Note 1. Portfolio Valuation: Investments in securities that are listed on the New York Stock Exchange are valued, except as indicated below, at the last sale price reflected at the close of the New York Stock Exchange on the business day as of which such value is being determined. If there has been no sale on such day, the securities are valued at the mean of the closing bid and asked prices for the day or, if no asked price is available, at the bid price.

Securities not listed on the New York Stock Exchange but listed on other domestic or foreign securities exchanges or admitted to trading on the National Association of Securities Dealers Automated Quotations, Inc. (Nasdaq) national market system are valued in a similar manner. Securities traded on more than one securities exchange are valued at the last sale price on the business day as of which such value is being determined as reflected on the tape at the close of the exchange representing the principal market for such securities.

Readily marketable securities traded in the over-the-counter market, including listed securities whose primary market is believed by Cohen & Steers Capital Management, Inc. (the advisor) to be over-the-counter, but excluding securities admitted to trading on the Nasdaq National List, are valued at the official closing prices as reported by Nasdaq, the National Quotation Bureau, or such other comparable sources as the Board of Directors deem appropriate to reflect their fair market value. If there has been no sale on such day, the securities are valued at the mean of the closing bid and asked prices for the day, or if no asked price is available, at the bid price. Where securities are traded on more than one exchange and also over-the-counter, the securities will generally be valued using the quotations the Board of Directors believes most closely reflect the value of such securities.

Securities for which market prices are unavailable, or securities for which the advisor determines that bid and/or asked price does not reflect market value, will be valued at fair value pursuant to procedures approved by the fund s Board of Directors. Circumstances in which market prices may be unavailable include, but are not limited to, when trading in a security is suspended, the exchange on which the security is traded is subject to an unscheduled close or disruption or material events occur after the close of the exchange on which the security is principally traded. In these circumstances, the fund determines fair value in a manner that fairly reflects the market value of the security on the valuation date based on consideration of any information or factors it deems appropriate. These may include recent transactions in comparable securities, information relating to the specific security and developments in the markets.

The fund s use of fair value pricing may cause the net asset value of fund shares to differ from the net asset value that would be calculated using market quotations. Fair value pricing involves subjective judgments and it is possible that the fair value determined for a security may be materially different than the value that could be realized upon the sale of that security.

Short-term debt securities, which have a maturity date of 60 days or less, are valued at amortized cost, which approximates value.

The Fund adopted Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157), effective January 1, 2008. In accordance with FAS 157, fair value is defined as the price that the Fund would receive to sell an investment or pay to transfer a liability in a timely transaction with an independent buyer in the principal market, or in the absence of a principal market the most advantageous market for the investment or liability. FAS 157 establishes a single definition of fair value, creates a three-tier hierarchy as a framework for measuring fair value based on inputs used to value the Fund s investments, and requires additional disclosure about fair value. The hierarchy of inputs is summarized below.

- Level 1 quoted prices in active markets for identical investments
- Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Fund s own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used as of March 31, 2008 in valuing the Fund s investments carried at value:

	Fair Value Measurements at March 31, 2008 Using					
			Quoted Prices In Significant Active Market for Other Observable Identical Assets Inputs		Significant Unobservable Inputs	
	Total		(Level 1)		(Level 2)	(Level 3)
Investments in Securities	\$ 1,722,910,906	\$	1,235,314,672	\$	443,560,563	\$ 44,035,671
Other Financial Instruments*	(10,144,159)				(10,144,159)	
Total	\$ 1,712,766,747	\$	1,235,314,672	\$	433,416,404	\$ 44,035,671

<sup>\*</sup> Other financial instruments include interest rate swap contracts.

Following is a reconciliation of investments in which significant unobservable inputs (Level 3) were used in determining fair value:

	 estments in Securities
Balance as of December 31, 2007	\$ 50,809,964
Accrued premiums/discounts	98
Realized gain (loss)	(5,142,023)
Change in unrealized appreciation (depreciation)	(641,253)
Net purchases (sales)	14,144,463
Transfers in and/or out of Level 3	(15,135,578)
Balance as of March 31, 2008	\$ 44,035,671

### **Note 2. Income Tax Information**

As of March 31, 2008, the federal tax cost and net unrealized appreciation were as follows:
