ADCARE HEALTH SYSTEMS, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Unaudited)

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The consolidated financial statements are presented in accordance with accounting principles generally accepted in the United States. These statements include the accounts of AdCare Health Systems, Inc. (AdCare) and its controlled subsidiaries (collectively the Company or we). Controlled subsidiaries include majority owned subsidiaries and variable interest entities in which we have control as the primary beneficiary. The Company delivers skilled nursing, assisted living and home health services. All inter-company accounts and transactions were eliminated in the consolidation. The accompanying unaudited consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Rule 8-03 of Regulation S-X. Accordingly, they do not include all of the information and notes required for complete annual financial statements and should be read in conjunction with the Company s audited consolidated financial statements and notes included in the Company s Annual Report on Form 10-K for the year ended December 31, 2010 (the Annual Report). In the opinion of the Company s management, all adjustments considered for a fair presentation are included and are of a normal recurring nature. Operating results for the nine months ended September 30, 2011 are not necessarily indicative of the results that may be expected for the year ending December 31, 2011. Certain prior year amounts have been reclassified to conform to the current year presentation.

Earnings per Share

Basic earnings per share is computed by dividing net income or loss by the weighted-average number of common shares outstanding during the period. Diluted earnings per share is similar to basic earnings per share except net income or loss is adjusted by the impact of the assumed issuance of convertible shares and the weighted-average number of common shares outstanding includes potentially dilutive securities, such as options, warrants, non-vested shares, and additional shares issuable under convertible notes outstanding during the period when such potentially dilutive securities are not anti-dilutive. Potentially dilutive securities from option, warrants and non-vested shares are calculated in accordance with the treasury stock method, which assumes that proceeds from the exercise of all options and warrants with exercise prices exceeding the average market value are used to repurchase common stock at market value. The incremental shares remaining after the proceeds are exhausted represent the potentially dilutive effect of the securities. Potentially dilutive securities from convertible debt are calculated based on the assumed issuance at the beginning of the period, as well as any adjustment to income that would result from their assumed issuance.

For the nine months ending September 30, 2011 and the three and nine month periods ending September 30, 2010, no potentially dilutive securities were included in the diluted earnings per share calculation because to do so would be anti-dilutive. The following table provides a reconciliation of net income (loss) and the number of common shares used in the computation of diluted earnings per share:

	Three Months Ended September 30,

(1) - The weighted average shares outstanding includes retroactive adjustments from the stock dividend (see Note 13).

(2) - The impacts of the conversion of the 2010 convertible note were excluded as the impact would be anti-dilutive.

There have been no required impairment adjustments to intangible assets and goodwill during the nine months ended September 30, 2011 and 2010.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Recently Issued and Adopted Accounting Pronouncements

In July 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-07, which is included in the Codification under ASC 954, Health Care Entities. This ASU requires health care entities to separately present bad debt expense related to patient care revenue as a reduction of patient care revenue (net of contractual allowances and discounts) on the statement of operations for which the ultimate collection of all or a portion of the amounts billed or billable cannot be determined at the time services are rendered. This ASU also requires certain qualitative disclosures about the Company's policy for recognizing revenue and bad debt expense for patient care services. This ASU will be applied retrospectively effective for interim and annual periods beginning after December 15, 2011. The Company is currently assessing the potential impact of the adoption but believes that the adoption will not have a material impact on the Company's consolidated financial statements.

In September 2011, the FASB issued ASU 2011-08, Testing Goodwill for Impairment, (ASU 2011-08), which amends the guidance in ASC 350-20, Intangibles - Goodwill and Other. Under ASU 2011-08, entities have the option of performing a qualitative assessment before calculating the fair value of the reporting unit when testing goodwill for impairment. If the fair value of the reporting unit is determined, based on qualitative factors, to be more likely than not less than the carrying amount of the reporting unit, then entities are required to perform the two-step goodwill impairment test. ASU 2011-08 will be effective for the Company's fiscal year beginning January 1, 2012, with early adoption permitted. Although ASU 2011-08 will change our accounting policy for our review for impairment, the adoption of this ASU will not impact the Company's consolidated financial statements.

NOTE 2. LIQUIDITY AND PROFITABILITY

The Company had a net loss of approximately \$2.7 million and \$1.0 million for the nine months ended September 30, 2011 and 2010, respectively, and had working capital of approximately \$601,000 at September 30, 2011. The Company's ability to achieve sustained profitable operations is dependent on continued growth in revenues and controlling operating costs.

Management's plans to improve liquidity and profitability in the future include the following:

- increase existing facility occupancy;
- acquire skilled nursing properties that have not traditionally concentrated on providing Medicare and post-acute services, and once acquired, to optimize patient care, occupancy, and quality mix; and

Edgar Filing: ADCARE HEALTH SYSTEMS INC - Form 10-Q

- acquire existing cash flowing operations to expand the Company's operations and branch out into other related areas of business.

Management believes that the actions that will be taken by the Company provide the opportunity for the Company to improve liquidity and achieve profitability. However, there can be no assurance that such events will occur.

Table of Contents**NOTE 3. SEGMENTS**

The Company reports its operations in four segments: skilled nursing facilities (SNF), assisted living facilities (ALF), home-based care (Home Health), and management/corporate (Management/Corporate). The SNF and ALF segments provide services to individuals needing long-term care in a nursing home or assisted living setting and management of those facilities. The Home Health segment provides home health care services to patients while they are living in their own homes. The Management/Corporate segment engages in the management of facilities and accounting and IT services. We evaluate financial performance and allocate resources primarily based on segment operating income (loss). Segment operating results excludes interest expense and other non-operating income and expenses. The table below contains our segment information for the three and nine months ended September 30, 2011 and 2010.

