NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements include the accounts of Aptargroup, Inc. and its subsidiaries. The terms "Aptargroup" or "Company" as used herein refer to Aptargroup, Inc. and its subsidiaries. All significant intercompany accounts and transactions have been eliminated.

In the opinion of management, the unaudited condensed consolidated financial statements include all adjustments, consisting of only normal recurring adjustments, necessary for a fair statement of consolidated financial position, results of operations, and cash flows for the interim periods presented. The accompanying unaudited condensed consolidated financial statements have been prepared by the Company, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosure normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures made are adequate to make the information presented not misleading. Accordingly, these unaudited condensed consolidated financial statements and related notes should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2009. The results of operations of any interim period are not necessarily indicative of the results that may be expected for the year.

In order to be comparable to the current period presentation, the Company has revised its previously reported classification relating to a French research and development tax credit from Provision for Income Taxes to Selling, Research & Development and Administrative. Certain previously reported amounts have been reclassified to conform to the current period presentation.

ADOPTION OF RECENT ACCOUNTING PRONOUNCEMENTS

The Financial Accounting Standards Board ("FASB") issued new standards for improving disclosures about fair value measurements. This guidance requires enhanced disclosures regarding transfers in and out of the levels within the fair value hierarchy. Separate disclosures are required for transfers in and out of Level 1 and 2 fair value measurements, and the reasons for the transfers must be disclosed. The new disclosures and clarifications of existing disclosures are effective for interim and annual reporting periods beginning after December 15, 2009. As this standard is disclosure related, it does not have a material impact on our financial statements.

The Company has also adopted a new accounting standard which provides amendments to previous guidance on the consolidation of variable interest entities. This standard clarifies the characteristics that identify a variable interest entity ("VIE") and changes how a reporting entity identifies a primary beneficiary that would consolidate the VIE from a quantitative risk and rewards calculation to a qualitative approach based on which variable interest holder has controlling financial interest and the ability to direct the most significant activities that impact the VIE's economic performance. This statement requires the primary beneficiary assessment to be performed on a continuous basis. The standard is effective for fiscal years beginning after November 15, 2009. The adoption did not have an impact on our financial statements and disclosures.

INCOME TAXES

The Company computes taxes on income in accordance with the tax rules and regulations of the many taxing authorities where the income is earned. The income tax rates imposed by these taxing authorities may vary substantially. Taxable income may differ from pretax income for

Edgar Filing: APTARGROUP INC - Form 10-Q

financial accounting purposes. To the extent that these differences create differences between the tax basis of an asset or liability and its reported amount in the financial statements, an appropriate provision for deferred income taxes is made.

The Company has expressed the intention to reinvest the undistributed earnings of its non-U.S. subsidiaries. In its determination of which foreign earnings are permanently reinvested in foreign operations, the Company considers numerous factors, including the financial requirements of the U.S. parent company and those of its foreign subsidiaries, the U.S. funding needs for dividend payments and stock repurchases, and the tax consequences of remitting earnings to the U.S. From this analysis, current year repatriation decisions are made in an attempt to provide a proper mix of debt and shareholder capital both within the U.S. and for non-U.S. operations. Undistributed earnings will continue to be reinvested indefinitely and could become subject to additional tax if they were remitted as dividends or lent to a U.S. affiliate, or if the Company should sell its stock in the subsidiaries. It is not practicable to estimate the amount of additional tax that might be payable on these undistributed non-U.S. earnings. The Company will continue to evaluate annually if it will repatriate non-U.S. subsidiary current year earnings or a portion thereof.

The Company provides a liability for the amount of tax benefits realized from uncertain tax positions. This liability is provided whenever the Company determines that a tax benefit will not meet a more-likely-than-not threshold for recognition. See Note 12 for more information.

Table of ContentsNOTE 2 - INVENTORIES

EMPLOYER CONTRIBUTIONS

In order to meet or exceed minimum funding levels required by U.S. law, the Company expects to contribute approximately \$7.4 million to its domestic defined benefit plans in 2010 and has not made any contributions as of March 31, 2010. The Company also expects to contribute approximately \$6.6 million to its foreign defined benefit plans in 2010 and as of March 31, 2010, has contributed approximately \$0.2 million.

NOTE 5 DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

The Company maintains a foreign exchange risk management policy designed to establish a framework to protect the value of the Company's non-functional denominated transactions from adverse changes in exchange rates. Sales of the Company's products can be denominated in a currency different from the currency in which the related costs to produce the product are denominated. Changes in exchange rates on such inter-country sales or intercompany loans impact the Company's results of operations. The Company's policy is not to engage in speculative foreign currency hedging activities, but to minimize its net foreign currency transaction exposure defined as firm commitments and transactions recorded and denominated in currencies other than the functional currency. The Company may use foreign currency forward exchange contracts, options and cross currency swaps to economically hedge these risks.

The Company maintains an interest rate risk management strategy to minimize significant, unanticipated earnings fluctuations that may arise from volatility in interest rates.

For derivative instruments designated as hedges, the Company formally documents the nature and relationships between the hedging instruments and the hedged items, as well as the risk management objectives, strategies for undertaking the various hedge transactions, and the method of assessing hedge effectiveness. Additionally, in order to designate any derivative instrument as a hedge of an anticipated transaction, the significant characteristics and expected terms of any anticipated transaction must be specifically identified, and it must be probable that the anticipated transaction will occur.

FAIR VALUE HEDGES

The Company has an interest rate swap to convert a portion of its fixed-rate debt into variable-rate debt. Under the interest rate swap contract, the Company exchanges, at specified intervals, the difference between fixed-rate and floating-rate amounts, which are calculated based on an agreed upon notional amount.

As of March 31, 2010, the Company has recorded the fair value of derivative instruments of \$602 thousand in miscellaneous other assets with a corresponding increase to debt related to a fixed-to-variable interest rate swap agreement with a notional principal value of \$10 million. No gain or loss was recorded in the income statement in 2009 or the first quarter of 2010 as any hedge ineffectiveness for the periods was immaterial.

CASH FLOW HEDGES

As of March 31, 2010, the Company had one foreign currency cash flow hedge. A French entity of Aptargroup, Aptargroup Holding SAS, has hedged the risk of variability in Euro equivalent associated with the cash flows of an intercompany loan granted in Brazilian Real. The forward contracts utilized were designated as a hedge of the changes in the cash flows relating to the changes in foreign currency rates relating to the loan and related forecasted interest. The notional amount of the foreign currency forward contracts utilized to hedge cash flow exposure was 2.7 million Brazilian Real (\$1.5 million) as of March 31, 2010.

During the three months ended March 31, 2010, the Company did not recognize any net gain (loss) as any hedge ineffectiveness for the period was immaterial, and the Company did not recognize any net gain (loss) related to the portion of the hedging instrument excluded from the assessment of hedge effectiveness. The Company's foreign currency forward contracts hedge forecasted transactions for approximately two years (March 2012).

HEDGE OF NET INVESTMENTS IN FOREIGN OPERATIONS

A significant number of the Company's operations are located outside of the United States. Because of this, movements in exchange rates may have a significant impact on the translation of the financial condition and results of operations of the Company's foreign entities. A strengthening U.S. dollar relative to foreign currencies has a dilutive translation effect on the Company's financial condition and results of operations. Conversely, a weakening U.S. dollar has an additive effect. The Company in some cases maintains debt in these subsidiaries to offset the net asset exposure. The Company does not otherwise use derivative financial instruments to manage this risk. In the event the Company plans on a full or partial liquidation of any of its foreign subsidiaries where the Company's net investment is likely to be monetized, the Company will consider hedging the currency exposure associated with such a transaction.

OTHER

As of March 31, 2010, the Company has recorded the fair value of foreign currency forward exchange contracts of \$1.1 million in prepayments and other, \$1.1 million in accounts payable and accrued liabilities, and \$2.2 million in deferred and other non-current liabilities in the balance sheet. All forward exchange contracts outstanding as of March 31, 2010 had an aggregate contract amount of \$84.6 million.

NOTE 6 COMMITMENTS AND CONTINGENCIES

The Company, in the normal course of business, is subject to a number of lawsuits and claims both actual and potential in nature. Management believes the resolution of these claims and lawsuits will not have a material adverse or positive effect on the Company's financial position, results of operations or cash flow.

Under its Certificate of Incorporation, the Company has agreed to indemnify its officers and directors for certain events or occurrences while the officer or director is, or was serving, at its request in such capacity. The maximum potential amount of future payments the Company could be required to make under these indemnification agreements is unlimited; however, the Company has a directors and officers liability insurance policy that covers a portion of its exposure. As a result of its insurance policy coverage, the Company believes the estimated fair value of these indemnification agreements is minimal. The Company has no liabilities recorded for these agreements as of March 31, 2010.

Table of ContentsNOTE 7 STOCK REPURCHASE PROGRAM

During the quarter ended March 31, 2010, the Company repurchased 200 thousand shares for an aggregate amount of \$8.0 million. As of March 31, 2010, the Company has a remaining authorization to repurchase 3.5 million additional shares. The timing of and total amount expended for the share repurchase depends upon market conditions. There is no time limit on the repurchase authorization.

NOTE 8 EARNINGS PER SHARE

Aptargroup's authorized common stock consists of 199 million shares, having a par value of \$.01 each. Information related to the calculation of earnings per share is as follows:

NOTE 9 SEGMENT INFORMATION

The Company operates in the packaging industry, which includes the development, manufacture and sale of consumer product dispensing systems. The Company is organized into three reporting segments. Operations that sell spray and lotion dispensing systems primarily to the personal care, fragrance/cosmetic and household markets form the Beauty & Home segment. Operations that sell dispensing systems to the pharmaceutical market form the Pharma segment. Operations that sell closures to each market served by Aptargroup form the Closures segment.

