(1) Other than our investments listed in footnote 7 below, we do not Control any of our portfolio companies, as defined in the Investment Company Act of 1940 (the Investment Company Act). In general, under the Investment Company Act, we would Control a portfolio company if we owned more than 25% of its outstanding voting securities and/or had the power to exercise control over the management or policies of such portfolio company. All of our portfolio company investments are subject to legal restrictions on sales which as of March 31, 2011 represented 135% of the Company s net assets or 91% of the Company s total assets.

The investments not otherwise pledged as collateral in respect of the Debt Securitization (as defined below) or the Revolving Funding Facility (as defined below) by the respective obligors thereunder are pledged as collateral by the Company and certain of its other subsidiaries for the Revolving Credit Facility (as defined below)(except for a limited number of exceptions as provided in the credit agreement governing the Revolving Credit Facility).

(2) These assets are owned by the Company s wholly owned subsidiary Ares Capital CP Funding LLC (Ares Capital CP), are pledged as collateral for the Revolving Funding Facility and, as a result, are not directly available to the creditors of the Company to satisfy any obligations of the Company other than Ares Capital CP s obligations under the Revolving Funding Facility (see Note 5 to the consolidated financial statements).

(3) Pledged as collateral for the Debt Securitization.

(4) Has a payment-in-kind interest feature (see Note 2 to the consolidated financial statements).

(5) Investments without an interest rate are non-income producing.

(6) As defined in the Investment Company Act, we are deemed to be an Affiliated Person of this portfolio company because we own 5% or more of the portfolio company s outstanding voting securities or we have the power to exercise control over the management or policies of such portfolio company (including through a management agreement). Transactions during the three months ended March 31, 2011 in which the issuer was an Affiliated company (but not a portfolio company that we Control) are as follows:

* Together with GE Commercial Finance Investment Advisory Services LLC (GE), we serve as co-managers of the Senior Secured Loan Fund LLC d/b/a the Senior Secured Loan Program (the SSLP). Investments and portfolio decisions made by the SSLP, as well as decisions relating to the operations of the SSLP, must generally be approved by both the Company and GE; therefore, although the Company owns more than 25% of the voting securities of the SSLP, the Company does not believe that it has control over the SSLP (for purposes of the Investment Company Act or otherwise).

(8) Non-U.S. company or principal place of business outside the U.S. and as a result is not a qualifying asset under Section 55(a) of the Investment Company Act. Under the Investment Company Act, we may not acquire any non-qualifying asset unless, at the time such acquisition is made, qualifying assets represent at least 70% of our total assets.

(9) Non-registered investment company under Section 3(c) of the Investment Company Act and as a result is not a qualifying asset under Section 55(a) of the Investment Company Act. Under the Investment Company Act, we may not acquire any non-qualifying asset unless, at the time such acquisition is made, qualifying assets represent at least 70% of our total assets.

(10) Variable rate loans to our portfolio companies bear interest at a rate that may be determined by reference to either LIBOR or an alternate base rate (commonly based on the Federal Funds Rate or the Prime Rate), at the borrower's option, which reset annually (A), semi-annually (S), quarterly (Q), bi-monthly (B), monthly (M) or daily (D). For each such loan, we have provided the interest rate in effect on the date presented.

(11) In addition to the interest earned based on the stated interest rate of this security, we are entitled to receive an additional interest amount of 5.00% on \$40 million aggregate principal amount outstanding of the portfolio company's senior term debt previously syndicated by us.

(12) In addition to the interest earned based on the stated interest rate of this security, we are entitled to receive an additional interest amount of 2.50% on \$25 million aggregate principal amount outstanding of the portfolio company's senior term debt previously syndicated by us.

(13) Loan was on non-accrual status as of March 31, 2011.

(14) Loan includes interest rate floor feature.

(15) In addition to the interest earned based on the contractual stated interest rate of this security, the notes entitle us to receive a portion of the excess cash flow from the SSLP's loan portfolio, which may result in a return to the Company greater than the contractual stated interest rate.

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

(16) Public company with outstanding equity with a market value in excess of \$250 million and as a result is not a qualifying asset under Section 55(a) of the Investment Company Act. Under the Investment Company Act, we may not acquire any non-qualifying asset unless, at the time such acquisition is made, qualifying assets represent at least 70% of our total assets.

(17) In the first quarter of 2011, the staff of the Securities and Exchange Commission (the Staff) informally communicated to certain business development companies the Staff's belief that certain entities, which would be classified as an investment company under the Investment Company Act but for the exception from the definition of investment company set forth in Rule 3a-7 promulgated under the Investment Company Act, could not be treated as eligible portfolio companies (as defined in Section 2(a)(46) of the Investment Company Act). Ares Capital continues to believe that the language of Section 2(a)(46) of the Investment Company Act permits a business development company to treat as eligible portfolio companies entities that rely on the 3a-7 exception. However, given the current uncertainty in this area, Ares Capital has, solely for purposes of calculating the composition of its portfolio pursuant to Section 55(a) of the Investment Company Act, identified these entities in our schedule of investments as non-qualifying assets should the Staff ultimately disagree with Ares Capital's position.

- (1) Other than our investments listed in footnote 7 below, we do not Control any of our portfolio companies, as defined in the Investment Company Act of 1940 (the Investment Company Act). In general, under the Investment Company Act, we would Control a portfolio company if we owned more than 25% of its outstanding voting securities and/or had the power to exercise control over the management or policies of such portfolio company. All of our portfolio company investments are subject to legal restrictions on sales which as of March 31, 2011 represented 135% of the Company's net assets or 91% of the Company's total assets.

The investments not otherwise pledged as collateral in respect of the Debt Securitization (as defined below) or the Revolving Funding Facility (as defined below) by the respective obligors thereunder are pledged as collateral by the Company and certain of its other subsidiaries for the Revolving Credit Facility (as defined below) (except for a limited number of exceptions as provided in the credit agreement governing the Revolving Credit Facility).

- (2) These assets are owned by the Company's wholly owned subsidiary Ares Capital CP Funding LLC (Ares Capital CP), are pledged as collateral for the Revolving Funding Facility and, as a result, are not directly available to the creditors of the Company to satisfy any obligations of the Company other than Ares Capital CP's obligations under the Revolving Funding Facility (see Note 5 to the consolidated financial statements).

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

- (3) Pledged as collateral for the Debt Securitization.
- (4) Has a payment-in-kind interest feature (see Note 2 to the consolidated financial statements).
- (5) Investments without an interest rate are non-income producing.
- (6) As defined in the Investment Company Act, we are deemed to be an Affiliated Person of this portfolio company because we own 5% or more of the portfolio company's outstanding voting securities or we have the power to exercise control over the management or policies of such portfolio company (including through a management agreement). Transactions during the year ended December 31, 2010 in which the issuer was an Affiliated company (but not a portfolio company that we Control) are as follows:

* Together with GE Commercial Finance Investment Advisory Services LLC (GE), we serve as co-managers of the Senior Secured Loan Fund LLC d/b/a the Senior Secured Loan Program (the SSLP). Investments and portfolio decisions made by the SSLP, as well as decisions relating to the operations of the SSLP, must generally be approved by both the Company and GE; therefore, although the Company owns more than 25% of the voting securities of the SSLP, the Company does not believe that it has control over the SSLP (for purposes of the Investment Company Act or otherwise).

- (8) Non-U.S. company or principal place of business outside the U.S. and as a result is not a qualifying asset under Section 55(a) of the Investment Company Act. Under the Investment Company Act, we may not acquire any non-qualifying asset unless, at the time such acquisition is made, qualifying assets represent at least 70% of our total assets.
- (9) Non-registered investment company under Section 3(c) of the Investment Company Act and as a result is not a qualifying asset under Section 55(a) of the Investment Company Act. Under the Investment Company Act, we may not acquire any non-qualifying asset unless, at the time such acquisition is made, qualifying assets represent at least 70% of our total assets.
- (10) Variable rate loans to our portfolio companies bear interest at a rate that may be determined by reference to either LIBOR or an alternate base rate (commonly based on the Federal Funds Rate or the Prime Rate), at the borrower's option, which reset annually (A), semi-annually (S), quarterly (Q), bi-monthly (B), monthly (M) or daily (D). For each such loan, we have provided the interest rate in effect on the date presented.

ARES CAPITAL CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

As of March 31, 2011 (unaudited)

(in thousands, except per share data, percentages and as otherwise indicated; for example, with the words million, billion, or otherwise)

1. ORGANIZATION

Ares Capital Corporation (the Company or ARCC or we) is a specialty finance company that is a closed-end, non-diversified management investment company incorporated in Maryland. We have elected to be regulated as a business development company under the Investment Company Act of 1940 (the Investment Company Act). We were incorporated on April 16, 2004 and were initially funded on June 23, 2004. On October 8, 2004, we completed our initial public offering. On the same date, we commenced substantial investment operations.

On April 1, 2010, we consummated our acquisition of Allied Capital Corporation (Allied Capital), in an all stock merger where each existing share of common stock of Allied Capital was exchanged for 0.325 shares of our common stock (the Allied Acquisition). The Allied Acquisition was valued at approximately \$908 million as of April 1, 2010. In connection therewith, we issued approximately 58.5 million shares of our common stock to Allied Capital 's then-existing stockholders, thereby resulting in our then-existing stockholders owning approximately 69% of the combined company and then-existing Allied Capital stockholders owning approximately 31% of the combined company (see Note 15).

The Company has elected to be treated as a regulated investment company, or a RIC , under Subchapter M of the Internal Revenue Code of 1986, as amended (the Code) and operates in a manner so as to qualify for the tax treatment applicable to RICs. Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in first and second lien senior loans and mezzanine debt, which in some cases includes an equity component. To a lesser extent, we also make equity investments. Also, as a result of the Allied Acquisition, Allied Capital 's equity investments, including equity investments larger than those we have traditionally made and controlled portfolio company equity investments became part of our portfolio.

We are externally managed by Ares Capital Management LLC (Ares Capital Management or our investment adviser), a wholly owned subsidiary of Ares Management LLC (Ares Management), a global alternative asset manager and a Securities and Exchange Commission (SEC) registered investment adviser. Ares Operations LLC (Ares Operations or our administrator), a wholly owned subsidiary of Ares Management, provides the administrative services necessary for us to operate.

Interim financial statements are prepared in accordance with United States generally accepted accounting principles (GAAP) for interim financial information and pursuant to the requirements for reporting on Form 10-Q and Articles 6 or 10 of Regulation S-X. In the opinion of management, all adjustments, consisting solely of normal recurring accruals considered necessary for the fair presentation of financial statements for the interim period presented, have been included. The current period 's results of operations will not necessarily be indicative of results that ultimately may be achieved for the fiscal year ending December 31, 2011.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in conformity with GAAP, and include the accounts of the Company and its wholly owned subsidiaries. The consolidated financial statements reflect all adjustments and reclassifications that, in the opinion of management, are necessary for the fair presentation of the results of the operations and financial condition as of and for the periods presented. All significant intercompany balances and transactions have been eliminated.

Cash and Cash Equivalents

Cash and cash equivalents include funds from time to time deposited with financial institutions and short-term, liquid investments in a money market fund. Cash and cash equivalents are carried at cost which approximates fair value.

Table of Contents

Concentration of Credit Risk

The Company places its cash and cash equivalents with financial institutions and, at times, cash held in money market accounts may exceed the Federal Deposit Insurance Corporation insured limit.

Investments

Investment transactions are recorded on the trade date. Realized gains or losses are measured by the difference between the net proceeds from the repayment or sale and the amortized cost basis of the investment without regard to unrealized gains or losses previously recognized, and include investments charged off during the period, net of recoveries. Unrealized gains or losses primarily reflect the change in investment values, including the reversal of previously recorded unrealized gains or losses when gains or losses are realized.

Investments for which market quotations are readily available are typically valued at such market quotations. In order to validate market quotations, we look at a number of factors to determine if the quotations are representative of fair value, including the source and nature of the quotations. Debt and equity securities that are not publicly traded or whose market prices are not readily available (i.e., substantially all of our investments) are valued at fair value as determined in good faith by our board of directors, based on the input of our investment adviser, audit committee and independent third-party valuation firms that have been engaged at the direction of our board of directors to assist in the valuation of each portfolio investment without a readily available market quotation at least once during a trailing 12 month period and under a valuation policy and a consistently applied valuation process. The valuation process is conducted at the end of each fiscal quarter, and a minimum of 50% of our portfolio at fair value is subject to review by an independent valuation firm each quarter.

As part of the valuation process, we may take into account the following types of factors, if relevant, in determining the fair value of our investments: the enterprise value of a portfolio company (an estimate of the total fair value of the portfolio company's debt and equity), the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flow, the markets in which the portfolio company does business, a comparison of the portfolio company's securities to any similar publicly traded securities, changes in the interest rate environment and the credit markets generally that may affect the price at which similar investments may be made in the future and other relevant factors. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we consider the pricing indicated by the external event to corroborate our valuation.

Because there is not a readily available market value for most of the investments in our portfolio, we value substantially all of our portfolio investments at fair value as determined in good faith by our board of directors, as described herein. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may fluctuate from period to period. Additionally, the fair value of our investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that we may ultimately realize. Further, such investments are generally subject to legal and other restrictions on resale or otherwise are less liquid than publicly traded securities. If we were required to liquidate a portfolio investment in a forced or liquidation sale, we could realize significantly less than the value at which we have recorded it.

In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the gains or losses reflected in the valuations currently assigned.

Our board of directors undertakes a multi-step valuation process each quarter, as described below:

- Our quarterly valuation process begins with each portfolio company or investment being initially valued by the investment professionals responsible for the portfolio investment in conjunction with our portfolio management team.
- Preliminary valuations are reviewed and discussed with our investment adviser's management and investment professionals, and then valuation recommendations are presented to our board of directors.
- The audit committee of our board of directors reviews these valuations, as well as the input of independent third-party valuation firms with respect to the valuations of a minimum of 50% of our portfolio at fair value.

Table of Contents

- Our board of directors discusses valuations and determines the fair value of each investment in our portfolio without a readily available market quotation in good faith based on the input of our investment adviser, audit committee and, where applicable, independent third-party valuation firms.

Effective January 1, 2008, the Company adopted Accounting Standards Codification (ASC) 820-10 (previously Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurements), which expands the application of fair value accounting for investments (see Note 8). Investments acquired as part of the Allied Acquisition were accounted for in accordance with ASC 805-10 (previously SFAS No. 141(R), Business Combinations), which requires that all assets be recorded at fair value. As a result, the initial amortized cost basis and fair value for the acquired investments were the same at April 1, 2010 (see Note 15).

Interest and Dividend Income Recognition

Interest income is recorded on an accrual basis and includes the accretion of discounts and amortization of premiums. Discounts and premiums to par value on securities purchased are accreted/amortized into interest income over the life of the respective security using the effective yield method. The amortized cost of investments represents the original cost adjusted for the accretion of discounts and amortization of premiums, if any.

Loans are generally placed on non-accrual status when principal or interest payments are past due 30 days or more or when there is reasonable doubt that principal or interest will be collected in full. Accrued and unpaid interest is generally reversed when a loan is placed on non-accrual status. Interest payments received on non-accrual loans may be recognized as income or applied to principal depending upon management's judgment regarding collectability. Non-accrual loans are restored to accrual status when past due principal and interest is paid and, in management's judgment, are likely to remain current. The Company may make exceptions to this if the loan has sufficient collateral value and is in the process of collection.

Dividend income on preferred equity securities is recorded as dividend income on an accrual basis to the extent that such amounts are payable by the portfolio company and are expected to be collected. Dividend income on common equity securities is recorded on the record date for private portfolio companies or on the ex-dividend date for publicly traded portfolio companies.

Payment-in-Kind Interest

The Company has loans in its portfolio that contain payment-in-kind (PIK) provisions. The PIK interest, computed at the contractual rate specified in each loan agreement, is added to the principal balance of the loan and recorded as interest income. To maintain the Company's status as a RIC, this non-cash source of income must be paid out to stockholders in the form of dividends, even though the Company has not yet collected the cash. For the three months ended March 31, 2011 and 2010, \$11,038 and \$7,134, respectively, in PIK income were recorded. Of the PIK income recorded for the three months ended March 31, 2011, \$6,667 was PIK income from investments acquired as part of the Allied Acquisition. For the three months ended March 31, 2011 and 2010, \$14,273 and \$8,158, respectively, of PIK income was collected. Of the \$14,273 of PIK income collected for the three months ended March 31, 2011, \$6,754 was from investments acquired as part of the Allied Acquisition.

Capital Structuring Service Fees and Other Income

The Company's investment adviser seeks to provide assistance to our portfolio companies in connection with the Company's investments and in return the Company may receive fees for capital structuring services. These fees are generally only available to the Company as a result of the Company's underlying investments, are normally paid at the closing of the investments, are generally non-recurring and are recognized as revenue when earned upon closing of the investment. The services that the Company's investment adviser provides vary by investment, but generally include reviewing existing credit facilities, arranging bank financing, arranging equity financing, structuring financing from multiple lenders, structuring financing from multiple equity investors, restructuring existing loans, raising equity and debt capital, and providing general financial advice, which concludes upon closing of the investment. Any services of the above nature subsequent to the closing would generally generate a separate fee payable to the Company. In certain instances where the Company is invited to participate as a co-lender in a transaction and does not provide significant services in connection with the investment, a portion of loan fees paid to the Company in such situations will be deferred and amortized over the estimated life of the loan. The Company's investment adviser may also take a seat on the board of directors of a portfolio company, or observe the meetings of the board of directors without taking a formal seat.

Other income includes fees for asset management, management and consulting services, loan guarantees, commitments, amendments and other services rendered by the Company to portfolio companies. Such fees are recognized as income when earned or the services are rendered.

Table of Contents

Foreign Currency Translation

The Company's books and records are maintained in U.S. dollars. Any foreign currency amounts are translated into U.S. dollars on the following basis:

- (1) Fair value of investment securities, other assets and liabilities at the exchange rates prevailing at the end of the period.

- (2) Purchases and sales of investment securities, income and expenses at the exchange rates prevailing on the respective dates of such transactions, income or expenses.

Results of operations based on changes in foreign exchange rates are separately disclosed in the statement of operations. Foreign security and currency translations may involve certain considerations and risks not typically associated with investing in U.S. companies and U.S. government securities. These risks include, but are not limited to, currency fluctuation and revaluations and future adverse political, social and economic developments, which could cause investments in foreign markets to be less liquid and prices more volatile than those of comparable U.S. companies or U.S. government securities.

Accounting for Derivative Instruments

The Company does not utilize hedge accounting and marks its derivatives to market through unrealized gains (losses) in the accompanying statement of operations.

Equity Offering Expenses

The Company's offering costs, excluding underwriters' fees, are charged against the proceeds from equity offerings when received.

Debt Issuance Costs

Debt issuance costs are being amortized over the life of the related debt instrument using the straight line method, which closely approximates the effective yield method.

U.S. Federal Income Taxes

The Company has elected to be treated as a RIC under Subchapter M of the Code and operates in a manner so as to qualify for the tax treatment applicable to RICs. To qualify as a RIC, the Company must, among other things, timely distribute to its stockholders at least 90% of its investment company taxable income, as defined by the Code, for each year. The Company, among other things, has made and intends to continue to make the requisite distributions to its stockholders, which will generally relieve the Company from U.S. federal income taxes.

Depending on the level of taxable income earned in a tax year, we may choose to carry forward taxable income in excess of current year dividend distributions into the next tax year and pay a 4% excise tax on such income, as required. To the extent that the Company determines that its estimated current year annual taxable income will be in excess of estimated current year dividend distributions, the Company accrues excise tax, if any, on estimated excess taxable income. For the three months ended March 31, 2011 a net expense of \$770 was recorded for U.S. federal excise tax. For the three months ended March 31, 2010, a net benefit of \$70 was recorded for U.S. federal excise tax.

Certain of our wholly owned subsidiaries are subject to U.S. federal and state income taxes. For the three months ended March 31, 2011, we recorded a tax expense of approximately \$1,277 for these subsidiaries, and for the three months ended March 31, 2010, we recorded a tax benefit of approximately \$92 for these subsidiaries.

Dividends to Common Stockholders

Dividends and distributions to common stockholders are recorded on the record date. The amount to be paid out as a dividend is determined by our board of directors each quarter and is generally based upon the earnings estimated by management. Net realized capital gains, if any, are generally distributed at least annually, although we may decide to retain such capital gains for investment.

Table of Contents

We have adopted a dividend reinvestment plan that provides for reinvestment of any distributions we declare in cash on behalf of our stockholders, unless a stockholder elects to receive cash. As a result, if our board of directors authorizes, and we declare, a cash dividend, then our stockholders who have not opted out of our dividend reinvestment plan will have their cash dividends automatically reinvested in additional shares of our common stock, rather than receiving the cash dividend. While we generally use primarily newly issued shares to implement the dividend reinvestment plan (especially if our shares are trading at a premium to net asset value), we may purchase shares in the open market in connection with our obligations under the dividend reinvestment plan. In particular, if our shares are trading at a significant enough discount to net asset value and we are otherwise permitted under applicable law to purchase such shares, we intend to purchase shares in the open market in connection with our obligations under our dividend reinvestment plan.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of actual and contingent assets and liabilities at the date of the financial statements and the reported amounts of income or loss and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates include the valuation of investments.

New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board issued Accounting Standard Update 2010-06, Fair Value Measurements and Disclosures (Topic 820), Improving Disclosures About Fair Value Measurements (ASU 2010-06). ASU 2010-06 adds new requirements for disclosures about transfers into and out of Level 1 and 2 inputs and separate disclosures about fair value measurements (see Note 8), particularly with respect to purchases, sales, issuances and settlements relating to Level 3 inputs. It also clarifies existing fair value disclosures about the level of disaggregation, will require that entities provide fair value measurement disclosures for each class of assets and liabilities, and adds requirements relating to inputs and valuation techniques used to measure fair value. Generally, ASU 2010-06 is effective for interim and annual reporting periods beginning after December 15, 2009, however, the disclosures about purchases, sales, issuances and settlements in the roll forward of activity in Level 3 inputs will not be required until fiscal years beginning after December 15, 2010. The adoption of ASU 2010-06 did not have a significant impact on the Company's financial condition and results of operations.

3. AGREEMENTS

Investment Advisory and Management Agreement

The Company is party to an investment advisory and management agreement (the investment advisory and management agreement) with Ares Capital Management. Subject to the overall supervision of our board of directors, Ares Capital Management provides investment advisory and management services to the Company. For providing these services, Ares Capital Management receives a fee from us, consisting of two components a base management fee and an incentive fee. Ares Capital Management has committed to defer up to \$15,000 in base management and incentive fees for each of the first two fiscal years following the Allied Acquisition if certain earnings targets are not met.

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

The base management fee is calculated at an annual rate of 1.5% based on the average value of our total assets (other than cash or cash equivalents but including assets purchased with borrowed funds) at the end of the two most recently completed calendar quarters. The base management fee is payable quarterly in arrears.

The incentive fee has two parts. The first part is calculated and payable quarterly in arrears based on our pre-incentive fee net investment income for the quarter. Pre-incentive fee net investment income means interest income, dividend income and any other income (including any other fees such as commitment, origination, structuring, diligence and consulting fees or other fees that we receive from portfolio companies but excluding fees for providing managerial assistance) accrued during the calendar quarter, minus operating expenses for the quarter (including the base management fee, any expenses payable under the administration agreement, and any interest expense and dividends paid on any outstanding preferred stock, but excluding the incentive fee). Pre-incentive fee net investment income includes, in the case of investments with a deferred interest feature such as market discount, debt instruments with PIK interest, preferred stock with PIK dividends and zero coupon securities, accrued income that we have not yet received in cash. Our investment adviser is not under any obligation to reimburse us for any part of the incentive fee it received that was based on accrued interest that we never actually receive.

Pre-incentive fee net investment income does not include any realized capital gains, realized capital losses or unrealized capital appreciation or depreciation. Because of the structure of the incentive fee, it is possible that we may pay an incentive fee in a quarter where we incur a loss. For example, if we receive pre-incentive fee net investment income in excess of the hurdle rate (as

Table of Contents

defined below) for a quarter, we will pay the applicable incentive fee even if we have incurred a loss in that quarter due to realized and/or unrealized capital losses.

Pre-incentive fee net investment income, expressed as a rate of return on the value of our net assets (defined as total assets less indebtedness and before taking into account any incentive fees payable during the period) at the end of the immediately preceding calendar quarter, is compared to a fixed hurdle rate of 2.0% per quarter. If market credit spreads rise, we may be able to invest our funds in debt instruments that provide for a higher return, which may increase our pre-incentive fee net investment income and make it easier for our investment adviser to surpass the fixed hurdle rate and receive an incentive fee based on such net investment income. To the extent we have retained pre-incentive fee net investment income that has been used to calculate this part of the incentive fee, it is also included in the amount of our total assets (other than cash and cash equivalents but including assets purchased with borrowed funds) used to calculate the 1.5% base management fee.

We pay our investment adviser an incentive fee with respect to our pre-incentive fee net investment income in each calendar quarter as follows:

- no incentive fee in any calendar quarter in which the pre-incentive fee net investment income does not exceed the hurdle rate;
- 100% of our pre-incentive fee net investment income with respect to that portion of such pre-incentive fee net investment income, if any, that exceeds the hurdle rate but is less than 2.5% in any calendar quarter. We refer to this portion of our pre-incentive fee net investment income (which exceeds the hurdle rate but is less than 2.5%) as the catch-up provision. The catch-up is meant to provide our investment adviser with 20% of the pre-incentive fee net investment income as if a hurdle rate did not apply if this net investment income exceeds 2.5% in any calendar quarter; and
- 20% of the amount of our pre-incentive fee net investment income, if any, that exceeds 2.5% in any calendar quarter.

These calculations are adjusted for any share issuances or repurchases during the quarter.

The second part of the incentive fee (the Capital Gains Fee), is determined and payable in arrears as of the end of each calendar year (or, upon termination of the investment advisory and management agreement, as of the termination date) and is calculated at the end of each applicable year by subtracting (a) the sum of our cumulative aggregate realized capital losses and aggregate unrealized capital depreciation from (b) our cumulative aggregate realized capital gains, in each case calculated from October 8, 2004. Realized capital gains and losses include gains and losses on investments and foreign currencies, as well as gains and losses on extinguishment of debt and other assets. If such amount is positive at the end of such year, then the Capital Gains Fee for such year is equal to 20% of such amount, less the aggregate amount of Capital Gains Fees paid in all prior years. If such amount is negative, then there is no Capital Gains Fee for such year.

The cumulative aggregate realized capital gains are calculated as the sum of the differences, if positive, between (a) the net sales price of each investment in our portfolio when sold and (b) the accreted or amortized cost basis of such investment.

The cumulative aggregate realized capital losses are calculated as the sum of the amounts by which (a) the net sales price of each investment in our portfolio when sold is less than (b) the accreted or amortized cost basis of such investment.

The aggregate unrealized capital depreciation is calculated as the sum of the differences, if negative, between (a) the valuation of each investment in our portfolio as of the applicable Capital Gains Fee calculation date and (b) the accreted or amortized cost basis of such investment.

We defer cash payment of any incentive fee otherwise earned by our investment adviser if during the most recent four full calendar quarter period ending on or prior to the date such payment is to be made the sum of (a) the aggregate distributions to our stockholders and (b) the change in net assets (defined as total assets less indebtedness and before taking into account any incentive fees payable during the period) is less than 8.0% of our net assets (defined as total assets less indebtedness) at the beginning of such period. These calculations are adjusted for any share issuances or repurchases. Any deferred incentive fees are carried over for payment in subsequent calculation periods to the extent such payment is payable under the investment advisory and management agreement.

The Capital Gains Fee due to our investment adviser as calculated under the investment advisory and management agreement (as described above) for the three months ended March 31, 2011 was \$0. However, in accordance with GAAP, the Company accrued a capital gains incentive fee of \$15,115 for the three months ended March 31, 2011 bringing the total GAAP accrual to \$30,724 as of

Table of Contents

March 31, 2011. GAAP requires that the capital gains incentive fee accrual consider the cumulative aggregate unrealized capital appreciation in the calculation, as a capital gains incentive fee would be payable if such unrealized capital appreciation were realized, even though such unrealized capital appreciation is not permitted to be considered in calculating the fee actually payable under the investment advisory and management agreement. This GAAP accrual is calculated using the aggregate cumulative realized capital gains and losses and aggregate cumulative unrealized capital depreciation included in the calculation of the Capital Gains Fee plus the aggregate cumulative unrealized capital appreciation. If such amount is positive at the end of a period, then GAAP requires us to record a capital gains incentive fee equal to 20% of such amount, less the aggregate amount of actual Capital Gains Fees paid in all prior years. If such amount is negative, then there is no accrual for such year. There can be no assurance that such unrealized capital appreciation will be realized in the future. There was no similar GAAP accrual for the three months ended March 31, 2010.

For the three months ended March 31, 2011, base management fees were \$16,730, incentive management fees related to pre-incentive fee net investment income were \$15,826 and incentive management fees related to realized capital gains were \$15,115.

As of March 31, 2011, \$63,280 was included in management and incentive fees payable in the accompanying consolidated balance sheet, of which \$32,556 is currently payable to the Company's investment adviser under the investment advisory and management agreement.

For the three months ended March 31, 2010, base management fees were \$8,456, incentive management fees related to realized pre-incentive fee net investment income were \$8,144 and there were no incentive management fees related to capital gains.

Administration Agreement

We are party to a separate administration agreement, referred to herein as the administration agreement, with our administrator, Ares Operations an affiliate of our investment adviser and a wholly owned subsidiary of Ares Management. Pursuant to the administration agreement, Ares Operations furnishes us with office equipment and clerical, bookkeeping and record keeping services at our office facilities. Under the administration agreement, Ares Operations also performs, or oversees the performance of, our required administrative services, which include, among other things, providing assistance in accounting, legal, compliance, operations, technology, and investor relations, being responsible for the financial records that we are required to maintain and preparing reports to our stockholders and reports filed with the SEC. In addition, Ares Operations assists us in determining and publishing our net asset value, oversees the preparation and filing of our tax returns and the printing and dissemination of reports to our stockholders, and generally oversees the payment of our expenses and the performance of administrative and professional services rendered to us by others. Payments under our administration agreement are equal to an amount based upon our allocable portion of Ares Operations' overhead and other expenses (including travel expenses) incurred by Ares Operations in performing its obligations under the administration agreement, including our allocable portion of the cost of certain of our officers (including our chief compliance officer, chief financial officer, general counsel, secretary and treasurer) and their respective staffs. The administration agreement may be terminated by either party without penalty upon 60 days' written notice to the other party.

For the three months ended March 31, 2011 and 2010, we incurred \$2,425 and \$1,231, respectively, in administrative fees. As of March 31, 2011, \$2,425 was unpaid and included in accounts payable and accrued expenses in the accompanying consolidated balance sheet.

As of December 31, 2010, 3.8% of total investments at amortized cost (or 1.3% of total investments at fair value), were on non-accrual status, including 1.5% of total investments at amortized cost (or 1.0% of total investments at fair value) of investments acquired as part of the Allied Acquisition.

SSLP

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

In October 2009, the Company completed its acquisition from Allied Capital of subordinated notes (the "SSLP Notes") issued by the Senior Secured Loan Fund LLC, now called the Senior Secured Loan Program (the "SSLP"). The SSLP was formed in December 2007 to invest in stretch senior or unitranche loans (loans that combine both senior and subordinated debt, generally in a first lien position) of middle-market companies.

The SSLP has committed capital of approximately \$5.1 billion, approximately \$2.9 billion in aggregate principal amount of which was funded at March 31, 2011. At March 31, 2011, the Company's total commitment to the SSLP was \$958,794, of which \$287,359 was unfunded. The SSLP is capitalized as transactions are completed. Together with GE Commercial Finance Investment Advisory Services LLC ("GE"), we serve as co-managers of the SSLP and both investment and portfolio management decisions made by the SSLP as well as decisions relating to the operations of the SSLP must generally be approved by both the Company and GE. The amortized cost and fair value of the SSLP Notes was \$660,712 and \$681,255, respectively, at March 31, 2011, and \$537,439 and \$561,674, respectively, at December 31, 2010. The SSLP Notes pay a weighted average coupon of approximately LIBOR plus 8.0% and also

Table of Contents

entitle the Company to receive a portion of the excess cash flow from the loan portfolio, which may result in a return greater than the contractual coupon. The Company is also entitled to certain other sourcing and management fees in connection with the SSLP. The Company's yield on its investment in the SSLP at fair value was 16.0% and 15.8% at March 31, 2011 and December 31, 2010, respectively. For the three months ended March 31, 2011 and 2010, the Company earned interest income of \$23,321 and \$7,237, respectively, on the SSLP Notes.

As of March 31, 2011 and December 31, 2010, the SSLP had total assets of \$2.9 billion and \$2.6 billion, respectively. GE's investment in the SSLP consisted of senior notes of \$2.1 billion and \$1.9 billion and subordinated notes of \$96 million and \$78 million at March 31, 2011 and December 31, 2010, respectively. The SSLP Notes owned by the Company are junior to the senior notes invested by GE and the Company owned 87.5% of the outstanding class of the subordinated notes as of March 31, 2011.

The SSLP's portfolio consisted of senior and unitranche loans to 22 and 20 different issuers as of March 31, 2011 and December 31, 2010, respectively. At March 31, 2011 and December 31, 2010, the portfolio was comprised of all first lien senior secured debt issued by U.S. middle-market companies and none of the loans were on non-accrual status. At March 31, 2011 and December 31, 2010, the single largest issuer in the SSLP's portfolio in aggregate principal amount was \$290.0 million and \$270.0 million, respectively, and the top five issuers totaled \$1.3 billion and \$1.1 billion, respectively. The portfolio companies in the SSLP are in industries similar to the companies in Ares Capital's portfolio.

5. BORROWINGS

In accordance with the Investment Company Act, with certain limited exceptions, the Company is only allowed to borrow amounts such that its asset coverage, as defined in the Investment Company Act, is at least 200% after such borrowing. As of March 31, 2011 our asset coverage for borrowed amounts was 321%.

Our debt obligations consisted of the following as of March 31, 2011 and December 31, 2010:

	March 31, 2011		As of		December 31, 2010

(1) Except for the Allied Unsecured Notes and the Convertible Notes (as defined below), all carrying values are the same as the principal amounts outstanding.

(2) Subject to borrowing base and leverage restrictions.

(3) Includes an accordion feature that allows us, under certain circumstances, to increase the size of the facility to a maximum of \$1,050,000.

(4) Represents the aggregate principal amount outstanding of the applicable series of notes less the unaccreted discount initially recorded as a part of the Allied Acquisition. The total unaccreted discount on the Allied Unsecured Notes was \$51,663 and \$56,633 at March 31, 2011 and December 31, 2010, respectively.

Table of Contents

(5) Represents the aggregate principal amount outstanding of the Convertible Notes (as defined below) less the unaccreted discount initially recorded upon issuance of the Convertible Notes. The total unaccreted discount for the February 2016 Convertible Notes and the June 2016 Convertible Notes was \$39,027 and \$16,071, respectively, at March 31, 2011.

(6) Total principal amount of debt outstanding totaled \$1,534,805 and \$1,435,141 at March 31, 2011 and December 31, 2010, respectively.

