**BROOKLINE BANCORP, INC. AND SUBSIDIARIES****Notes to Consolidated Financial Statements****Three Months Ended March 31, 2008 and 2007****(Unaudited)****(1) Summary of Significant Accounting Policies and Related Matters (Dollars in thousands except per share amounts)***Basis of Presentation*

The consolidated financial statements include the accounts of Brookline Bancorp, Inc. (the Company) and its wholly owned subsidiaries, Brookline Bank ( Brookline ) and Brookline Securities Corp. Brookline includes the accounts of its wholly owned subsidiary, BBS Investment Corporation, and its 86.0% (86.3% at December 31, 2007) owned subsidiary, Eastern Funding LLC.

The Company operates as one reportable segment for financial reporting purposes. All significant intercompany transactions and balances are eliminated in consolidation. Certain amounts previously reported have been reclassified to conform to the current year's presentation.

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles ( GAAP ) for interim financial information and the instructions for Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting only of normal recurring accruals) necessary for a fair presentation have been included. Results for the three months ended March 31, 2008 are not necessarily indicative of the results that may be expected for the year ending December 31, 2008.

**(2) Investment Securities (Dollars in thousands)**

Securities available for sale and held to maturity are summarized below:

	March 31, 2008			
	Amortized cost	Gross unrealized gains	Gross unrealized losses	Estimated fair value

Commercial real estate	403,550	381,300
Construction and development	26,137	26,807
Home equity	34,524	35,110

Edgar Filing: BROOKLINE BANCORP INC - Form 10-Q

Second	25,864	23,878
Total mortgage loans	1,125,298	1,094,349
Indirect automobile loans	591,065	594,332
Commercial loans Eastern	144,557	141,675
Other commercial loans	163,664	154,442
Other consumer loans	3,870	3,909
Total gross loans	2,028,454	1,988,707
Unadvanced funds on loans	(114,160)	(114,651)
Deferred loan origination costs:		
Indirect automobile loans	15,560	15,445
Commercial loans Eastern	802	824
Other	667	571
Total loans	\$ 1,931,323	\$ 1,890,896

**BROOKLINE BANCORP, INC. AND SUBSIDIARIES****Notes to Consolidated Financial Statements****Three Months Ended March 31, 2008 and 2007****(Unaudited)****(4) Allowance for Loan Losses (Dollars in thousands)**

An analysis of the allowance for loan losses for the periods indicated follows:

		<b>Three month ended March 31,</b>	
	<b>2008</b>		<b>2007</b>
Balance at beginning of period	\$	24,445	\$ 23,024
Provision for loan losses		2,088	1,228
Charge-offs		(1,788)	(1,304)
Recoveries		196	149
Balance at end of period	\$	24,941	\$ 23,097

During the three months ended March 31, 2008 and 2007, the liability for unfunded credit commitments was increased by charges to the provision for credit losses of \$26 and \$21, respectively. The liability, which is included in other liabilities, was \$1,513 at March 31, 2008 and \$1,487 at December 31, 2007.

**(5) Deposits (Dollars in thousands)**

A summary of deposits follows:

		<b>March 31, 2008</b>		<b>December 31, 2007</b>
Demand checking accounts	\$	66,595	\$	66,538
NOW accounts		86,359		84,875
Savings accounts		68,930		67,351
Guaranteed savings accounts		18,919		19,799
Money market savings accounts		230,705		215,387
Retail certificate of deposit accounts		839,737		796,387
Total retail deposits		1,311,245		1,250,337
Brokered certificates of deposit		67,904		67,904
Total deposits	\$	1,379,149	\$	1,318,241

(6) **Accumulated Other Comprehensive Income (Dollars in thousands)**

Accumulated other comprehensive income at March 31, 2008 was comprised of unrealized gains on securities available for sale, net of income taxes, of \$1,732 and an unrealized gain related to postretirement benefits, net of income taxes, of \$242. Accumulated other comprehensive income at December 31, 2007 was comprised of an unrealized loss on securities available for sale, net of income taxes, of \$121 and an unrealized gain related to postretirement benefits, net of income taxes, of \$242. At March 31, 2008 and December 31, 2007, the resulting net income tax liability, amounted to \$1,103 and \$83, respectively.

(7) **Commitments and Contingencies (Dollars in thousands)**

*Loan Commitments*

At March 31, 2008, the Company had outstanding commitments to originate loans of \$56,993, \$12,017 of which were one-to-four family mortgage loans, \$22,690 were commercial real estate mortgage loans, \$11,930 were multi-family mortgage loans, \$2,950 were commercial loans to condominium associations and \$7,406 were commercial loans. Unused lines of credit available to customers were \$54,628, of which \$48,825 were equity lines of credit.

*Legal Proceedings*

On February 21, 2007, Carrie E. Mosca filed a putative class action complaint against Brookline Bank in the Superior

**BROOKLINE BANCORP, INC. AND SUBSIDIARIES**

**Notes to Consolidated Financial Statements**

**Three Months Ended March 31, 2008 and 2007**

**(Unaudited)**

Court for the Commonwealth of Massachusetts (the Action). Ms. Mosca defaulted on a loan obligation on an automobile that she co-owned. She alleges that the form of notice of sale of collateral that the Bank sent to her after she and the co-owner became delinquent on the loan obligation did not contain information required to be provided to a consumer under the Massachusetts Uniform Commercial Code. The Action purports to be brought on behalf of a class of individuals to whom the Bank sent the same form of notice in connection with transactions documented as consumer transactions during the four year period prior to the filing of the Action. The Action seeks statutory damages, an order restraining the Bank from future use of the form of notice sent to Ms. Mosca, an order barring the Bank from recovering any deficiency from other individuals to whom it sent the same form of notice, attorneys' fees, litigation expenses and costs. The amount of potential damages, if any, will depend upon whether a class action is certified, the size of the class and the measure of damages decided upon by the court. The Bank is defending the Action vigorously. The parties have engaged in discovery related to the issue of class certification. The Company is unable at this time to form an estimate of the loss, if any, that may arise from this matter.

In addition to the above matter, the Company and its subsidiaries are involved in litigation that is considered incidental to the business of the Company. Management believes the results of such litigation will be immaterial to the consolidated financial condition or results of operations of the Company.

**(8) Dividend Declaration**

On April 17, 2008, the Board of Directors of the Company approved and declared a regular quarterly cash dividend of \$0.085 per share payable on May 15, 2008 to stockholders of record on April 30, 2008.