The accounting policies of the segments are the same as those described in Note 1, Summary of Significant Accounting Policies in the Company's Annual Report on Form 10-K for the year ended December 31, 2009. The Company evaluates performance of its business segments and allocates resources based upon earnings before interest expense in excess of interest income, stock option and certain corporate expenses, income taxes and unusual items (collectively referred to as Segment Income). Financial information regarding the Company's reportable segments is shown below:

Table of Contents

(1) The Company evaluates performance of its business units and allocates resources based upon segment income. Segment income is defined as earnings before interest expense in excess of interest income, stock option and certain corporate expenses, income taxes and unusual items. In order to be comparable to the current period presentation, the Company revised its 2009 presentation relating to a French research and development tax credit by reclassifying amounts from Provision for Income Taxes to Selling, Research & Development and Administration.

NOTE 10 ACQUISITIONS

In March 2010, the Company acquired certain equipment, inventory and intellectual property rights for approximately \$3.0 million in cash. No debt was assumed in the transaction. The purchase price approximated the fair value of the assets acquired and therefore no goodwill was recorded. As the acquisition occurred on March 31, 2010, no results of operations subsequent to the acquisition are included in the reported statement of income. The assets acquired are included in the Closures reporting segment.

In August 2009, the Company acquired Covit do Brasil Componentes de Alumínio para Perfumaria Ltda. (Covit do Brasil) for approximately \$7.6 million in cash. Covit do Brasil has been operating in Brazil since 2005 developing and supplying anodized aluminum parts primarily for the fragrance/cosmetic market. Covit do Brasil generally supplies parts to other companies within Aptargroup. No debt was assumed in the transaction. Covit do Brasil's annual revenues are approximately \$7.0 million, of which approximately \$6.0 million are with Aptargroup subsidiaries. The excess purchase price over the fair value of assets acquired was allocated to Goodwill. Goodwill of approximately \$0.7 million was recorded on the transaction. The results of operations subsequent to the acquisition are included in the reported income statement. Covit do Brasil is included in the Beauty & Home reporting segment.

Neither of these acquisitions had a material impact on the results of operations in 2010 or 2009 and therefore no proforma information is presented.

NOTE 11 STOCK-BASED COMPENSATION

The Company issues stock options and restricted stock units to employees under Stock Awards Plans approved by shareholders. Stock options are issued to non-employee directors for their services as directors under Director Stock Option Plans approved by shareholders. Options are awarded with the exercise price equal to the market price on the date of grant and generally become exercisable over three years and expire 10 years after grant. Restricted stock units generally vest over three years.

Compensation expense recorded attributable to stock options for the first quarter of 2010 was approximately \$6.0 million (\$4.2 million after tax), or \$0.06 per share basic and diluted. The income tax benefit related to this compensation expense was approximately \$1.8 million. Approximately \$5.6 million of the compensation expense was recorded in selling, research & development and administrative expenses and the balance was recorded in cost of sales. Compensation expense recorded attributable to stock options for the first quarter of 2009 was approximately \$5.1 million (\$3.8 million after tax), or \$0.06 per share basic and \$0.05 per share diluted. The income tax benefit related to this compensation expense was approximately \$1.3 million. Approximately \$4.7 million of the compensation expense was recorded in selling, research & development and administrative expenses and the balance was recorded in cost of sales.

The Company uses historical data to estimate expected life and volatility. The weighted-average fair value of stock options granted under the Stock Awards Plans was \$9.18 and \$7.33 per share in 2010 and 2009, respectively. These values were estimated on the respective dates of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions:

Stock Awards Plans: Three months ended March 31,	2010	2009
Dividend Yield	1.8%	1.6%
Expected Stock Price Volatility	22.7%	24.2%

Edgar Filing: APTARGROUP INC - Form 10-Q

Expected Life of Option (years)	6.9	6.9

There were no grants under the Director Stock Option Plan during the first quarters of 2010 and 2009.

A summary of option activity under the Company's stock option plans during the quarter ended March 31, 2010 is presented below:

The fair value of shares vested during the three months ended March 31, 2010 and 2009 was \$11.6 million and \$11.0 million, respectively. Cash received from option exercises was approximately \$11.4 million and the actual tax benefit realized for the tax deduction from option exercises was approximately \$2.9 million in the three months ended March 31, 2010. As of March 31, 2010, the remaining valuation of stock option awards to be expensed in future periods was \$10.7 million and the related weighted-average period over which it is expected to be recognized is 1.6 years.

The fair value of restricted stock unit grants is the market price of the underlying shares on the grant date. A summary of restricted stock unit activity as of March 31, 2010, and changes during the period then ended is presented below:

	Shares	Weighted-Average Grant-Date Fair Value
Nonvested at January 1, 2010	15,178	\$ 32.04
Granted	16,500	35.53
Vested	(9,375)	31.84
Nonvested at March 31, 2010	22,303	\$ 34.71

Compensation expense recorded attributable to restricted stock unit grants for the first quarter of 2010 and 2009 was approximately \$400 thousand and \$120 thousand, respectively. The fair value of units vested during the three months ended March 31, 2010 and 2009 was \$298 thousand and \$323 thousand, respectively. The intrinsic value of units vested during the three months ended March 31, 2010 and 2009 was \$330 thousand and \$319 thousand, respectively. As of March 31, 2010 there was \$189 thousand of total unrecognized compensation cost relating to restricted stock unit awards which is expected to be recognized over a weighted average period of 2.0 years.

