Description of Business

Item 1. Business

General

Citizens Capital Corp. (the "Company") is a development stage holding company based in Dallas, Texas which seeks to acquire and/or develop those operating entities, assets and/or marketing rights which may provide the Company with an entrance into new market segments or serve as a complimentary addition to existing operations, assets, products or services.

For the purpose of entering into the residential mortgage loan market segment; the Company organized a subsidiary, Landrush Realty Corporation on August 15, 1995. Also on August 15, 1995, the Company sold the trademarks and exclusive marketing rights to two of its residential home equity brands, The Texas Home Equity ReFund® and The Cash-Out Mortgage ReFinancer® to Landrush in exchange for 19,000,000 shares of Landrush common stock. On June 13, 1997, the Company sold the trademark and exclusive marketing rights to its third residential home equity brand: The Home Equity Cashier® to Landrush in exchange for 333,334 shares of Landrush common stock.

As of December 31, 2010, the Company continues to hold the exclusive marketing rights to both the Texas Home Equity ReFund® and the Cash-Out Mortgage ReFinancer® products. However, the Company is not actively marketing, licensing or operating either of its Texas Home Equity ReFund® or Cash-Out Mortgage ReFinancer® products in the consumer market place.

For the purpose of entering into the print media market segment, the Company organized a subsidiary, Media Force Sports & Entertainment Inc. on June 13, 1997. Also, on June 13, 1997, the Company sold the trademark, publishing and exclusive marketing rights to its Black Financial News's print publication to Media Force in exchange for 19,333,334 shares of Media Force common stock.

For the purpose of entering into the athletic footwear and apparel market segment, the Company organized a subsidiary, SCOR Brands Inc. on June 13, 1997. On November 20, 1997, the Company sold the trademark and exclusive marketing rights to its SCOR® brand athletic shoe and apparel logo to SCOR in exchange for 19,333,334 shares of SCOR common stock.

On March 19, 1999, pursuant to the Exchange Act of 1934, as amended, the Company filed a Form 10 registration statement and thereby registered with the United States Securities and Exchange Commission, 39,500,000 shares of its Class A; common stock for secondary market trading. Said Form 10 registration statement became effective on or about May 16, 1999. The 39,500,000 common shares included 15,000,000 common shares initially held by the Company's ESOP Trust.

In 2000, the Company acquired the assets of a printing business for integration into its Media Force unit and the Company primarily through this unit began to generate revenues.

On January 5, 2001, the Company finalized a joint venture, research and development agreement with Far Reach Technologies Inc. (the "JV Group") for the research and development of broadband video broadcast technologies and the development of a multi-channel, direct to home, broadcast TV platform to be deployed over existing internet protocol (IP) based broadband networks.

The Company holds 29,233,334 shares of SCOR 144A common stock or 97.4% of said common stock outstanding.

The Company, separately, and in conjunction with and/or on behalf of its current and future subsidiary units anticipates making additional public announcements as the Company and its subsidiaries continue to move its products and services into the public market place.

Competition

The Company is engaged in the internal development and/or operation of certain assets and seeks to pursue various external corporate mergers and acquisition (M&A) opportunities. The Company contemplates acquiring, owning and managing various corporate manufacturing, distribution and/or service companies for the purpose of both profit and the opportunity of capital appreciation. Typically, the industry is characterized by the presence of small, medium and large private equity and/or venture capital firms. Generally, said private equity and/or venture capital firms may be privately and/or publicly held with access to both the public and private equity and debt capital markets respectively. The principal method of acquisition of these private equity and/or venture capital companies is to utilize combinations of cash, equity and debt to consummate transactions with its merger and/or acquisition targets. The specific combination of cash, equity or debt utilized by each of the private equity and/or venture capital companies is generally dependent upon current conditions in the both the public and private capital market place.

KKR, Blackstone Group, Providence Equity Partners, Carlyle Group, Apollo Group, Fortress Investments, Cerberus Investment Group, Berkshire Hathaway, Valhi, and Hicks Acquisition Group are amongst the industry's leading market participants in the mergers and acquisition segments respectively. However, there are numerous other local and regional market participants that manage asset portfolios of various sizes.