The skilled nursing business involves a significant risk of liability due to the age and health of the Company's patients and residents and the services the Company provides. The Company and others in the industry are subject to an increasing number of claims and lawsuits, including professional liability claims, which may allege that services have resulted in personal injury, elder abuse, wrongful death or other related claims. In addition to the potential lawsuits and claims described above, the Company is also subject to potential lawsuits under the Federal False Claims Act and comparable state laws alleging submission of fraudulent claims for services to any healthcare program (such as Medicare) or payer. A violation may provide the basis for exclusion from federally funded healthcare programs. Special Termination Benefits

At June 30, 2011, the Company accrued certain salary retirement and continuation costs of \$622,000 related to separation agreements with the Company's former Chief Executive Officer and Chief Financial Officer. On February 25, 2011, AdCare and five of its subsidiaries joined as additional borrowers under the Credit Agreement that was initially entered into on October 29, 2010, with Gemino Healthcare Finance, LLC (Gemino). The additional borrowers increased the amount of credit available to the Company and the maximum amount of the credit facility increased from \$5,000,000 to \$7,500,000. On April 26, 2011, the original terms of the Credit Agreement with Gemino were modified to reduce the maximum amount of the credit facility to \$5,500,000 and a new \$2,000,000 revolving note was issued under an affiliated credit agreement by adding two additional subsidiaries. On June 2, 2011, AdCare joined two additional subsidiaries as additional borrowers under the Credit Agreement with Gemino. The combined total maximum debt with Gemino remains at \$7,500,000.

The Credit Agreement with Gemino contains various financial covenants and other restrictions, including a fixed charge coverage ratio and maximum loan turn days. The Company is required to maintain a fixed charge coverage ratio of 1.1:1, which was not met at September 30, 2011; therefore, the Company was not in compliance with this covenant. However, the Company received a waiver of compliance from Gemino on November 8, 2011.

Interest on the loan is payable in equal monthly installments beginning on November 1, 2011, and continuing until maturity.

The agreement with Private Bank contains various financial covenants and other restrictions, including a fixed charge coverage ratio and a minimum quarterly EBITDAR. The Company is required to maintain a fixed charge coverage ratio of 1.01:1, beginning in the fourth quarter.

Mountain Trace

In February 2011, the Company refinanced the Mountain Trace facility through the issuance of a mortgage note payable to a financial institution for a total amount of \$5,000,000 that matures in 2036, 80% of which is insured by the United States Department of Agriculture (the USDA). The USDA mortgage note requires monthly principal and interest payments of \$31,700 adjusted quarterly with a variable interest rate of prime plus 1.75% with a floor of 5.75%. Deferred financing costs incurred on the loan amounted to \$174,000 and are being amortized to interest expense over the life of the notes. In addition, the loan has an annual renewal fee for the USDA guarantee of 0.25% of the guaranteed portion. The loan has prepayment penalties of 10% through 2011 declining by 1% each year capped at 1% for the first ten years. The loan has certain financial covenants of which the Company was in compliance at September 30, 2011.

Southland Care Center

Edgar Filing: ADCARE HEALTH SYSTEMS INC - Form 10-Q

Each of the SCC Secured Loans mature on July 27, 2036. Interest on the SCC USDA Loan and the SCC SBA Loan accrues on the principal balance thereof at an annual variable rate equal to the published Wall Street Journal prime rate plus 1.5% (for the SCC USDA Loan) and 2.25% (for the SCC SBA Loan). The interest rate of the SCC Secured Loans shall be adjusted every calendar quarter. At no time shall the annual interest rate for the SCC USDA Loan be less than 6.0%.

The SCC Secured Loans are re-amortized at least annually to amortize the principal over the remaining term.

The SCC USDA Loan has a prepayment penalty of 10% for any prepayment made prior to the first anniversary of the date of the SCC USDA Loan, which penalty is reduced by 1% each year until the tenth anniversary of such date, after which there is no prepayment penalty. Under the SCC SBA Loan, a prepayment fee is incurred if more than 25% of the outstanding principal balance is prepaid in any one of the first three years after the date of the SCC SBA

On December 30, 2010, Mountain Trace Nursing ADK, LLC, a wholly owned subsidiary of AdCare, completed the acquisition of Mountain Trace, a skilled nursing facility located in Sylva, North Carolina, for a purchase price of \$6,200,000. The Company obtained control of the facility effective January 1, 2011. The Living Center, Kenwood Manor, Enid Senior Care, Betty Ann Nursing Center, and Grand Lake Villa (Oklahoma VIE s)

On August 1, 2011, five skilled nursing facilities located in Oklahoma, were purchased for an aggregate purchase price of \$11,250,000 by companies owned and operated by Christopher Brogdon, the Company's Vice Chairman and Chief Acquisition Officer, and others. These facilities are known as the Living Center, Kenwood Manor, Enid Senior Care, Betty Ann Nursing Center and Grand Lake Villa.

Even though the Company does not have any equity interest in these facilities, the Company determined that it is a variable interest entity as the ownership entity does not have sufficient equity at risk under the Variable Interest Entities accounting pronouncements (See Note 10). Given the related party relationship with Christopher Brogdon, the common shareholder and other variable interests, the Company determined that it is the primary beneficiary and consolidation of the facilities is required. The Company initially consolidated the Oklahoma VIE s on August 1, 2011, the date of acquisition and initial operations.

To complete the acquisition, the Oklahoma VIE s issued various notes (see Note 8) with the balance of the consideration transferred in cash. The following table summarizes the consideration transferred and the amounts of the assets acquired and recognized at fair value as recorded by the Company on the acquisition date:

Consideration Transferred:	
Net proceeds from Loans	\$ 9,459,017
Cash from earnest money deposits	200,000

Total assets acquired	11,250,000
Liabilities Assumed:	
Real estate taxes	(31,445)
Total identifiable net assets	\$ 11,218,555

The estimated fair values of the assets acquired are provisional and are based on the information that was available as of the acquisition date. The Company believes that the information provides a reasonable basis for estimating the fair values of the assets acquired but the Company is awaiting additional information necessary to finalize those fair values. Therefore, the provisional measurements of fair value reflected are subject to changes and such changes could be significant. The Company expects to finalize the valuation and complete the purchase price allocation before December 31, 2011.