NOTE 12 INCOME TAX UNCERTAINTIES

Edgar Filing: APTARGROUP INC - Form 10-Q

The Company had approximately \$10.8 million recorded for income tax uncertainties as of March 31, 2010 and December 31, 2009. The amount, if recognized, that would impact the effective tax rate is \$10.1 million for both dates. The Company does not anticipate any significant changes to the amount recorded for income tax uncertainties over the next 12 months.

NOTE 13 FAIR VALUE

Authoritative guidelines require the categorization of assets and liabilities into three levels based upon the assumptions (inputs) used to price the assets or liabilities. Level 1 provides the most reliable measure of fair value, whereas Level 3 generally requires significant management judgment. The three levels are defined as follows:

- Level 1: Unadjusted quoted prices in active markets for identical assets and liabilities.
- Level 2: Observable inputs other than those included in Level 1. For example, quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.
- Level 3: Unobservable inputs reflecting management's own assumptions about the inputs used in pricing the asset or liability.

As of March 31, 2010, the fair values of our financial assets and liabilities were categorized as follows:

	Total	Level 1	Level 2	Level 3
Assets				
Interest rate swap (a)	\$ 602	\$	\$ 602	\$
Forward exchange contracts (b)	1,075		1,075	
Total assets at fair value	\$ 1,677	\$	\$ 1,677	\$
Liabilities				
Forward exchange contracts (b)	\$ 3,262	\$	\$ 3,262	\$
Total liabilities at fair value	\$ 3,262	\$	\$ 3,262	\$

Table of Contents

As of December 31, 2009, the fair values of our financial assets and liabilities were categorized as follows:

		Total		Level 1		Level 2		Level 3
Assets								
Interest rate swap (a)	\$	574	\$	\$		574	\$	
Forward exchange contracts (b)		902				902

Liabilities								
Forward exchange contracts (b)	\$	3,635	\$	\$		3,635	\$	
Total liabilities at fair value	\$	3,635	\$	\$		3,635	\$	

(a) Based on third party quotation from financial institution

(b) Based on observable market transactions of spot and forward rates

Based on the variable borrowing rates currently available to the Company for long-term obligations with similar terms and average maturities, the fair value of the Company's long-term obligations approximates its book value.

NOTE 14 FACILITIES CONSOLIDATION AND SEVERANCE

In the second quarter of 2009, the Company announced a plan to consolidate two French dispensing closure manufacturing facilities and several sales offices in North America and Europe and has subsequently expanded the program to include additional headcount reductions. The total costs associated with the consolidation/severance programs are estimated to be approximately \$8 million, of which \$7.6 million was recorded during 2009. No costs were recorded in the first quarter of 2010. The majority of the remaining costs are expected to be recorded as incurred in the second quarter of 2010.

As of March 31, 2010 we have recorded the following activity associated with our consolidation/severance programs within the Condensed Consolidated Statements of Income:

	Beginning Reserve at 12/31/09	Charges for the Quarter Ended 3/31/10	Cash Paid	FX Impact	Ending Reserve at 3/31/10

NET SALES

We reported net sales of \$505.5 million for the quarter ended March 31, 2010, 17% above first quarter 2009 net sales of \$431.8 million. The average U.S. dollar exchange rate weakened compared to the Euro and other foreign currencies, such as the Brazilian Real, in the first quarter of 2010 compared to the first quarter of 2009, and as a result, changes in exchange rates positively impacted sales and accounted for approximately 6% of the 17% sales increase. Product and custom tooling sales rose 11% as acquisitions had no impact on sales.

For further discussion on net sales by reporting segment, please refer to the segment analysis of net sales and operating income on the following pages.

The following table sets forth, for the periods indicated, net sales by geographic location:

Quarter Ended March 31,	2010	% of Total	2009	% of Total
Domestic	\$ 147,300	29%	\$ 118,530	27%
Europe	292,785	58%	256,869	60%
Other Foreign	65,384	13%	56,417	13%

COST OF SALES (EXCLUSIVE OF DEPRECIATION SHOWN BELOW)

Edgar Filing: APTARGROUP INC - Form 10-Q

Our cost of sales as a percent of net sales decreased to 65.5% in the first quarter of 2010 compared to 67.1% in the same period a year ago.

The following factor positively impacted our cost of sales percentage in the first quarter of 2010:

Improved Utilization of Overhead Costs in Certain Operations. Several of our business operations, especially in the Beauty & Home and Closures business segments, saw an increase in unit volumes produced and sold. As a result of these higher production levels, overhead costs were better utilized, thus positively impacting cost of goods sold as a percentage of net sales.

The following factors negatively impacted our cost of sales percentage in the first quarter of 2010:

Weakening of the U.S. Dollar. We are a net importer from Europe into the U.S. of products produced in Europe with costs denominated in Euros. As a result, when the U.S. dollar or other currencies weaken against the Euro, products produced in Europe (with costs denominated in Euros) and sold in currencies that are weaker compared to the Euro, have a negative impact on cost of sales as a percentage of net sales.

Increasing Raw Material Costs. Raw material costs, in particular plastic resin in the U.S., increased in the first quarter of 2010 over 2009. While the majority of these cost increases are passed along to our customers in our selling prices, we experienced the usual lag in the timing of passing on these cost increases.

