Item 2.02. Results of Operations and Financial Condition.

On August 14, 2013, AdCare Health Systems, Inc. (the Company) announced its results of operations for the quarter ended June 30, 2013. A copy of the press release is attached hereto as Exhibit 99.1.

The information provided pursuant to this Item 2.02, including Exhibit 99.1, is furnished and shall not be deemed to be filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the Exchange Act), or otherwise subject to the liabilities of such section, and shall not be incorporated by reference in any filing made by the Company under the Exchange Act or the Securities Act of 1933, as amended, except to the extent expressly set forth by specific reference in any such filings.

In addition to reporting financial results in accordance with U.S. generally accepted accounting principles (GAAP), the Company presents certain non-GAAP financial measures. Specifically, the Company presents Adjusted EBITDAR from continuing operations and Adjusted EBITDA from continuing operations. The Company defines: (i) Adjusted EBITDAR from continuing operations as net income (loss) from continuing operations before interest expense, income tax expense, depreciation and amortization (including amortization of non-cash stock-based compensation), acquisition costs (net of gains), loss on extinguishment of debt, derivative loss and other non-routine adjustments; and (ii) Adjusted EBITDA from continuing operations as net income (loss) from continuing operations before interest expense, income tax expense, depreciation and amortization (including amortization of non-cash stock-based compensation), acquisition costs (net of gains), loss on extinguishment of debt, derivative loss or gain, and other non-routine adjustments.

Adjusted EBITDAR from continuing operations and Adjusted EBITDA from continuing operations should not be considered in isolation or as a substitute for net income, income from operations or cash flows provided by, or used in, operations, as determined in accordance with GAAP. Adjusted EBITDAR from continuing operations and Adjusted EBITDA from continuing operations are used by the Company's management to focus on operating performance and management without mixing in items of income and expense that relate to the financing and capitalization of the business, fixed rent or lease payments of facilities, derivative loss or gain, certain acquisition related charges and other non-routine adjustments. The Company believes these non-GAAP financial measures are useful to investors in evaluating the Company's performance, results of operations and financial position for the following reasons:

- They are helpful in identifying trends in the Company's day-to-day performance because the items excluded have little or no significance to the Company's day-to-day operations;
- They provide an assessment of controllable expenses and afford management the ability to make decisions which are expected to facilitate meeting current financial goals as well as achieve optimal financial performance; and
- They provide data that assists management to determine whether or not adjustments to current spending decisions are needed.

The Company believes that the use of these non-GAAP financial measures provide a meaningful and consistent comparison of the Company's underlying business between periods by eliminating certain items required by GAAP, which have little or no significance in the Company's

day-to-day operations.

Quantitative reconciliations of Adjusted EBITDAR from continuing operations and Adjusted EBITDA from continuing operations to the most directly comparable GAAP financial measures are included in the press release attached hereto as Exhibit 99.1.

Item 9.01. Financial Statements and Exhibits.