Homestead Manor, River Valley Center, Benton Manor and Heritage Park Center

On September 1, 2011, certain wholly owned subsidiaries of AdCare completed the Pinnacle Acquisition, pursuant to that certain Purchase and Sale Agreement, by and between the Pinnacle Seller and Arkansas ADK, LLC, a wholly owned subsidiary of AdCare (Arkansas ADK), dated March 14, 2011 and amended as of July 1, 2011 (as so amended, the Pinnacle Purchase Agreement). Pursuant to the Pinnacle Purchase Agreement, such subsidiaries acquired certain land, buildings, improvements, furniture, fixtures and equipment comprising: (i) Homestead Manor; (ii) River Valley Center; (iii) Bentonville Manor; (iv) Heritage Park Center; and (v) the Pinnacle Home Office, for an aggregate adjusted purchase price of \$19,448,955. Additionally, if within twelve months following September 1, 2011 the Pinnacle Seller delivers documents satisfactory to authorize Rose Missouri Nursing, LLC (Rose Nursing), a wholly owned subsidiary of AdCare, to become the tenant and/or operator of the skilled nursing facility located in Cassville, Missouri (the Leased Facility), then Rose Nursing is required to pay to the Pinnacle Seller an additional \$500,000 and Rose Nursing shall become the tenant and/or operator of the Leased Facility. Subsequent to September 30, 2011, Rose Nursing became the tenant and operator of the Leased Facility. (See Note 15.)

For 2011, combined revenue for all acquisitions since gaining effective control is approximately \$16,455,000 and resulted in an income from operations of approximately \$1,027,000.

The following table represents pro forma results of consolidated operations as if all of the 2010 and 2011 acquisitions had occurred at the beginning of the earliest fiscal year being presented, after giving effect to certain adjustments.

	Nine Months Ended September 30,	
	2011	2010
Pro Forma Revenue	\$ 133,261,655	\$ 126,183,714
Pro Forma Operating Expenses	\$ 128,250,197	\$ 125,254,104
Pro Forma Income from Operations	\$ 5,011,458	\$ 926,610

Revenue and operating expense assumptions used in the Company's pro forma financial information primarily include those related to enhancement and efficiencies that were identified prior to the acquisition of the facilities and expected to occur under the Company's management of the operations of the facilities.

The forgoing pro forma information is not indicative of what the results of operations would have been if the acquisitions had actually occurred at the beginning of the periods presented and is not intended as a projection of future results or trends.

NOTE 10. VARIABLE INTEREST ENTITIES

Riverchase Village (VIE) Extension

On April 9, 2010, Riverchase Village ADK, LLC (Riverchase), a wholly owned subsidiary of AdCare entered into a Purchase Agreement with a company controlled by a bank, to acquire the assets of Riverchase Village, an assisted living facility located in Hoover, Alabama. The right to acquire Riverchase Village was assigned to Chris Brogdon, Vice Chairman and Chief Acquisitions Officer of the Company, on June 22, 2010, and the transaction closed on June 25, 2010. As consideration for the assignment, Chris Brogdon granted the Company a one-year option with a \$100,000 exercise price to acquire Riverchase Village under the same terms and conditions as set forth in the Purchase Agreement. In addition, the Company entered into a five-year management contract to manage Riverchase. In June 2011, AdCare's option to purchase Riverchase Village was extended by one year.

Table of Contents**NOTE 10. VARIABLE INTEREST ENTITIES** *(continued)****Oklahoma Facilities (VIE s)***

In August, 2011, the Company began providing certain administrative services to the Oklahoma VIE Facilities. The Company is currently negotiating an option agreement that would give the Company the option to acquire the Oklahoma VIE Facilities from the Oklahoma VIEs, subject to approval by the Company's Board of Directors.

On August 1, 2011, the Oklahoma VIEs (which are owned and controlled by Christopher Brogdon, Vice Chairman and Chief Acquisition Officer of the Company) purchased the Oklahoma VIE Facilities (five skilled nursing facilities located in Oklahoma known as the Living Center, Kenwood Manor, Enid Senior Care, Betty Ann Nursing Center and Grand Lake Villa). Even though the Company does not have any equity interest in the Oklahoma VIE Facilities, the Company determined that these facilities constitute a variable interest entity, as the ownership entity does not have sufficient equity at risk under the Variable Interest Entities accounting pronouncements. Given the related party relationship with the common shareholder, the Company determined that it is the primary beneficiary of the Oklahoma VIE Facilities and that consolidation of the Oklahoma VIE Facilities is required. As such, the Company initially consolidated the Oklahoma VIE Facilities on August 1, 2011, the date of their acquisition by the Oklahoma VIEs and initial operations. As the primary beneficiary of the Oklahoma VIE Facilities, the Company has included the assets, liabilities and results of operations of the Oklahoma VIE Facilities in the Company's consolidated financial statements beginning August 1, 2011. As the Company does not have any equity interest in the Oklahoma VIE Facilities, the other equity holder's 100% interest is reflected in Net Loss (Income) Attributable to Noncontrolling Interests in the consolidated statement of operations and Noncontrolling interest in subsidiaries in the consolidated balance sheet.

The following summarizes the carrying amounts of the facility's assets and liabilities included in the consolidated balance sheet at September 30, 2011:

Employee Common Stock Warrants & Options (continued)

On June 3, 2011, the Company's shareholders approved the 2011 Stock Option and Incentive Plan (2011 Plan) which provides for the granting of a maximum of 1,000,000 shares of common stock. The 2011 Plan is intended to further the growth and profitability of the Company by providing increased incentives to and encourage share ownership on the part of key employees, officers and directors of, and consultants and advisers who render services to the Company, and any future parent or subsidiary of the Company. The 2011 Plan permits the granting of stock options and restricted stock awards (collectively, Awards) to eligible participants. If an Award expires or is canceled without having been fully exercised or vested, the unvested or canceled shares will be available again for grants of Awards.

On June 3, 2011, the Company granted incentive stock options to certain members of management pursuant to the 2011 plan. A total of 147,000 options were granted with an exercise price per share of \$5.75. The options vest ratably on the day before each of the three subsequent anniversaries. The options are exercisable until the term expires in June, 2016. The fair value of the options was estimated at \$3.18 per share and is being recognized as share-based compensation expense over the requisite service period of the awards. Subsequently, 25,000 shares have forfeited prior to vesting.

On August 26, 2011, the Company granted incentive stock options to certain members of management pursuant to the 2011 plan. A total of 130,000 options were granted with an exercise price per share of \$4.96. Subsequently, 50,000 shares have forfeited prior to vesting. The options vest ratably on the day before each of the three subsequent anniversaries. The options are exercisable until the term expires in August, 2016. The fair value of the options was estimated at \$2.63 per share and is being recognized as share-based compensation expense over the requisite service period of the awards.

