a performance or incentive fee. To address these conflicts of interest, Babson Capital has adopted a Transactions with Affiliates Policy, which ensures any such cross-trade is consistent with Babson Capital's fiduciary obligations to act in the best interests of each of its advisory clients, including its ability to obtain best execution for each advisory client in connection with the cross-trade transaction, and is in compliance with applicable legal and regulatory requirements. Babson Capital will not receive a commission or any other remuneration (other than its advisory fee) for effecting cross-trades between advisory clients.

Loan Origination Transactions: While Babson Capital or its affiliates generally do not act as an underwriter or member of a syndicate in connection with a securities offering, Babson Capital or its affiliates (or an unaffiliated entity in which Babson Capital or its affiliates has an ownership interest) may act as an underwriter, originator, agent, or member of a syndicate in connection with the origination of senior secured loans or other lending arrangements with borrowers, where such loans may be purchased by Babson Capital advisory clients during or after the original

syndication. Babson Capital advisory clients may purchase such loans directly from Babson Capital or its affiliates (or an unaffiliated entity in which Babson Capital or its affiliates has an ownership interest) or from other members of the lending syndicate. Babson Capital or its affiliates may directly or indirectly receive underwriting, origination, or agent fees in connection with such loan originations. As a result, Babson Capital has a conflict of interest in connection with such loan origination transactions since it has an incentive to base its investment recommendation to its advisory clients on the amount of compensation, underwriting, origination or agent fees it would receive rather than on its advisory clients' best interests. To address this conflict of interest, Babson Capital has adopted a Transactions with Affiliates Policy, which ensures any such transaction is consistent with Babson Capital's fiduciary obligations to act in the best interests of its clients, including its ability to obtain best execution in connection with the transaction, and is in compliance with applicable legal and regulatory requirements.

MML Investors Services, LLC (“MMLISI”), an indirect wholly-owned subsidiary of MassMutual, is an SEC-registered broker-dealer that may act as an introducing broker for the purpose of effecting securities transactions for brokerage customers. While a Babson Capital advisory client could request that MMLISI effect securities transactions for it that would result in commissions to MMLISI, currently no Babson Capital advisory client directs Babson Capital to effect securities transactions for its account through MMLISI.

Investments by Advisory Clients: Babson Capital may invest client assets in securities or other investments that are also held by (i) Babson Capital or its affiliates, including MassMutual, (ii) other Babson Capital advisory accounts, (iii) funds or accounts in which Babson Capital or its affiliates or their respective employees have an ownership or economic interest or (iv) employees of Babson Capital or its affiliates. Babson Capital may also, on behalf of its advisory clients, invest in the same or different securities or instruments of issuers in which (i) Babson Capital or its affiliates, including MassMutual, (ii) other Babson Capital advisory accounts, (iii) funds or accounts in which Babson Capital, its affiliates, or their respective employees have an ownership or economic interest or (iv) employees of Babson Capital or its affiliates, have an ownership interest as a holder of the debt, equity or other instruments of the issuer. Babson Capital has a conflict of interest in connection with any such transaction since investments by its advisory clients may directly or indirectly benefit Babson Capital and/or its affiliates and employees by potentially increasing the value of the securities or instruments it holds in the issuer. Any investment by Babson Capital on behalf of its advisory clients will be consistent with its fiduciary obligations to act in the best interests of its advisory clients, and otherwise be consistent with such clients’ investment objectives and restrictions.

Babson Capital or its affiliates may also recommend that clients invest in registered or unregistered investment companies, including private investment funds such as hedge funds, private equity funds or structured funds (i) advised by Babson Capital or an affiliate, (ii) in which Babson Capital, an affiliate or their respective employees has an ownership or economic interest or (iii) with respect to which Babson Capital or an affiliate has an interest in the entity entitled to receive the fees paid by such funds. Babson Capital has a conflict of interest in connection with any such recommendation since it may have an incentive to base its recommendation to invest in such investment companies or private funds on the fees that Babson Capital or its affiliates would earn as a result of the investment by its advisory clients in the investment companies or private funds. Any recommendation to invest in a Babson Capital advised fund or other investment company will be consistent with Babson Capital’s fiduciary obligations to act in the best interests of its advisory clients, consistent with such clients’ investment objectives and restrictions. Babson Capital may, in certain limited circumstances, offer to clients that invest in private investment funds that it advises an equity interest in entities that receive advisory fees and carried profits interest from such funds.