Table of Contents

SELLING, RESEARCH & DEVELOPMENT AND ADMINISTRATIVE

Our Selling, Research & Development and Administrative expenses (SG&A) increased by approximately \$7.3 million in the first quarter of 2010 to \$78.7 million compared to \$71.4 million in the same period a year ago. Changes in currency rates accounted for \$3.6 million of the increase in SG&A in the quarter. The remainder of the increase is primarily due to stock option expense increase along with other general compensation increases. However, SG&A as a percentage of net sales decreased to 15.6% compared to 16.5% of net sales in the same period of the prior year as a result of leveraging costs compared to the increased sales.

DEPRECIATION AND AMORTIZATION

Depreciation and amortization increased approximately \$3.9 million in the first quarter of 2010 to \$34.0 million compared to \$30.1 million in the first quarter of 2009. Changes in foreign currency rates accounted for a \$1.5 million increase resulting in a net increase of \$2.4 million on a constant currency basis. The majority of the remainder of the increase relates to the roll-out of our global enterprise resource planning system. Depreciation and amortization as a percentage of net sales decreased to 6.7% compared to 7.0% of net sales in the same period of the prior year.

OPERATING INCOME

Operating income increased approximately \$21.0 million in the first quarter of 2010 to \$61.6 million compared to \$40.6 million in the same period in the prior year. The increase is primarily due to the increase in sales of our products, particularly in the Beauty & Home and Closures segments, and the weakening of the U.S. dollar compared to the Euro which is having a positive impact on the translation of our results in U.S. dollars. Operating income as a percentage of net sales was 12.2% in the first quarter 2010 compared to 9.4% for the same period in the prior year. This increase is attributed to the Company's ability to leverage its cost structure.

NET OTHER EXPENSE

Net other expenses in the first quarter of 2010 increased to \$3.7 million in the first quarter of 2010 compared to \$2.3 million in the first quarter of the prior year. Miscellaneous expenses increased by \$0.9 million due primarily to foreign currency losses along with a decrease in interest income of \$0.5 million due to lower interest rates earned on investments.

EFFECTIVE TAX RATE

The reported effective tax rate increased to 32.5% for the three months ended March 31, 2010 compared to 30.5% in the first quarter of 2009. The increase is mainly related to higher taxes in France and a higher dividend repatriation amount planned in the first quarter of 2010 compared to 2009.

NET INCOME ATTRIBUTABLE TO APTARGROUP, INC.

Edgar Filing: APTARGROUP INC - Form 10-Q

We reported net income attributable to Aptargroup, Inc. of \$39.0 million in the first quarter of 2010 compared to \$26.7 million in the first quarter of 2009.

BEAUTY & HOME SEGMENT

Operations that sell spray and lotion dispensing systems primarily to the personal care, fragrance/cosmetic and household markets form the Beauty & Home segment.

Three Months Ended March 31,	2010	2009
Net Sales	\$ 263,440	\$ 211,672
Segment Income (1)	26,979	10,811
Segment Income as a percentage of Net Sales	10.2%	5.1%

(1) The Company evaluates performance of its business units and allocates resources based upon segment income. Segment income is defined as earnings before interest expense in excess of interest income, stock option and certain corporate expenses, income taxes and unusual items. In order to be comparable to the current period presentation, the Company revised its 2009 presentation relating to a French research and development tax credit by reclassifying amounts from Provision for Income Taxes to Selling, Research & Development and Administrative. For further details, refer to the Company's Form 8-K that was filed with the Securities and Exchange Commission on July 17, 2009.

Table of Contents

Net sales for the quarter ended March 31, 2010 increased 24% to \$263.4 million compared to \$211.7 million in the first quarter of the prior year. The weakening U.S. dollar compared to the Euro positively impacted the change in sales and represented 7% of the 24% increase. Sales, excluding foreign currency changes, increased approximately 17% in the first quarter of 2010 compared to the same period in the prior year as demand increased across almost all of the markets. Sales of our products, excluding foreign currency changes, to the personal care market increased 24% in the first quarter of 2010 compared to the first quarter of the prior year. The general market improvement as well as the lack of customer destocking that we experienced in the first quarter of the prior year led to this increase. Sales, excluding foreign currency changes, to the fragrance/cosmetic and household markets increased 14% and 25%, respectively, in the first quarter of 2010 compared to the first quarter of the prior year primarily due to general economic conditions and the absence of customer destocking.

Segment income in the first quarter of 2010 increased approximately 150% to \$27.0 million compared to \$10.8 million reported in the prior year. The higher segment income in the first quarter is due primarily to improved sales volumes along with better overhead absorption as we have been very successful to date in managing our costs.

CLOSURES SEGMENT

The Closures segment designs and manufactures primarily dispensing closures. These products are generally sold to the personal care, household and food/beverage markets.

