Institutional Markets & Services Briefing

Edgar Filing: NATIONAL AUSTRALIA BANK LTD - Form 6-K

National Australia Bank's Executive General Manager, Institutional Markets & Services (IMS), Mr John Hooper, will this week update the investment community and media on the strategic focus and key initiatives for the IMS division.

Edgar Filing: NATIONAL AUSTRALIA BANK LTD - Form 6-K

Attached is a copy of the presentation that will be the basis for discussions with the investment community. A copy is also available at www.nabgroup.com.

We are making good progress but we are in year one of a two to three year turnaround, he said.

Mr Hooper said the key issues for IMS are to:

simplify the business;

deliver sustainable revenue growth;

create the right environment for our people to excel; and

embed ownership of effective risk practices within Institutional Markets & Services

Mr Hooper reiterated the guidance provided at the half year results announcement that IMS is expecting flat half on half earnings for the year to 30 September 2005, and potentially lower earnings in 2006 as capital is released from the business.

*Flat half on half earnings with potentially lower earnings in
2006 as the business is rebased*

IMS is also addressing the challenging external environment

<u>External Environment</u>	<u>Implication</u>
Strong market liquidity continues to put pressure on corporate lending yield	Reduce reliance on low ROE* lending Focus on cross-sell of high value add products
Increasing sophistication of retail and sub-institutional client segments	Increase breadth and sophistication of core product offerings
Changing legislative environment impacting Structured Finance business	Shift focus from asset side to both asset and liability sides of balance sheet Focus on establishment and growth of new businesses
Impact of low and stable interest rates on the trading environment	Build lower volatility income streams

Note: *ROE is Return on Equity