Nonemployee Common Stock Warrants

On March 31, 2011, the Company issued a promissory note up to a maximum of \$5,500,000. In connection with this financing arrangement, the Company issued to the placement agent a warrant to purchase up to 250,000 shares of common stock with an exercise price per share equal to \$5.30. The warrant is exercisable until the term expires in March, 2014. Using the Black Scholes option-pricing model, the fair value of the warrant was estimated at \$1.32 per share and is being recognized as expense over the term of the related promissory note.

On May 1, 2011, the Company entered into a consulting agreement with Noble Finance. In connection with this agreement, the Company issued 50,000 warrants to purchase common stock with an exercise price per share equal to \$4.50. The warrants vest over an eight-month period from May through December 2011. The warrants are exercisable until the term expires in May 2016. The fair value of the warrants was estimated at \$2.08 per share and is being recognized as expense over the term of the agreement.

The following are the major categories of assets and liabilities measured at fair value on a recurring basis during the nine months ended September 30, 2011, using quoted prices in active markets for identical assets (Level 1); significant other observable inputs (Level 2); and significant unobservable inputs (Level 3).

	Level 1: Quoted Prices in Active Markets for Identical Assets	Level 2: Significant Other Observable Inputs	Level 3: Significant Unobservable Inputs	Total at September 30, 2011
Derivative Liability	\$	\$	\$ 2,057,152	\$ 2,057,152

Table of Contents**NOTE 12. FAIR VALUE MEASUREMENTS** *(continued)*

Following is a reconciliation of the beginning and ending balances for assets and liabilities measured at fair value on a recurring basis using significant unobservable inputs (Level 3) during the period ended September 30, 2011:

	Derivative Liability
Beginning Balance	\$ 2,905,750
Gains included in loss on debt extinguishment	41,941
Derivative gain	806,657
Ending Balance	\$ 2,057,152

During 2010, the Company issued subordinated convertible notes in which it was determined that the conversion feature was required to be bifurcated from the debt host and accounted for separately as a derivative liability recorded at fair value. The Company estimates the fair value of the derivative liability using the Black-Scholes option-pricing model with changes in fair value being reported in the consolidated statement of operations. The impact of any conversion activity is recognized net of any loss from the debt extinguishment.

NOTE 13. STOCK DIVIDEND

On August 31, 2011, the Company's Board of Directors declared a 5% stock dividend, issued on October 14, 2011 (see Note 15) to stockholders of record at the close of business on September 30, 2011. As a result of the payment of the stock dividend, the number of outstanding shares of common stock increased by 579,516 as of September 30, 2011. As the Company is in a deficit position, there is no recorded impact to the reported amounts of stockholders' equity in the accompanying consolidated balance sheet. As the stock dividend was declared before the release of the accompanying consolidated financial statements, all references to the number of common shares and per-share amounts are restated based on the increased number of shares giving retroactive effect to the stock dividend to prior period reported amounts.

NOTE 14. WARRANT CALL

On August 17, 2011, the Company gave notice that it was exercising its option to call for redemption of the outstanding: (i) warrants to purchase shares of common stock, sold in the Company's initial public offering in November 2006 (the "IPO Warrants"); and (ii) warrants to purchase shares of common stock sold in a private placement in December 2009 (the "Private Placement Warrants" and, together with the IPO Warrants, the "Warrants"). Registered holders of the Warrants had until September 19, 2011 (the "Call Exercise Period") to exercise each Warrant for 1.05 shares of common stock at a price of \$2.38 per share. On September 14, 2011, the Company announced that it extended the last day of the Call Exercise Period to September 26, 2011. Any Warrants not exercised by the registered holders thereof within the Call Exercise Period automatically expired on the last day of the Call Exercise Period, and AdCare remitted to the registered holders of such expired Warrants the sum of ten cents (\$.10) per underlying share of common stock.

Edgar Filing: ADCARE HEALTH SYSTEMS INC - Form 10-Q

In connection with the warrant call, 2,759,174 Warrants were exercised by the holders thereof and the Company issued 2,897,149 shares of common stock. The Company received aggregate net proceeds of \$6.3 million upon such exercises including issuance costs of approximately \$0.6 million. On September 26, 2011, the remaining 29,376 warrants expired requiring the Company to pay the aggregate call amount of approximately \$3,000.

2011 Acquisitions

We have embarked on a strategy to grow our business through acquisitions and leases of senior care facilities. For a detailed discussion of acquisition activity through December 31, 2010, see the Management's Discussion and Analysis included in the Annual Report.

Potential Acquisitions

Existing purchase agreements to acquire facilities are as follows:

- North Carolina, South Carolina, Tennessee and Virginia

On June 27, 2011, the Company entered into a purchase agreement for the asset purchase of two skilled nursing facilities located in North Carolina and South Carolina, the acquisition of lease agreements for nine skilled nursing facilities that are located in North Carolina, South Carolina, Tennessee and Virginia, and the acquisition of management agreements to manage four skilled nursing facilities located in Tennessee. The purchase price consists of \$21,650,000 in cash, common stock of the Company with an aggregate value of \$5,000,000, and a five-year promissory note in the principal amount of \$3,217,000. If this transaction closes, the Company expects to obtain control of such facilities by the end of the first quarter of 2012.

- Eaglewood Care Center and Eaglewood Village

On August 15, 2011, the Company entered into a purchase agreement to acquire Woodland Manor (also known as Eaglewood Care Center), a skilled nursing facility, and Eaglewood Village, an assisted living facility located in Springfield, Ohio, for an aggregate purchase price of \$13.5 million. Subsequent to September 30, 2011, the purchase agreement was amended to reduce the purchase price, increase the amount of cash payable at closing and reduce the principal amount of the seller financing. The closing of the purchase of the Eaglewood Care Center and Eaglewood Village is expected to occur on December 1, 2011.

