o Pre-commencement communications pu	rsuant to Rule 13e-4(c) under the Exchar	nge Act (17 CFR 240.13e-4(c))

Item 2.06 Material Impairments.

In accordance with Financial Accounting Standards Board Statement No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets (FAS 144), the management of Watson Pharmaceuticals, Inc. (Watson) reevaluates the carrying value of identifiable intangible and long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying value may not be recoverable. FAS 144 defines impairment as the condition that exists when the carrying amount of a long-lived asset exceeds its fair value. An impairment loss is recognized only if the carrying amount of a long-lived asset is not recoverable and exceeds its fair value.

On September 30, 2004, Barr Pharmaceuticals, Inc. announced the approval and launch of an Abbreviated New Drug Application for a generic version of Watson s branded oral contraceptive Tri-Norinyl®. Upon Barr s announcement, which constituted an event pursuant to FAS 144, Watson s management adjusted estimated sales forecasts to reflect the new competition and reevaluated the carrying value of the Tri-Norinyl® intangible asset for impairment.

On October 15, 2004, the Company concluded that a material charge was required with respect to the intangible asset. As a result, Watson will record a non-cash asset impairment charge of \$46.1 million in the third quarter of 2004.