The weighted average stated interest rate of all our debt obligations at principal as of March 31, 2011 and December 31, 2010 was 5.7% and 5.2%, respectively.

Revolving Funding Facility

In October 2004, we formed Ares Capital CP Funding LLC (Ares Capital CP), a wholly owned subsidiary of the Company, through which we established a revolving securitized facility (as amended, the Revolving Funding Facility). The Revolving Funding Facility allows Ares Capital CP to borrow up to \$400 million. In connection with the January 22, 2010 amendment, we entered into an Amended and Restated Purchase and Sale Agreement with Ares Capital CP Funding Holdings LLC, our wholly owned subsidiary (CP Holdings), pursuant to which we may sell to CP Holdings certain loans that we have originated or acquired (the Loans) from time to time, which CP Holdings will subsequently sell to Ares Capital CP, which is a wholly owned subsidiary of CP Holdings. The Revolving Funding Facility is secured by all of the assets held by, and the membership interest in, Ares Capital CP.

The January 22, 2010 amendment to the Revolving Funding Facility, among other things, extended the maturity date of the facility to January 22, 2013. On January 18, 2011, we and Ares Capital CP amended the Revolving Funding Facility to, among other things, provide for a three year reinvestment period until January 18, 2014 (with two one-year extension options, subject to our and our lenders consent) and extend the stated maturity date to January 18, 2016 (with two one-year extension options, subject to our and our lenders consent).

As part of the Revolving Funding Facility, we and Ares Capital CP are subject to limitations as to how borrowed funds may be used including restrictions on geographic concentrations, sector concentrations, loan size, payment frequency and status, average life, collateral interests and investment ratings as well as regulatory restrictions on leverage which may affect the amount of VFC that we may issue from time to time. There are also certain requirements relating to portfolio performance, including required minimum portfolio yield and limitations on delinquencies and charge offs, violation of which could result in the early amortization of the Revolving Funding Facility and limit further advances under the Revolving Funding Facility and in some cases could be an event of default. The Revolving Funding Facility is also subject to a borrowing base that applies different advance rates to assets held in Ares Capital CP. Such limitations, requirements, and associated defined terms are as provided for in the documents governing the Revolving Funding Facility. As of March 31, 2011, the Company and Ares Capital CP were in material compliance with the terms of the Revolving Funding Facility.

As of March 31, 2011, there were no amounts outstanding under the Revolving Funding Facility and as of December 31, 2010, there was \$242,050 outstanding under the Revolving Funding Facility. The Revolving Funding Facility is secured by all the assets held by Ares Capital CP.

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

Prior to the January 22, 2010 amendment, the interest rate charged on the Revolving Funding Facility was the commercial paper rate plus 3.50%. After January 22, 2010, subject to certain exceptions, the interest charged on the Revolving Funding Facility is based on LIBOR plus an applicable spread of between 2.25% and 3.75% or on a base rate (which is the higher of a prime rate, or the federal funds rate plus 0.50%) plus an applicable spread of between 1.25% to 2.75%, in each case, based on a pricing grid depending upon our credit rating. As of March 31, 2011, for the three months ended March 31, 2011 and for the period from January 22, 2010 through March 31, 2010, the effective LIBOR spread under the Revolving Funding Facility was 2.75%. As of March 31, 2011 and December 31, 2010, the rate in effect was one month LIBOR, which was 0.24% and 0.26%, respectively.

We are also required to pay a commitment fee of between 0.50% and 2.00% depending on the usage level on any unused portion of the Revolving Funding Facility.

The components of interest and credit facility fees expense, cash paid for interest expense, average interest rates (i.e., rate in effect plus the spread) and average outstanding balances for the Revolving Funding Facility were as follows:

Table of Contents

	For the three months ended March 31,	
	2011	2010
Stated interest expense	\$ 677	\$ 1,710
Facility fees	1,012	657

Revolving Credit Facility

In December 2005, we entered into a senior secured revolving credit facility (as amended and restated, the Revolving Credit Facility), under which, as amended, the lenders agreed to extend credit to the Company. The Revolving Credit Facility matures on January 22, 2013 and has commitments totaling \$810,000. The Revolving Credit Facility also includes an accordion feature that allows the Company under certain circumstances, to increase the size of the facility to a maximum of \$1,050,000. The Revolving Credit Facility generally requires payments of interest at the end of each LIBOR interest period, but no less frequently than quarterly, on LIBOR-based loans, and monthly payments of interest on other loans. All principal is due upon maturity.

Under the Revolving Credit Facility, we are required to comply with various covenants, reporting requirements and other customary requirements for similar revolving credit facilities, including, without limitation, covenants related to: (a) limitations on the incurrence of additional indebtedness and liens, (b) limitations on certain investments, (c) limitations on certain restricted payments, (d) maintaining a certain minimum stockholders' equity, (e) maintaining a ratio of total assets (less total liabilities) to total indebtedness, of the Company and its subsidiaries, of not less than 2.0:1.0, (f) maintaining minimum liquidity, and (g) limitations on the creation or existence of agreements that prohibit liens on certain properties of the Company and its subsidiaries. As of March 31, 2011, the Company was in material compliance with the terms of the Revolving Credit Facility.

In addition to the asset coverage ratio described above, borrowings under the Revolving Credit Facility (and the incurrence of certain other permitted debt) will be subject to compliance with a borrowing base that will apply different advance rates to different types of assets in our portfolio.

As of March 31, 2011, there were no amounts outstanding under the Revolving Credit Facility and December 31, 2010, there was \$146,000 outstanding under the Revolving Credit Facility. The Revolving Credit Facility also provides for a sub-limit for the issuance of letters of credit for up to an aggregate amount of \$100,000 as of March 31, 2011 and December 31, 2010. As of March 31, 2011 and December 31, 2010, the Company had \$4,724 and \$7,281 in standby letters of credit issued through the Revolving Credit Facility. The amount available for borrowing under the Revolving Credit Facility is reduced by any standby letters of credit issued. At March 31, 2011, subject to borrowing base availability, there was \$805,276 available for borrowing (net of standby letters of credit issued) under the Revolving Credit Facility.

Prior to amending and restating the Revolving Credit Facility on January 22, 2010, subject to certain exceptions, pricing on the Revolving Credit Facility was based on LIBOR plus 1.00% or on an alternate base rate (which was the highest of a prime rate, the federal funds rate plus 0.50%, or one month LIBOR plus 1.00%). After January 22, 2010, subject to certain exceptions, pricing under the Revolving Credit Facility is based on LIBOR plus an applicable spread of between 2.50% and 4.00% or on the alternate base rate plus an applicable spread of between 1.50% and

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

3.00%, in each case, based on a pricing grid depending upon our credit rating. As of March 31, 2011, for the three months ended March 31, 2011 and for the period from January 22, 2010 through March 31, 2010, the effective LIBOR spread under the Revolving Credit Facility was 3.00%. As of March 31, 2011, the one, two, three and six month LIBOR was 0.24%, 0.27%, 0.30% and 0.46%, respectively. As of December 31, 2010, the one, two, three and six month LIBOR was 0.26%, 0.28%, 0.30% and 0.46%, respectively.

In addition to the stated interest expense on the Revolving Credit Facility, the Company is required to pay a commitment fee of 0.50% per annum on any unused portion of the Revolving Credit Facility and a letter of credit fee of 3.25% per annum on letters of credit issued, both of which are payable quarterly. In connection with the expansion and extension of the Revolving Credit Facility in January 2010, we paid arrangement fees totaling approximately \$15,600.

With certain exceptions, the Revolving Credit Facility is secured by substantially all of the assets in our portfolio (other than investments held by Ares Capital CP under the Revolving Funding Facility, those held as a part of the Debt Securitization, discussed below, and certain other investments).

The components of interest and credit facility fees expense, cash paid for interest expense, average interest rates (i.e., rate in effect plus the spread) and average outstanding balances for the Revolving Credit Facility were as follows:

Table of Contents

	For the three months ended March 31,			
	2011		2010	
Stated interest expense(1)	\$	222	\$	2,633

Average stated interest rate(1)		3.3%		3.2%
Average outstanding balance	\$	26,656	\$	325,216

(1) The stated interest expense, cash paid for interest expense and average stated interest rate for the three months ended March 31, 2010 reflect the impact of the interest rate swap agreement entered into by the Company in October 2008 and terminated in December 2010 whereby the Company paid a fixed interest rate of 2.985% and received a floating rate based on the prevailing three-month LIBOR. See Note 6 for more information on the interest rate swap agreement.

Debt Securitization

In July 2006, through ARCC Commercial Loan Trust 2006, a vehicle serviced by our wholly owned subsidiary, ARCC CLO 2006 LLC, the Company completed a \$400,000 debt securitization (the Debt Securitization) and issued approximately \$314,000 aggregate principal amount of asset-backed notes (including revolving notes in an aggregate amount of up to \$50,000, \$18,347 of which were drawn down as of March 31, 2011) (the CLO Notes) to third parties that were secured by a pool of middle-market loans purchased or originated by the Company. The Company initially retained approximately \$86,000 of aggregate principal amount of certain BBB and non-rated securities in the Debt Securitization and has subsequently repurchased \$34,790 of the CLO Notes, bringing our total holdings of CLO Notes to \$120,790 (the Retained Notes). The CLO Notes are included in the consolidated balance sheet.

During the three months ended March 31, 2011, we repaid \$5,639, \$3,760 and \$7,303 of the Class A-1-A, Class A-1A-VFN and Class A-2A Notes, respectively. The CLO Notes mature on December 20, 2019, and, as of March 31, 2011, there was \$138,595 outstanding under the Debt Securitization (excluding the Retained Notes). The blended pricing of the CLO Notes, excluding fees, is approximately 3-month LIBOR plus 37 basis points.

During the first five years from the closing date, principal collections received on the underlying collateral may be used to purchase new collateral, allowing us to maintain the initial leverage in the securitization for the entire five-year period. This reinvestment period ends on June 21, 2011.

The Class A-1A VFN Notes are a revolving class of secured notes and allow us to borrow and repay AAA/Aaa financing over the initial five-year period thereby providing more efficiency in funding costs. All of the notes are secured by the assets of ARCC Commercial Loan Trust 2006, including commercial loans totaling \$308,100 as of the closing date, which were sold to the trust by the Company, the originator and servicer of the assets. As of March 31, 2011, there were 41 investments securing the CLO Notes. Additional commercial loans have been purchased by the trust from the Company primarily using the proceeds from the Class A-1A VFN Notes as well as proceeds from loan repayments. The pool of commercial loans in the trust must meet certain requirements, including, but not limited to, asset mix and concentration, collateral coverage, term, agency rating, minimum coupon, minimum spread and sector diversity requirements. Under the terms of the Debt Securitization, up to 15% of the collateral may be subordinated loans that are neither first nor second lien loans. As of March 31, 2011, the Company was in material compliance with the terms of the Debt Securitization.

Unsecured Notes

Allied Unsecured Notes

As part of the Allied Acquisition, the Company assumed all outstanding debt obligations of Allied Capital, including Allied Capital's unsecured notes which consisted of 6.625% Notes due on July 15, 2011 (the 2011 Notes), 6.000% Notes due on April 1, 2012 (the 2012 Notes) and 6.875% Notes due on April 15, 2047 (the 2047 Notes) and, together with the 2011 Notes and the 2012 Notes, the Allied Unsecured Notes).

As of March 31, 2011 and December 31, 2010, the Company had the following outstanding Allied Unsecured Notes:

	As of			
	March 31, 2011		December 31, 2010	
	Outstanding Principal	Carrying Value(1)	Outstanding Principal	Carrying Value(1)
2011 Notes	\$ 161,210	\$ 158,705	\$ 300,584	\$ 296,258

(1) Represents the principal amount of the Allied Unsecured Notes less the unaccreted discount initially recorded as a part of the Allied Acquisition

On March 16, 2011, we redeemed the remaining balance of the 2011 Notes for a total redemption price (including a redemption premium) of approximately \$306,800, which resulted in a loss on the extinguishment of debt of \$8,860, in accordance with the terms of the indenture governing the 2011 Notes. The 2012 Notes bear interest at a rate of 6.000% and mature on April 1, 2012. The 2012 Notes require payment of interest semi-annually, and all principal is due upon maturity. On March 28, 2011 we notified the holders of the 2012 Notes that we were redeeming the \$161,210 aggregate principal amount of the 2012 Notes remaining

outstanding, together with a redemption premium, in accordance with the terms of the indenture governing the 2012 Notes (see Note 17).

The 2047 Notes bear interest at a rate of 6.875% and mature on April 15, 2047. The 2047 Notes require payment of interest quarterly, and all principal is due upon maturity. These notes are redeemable in whole or in part at any time or from time to time on or after April 15, 2012, at a par redemption price of \$25 per security plus accrued and unpaid interest and upon the occurrence of certain tax events as stipulated in the notes.

For the three months ended March 31, 2011, the Company incurred \$10,520 of stated interest expense in connection with the Allied Unsecured Notes, respectively, and the cash paid for interest on the Allied Unsecured Notes was \$17,284. In accordance with ASC 805-10, the initial carrying value of the Allied Unsecured Notes was equal to the fair value as of April 1, 2010 resulting in an initial unaccreted discount from the principal value of the Allied Unsecured Notes of approximately \$65,800. For the three months ended March 31, 2011, we recorded \$2,303 of accretion expense related to this discount which was included in interest and credit facility fees in the accompanying statement of operations.

2040 Notes

On October 21, 2010, we issued \$200,000 in aggregate principal amount of senior unsecured notes that mature on October 15, 2040 (the 2040 Notes) that may be redeemed in whole or in part at our option at any time or from time to time on or after October 15, 2015, at a par redemption price of \$25 per security plus accrued and unpaid interest. The principal amount of the 2040 Notes will be payable at maturity. The 2040 Notes bear interest at a rate of 7.75% per year, payable quarterly commencing on January 15, 2011. For the three months ended March 31, 2011, the Company incurred \$3,875 of interest expense on the 2040 Notes and the cash paid for interest on the 2040 Notes was \$3,617. Also for the three months ended March 31, 2011, the Company incurred \$58 in amortization of debt issuance costs related to the 2040 Notes.

The Allied Unsecured Notes and the 2040 Notes contain certain covenants, including covenants requiring Ares Capital to comply with Section 18(a)(1)(A) as modified by Section 61(a)(1) of the Investment Company Act and to provide financial information to the holders of such notes under certain circumstances. These covenants are subject to important limitations and exceptions. As of March 31, 2011, the Company was in material compliance with the limitations and requirements of the Allied Unsecured Notes and the 2040 Notes.

Convertible Notes

February 2016 Convertible Notes. In January 2011, we issued \$575,000 of unsecured convertible senior notes that mature on February 1, 2016 (the February 2016 Convertible Notes), unless previously converted or repurchased in accordance with their terms. We do not have the right to redeem the February 2016 Convertible Notes prior to maturity. The February 2016 Convertible Notes bear interest at a rate of 5.75% per year, payable semi-annually. In certain circumstances, the February 2016 Convertible Notes will be convertible into cash, shares of Ares Capital's common stock or a combination of cash and shares of our common stock, at our election, at an initial conversion rate of 52.2766 shares of common stock per one thousand dollar principal amount of the February 2016 Convertible Notes, which is equivalent to an initial conversion price of approximately \$19.13 per share of our common stock, subject to customary anti-dilution adjustments. The initial conversion price was approximately 17.5% above the \$16.28 per share closing price of our common stock on January 19, 2011. At March 31, 2011, the principal amount of the February 2016 Convertible Notes exceeded the value of the underlying shares multiplied times the per share closing price of our common stock.

The February 2016 Convertible Notes are Ares Capital's senior unsecured obligations and rank senior in right of payment to our existing and future indebtedness that is expressly subordinated in right of payment to the February 2016 Convertible Notes; equal in right of payment to our existing and future unsecured indebtedness that is not so subordinated; effectively junior in right of payment to any of our secured indebtedness (including existing unsecured indebtedness that we later secure) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness (including trade payables) incurred by our subsidiaries, financing vehicles or similar facilities.

Prior to the close of business on the business day immediately preceding August 15, 2015, holders may convert their February 2016 Convertible Notes only under certain circumstances set forth in the indenture governing the terms of the February 2016 Convertible Notes (the "February 2016 Indenture"). On or after August 15, 2015 until the close of business on the scheduled trading day immediately preceding February 1, 2016, holders may convert their February 2016 Convertible Notes at any time. Upon conversion, we will pay or deliver, as the case may be, at our election, cash, shares of our common stock or a combination of cash and shares of our common stock, subject to the requirements of the February 2016 Indenture.

Table of Contents

In addition, if we engage in certain corporate events as described in the February 2016 Indenture, holders of the February 2016 Convertible Notes may require us to repurchase for cash all or part of their February 2016 Convertible Notes at a repurchase price equal to 100% of the principal amount of the February 2016 Convertible Notes to be repurchased, plus accrued and unpaid interest through, but excluding, the required repurchase date.

The February 2016 Indenture contains certain covenants, including covenants requiring us to comply with Section 18(a)(1)(A) as modified by Section 61(a)(1) of the Investment Company Act and to provide financial information to the holders of the February 2016 Convertible Notes under certain circumstances. These covenants are subject to important limitations and exceptions that are described in the February 2016 Indenture. As of March 31, 2011, the Company was in material compliance with the covenants of the February 2016 Indenture.