Table of Contents

- Stone County Nursing and Rehabilitation and Stone County Residential Care Facility

On August 15, 2011, a wholly owned subsidiary of AdCare entered into a purchase agreement to acquire the Stone County Nursing and Rehabilitation Facility, a skilled nursing facility, and Stone County Residential Care Facility, a skilled nursing facility/assisted living facility, both located in Mountain View, Arkansas, for a purchase price of an aggregate of \$4.2 million. AdCare has deposited \$200,000 into escrow to be held as earnest money. The closing of the purchase of the Stone County Nursing and Rehabilitation Facility and Stone County Residential Care Facility is expected to occur on December 1, 2011.

- Oklahoma First Commercial Bank

On October 14, 2011 AdCare Property Holdings entered into an agreement with First Commercial Bank and Brogdon Family, pursuant to which the Company assumed all of Brogdon Family's rights under a purchase and sale agreement entered into as of May 5, 2011, by and between First Commercial Bank and Brogdon Family, as amended as of June 13, 2011. AdCare plans to acquire five skilled nursing facilities located in Oklahoma for an aggregate purchase price of \$16 million. The closing is expected to occur no later than four months after the date AdCare Property Holdings files its application for a certificate of need with the Oklahoma State Department of Health.

We are currently evaluating several acquisition opportunities, in addition to those described above, and we plan to continue to seek new opportunities to further our growth strategy. No assurances can be made that any of these opportunities will be determined to be appropriate or that they may be acquired on terms acceptable to us.

Segments

The Company reports its operations in four segments: SNF, ALF, Home Health, and Management/Corporate. The Company delivers skilled nursing, assisted living and home health services through wholly owned separate operating subsidiaries. The SNF and ALF segments provide services to individuals needing long-term care in a nursing home or assisted living setting and management of those facilities. The Home Health segment provides home health care services to patients while they are living in their own homes. The Management/Corporate segment engages in the management of facilities and accounting and IT services. We evaluate financial performance and allocate resources primarily based on segment operating income (loss). Segment operating results excludes interest expense and other non-operating income and expenses. See Note 3 in the Notes to Consolidated Financial Statements section of Part I, Item 1 of this Quarterly Report.

Skilled Nursing

We focus on two primary indicators in evaluating the financial performance in this segment. Those indicators are facility occupancy and patient mix. Facility occupancy is important as higher occupancy generally leads to higher revenues. In addition, concentrating on increasing the

Edgar Filing: ADCARE HEALTH SYSTEMS INC - Form 10-Q

number of Medicare covered admissions (patient mix) helps in increasing revenues. We include commercial insurance covered admissions that are reimbursed at the same level as those covered by Medicare in our Medicare utilization percentages and analysis.

Same Facilities results represent those owned and leased facilities we began to operate prior to October 1, 2010.

Recently Acquired Facilities results represents those owned and leased facilities we began to operate subsequent to October 1, 2010.

Medicare reimbursement rates and procedures are subject to change from time to time, which could materially impact our revenues. Medicare reimburses our skilled nursing facilities under a prospective payment system (PPS) for certain inpatient-covered services. Under the PPS, facilities are paid a predetermined amount per patient, per day, based on the anticipated costs of treating patients. The amount to be paid is determined by classifying each patient into a resource utilization group (RUG) category that is based upon each patient's acuity level. On July 29, 2011, the Centers for Medicare and Medicaid Services (CMS) announced a final rule reducing Medicare skilled nursing facility PPS payments in fiscal year 2012 by \$3.87 billion, or 11.1% lower than payments for fiscal year 2011. CMS announced it is recalibrating the case-mix indexes (CMIs) for fiscal year 2012 to restore overall payments to their intended levels on a prospective basis. Each RUG group consists of CMIs that reflect a patient's severity of illness and the services that a patient requires in the skilled nursing facility. In transitioning from the previous classification system to the new RUG-IV, CMS adjusted the CMIs for fiscal year 2011 based on forecasted utilization under this new classification system to establish parity in overall payments. The fiscal year 2011 recalibration of the CMIs will result in a reduction to skilled nursing facility payments of \$4.47 billion, or 12.6%. However, this reduction would be partially offset by the fiscal year 2012 update to Medicare payments to skilled nursing facilities. The update, a 1.7% or \$600 million increase, reflects a 2.7% market basket increase, reduced by a 1.0% multi-factor productivity (MFP) adjustment mandated by the Affordable Care Act. The combined MFP-adjusted market basket increase and the fiscal year 2012 recalibration will yield a net reduction of \$3.87 billion, or 11.1%.

The State of Ohio has released several statements regarding Medicaid indicating that cuts in reimbursement to nursing homes are likely to be as high as 7%. At this time, we do not anticipate significant changes in reimbursement to nursing homes in Alabama, Arkansas, Georgia, North Carolina or Oklahoma.

Assisted Living

We focus on facility occupancy and staffing in our ALF segment.

	Average Occupancy			
	Three Months Ended September 30, 2011	2010	Nine Months Ended September 30, 2011	2010
Total	77.5%	72.0%	75.9%	79.1%

Residents of our assisted living facilities rely on their personal investments and wealth to pay for their stay. Recent declines in market values of investments could limit their ability to pay for services or shorten the period of time for which they can pay privately for their stay. The current depressed market for the sale of homes could limit their ability to sell their personal assets further reducing their ability to remain in our facilities. Furthermore, adult children who have recently become unemployed

Table of Contents

may decide to care for their parent at home so that their parent's income may help offset some of their own financial burdens. We do not believe this is a trend and we believe facility occupancy will improve.

Home Health Care

In addition to providing home health care services to patients in their homes, we are utilizing our Home Health services in our assisted living and independent living properties in Ohio. For the three months ended September 30, 2011, the percentage of our home health patients covered by Medicare has decreased 14.8% compared to the three months ended September 30, 2010. We are reviewing our current strategies to attempt to correct the downturn of results in this segment.

Management/Corporate

We manage three skilled nursing facilities, one assisted living facility and one independent living campus for third party owners under contracts that either are for a fixed monthly fee or for a percentage of revenue generated by the managed facility. Depending on the type of contract, our revenues increase annually according to inflationary adjustments stipulated in our management agreements or they increase as the facility's revenue increases for the contracts that are based on a percentage of revenue. This segment includes our corporate overhead expenses, which are made up of salaries of our senior management team members and various other corporate expenses including, but not limited to, corporate office operating expenses, audit fees, legal fees and board activities. Additionally, non-cash charges for compensation expense related to warrants, restricted stock and stock options are included in corporate overhead. We do not allocate these expenses to the divisions or separate them from management and development business for management review purposes.

