Performance Measures for Annual Incentive Compensation

On December 7, 2017, pursuant to the terms of the WEC Energy Group Short-Term Performance Plan, as amended and restated effective as of January 1, 2016 (the “STPP”), the Compensation Committee of WEC Energy’s Board of Directors (the “Compensation Committee”) established the overall performance measures and their respective weighting for the upcoming 2018 plan year. For WEC Energy officers, the 2018 annual incentive under the STPP will be primarily dependent upon financial achievement determined by WEC Energy’s performance against targets for earnings from continuing operations (75% weight) and cash flow (25% weight). Awards can be increased or decreased by up to 10% based upon performance in the operational areas of customer satisfaction (5%), safety (2.5%) and supplier and workforce diversity (2.5%) for the entire family of WEC Energy companies.

For those officers whose positions primarily relate to utility operations in Wisconsin, the 2018 annual incentive under the STPP will be dependent upon financial achievement determined by WEC Energy’s performance against targets for earnings from continuing operations (25% weight) and cash flow (25% weight), as well as against targets for the aggregate net income of WEC Energy’s Wisconsin utility operations (50% weight). Awards for these officers can be increased or decreased by up to 10% based upon performance in the operational areas of customer satisfaction (5%), safety (2.5%) and supplier diversity (1.25%) for WEC Energy’s Wisconsin utility operations, as well as workforce diversity (1.25%) for the entire family of WEC Energy companies.

Pursuant to the terms of the WEC Energy Group Performance Unit Plan, amended and restated effective as of January 1, 2017 (the "PUP"), performance units granted under the PUP vest based upon WEC Energy's performance measured against total shareholder return over a three-year performance period as compared to the total shareholder return of a custom peer group of companies and an Additional Performance Measure, if any, selected by the Compensation Committee. On December 7, 2017, the Compensation Committee selected performance against the weighted average authorized return on equity of all WEC Energy's utility subsidiaries as the Additional Performance Measure for the 2018 performance unit awards.