The February 2016 Convertible Notes are accounted for in accordance with ASC 470-20 (previously FASB Staff Position No. APB 14-1, Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement)). Upon conversion of any February 2016 Convertible Note, we intend to pay the outstanding principal amount in cash and to the extent that the conversion value exceeds the principal amount, we have the option to pay in cash or shares of our common stock (or a combination of cash and shares) in respect of the excess amount, subject to the requirements of the February 2016 Indenture. The Company has determined that the embedded conversion option in the February 2016 Convertible Notes is not required to be separately accounted for as a derivative under GAAP. In accounting for the February 2016 Convertible Notes, we estimated at the time of issuance that the values of the debt and equity components of the February 2016 Convertible Notes were approximately 93% and 7%, respectively. The original issue discount equal to the equity component of 7% of the February 2016 Convertible Notes was recorded in capital in excess of par value in the accompanying consolidated balance sheet. As a result, we will record interest expense comprised of both stated interest expense as well as accretion of the original issue discount. Additionally, the issuance costs associated with the February 2016 Convertible Notes were allocated to the debt and equity components in proportion to the allocation of the proceeds and accounted for as debt issuance costs and equity issuance costs, respectively. At the time of issuance, the debt issuance costs and equity issuance costs were \$14,672 and \$1,104, respectively. At the time of issuance and as of March 31, 2011, the equity component, net of issuance costs, as recorded in the capital in excess of par value in the balance sheet was \$40,250. As of March 31, 2011, the components of the carrying value of the February 2016 Convertible Notes were as follows:

	As of March 31, 2011	
Principal amount of debt	\$	575,000
Original issue discount, net of accretion		(39,027)
Carrying value of debt	\$	535,973

For the three months ended March 31, 2011, the components of interest expense and cash paid for interest expense for the February 2016 Convertible Notes were as follows:

	For the three months ended March 31, 2011	
Stated interest expense	\$	6,061
Accretion of original issue discount		1,223
Amortization of debt issuance cost		532
Total interest expense	\$	7,816
Cash paid for interest expense	\$	

The estimated effective interest rate of the debt component of the February 2016 Convertible Notes, equal to the stated interest of 5.75% plus the accretion of the original issue discount, was approximately 7.4% for the three months ended March 31, 2011.

June 2016 Convertible Notes. In March 2011, we issued \$230,000 of unsecured convertible senior notes that mature on June 1, 2016 (the June 2016 Convertible Notes and, together with the February 2016 Convertible Notes, the Convertible Notes), unless previously converted or repurchased in accordance with their terms. We do not have the right to redeem the June 2016 Convertible Notes prior to maturity. The June 2016 Convertible Notes bear interest at a rate of 5.125% per year, payable semi-annually. In certain circumstances, the June 2016 Convertible Notes will be convertible into cash, shares of Ares Capital's common stock or a combination of cash and shares of our common stock, at our election, at an initial conversion rate of 52.5348 shares of common stock per one thousand dollar principal amount of the June 2016 Convertible Notes, which is equivalent to an initial conversion price of approximately \$19.04 per share of our common stock, subject to customary anti-dilution adjustments. The initial conversion price was approximately 17.5% above the \$16.20 per share closing price of our common stock on March 22,

2011. At March 31, 2011, the principal amount of the June 2016 Convertible Notes exceeded the value of the underlying shares multiplied times the per share closing price of our common stock.

The June 2016 Convertible Notes are our senior unsecured obligations and rank senior in right of payment to our existing and future indebtedness that is expressly subordinated in right of payment to the June 2016 Convertible Notes; equal in right of payment to our existing and future unsecured indebtedness that is not so subordinated; effectively junior in right of payment to any of our secured indebtedness (including existing unsecured indebtedness that we later secure) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness (including trade payables) incurred by our subsidiaries, financing vehicles or similar facilities.

Prior to the close of business on the business day immediately preceding December 15, 2015, holders may convert their June 2016 Convertible Notes only under certain circumstances set forth in the indenture governing the terms of the June 2016 Convertible Notes (the "June 2016 Indenture"). On or after December 15, 2015 until the close of business on the scheduled trading day immediately preceding June 1, 2016, holders may convert their June 2016 Convertible Notes at any time. Upon conversion, we will pay or deliver, as the case may be, at our election, cash, shares of our common stock or a combination of cash and shares of our common stock, subject to the requirements of the June 2016 Indenture.

In addition, if we engage in certain corporate events as described in the June 2016 Indenture, holders of the June 2016 Convertible Notes may require us to repurchase for cash all or part of their June 2016 Convertible Notes at a repurchase price equal to 100% of the principal amount of the June 2016 Convertible Notes to be repurchased, plus accrued and unpaid interest through, but excluding, the required repurchase date.

The June 2016 Indenture contains certain covenants, including covenants requiring us to comply with Section 18(a)(1)(A) as modified by Section 61(a)(1) of the Investment Company Act and to provide financial information to the holders of the June 2016 Convertible Notes under certain circumstances. These covenants are subject to important limitations and exceptions that are described in the June 2016 Indenture. As of March 31, 2011, the Company was in material compliance with the covenants of the June 2016 Indenture.

The June 2016 Convertible Notes are accounted for in accordance with ASC 470-20 (previously FASB Staff Position No. APB 14-1, "Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement)"). Upon conversion of any June 2016 Convertible Note, we intend to pay the outstanding principal amount in cash and to the extent that the conversion value exceeds the principal amount, we have the option to pay in cash or shares of our common stock (or a combination of cash and shares) in respect of the excess amount, subject to the requirements of the June 2016 Indenture. The Company has determined that the embedded conversion option in the June 2016 Convertible Notes is not required to be separately accounted for as a derivative under GAAP. In accounting for the June 2016 Convertible Notes, we estimated at the time of issuance that the values of the debt and equity components of the June 2016 Convertible Notes were approximately 93% and 7%, respectively. The original issue discount equal to the equity component of 7% of the June 2016 Convertible Notes was recorded in "capital in excess of par value" in the accompanying consolidated balance sheet. As a result, we will record interest expense comprised of both stated interest expense as well as accretion of the original issue discount. Additionally, the debt issuance costs associated with the June 2016 Convertible Notes were allocated to the debt and equity components in proportion to the allocation of the proceeds and accounted for as debt issuance costs and equity issuance costs, respectively. At the time of issuance, the debt issuance costs and equity issuance costs were \$5,348 and \$403, respectively. At the time of issuance and as of March 31, 2011, the equity component, net of issuance costs as recorded in the "capital in excess of par value" in the balance sheet was \$16,100. As of March 31, 2011, the components of the carrying value of the June 2016 Convertible Notes were as follows:

	As of March 31, 2011	
Principal amount of debt	\$	230,000

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

Original issue discount, net of accretion		(16,071)

For the three months ended March 31, 2011, the components of interest expense and cash paid for interest expense for the June 2016 Convertible Notes were as follows:

	For the three months ended March 31, 2011	
Stated interest expense	\$	131
Accretion of original issue discount		29
Amortization of debt issuance cost		9
Total interest expense	\$	169

Table of Contents

The estimated effective interest rate of the debt component of the June 2016 Convertible Notes equal to the stated interest of 5.125% plus the accretion of the original issue discount, was approximately 6.7% for the three months ended March 31, 2011.

6. DERIVATIVE INSTRUMENTS

In October 2008, we entered into an interest rate swap agreement that terminated on December 20, 2010 to mitigate our exposure to adverse fluctuations in interest rates for a total notional amount of \$75,000. Under the interest rate swap agreement, we paid a fixed interest rate of 2.985% and receive a floating rate based on the prevailing three-month LIBOR. For the three months ended March 31, 2010, we recognized \$333 in unrealized appreciation related to this swap agreement. Upon termination of this swap agreement in 2010, no realized gain or loss was recognized.

7. COMMITMENTS AND CONTINGENCIES*Portfolio Company Commitments*

The Company has various commitments to fund investments in its portfolio, including commitments to fund revolving senior and subordinated loans, subordinated notes in the SSLP, and private equity investment partnerships.

As of March 31, 2011 and December 31, 2010, the Company had the following commitments to fund various revolving senior secured and subordinated loans:

	As of	
	March 31, 2011	December 31, 2010
Total revolving commitments	\$ 288,475	\$ 260,691
Less: funded commitments	(63,106)	(59,980)
Total unfunded commitments	225,369	200,711
Less: commitments substantially at discretion of the Company	(16,648)	(19,922)
Less: unavailable commitments due to borrowing base or other covenant restrictions	(5,106)	(6,738)
Total net adjusted unfunded revolving commitments	\$ 203,615	\$ 174,051

Of the total net adjusted unfunded commitments as of March 31, 2011 and December 31, 2010, \$31,500 and \$33,837, respectively, are from commitments for investments acquired as part of the Allied Acquisition. Also, as of March 31, 2011, \$219,500 of the total revolving commitments extend beyond the maturity date for our Revolving Credit Facility. Included within the total revolving commitments as of March 31, 2011 are commitments to issue up to \$2,658 in standby letters of credit through a financial intermediary on behalf of certain portfolio companies. Under these arrangements, if the standby letters of credit were to be issued, the Company would be required to make payments to third parties if the portfolio companies were to default on their related payment obligations. As of March 31, 2011, the Company had \$2,045 in standby letters of credit issued and outstanding on behalf of the portfolio companies, of which no amounts were recorded as a liability on our

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

balance sheet as such letters of credit are considered in the valuation of the investments in the portfolio company. Of these letters of credit, \$50 expire in February 2011, \$5 expire in April 2011, \$1,660 expire in September 2011, \$170 expire in December 2011, and \$160 expire in January 2012.

As of March 31, 2011 and December 31, 2010, the Company had the following commitments to fund subordinated notes in the SSLP:

	As of	
	March 31, 2011	December 31, 2010
Total SSLP commitments	\$ 958,794	\$ 958,794
Less: funded SSLP commitments	(671,435)	(548,161)
Total unfunded SSLP commitments	287,359	410,633
Less: SSLP commitments substantially at discretion of the Company(1)	(287,359)	(410,633)
Total net adjusted unfunded SSLP commitments	\$	\$

Table of Contents

(1) Investments made by the SSLP must be approved by both GE and the Company.

See Note 4 for more information on the Company's commitment to the SSLP.

As of March 31, 2011 and December 31, 2010, the Company was subject to subscription agreements to fund equity investments in private equity investment partnerships:

	March 31, 2011	As of	December 31, 2010
Total private equity commitments	\$ 514,936	\$	537,600
Less: funded private equity commitments	(90,420)		(104,300)
Total unfunded private equity commitments	424,516		433,300
Less: private equity commitments substantially at discretion of the Company	(412,926)		(400,400)
Total net adjusted unfunded private equity commitments	\$ 11,590	\$	32,900

Of the total net adjusted unfunded private equity commitments as of March 31, 2011 and December 31, 2010, \$3,487 and \$11,500, respectively, are for investments acquired as part of the Allied Acquisition.

In the ordinary course of business, Allied Capital had issued guarantees on behalf of certain portfolio companies. Under these arrangements, payments would be required to be made to third parties if the portfolio companies were to default on their related payment. As part of the Allied Acquisition, the Company assumed such outstanding guarantees or similar obligations. As a result, as of March 31, 2011 and December 31, 2010, the Company had outstanding guarantees or similar obligations totaling \$800.

Further in the ordinary course of business, we may sell certain of our investments to third party purchasers. In particular, since the Allied Acquisition we have sold and currently continue to seek opportunities to sell, certain of Allied Capital's equity investments larger than those we have historically made and controlled portfolio company equity investments. In connection with these sales (as well as certain other sales) we have, and may continue to do so in the future, agreed to indemnify such purchasers for future liabilities arising from the investments and the related sale transaction. Such indemnification provisions may give rise to future liabilities.

As of March 31, 2011, one of the Company's portfolio companies, Ciena Capital LLC (Ciena), had one non-recourse securitization Small Business Administration (SBA) loan warehouse facility, which has reached its maturity date but remains outstanding. Ciena is working with the providers of the SBA loan warehouse facility with regard to the repayment of that facility. Allied Capital had previously issued a performance guaranty (which Ares Capital succeeded to as a result of the Allied Acquisition) whereby Ares Capital must indemnify the warehouse providers for any damages, losses, liabilities and related costs and expenses that they may incur as a result of Ciena's failure to perform any of its obligations as loan originator, loan seller or loan servicer under the warehouse facility. As of March 31, 2011, there are no known issues or claims with respect to this performance guaranty.

8. FAIR VALUE OF FINANCIAL INSTRUMENTS

Effective January 1, 2008, the Company adopted ASC 825-10 (previously SFAS No. 159, the Fair Value Option for Financial Assets and Liabilities), which provides companies the option to report selected financial assets and liabilities at fair value. ASC 825-10 also establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities and to more easily understand the effect of the company's choice to use fair value on its earnings. ASC 825-10 also requires entities to display the fair value of the selected assets and liabilities on the face of the balance sheet. The Company has not elected the ASC 825-10 option to report selected financial assets and liabilities at fair value. With the exception of the line items entitled "other assets" and "debt," which are reported at amortized cost, all assets and liabilities approximate fair value on the balance sheet. The carrying value of the line items entitled "interest receivable," "receivable for open trades," "payable for open trades," "accounts payable and accrued expenses," "management and incentive fees payable" and "interest and facility fees payable" approximate fair value due to their short maturity.

Effective January 1, 2008, the Company adopted ASC 820-10 (previously SFAS No. 157, Fair Value Measurements), which expands the application of fair value accounting. ASC 820-10 defines fair value, establishes a framework for measuring fair value in accordance with GAAP and expands disclosure of fair value measurements. ASC 820-10 determines fair value to be the price that

Table of Contents

would be received for an investment in a current sale, which assumes an orderly transaction between market participants on the measurement date. ASC 820-10 requires the Company to assume that the portfolio investment is sold in its principal market to market participants or, in the absence of a principal market, the most advantageous market, which may be a hypothetical market. Market participants are defined as buyers and sellers in the principal or most advantageous market that are independent, knowledgeable, and willing and able to transact. In accordance with ASC 820-10, the Company has considered its principal market as the market in which the Company exits its portfolio investments with the greatest volume and level of activity. ASC 820-10 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. In accordance with ASC 820-10, these inputs are summarized in the three broad levels listed below:

- Level 1 Valuations based on quoted prices in active markets for identical assets or liabilities that the Company has the ability to access.

- Level 2 Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

- Level 3 Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

In addition to using the above inputs in investment valuations, we continue to employ the net asset valuation policy approved by our board of directors that is consistent with ASC 820-10 (see Note 2). Consistent with our valuation policy, we evaluate the source of inputs, including any markets in which our investments are trading (or any markets in which securities with similar attributes are trading), in determining fair value. Our valuation policy considers the fact that because there is not a readily available market value for most of the investments in our portfolio, the fair value of the investments must typically be determined using unobservable inputs.

Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may fluctuate from period to period. Additionally, the fair value of our investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that we may ultimately realize. Further, such investments are generally subject to legal and other restrictions on resale or otherwise are less liquid than publicly traded securities. If we were required to liquidate a portfolio investment in a forced or liquidation sale, we could realize significantly less than the value at which we have recorded it.

In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the gains or losses reflected in the valuations currently assigned.

(2) Represents the aggregate principal amount of the applicable series of notes less the unaccreted discount initially recorded as a part of the Allied Acquisition.

(3) Represents the aggregate principal amount outstanding of the Convertible Notes less the unaccreted discount initially recorded upon issuance of the Convertible Notes.

(4) Total principal amount of debt outstanding totaled \$1,534,805 and \$1,435,141 as of March 31, 2011 and December 31, 2010, respectively.

9. STOCKHOLDERS EQUITY

There were no sales of our equity securities during the three months ended March 31, 2011.

The following table summarizes the total shares issued and proceeds we received in an underwritten public offering of the Company's common stock net of underwriter and offering costs for the three months ended March 31, 2010:

Table of Contents

	Shares issued	Offering price per share	Proceeds net of underwriting and offering costs
February 2010 public offering	22,958	\$ 12.75	\$ 277,207
Total for the three months ended March 31, 2010	22,958		\$ 277,207

Part of the proceeds from the above public offering were used to repay outstanding indebtedness. The remaining unused portions of the proceeds were used to fund investments in portfolio companies in accordance with our investment objective and strategies and market conditions.

10. EARNINGS PER SHARE

The following information sets forth the computations of basic and diluted net increase in stockholders' equity per share resulting from operations for the three months ended March 31, 2011 and 2010:

	For the three months ended March 31,	
	2011	2010
Net increase in stockholders' equity resulting from operations available to common stockholders:	\$ 123,766	\$ 76,415
Weighted average shares of common stock outstanding - basic and diluted:	204,419	124,544
Basic and diluted net increase in stockholders' equity resulting from operations per share:	\$ 0.61	\$ 0.61

For the purposes of calculating diluted earnings per share, since the average closing price of the Company's common stock for the period from the time of issuance of both the February 2016 Convertible Notes and the June 2016 Convertible Notes through March 31, 2011 was less than the current conversion price for each respective series of the Convertible Notes, the underlying shares for the intrinsic value of the embedded options had no impact.

11. DIVIDENDS AND DISTRIBUTIONS

The following table summarizes our dividends declared during the three months ended March 31, 2011 and 2010:

Date Declared	Record Date	Payment Date	Per Share Amount	Total Amount
March 1, 2011	March 15, 2011	March 31, 2011	\$ 0.35	\$ 71,547
Total declared for the three months ended March 31, 2011			\$ 0.35	\$ 71,547

Total declared for the three months ended						
March 31, 2010			\$	0.35	\$	46,516

The Company has a dividend reinvestment plan, whereby the Company may buy shares of its common stock in the open market or issue new shares in order to satisfy dividend reinvestment requests. If the Company issues new shares, the issue price is equal to closing price on the record date. Dividend reinvestment plan activity for the three months ended March 31, 2011 and 2010, was as follows:

	For the three months ended March 31,

12. RELATED PARTY TRANSACTIONS

In accordance with the investment advisory and management agreement, we bear all costs and expenses of the operation of the Company and reimburse our investment adviser for certain of such costs and expenses incurred in the operation of the Company. For the three months ended March 31, 2011 and 2010, the investment adviser incurred such expenses totaling \$643 and \$685, respectively. As of March 31, 2011, \$119 was unpaid and such payable is included in accounts payable and accrued expenses in the accompanying consolidated balance sheet.