Patient Care Revenues - For the periods presented, total patient care revenues increased \$28 million, or 218%.

Edgar Filing: ADCARE HEALTH SYSTEMS INC - Form 10-Q

Revenue in our SNF segment increased approximately \$28,232,000 when compared to the three months ended September 30, 2010, primarily as a result of acquisitions that occurred after September 30, 2010. This segment had a net income from operations of \$2,338,000 which is \$1,924,000 higher compared to the three months ended September 30, 2010 as a result of higher revenue due to acquisitions, increased occupancy and more residents covered by Medicare. We plan to increase facility occupancy and to increase the number of patients covered by Medicare. We expect to continue to implement and refine strategies designed to achieve these goals.

Revenue in our ALF segment increased approximately \$288,000 when compared to the three months ended September 30, 2010, as a result of increased census and levels of care. This segment had income from operations of \$411,000 which is \$627,000 more than the same period in 2010 from increased occupancy and an annual increase in rates charged to residents of the facilities.

Edgar Filing: ADCARE HEALTH SYSTEMS INC - Form 10-Q

Table of Contents

Revenue in our Home Health segment declined when compared to the same period in 2010, as a result of fewer patients and fewer patients covered by Medicare. The decline in revenues resulted in a loss from operations of approximately \$160,000, compared with operating loss of \$29,000 for the same period in 2010.

Management Revenue - For the periods presented, management revenues (net of eliminations) decreased \$204,000, or 38%, as a result of fewer managed facilities.

Payroll and Related Payroll Costs - For the periods presented, payroll and related payroll costs increased \$13.8 million, or 168%, resulting primarily from the acquisition of 16 skilled nursing facilities and six variable interest entities. We also increased our corporate overhead structure and opened an accounting service center located in Roswell, Georgia during the second quarter of 2011.

Other Operating Expenses - For the periods presented, other operating costs increased \$9.7 million, or 210%. The increase is primarily attributable to the operations of the recently acquired skilled nursing facilities.

Three Months Ended September 30, 2011

	Same Facilities	Recently Acquired Facilities	Total
SNF Other Operating Expenses	\$ 6,993,000	\$ 5,488,000	\$ 12,481,000

Infrastructure Costs - Company management separately identifies certain costs, which the company has incurred that we believe are directly related to the growth of the company. These infrastructure costs include, but are not limited to, additional management and staff necessary to support our operational teams in our newly acquired facilities, including those in states that we have not previously operated. These costs are included on the Statement of Operations under both Payroll and Related Costs, and under Other Operating Expenses. Infrastructure costs are estimated as \$514,000 for the three months ending September 30, 2011. These are newly identified expenses and therefore there are no comparable costs for the same period of 2010.

Lease Expense - For the periods presented, lease expenses increased \$1.1 million. The lease expense increase resulted from the acquisitions of ten leased facilities in Georgia. We recorded lease expense for the third quarter of 2011 on all ten facilities, but only had lease expense during the third quarter of 2010. Five of the facilities were acquired in August of 2010, three facilities were acquired in September of 2010, and the remaining two were acquired during the fourth quarter of 2010.

Lease Expense	\$	1,981,000	\$	869,400

Depreciation and Amortization - For the periods presented, depreciation and amortization increased \$537,000. The depreciation increase is directly related to acquisition activity that was not included in the 2010 results as it occurred in later periods. In addition, the acquisitions resulted in financing costs and intangibles that are being amortized during the period (see tables presented below).

Interest Expense, net - For the periods presented, interest expense, net increased \$1.8 million, or 430%. We have entered into numerous debt instruments in relation to our growth strategy for the acquisition of the facilities which began in the third quarter of 2010. In addition, several of the arrangements are short term in nature resulting in higher interest rates than previously experienced.

Acquisition Costs, net of Gains - For the period ended September 30, 2011, acquisition costs, net of gains was an expense of \$1,146,700, compared to a net loss of \$402,900 for the comparative period. For the period ended September 30, 2011,

Table of Contents

\$990,300 of the total acquisition costs were legal fees directly related to the August Oklahoma VIE transaction and September 1, 2011 Pinnacle Acquisition in Arkansas. The remaining \$156,400 of costs for the period were IT consulting expenses, acquisition expenses, and accounting costs related to the change of ownership requirements. The facilities were purchased at fair market value; therefore, there were no bargain purchase gains recognized. For the same period in 2010, the Company recognized a net loss of approximately \$402,900 resulting from acquisition costs related to the lease of ten facilities in Georgia. The Company began operating five of the ten facilities on August 1, 2010 and three additional facilities on September 1, 2010. The remaining two facilities were a fourth quarter transaction.

Derivative Gain/Loss - For the period ended September 2011, the derivative gain was \$4.74 million, and there were no costs recorded in the comparative period. The derivative is a product of a debt instrument entered into during the third quarter of 2010. The expense associated with the derivative increases as the stock price climbs, and conversely decreases as the stock price declines. The price of the common stock of the Company declined during the three-month period ended September 30, 2011.

Loss on Debt Extinguishment - For the period ended September 2011, the loss on debt extinguishment was \$58,400 and there were no costs recorded in the comparative period. In June 2011, we recorded a \$13,100 loss on debt extinguishment resulting from unamortized deferred financing costs related to a \$75,000 conversion of debt. In August 2011, the refinance of Erin Property resulted in a \$45,300 loss on debt extinguishment related to the unamortized deferred financing costs for the interim financing that was refinanced.

Other Income/(Expense) - For the periods presented, other expenses decreased \$21,000.

Income Tax Expense - For the periods presented, income tax expense increased \$204,000. In the last two quarters of 2010, we acquired certain facilities which resulted in the recognition of indefinite lived intangible assets. Due to the nature of these assets and the tax treatment associated with it, we record a deferred tax liability which was not present in the September 2010 quarter. In addition, we generated taxable income for the three months ended September 30, 2011. This income is offset at the federal level by loss carry forwards, however we owe taxes in a number of states in which we operate.

