## SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

---

### FORM 6-K

REPORT OF FOREIGN ISSUER

PURSUANT TO RULE 13A-16 OR 15D-16 OF

THE SECURITIES EXCHANGE ACT OF 1934

27 June 2007

## Australia and New Zealand Banking Group Limited

ACN 005 357 522

(Translation of registrant's name into English)

Level 6, 100 Queen Street Melbourne Victoria 3000 Australia

(Address of principal executive offices)

Indicate by check mark whether the registrant files or will file annual reports under cover of Form 20-F or Form 40-F.

Form 20-F:  X

Form 40-F  O

Indicate by check mark whether the registrant by furnishing the information contained in this Form is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes  O

No  X

If  Yes is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b):

This Form 6-K may contain certain forward-looking statements, including statements regarding (i) economic and financial forecasts, (ii) anticipated implementation of certain control systems and programs, (iii) the expected outcomes of legal proceedings and (iv) strategic priorities. Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties and other factors, many of which are beyond our control and which may cause actual results to differ materially from those expressed in the forward-looking statement contained in these forward-looking statements. For example, these forward-looking statements may be affected by movements in exchange rates and interest rates, general economic conditions, our ability to acquire or develop necessary technology, our ability to attract and retain qualified personnel, government regulation, the competitive environment and political and regulatory policies. There can be no assurance that actual outcomes will not differ materially from the forward-looking statements contained in the Form 6-K.

*Signatures*

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

**ALPHABETICAL INDEX**

This Results Announcement has been prepared for Australia and New Zealand Banking Group Limited (the Company) together with its subsidiaries which are variously described as ANZ, Group, ANZ Group, us, we or our.

All amounts are in Australian dollars unless otherwise stated. The Company has a formally constituted Audit Committee of the Board of Directors. This report was approved by resolution of a Committee of the Board of Directors on 26 April 2007.

When used in this Results Announcement the words estimate, project, intend, anticipate, believe, expect, should and similar expressions relate to ANZ and its management, are intended to identify forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. Such statements constitute forward-looking statements for the

## Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

purposes of the United States Private Securities Litigation Reform Act of 1995. ANZ does not undertake any obligation to publicly release the result of any revisions to these forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

| <b>Total Shareholder Return</b>  | <b>17.1</b>    | <b>%</b> |
| <b>Cash* Return on equity</b>    | <b>19.7</b>    | <b>%</b> |

**Business highlights\***

Revenue growth of 9.1%\* and continued frontline investment with 2,120 new FTEs

Result in Personal - revenue up 14.4%, profit up 21.6%

Institutional profit up 10.6%. Profit before provisions up 4.2%

Profit before provisions in New Zealand Businesses up 13.5% but offset by provisioning

Continued growth in customer acquisition in Australia and a successful turnaround in New Zealand

Achieved targeted revenue and productivity:

**Revenue growth 9.1%** (10.4% FX adjusted)

**Cost-Income ratio 44.3%** (down 1.5% from 45.8%, medium-term target 40%)

Provisioning rose but ended below expectations as a result of large recoveries late in the half

Adjusted Common Equity ratio middle of target range at 4.4%(2)

\* Adjusted for non-core items (including significant items, ANZ National Bank incremental integration costs and AIFRS mark to market of certain hedge gains/losses). Refer page 13 for a detailed reconciliation of GAAP figures to non-GAAP cash figures. Refer pages 11 to 12 for a discussion of why management believe measures of cash profit provide useful information to investors regarding ANZ's financial condition and results of operations

(1) Refer page 23

(2) Adjusted common equity is calculated as Tier 1 capital less preference shares at current rates and deductions from total capital. This measure is commonly used to assess the adequacy of common equity held

| <b>Cash profit(4),(5)</b>                                 | <b>1,936</b>                  | <b>1,856</b>                  | <b>1,731</b>                  | <b>4</b>                         | <b>% 12</b>                      | <b>%</b> |

(1) In the March 2007 half ANZ has classified the profit on sale of Esanda Fleetpartners of \$195 million (\$141 million after tax) as a significant item. In the March 2006 half ANZ classified the \$113 million (\$79 million after tax) settlement of the NHB insurance matter and the \$14 million settlement of a dispute with Lloyds TSB over the accounting treatment of certain items in the completion accounts for the acquisition of National Bank of New Zealand Limited (tax on settlement: \$nil) as significant items. ANZ excludes significant items to eliminate the distorting effect of one-off transactions on the results of its core business (refer page 11)