**(9) Share-Based Payment Arrangements (Dollars in thousands, except per share amounts)**

*Recognition and Retention Plans*

The Company has two recognition and retention plans, the 1999 RRP and the 2003 RRP. Under both of the plans, shares of the Company's common stock were reserved for issuance as restricted stock awards to officers, employees and non-employee directors of the Company. Shares issued upon vesting may be either authorized but unissued shares or reacquired shares held by the Company as treasury shares. Any shares not issued because vesting requirements are not met will again be available for issuance under the plans. Shares awarded vest over varying time periods ranging from six months up to eight years for the 1999 RRP and from less than three months to over five years for the 2003 RRP. In the event a recipient ceases to maintain continuous service with the Company by reason of normal retirement (applicable to the 1999 RRP and in part to the 2003 RRP), death or disability, or following a change in control, RRP shares still subject to restriction will vest and be free of such restrictions.

Total expense for the RRP plans amounted to \$534 and \$628 for the three months ended March 31, 2008 and 2007, respectively. The compensation cost of non-vested RRP shares at March 31, 2008 is expected to be charged to expense as follows: \$1,601 during the nine month period ended December 31, 2008 and \$143 during the year ended December 31, 2009. As of March 31, 2008, the number of shares available for award under the 1999 RRP and the 2003 RRP were 29,774 shares and 131,960 shares, respectively.

*Stock Option Plans*

The Company has two stock option plans, the 1999 Option Plan and the 2003 Option Plan. Under both of the plans, shares of the Company's common stock were reserved for issuance to directors, employees and non-employee directors of the Company. Shares issued upon the exercise of a stock option may be either authorized but unissued shares or reacquired shares held by the Company as treasury shares. Any shares subject to an award which expire or are terminated unexercised will again be available for issuance under the plans. The exercise price of options awarded is the fair market value of the common stock of the Company on the date the award is made. Options vest over periods ranging from less than one month through over five years and certain of the options include a reload feature whereby an optionee exercising an option by delivery of shares of common stock would automatically be granted an additional option at the fair market value of stock when such additional option is granted equal to the number of shares so delivered. If an individual to whom a stock option was granted ceases to maintain continuous service by reason of normal retirement, death or disability, or following a change in control, all options and rights granted and not fully exercisable become exercisable in full upon the happening of such an event and shall remain exercisable for a period ranging from three months to five years.

**BROOKLINE BANCORP, INC. AND SUBSIDIARIES**

**Notes to Consolidated Financial Statements**

**Three Months Ended March 31, 2008 and 2007**

**(Unaudited)**

Total expense for the stock option plans amounted to \$59 and \$1 for the three months ended March 31, 2008 and 2007, respectively.

Activity under the Company's stock option plans for the three months ended March 31, 2008 was as follows:

Options outstanding at January 1, 2008	2,722,960
Options exercised at \$4.944 per option	(391,218)
Reload options granted at \$9.19 per option	130,518
Options forfeited at \$12.91 per share	(40,000)
Options outstanding at March 31, 2008	2,422,260
Exercisable at March 31, 2008 at:	
\$ 4.944 per share	858,079
\$ 9.19 per share	130,518
\$ 10.36 per share	28,717
\$ 10.59 per share	23,861
\$ 10.69 per share	46,249
\$ 10.87 per share	56,836
\$ 12.91 per share	1,000
\$ 15.02 per share	1,273,000
	2,418,260
Aggregate intrinsic value of options outstanding and exercisable	\$ 6,032
Weighted average exercise price per option	\$ 10.85
Weighted average remaining contractual life in years at end of period	3.52

As of March 31, 2008, the number of options available for award under the Company's 1999 Stock Option Plan and 2003 Stock Option Plan were 285,980 options and 1,222,000 options, respectively.

*Employee Stock Ownership Plan*

The Company maintains an ESOP to provide eligible employees the opportunity to own Company stock. Employees are eligible to participate in the Plan after reaching age twenty-one, completion of one year of service and working at least one thousand hours of consecutive service during the year. Contributions are allocated to eligible participants on the basis of compensation, subject to federal tax law limits.

A loan obtained by the ESOP from the Company to purchase Company common stock is payable in quarterly installments over 30 years and bears interest at 8.50% per annum. The loan can be prepaid without penalty. Loan payments are principally funded by cash contributions from the Bank, subject to federal tax law limits. The outstanding balance of the loan at March 31, 2008 and December 31, 2007, which was \$3,689 and \$3,752, respectively, is eliminated in consolidation.

Shares used as collateral to secure the loan are released and available for allocation to eligible employees as the principal and interest on the loan is paid. Employees vest in their ESOP account at a rate of 20% annually commencing in the year of completion of three years of credited service or immediately if service is terminated due to death, retirement, disability or change in control. Dividends on released shares are credited to the participants' ESOP accounts. Dividends on unallocated shares are generally applied towards payment of the loan. ESOP shares committed to be released are considered outstanding in determining earnings per share.

At March 31, 2008, the ESOP held 561,921 unallocated shares at an aggregate cost of \$3,064; the market value of such shares at that date was \$6,451. For the three months ended March 31, 2008 and 2007, \$131 and \$175, respectively, was charged to compensation expense based on the commitment to release to eligible employees 13,053 shares and 13,527 shares in those respective periods.

**BROOKLINE BANCORP, INC. AND SUBSIDIARIES****Notes to Consolidated Financial Statements****Three Months Ended March 31, 2008 and 2007****(Unaudited)****(10) Postretirement Benefits (Dollars in thousands)**

Postretirement benefits are provided for part of the annual expense of health insurance premiums for retired employees and their dependents. No contributions are made by the Company to invest in assets allocated for the purpose of funding this benefit obligation.

The following table provides the components of net periodic postretirement benefit costs for the three months ended March 31, 2008 and 2007:

	2008	2007
Service cost	\$ 18	\$ 14
Interest cost	13	11
Prior service cost	(6)	(7)
Actuarial (gain) loss	(1)	5
Net periodic benefit costs	\$ 24	\$ 23

Benefits paid amounted to \$3 and \$4 for the three months ended March 31, 2008 and 2007, respectively.

**(11) Stockholders' Equity (Dollars in thousands)***Capital Distributions and Restrictions Thereon*

OTS regulations impose limitations on all capital distributions by savings institutions. Capital distributions include cash dividends, payments to repurchase or otherwise acquire the institution's shares, payments to shareholders of another institution in a cash-out merger and other distributions charged against capital. The regulations establish three tiers of institutions. An institution, such as the Bank, that exceeds all capital requirements before and after a proposed capital distribution ( Tier 1 institution ) may, after prior notice but without the approval of the OTS, make capital distributions during a year up to 100% of its current year net income plus its retained net income for the preceding two years not previously distributed. Any additional capital distributions require OTS approval.