Comparison for the nine months ended September 30, 2011 compared to the nine months ended September 30, 2010

Patient Care Revenues - For the periods presented, total patient care revenues increased \$81.6 million, or 336%.

For the nine months ended September 30, 2011, revenue in our SNF segment increased approximately \$81,548,000 compared to the nine months ended September 30, 2010, primarily as a result of acquisitions that occurred after September 30, 2010. This segment had a net income from operations of \$4,581,000, which is \$3,349,000 greater than net income from operations for this segment for the nine months ended September 30, 2010 as a result of higher revenue due to the acquisition of sixteen new facilities and five variable interest entities, as well as, increased occupancy and a greater number of residents covered by Medicare.

Edgar Filing: ADCARE HEALTH SYSTEMS INC - Form 10-Q

For the nine months ended September 30, 2011, revenue in our ALF segment increased approximately \$1,385,000 compared to the nine months ended September 30, 2010, from increased revenue from a VIE acquisition. This segment had income from operations of \$1,004,000, which is \$1,418,000 greater than income from operations for the same period in 2010 because of the acquisition and an annual increase in rates charged to residents of the facilities.

For the nine-month period ended September 30, 2011, revenue in our Home Health segment declined compared to the same period in 2010, as a result of fewer patients and fewer patients covered by Medicare. The decline in revenues for the nine months ended September 30, 2011, resulted in a loss from operations of approximately \$321,000, compared with operating income of \$4,000 for the same period in 2010.

Management Revenues - For the periods presented, management revenues (net of eliminations) decreased \$252,000, or 16%, as a result of fewer managed facilities.

Table of Contents

Payroll and Related Payroll Costs - For the periods presented, payroll and related payroll costs increased \$42.9 million, or 264%, resulting primarily from the acquisition of 16 skilled nursing facilities and five variable interest entities. We also increased our corporate overhead structure and opened an accounting service center located in Roswell, Georgia during the second quarter of 2011.

Other Operating Expense - For the periods presented, other operating costs increased \$27.7 million, or 315%. The increase is directly related to the operations of the recently acquired skilled nursing facilities, as well as minor increases in other segments.

Retirement and Salary Continuation Costs - For the period ended June 2011, we accrued retirement and salary continuation costs of approximately \$622,000 related to separation agreements with the Company's former Chief Executive Officer and Chief Financial Officer.

Interest Expense, net - For the periods presented, interest expense, net increased \$4.5 million, or 449%. We have entered into numerous debt instruments in relation to our growth strategy for the acquisition of the facilities which began in the third quarter of 2010. In addition, several of the arrangements are short term in nature resulting in higher interest rates than previously experienced.

Acquisition Costs, net of Gains - For the period ended September 30, 2011, acquisition costs, net of gains was a net loss of \$789,400, compared to a net gain of \$1,226,900 for the comparative period. The \$789,400 acquisition costs, net of gains for the nine months ended September 30, 2011, were the result of a \$1,039,000 gain on the purchase of the Mountain Trace facility. The transaction resulted in a bargain purchase because the seller was motivated to sell the facility. This net gain was offset by \$1,537,200 of legal fees and finder's fees directly related to the purchase of Autumn Breeze Healthcare Center, Southland Care Center, and College Park Healthcare Center. Additional acquisition costs resulted from the Oklahoma VIE transaction and the Pinnacle Acquisition. The remaining \$291,600 were IT consulting expenses, acquisition expenses, and accounting costs related to the change of ownership requirements. The facilities were purchased at fair market value; therefore there were no bargain purchase gains recognized. In comparison, in the same period of 2010 we acquired our partner's 50% noncontrolling interest in three assisted living facilities. The combined purchase price for the acquisition was \$500,000. As a result, we recognized a gain of approximately \$826,000. We also recognized a net gain of approximately \$808,000 resulting from the purchase of Riverchase Village. The gains were offset by \$407,000 of acquisition costs related to the lease of ten facilities in Georgia.

Derivative Gain/Loss - For the period ended September 2011, the derivative gain was \$807,000; there were no costs recorded in the comparative period. The derivative is a product of a debt instrument entered into during the third quarter of 2010. The expense associated with the derivative increases as the stock price climbs, and conversely decreases as the stock price declines. The price of the common stock of the Company declined during the nine month period ended September 30, 2011.

Loss on Debt Extinguishment - For the period ended September 2011, the loss on debt extinguishment was \$136,000; there were no costs recorded in the comparative period. In March 2011, we issued a promissory note in the amount of \$1,385,000 and paid a commitment fee of \$55,400. Subsequent to March 31, 2011, we repaid this promissory note, and recorded a loss on debt extinguishment resulting from unamortized deferred financing costs. In June 2011, we recorded a \$13,100 loss on debt extinguishment resulting from unamortized deferred financing costs related to a \$75,000 conversion of debt. In August 2011, the refinance of Erin Property resulted in a \$45,300 loss on debt extinguishment related to the unamortized deferred financing costs for the interim financing that was refinanced.

Other Income/(Expense) - For the period ended September 30, 2011, other income of \$558,000 was recorded, compared with other expense of \$79,000 for the comparative period, a net change of \$637,000. In the acquisition of five leased facilities in 2010, we purchased receivables and recorded them at the estimated value at the time of acquisition. We collected substantially more of the receivables than expected by \$632,000, resulting in the additional income for 2011.

Income Tax Expense - For the periods presented, income tax expense increased \$414,000. The increase over prior year is partly due to the acquisition of certain facilities which resulted in the recognition of indefinite lived intangible assets. Due to the nature of these assets and the tax treatment associated with it, we record a deferred tax liability which was not present in the September 2010 quarter. In addition, we generated taxable income through September 30, 2011. This income is offset at the federal level by loss carry forwards, however we owe taxes in a number of states that we operate.

Critical Accounting Policies and Use of Estimates

There have been no significant changes during the three-month period ended September 30, 2011 to the items that we disclosed as our critical accounting policies and use of estimates in our discussion and analysis of financial condition and results of operation contained in the Annual Report.

Table of Contents**Liquidity and Capital Resources****Overview**

Our primary sources of liquidity have historically been derived from our cash flow from operations, our revolving credit facilities, long-term debt secured by our real property and proceeds from stock activity.

