NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

All dollar amounts used herein refer to U.S. dollars unless otherwise indicated. These statements are prepared using Generally Accepted Accounting Principles as well as the terms outlined or explained in the year end 10-KSB filing.

The Company has adopted Fresh Start Accounting upon completion of the Plan of Reorganization as detailed in Note 2.

All significant transactions between the parent and consolidated affiliates have been eliminated. The consolidated quarterly financial statements are unaudited. These statements include all adjustments (consisting of normal recurring accruals) considered necessary by management to present a fair statement of the results of operations, financial position and cash flows. The results reported in these consolidated financial statements should not be regarded as necessarily indicative of results that may be expected for the entire year.

NOTE 2 - REORGANIZATION

As of the effective date of the Plan of Reorganization, Synergy Technologies Corporation (Synergy) was reorganized under the laws of the State of Delaware. The authorized capital stock of the reorganized Australian Oil & Gas Corporation consists of 75,000,000 shares of new common stock (AOG Common Stock), .001 par value. All stock options, warrants, leases and executory contracts were cancelled. Unsecured claims received 3,000,000 shares of AOG Common Stock plus payment of \$90,000. Present equity holders received one share of AOG Common Stock for each 10 old shares held, for a total of 4,800,550 of AOG Common Stock. The Plan Funder received 19,500,000 shares of AOG Common Stock in return for advancing \$75,000 to fund the Plan of reorganization.

NOTE 3 - ADJUSTMENTS TO THE AMOUNTS OF ASSETS AND LIABILITIES

As at the effective date of the Plan of Reorganization the following adjustments were made to assets, liabilities and stockholders' equity (deficit):

Cash

Cash of \$299,692, was paid to holders of unsecured claims of \$90,000 and to settle accounts payable of \$209,692.

Prepaid Expenses

Edgar Filing: AUSTRALIAN OIL & GAS CORP - Form 10QSB

Prepaid re-organization expenses of \$75,000 were expended.

Accounts Payable

Accounts payable to holders of administrative claims of \$209,692 were settled in full in cash.

Unsecured Claims

Holders of general unsecured claims were settled by payment of \$90,000 in cash and the issuance of 3,000,000 shares of AOG Common Stock.

Elimination of Accumulated Deficit

Accumulated deficit of \$60,713,606 was eliminated on the cancellation of all outstanding securities of Synergy and the issuance of (1) share of AOG Common stock for every ten (10) shares of the common stock of Synergy which resulted in the issuance of 4,800,550 shares of AOG Common Stock.

NOTE 4 - INVESTMENTS

The Company has two wholly owned subsidiaries; Gascorp, Inc and Nations LNG, Inc, both incorporated in Delaware. Gascorp, Inc has made application for a petroleum exploration permit by way of competitive work program tender with the responsible authority for regulation of the Australian offshore petroleum exploration activities with respect to AC02-1, an area within the Territory of Ashmore & Cartier Islands, an Australian offshore territory administered by the Northern Territory of Australia ("NT") on behalf of the Australian government. Gascorp holds a 20% interest in the application.

NOTE 5 - RELATED PARTY TRANSACTIONS

During the quarter the Australian Oil & Gas Corporation issued 19,500,000 shares of common stock to the nominees of Albers Management and Consulting, a division of Great Missenden Holdings Pty Ltd (of which Mr E. Geoffrey Albers is a director and shareholder) as Plan Funder, pursuant to the Plan of Reorganization.

During the quarter Great Missenden Holdings Pty Ltd charged the Company consulting services at the rate of \$150 per hour; \$6,000 relating to the Plan of Reorganization and \$1,500 relating to the administration of the Company. In addition, claims for disbursements relating to the Plan of Reorganization of \$44,408 and to the Company's administration of \$4,431 were lodged.

At September 30, 2003 the amount of \$56,339 remained payable to Great Missenden Holdings Pty Ltd on three months notice, interest free until December 31, 2003, thereafter bearing interest at 7% per annum.

NOTE 6 - CURRENT LIABILITIES

At September 30, 2003 the Company recorded a liability to Great Missenden Holdings Pty Ltd of \$56,339, as set out in Note 4 Related Party Transaction.

Edgar Filing: AUSTRALIAN OIL & GAS CORP - Form 10QSB

Other liabilities of \$18,057 were recorded, during the quarter; relating to the Plan of Reorganization \$13,309, and to the administration of the Company \$4,748.

NOTE 7 - COMMON STOCK

During the quarter on the effective date of the Plan of Reorganization, the following changes in common stock were effected:

- the issuance of 19,500,000 shares of AOG Common Stock to Albers Management and Consulting, a Division of Great Missenden Holdings Pty Ltd in consideration of supplying \$75,000 for funding the Plan (herein referred to as the "Plan Funder") and its agreement to contribute up to \$150,000 to AOG during the two-year period after the effective date of the Plan;

- the issuance of (1) share of AOG Common Stock for every ten (10) shares of common stock of Synergy held by stockholders of Synergy prior to the Chapter 11 Filing, which resulted in the issuance of 4,800,550 shares of AOG Common Stock;

- the issuance of an aggregate of 3,000,000 shares of AOG Common Stock to all holders of Synergy general unsecured claims on the basis of .86299 of one share for each dollar of the amount of allowed unsecured claims;

NOTE 8 - SUBSEQUENT EVENTS

On November 6, 2003 the Company entered into an Option Agreement whereby it may, up until March 31, 2004 elect to participate for a 30% interest in three petroleum exploration permits operated as one joint venture. The permits are located in the Browse Basin, in the offshore waters of the North West Shelf of Australia.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Since Australian Oil & Gas Corporation (formerly Synergy Technologies Corporation) emerged from bankruptcy on August 11, 2003, the company has not conducted any business operations. Since that date, management has been seeking to identify new business opportunities in which to become involved but has not yet concluded its investigation or made any decision as to the company's future operations other than as disclosed in Part II Item 5. Accordingly, we have no results of operations to report nor can we make any statements regarding our future capital requirements or sources of capital as of the date hereof.