(2) The Group enters into economic hedges to manage its interest rate and foreign exchange risk. In the March 2007 half ANZ has classified \$28 million after tax (Sep 2006 half: \$21 million; Mar 2006 half: \$13 million) relating to economic hedging as a non-core item (tax impact \$13 million (Sep 2006 half: \$10 million; Mar 2006 half: \$5 million)). Included in this non-core amount is ineffectiveness arising from designated accounting hedges, any volatility arising from usage of the fair value option and approved classes of derivatives not designated in accounting hedge relationships but that are considered to be economic hedges. In addition, ANZ has classified a \$3 million loss after tax (Sep 2006 half: \$nil; Mar 2006 half: \$nil) relating to New Zealand revenue hedges that under the transitional provision of AASB 139 (AASB 2005-1) no longer qualify for hedge accounting from 1 October 2006 (tax impact \$1 million credit). ANZ excludes volatility associated with fair value movements on these transactions to provide a better indication of the core business performance (refer page 12)

## Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

(3) In the March 2006 half ANZ incurred \$26 million after tax from ANZ National Bank incremental integration costs. Tax on ANZ National Bank incremental integration costs was \$13 million. The integration program was completed in March 2006. ANZ National Bank incremental integration costs are excluded to better reflect the core cost base and assist analysis of the cost base following completion of the integration

(4) Refer page 13 for a reconciliation of cash profit to net profit

(5) Refer pages 11 to 12 for a discussion of why management believes measures of cash profit provide useful information to investors regarding ANZ's financial condition and results of operations

(1) Refer footnotes 1 to 5 on page 2

(2) EVATM refers to Economic Value Added, a measure of shareholder value. See page 25 for a reconciliation of EVATM to reported net profit, a discussion of EVATM and an explanation of its relevance as a performance measure

(3) Average ordinary shareholders' equity excludes minority interest and preference share dividend

(4) Dividend payout ratio is calculated using the proposed interim dividend as at 31 March 2007, the 30 September 2006 and 31 March 2006 dividends

(5) Represents dividends paid on Euro Hybrid issued on 13 December 2004

(1) Equals shareholders equity less preference share capital, minority interest and unamortised goodwill and other intangibles

(2) Adjusted common equity is calculated as Tier 1 capital, less Innovative Tier 1 capital instruments (converted at balance date spot rates), less transitional Tier 1 capital relief and deductions. This measure is commonly used to assess the adequacy of common equity held

(3) Excludes individual provision on unproductive facilities

(4) Includes minority interest

5

**Profit growth**

Profit increased 16% to \$2,102 million. Revenue increased 13% with growth in average interest earning assets offset by reduced margins (-5 basis points), higher fee income from volume growth and pricing initiatives, higher markets income and higher other income from equity accounting earnings and other investments. Operating expense growth of 9% reflected ongoing investment in the business. Provision for credit impairment increased 7% with growth in Personal and New Zealand offset by high recoveries in Institutional.

In Australia, profit increased 18% over the March 2006 half year with solid growth across all Personal businesses and higher Institutional revenue, primarily in Markets. Provision for credit impairment reduced with large recoveries during the March 2007 half.

Profit in New Zealand increased 19% (an increase of 24% in NZD terms) reflecting weaker Markets income and an increase in collective provision charge. Operating income increased 4% in NZD terms with lending growth of 11% partly offset by a decline in net interest margin of 9 basis points and lower revenue in Markets following the strong performance in the March 2006 half. Operating expense growth was contained to 2%.

Within Overseas Markets, profit in Asia and Pacific increased 35% and 7% respectively, driven by strong growth in the Institutional business in Singapore, higher equity accounting income in Asia and balance sheet growth in the Pacific. Profit in the UK and US decreased driven by reduced profit in non continuing businesses and repatriation of capital, partly offset by revenue growth in the March 2007 half with increased trading income in Markets.