Three Months Ended March 31,	2010		2009	
Net Sales	\$	134,764	\$	117,176
Segment Income		17,093		11,617
Segment Income as a percentage of Net Sales		12.7%		9.9%

Net sales for the quarter ended March 31, 2010 increased 15% to \$134.8 million compared to \$117.2 million in the first quarter of the prior year. The weakening U.S. dollar compared to the Euro positively impacted the change in sales and represented 6% of the 15% increase. Product sales increased 9% due mainly to strong product demand and higher resin prices offset by lower tooling sales. Product sales, excluding foreign currency changes, to the personal care and food markets increased approximately 10% and 7%, respectively, in the first quarter of 2010 compared to the same period in the prior year. This is primarily due to improving demand across all regions and a lack of customer destocking that we experienced in the first quarter of the prior year.

Segment income in the first quarter of 2010 increased approximately 47% to \$17.1 million compared to \$11.6 million reported in the prior year. The increase in segment income is primarily due to strong sales volumes and favorable product mix offset by an unfavorable resin impact.

PHARMA SEGMENT

Operations that sell dispensing systems to the pharmaceutical market form the Pharma segment.

Three Months Ended March 31,	2010		2009	
-------------------------------------	-------------	--	-------------	--

Edgar Filing: APTARGROUP INC - Form 10-Q

Net Sales	\$	107,265	\$	102,925
Segment Income		29,690		29,204
Segment Income as a percentage of Net Sales		27.7%		28.4%

Net sales for the quarter ended March 31, 2010 increased 4% to \$107.3 million compared to \$102.9 million in the first quarter of the prior year. The weakening U.S. dollar compared to the Euro positively impacted the change in sales by 5%. On a constant currency basis, sales for the Pharma segment continue to see stable demand as core product sales declined by 1% in the quarter. Stronger pump sales were offset by slightly lower valve sales.

Segment income in the first quarter of 2010 increased approximately 2% to \$29.7 million compared to \$29.2 million reported in the prior year. As with net sales, this performance is attributed mainly to the changes in currency rates.

FOREIGN CURRENCY

A significant number of our operations are located outside of the United States. Because of this, movements in exchange rates may have a significant impact on the translation of the financial statements of our foreign entities. Our primary foreign exchange exposure is to the Euro, but we have foreign exchange exposure to the British Pound, South American and Asian currencies, among others. We manage our exposures to foreign exchange principally with forward exchange contracts to hedge certain transactions and firm purchase and sales commitments denominated in foreign currencies. A weakening U.S. dollar relative to foreign currencies has an additive translation effect on our financial statements. Conversely, a strengthening U.S. dollar has a dilutive effect. In some cases, we sell products denominated in a currency different from the currency in which the related costs are incurred. Changes in exchange rates on such inter-country sales could materially impact our results of operations.

Table of ContentsQUARTERLY TRENDS

Our results of operations in the second half of the year typically are negatively impacted by customer plant shutdowns in the summer months in Europe and plant shutdowns in December. In the future, our results of operations in a quarterly period could be impacted by factors such as changes in product mix, changes in material costs, changes in growth rates in the industries to which our products are sold, recognition of equity based compensation expense for retirement eligible employees in the period of grant and changes in general economic conditions in any of the countries in which we do business.

We generally incur increased stock option expense in the first quarter as compared with the rest of the fiscal year. Our estimated stock option expense on a pre-tax basis (in \$ millions) on a quarterly basis for the year 2010 compared to the prior year is as follows:

		2010		2009
First Quarter	\$	6.0	\$	5.1
Second Quarter		1.8		1.6
Third Quarter		1.6		1.6
Fourth Quarter		1.3		1.5

LIQUIDITY AND CAPITAL RESOURCES

Our primary sources of liquidity are cash flow from operations and our revolving credit facility. Cash and equivalents increased to \$337.8 million at the end of March 2010 from \$333.0 million at December 31, 2009. Total short and long-term interest bearing debt increased in the first quarter of 2010 to \$367.0 million from \$338.0 million at December 31, 2009. The ratio of our Net Debt (interest bearing debt less cash and cash equivalents) to Net Capital (stockholder s equity plus Net Debt) increased to 2.3% at March 31, 2010 compared to 0.4% as of December 31, 2009.

In the first quarter of 2010, our operations provided approximately \$30.2 million in cash flow compared to \$48.8 million for the same period a year ago. The decrease in cash flow is primarily attributable to an increase in working capital needs to support the growth of the business.

We used \$32.6 million in cash for investing activities during the first quarter of 2010, compared to \$31.9 million during the same period a year ago. The increase in cash used for investing activities is due primarily to \$3.0 million for an acquisition. Cash outlays for capital expenditures for 2010 are estimated to be approximately \$125 million, but this amount could increase depending upon the success of new projects, especially for the food and beverage markets.

We received approximately \$24.8 million in cash provided by financing activities in the first quarter of 2010 compared to \$3.2 million in the first quarter of the prior year. The increase in cash from financing activities is due to an increase in notes payable primarily to fund working capital and for the share repurchase program.

Our revolving credit facility and certain long-term obligations require us to satisfy certain financial and other covenants including:

	<u>Requirement</u>	<u>Level at March 31, 2010</u>
Debt to total capital ratio	Maximum of 55%	23%

Based upon the above debt to total capital ratio covenant we would have the ability to borrow approximately an additional \$1.1 billion before the 55% requirement was exceeded.