*Common Stock Repurchases*

During the 2008 first quarter, 40,100 shares of the Company's common stock were repurchased at an average cost of \$9.29, including transaction costs.

As of March 31, 2008, the Company was authorized to repurchase up to 4,804,410 shares of its common stock. The Board of Directors has delegated to the discretion of the Company's senior management the authority to determine the timing of the repurchases and the prices at which the repurchases will be made.

*Restricted Retained Earnings*

As part of the stock offering in 2002 and as required by regulation, Brookline Bank established a liquidation account for the benefit of eligible account holders and supplemental eligible account holders who maintain their deposit accounts at Brookline Bank after the stock offering. In the unlikely event of a complete liquidation of Brookline Bank (and only in that event), eligible depositors who continue to maintain deposit accounts at Brookline Bank would be entitled to receive a distribution from the liquidation account. Accordingly, retained earnings of the Company are deemed to be restricted up to the balance of the liquidation account. The liquidation account balance is reduced annually to the extent that eligible depositors have reduced their qualifying deposits as of each anniversary date. Subsequent increases in deposit account balances do not restore an account holder's interest in the liquidation account. The liquidation account totaled \$33,151 at December 31, 2007.

(12) **Fair Value Disclosures (Dollars in thousands)**

Effective January 1, 2008, the Company adopted *Statement of Financial Accounting Standards No. 157* ( *SFAS 157* ), *Fair Value Measurements* , which provides a framework for measuring fair value under U.S. generally accepted

**BROOKLINE BANCORP, INC. AND SUBSIDIARIES****Notes to Consolidated Financial Statements****Three Months Ended March 31, 2008 and 2007****(Unaudited)**

accounting principles. SFAS 157 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. In addition, SFAS 157 specifies a hierarchy of valuation techniques based on whether the inputs to those techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's market assumptions. These two types of inputs have the following fair value hierarchy:

- Level 1 - Quoted prices for identical instruments in active markets
- Level 2 - Quoted prices for similar instruments in active or non-active markets and model-derived valuations in which all significant inputs and value drivers are observable in active markets
- Level 3 - Valuation derived from significant unobservable inputs

The Company uses fair value measurements to record certain assets at fair value on a recurring basis. Additionally, the Company may be required to record at fair value other assets on a nonrecurring basis. These nonrecurring fair value adjustments typically involve the application of lower-of-cost-or market value accounting or write-downs of individual assets. In accordance with *Financial Accounting Standards Board ( FASB ) Staff Position No. 157-2, Effective Date of FASB Statement No. 157* , we have delayed the application of SFAS 157 for nonfinancial assets, such as goodwill and real property held for sale, and nonfinancial liabilities until January 1, 2009.

The only assets of the Company recorded at fair value on a recurring basis at March 31, 2008 were securities available for sale. The following table presents the level of valuation assumptions used to determine the fair value of such securities:

	Carrying Value			Total
	Level 1	Level 2	Level 3	
Securities available for sale	\$ 657	\$ 328,841	\$ 10,775	\$ 340,273

The securities comprising the balance at March 31, 2008 in the level 3 column included \$9,775 of auction rate municipal obligations, a \$500 obligation of a foreign country maturing September 30, 2008 and a \$500 trust preferred obligation issued by a financial institution, all of which lacked quoted prices in active markets. In the judgment of management, the fair value of these securities was considered to approximate their carrying value because they were deemed to be fully collectible and the rates paid on the securities were at least equal to rates paid on securities with similar maturities. While it is possible that unrealized depreciation may have existed at March 31, 2008 with respect to the auction rate municipal obligations, such unrealized depreciation, if any, would be immaterial to the Company's consolidated financial statements as of and for the three months ended March 31, 2008 and would not be considered as other-than-temporary in nature.

The following table presents the level of valuation assumptions used by the Company to determine assets recorded at fair value on a nonrecurring basis at March 31, 2008:

Edgar Filing: BROOKLINE BANCORP INC - Form 10-Q

	Carrying Value			Total
	Level 1	Level 2	Level 3	
Repossessed vehicles	\$	\$	\$ 1,175	\$ 1,175
Repossessed equipment			589	589
Other real estate owned			477	477
Total assets at fair value on a nonrecurring basis	\$	\$	\$ 2,241	\$ 2,241

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations****Forward Looking Statements**

The Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for forward-looking statements made by or on behalf of the Company.

The following discussion contains forward-looking statements based on management's current expectations regarding economic, legislative and regulatory issues that may impact the Company's earnings and financial condition in the future. Any statements contained herein that are not statements of historical fact may be deemed to be forward-looking statements. Any statements included herein preceded by, followed by or which include the words "may", "could", "should", "will", "would", "believe", "expect", "anticipate", "estimate", "intend", "plan", "assume" or similar words constitute forward-looking statements.

Forward-looking statements, implicitly and explicitly, include assumptions underlying the statements. While the Company believes the expectations reflected in its forward-looking statements are reasonable, the statements involve risks and uncertainties that are subject to change based on various factors, some of which are outside the control of the Company. The following factors, among others, could cause the Company's actual performance to differ materially from the expectations, forecasts and projections expressed in the forward-looking statements: general and local economic conditions, changes in interest rates, demand for loans, real estate values, deposit flows, regulatory considerations, competition, technological developments, retention and recruitment of qualified personnel, and market acceptance of the Company's pricing, products and services.

**Executive Level Overview**

The following is a summary of operating and financial condition highlights as of and for the three months ended March 31, 2008 and 2007.