(1) In the March 2007 half ANZ has classified the profit on sale of Esanda Fleetpartners of \$195 million (\$141 million after tax) as a significant item. In the March 2006 half ANZ classified the \$113 million (\$79 million after tax) settlement of the NHB insurance matter and the \$14 million settlement of a dispute with Lloyds TSB over the accounting treatment of certain items in the completion accounts for the

## Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

acquisition of National Bank of New Zealand Limited (tax on settlement: \$nil) as significant items. ANZ excludes significant items to eliminate the distorting effect of one-off transactions on the results of its core business (refer page 11)

*The Group enters into economic hedges to manage its interest rate and foreign exchange risk. In the March 2007 half ANZ has classified \$28 million after tax (Sep 2006 half: \$21 million; Mar 2006 half: \$13 million) relating to economic hedging as a non-core item (tax impact \$13 million (Sep 2006 half: \$10 million; Mar 2006 half: \$5 million)). Included in this non-core amount is ineffectiveness arising from designated accounting hedges, any volatility arising from usage of the fair value option and approved classes of derivatives not designated in accounting hedge relationships but that are considered to be economic hedges. In addition, ANZ has classified a \$3 million loss after tax (Sep 2006 half: \$nil; Mar 2006 half: \$nil) relating to New Zealand revenue hedges that under the transitional provision of AASB 139 (AASB 2005-1) no longer qualify for hedge accounting from 1 October 2006 (tax impact \$1 million credit). ANZ excludes volatility associated with fair value movements on these transactions to provide a better indication of the core business performance (refer page 12)*

*In the March 2006 half ANZ incurred \$26 million after tax from ANZ National Bank incremental integration costs. Tax on ANZ National Bank incremental integration costs was \$13 million. The integration program was completed in March 2006. ANZ National Bank incremental integration costs are excluded to better reflect the core cost base and assist analysis of the cost base following completion of the integration*

**Cash profit growth**

Cash profit increased 12% to \$1,936 million. Core(1) revenue increased 9% with growth in average interest earning assets offset by reduced margins (-5 basis points), higher fee income from volume growth and pricing initiatives, higher markets income and higher other income from equity accounting earnings and other investments. Operating expense growth of 6% reflected ongoing investment in the business. Provision for credit impairment increased 7% with growth in Personal and New Zealand offset by high recoveries in Institutional.

In Australia, cash profit increased 19% over the March 2006 half year with solid growth across all Personal businesses and higher Institutional revenue, primarily in Markets. Provision for credit impairment reduced with large recoveries during the March 2007 half.

Cash profit in New Zealand decreased 2% (an increase of 2% in NZD terms) reflecting weaker Markets income and an increase in collective provision charge. Operating income increased 4% in NZD terms with lending growth of 11% partly offset by a decline in net interest margin of 9 basis points and lower revenue in Markets following the strong performance in the March 2006 half. Operating expense growth was contained to 2%.

Within Overseas Markets, cash profit in Asia and Pacific increased 40% and 7% respectively, driven by strong growth in the Institutional business in Singapore, higher equity accounting income in Asia and balance sheet growth in the Pacific. Cash profit in the UK and US decreased driven by reduced profit in non continuing businesses and repatriation of capital, partly offset by revenue growth in the March 2007 half with increased trading income in Markets.

(1) Refer to footnotes 1 to 3 on page 2

(3) Refer pages 11 to 12 for a discussion of why management believes measures of cash profit provide useful information to investors regarding ANZ's financial condition and results of operations

## Profit drivers

Profit after tax increased 16% over the March 2006 half year and Cash(1) profit increased 12% over the March 2006 half year. For a discussion of the impact of non-core items refer pages 11 to 12. Key influences on profit are shown below.

### **Net interest $\uparrow$ 7% - Adjusted for non-core items(1), (2) $\uparrow$ 7%:**

Net interest income was driven by growth of 10% in average interest earning assets (11% excluding the impact of exchange rates) with strong growth in New Zealand (9%, or 13% excluding exchange rate impact) and Personal (12%). Average deposits and other borrowings grew 6% (8% excluding exchange rates) following strong growth in Institutional (14%), Personal (11%) and New Zealand (1%, or 5% excluding exchange rates). Volume growth was offset by a 5 basis point decline in margin, primarily from competitive pressures.

### **Other income $\uparrow$ 26% - Adjusted for non-core items(1), (2) $\uparrow$ 13%:**

Adjusted for non-core items, other income growth was underpinned by volume growth initiatives, strong Markets income and increased equity accounting income and a \$27 million profit on the sale of MasterCard shares.

### **Operating expenses $\uparrow$ 9% - Adjusted for non-core items(1), (2) $\uparrow$ 6%:**

Operating expense growth was primarily due to annual salary increases and a 7% increase in staff numbers, largely in Personal and Institutional, as we continue to invest in the business.

### **Provision for credit impairment $\uparrow$ 7% - Adjusted for non-core items(1), (2) $\uparrow$ 7%:**

Individual provisions were unchanged with an increase in Personal due to higher provisions primarily in the Cards portfolio, offset by Institutional with lower provisions raised and higher recoveries. The collective provision charge increased by \$16 million driven largely by different trends in risk levels in New Zealand's ANZ Retail and strong volume growth in Corporate & Commercial and volume increases in Institutional, partially offset by a reduction in Personal from moderating portfolio growth in Consumer Finance.

### **Income tax $\uparrow$ 19% - Adjusted for non-core items(1) $\uparrow$ 14%:**

The increase in tax expense is driven by growth in profit before tax and an increase in the effective tax rate by 0.5% reflecting the run-off of certain structured finance transactions.

(2) Refer footnote 1 on page 9

10

---

**March 2007 half year compared to September 2006 half year**

The Group recorded a profit after tax of \$2,102 million for the half year ended 31 March 2007, an increase of 12% over the September 2006 half. Basic earnings per share increased 11% (11.6 cents) to 113.2 cents.

Cash profit(1) increased 4% over the September 2006 half which reflects seasonality in the halves and higher provisions for credit impairment. Cash earnings per share (refer page 24) increased 4% (3.7 cents) to 104.2 cents.

Operating income increased 8% assisted by the profit on sale of Esanda Fleetpartners. After adjusting for non-core items, operating income increased 4%. Net interest income increased 1%, impacted by a reduction in interest income on revenue hedges (\$50 million or -3 basis points) and lower net interest income on derivative transactions (\$35 million offset in other income). Average interest earning assets grew 6%, primarily in Personal and New Zealand, which was partially offset by a decline in net interest margin of 6 basis points (excluding the impact of revenue hedges). Other income increased 12% reflecting increased profit on trading instruments in Institutional, which includes unrealised gains which are partly offset in net interest income. Operating expense growth was contained to 2% following the strong growth in the September 2006 half.

(1) Refer footnotes 1 to 3 on page 9

**Non-core items**

In order to calculate cash profit, ANZ has adjusted the income statement for non-core items, as outlined below, to assist in understanding the core business performance by removing the volatility in reported results created by one-off significant items, ANZ National Bank incremental integration costs which ceased in the half year March 2006, and the timing differences in the recognition of fair value gains in profit on ineffective hedging contracts. Cash profit is a key performance measure used by the investment community and ANZ's Australian peers.

**Non-core items in the income statement**

• **Significant items**

Significant items in the income statement are those items that management believe do not form part of the core business by virtue of their magnitude and infrequent nature and, as such, should be removed from profit when analysing the core business performance. The following are considered significant items:

• Sale of Esanda Fleetpartners (March 2007 half year)

During the March 2007 half ANZ sold Esanda Fleetpartners, which had operations in Australia and New Zealand, to Nikko Principal Investments in Australia. Profit on disposal was \$195 million (\$141 million after tax) with \$128 million (\$74 million after tax) recognised in Australia and \$67 million (\$67 million after tax) recognised in New Zealand.

• Settlement of the NHB insurance claim (March 2006 half year)

## Edgar Filing: AUSTRALIA & NEW ZEALAND BANKING GROUP LTD - Form 6-K

During the March 2006 half ANZ settled its \$130 million claim against a number of reinsurers in relation to the National Housing Bank (NHB) matter. ANZ has reported the \$113 million (\$79 million after tax) cost recovery as a significant item in 2006. \$1 million was received in 2005 and not treated as significant as it was immaterial.

- Settlement of ANZ National Bank claims (March 2006 half year)

Following the purchase of National Bank of New Zealand Limited on 1 December 2003, a dispute arose with Lloyds TSB in relation to the accounting treatment in the Completion Accounts of the provision for retirement gratuities. The dispute was referred to arbitration and, as a result, ANZ National Bank received \$14 million in March 2006 (\$14 million after tax) in final settlement.

11

---

- **Volatility resulting from the application of hedge accounting**

The Group enters into economic hedges to manage its interest rate and foreign exchange risk. The implementation of AIFRS accounting policies on hedge accounting from 1 October 2005 (1 October 2006 in respect of hedges of NZD revenue) introduced volatility within the Income Statement in respect of ineffective hedges as follows:

- ineffectiveness of designated accounting cash flow and fair value hedges; and
- approved classes of derivatives not designated in accounting hedge relationships but that are considered to be economic hedges.