Edgar Filing: APTARGROUP INC - Form 10-Q

Our foreign operations have historically met cash requirements with the use of internally generated cash or borrowings. These foreign subsidiaries have financing arrangements with several foreign banks to fund operations located outside the U.S., but all these lines are uncommitted. Cash generated by foreign operations has generally been reinvested locally. The majority of our \$337.8 million in cash and equivalents is located outside of the U.S.

We believe we are in a strong financial position and have the financial resources to meet business requirements in the foreseeable future. We have historically used cash flow from operations as our primary source of liquidity. In the event that customer demand would decrease significantly for a prolonged period of time and negatively impact cash flow from operations, we would have the ability to restrict and significantly reduce capital expenditure levels, which historically have been the most significant use of cash for us. A prolonged and significant reduction in capital expenditure levels could increase future repairs and maintenance costs as well as have a negative impact on operating margins if we were unable to invest in new innovative products.

On April 15, 2010, the Board of Directors declared a quarterly dividend of \$0.15 per share payable on May 19, 2010 to stockholders of record as of April 28, 2010.

OFF-BALANCE SHEET ARRANGEMENTS

We lease certain warehouse, plant and office facilities as well as certain equipment under noncancelable operating leases expiring at various dates through the year 2029. Most of the operating leases contain renewal options and certain equipment leases include options to purchase during or at the end of the lease term. Other than operating lease obligations, we do not have any off-balance sheet arrangements.

RECENTLY ISSUED ACCOUNTING STANDARDS

In January 2010, the Financial Accounting Standards Board (FASB) issued new guidelines and clarifications for improving disclosures about fair value measurements. This guidance requires enhanced disclosures for purchases, sales, issuances, and

Table of Contents

settlements on a gross basis for Level 3 fair value measurements. These new disclosures are effective for interim and annual reporting periods beginning after December 15, 2010. As this standard is disclosure related, we do not anticipate the adoption will have a material impact on the Company.

OUTLOOK

We anticipate that the recovering economic climate in conjunction with the absence of the inventory destocking we experienced in the first half of 2009 will lead to our growth in the second quarter over the prior year. We presently expect demand to remain strong from those markets that were most seriously affected by the economic downturn including the fragrance/cosmetic and personal care markets.

We anticipate that diluted earnings per share for the second quarter of 2010 will be in the range of \$0.60 to \$0.65 per share compared to \$0.41 per share in the prior year which included approximately \$0.03 per share related to charges from our consolidation/severance program that began in the second quarter of last year.

FORWARD-LOOKING STATEMENTS

This Management's Discussion and Analysis and certain other sections of this Form 10-Q contain forward-looking statements that involve a number of risks and uncertainties. Words such as expects, anticipates, believes, estimates, and other similar expressions or future or conditional verbs such as will, should, would and could are intended to identify such forward-looking statements. Forward-looking statements are made pursuant to the safe harbor provisions of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 and are based on our beliefs as well as assumptions made by and information currently available to us. Accordingly, our actual results may differ materially from those expressed or implied in such forward-looking statements due to known or unknown risks and uncertainties that exist in our operations and business environment, including but not limited to:

- economic, environmental and political conditions worldwide;
- changes in customer and/or consumer spending levels;
- the availability of raw materials and components (particularly from sole sourced suppliers) as well as the financial viability of these suppliers;
- the cost of materials and other input costs (particularly resin, metal, anodization costs and transportation and energy costs);
- our ability to increase prices;
- significant fluctuations in foreign currency exchange rates;
- our ability to contain costs and improve productivity;
- changes in capital availability or cost, including interest rate fluctuations;
- our ability to meet future cash flow estimates to support our goodwill impairment testing;

- direct or indirect consequences of acts of war or terrorism;
- changes or difficulties in complying with government regulation;
- competition, including technological advances;
- our ability to protect and defend our intellectual property rights;
- the timing and magnitude of capital expenditures;
- our ability to identify potential new acquisitions and to successfully acquire and integrate such operations or products;
- work stoppages due to labor disputes;
- the demand for existing and new products;
- fiscal and monetary policy, including changes in worldwide tax rates;
- our ability to manage worldwide customer launches of complex technical products, in particular in developing markets;
- the success of our customers' products, particularly in the pharmaceutical industry;
- difficulties in product development and uncertainties related to the timing or outcome of product development;
- significant product liability claims;
- our successful implementation of a new worldwide ERP system starting in 2009 without disruption to our operations;
- our ability to implement the strategic realignment of our businesses during 2010, and
- other risks associated with our operations.

Although we believe that our forward-looking statements are based on reasonable assumptions, there can be no assurance that actual results, performance or achievements will not differ materially from any future results, performance or achievements expressed or implied by such forward-looking statements. Readers are cautioned not to place undue reliance on forward-looking statements. We undertake no obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise. Please refer to Item 1A (Risk Factors) of Part 1 included in the Company's Annual Report on Form 10-K for additional risk factors affecting the Company.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

A significant number of our operations are located outside of the United States. Because of this, movements in exchange rates may have a significant impact on the translation of the financial condition and results of operations of our entities. Our primary foreign exchange exposure is to the Euro, but we also have foreign exchange exposure to the British Pound, South American and Asian currencies, among others. A weakening U.S. dollar relative to foreign currencies has an additive translation effect on our financial condition and results of operations. Conversely, a strengthening U.S. dollar has a dilutive effect.