Employee Co-Investment: Babson Capital may permit certain of its portfolio managers and other eligible employees to invest in certain private investment funds advised by Babson Capital or its affiliates and/or share in the performance or incentive fees received by Babson Capital from such funds. If the portfolio manager or eligible employee was responsible for both the portfolio management of the private fund and other Babson Capital advisory accounts, such person would have a conflict of interest in connection with investment decisions since the person may have an incentive to direct the best investment ideas, or to allocate trades, in favor of the fund in which he or she is invested or otherwise entitled to share in the performance or incentive fees received from such fund. To address these conflicts of interest, Babson Capital has adopted a Side by Side Management of Private Investment Funds and Other Advisory Accounts Policy which requires, among others things, that Babson Capital treat each of its advisory clients in a manner consistent with its fiduciary obligations and prohibits Babson Capital from favoring any particular advisory account as a result of the ownership or economic interests of Babson Capital, its affiliates or employees, in such advisory account. Any investment by a Babson Capital employee in one of its private funds is also governed by Babson Capital’s Employee Co-Investment Policy, which ensures that any co-investment by a Babson Capital employee is consistent with Babson Capital’s Code of Ethics.

Management of Multiple Accounts: As noted above, Babson Capital’s portfolio managers are often responsible for the day-to-day management of multiple accounts, including, among others, separate accounts for institutional clients,

closed-end and open-end registered investment companies, and/or private investment funds (such as hedge funds, private equity funds and structured funds), as well as for proprietary accounts of Babson Capital and its affiliates, including MassMutual and its affiliates. The potential for material conflicts of interest exist whenever a portfolio manager has responsibility for the day-to-day management of multiple advisory accounts. These conflicts may be heightened to the extent a portfolio manager is responsible for managing a proprietary account for Babson Capital or its affiliates or where the portfolio manager, Babson Capital and/or an affiliate has an investment in one or more of such accounts or an interest in the performance of one or more of such accounts (e.g., through the receipt of a performance or incentive fee).

Investment Allocation: Such potential conflicts include those relating to allocation of investment opportunities. For example, it is possible that an investment opportunity may be suitable for more than one account managed by Babson Capital, but may not be available in sufficient quantities for all accounts to participate fully. Similarly, there may be limited opportunity to sell an investment held by multiple accounts. A conflict arises where the portfolio manager has an incentive to treat an account preferentially because the account pays Babson Capital or its affiliates a performance-based fee or the portfolio manager, Babson Capital or an affiliate has an ownership or other economic interest in the account. As noted above, Babson Capital also acts as an investment manager for certain of its affiliates, including MassMutual. These affiliate accounts co-invest jointly and concurrently with Babson Capital's other advisory clients and therefore share in the allocation of such investment opportunities. To address these conflicts of interest associated with the allocation of trading and investment opportunities, Babson Capital has adopted an Investment Allocation Policy and trade allocation procedures that govern the allocation of portfolio transactions and investment opportunities across multiple advisory accounts, including affiliated accounts. In addition, as noted above, to address these conflicts of interest, Babson Capital has adopted a Side by Side Management of Private Investment Funds and Other Advisory Accounts Policy which requires, among others things, that Babson Capital treat each of its advisory clients in a manner consistent with its fiduciary obligations and prohibits Babson Capital from favoring any particular advisory account as a result of the ownership or economic interests of Babson Capital, its affiliates or employees, in such advisory accounts. Any investment by a Babson Capital employee in one of its private funds is also governed by Babson Capital's Employee Co-Investment Policy, which ensures that any co-investment by a Babson Capital employee is consistent with Babson Capital's Code of Ethics.

Personal Securities Transactions; Short Sales: Potential material conflicts of interest may also arise related to the knowledge and timing of an account's trades, investment opportunities and broker selection. Babson Capital and its portfolio managers have information about the size, timing and possible market impact of the trades of each account they manage. It is possible that portfolio managers could use this information for their personal advantage and/or the advantage or disadvantage of various accounts which they manage. For example, a portfolio manager could, or cause a favored account to, "front run" an account's trade or sell short a security for an account immediately prior to another accounts sale of that security. To address these conflicts, Babson Capital has adopted policies and procedures, including a Short Sales Policy, which ensures that the use of short sales by Babson Capital is consistent with Babson Capital's fiduciary obligations to its clients, a Side by Side Management of Private Investment Funds and Other Advisory Accounts Policy, which requires, among other things, that Babson Capital treat each of its advisory clients in a manner consistent with its fiduciary obligations and prohibits Babson Capital from favoring any particular account as a result of the ownership or economic interest of Babson Capital, its affiliates or employees and a Code of Ethics.