ANZ has separately reported the impact of volatility due to hedge ineffectiveness as a non-core item as the profit reported on hedge transactions is asymmetrical to the treatment of the hedged item and will reverse over time and as such is not part of the core operating performance. During the March 2007 half year ANZ has classified \$25 million after tax (Sep 2006 half: \$21 million; Mar 2006 half: \$13 million) relating to ineffective hedging and, from 1 October 2006, NZD revenue hedges as non core items (tax on hedges \$12 million (Sep half 2006: \$10 million; Mar 2006 half: \$5 million)).

|  | Half year<br>Mar 07<br>\$m | Half year<br>Sep 06<br>\$m | Half year<br>Mar 06<br>\$m |
|--|----------------------------|----------------------------|----------------------------|
| <b>Ineffective hedge fair value gains (income statement)</b>               |                            |                            |                            |
| Non-compliant hedges   | 40                         | 18                         | 27                         |
| NZD revenue hedges   | (5 )                       |                            |                            |
| Ineffective portion of effective cash flow and fair value hedges           | 2                          | 13                         | (9 )                       |
| Volatility resulting from the application of hedge accounting (before tax) | 37                         | 31                         | 18                         |
| Volatility resulting from the application of hedge accounting (after tax)  | 25                         | 21                         | 13                         |

On transition to AIFRS at 1 October 2005, the life to date impact of hedge ineffectiveness and economic hedges not designated in accounting hedge relationships was \$144 million (pre tax). This amount was taken directly to retained earnings as a loss.

|   | \$m    |
|---|--------|
| <b>Net unrealised loss (balance sheet)</b>  |        |
| As at 1 October 2005, transition to AIFRS   | (144 ) |
| Net volatility recorded in income statement |        |
| -half year ended 31 March 2006              | 18     |
| -half year ended 30 September 2006          | 31     |
| -half year ended 31 March 2007              | 37     |
| Net unrealised loss 31 March 2007           | (58 )  |

The net volatility recorded in the income statement represents the progressive reversal of the \$144 million loss on transition to AIFRS together with volatility arising on existing and new ineffective hedge transactions.

- **ANZ National Bank incremental integration costs**

Expenditure on the integration of ANZ National Bank, which was completed in March 2006, included both the reallocation of existing resources to integration and incremental integration costs. Incremental costs were those costs that did not recur once integration was completed and thus did not form part of the core ongoing cost base. During the March 2006 half year \$26 million after tax or \$39 million before tax of incremental integration costs was incurred.

**Reconciliation of net profit to cash profit**

The following table reconciles AIFRS values with fully comparable AIFRS values adjusted to exclude non core items.

- March 2007 half year compared to March 2006 half year**

Net interest income increased \$243 million (7%) over the March 2006 half.

**Volume**

Average interest earning assets increased \$29.1 billion (10%):

- Average net advances grew by \$24.4 billion (10%). Growth in net advances in Australia was attributable to: Personal (\$13.7 billion or 11%), with \$10.6 billion or 11% in Mortgages; Institutional Australia (\$5.1 billion or 10%), with \$2.0 billion or 14% in Business Banking, \$2.5 billion or 8% in Debt Product Group, \$0.3 billion or 10% in Trade and Transaction Services Australia; and Non-continuing Businesses (-\$0.5 billion). New Zealand's average net advances increased by \$5.0 billion or 8% (increased \$8.6 billion or 12% in NZD terms). Average net advances increased by \$1.1 billion (12%) in Overseas Markets.

- Other interest earning assets increased \$4.7 billion (8%), driven by higher levels of liquid assets (\$2.6 billion) and trading securities (\$2.2 billion).

Average deposits and other borrowings grew \$12.3 billion or 6%. Growth in Australia was attributable to: Personal (\$6.2 billion or 11%), with \$4.6 billion or 13% in Banking Products and \$0.9 billion or 18% in Regional, Rural and Small Business Banking; Institutional Australia (\$6.1 billion or 16%), with \$5.7 billion or 28% in Trade and Transaction Services Australia; and \$2.9 billion or 15% in Treasury. Average deposits and other borrowings increased in New Zealand \$1.8 billion or 3% (increased \$4.5 billion or 7% in NZD terms comprising core deposits growth of 10%, partially offset by a decrease in Treasury Certificates of Deposit and Commercial Paper due to a switch to longer term funding). Average deposits and other borrowings decreased (\$4.8 billion or 20%) in Overseas Markets including an exchange rate impact of -\$0.6 billion.