Additionally, in some cases, we sell products denominated in a currency different from the currency in which the related costs are incurred. Any changes in exchange rates on such inter-country sales may impact our results of operations.

We manage our exposures to foreign exchange principally with forward exchange contracts to hedge certain firm purchase and sales commitments and intercompany cash transactions denominated in foreign currencies.

The table below provides information as of March 31, 2010 about our forward currency exchange contracts. The majority of the contracts expire before the end of the second quarter of 2010 with the exception of a few contracts on intercompany loans that expire in the third quarter of 2012.

Buy/Sell	Contract Amount (in thousands)	Average Contractual Exchange Rate	Min / Max Notional Volumes
Swiss Franc/Euro	\$ 49,638	0.6902	44,981-49,638
Euro/U.S. Dollar	9,330	1.3708	7,348-13,241
British Pound/Euro	7,074	1.1000	7,074-7,359
Czech Koruna/Euro	5,612	0.0393	5,498-5,612
Euro/Brazilian Real	4,369	4.9522	4,369-4,932
Euro/Swiss Franc	2,741	1.4541	368-6,610
U.S. Dollar/Euro	1,491	0.7251	639-1,491
Euro/Chinese Yuan	1,263	9.6928	1,263-2,681
Mexican Peso/U.S. Dollar	1,000	0.0790	950-1,000
Other	2,095		
Total	\$ 84,613		

As of March 31, 2010, we have recorded the fair value of foreign currency forward exchange contracts of \$1.1 million in prepayments and other, \$1.1 million in accounts payable and accrued liabilities, and \$2.2 million in deferred and other non-current liabilities in the balance sheet.

At March 31, 2010, we had a fixed-to-variable interest rate swap agreement with a notional principal value of \$10 million which requires us to pay an average variable interest rate (which was 3.9% at March 31, 2010) and receive a fixed rate of 6.6%. The variable rate is adjusted semiannually based on London Interbank Offered Rates (LIBOR). Variations in market interest rates would produce changes in our net income. If interest rates increase by 100 basis points, net income related to the interest rate swap agreement would decrease by less than \$0.07 million assuming a tax rate of 32%. As of March 31, 2010, we recorded the fair value of the fixed-to-variable interest rate swap agreement of \$0.6 million in miscellaneous other assets with an offsetting adjustment to debt. No gain or loss was recorded in the income statement in 2009 or the first quarter of 2010 as any hedge ineffectiveness for the period is immaterial.

ITEM 4. CONTROLS AND PROCEDURES

DISCLOSURE CONTROLS AND PROCEDURES

The Company's management has evaluated, with the participation of the chief executive officer and chief financial officer of the Company, the effectiveness of the Company's disclosure controls and procedures (as that term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934) as of March 31, 2010. Based on that evaluation, the chief executive officer and chief financial officer have concluded that these controls and procedures were effective as of such date.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

No change in the Company's internal control over financial reporting (as such term is defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) occurred during the Company's fiscal quarter ended March 31, 2010 that materially affected, or is reasonably like to materially affect, the Company's internal control over financial reporting.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

RECENT SALES OF UNREGISTERED SECURITIES

During the quarter ended March 31, 2010, the FCP Aptar Savings Plan (the Plan) purchased 2,018 shares of our common stock on behalf of the participants at an average price of \$39.73, for an aggregate amount of \$80 thousand. The Company also sold 1,200 shares of our common stock on behalf of the participants at an average price of \$37.66 per share, for an aggregate amount of \$45 thousand. At March 31, 2010, the Plan owns 18,676 shares of our common stock. The employees of Aptargroup S.A.S. and Valois S.A.S., our subsidiaries, are eligible to participate in the Plan. All eligible participants are located outside of the United States. An independent agent purchases shares of our common stock available under the Plan for cash on the open market and we do not issue shares. We do not receive any proceeds from the purchase of Common Stock under the Plan. The agent under the Plan is Banque Nationale de Paris Paribas Asset Management. No underwriters are used under the Plan. All shares are sold in reliance upon the exemption from registration under the Securities Act of 1933 provided by Regulation S promulgated under that Act.

ISSUER PURCHASES OF EQUITY SECURITIES

The following table summarizes the Company's purchases of its securities for the quarter ended March 31, 2010:

Period	Total Number Of Shares Purchased	Average Price Paid Per Share	Total Number Of Shares Purchased As Part Of Publicly Announced Plans Or Programs	Maximum Number Of Shares That May Yet Be Purchased Under The Plans Or Programs
1/1 1/31/10	\$			3,663,867
2/1 2/28/10	34,992	38.16	34,992	3,628,875
3/1 3/31/10	164,939	40.25	164,939	3,463,936
Total	199,931	\$ 39.88	199,931	3,463,936

The Company announced the existing share repurchase program on July 17, 2008. There is no expiration date for this repurchase program.