Trade Errors: Potential material conflicts of interest may also arise if a trade error occurs in a client account. A trade error is deemed to occur if there is a deviation by Babson Capital from the applicable standard of care in connection with the placement, execution or settlement of a trade for an advisory account that results in (1) Babson Capital purchasing securities not permitted or authorized by a client's investment advisory agreement or otherwise failing to follow a client's specific investment directives; (2) Babson Capital purchasing or selling the wrong security or the wrong amount of securities on behalf of a client's account; or (3) Babson Capital purchasing or selling securities for, or allocating securities to, the wrong client account. When correcting these errors, conflicts of interest between Babson Capital and its advisory accounts may arise as decisions are made on whether to cancel, reverse or reallocate the erroneous trades. In order to address these conflicts, Babson Capital has adopted an Errors Policy governing the resolution of trading errors, and will follow the Errors Policy in order to ensure that trade errors are handled promptly and appropriately and that any action taken to remedy an error places the interest of a client ahead of Babson Capital's interest.

Best Execution; Directed Brokerage: With respect to securities transactions for most of the accounts it manages, Babson Capital determines which broker to use to execute each order, consistent with its fiduciary duty to seek best execution of the transaction. Babson Capital manages certain accounts, however, for clients who limit its discretion

with respect to the selection of brokers or direct it to execute such client's transaction through a particular broker. In these cases, trades for such an account in a particular security may be placed separately from, rather than aggregated with, those in the same security for other accounts. Placing separate transaction orders for a security may temporarily affect the market price of the security or otherwise affect the execution of the transaction to the possible detriment of one or more of the other account(s) involved. In order to address these conflicts, Babson Capital has adopted a Best Execution Policy, which establishes the necessary controls to satisfy its obligations regarding best execution and ensures it places advisory client trades in such a manner that the advisory client's total costs or proceeds are the most favorable under the circumstances, and a Directed Brokerage Policy, which ensures all directed brokerage instructions are executed in accordance with written client instructions and applicable legal requirements.

Babson Capital and its portfolio managers or employees may have other actual or potential conflicts of interest in managing an advisory account, and the list above is not a complete description of every conflict of interest that could be deemed to exist.

COMPENSATION. The current Babson Capital compensation and incentive program for investment professionals is designed to attract, motivate and retain high-performing individuals.

To help Babson Capital make informed decisions, Babson Capital participates in annual compensation surveys of investment management firms using McLagan | Aon Hewitt, in addition to other industry specific resources. The firms selected for periodic peer-group comparisons typically have similar asset size or business mix. Annually, a review is conducted of total compensation versus market, to ensure that individual pay is competitive with the defined overall market.

The compensation package for the members of the Portfolio Team is comprised of a market-driven base salary, a performance-driven annual bonus, and discretionary long-term incentives. The performance-driven annual bonus is based on the overall performance of Babson Capital as well as the performance of the accounts managed by the members of the Portfolio Team relative to appropriate benchmarks, including with respect to the Registrant, to the Russell 2000 Index and Barclays Capital U.S. Corporate High Yield Index. Performance of the Registrant, like other accounts Portfolio Team members manage, are evaluated on a pre-tax basis, and are reviewed over one and three-year periods, with greater emphasis given to the latter. There are other factors that affect bonus awards to a lesser extent, such as client satisfaction, teamwork, employee individual performance in relation to pre-determined goals, and the assets under management. Such factors are considered as a part of the overall annual bonus evaluation process by the management of Babson Capital.

Long-Term incentives are designed to share with participants the longer-term value created in Babson Capital. Long-term incentives may take the form of deferred cash awards (including deferred cash awards that provide a portfolio manager with the economic equivalent of a "shareholder" interest in Babson Capital by linking the value of the award to a formula which is meant to represent the value of the business), and/or, in the case of a portfolio manager who manages a private investment fund with a performance fee, a deferred cash award or a direct profit sharing interest that results in the portfolio manager receiving amounts based on the amount of the performance fee paid by such fund. These long-term incentives vest over time and are granted annually, based upon the same criteria used to determine the performance-driven annual bonus detailed above. Because the Portfolio Team members are generally responsible for multiple accounts (including the Registrant), they are compensated on the overall performance of the accounts that they manage, rather than a specific account, except for the portion of compensation relating to any performance fee award.

BENEFICIAL OWNERSHIP. As of December 31, 2014, members of the Portfolio Team beneficially owned the following dollar range of equity securities in the Registrant:

| | Dollar Range of Beneficially Owned* Equity Securities of the Registrant: |
|-------------------|--|
| Portfolio Team: | |
| Eric Lloyd | None |
| Sean Feeley | None |
| Michael L. Klofas | \$100,001-\$500,000 |

*Beneficial ownership has been determined in accordance with Rule 16a-1(a)(2) under the Securities Exchange Act of 1934, as amended. (Shares "beneficially owned" include the number of shares of the Registrant represented by the value of a Registrant-related investment option under Babson Capital's non-qualified deferred compensation plan for certain officers of Babson Capital (the "Plan"). The Plan has an investment option that derives its value from the market value of the Registrant's shares. However, neither the Plan nor the participation in the Plan has an actual ownership interest in the Registrant's shares.)