**Margin**

Net interest margin decreased 5 basis points from the March 2006 half:

- Funding mix (+1 basis point)

Margins were assisted by substitution of customer deposits for wholesale funding (+1 basis point) and a small increase in the proportion of free funds.

- Asset mix (-2 basis points)

Reduction in margin was due to an increase in the proportion of lower yielding liquid assets and trading securities in Group Treasury and Markets (-2 basis points).

- Competition (-7 basis points)

Competitive pressures reduced margins, mainly in Australian and New Zealand Mortgages (-2 basis points), Institutional lending (-2 basis points) and leasing businesses (-1 basis point). In addition, migration to high yielding customer deposits and lower rate credit cards reduced margins (-2 basis points).

- Wholesale rates (+2 basis points)

Increased income on the investment of capital and rate insensitive deposits (+3 basis points) partially offset by a reduction in basis risk on variable rate mortgages and credit cards (-1 basis point).

- Other items (+1 basis point) include:

- Lower funding costs associated with unrealised trading gains (+2 basis points), however this is directly offset by an equivalent decrease in trading income.

- Reduced effective yield fee income (-2 basis points).

- Benefits from customer prepayment behaviour in New Zealand (+1 basis point).

14

---

- **March 2007 half year compared to September 2006 half year**

Net interest income at \$3,611 million was 1% (\$36 million) higher than the September 2006 half.

**Volume**

Average interest earning assets increased \$17.5 billion (6%):

- Average net advances grew by \$15.0 billion (6%). Growth in Australia was attributable to: Personal (\$6.2 billion or 5%), with \$4.8 billion or 5% in Mortgages; Institutional Australia (\$2.3 billion or 4%) with \$0.7 billion or 5% in Business Banking, \$1.3 billion or 4% in Debt Product Group; and Non-continuing Businesses (-\$0.2 billion). New Zealand's average net advances increased by \$6.5 billion or 10% (NZD3.4 billion or 5% in NZD terms). Average net advances grew by \$0.2 billion (3%) in Overseas Markets.
- Other interest earning assets increased \$2.5 billion (4%), driven by higher levels of liquid assets (\$1.5 billion), trading securities (\$0.1 billion), available-for-sale assets and interbank lending (\$1.3 billion).

Average deposits and other borrowings grew \$6.2 billion or 3%. Growth in Australia was attributable to: Personal (\$3.3 billion or 5%), with \$2.8 billion or 8% in Banking Products and \$0.6 billion or 12% in Regional, Rural and Small Business Banking; and Institutional Australia (\$3.5 billion or 9%) with \$4.1 billion or 19% in Trade & Transaction Services Australia; and -\$1.1 billion or 5% in Treasury. Average deposits and other borrowings increased in New Zealand \$4.8 billion or 9% (NZD2.3 billion increase or 4% in NZD terms). Average deposits and other borrowings decreased \$4.3 billion (18%) in Overseas Markets, with exchange rate impacts -\$0.6 billion.

**Margin**

Net interest margin was down 9 basis points to 2.24% from the September 2006 half:

- Funding mix (+1 basis point)

Margins were assisted by substitution of customer deposits for wholesale funding (+1 basis point) and a small increase in proportions of free funds.

- Asset mix (-2 basis points)

Reduction in margin was due to an increase in the proportion of lower yielding liquid assets and trading securities in Group Treasury and Markets (-2 basis points).

- Competition (-4 basis points)

Competitive pressures reduced margins, mainly in Australian and New Zealand Mortgages (-2 basis points) and Institutional lending (-1 basis point). In addition, margins have reduced given migration into high yielding customer deposits (-1 basis point).

- Wholesale rates (+2 basis points)

Wholesale rate movements benefited margins through increases in earnings on the investment of capital and rate insensitive deposits (+2 basis points) partially offset by increased basis risk on variable rate mortgages and credit cards.

- Other items (-6 basis points) include:

- Foreign exchange revenue hedging no longer classified as interest income (-3 basis points or \$50 million).

- Higher funding costs associated with unrealised trading gains (-2 basis points), however this is directly offset by an equivalent increase in trading income.
- Interest received on tax refunds in the prior period (-2 basis points).
- Benefits from customer prepayment behaviour in New Zealand (+1 basis point).
- Other impacts include reduced effective yield fee income, increases in the proportion of retail broker payments, a decrease in the proportion of credit card balances earning interest and impacts from non-continuing businesses.