During the the three months ended September 30, 2003, Great Missenden Holdings Pty Ltd ("GMH"), an affiliate of the Company, provided consulting services to us as and when required, relating to the Plan of Reorganization and general administration. In addition, GMH paid an aggregate of \$48,839 of disbursements relating to those activities on the Company's behalf which is

Edgar Filing: AUSTRALIAN OIL & GAS CORP - Form 10QSB

accounted for as a loan to the Company. The loan by GMH to the Company is interest free until December 31, 2003 and thereafter bears interest at 7% per annum and is repayable on three months notice.

Item 3. Controls and Procedures

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our principal executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures are effective to provide reasonable assurance that our disclosure controls and procedures will timely alert them to material information required to be included in our periodic SEC reports. It should be noted that the design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and we cannot assure you that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote.

As of the end of the period covered by this report, there has been no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Securities Exchange Act of 1934, as amended) during the quarter to which this report relates that has materially affected or is reasonably likely to materially affect, our internal control over financial reporting.

Over the Counter Bulletin Board Quotation

Edgar Filing: AUSTRALIAN OIL & GAS CORP - Form 10QSB

In September 2003, the company's class of common stock resumed quotation on the Over-the-Counter Bulletin Board under the symbol AOGC.

Application for Petroleum Exploration Area AC02-1

On September 22, 2003, the Company's wholly owned subsidiary, Gascorp, Inc. ("Gascorp"), together with certain other affiliated joint venturers, lodged an application for a petroleum exploration permit by way of competitive work program tender with the authority responsible for regulation of Australian offshore petroleum exploration activities with respect to AC02-1, an area within the Territory of Ashmore & Cartier Islands, an Australian offshore territory administered by the Northern Territory of Australia ("NT"), on behalf of the Australian government. Gascorp holds a 20% interest in the application, in joint venture with its affiliates, Natural Gas Corporation Pty Ltd (40% and operator) and Auralandia N.L. (40%).

Release area AC02-1 is located in the Vulcan Sub-basin and includes the Oliver oil and gas field. According to a NT website, this resource has estimated reserves of 15-18 million barrels of liquid hydrocarbons and 335-345 billion standard cubic feet of gas.

Area AC02-1 is situated 640 kilometres west of Darwin, and comprises 5 graticular blocks, totalling approximately 400 square kilometers. The Oliver oil and gas field lies 35 kilometers north of the Jabiru oil field (currently producing via a floating production storage and offloading facility). The Audacious-1 oil discovery (January 2001) lies 12 kilometers to the southeast of Oliver-1. The Tenacious-1 oil discovery (May 1997) lies 25 kilometers to the south-southwest. Water depths range from about 250-350 meters over the area.

Exploration in the Vulcan Sub-basin commenced in the 1960's and the first oil discovery was made at Puffin-2 in 1974. The first commercial oil accumulation was discovered at Jabiru-1 in 1983. Since then, further commercial oil discoveries have been made at Challis, Skua and Cassini. Significant oil and/or gas discoveries have also been made at Talbot, Oliver, Montara, Bilyara, Tahbilk, Tenacious and Audacious. Oil production from the Jabiru and Challis-Cassini fields is via FPSO's; production ceased at Skua in January 1997.

Gascorp has not as yet been advised as to the outcome of its application. There can be no assurance that the application will be successful or if an offer of permit is received that the Company will accept the offer, or that if the Company receives and accepts the offer covered by the application that this area will yield any production or that production will be commercially viable.

Option with respect to Browse Joint Venture

On November 6, 2003, the Company was granted an option by certain of its affiliates, at no cost, to acquire a 30% interest, by way of a farm-in, to the Browse Joint Venture, exercisable through until March 31, 2004. The Company intends, over the option period, to undertake an evaluation of the potential of the properties to determine whether or not to exercise the option,

Edgar Filing: AUSTRALIAN OIL & GAS CORP - Form 10QSB

and whether or not the transaction is fair to the shareholders of the Company.

The underlying three permits, WA-332-P, WA-333-P and WA-341-P, are contiguous and comprise a total project area of approximately 7,800 square kilometer. They are located on the eastern margin of the Browse Basin, a significant oil prospective and gas rich area, offshore from Western Australia.

The Browse Joint Venture permits have been only lightly explored and despite their strategic location, only four wells have been drilled in the permits.

To the west, within 25-30 kilometers outside of the permit boundaries, there are significant gas condensate discoveries. Further to the west, again, there are the long-standing gas discoveries at Scotts Reef and Brecknock, which hold resources in excess of 10 TCF of gas. To the north east of the permit boundaries lies the recent 1 TCF Crux gas discovery.

The project area is thought to be endowed with suitable geology for economic oil and gas accumulations. There is already an extensive body of existing geological data which is available, including a large amount of 2D and 3D seismic data that is to be acquired. There is an extensive portfolio of leads and prospects to pursue; however, we cannot assure you that this area will yield any production or that production will be commercially viable.
