## Section 1 Registrant's Business and Operations

### Item 1.01 Entry into a Material Definitive Agreement.

On May 19, 2006, Edison Mission Energy ( EME ) entered into a purchase agreement (the Purchase Agreement ) for the sale of \$500,000,000 aggregate principal amount of its 7.50% Senior Notes due 2013 (the Tranche A Notes ) and \$500,000,000 aggregate principal amount of its 7.75% Senior Notes due 2016 (the Tranche B Notes , and collectively with Tranche A Notes, the Notes ) to several initial purchasers (the Purchasers ). The closing of the Purchase Agreement is expected to occur on or about June 6, 2006, subject to customary closing conditions, including but not limited to the consummation of EME's tender offer and consent solicitation with respect to its outstanding 10% Senior Notes due August 15, 2008 and 9.875% Senior Notes due April 15, 2011.

The Purchase Agreement contains customary representations and warranties on the part of EME. The Purchase Agreement also contains customary indemnification and contribution provisions whereby EME and the Purchasers, severally and not jointly, have agreed to indemnify each other against certain liabilities or to contribute to payments which they may be required to make in that respect.

EME will pay interest on the Notes on June 15 and December 15 of each year, beginning on December 15, 2006. The Notes will be redeemable by EME at any time at a price equal to 100% of the principal amount of, plus accrued and unpaid interest on, the Notes plus a make-whole premium. The Tranche A Notes will mature on June 15, 2013, and the Tranche B Notes will mature on June 15, 2016.

The Notes will be EME's senior unsecured obligations and will rank equal in right of payment to all of EME's existing and future senior unsecured indebtedness, and will be senior to all of EME's future subordinated indebtedness. EME's secured debt and its other secured obligations will be effectively senior to the Notes to the extent of the value of the assets securing such debt or other obligations. None of EME's subsidiaries will guarantee the Notes and, as a result, all the existing and future liabilities of EME's subsidiaries will be effectively senior to the Notes.

The indenture that will govern the Notes, including any supplemental indentures, will contain affirmative and negative covenants and events of default. Upon the occurrence of an event of default (other than events of default due to certain events of bankruptcy, insolvency or reorganization), the trustee or the holders of not less than 25% in principal amount of the Notes outstanding may declare all outstanding Notes to be due and payable immediately.

Edgar Filing: EDISON MISSION ENERGY - Form 8-K

The Notes are being offered by the Purchasers only to qualified institutional buyers in accordance with Rule 144A under the Securities Act of 1933, and outside the United States in accordance with

Regulation S under the Securities Act. The Notes will not be registered under the Securities Act or the securities laws of any other jurisdiction. Unless they are so registered, the Notes may be offered and sold only in transactions that are exempt from registration under the Securities Act and the applicable securities laws of other jurisdictions. In connection with the closing of the Purchase Agreement, EME and the Purchasers will enter into a registration rights agreement, pursuant to which EME will agree to offer to exchange the Notes for a new issue of substantially identical notes registered under the Securities Act.

A copy of the press release issued on May 19, 2006, attached hereto as Exhibit 99.1 and announcing the pricing of the Notes, is incorporated herein by reference.