We rent office space from a third party pursuant to a lease that expires in February 2026. We also entered into separate subleases with Ares Management and Ivy Hill Asset Management, L.P. (IHAM), a wholly owned portfolio company, pursuant to which Ares Management and IHAM sublease approximately 15% and 20%, respectively, of the office space for a fixed rent equal to 15% and 20%, respectively, of the base annual rent payable by us under this lease, plus certain additional costs and expenses. For the three months ended March 31, 2011, there were no amounts payable to the Company. Under our previous lease that expired on February 27, 2011, we were party to a sublease agreement with Ares Management whereby Ares Management subleased approximately 25% of such office space for a fixed rent equal to 25% of the basic annual rent payable by us under this lease, plus certain additional costs and expenses. For the three months ended March 31, 2011 and 2010, such amounts payable to the Company totaled \$396 and \$125, respectively.

As of March 31, 2011, Ares Investments, a wholly owned subsidiary of Ares Management, (the sole member of our investment adviser) owned approximately 2.9 million shares of the Company's common stock representing approximately 1.4% of the total shares outstanding as of March 31, 2011.

See Notes 3 and 13 for descriptions of other related party transactions.

13. IVY HILL ASSET MANAGEMENT, L.P. AND OTHER MANAGED FUNDS

In November 2007, the Company established IHAM to serve as a manager for a middle-market credit fund, Ivy Hill Middle Market Credit Fund, Ltd. (Ivy Hill I), an unconsolidated investment vehicle focusing on investments in middle-market loans. From inception until the second quarter of 2009, IHAM's financial results were consolidated with those of the Company. In June 2009, because of a shift in activity from being primarily a manager, with no dedicated employees, of funds in which the Company has invested debt and equity, to a manager with individuals dedicated to managing an increasing number of third party funds, the Company concluded that GAAP requires the financial results of IHAM to be reported as a portfolio company in the schedule of investments rather than as a consolidated subsidiary in the Company's financial results. The Company made an initial equity investment of \$3,816 into IHAM in June 2009. As of March 31, 2011, the total investment in IHAM at fair value was \$170,462, including an unrealized gain of \$57,586. As of December 31, 2010, the total investment in IHAM at fair value was \$136,235, including an unrealized gain of \$32,777. For the three months ended March 31, 2011 and 2010, the Company received distributions from IHAM consisting entirely of dividend income of \$4,762 and \$378, respectively.

Ivy Hill I primarily invests in first and second lien bank debt of middle-market companies. Ivy Hill I was initially funded with \$404,000 of capital including a \$56,000 investment by the Company, consisting of \$40,000 of Class B notes and \$16,000 of subordinated notes. For the three months ended March 31, 2011 and 2010, the Company earned \$1,173 and \$1,761, respectively, from its investments in Ivy Hill I.

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

Ivy Hill I purchased investments from the Company of \$1,700 during the three months ended March 31, 2011, and may from time to time purchase additional investments from the Company. Any such purchases require approval by third parties unaffiliated with the Company or IHAM. A realized loss of \$17 was recorded on these transactions for the three months ended March 31, 2011.

In November 2008, the Company established a second middle-market credit fund, Ivy Hill Middle Market Credit Fund II, Ltd. (Ivy Hill II and, together with Ivy Hill I and Ivy Hill SDF (as defined below), the Ivy Hill Funds), which is also managed by IHAM.

In December 2009, the Company made an additional cash investment of approximately \$33,000 in IHAM to facilitate IHAM's acquisition of Allied Capital's management rights in respect of, and interests in, the Allied Capital Senior Debt Fund, L.P. (now referred to as Ivy Hill Senior Debt Fund, L.P. or the Ivy Hill SDF). In October 2010, the Company made an additional cash investment of approximately \$4,000 in IHAM to facilitate IHAM's acquisition of an equity interest in Ivy Hill SDF.

Table of Contents

In March 2010, the Company made an additional cash investment of approximately \$48,000 in IHAM to facilitate IHAM's acquisition of Allied Capital's management rights in respect of, and equity interests in, the Knightsbridge CLO 2007-1, Ltd. and Knightsbridge CLO 2008-1, Ltd. (the Knightsbridge Funds). At the time, the Company also acquired from Allied Capital certain debt investments of the Knightsbridge Funds for approximately \$52,000.

The Company, through its wholly owned subsidiary, A.C. Corporation, previously managed Emporia Preferred Funding I, Ltd., Emporia Preferred Funding II, Ltd. and Emporia Preferred Funding III, Ltd. (collectively, the Emporia Funds). In August 2010, the Company made an additional cash investment of approximately \$8,000 in IHAM to facilitate IHAM's acquisition of an equity interest in Emporia Preferred Funding III, Ltd. In November 2010, the Company made an additional cash investment of \$7,900 in IHAM, which IHAM then used to purchase these management rights and related receivables in respect of the Emporia Funds from A.C. Corporation for \$7,900. This amount represented the fair value of those management rights as of the date of the sale. A realized gain of \$5,882 was recognized on this transaction. In January 2011, the Company made an additional cash investment, and approximately \$9,400 in IHAM to facilitate IHAM's acquisition of equity interests in certain of the Emporia Funds.

In addition to the Ivy Hill Funds and the Knightsbridge Funds, IHAM also serves as the sub-adviser/sub-manager to six other funds: CoLTS 2005-1 Ltd., CoLTS 2005-2 Ltd., CoLTS 2007-1 Ltd. (collectively, the CoLTS Funds) and FirstLight Funding I, Ltd., which is affiliated with the Company's portfolio company, Firstlight Financial Corporation, Ares Private Debt Strategies Fund II, L.P. (Ares PDS II) and Ares Private Debt Strategies Fund III, L.P. (together with Ares PDS II, the Private Debt Strategies Funds). The Private Debt Strategies Funds purchased \$40,158 of investments from the Company during the three months ended March 31, 2011. A realized loss of \$813 was recorded on these transactions for the three months ended March 31, 2011. The funds managed by IHAM may, from time to time, buy additional investments from the Company.

Beginning in November 2008, IHAM was party to a separate services agreement, referred to herein as the services agreement, with Ares Capital Management. Pursuant to the services agreement, Ares Capital Management provided IHAM with office facilities, equipment, clerical, bookkeeping and record keeping services, services of investment professionals and others to perform investment advisory, research and related services, services of, and oversight of, custodians, depositories, accountants, attorneys, underwriters and such other persons in any other capacity deemed to be necessary. Under the services agreement, IHAM reimbursed Ares Capital Management for all of the actual costs associated with such services, including Ares Capital Management's allocable portion of overhead and the cost of its officers and respective staff in performing its obligations under the services agreement. The services agreement was terminated effective June 30, 2010 and replaced with a different services agreement with similar terms between IHAM and the Company's administrator.

Also as part of the Allied Acquisition, the Company acquired the management rights for an unconsolidated fund, the AGILE Fund I, LLC, which had \$67.9 million of total committed capital under management as of March 31, 2011. The Company's investment in AGILE Fund I, LLC was \$150 at fair value, including an unrealized loss of \$114 as of March 31, 2011.

(1) The net assets used equals the total stockholders' equity on the consolidated balance sheets.

(2) Weighted average basic per share data.

(3) For the three months ended March 31, 2011, the total return based on market value equals the increase of the ending market value at March 31, 2011 of \$16.95 per share over the ending market value at December 31, 2010 of \$16.48 per share, plus the declared dividend of \$0.35 per share for the three months ended March 31, 2011, divided by the market value at December 31, 2010. For the three months ended March 31, 2010, the total return based on market value equals the increase of the ending market value at March 31, 2010 of \$14.82 per share over the ending market value at December 31, 2009 of \$12.45 per share, plus the declared dividend of \$0.35 per share for the three months ended March 31, 2010, divided by the market value at December 31, 2009. Total return based on market value is not annualized. The Company's shares fluctuate in value. The Company's performance changes over time and currently may be different than that shown. Past performance is no guarantee of future results.

(4) For the three months ended March 31, 2011, the total return based on net asset value equals the change in net asset value during the period plus the declared dividend of \$0.35 per share for the three months ended March 31, 2011, divided by the beginning net asset value at January 1, 2011. For the three months ended March 31, 2010, the total return based on net asset value equals the change in net asset value during the period plus the declared dividend of \$0.35 per share for the three months ended March 31, 2010, divided by the beginning net asset value at January 1, 2010. These calculations are adjusted for shares issued in connection with the dividend reinvestment plan and the issuance of common stock in connection with any equity offerings. Total return based on net asset value is not annualized. The Company's performance changes over time and currently may be different than that shown. Past performance is no guarantee of future results.

(5) The ratios reflect an annualized amount.

(6) For the three months ended March 31, 2011, the ratio of operating expenses to average net assets consisted of 2.14% of base management fees, 3.97% of incentive management fees, 3.87% of the cost of borrowing and 1.02% of other operating expenses. For the three months ended March 31, 2010, the ratio of operating expenses to average net assets consisted of 2.41% of base management fees, 2.33% of incentive management fees, 2.45% of the cost of borrowing and 2.79% of other operating expenses. These ratios reflect annualized amounts.

(7) The ratio of net investment income to average net assets excludes income taxes related to realized gains.

15. ALLIED ACQUISITION

On April 1, 2010, the Company completed the Allied Acquisition by acquiring the outstanding shares of Allied Capital in exchange for shares of our common stock in a transaction valued at approximately \$908 million as of the closing date. Concurrently with the completion of the Allied Acquisition, we repaid in full the \$137 million of remaining principal amounts outstanding on Allied Capital's \$250 million senior secured term loan. We also assumed all of Allied Capital's other outstanding debt obligations, including approximately \$745 million in aggregate principal amount outstanding of the Allied Unsecured Notes.

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

Under the terms of the Allied Acquisition each Allied Capital stockholder received 0.325 shares of our common stock for each share of Allied Capital common stock then owned by such stockholder. In connection with the Allied Acquisition, approximately 58.5 million shares of our common stock (including the effect of outstanding in-the money Allied Capital stock options) were issued to Allied Capital's then-existing stockholders, resulting in our then-existing stockholders owning approximately 69% of the combined company and the then-existing Allied Capital stockholders owning approximately 31% of the combined company.

The Allied Acquisition was accounted for in accordance with the acquisition method of accounting as detailed in ASC 805-10 (previously SFAS No. 141(R)), Business Combinations. The acquisition method of accounting requires an acquirer to recognize the

Table of Contents

assets acquired, the liabilities assumed and any noncontrolling interest in the acquired entity based on their fair values as of the date of acquisition. As described in more detail in ASC 805-10, if the total acquisition date fair value of the identifiable net assets acquired exceeds the fair value of the consideration transferred, the excess will be recognized as a gain. Upon completion of our determination of the fair value of Allied Capital's identifiable net assets as of April 1, 2010, the fair value of such net assets exceeded the fair value of the consideration transferred, resulting in the recognition of a gain. The valuation of the investments acquired as part of the Allied Acquisition was done in accordance with Ares Capital's valuation policy (see Notes 2 and 8).

Set forth below is the allocation of the purchase price to the assets acquired and liabilities assumed in connection with the Allied Acquisition:

Common stock issued	\$	872,727
Payments to holders of in-the-money Allied Capital stock options		35,011(1)
Total purchase price	\$	907,738
Assets acquired:		
Investments	\$	1,833,766
Cash and cash equivalents		133,548
Other assets		80,078
Total assets acquired		2,047,392
Debt and other liabilities assumed		(943,778)
Net assets acquired		1,103,614
Gain on Allied Acquisition		(195,876)
	\$	907,738

(1) Represents cash payment for holders of any in-the-money Allied Capital stock options that elected to receive cash.

Prior to the completion of the Allied Acquisition we purchased \$340 million of assets from Allied Capital in arm's length transactions. Additionally, during the same period of time, IHAM purchased \$69 million of assets from Allied Capital, also in arm's length transactions.

16. LITIGATION

The Company is party to certain lawsuits in the normal course of business. In addition, Allied Capital was involved in various other legal proceedings which the Company assumed in connection with the Allied Acquisition. Furthermore, third parties may try to seek to impose liability on the Company in connection with the activities of its portfolio companies. While the outcome of any such legal proceedings cannot at this time be predicted with certainty, the Company does not expect that these legal proceedings will materially affect its business, financial condition or results of operations.

17. SUBSEQUENT EVENTS

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

The Company's management has evaluated subsequent events through the date of issuance of the consolidated financial statements included herein. There have been no subsequent events that occurred during such period that would require disclosure in this Form 10-Q or would be required to be recognized in the Consolidated Financial Statements as of and for the three months ended March 31, 2011, except as disclosed below.

On April 27, 2011, we redeemed the \$161,210 in outstanding aggregate principal amount of 2012 Notes for a total redemption price (including a redemption premium) of approximately \$169,338, which resulted in a loss on the extinguishment of debt of \$10,458, in accordance with the terms of the indenture governing the 2012 Notes.

OVERVIEW

We are a specialty finance company that is a closed-end, non-diversified management investment company incorporated in Maryland. We have elected to be regulated as a business development company (a BDC) under the Investment Company Act of 1940 (the Investment Company Act). We were founded on April 16, 2004, were initially funded on June 23, 2004 and on October 8, 2004 completed our initial public offering.

Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in first and second lien senior loans and mezzanine debt, which in some cases includes an equity component like warrants.

To a lesser extent, we also make preferred and/or common equity investments, which have generally been non-control equity investments, of less than \$20 million (usually in conjunction with a concurrent debt investment). However, we may increase the size or change the nature of these investments. Also, as a result of the Allied Acquisition (as defined below), Allied Capital Corporation's equity investments, which included equity investments larger than those we have historically made and controlled portfolio company equity investments, became part of our portfolio. We intend to actively seek opportunities over time to dispose of certain of the assets that were acquired in the Allied Acquisition, particularly non-yielding equity investments, as well as lower or non-yielding debt investments and investments that may not be core to our investment strategy, and generally rotate them into higher-yielding first and second lien senior loans and mezzanine debt investments. However, there can be no assurance that this strategy will be successful.

We are externally managed by Ares Capital Management LLC, a wholly owned subsidiary of Ares Management LLC (Ares), a global alternative asset manager and an SEC-registered investment adviser, pursuant to an investment advisory and management agreement. Ares Operations LLC (Ares Operations), a wholly owned subsidiary of Ares, provides the administrative services necessary for us to operate.

As a BDC, we are required to comply with certain regulatory requirements. For instance, we generally have to invest at least 70% of our total assets in qualifying assets, including securities and indebtedness of private U.S. companies and certain public U.S. companies, cash, cash equivalents, U.S. government securities and high-quality debt investments that mature in one year or less.

The Company has elected to be treated as a regulated investment company (a RIC) under Subchapter M of the Internal Revenue Code of 1986, as amended (the Code), and operates in a manner so as to qualify for the tax treatment applicable to RICs. To qualify as a RIC, we must, among other things, meet certain source-of-income and asset diversification requirements and timely distribute to our stockholders generally at least 90% of our investment company taxable income, as defined by the Code, for each year. Pursuant to this election, we generally will not have to pay corporate level taxes on any income that we distribute to our stockholders provided that we satisfy those requirements.

Allied Acquisition

On April 1, 2010, we consummated the acquisition of Allied Capital Corporation (Allied Capital) in an all stock merger whereby each existing share of common stock of Allied Capital was exchanged for 0.325 shares of our common stock (the Allied Acquisition). The Allied Acquisition was valued at approximately \$908 million as of April 1, 2010. In connection therewith, we issued approximately 58.5 million shares of our

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

common stock to Allied Capital's then-existing stockholders, resulting in our then-existing stockholders owning approximately 69% of the combined company and the then-existing Allied Capital stockholders owning approximately 31% of the combined company.

Information presented herein as of the three months ended March 31, 2011 includes the results of operations and financial condition of the combined company following the Allied Acquisition unless otherwise indicated in the footnotes. Information presented herein as of the three months ended March 31, 2010 relate solely to Ares Capital, as it existed before the Allied Acquisition.

Since April 1, 2010 through March 31, 2011, we have decreased the assets comprising the legacy Allied Capital portfolio by approximately \$644 million, primarily as a result of exits and repayments of approximately \$803 million, offset by an increase in net unrealized appreciation in the portfolio of approximately \$26 million, and other increases of approximately \$133 million due to fundings of revolving and other commitments of \$95 million, payment-in-kind (PIK) interest and accretion of purchase discounts. From April 1, 2010 through March 31, 2011 we also recognized \$124 million in net realized gains on the exits and repayments of investments acquired in the Allied Acquisition resulting in total proceeds received from exits and repayments of \$927 million. Ares Capital intends to continue its strategy of rotating and repositioning a portion of the legacy Allied Capital portfolio, with a focus on reducing our holdings of lower and non-yielding investments, investments on non-accrual and investments that may not be core to our investment strategy. However, there can be no assurance that this strategy will be successful. For risks relating to our equity investments, see the Risk Factors Risks Relating to Our Investments Investments in equity securities involve a substantial degree of risk included in our annual report on Form 10-K for the fiscal year ended December 31, 2010.