The Company's Landrush unit contemplates operating in the multi family residential; hotel and commercial real estate property segments. Landrush intends to acquire, own, manage and lease said properties. Both the multi family residential; hotel and commercial real estate property segments are very competitive and generally consist of entities structured as specialty, real estate investment trust (REIT). Typically, the industry is characterized by the presence of large, publicly traded REIT's with access to both the public and private equity and debt capital markets respectively. The principal method of acquisition of each of these REIT's is to utilize combinations of cash, equity and debt to consummate said property acquisition transactions. The specific combination of cash, equity or debt utilized by each REIT is generally dependent upon current conditions in the multi family residential and commercial real estate industry, as well as, the capital markets.

Equity Residential, Vornado Realty Trust, Apartment Investment & Management Company, Lincoln Property Company, Fortress Investment Company and Equity Office Properties Trust are amongst the industries leading market participants in the multi family residential; hotel and commercial real estate segments respectively.

Landrush believes that it may face tremendous competitive risk and high barriers to entry in its attempts to gain market share from its more established competitors. Consequently, gaining a leading market share position is not the objective of Landrush. However, Landrush believes that through the utilization of various alternative methods of property acquisition, re-deployment of assets, distressed real estate market conditions and access to the public and private capital markets it may achieve a higher initial level of competitive market results than would otherwise be likely.

The Company's Media Force unit contemplates operating in the general broadband and digital terrestrial distributed video, specialty news, information, advertising; entertainment and sports programming distribution, industry segments.

internet service providers.

11

The specialty video news, information and entertainment programming segment is characterized by niche market programmers who target their content to specific, demographic based audiences. Through its specialty video content, each video programmer attempts to appeal to the interests of its target market audience. Subsequently, video programmers and distributors offer their content to their targeted audiences directly and through video distributors on both a commercial advertising and/or sponsorship supported basis.

The Company's Media Force unit will generally be in competition with various broadband and digital, sports and entertainment video distribution platforms. The leading participants in the video distribution platform segment are: Hulu, Universal Sports Network, Fancast, MLB.com, NBA Broadband, ESPN3 and YouTube.

The leading participants in the content programming segment targeted towards the demographic based consumer markets for which Black Financial News TV Network contemplates operations are: TV One, CNN, MSNBC, BET News and Fox Business News.

The Company believes that both its Media Force unit and its Black Financial New TV Network segments respectively may face tremendous competitive risk in its attempts to gain market share from its more established specialty broadband, content programmers. However, Media Force and its Black Financial News TV Network segment believes that through the utilization of new technologies and the advent of new broadband, video channels and digital content distribution platforms direct to the home via set top box and directly to various mobile devices, that it may achieve a higher level of market penetration and operational results than would otherwise be likely.

The Company's SCOR unit contemplates operating in the athletic footwear and apparel industry. The athletic footwear and apparel industry is keenly competitive in the United States and on a worldwide basis in the areas of new product development, price, product identity, marketing, distribution, and customer service support. SCOR anticipates that it will compete with an increasing number of specialized athletic shoe and apparel companies. The intense competition and the rapid changes in technology, as well as, consumer preferences for existing athletic footwear and apparel brands constitute significant risk factors for SCOR. Yet, SCOR has demonstrated the viability of the SCOR Brand by moving the brand from its proto type; to development stage to actual product production, delivery and consumer market sales. During previous periods, said sales were generated primarily through its scorbrands.com owned E-Commerce, online store.

Nike, Reebok, Adidas, Converse, Sketcher and Under Armour are amongst the leading market brands in the footwear and apparel industry. Given the proprietary nature of existing production, marketing and distribution processes, SCOR may face tremendous competitive risk in its attempts to gain market share from its more established competitors. However, SCOR believes that through the utilization of various alternative methods of product production, marketing and distribution, it may achieve a higher initial level of market results than would otherwise be attainable.

The Company continues to pursue lines of credit from third party lenders; pursue both short term and/or long term borrowings from institutional investors necessary to fund its working capital requirements and the introduction of its branded products and services into the consumer market place.

The Company anticipates that the capital necessary for its acquisition initiatives and the further introduction of its products and/or services into the consumer marketplace shall be derived from the anticipated proceeds received from the secondary, re-marketing, to both institutional and accredited investors, of its common equity and Series 2010A Bonds, held by it ESOP Trust, as selling security holder.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

On Oct 21, 2010, the Company's DLFA Industries Inc. unit's Dream League TV Network entered into a 10 year content licensing and distribution agreement with Memphis, Tennessee based Vivicast Media, LLC. ("Vivicast"). Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its subsidiaries. All significant inter-company accounts and transactions have been eliminated in consolidation.