**Operating Highlights**

	Three months ended March 31,	
	2008	2007
	(In thousands except per share amounts)	
Net interest income	\$ 17,196	\$ 18,133
Provision for credit losses	2,114	1,249
Loss on write-down of securities	(1,249)	
Non-interest income	958	1,049
Amortization of identified intangible assets	438	503
Other non-interest expenses	9,865	9,327

Edgar Filing: BROOKLINE BANCORP INC - Form 10-Q

Income before income taxes		4,488		8,103
Provision for income taxes		1,748		3,118
Minority interest in earnings of subsidiary		46		44
Net income		2,694		4,941
Basic earnings per common share	\$	0.05	\$	0.08
Diluted earnings per common share		0.05		0.08
Interest rate spread		2.02%		2.11%
Net interest margin		2.96%		3.20%

**Financial Condition Highlights**

	At March 31, 2008	At December 31, 2007 (In thousands)	At March 31, 2007
Total assets	\$ 2,454,340	\$ 2,418,510	\$ 2,351,494
Net loans	1,906,382	1,866,451	1,783,956
Retail deposits	1,311,245	1,250,337	1,235,274
Brokered deposits	67,904	67,904	77,990
Borrowed funds and subordinated debt	540,134	555,023	442,651
Stockholders' equity	507,966	518,708	567,594
Stockholders' equity to total assets	20.70%	21.45%	24.14%
Allowance for loan losses	\$ 24,941	\$ 24,445	\$ 23,097
Non-performing assets	4,743	5,399	3,703

Among the factors that influenced the operating and financial condition highlights summarized above were the following:

- The interest rate environment.** Interest rate spread and net interest margin, both of which declined in the 2008 first quarter, were greatly influenced by the rate setting actions of the Federal Open Market Committee (the FOMC) of the Federal Reserve System. During the 2008 first quarter, the FOMC lowered the rate for overnight federal fund borrowings between banks three times from 4.25% to 2.25%. At April 30, 2008 the rate was reduced again to 2.00%. The rapidity of the rate reductions had an immediate negative effect on interest rate spread and net interest margin. Also contributing to the decline in net interest margin was the effect of foregone income resulting from the decline in stockholders' equity caused by stock repurchases and payments of extra dividends to stockholders. Expected future reductions in the rates paid on deposits and borrowed funds should result in an improvement in interest rate spread and net interest margin over the remainder of 2008. The extent of improvement will depend on how interest rates for loans, investments, deposits and borrowed fund are aligned in the market place.
- Higher provision for credit losses.** The provision for credit losses was \$865,000 higher in the 2008 first quarter than in the 2007 first quarter due primarily to rising charge-offs in the indirect automobile (auto) loan portfolio and growth in the mortgage and commercial loan portfolios.
- Loss on write-down of securities.** The carrying values of preferred stock of Merrill Lynch & Co., Inc. (Merrill) and the Federal National Mortgage Association (FNMA) acquired by the Company at a total cost of \$3,928,000 were written down by \$1,249,000 (\$801,000 on an after-tax basis) to an amount equal to the market price of the preferred stocks at March 31, 2008.
- Asset quality and stockholders' equity remained strong.** Non-performing assets (\$4,743,000) remained

insignificant equaling 0.19% of total assets at March 31, 2008. The allowance for loan losses (\$24.9 million) equaled 1.29% of total loans outstanding at March 31, 2008 and stockholders equity was \$508.0 million, resulting in an equity to assets ratio of 20.7% as of that date.

**Average Balances, Net Interest Income, Interest Rate Spread and Net Interest Margin**

The following table sets forth information about the Company's average balances, interest income and rates earned on average interest-earning assets, interest expense and rates paid on interest-bearing liabilities, interest rate spread and net interest margin for the three months ended March 31, 2008 and 2007. Average balances are derived from daily average balances and yields include fees and costs which are considered adjustments to yields.

	Three months ended March 31,					
	2008		2007		Average	
	Average balance	Interest (1)	Average yield/ cost (Dollars in thousands)	Average balance	Interest (1)	yield/ cost

Net interest income (tax equivalent basis)/interest rate spread (4)		17,308	2.02%		18,228	2.11%

Edgar Filing: BROOKLINE BANCORP INC - Form 10-Q

Less adjustment of tax exempt income		112		95
Net interest income	\$	17,196	\$	18,133
Net interest margin (5)			2.96%	3.20%

- 
- (1) Tax exempt income on equity securities and municipal bonds is included on a tax equivalent basis.
  - (2) Average balances include unrealized gains (losses) on securities available for sale. Equity securities include marketable equity securities (preferred and common stocks) and restricted equity securities.
  - (3) Loans on non-accrual status are included in average balances.
  - (4) Interest rate spread represents the difference between the yield on interest-earning assets and the cost of interest-bearing liabilities.
  - (5) Net interest margin represents net interest income (tax equivalent basis) divided by average interest-earning assets.

Highlights from the table on the preceding page follow.

- Interest rate spread, which was 2.11% in the 2007 first quarter and 2.12% in the 2007 fourth quarter, declined to 2.02% in the 2008 first quarter due primarily to reductions in the federal funds overnight borrowing rates initiated by the FOMC mentioned earlier herein. The rapidity of the rate reductions had an immediate negative effect on the yield of the Company's assets adjustable to market rates and those assets that either matured or were refinanced. The impact on rates paid on certificates of deposit and borrowed funds, however, was less rapid as many of those liabilities mature later on.
- The Company's mix of retail deposits continued to shift from lower rate transaction accounts to higher rate certificates of deposit. Certificates of deposit comprised 67.7% of the average balance of total retail deposits in the 2008 first quarter compared to 65.4% in the 2007 first quarter.
- In the 2008 first quarter, \$260 million of certificates of deposit and advances from the Federal Home Loan Bank of Boston ( FHLB ) with a weighted average rate of 4.67% matured while \$317 million of certificates of deposit and FHLB advances were added or rolled over in that time period at a weighted average rate of 3.61%. Significant improvement in the cost of funds is expected over the remainder of 2008 as \$370 million of retail certificates of deposit, brokered certificates of deposit and FHLB advances with a rated average rate of 4.69% mature in the 2008 second quarter, another \$414 million of similar liabilities with a weighted average rate of 4.59% mature in the 2008 third quarter and another \$150 million of similar liabilities with a weighted average rate of 4.46% mature in the 2008 fourth quarter. Reduced funding costs should result in higher interest rate spread and net interest margin over the remainder of 2008, provided market rates offered by competitors for deposits are aligned with interbank borrowing rates set by the FOMC.
- Net interest margin declined from 3.20% in the 2007 first quarter to 3.12% in the 2007 fourth quarter and 2.96% in the 2008 first quarter. The decline in those periods was due primarily to a \$62.3 million reduction in the average balance of stockholders' equity in the 2008 first quarter compared to 2007 first quarter. The reduction resulted from repurchases of the Company's common stock and payments to stockholders of extra dividends of \$0.20 per share in August 2007 and February 2008. Foregone interest income in the 2008 first quarter as a result of the reduction in stockholders' equity was approximately \$963,000 (\$560,000 on an after-tax basis).
- The average balance of total loans outstanding as a percent of the average balance of total interest-earning assets increased from 79.2% in the 2007 first quarter to 81.5% in the 2008 first quarter. Generally, the yield on loans is higher than the yield on investment securities.
- The average balance of interest-earning assets in the 2008 first quarter was \$60 million, or 2.6%, higher than in the 2007 first quarter. A \$43 million decline in investments was more than offset by a \$103 million (5.7%) increase in

loans (\$43 million in auto loans, \$37 million in commercial loans, \$14 million in Eastern Funding ( Eastern ) loans and \$11 million in mortgage loans).