Our investment adviser employs an investment rating system to categorize our investments. In addition to various risk management and monitoring tools, our investment adviser grades the credit risk of all investments on a scale of 1 to 4 no less frequently than quarterly. This system is intended primarily to reflect the underlying risk of a portfolio investment relative to our initial cost basis in respect of such portfolio investment (i.e., at the time of acquisition), although it may also take into account under certain circumstances the performance of the portfolio company's business, the collateral coverage of the investment and other relevant factors. Under this system, investments with a grade of 4 involve the least amount of risk to our initial cost basis. The trends and risk factors for this investment since origination or acquisition are generally favorable, which may include the performance of the portfolio company or a potential exit. Investments graded 3 involve a level of risk to our initial cost basis that is similar to the risk to our initial cost basis at the time of origination or acquisition. This portfolio company is generally performing as expected and the risk factors to our ability to ultimately recoup the cost of our investment are neutral to favorable. All investments or acquired investments in new portfolio companies are initially assessed a grade of 3. Investments graded 2 indicate that the risk to our ability to recoup the cost of such investment has increased materially since origination or acquisition, including as a result of factors such as declining performance and non-compliance with debt covenants; however, payments are generally not more than 120 days past due. An investment grade of 1 indicates that the risk to our ability to recoup the cost of such investment has substantially increased since origination or acquisition, and the portfolio company likely has materially declining performance. For debt investments with an investment grade of 1, most or all of the debt covenants are out of compliance and payments are substantially delinquent. For investments graded 1, it is not anticipated that we will be repaid in an amount equal to our full initial cost basis. For investments graded 1 or 2, our investment adviser enhances its level of scrutiny over the monitoring of such portfolio company.

Each investment acquired in the Allied Acquisition was initially assessed a grade of 3 (i.e., the grade we generally assign a portfolio company at origination or acquisition) on April 1, 2010, the date of initial acquisition, reflecting the relative risk to our initial cost basis of such investments. Our investment adviser grades the investments in our portfolio at least each quarter and it is possible that the grade of certain of these portfolio investments may be reduced or increased over time.

Set forth below is the grade distribution of our portfolio companies as of March 31, 2011 and December 31, 2010:

RESULTS OF OPERATIONS

For the three months ended March 31, 2011 and 2010

Operating results for the three months ended March 31, 2011 and 2010 are as follows:

(in millions)	For the three months ended March 31,			
	2011		2010	
Total investment income	\$	135.7	\$	66.5
Total expenses		85.8		35.0

Other income		1.9		0.9
Total investment income	\$	135.7	\$	66.5

The increase in interest income for the three months ended March 31, 2011 was primarily due to the increase in the size of the portfolio, which was largely due to the investments acquired as part of the Allied Acquisition. Interest income from investments acquired as part of the Allied Acquisition was approximately \$37 million for the three months ended March 31, 2011. The remainder of the increase in interest income was due to an increase in the size of Ares Capital's investment portfolio excluding investments acquired as part of the Allied Acquisition, which increased from an average of \$2.2 billion at amortized cost for the three months ended March 31, 2010 to an average of \$2.8 billion at amortized cost for the comparable period in 2011. The increase in capital structuring service fees for the three months ended March 31, 2011 was primarily due to the increase in new investment commitments, which increased from \$299 million for the three months ended March 31, 2010 to \$502 million for the comparable period in 2011, as well as an increase in the average capital structuring service fees received on new investments. The increase in management fees for the three months ended March 31, 2011 was primarily due to the management fees earned from the SSLP which increased from \$0.9 million for the three months ended March 31, 2010 to \$2.4 million for the comparable period in 2011 as the aggregate principal

Table of Contents

amount of investments in the SSLP increased from approximately \$0.9 billion at March 31, 2010 to approximately \$2.9 billion at March 31, 2011. Additionally, management fees earned related to investments and management contracts acquired in the Allied Acquisition were \$0.9 million for the three months ended March 31, 2011. The increase in dividend income for the three months ended March 31, 2011 was primarily attributable to dividend income from Ivy Hill Asset Management, L.P. (IHAM), which was \$4.8 million for the three months ended March 31, 2011 and \$0.4 million for the comparable period in 2010. Total dividend income for the three months ended March 31, 2011 also included \$3.6 million of dividends that are non-recurring in nature from non-income producing equity securities.

Total operating expenses	\$	85.8	\$	35.0

Interest and credit facility fees for the three months ended March 31, 2011 and 2010, were comprised of the following:

(in millions)	For the three months ended			
	March 31,		2010	
	2011		2010	
Stated interest expense	\$	21.8	\$	4.7
Facility fees		2.0		1.4
Amortization of debt issuance costs		2.8		2.5
Accretion of discount related to the Allied Unsecured Notes		2.3		
Accretion of original issue discount on the Convertible Notes		1.3		
Total interest and credit facility fees expense	\$	30.2	\$	8.6

Stated interest expense for the three months ended March 31, 2011 increased due to the increase in our principal debt outstanding and an increase in our weighted average stated interest rate. The average principal debt outstanding for the three months ended March 31, 2011 was \$1.5 billion as compared to \$0.8 billion for the comparable period in 2010. The weighted average stated interest rate on our debt outstanding for the three months ended March 31, 2011 was 5.6% as compared to 2.2% for the comparable period in 2010. The increase in principal debt outstanding during this period was primarily due to the debt assumed as part of the Allied Acquisition and the issuance of the Convertible Notes (as defined below) partially offset by decreases in amounts outstanding under the Revolving Funding Facility, Revolving Credit Facility and the Debt Securitization (each as defined below). In connection with the Allied Acquisition, we assumed \$746 million in principal amount of debt on April 1, 2010, which had a weighted average stated interest rate of 6.6% and resulted in total interest expense for the three months ended March 31, 2011 of \$12.8 million, including \$2.3 million of purchased discount accretion.

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

Incentive and base management fees increased for the three months ended March 31, 2011 primarily due to the increase in the size of the portfolio and in the case of incentive fees, the related increase in net investment income as well as the net appreciation of the investment portfolio. Incentive management fees for the three months ended March 31, 2011 consisted of \$15.8 million of incentive management fees related to pre-incentive fee net investment income and \$15.1 million of the capital gains incentive fee accrual in accordance with United States generally accepted accounting principles (GAAP) as a result of the change in cumulative net realized and unrealized gains (see Note 3 to the Company s consolidated financial statements for the three months ended March 31, 2011) bringing the total GAAP accrual in respect of these fees to \$30.7 million (included in management and incentive fees payable in the consolidated balance sheet) as of March 31, 2011. For the three months ended March 31, 2011 we did not incur the capital gains portion of the incentive fee under the investment advisory and management agreement (the Capital Gains Fee) and therefore there are no amounts currently due under the agreement. There was no capital gains incentive fee accrual in accordance with GAAP, nor a Capital Gains Fee recorded for the three months ended March 31, 2010. In addition, for the quarter, if any, in which our stockholders approve our proposed amendment to the Capital Gains Fee, we will be required to accrue an additional amount of incentive fees payable up to a maximum of approximately \$26 million, even though no such fees may be payable to our investment adviser at the time of such accrual. (See Risk Factors - We are asking our stockholders to approve certain amendments to our investment advisory and management agreement at our 2011 annual stockholders meeting expected to take place on June 6, 2011. If our stockholders approve one or both of the amendments, our investment adviser may be eligible to receive an increased incentive fee or an incentive fee earlier than it otherwise would have.)

Table of Contents

Professional fees include legal, accounting, valuation and other professional fees incurred related to the management of the Company. Administrative fees represent fees paid to Ares Operations for our allocable portion of overhead and other expenses incurred by Ares Operations in performing its obligations under the administration agreement, including our allocable portion of the cost of certain of our executive officers and their respective staffs. Other general and administrative expenses include rent, insurance, depreciation, directors fees and other costs. The decline in professional fees and other costs related to the Allied Acquisition primarily resulted from having substantially completed the integration process following the Allied Acquisition. The increases in professional fees, administrative fees and other general and administrative expenses were primarily due to the increase in the size of the company following the Allied Acquisition and the various associated costs of managing a larger portfolio.

Income Tax Expense, Including Excise Tax

The Company has elected to be treated as a RIC under Subchapter M of the Code and operates in a manner so as to qualify for the tax treatment applicable to RICs. To qualify as a RIC, the Company must, among other things, timely distribute to its stockholders generally at least 90% of its investment company taxable income, as defined by the Code, for each year. In order to maintain its RIC status, the Company, among other things, has made and intends to continue to make the requisite distributions to its stockholders which will generally relieve the Company from U.S. federal income taxes.

Depending on the level of taxable income earned in a tax year, we may choose to carry forward taxable income in excess of current year dividend distributions from such current year taxable income into the next tax year and pay a 4% excise tax on such income, as required. To the extent that the Company determines that its estimated current year annual taxable income will be in excess of estimated current year dividend distributions from such income, the Company accrues excise tax on estimated excess taxable income. For the three months ended March 31, 2011, a net expense of \$0.7 million was recorded for U.S. federal excise tax. For the three months ended March 31, 2010, a net benefit of \$0.1 million was recorded for U.S. federal excise tax.

Certain of our wholly owned subsidiaries are subject to U.S. federal and state income taxes. For the three months ended March 31, 2011, we recorded a tax expense of \$1.3 million for these subsidiaries, and for the three months ended March 31, 2010, we recorded a tax benefit of \$0.1 million for these subsidiaries.

Net Realized Gains/Losses

During the three months ended March 31, 2011, the Company had \$623.0 million of sales, repayments or exits of investments resulting in \$62.6 million of net realized gains. These sales, repayments or exits included \$41.9 million of investments sold to certain funds managed by IHAM. Net realized gains on investments were comprised of \$108.3 million of gross realized gains and \$45.7 million of gross realized losses. The \$62.6 million of net realized gains included approximately \$95.2 million in net realized gains from investments acquired as part of the Allied Acquisition. The realized gains and losses on investments during the three months ended March 31, 2011 consisted of the following:

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

Since the Company's inception, the Company's liquidity and capital resources have been generated primarily from the net proceeds of public offerings of common stock, advances from the Revolving Funding Facility and the Revolving Credit Facility (each as defined below), net proceeds from the issuance of secured and unsecured notes as well as cash flows from operations. As part of the Allied Acquisition, the Company assumed all outstanding debt obligations of Allied Capital, including the Allied Unsecured Notes (as defined below), which consisted of the 2011 Notes, the 2012 Notes and the 2047 Notes (each as defined below).

As of March 31, 2011, the Company had \$246.2 million in cash and cash equivalents and \$1.4 billion in total indebtedness outstanding at carrying value (\$1.5 billion at principal amount). Subject to leverage and borrowing base restrictions, the Company had approximately \$1.2 billion available for additional borrowings under the Revolving Funding Facility, the Revolving Credit Facility and the Debt Securitization as of March 31, 2011.

We may from time to time seek to retire or repurchase our common stock through cash purchases, as well as retire, cancel or purchase our outstanding debt through cash purchases and/or exchanges, in open market purchases, privately negotiated transactions or otherwise. Such repurchases or exchanges, if any, will depend on prevailing market conditions, our liquidity requirements, contractual and regulatory restrictions (including under the Investment Company Act) and other factors. The amounts involved may be material.

Equity Issuances

There were no sales of our equity securities during the three months ended March 31, 2011.

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

Table of Contents

The following table summarizes the total shares issued and proceeds we received in an underwritten public offering of our common stock net of underwriter and offering costs for the three months ended March 31, 2010:

(in millions, except per share data)	Shares issued	Offering price per share	Proceeds net of underwriting and offering costs
February 2010 public offering	23.0	\$ 12.75	\$ 277.2
Total for the three months ended March 31, 2010	23.0		\$ 277.2

Part of the proceeds from the above public offering were used to repay outstanding indebtedness. The remaining unused portions of the proceeds were used to fund investments in portfolio companies in accordance with our investment objective and strategies and market conditions.

As of March 31, 2011, the Company's total market capitalization was \$3.5 billion compared to \$3.4 billion as of December 31, 2010.

Debt Capital Activities

The total unaccreted discount on the Allied Unsecured Notes (as defined below) was \$51.7 million and \$56.6 million at March 31, 2011 and December 31, 2010, respectively.
- (5) Represents the aggregate principal amount outstanding of the Convertible Notes less the unaccreted discount initially recorded upon issuance of the Convertible Notes. The total unaccreted discount for the February 2016 Convertible Notes and the June 2016 Convertible Notes was \$39.0 million and \$16.1 million, respectively, at March 31, 2011.
- (6) Total principal amount of debt outstanding totaled \$1,534.8 million and \$1,435.1 million at March 31, 2011 and December 31, 2010, respectively.

Table of Contents

The weighted average stated interest rate and weighted average maturity, both on principal value, of all our principal debt outstanding as of March 31, 2011 were 5.7% and 12.7 years, respectively. The weighted average interest rate and weighted average maturity of all our outstanding borrowings as of December 31, 2010 were 5.2% and 11.8 years, respectively.

The ratio of total principal amount of indebtedness outstanding to stockholders' equity as of March 31, 2011 was 0.49:1.00 compared to 0.47:1.00 as of December 31, 2010.

The ratio of total carrying value of indebtedness outstanding to stockholders' equity as of March 31, 2011 was 0.45:1.00 compared to 0.45:1.00 as of December 31, 2010.

In accordance with the Investment Company Act, with certain limited exceptions, we are only allowed to borrow amounts such that our asset coverage, as defined in the Investment Company Act, is at least 200% after such borrowing. As of March 31, 2011, our asset coverage for borrowed amounts was 321%.

Revolving Funding Facility

In October 2004, we formed Ares Capital CP Funding LLC ("Ares Capital CP"), a wholly owned subsidiary of the Company, through which we established a revolving securitized facility (as amended, the "Revolving Funding Facility"). The Revolving Funding Facility allows Ares Capital CP to borrow up to \$400 million as part of a single revolving securitized facility. In connection with the January 22, 2010 amendment, we entered into an Amended and Restated Purchase and Sale Agreement with Ares Capital CP Funding Holdings LLC, our wholly owned subsidiary ("CP Holdings"), pursuant to which we may sell to CP Holdings certain loans that we have originated or acquired (the "Loans") from time to time, which CP Holdings will subsequently sell to Ares Capital CP, which is a wholly owned subsidiary of CP Holdings. The Revolving Funding Facility is secured by all of the assets held by, and the membership interest in, Ares Capital CP. The January 22, 2010 amendment to the Revolving Funding Facility, among other things, extended the maturity date of the facility to January 22, 2013.

On January 18, 2011, we and Ares Capital CP amended the Revolving Funding Facility to, among other things, provide for a three year reinvestment period until January 18, 2014 (with two one-year extension options, subject to our and our lenders' consent) and extend the stated maturity date to January 18, 2016 (with two one-year extension options, subject to our and our lenders' consent).

Subject to certain exceptions, the interest charged on the Revolving Funding Facility is based on LIBOR plus an applicable spread of between 2.25% and 3.75% or on a base rate (which is the higher of a prime rate, or the federal funds rate plus 0.50%) plus an applicable spread of between 1.25% to 2.75%, in each case based on a pricing grid depending upon our credit rating. Additionally, we are required to pay a commitment fee of between 0.50% and 2.00% depending on the usage level on any unused portion of the Revolving Funding Facility. As of March 31, 2011, the effective LIBOR spread under the Revolving Funding Facility was 2.75%.

As of March 31, 2011, there were no amounts outstanding under the Revolving Funding Facility and the Company and Ares Capital CP were in material compliance with the terms of the Revolving Funding Facility. See Note 5 to our consolidated financial statements for the three months

ended March 31, 2011 for more detail on the Revolving Funding Facility.

Revolving Credit Facility

In December 2005, we entered into a senior secured revolving credit facility (as amended and restated, the Revolving Credit Facility), under which, as amended, the lenders agreed to extend credit to the Company. The Revolving Credit Facility matures on January 22, 2013 and has commitments totaling \$810 million. The Revolving Credit Facility also includes an accordion feature that allows the Company under certain circumstances, to increase the size of the facility to a maximum of \$1.05 billion. As of March 31, 2011, there were no amounts outstanding under the Revolving Credit Facility and the Company was in material compliance with the terms of the Revolving Credit Facility. As of March 31, 2011, subject to borrowing base availability, there was \$805,276 available for borrowing (net of standby letters of credits issued).

Subject to certain exceptions, pricing under the Revolving Credit Facility is based on LIBOR plus an applicable spread of between 2.50% and 4.00% or on the alternate base rate plus an applicable spread of between 1.50% and 3.00%, in each case, based on a pricing grid depending upon our credit rating. As of March 31, 2011, the effective LIBOR spread under the Revolving Credit Facility was 3.00%. See Note 5 to our consolidated financial statements for the three months ended March 31, 2011 for more detail on the Revolving Credit Facility.

As of March 31, 2011, there were no amounts outstanding under the Revolving Credit Facility and the Company was in material compliance with the terms of the Revolving Credit Facility. See Note 5 to our consolidated financial statements for the three months ended March 31, 2011 for more detail on the Revolving Credit Facility.

Table of Contents**Debt Securitization**

In July 2006, through ARCC Commercial Loan Trust 2006, a vehicle serviced by our wholly owned subsidiary ARCC CLO 2006 LLC, we completed a \$400 million debt securitization (the *Debt Securitization*) and issued approximately \$314 million aggregate principal amount of asset-backed notes (including revolving notes in an aggregate amount of up to \$50 million, \$18.3 million of which were drawn down as of March 31, 2011) (the *CLO Notes*) to third parties that were secured by a pool of middle-market loans purchased or originated by the Company. We initially retained approximately \$86 million of aggregate principal amount outstanding of certain *BBB* and non-rated securities in the *Debt Securitization* and have subsequently repurchased \$34.8 million of the *CLO Notes*, bringing our total holdings of *CLO Notes* to \$120.8 million (the *Retained Notes*). During the three months ended March 31, 2011, we repaid \$16.7 million of the *CLO Notes*. At March 31, 2011, \$138.6 million was outstanding under the *CLO Notes* (excluding the *Retained Notes*), which are included in the March 31, 2011 consolidated balance sheet. As of March 31, 2011, the Company was in material compliance with the terms of the *Debt Securitization*.