Property and Equipment

Property and equipment is carried at cost less accumulated depreciation. Significant improvements and additions are capitalized. Maintenance and repair costs are expensed as incurred. Depreciation is computed on the straight-line method over the useful lives of the assets, which range from five to seven years. When property and equipment are retired or otherwise disposed of, the related cost and accumulated depreciation are eliminated and any profit or loss on disposition is reflected in income.

Due to a general decline in the commercial printing business combined with the introduction of new, self service consumer, as well as, new, in house business printing technologies, the Company's commercial printing operation experienced multiple quarters of un-profitability. As such, the Company made the strategic decision to discontinue its Media Force unit's commercial printing operation effective the period ended December 31, 2003 resulting in the retirement and elimination of all related equipment at the depreciated value of \$20,242. As such, the Company experienced a loss of \$10,758 related to the disposition of said equipment which was reflected and charged to the Company's income for the period ended December 31, 2003.

While the Company elected to discontinue its Media Force unit's in house, commercial printing operation, the Company's Media Force unit continues to produce, on an outsource basis going forward, its Black Financial News® magazine publication. Further, the Company's Media Force unit continues to offer and provide several commercial printing products and services, to existing customers, on an outsourced, brokered basis for the period ended December 31, 2003.

Loss Per Share

Loss per share is calculated in accordance with Statement of Financial Accounting Standards No. 128 ("SFAS 128"), Earnings Per Share. Basic income (loss) per share is computed based upon the weighted average number of common shares outstanding during the period. Diluted income (loss) per share takes common equivalent shares into consideration. However, common equivalent shares are not considered if their effect is antidilutive. Common stock equivalents consist of outstanding stock options and warrants. Common stock equivalents are assumed to be exercised with the related proceeds used to repurchase outstanding shares except when the effect would be antidilutive. The Company had 400,000 common equivalent shares which were antidilutive in all periods presented.

The weighted average number of shares outstanding used in the loss per share computation was 48,022,500 and 48,022,500 for the years ended December 31, 2011 and 2010, respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Income Taxes

The Company accounts for income taxes under the liability method, which requires recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax assets and liabilities are determined based on the difference between the financial statements and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. The Company had deferred tax assets, resulting from net operating loss carry forwards (NOL) for tax which were fully reserved. The Company had no material deferred tax liabilities. The Company's NOL at December 31, 2011 was approximately \$360,644 and it expires through the year 2020.

Statement of Cash Flows

For purposes of the statements of cash flows, the Company considers all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents.

Use of Estimates

The preparation of the Company's consolidated financial statements in conformity with generally accepted accounting principles requires the Company's management to make estimates and assumptions that affect the amounts reported in these financial statements and accompanying notes. Actual results could differ from those estimates.

2. Plan of Operation for the 2012 Fiscal Year

CITIZENS CAPITAL CORP.
(a development stage company)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The Company's SCOR Brands unit has completed development of its SCOR Brand footwear and has previously introduced said branded footwear products into the consumer market place. The Company intends to resume production and further the marketing and distribution of its SCOR branded footwear products into the consumer market place and (2) continue to target, evaluate and pursue suitable mergers and/or acquisition candidates. The Company's cash requirements have been funded to date by its principal stockholder. The Company generally projects a consistent annual requirement of approximately \$1,000,000 as an available acquisition line of credit to be utilized to target, evaluate and pursue and consummate potential acquisition candidates. The Company intends to attempt to borrow these funds from affiliates of the Company and third party private lenders, as well as, access both the public and private debt and equity capital markets when and where available. Should the Company be unable to borrow these funds, it may be unable to fully implement its business plan, as well as, its plan of acquisition. Regardless of whether any funding is received, the Company's major stockholder has committed to provide funding required which allows the Company to continue as a going concern.

3. Acquisition

In July 2000, the Company acquired the assets and operations of a printing business for \$31,000 for integration with its Media Force unit. The acquisition was accounted for as a purchase and the operations are consolidated with those of the Company beginning July 1, 2000.

Due to a general decline in the commercial printing business subsequent to the terrorist attacks of September 11, 2001 and the corresponding softening of the United States economy, combined with the introduction of new, self service consumer, as well as, new, in house business printing technologies, the Company's commercial printing operation experienced multiple quarters of un-profitability.