- The average yield on interest-earning assets rose from 6.30% in the 2007 first quarter to 6.39% in the 2007 fourth quarter as a result of asset growth being concentrated in the auto loan portfolio and an increase in the yield earned on auto loans from 5.83% to 6.46% in those respective periods. In the 2008 first quarter, however, the average yield on interest-earning assets declined to 6.18% due primarily to the rapid rate reductions in the interbank borrowing rate mentioned earlier herein.

- The average balance of borrowings from the FHLB rose from \$455 million in the 2007 first quarter to \$532 million in the 2008 first quarter, as this was one of the sources used to fund loan growth and the repurchase of shares of the Company's common stock. The average rate paid on FHLB borrowings in those respective periods declined from 4.80% to 4.61%.

#### **Auto Loans**

The auto loan portfolio grew \$54 million, or 10.0% in 2007. In the 2007 fourth quarter, however, the portfolio declined by \$12 million and, in the 2008 first quarter, by another \$3 million to \$591 million at March 21, 2008. Due to rising delinquencies and charge-offs and in light of deteriorating economic conditions, the Company tightened its underwriting criteria in the second half of 2007. Such changes, coupled with weaker sales in the auto industry, caused the shrinkage in the auto loan portfolio. The Company expects further shrinkage in its auto loan portfolio during the next few quarters in a range similar to that experienced in the last two quarters. The extent and duration of shrinkage will depend on how the economy performs. At March 31, 2008, the weighted average credit score of all borrowers in the portfolio was 730 and the total amount owed by borrowers with credit scores below 660 at the time of loan origination equaled 11.0% of

the portfolio. Loans to borrowers with credit scores below 660 equaled 7.2% of loans originated in the 2007 fourth quarter and 7.9% in the 2008 first quarter.

Auto loan net charge-offs, which were \$3,989,000 (0.68% of average loans outstanding) in the year 2007, were \$1,462,000 (0.97% on an annualized basis) in the 2007 fourth quarter. At December 31, 2007, loans delinquent 30 days or more were \$11.7 million (1.97% of total loans outstanding) and repossessed vehicles amounted to \$1,621,000. While charge-offs, delinquencies and repossessed vehicles rose in the second half of 2007, experience improved in each of those areas in the 2008 first quarter. Net charge-offs declined to \$1,371,000 (0.93%), loans delinquent 30 days or more declined to \$9.0 million at March 31, 2008 (1.53%), and repossessed vehicles declined to \$1,175,000 at March 31, 2008.

### **Provision for Credit Losses**

The provision for credit losses was \$2,114,000 in the 2008 first quarter compared to \$1,249,000 in the 2007 first quarter and \$3,022,000 in the 2007 fourth quarter. The provision is comprised of amounts relating to the auto loan portfolio, equipment finance and small business loans originated by Eastern, the remainder of the Company's loan portfolio and unfunded commitments.

The provision for auto loan losses was \$1,546,000 in the 2008 first quarter compared to \$844,000 in the 2007 first quarter and \$2,462,000 in the 2007 fourth quarter. These amounts exceeded net charge-offs in those periods by \$175,000, \$77,000 and \$1,000,000, respectively. As a result of these factors and those addressed in the previous subsection, the allowance for loan losses related to the auto portfolio increased from \$4,254,000 at March 31, 2007 (0.76% of loans outstanding) to \$5,662,000 at the end of 2007 (0.95%) and \$5,837,000 at March 31, 2008 (0.99%).

The provision for Eastern loan losses was \$268,000 in the 2008 first quarter compared to \$381,000 in the 2007 first quarter and \$409,000 in the 2007 fourth quarter. Net charge-offs in those periods were \$220,000, \$391,000 and \$359,000, respectively. The annualized rate of net charge-offs in the 2008 first quarter, based on the average balance of loans outstanding, was 0.62% compared to a rate of 0.82% for the year 2007. Eastern loans delinquent 30 days or more improved from \$2,699,000 at December 31, 2007 (1.91% of loans outstanding) to \$2,520,000 at March 31, 2008 (1.74%). The allowance for Eastern loan losses at March 31, 2008 (\$2,475,000) equaled 1.71% of Eastern's \$145 million portfolio, the same percent that existed at December 31, 2007; the percent at March 31, 2007 was 1.80%.

The remainder of the Company's loan portfolio at March 31, 2008 was comprised primarily of residential, multi-family and commercial real estate mortgage loans (\$1.13 billion) and commercial loans (\$164 million) less unadvanced funds on those loans of \$114 million. Construction loans amounted to \$26 million. These parts of the portfolio, which grew by \$27 million in the year 2007, grew \$41 million in the 2008 first quarter. Lending opportunities improved due in part to turmoil experienced by larger participants in the mortgage market.

The provision for credit losses related to the portfolio addressed in the preceding paragraph and to unfunded commitments was \$300,000 in the 2008 first quarter compared to \$25,000 in the 2007 first quarter. The provisions were based on loan growth, as no mortgage loans or commercial loans were charged-off in those periods. (A \$40,000 charge to earnings occurred in the 2008 first quarter as a result of a write-down in the carrying value of a foreclosed property in the Company's portfolio.) Mortgage loans and commercial loans delinquent 30 days or more increased from \$1.1 million at December 31, 2007 to \$3.9 million at March 31, 2008 due primarily to the inclusion of two commercial real estate loans to one borrower totaling \$2.4 million. While those loans are considered adequately secured, the borrower is experiencing cash flow difficulties that might result in the loans being placed on non-accrual in the 2008 second quarter. At March 31, 2008, the allowance for loan losses related to the mortgage loan portfolio can easily absorb any loss that might arise should foreclosure become necessary to recover the amounts owed.