The *CLO Notes* provide for a reinvestment period until June 21, 2011, have a stated maturity of December 20, 2019 and have a blended pricing of LIBOR plus 0.37% as of March 31, 2011. See Note 5 to our consolidated financial statements for the three months ended March 31, 2011 for more detail on the *Debt Securitization*.

Unsecured Notes*Allied Unsecured Notes*

As part of the *Allied Acquisition*, the Company assumed all outstanding debt obligations of *Allied Capital*, including *Allied Capital*'s unsecured notes, which consisted of 6.625% Notes due on July 15, 2011 (the *2011 Notes*), 6.000% Notes due on April 1, 2012 (the *2012 Notes*) and 6.875% Notes due on April 15, 2047 (the *2047 Notes* and, together with the *2011 Notes* and the *2012 Notes*, the *Allied Unsecured Notes*). On March 16, 2011 we redeemed the remaining balance of the *2011 Notes* for a total redemption price (including a redemption premium) of \$306.8 million, which resulted in a loss on the extinguishment of debt of \$8.9 million, in accordance with the terms of the indenture governing the *2011 Notes*.

(in millions)	Carrying value as of March 31, 2011(1)	
2012 Notes (principal amount of \$161.2)	\$	158.7
2047 Notes (principal amount of \$230.0)	\$	180.8
Total	\$	339.5

(1) Represents the principal amount of the *Allied Unsecured Notes* less the unaccreted discount initially recorded as a part of the *Allied Acquisition*.

The *2012 Notes* bear interest at a rate of 6.00% and mature on April 1, 2012. The *2012 Notes* require payment of interest semi-annually, and all principal is due upon maturity. On April 27, 2011, we redeemed the \$161.2 million in outstanding aggregate principal amount of the *2012 Notes*

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

for a total redemption price (including a redemption premium) of \$169.3 million, which resulted in a loss on the extinguishment of debt of \$10.5 million, in accordance with the terms of the indenture governing the 2012 Notes (see Recent Developments section).

The 2047 Notes bear interest at a rate of 6.875% and mature on April 15, 2047. The 2047 Notes require payment of interest quarterly, and all principal is due upon maturity. These notes are redeemable in whole or in part at any time or from time to time on or after April 15, 2012, at a par redemption price of \$25 per security plus accrued and unpaid interest and upon the occurrence of certain tax events as stipulated in the notes.

2040 Notes

On October 21, 2010, we issued \$200 million in aggregate principal amount of senior unsecured notes that mature on October 15, 2040 (the 2040 Notes) that may be redeemed in whole or in part at our option at any time or from time to time on or after October 15, 2015 at a par redemption price of \$25 per security plus accrued and unpaid interest. The principal amount of the 2040 Notes will be payable at maturity. The 2040 Notes bear interest at a rate of 7.75% per year payable quarterly commencing on January 15, 2011.

As of March 31, 2011 the Company was in material compliance with the limitations and requirements of the Allied Unsecured Notes and the 2040 Notes.

Convertible Notes

(in millions)	Carrying value as of March 31, 2011(1)	
February 2016 Convertible Notes (principal amount of \$575.0)	\$	536.0
June 2016 Convertible Notes (principal amount of \$230.0)	\$	213.9
Total	\$	749.9

(1) Represents the aggregate principal amount outstanding of the Convertible Notes less the unaccreted discount initially recorded upon issuance of the Convertible Notes.

February 2016 Convertible Notes. In January 2011, we issued \$575 million of unsecured convertible senior notes that mature on February 1, 2016 (the February 2016 Convertible Notes), unless previously converted or repurchased in accordance with their terms. We do not have the right to redeem the February 2016 Convertible Notes prior to maturity. The February 2016 Convertible Notes bear interest at a rate of 5.75% per year, payable semi-annually. In certain circumstances, the February 2016 Convertible Notes will be convertible into cash, shares of our common stock or a combination of cash and shares of our common stock, at our election, at an initial conversion rate of 52.2766 shares of common stock per \$1,000 principal amount of the February 2016 Convertible Notes, which was equivalent to an initial conversion price of approximately \$19.13 per share of our common stock, subject to customary anti-dilution adjustments. The initial conversion price was approximately 17.5% above the \$16.28 per share closing price of our common stock on January 19, 2011.

Prior to the close of business on the business day immediately preceding August 15, 2015, holders may convert their February 2016 Convertible Notes only under certain circumstances set forth in the indenture governing the terms of the February 2016 Convertible Notes (the February 2016 Indenture). On or after August 15, 2015 until the close of business on the scheduled trading day immediately preceding February 1, 2016, holders may convert their February 2016 Convertible Notes at any time. Upon conversion, we will pay or deliver, as the case may be, at our election, cash, shares of our common stock or a combination of cash and shares of our common stock, subject to the requirements of the February 2016 Indenture.

June 2016 Convertible Notes. In March 2011, we issued \$230 million of unsecured convertible senior notes that mature on June 1, 2016 (the June 2016 Convertible Notes and, together with the February 2016 Convertible Notes, the Convertible Notes), unless previously converted or repurchased in accordance with their terms. We do not have the right to redeem the June 2016 Convertible Notes prior to maturity. The June 2016 Convertible Notes bear interest at a rate of 5.125% per year, payable semi-annually. In certain circumstances, the June 2016 Convertible Notes will be convertible into cash, shares of Ares Capital's common stock or a combination of cash and shares of our common stock, at our election, at an initial conversion rate of 52.5348 shares of common stock per \$1,000 principal amount of the June 2016 Convertible Notes, which was equivalent to an initial conversion price of approximately \$19.04 per share of our common stock, subject to customary anti-dilution adjustments. The initial conversion price was approximately 17.5% above the \$16.20 per share closing price of our common stock on March 22, 2011.

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

Prior to the close of business on the business day immediately preceding December 15, 2015, holders may convert their June 2016 Convertible Notes only under certain circumstances set forth in the indenture governing the terms of the June 2016 Convertible Notes (the "June 2016 Indenture"). On or after December 15, 2015 until the close of business on the scheduled trading day immediately preceding June 1, 2016, holders may convert their June 2016 Convertible Notes at any time. Upon conversion, we will pay or deliver, as the case may be, at our election, cash, shares of our common stock or a combination of cash and shares of our common stock, subject to the requirements of the June 2016 Indenture.

The Convertible Notes are our senior unsecured obligations and rank senior in right of payment to our existing and future indebtedness that is expressly subordinated in right of payment to the Convertible Notes; equal in right of payment to our existing and future unsecured indebtedness that is not expressly subordinated; effectively junior in right of payment to any of our secured indebtedness (including existing unsecured indebtedness that we later secure) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness (including trade payables) incurred by our subsidiaries, financing vehicles or similar facilities.

As of March 31, 2011, the Company was in material compliance with the terms of the indentures governing the Convertible Notes. See Note 5 to our consolidated financial statements for the three months ended March 31, 2011 for more detail on the Convertible Notes.

PORTFOLIO VALUATION

Investment transactions are recorded on the trade date. Realized gains or losses are measured by the difference between the net proceeds from the repayment or sale and the amortized cost basis of the investment without regard to the unrealized gains or losses previously recognized, and include investments charged off during the period, net of recoveries. Unrealized gains or losses primarily reflect the change in investment values, including the reversal of previously recorded unrealized gains or losses when gains or losses are realized. Investments for which market quotations are readily available are typically valued at such market quotations. In order to validate market quotations, we look at a number of factors to determine if the quotations are representative of fair value, including the source and nature of the quotations. Debt and equity securities that are not publicly traded or whose market prices are not readily available (i.e., substantially all of our investments) are valued at fair value as determined in good faith by our board of directors, based on the input of our investment adviser, audit committee and independent third-party valuation firms that have been engaged at the direction of our board of directors to assist in the valuation of each portfolio investment without a readily available market quotation at least once during a trailing 12-month period, and under a valuation policy and a consistently applied valuation process. The valuation process is conducted at the end of each fiscal quarter, and a minimum of 50% of our portfolio at fair value is subject to review by an independent valuation firm each quarter.

As part of the valuation process, we may take into account the following types of factors, if relevant, in determining the fair value of our investments: the enterprise value of a portfolio company (an estimate of the total fair value of the portfolio company's debt and equity), the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flow, the markets in which the portfolio company does business, a comparison of the portfolio company's securities to any similar publicly traded securities, changes in the interest rate environment and the credit markets generally that may affect the price at which similar investments may be made in the future and other relevant factors. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we consider the pricing indicated by the external event to corroborate our valuation.

Because there is not a readily available market value for most of the investments in our portfolio, we value substantially all of our portfolio investments at fair value as determined in good faith by our board of directors as described herein. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may fluctuate from period to period. Additionally, the fair value of our investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that we may ultimately realize. Further, such investments are generally subject to legal and other restrictions on resale or otherwise are less liquid than publicly traded securities. If we were required to liquidate a portfolio investment in a forced or liquidation sale, we could realize significantly less than the value at which we have recorded it.

In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the gains or losses reflected in the valuations currently assigned. See the factors set forth in "Risk Factors" included in our annual report on Form 10-K for the fiscal year ended December 31, 2010, including the risk factor entitled

"Risk Factors - Risks Relating to our Investments - Recent unprecedented declines in market prices and liquidity in the corporate debt markets resulted in significant net unrealized depreciation of our portfolio in the recent past, reducing our net asset value, and such conditions may occur again in the future."

Our board of directors undertakes a multi-step valuation process each quarter, as described below:

- Our quarterly valuation process begins with each portfolio company or investment being initially valued by the investment professionals responsible for the portfolio investment in conjunction with our portfolio management team.

- Preliminary valuations are reviewed and discussed with our investment adviser's management and investment professionals, and then valuation recommendations are presented to our board of directors.
- The audit committee of our board of directors reviews these valuations, as well as the input of independent third-party valuation firms with respect to the valuations of a minimum of 50% of our portfolio at fair value.
- Our board of directors discusses valuations and determines the fair value of each investment in our portfolio without a readily available market quotation in good faith based on the input of our investment adviser, audit committee and where applicable, independent third-party valuation firms.

Effective January 1, 2008, the Company adopted Accounting Standards Codification (ASC) 820-10 (previously Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurements), which expands the application of fair value

accounting for investments (see Note 8 to our consolidated financial statements for the three months ended March 31, 2011). Investments acquired as part of the Allied Acquisition were accounted for in accordance with ASC 805-10 (previously SFAS No. 141(R), Business Combinations), which requires that all assets be recorded at fair value. As a result, the initial amortized cost basis and fair value for the acquired investments were the same at April 1, 2010 (see Note 15 to our consolidated financial statements for the three months ended March 31, 2011).

OFF BALANCE SHEET ARRANGEMENTS

The Company has various commitments to fund investments in its portfolio, including commitments to fund revolving senior and subordinated loans, subordinated notes in the SSLP, and private equity investment partnerships.

As of March 31, 2011 and December 31, 2010, the Company had the following commitments to fund various revolving senior secured and subordinated loans to its portfolio companies:

(in millions)	As of	
	March 31, 2011	December 31, 2010
Total revolving commitments	\$ 288.5	\$ 260.7
Less: funded commitments	(63.1)	(60.0)
Total unfunded commitments	225.4	200.7
Less: commitments substantially at discretion of the Company	(16.7)	(19.9)
Less: unavailable commitments due to borrowing base or other covenant restrictions	(5.1)	(6.7)
Total net adjusted unfunded revolving commitments	\$ 203.6	\$ 174.1

Of the total net adjusted unfunded commitments as of March 31, 2011 and December 31, 2010, \$31.5 million and \$33.8 million, respectively, are from commitments for investments acquired as part of the Allied Acquisition. Also, as of March 31, 2011, \$219.5 million of the total revolving commitments extend beyond the maturity date of our Revolving Credit Facility. Included within the total revolving commitments as of March 31, 2011 are commitments to issue up to \$2.7 million in standby letters of credit through a financial intermediary on behalf of certain portfolio companies. Under these arrangements, if the standby letters of credit were to be issued, the Company would be required to make payments to third parties if the portfolio companies were to default on their related payment obligations. As of March 31, 2011, the Company had \$2.05 million in standby letters of credit issued and outstanding on behalf of the portfolio companies, of which no amounts were recorded as a liability on our balance sheet as such letters of credit are considered in the valuation of the investments in the portfolio company. Of these letters of credit, \$0.05 million expire in February 2011, \$0.01 million expire in April 2011, \$1.66 million expire in September 2011, \$0.17 million expire in December 2011, and \$0.16 million expire in January 2012.

As of March 31, 2011 and December 31, 2010, the Company had the following commitments to fund the SSLP:

(in millions)	As of	
	March 31, 2011	December 31, 2010
Total SSLP commitments	\$ 958.8	\$ 958.8
Less: funded SSLP commitments	(671.4)	(548.2)
Total unfunded SSLP commitments	287.4	410.6

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

Less: SSLP commitments substantially at discretion of the Company(1)		(287.4)	(410.6)
Total net adjusted unfunded SSLP commitments	\$		\$

(1) Investments and portfolio decisions must be approved by both GE Commercial Finance Investment Advisory Services LLC and the Company.

See Note 4 to the consolidated financial statements for the three months ended March 31, 2011 for more information on the Company's commitment to the SSLP.

As of March 31, 2011 and December 31, 2010, the Company was subject to subscription agreements to fund equity investments in private equity investment partnerships:

(in millions)		As of	
	March 31, 2011		December 31, 2010
Total private equity commitments	\$ 514.9	\$	537.6
Less: funded private equity commitments	(90.4)		(104.3)
Total unfunded private equity commitments	424.5		433.3
Less: private equity commitments substantially at discretion of the Company	(412.9)		(400.4)
Total net adjusted unfunded private equity commitments	\$ 11.6	\$	32.9

Table of Contents

Of the total net adjusted unfunded private equity commitments as of March 31, 2011 and December 31, 2010, \$3.5 million and \$11.5 million, respectively, are for investments acquired as part of the Allied Acquisition.

In the ordinary course of business, Allied Capital had issued guarantees on behalf of certain portfolio companies. Under these arrangements, payments would be required to be made to third parties if the portfolio companies were to default on their related payment. As part of the Allied Acquisition, the Company assumed such outstanding guarantees or similar obligations. As a result, as of each of March 31, 2011 and December 31, 2010, the Company had outstanding guarantees or similar obligations totaling \$0.8 million.

Further in the ordinary course of business, we may sell certain of our investments to third party purchasers. In particular, since the Allied Acquisition we have sold and currently continue to seek opportunities to sell certain of Allied Capital's equity investments larger than those we have historically made and controlled portfolio company equity investments. In connection with these sales (as well as certain other sales) we have, and may continue to do so in the future, agreed to indemnify such purchasers for future liabilities arising from the investments and the related sale transaction. Such indemnification provisions may give rise to future liabilities.

As of March 31, 2011, one of the Company's portfolio companies, Ciena Capital LLC (Ciena), had one non-recourse securitization Small Business Administration (SBA) loan warehouse facility, which has reached its maturity date but remains outstanding. Ciena is working with the providers of the SBA loan warehouse facility with regard to the repayment of that facility. Allied Capital had previously issued a performance guaranty (which Ares Capital succeeded to as a result of the Allied Acquisition) whereby Ares Capital must indemnify the warehouse providers for any damages, losses, liabilities and related costs and expenses that they may incur as a result of Ciena's failure to perform any of its obligations as loan originator, loan seller or loan servicer under the warehouse facility. As of March 31, 2011, there are no known issues or claims with respect to this performance guaranty.

RECENT DEVELOPMENTS

On April 27, 2011, we redeemed the \$161.2 million in outstanding aggregate principal amount of the 2012 Notes for a total redemption price (including a redemption premium) of \$169.3 million, which resulted in a loss on the extinguishment of debt of \$10.5 million, in accordance with the terms of the indenture governing the 2012 Notes.

As of April 29, 2011 we had made new investment commitments of \$171 million, of which \$142 million was funded, since March 31, 2011. Of these new commitments, 95% were in first lien senior secured debt, 3% were in equity securities, and 2% were in second lien senior secured debt. Of the \$171 million of new investment commitments, 95% were floating rate with a weighted average spread at amortized cost of 8.6% and 2% were fixed rate with a weighted average yield at amortized cost of 13.9%.

As of April 29, 2011, we had exited \$34 million of investments since March 31, 2011. Of these investments, 70% were in second lien senior secured debt, 17% were in equity and other investments, 11% were in first lien senior secured debt, and 2% were in senior subordinated debt. Of the \$34 million of investments, 80% were in floating rate investments with a weighted average spread at amortized cost of 9.3%. Of the remaining investments, 2% were fixed rate investments with a weighted average yield at amortized cost of 12.1%, 16% were non-interest bearing and 2% were in investments on non-accrual status. Also, of the \$34 million of investments exited since March 31, 2011, \$25 million were investments acquired as part of the Allied Acquisition. Additionally, we recognized net realized gains of approximately \$2 million on the

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

investments exited that were acquired as part of the Allied Acquisition.

In addition, as of April 29, 2011, we had an investment backlog and pipeline of \$520 million and \$360 million, respectively. We may syndicate a portion of these investments and commitments to third parties. The consummation of any of the investments in this backlog and pipeline depends upon, among other things: satisfactory completion of our due diligence investigation of the prospective portfolio company, our acceptance of the terms and structure of such investment and the execution and delivery of

satisfactory transaction documentation. We cannot assure you that we will make any of these investments or that we will syndicate any portion of such investments and commitments.

CRITICAL ACCOUNTING POLICIES

Basis of Presentation

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in conformity with GAAP, and include the accounts of the Company and its wholly owned subsidiaries. The consolidated financial statements reflect all adjustments and reclassifications that, in the opinion of management, are necessary for the fair presentation of the results of the operations and financial condition as of and for the periods presented. All significant intercompany balances and transactions have been eliminated.