Since 2010, we have financed the majority of our facility acquisitions primarily through bridge and permanent financings secured by the acquired facility, unsecured corporate obligations, and cash generated from operations.

We believe our current cash balances, our cash flow from operations and the revolving line of credit facilities currently in place will be sufficient to cover our operating needs for at least the next twelve months. We may in the future seek to raise additional capital to fund our growth, capital renovations, operations and for other activities associated with our business; however, such additional capital may not be available on acceptable terms, on a timely basis, or at all.

Some of our properties are financed with loans secured by the Department of Housing and Urban Development (HUD). These loans limit our use of the cash generated by the properties for purposes other than to fund the operations of the HUD financed property. In January and July each year, we are permitted to withdraw cash from these properties if a calculation of cash flow determines that the properties have generated cash in excess of what is needed to fund the expenses of the property in the short term. When the calculation indicates there is available cash, we withdraw the funds from the property and deposit them in an interest bearing checking account and hold them for future use in operations. Of our unrestricted cash balance of approximately \$10,050,000, there was approximately \$1,606,000 of cash that was subject to these requirements as of September 30, 2011.

The following table presents selected data from our consolidated statement of cash flows for the periods presented:

	Nine Months Ended September 30,		
	2011		2010
	(In thousands)		
Net cash provided by (used in) operating activities	\$	1,030	\$ (1,088)
Net cash used in investing activities		(13,236)	(7,000)
Net cash provided by financing activities		18,345	9,062
Net change in cash and cash equivalents		6,139	974
Cash and cash equivalents at beginning of period		3,911	4,481
Cash and cash equivalents at end of period	\$	10,050	\$ 5,455

Nine months ended September 30, 2011

Net cash provided by operating activities for the nine months ended September 30, 2011, was approximately \$1,030,000 consisting primarily of our income from operations less the noncash gain on acquisitions, and changes in working capital, and noncash charges (primarily depreciation and amortization, the derivative loss, share-based compensation, difference between straight-line rent and rent paid, and amortization of debt discounts and related deferred financing costs); all primarily the result of routine operating activity.

Net cash used in investing activities for the nine months ended September 30, 2011, was approximately \$13,236,000. This is primarily the result of funding our acquisitions, including making escrow deposits.

Net cash provided by financing activities was approximately \$18,345,000 for the nine months ended September 30, 2011. This is primarily the result of cash proceeds received from warrant exercises, increases in borrowings on the line of credit, proceeds from debt financings to fund our acquisitions, partially offset by repayments of existing debt obligations.

Table of Contents

Nine months ended September 30, 2010

Net cash used in operating activities for the nine months ended September 30, 2010 was approximately \$1,088,000 consisting primarily of our net loss from operations and changes in working capital partially offset by noncash charges, all primarily the result of routine operating activity.

Net cash used in investing activities for the nine months ended September 30, 2010 was approximately \$7,000,000. This is primarily the result of escrow deposits for the acquisition of two facilities, the purchase of the remaining 50% noncontrolling interest in Community's Hearth & Home and Hearth & Home of Urbana assisted living facilities, and the purchase of additional equipment partially offset by a decrease in restricted cash due to proceeds received from HUD required escrow accounts.

Net cash provided by financing activities was approximately \$9,062,000 for the nine months ended September 30, 2010. This is primarily the result of increases in borrowings on the line of credit, proceeds from debt financings to fund our acquisitions, partially offset by repayments of existing debt obligations.

Item 4. Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed pursuant to the Securities Exchange Act of 1934, as amended (the Exchange Act), is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by Rule 13a-15(b) of Rule 15d-15(b) of the Exchange Act, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as required by Rule 13a-15(e) of Rule 15d-15(e) of the Exchange Act as of the end of the period covered by this Quarterly Report. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective.

During the second quarter of 2011, AdCare's regional accounting office began to provide accounting, human resources and payroll services to the majority of our facilities. Additionally, we are in the process of implementing a new accounting software system that should be fully operational in the fourth quarter to provide more efficient access to information and more robust reporting. Other than the aforementioned, there has been no change in our internal control over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Part II. Other Information

Item 1. Legal Proceedings

We are party to various legal actions and administrative proceedings and are subject to various claims arising in the ordinary course of business, including claims that our services have resulted in injury or death to the residents of our facilities and claims related to employment, staffing requirements and commercial matters. Although we intend to vigorously defend ourselves in these matters, there can be no assurance that the outcomes of these matters will not have a material adverse effect on our results of operations and financial condition.

We operate in an industry that is extremely regulated. As such, in the ordinary course of business, we are continuously subject to state and federal regulatory scrutiny, supervision and control. Such regulatory scrutiny often includes inquiries, investigations, examinations, audits, site visits and surveys, some of which are non-routine. In addition to being subject to direct regulatory oversight of state and federal regulatory agencies, our industry is frequently subject to the regulatory practices, which could subject us to civil, administrative or criminal fines, penalties or restitutionary relief, and reimbursement authorities could also seek the suspension or exclusion of the provider or individual from participation in their program. We believe that there has been, and will continue to be, an increase in governmental investigations of long-term care providers, particularly in the area of Medicare/Medicaid false claims, as well as an increase in enforcement actions resulting from these investigations. Adverse

determinations in legal proceedings or governmental investigations against or involving us, whether currently asserted or arising in the future, could have a material adverse effect on our financial position, results of operations and cash flows.

Item 1A. Risk Factors

Our operations and financial results are subject to various risks and uncertainties that could adversely affect our business, financial condition, results of operations, cash flows, and trading price of our common stock. Please refer to our Annual Report for additional information concerning these and other uncertainties that could negatively impact the Company.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On August 17, 2011, the Company gave notice that it was exercising its option to call for redemption the outstanding IPO Warrants and Private Placement Warrants. Registered holders of the Warrants had until September 19, 2011 to exercise each Warrant for 1.05 shares of common stock at a price of \$2.38 per share. On September 14, 2011, the Company announced that it extended the last day of the Call Exercise Period to September 26, 2011. Any Warrants not exercised by the registered holders thereof within the Call Exercise Period automatically expired on the last day of the Call Exercise Period, and AdCare remitted to the registered holders of such expired Warrants the sum of ten cents (\$.10) per underlying share of common stock.