**Valuation of Investment Securities**

*Marketable Equity Securities*

In the second half of 2007, the Company purchased preferred stock issued by Merrill Lynch & Co., Inc. ( Merrill ) and the Federal National Mortgage Association ( FNMA ) at a total cost of \$3,928,000. The market value of the preferred stock issues declined in the fourth quarter of 2007 due primarily to announced losses incurred by Merrill and FNMA in connection with their involvement in the mortgage lending and mortgage securities markets. The magnitude of the losses prompted both Merrill and FNMA to raise additional capital. Further declines in the market value of the preferred stocks occurred in the 2008 first quarter as uncertainty grew regarding how much more in losses Merrill and FNMA might be required to announce and what consequences any such losses might have on their financial soundness. Based on these developments, the Company concluded that an other-than-temporary impairment in the value of the preferred stocks had occurred. As required by generally accepted accounting principles when impairment is determined to be other-than-temporary, a loss of \$1,249,000 was charged to earnings which equaled the entire difference between the cost of the preferred stock investments and their fair value at March 31, 2008. Fair value was based on the quoted market prices of the

preferred stocks on March 31, 2008. Recoveries, if any, in the fair value of the preferred stocks subsequent to March 31, 2008 may only be recognized through their sale.

Excluding the preferred stock issues referred to in the preceding paragraph, the Company's marketable equity securities portfolio included common stock issued by public utility companies and other financial institutions. The market value of such equity securities at March 31, 2008 was \$657,000, or \$122,000 in excess of their cost.

#### *Auction Rate Municipal Obligations*

Included in the Company's investment securities at March 31, 2008 were auction rate municipal obligations acquired at a total cost of \$9,775,000. The amount invested in such obligations at December 31, 2007 was \$13,050,000. The reduction of \$3,275,000 resulted from payments received from a debt issuer who called the obligations for full payment. Auction rate municipal obligations are debt securities issued by municipal, county and state entities that are repaid generally from revenue sources such as hospitals, transportation systems, student education loans and property taxes. The securities are not debt obligations of the issuing government entity. The obligations are variable rate securities with long-term maturities whose interest rates are set periodically through an auction process. The auction rate period typically ranges from 7 days to 35 days.

The auction rate municipal obligations owned by the Company were rated AAA at December 31, 2007 due, in part, to the guarantee of third party insurers who would have to pay the obligations if the issuers fail to pay the obligations when they become due. In the 2008 first quarter, public disclosures suggested that certain third party insurers were experiencing financial difficulties and, therefore, might have difficulty meeting their guarantee obligations should issuers fail to pay their contractual obligations. This possibility caused a lowering of the ratings of many auction rate municipal obligations which, in turn, lessened the interest of investors to own such obligations. On a stand-alone basis, that is, without the guarantee of a third-party insurer, all of the auction rate municipal obligations owned by the Company were rated A or better, except for one issue amounting to \$600,000 that did not have a stand-alone rating.

In February 2008, auctions relating to some of the obligations owned by the Company failed to attract a sufficient number of investors. Similar failures occurred in the auctions relating to many other obligations in which the Company was not an owner. Upon a failure in the auction process, generally the obligations become subject to a penalty imposing a significant rise in the interest rate to be paid on the obligation. The auction failures effectively created a liquidity problem for those investors who were relying on the obligations to be redeemable in cash through the auctions. Continued auction failures can result in an investment that investors expected to be of relatively short duration becoming an investment with a long-term duration.

The Company has consistently classified its investments in auction rate municipal obligations as available for sale. At financial reporting dates, market value was considered to equal the face amount of the obligations since the frequent auctions provided the means to quickly sell the obligations at face value if the Company wished to do so. Prior to February 2008, there were no instances of failed auctions.

Full collectibility of the obligations has never been of concern to the Company. None of the issuers of the obligations owned by the Company have defaulted in meeting their scheduled payments. The obligations continue to maintain satisfactory investment grades. It is the opinion of Company management that, as of March 31, 2008, no other-than-temporary impairment in value has occurred. In April 2008, the Company received \$1,150,000 in payments as a result of issuers calling their obligations for redemption. An additional payment of \$925,000 is expected to be received in May 2008 as a result of a call for redemption by another issuer. After that payment, the remaining balance of auction rate municipal obligations owned by the Company will be \$7,700,000.

The recent failed auctions raise the question as to whether the fair value of the obligations as of March 31, 2008 is less than their face value. Based on the facts mentioned above, it is our belief that any diminution in value would be due to the lack of liquidity to dispose of the obligations rather than concern about credit deterioration. No secondary market has developed for obligations that have experienced failed auctions. Articles published in the Wall Street Journal in late March and early April stated that certain major brokerage firms were marking down the value of auction rate municipal obligations on their client statements while other major brokerage firms were maintaining the value of such obligations on client statements at face value. Other articles suggested that mark-downs ranging between 3% and 10% or higher, depending on the specific characteristics of the obligation involved, were being taken by certain investors in auction rate municipal obligations.

Based on an assessment of all the factors mentioned above plus the ample liquidity of the Company at March 31, 2008, management concluded that the fair value of the Company's auction rate municipal obligations approximated their face value. After considering payments received from called obligations subsequent to March 31, 2008 and the fact that the issuer of an additional \$2,000,000 of obligations owned by the Company has not experienced failed auctions, unrealized depreciation, if any, on the \$5,700,000 of remaining obligations would be insignificant to the Company's financial

statements. If a case were to be made that the fair value of the obligations was 10% less than their face value (an assumption which we do not believe is valid), the impact would be to reduce stockholders' equity by \$366,000 (\$570,000 less related income taxes), or less than one-tenth of one percent of stockholders' equity at March 31, 2008.

#### **Other Operating Highlights**

*Non-Interest Income.* Excluding the loss on the write-down of securities, non-interest income declined from \$1,049,000 in the 2007 first quarter to \$958,000 in the 2008 first quarter. There were no fees from the prepayment of mortgage loans in the 2008 first quarter whereas such fees amounted to \$127,000 in the 2007 first quarter. Deposit service fees rose from \$345,000 in the 2007 first quarter to \$449,000 in the 2008 first quarter due primarily to the introduction of a courtesy overdraft program.

*Non-Interest Expense.* Excluding amortization of intangible assets (\$438,000 in the 2008 first quarter compared to \$503,000 in the 2007 first quarter), non-interest expenses in the 2008 first quarter were \$9,865,000, or 5.8% higher than expenses in the 2007 first quarter. Equipment and data processing costs increased \$220,000 (14.9%) due in part to installation of a new branch automation system and additional communication lines for a new branch. Costs for loan collection and auto repossessions increased \$96,000 between the two first quarter periods. The 2008 first quarter also included a \$40,000 charge resulting from a write-down in the carrying value of a foreclosed property.

*Provision for Income Taxes.* The effective rate of income taxes applied to the Company's pre-tax income rose modestly from 38.5% in the 2007 first quarter to 38.9% in the 2008 first quarter.

#### **Other Financial Condition Highlights**

*Deposits.* Retail deposits at March 31, 2008 were \$60.9 million, or 4.9%, higher than at December 31, 2007. Of that growth, \$17.6 million was in transaction deposit accounts (mostly money market savings accounts) and \$43.3 million was in certificate of deposit accounts.