Cash and Cash Equivalents

Cash and cash equivalents include funds from time to time deposited with financial institutions and short-term, liquid investments in a money market fund. Cash and cash equivalents are carried at cost which approximates fair value.

Concentration of Credit Risk

The Company places its cash and cash equivalents with financial institutions and, at times, cash held in money market accounts may exceed the Federal Deposit Insurance Corporation insured limit.

Investments

Investment transactions are recorded on the trade date. Realized gains or losses are measured by the difference between the net proceeds from the repayment or sale and the amortized cost basis of the investment without regard to unrealized gains or losses previously recognized, and include investments charged off during the period, net of recoveries. Unrealized gains or losses primarily reflect the change in investment values, including the reversal of previously recorded unrealized gains or losses when gains or losses are realized. Investments for which market quotations are readily available are typically valued at such market quotations. In order to validate market quotations, we look at a number of factors to determine if the quotations are representative of fair value, including the source and nature of the quotations. Debt and equity securities that are not publicly traded or whose market prices are not readily available (i.e., substantially all of our investments) are valued at fair value as determined in good faith by our board of directors, based on the input of our investment adviser, audit committee and independent third-party valuation firms that have been engaged at the direction of our board of directors to assist in the valuation of each portfolio investment without a readily available market quotation at least once during a trailing 12 month period, and under a valuation policy and a consistently

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

applied valuation process. The valuation process is conducted at the end of each fiscal quarter, and a minimum of 50% of our portfolio at fair value is subject to review by an independent valuation firm each quarter.

As part of the valuation process, we may take into account the following types of factors, if relevant, in determining the fair value of our investments: the enterprise value of a portfolio company (an estimate of the total fair value of the portfolio company's debt and equity), the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flow, the markets in which the portfolio company does business, a comparison of the portfolio company's securities to any similar publicly traded securities, changes in the interest rate environment and the credit markets generally that may affect the price at which similar investments may be made in the future and other relevant factors. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we consider the pricing indicated by the external event to corroborate our valuation.

Because there is not a readily available market value for most of the investments in our portfolio, we value substantially all of our portfolio investments at fair value as determined in good faith by our board of directors, as described herein. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may fluctuate from period to period. Additionally, the fair value of our investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that we may ultimately realize. Further, such investments are generally subject to legal and other restrictions on resale or otherwise are less liquid than publicly traded securities. If we were required to liquidate a portfolio investment in a forced or liquidation sale, we could realize significantly less than the value at which we have recorded it.

Table of Contents

In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the gains or losses reflected in the valuations currently assigned.

Our board of directors undertakes a multi-step valuation process each quarter, as described below:

- Our quarterly valuation process begins with each portfolio company or investment being initially valued by the investment professionals responsible for the portfolio investment in conjunction with our portfolio management team.
- Preliminary valuations are reviewed and discussed with our investment adviser's management and investment professionals, and then valuation recommendations are presented to our board of directors.
- The audit committee of our board of directors reviews these valuations, as well as the input of independent third-party valuation firms with respect to the valuations of a minimum of 50% of our portfolio at fair value.
- Our board of directors discusses valuations and determines the fair value of each investment in our portfolio without a readily available market quotation in good faith based on the input of our investment adviser, audit committee and, where applicable, independent third-party valuation firms.

Effective January 1, 2008, the Company adopted ASC 820-10 (previously SFAS No. 157, Fair Value Measurements), which expands the application of fair value accounting for investments (see Note 8 to our consolidated financial statements for the three months ended March 31, 2011). Investments acquired as part of the Allied Acquisition were accounted for in accordance with ASC 805-10 (previously SFAS No. 141(R), Business Combinations), which requires that all assets be recorded at fair value. As a result, the initial amortized cost basis and fair value for the acquired investments were the same at April 1, 2010 (see Note 15 to our consolidated financial statements for the three months March 31, 2011).

Interest and Dividend Income Recognition

Interest income is recorded on an accrual basis and includes the accretion of discounts and amortization of premiums. Discounts and premiums to par value on securities purchased are accreted/amortized into interest income over the life of the respective security using the effective yield method. The amortized cost of investments represents the original cost adjusted for the accretion of discounts and amortization of premiums, if any.

Loans are generally placed on non-accrual status when principal or interest payments are past due 30 days or more or when there is reasonable doubt that principal or interest will be collected in full. Accrued and unpaid interest is generally reversed when a loan is placed on non-accrual status. Interest payments received on non-accrual loans may be recognized as income or applied to principal depending upon management's

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

judgment regarding collectability. Non-accrual loans are restored to accrual status when past due principal and interest is paid and, in management's judgment, are likely to remain current. The Company may make exceptions to this if the loan has sufficient collateral value and is in the process of collection.

Dividend income on preferred equity securities is recorded as dividend income on an accrual basis to the extent that such amounts are payable by the portfolio company and are expected to be collected. Dividend income on common equity securities is recorded on the record date for private portfolio companies or on the ex-dividend date for publicly traded portfolio companies.

Payment-in-Kind Interest

The Company has loans in its portfolio that contain PIK provisions. The PIK interest, computed at the contractual rate specified in each loan agreement, is added to the principal balance of the loan and recorded as interest income. To maintain the Company's status as a RIC, this non-cash source of income must be paid out to stockholders in the form of dividends even though the Company has not yet collected the cash.

Capital Structuring Service Fees and Other Income

The Company's investment adviser seeks to provide assistance to our portfolio companies in connection with the Company's investments and in return the Company may receive fees for capital structuring services. These fees are generally only available to the Company as a result of the Company's underlying investments, are normally paid at the closing of the investments, are generally non-recurring and are recognized as revenue when earned upon closing of the investment. The services that the Company's investment adviser provides vary by investment, but generally include reviewing existing credit facilities, arranging bank financing, arranging

Table of Contents

equity financing, structuring financing from multiple lenders, structuring financing from multiple equity investors, restructuring existing loans, raising equity and debt capital, and providing general financial advice, which concludes upon closing of the investment. Any services of the above nature subsequent to the closing would generally generate a separate fee payable to the Company. In certain instances where the Company is invited to participate as a co-lender in a transaction and does not provide significant services in connection with the investment, a portion of loan fees paid to the Company in such situations will be deferred and amortized over the estimated life of the loan. The Company's investment adviser may also take a seat on the board of directors of a portfolio company, or observe the meetings of the board of directors without taking a formal seat.

Other income includes fees for asset management, management and consulting services, loan guarantees, commitments, amendments and other services rendered by the Company to portfolio companies. Such fees are recognized as income when earned or the services are rendered.

Foreign Currency Translation

The Company's books and records are maintained in U.S. dollars. Any foreign currency amounts are translated into U.S. dollars on the following basis:

- (1) Fair value of investment securities, other assets and liabilities at the exchange rates prevailing at the end of the period.

- (2) Purchases and sales of investment securities, income and expenses at the exchange rates prevailing on the respective dates of such transactions, income or expenses.

Results of operations based on changes in foreign exchange rates are separately disclosed in the statement of operations. Foreign security and currency translations may involve certain considerations and risks not typically associated with investing in U.S. companies and U.S. government securities. These risks include, but are not limited to, currency fluctuation and revaluations and future adverse political, social and economic developments, which could cause investments in foreign markets to be less liquid and prices more volatile than those of comparable U.S. companies or U.S. government securities.

Accounting for Derivative Instruments

The Company does not utilize hedge accounting and marks its derivatives to market through unrealized gains (losses) in the accompanying statement of operations.

Equity Offering Expenses

The Company's offering costs, excluding underwriters' fees, are charged against the proceeds from equity offerings when received.

Debt Issuance Costs

Debt issuance costs are being amortized over the life of the related debt instrument using the straight line method, which closely approximates the effective yield method.

U.S. Federal Income Taxes

The Company has elected to be treated as a RIC under Subchapter M of the Code and operates in a manner so as to qualify for the tax treatment applicable to RICs. To qualify as a RIC, the Company must, among other things, timely distribute to its stockholders at least 90% of investment company taxable income, as defined by the Code, for each year. The Company, among other things, has made and intends to continue to make the requisite distributions to its stockholders, which will generally relieve the Company from U.S. federal income taxes.

Depending on the level of taxable income earned in a tax year, we may choose to carry forward taxable income in excess of current year dividend distributions into the next tax year and pay a 4% excise tax on such income, as required. To the extent that the Company determines that its estimated current year annual taxable income will be in excess of estimated current year dividend distributions, the Company accrues excise tax, if any, on estimated excess taxable income as taxable income is earned.

Certain of our wholly owned subsidiaries are subject to U.S. federal and state income taxes.

Table of Contents

Dividends to Common Stockholders

Dividends and distributions to common stockholders are recorded on the record date. The amount to be paid out as a dividend is determined by our board of directors each quarter and is generally based upon the earnings estimated by management. Net realized capital gains, if any, are generally distributed at least annually, although we may decide to retain such capital gains for investment.

We have adopted a dividend reinvestment plan that provides for reinvestment of any distributions we declare in cash on behalf of our stockholders, unless a stockholder elects to receive cash. As a result, if our board of directors authorizes, and we declare, a cash dividend, then our stockholders who have not opted out of our dividend reinvestment plan will have their cash dividends automatically reinvested in additional shares of our common stock, rather than receiving the cash dividend. While we generally use newly issued shares to implement the dividend reinvestment plan (especially if our shares are trading at a premium to net asset value), we may purchase shares in the open market in connection with our obligations under the dividend reinvestment plan. In particular, if our shares are trading at a significant enough discount to net asset value and we are otherwise permitted under applicable law to purchase such shares, we intend to purchase shares in the open market in connection with our obligations under our dividend reinvestment plan.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of actual and contingent assets and liabilities at the date of the financial statements and the reported amounts of income or loss and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates include the valuation of investments.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

We are subject to financial market risks, including changes in interest rates and the valuations of our investment portfolio.

Interest Rate Risk

Interest rate sensitivity refers to the change in earnings that may result from changes in the level of interest rates. Because we fund a portion of our investments with borrowings, our net investment income is affected by the difference between the rate at which we invest and the rate at which we borrow. As a result, there can be no assurance that a significant change in market interest rates will not have a material adverse effect on our net investment income.

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

As of March 31, 2011, approximately 29% of the investments at fair value in our portfolio were at fixed rates, approximately 50% were at variable rates, 18% were non-interest earning and 3% were on non-accrual status. Additionally, for the investments at variable rates, 53% of the investments contain interest rate floors (representing 27% of total investments at fair value). The Revolving Credit Facility, the Revolving Funding Facility and the Debt Securitization all bear interest at variable rates with no interest rate floors, while the Allied Unsecured Notes, the 2040 Notes, and the Convertible Notes bear interest at fixed rates.

We regularly measure our exposure to interest rate risk. We assess interest rate risk and manage our interest rate exposure on an ongoing basis by comparing our interest rate sensitive assets to our interest rate sensitive liabilities. Based on that review, we determine whether or not any hedging transactions are necessary to mitigate exposure to changes in interest rates.

While hedging activities may mitigate our exposure to adverse fluctuations in interest rates, certain hedging transactions that we may enter into in the future, such as interest rate swap agreements, may also limit our ability to participate in the benefits of lower interest rates with respect to our portfolio investments.

Based on our March 31, 2011 balance sheet, the following table shows the annual impact on net income of base rate changes in interest rates (considering interest rate floors for variable rate instruments) assuming no changes in our investment and borrowing structure:

(in millions) Basis Point Change	Interest Income	Interest Expense(1)	Net Income
Up 300 basis points	\$ 26.5	\$ 4.2	\$ 22.3
Up 200 basis points	\$ 14.1	\$ 2.8	\$ 11.3

Table of Contents

(1) As of March 31, 2011, we had no amounts outstanding under the Revolving Funding Facility or the Revolving Credit Facility.

Based on our December 31, 2010 balance sheet, the following table shows the annual impact on net income of base rate changes in interest rates (considering interest rate floors for variable rate instruments) assuming no changes in our investment and borrowing structure:

(in millions) Basis Point Change	Interest Income	Interest Expense	Net Income
Up 300 basis points	\$ 26.2	\$ 16.3	\$ 9.9
Up 200 basis points	\$ 14.8	\$ 10.9	\$ 3.9
Up 100 basis points	\$ 5.5	\$ 5.4	\$ 0.1
Down 100 basis points	\$ (1.5)	\$ (1.6)	\$ 0.1

Down 300 basis points	\$ (2.3)	\$ (1.6)	\$ (0.7)

Item 4. Controls and Procedures.

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including our President and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15 of the Securities Exchange Act of 1934). Based on that evaluation, our President and our Chief Financial Officer have concluded that our current disclosure controls and procedures are effective in timely alerting them of material information relating to the Company that is required to be disclosed by us in the reports we file or submit under the Securities Exchange Act of 1934.

There have been no changes in our internal control over financial reporting during the three months ended March 31, 2011 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION**Item 1. Legal Proceedings.**

The Company is party to certain lawsuits in the normal course of business. In addition, Allied Capital was involved in various other legal proceedings which we assumed in connection with the Allied Acquisition. Furthermore, third parties may try to seek to impose liability on the Company in connection with the activities of our portfolio companies. While the outcome of any such legal proceedings cannot at this time be predicted with certainty, the Company does not expect that these legal proceedings will materially affect its business, financial condition or results of operations.

Item 1A. Risk Factors.

In addition to the other information set forth in this report, you should carefully consider the factor discussed below and the risk factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the fiscal year ended December 31, 2010, which could materially affect our business, financial condition and/or operating results. The risks in our Annual Report on Form 10-K and below are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially and adversely affect our business, financial condition and/or operating results.

We are asking our stockholders to approve certain amendments to our investment advisory and management agreement at our 2011 annual stockholders meeting expected to take place on June 6, 2011. If our stockholders approve one or both of the amendments, our investment adviser may be eligible to receive an increased incentive fee or an incentive fee earlier than it otherwise would have.

On March 16, 2011, our board of directors, including a majority of the independent directors, approved two amendments to our current investment advisory and management agreement and directed that such amendments be submitted to our stockholders for approval at our 2011 annual stockholders meeting, currently scheduled for June 6, 2011. The amendments are not contingent on each other and either one or both could be approved.

Table of Contents

If approved, the first amendment (the **Hurdle Amendment**), would (i) lower the quarterly income hurdle rate used in calculating the income portion of our incentive fee from 2.0% (or 8.0% annually) to 1.75% (or 7.0% annually) and adjust the related quarterly catch-up hurdle rate from 2.5% to 2.1875% (or from 10.0% to 8.75% annually) and (ii) lower the general hurdle for deferral of payment of incentive fees generally from 8.0% over the prior four full calendar quarters to 7.0% over the prior four full calendar quarters. Because we exceeded a 2.50% (or annualized 10.0%) hurdle rate for each quarter in the year ended December 31, 2010, assuming the Hurdle Amendment was in effect for the year ended December 31, 2010, no additional incentive fees would have been payable by us to our investment adviser. However, if the Hurdle Amendment is approved, our investment adviser may be eligible to receive an incentive fee for pre-incentive fee net investment income earlier (and potentially in higher amounts in the event we do not exceed the catch-up hurdle rate) than it would receive if the Hurdle Amendment is not approved.

If approved, the second amendment (the **Capital Gains Amendment**) would provide that the capital gains portion of our incentive fee will be calculated using an actual purchase price paid by the Company as the cost of such asset even when GAAP requires the Company to record cost at fair value, whether such purchase price is higher or lower than the fair value of such asset at the time of acquisition. If the Capital Gains Amendment is approved, the likelihood that our investment adviser will earn the capital gains portion of our incentive fee will be increased. Even though the revised formulation would apply to the capital gains portion of our incentive fee calculated on a cumulative basis (i.e., from the Company's inception) after any Capital Gains Amendment is approved, the approval of the Capital Gains Amendment increases the likelihood that our investment adviser will earn the capital gains portion of our incentive fee as a result of the Allied Acquisition. Such increased likelihood results from the requirement under GAAP that we record the investments acquired in the Allied Acquisition in our financial statements at an initial cost basis equal to their fair value instead of the purchase price we paid. Because such investments' initial cost basis under GAAP was higher than the purchase price we paid, our realized capital gains and unrealized capital appreciation was lower and our realized capital losses and unrealized capital depreciation was higher than if we had recorded such investments at the purchase price we paid for such investments. The maximum additional capital gains portion of our incentive fee potentially payable by us to our investment adviser as a result of the Allied Acquisition if the Capital Gains Amendment is approved is approximately \$26 million. As of April 29, 2011, \$53.5 million of the approximately \$130.0 million non-cash gain recorded at the time of acquisition has been realized through exits or repayments of investments in excess of the purchase price paid by us. An approval of the Capital Gains Amendment also means the amount of realized capital gains determined under the formula are likely to increase (due to calculating the Capital Gains Fee using the purchase price paid by us for the investments acquired in the Allied Acquisition instead of their fair value at the acquisition date) and the amount of unrealized capital depreciation and realized capital losses determined under the formula is likely to decrease, which would make it easier for our investment adviser to earn capital gains portion of our incentive fees.

In addition, for the quarter in which our stockholders approve the Capital Gains Amendment, if any, we will be required to accrue an additional amount of incentive fees payable up to a maximum of approximately \$26 million, even though no such fees may be payable to our investment adviser at the time of such accrual. See **Management's Discussion and Analysis of Financial Condition and Results of Operations** **Operating Expenses** and Note 3 to our consolidated financial statements for the three months ended March 31, 2011 for more information about the GAAP requirement that we accrue incentive fees in our financial statements even though no such fees are payable to our investment adviser under the investment advisory and management agreement.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

We did not sell any equity securities during the period covered in this report that were not registered under the Securities Act of 1933.

We did not repurchase any shares of our common stock issued during the period covered in this report.

Item 3. Defaults Upon Senior Securities.

Not applicable.