*Borrowed Funds.* Funds borrowed from the FHLB declined from \$548.0 million at December 31, 2007 to \$540.1 million at March 31, 2008. On February 15, 2008, the Company paid off \$7.0 million of subordinated debt on which the interest at the time of payoff was 8.12%.

*Stockholders' Equity.* Stockholders' equity declined from \$518.7 million at December 31, 2007 to \$508.0 million at March 31, 2008. The decline resulted primarily from dividend payments.

In addition to the payment of a regular quarterly dividend of \$0.085 per share, the Company paid an extra dividend of \$0.20 per share in February 2008. The extra dividend was the tenth time since August 2003 that such an extra dividend was paid. The aggregate amount of the extra dividends, over \$119 million or \$2.00 per share, represents a return of capital rather than a distribution of earnings. (For income tax purposes, such payments have had to be reported as taxable income). The payout of extra dividends semi-annually has been an effective means to reduce the Company's capital in a measured way and to treat all stockholders equally. While it is the intent of the Board of Directors to continue to return excess capital to stockholders, the decision to pay dividends and the magnitude of any payments will be considered in light of changing opportunities to deploy capital effectively, including the repurchase of the Company's common stock and expansion of the Company's business through acquisitions.

In March 2008, the Company repurchased 40,100 shares of its common stock at an average cost of \$9.24, excluding transaction costs. As of March 31, 2008, the Company was authorized to repurchase up to 4,804,410 shares of its common stock. The Board of Directors has delegated to the discretion of the Company's senior management the authority to determine the timing of any repurchases and the prices at which the repurchases will be made.

**Non-Performing Assets, Restructured Loans and Allowance for Loan Losses**

The following table sets forth information regarding non-performing assets, restructured loans and the allowance for loan losses:

	March 31, 2008	December 31, 2007
	(Dollars in thousands)	
<b>Non-accrual loans:</b>		
<b>Mortgage loans:</b>		
One-to-four family	\$ 40	\$ 29
Commercial loans Eastern	2,230	2,265
Indirect automobile loans	232	427
Other consumer loans		9
<b>Total non-accrual loans</b>	<b>2,502</b>	<b>2,730</b>
Repossessed vehicles	1,175	1,621
Repossessed equipment	589	531
Other real estate owned	477	517
<b>Total non-performing assets</b>	<b>\$ 4,743</b>	<b>\$ 5,399</b>
<b>Restructured loans</b>	<b>\$ 495</b>	<b>\$ 887</b>
<b>Allowance for loan losses</b>	<b>\$ 24,941</b>	<b>\$ 24,445</b>
Allowance for loan losses as a percent of total loans	1.29%	1.29%
Non-accrual loans as a percent of total loans	0.13%	0.14%
Non-performing assets as a percent of total assets	0.19%	0.22%

Loans are placed on non-accrual status either when reasonable doubt exists as to the full timely collection of interest and principal or automatically when loans become past due 90 days.

In addition to identifying non-performing loans, the Company identifies loans that are characterized as impaired pursuant to generally accepted accounting principles. The definition of impaired loans is not the same as the definition of non-accrual loans, although the two categories tend to overlap. All of the Eastern loans on non-accrual at March 31, 2008 and December 31, 2007 were considered to be impaired loans. Specific reserves on those loans amounted to \$830,000 and \$920,000 at those respective dates.

The reduction in the total of restructured loans at March 31, 2008 compared to December 31, 2007 resulted from the transfer of a loan to performing status as a result of payments received over several months in accordance with the terms of the restructuring.

The reduction in repossessed vehicles resulted from auction sales. The inventory of repossessed vehicles could rise if auto loan borrowers experience difficulties in meeting their payments on a timely basis. It should also be noted that sales of repossessed vehicles at auctions are resulting in much higher per unit losses. Due to the economy and rising fuel prices, the market for repossessed luxury vehicles and vehicles that are fuel-inefficient is weak. Accordingly, auto loan charge-offs could continue to be high over the remainder of 2008.

For further information about loan delinquencies and charge-offs, see the subsection "Provision for Loan Losses" included herein.

The unallocated portion of the allowance for loan losses was \$3.7 million, or 15.0%, of the total allowance for loan losses at March 31, 2008 compared to \$4.0 million, or 16.3%, of the total allowance for loan losses at December 31, 2007.

#### **Asset/Liability Management**

The Company's Asset/Liability Committee is responsible for managing interest rate risk and reviewing with the Board of Directors on a quarterly basis its activities and strategies, the effect of those strategies on the Company's operating results, the Company's interest rate risk position and the effect changes in interest rates would have on the Company's net interest income.

Generally, it is the Company's policy to reasonably match the rate sensitivity of its assets and liabilities. The interest rate sensitivity gap is defined as the difference between the amount of interest-earning assets maturing or repricing within a specific time period and the amount of interest-bearing liabilities maturing or repricing within the same time period.

At March 31, 2008, interest-earning assets maturing or repricing within one year amounted to \$996 million and interest-bearing liabilities maturing or repricing within one year amounted to \$1.293 billion, resulting in a cumulative one year negative gap position of \$297 million, or 12.1% of total assets. At December 31, 2007, the Company had a negative one year cumulative gap position of \$209 million, or 8.6% of total assets. The change in the cumulative one year gap position from the end of 2007 resulted primarily from a \$57 million reduction in short-term investments outstanding at March 31, 2008 compared to December 31, 2007.

### **Liquidity and Capital Resources**

The Company's primary sources of funds are deposits, principal and interest payments on loans and debt securities and borrowings from the FHLB. While maturities and scheduled amortization of loans and investments are predictable sources of funds, deposit flows and mortgage loan prepayments are greatly influenced by interest rate trends, economic conditions and competition.

Based on its monitoring of deposit trends and its current pricing strategy for deposits, management believes the Company will retain a large portion of its existing deposit base. Growth during the remainder of 2008 will depend on several factors, including the interest rate environment and competitor pricing.

The Company utilizes advances from the FHLB to fund growth and to manage part of the interest rate sensitivity of its assets and liabilities. Total advances outstanding at March 31, 2008 amounted to \$540.0 million and the Company had the capacity to increase that amount to \$716 million.

The Company's most liquid assets are cash and due from banks, short-term investments and debt securities that generally mature within 90 days. At March 31, 2008, such assets amounted to \$135.6 million, or 5.5% of total assets.

At March 31, 2008, Brookline Bank exceeded all regulatory capital requirements. The Bank's Tier I capital was \$420.8 million, or 17.7% of adjusted assets. The minimum required Tier I capital ratio is 4.00%.

### **Recent Accounting Pronouncements**

*Statement of Financial Accounting Standards No. 159 ( SFAS 159 ), Fair Value Option for Financial Assets and Financial Liabilities* . In February 2007, the FASB issued SFAS 159 which generally permits the measurement of selected eligible financial instruments, including investment securities, at fair value as of specified election dates and to report unrealized gains or losses on those instruments in earnings at each subsequent reporting date. Generally, the fair value option may be applied on an instrument by instrument basis but, once applied, the election is irrevocable and is applied to the entire instrument. The provisions of SFAS 159 were effective as of January 1, 2008. However, the Company has not elected the fair value option under SFAS 159.

*Statement of Financial Accounting Standards No. 141 (Revised 2007), Business Combinations ( SFAS 141R ) and Statement of Financial Accounting Standards No. 160, Noncontrolling Interests in Consolidated Financial Statements, an Amendment of ARB No. 51 ( SFAS 160 ).* In December 2007, the FASB issued SFAS 141R and SFAS 160. These statements require significant changes in the accounting and reporting for business acquisitions and the reporting of noncontrolling interests in subsidiaries. Among many changes under SFAS 141R, an acquirer will record 100% of all assets and liabilities at fair value for partial acquisitions, contingent consideration will be recognized at fair value at the acquisition date with changes possibly recognized in earnings, and acquisition related costs will be expensed rather than capitalized. SFAS 160 establishes new accounting and reporting standards for the noncontrolling interest in a subsidiary. Key changes under the standard are that noncontrolling interests in a subsidiary will be reported as part of equity, losses allocated to a noncontrolling interest can result in a deficit balance, and changes in ownership interests that do not result in a change of control are accounted for as equity transactions and, upon a loss of control, gain or loss is recognized and the remaining interest is remeasured at fair value on the date control is lost. SFAS 141R applies prospectively to business combinations for which the acquisition is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The effective date for applying SFAS 160 is also the first annual reporting period beginning on or after December 15, 2008. Adoption of these statements will affect the Company's accounting for any business acquisitions occurring after the effective date and the reporting of any noncontrolling interests in subsidiaries existing on or after the effective date.

### **Item 3. Quantitative and Qualitative Disclosures about Market Risks**

For a discussion of the Company's management of market risk exposure and quantitative information about market risk, see pages 15 through 17 of the Company's Annual Report incorporated by reference in Part II item 7A of Form 10-K for the fiscal year ending December 31, 2007.

#### **Item 4. Controls and Procedures**

Under the supervision and with the participation of the Company's management, including its chief executive officer and chief financial officer, the Company has evaluated the effectiveness of the design and operation of its disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this report. Based upon that evaluation, the chief executive officer and the chief financial officer concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures were effective to insure that information required to be disclosed in the reports that the Company files or submits under the Exchange Act is recorded, processed, summarized and reported within the time period specified in the SEC's rules and forms.

There has been no change in the Company's internal control over financial reporting identified in connection with the quarterly evaluation that occurred during the Company's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

#### **Part II - Other Information**

##### **Item 1. Legal Proceedings**

On February 21, 2007, Carrie E. Mosca filed a putative class action complaint against Brookline Bank in the Superior Court for the Commonwealth of Massachusetts (the "Action"). Ms. Mosca defaulted on a loan obligation on an automobile that she co-owned. She alleges that the form of notice of sale of collateral that the Bank sent to her after she and the co-owner became delinquent on the loan obligation did not contain information required to be provided to a consumer under the Massachusetts Uniform Commercial Code. The Action purports to be brought on behalf of a class of individuals to whom the Bank sent the same form of notice in connection with transactions documented as consumer transactions during the four year period prior to the filing of the Action. The Action seeks statutory damages, an order restraining the Bank from future use of the form of notice sent to Ms. Mosca, an order barring the Bank from recovering any deficiency from other individuals to whom it sent the same form of notice, attorneys' fees, litigation expenses and costs. The amount of potential damages, if any, will depend upon whether a class action is certified, the size of the class and the measure of damages decided upon by the court. The Bank is defending the Action vigorously. The parties have engaged in discovery related to the issue of class certification. The Company is unable at this time to form an estimate of the loss, if any, that may arise from this matter.

In addition to the above matter, the Company and its subsidiaries are involved in litigation that is considered incidental to the business of the Company. Management believes the results of such litigation will be immaterial to the consolidated financial condition or results of operations of the Company.

##### **Item 1A. Risk Factors**

There have been no material changes from the risk factors presented in the Company's Form 10-K for the year ended December 31, 2007 filed on February 28, 2008.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

a) Not applicable.

b) Not applicable.

c) The following table presents a summary of the Company's share repurchases during the quarter ended March 31, 2008.

Period	Total Number of Shares Purchased	Average Price Paid Per Share (1)	Total Number of Shares Purchased as Part of Publicly Announced Program (2) (3) (4)	Maximum Number of Shares that May Yet be Purchased Under the Program (2) (3) (4)
January 1 through February 29, 2008		\$		
March 1 through March 31, 2008	40,100	\$ 9.24	2,195,590	4,804,410

(1) Excludes transaction costs.

(2) On April 19, 2007, the Board of Directors approved a program to repurchase 2,500,000 shares of the Company's common stock. Prior to January 1, 2008, 2,155,490 shares authorized under this program had been repurchased. At March 31, 2008, 304,410 shares authorized under this program remained available for repurchase.

(3) On July 19, 2007, the Board of Directors approved another program to repurchase an additional 2,000,000 shares of the Company's common stock. At March 31, 2008, all of the 2,000,000 shares authorized under this program remained available for repurchase.

(4) On January 17, 2008, the Board of Directors approved another program to repurchase an additional 2,500,000 shares of the Company's common stock. At March 31, 2008, all of the 2,500,000 shares authorized under this program remained available for repurchase.

The Board of Directors has delegated to the discretion of the Company's senior management the authority to determine the timing of the repurchases and the prices at which the repurchases will be made.

### Item 3. Defaults Upon Senior Securities

Not applicable.

### Item 4. Submission of Matters to a Vote of Security Holders

None

**Item 5. Other Information**

Not applicable.

**Item 6. Exhibits**

*Exhibits*

Exhibit 11	Statement Regarding Computation of Per Share Earnings
Exhibit 31.1	Certification of Chief Executive Officer
Exhibit 31.2	Certification of Chief Financial Officer
