UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

Washington, DC 20549

FORM 10-Q

**QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934**

For the quarterly period ended July 31, 2013

Commission File No. 001-33866

TITAN MACHINERY INC.

(Exact name of registrant as specified in its charter)

Delaware
(State or Other Jurisdiction of
Incorporation or Organization)

No. 45-0357838
(IRS Employer
Identification No.)

644 East Beaton Drive
West Fargo, ND 58078-2648

Edgar Filing: Titan Machinery Inc. - Form 10-Q

(Address of Principal Executive Offices)

Registrant's telephone number **(701) 356-0130**

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES x NO o

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). YES x NO o

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer o

Accelerated filer x

Non-accelerated filer o

Smaller reporting company o

(Do not check if smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). YES o NO x

The number of shares outstanding of the registrant's common stock as of August 31, 2013 was: Common Stock, \$0.00001 par value, 21,239,391 shares.

TITAN MACHINERY INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(UNAUDITED)

NOTE 1 - BUSINESS ACTIVITY AND SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The unaudited consolidated financial statements included herein have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC) for interim reporting. Accordingly, they do not include all the information and footnotes required by accounting principles generally accepted in the United States of America (GAAP) for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. The quarterly operating results for Titan Machinery Inc. (the Company) are subject to fluctuation due to varying weather patterns, which may impact the timing and amount of equipment purchases, rentals, and after-sales parts and service purchases by the Company's Agriculture, Construction and International customers. Therefore, operating results for the six-month period ended July 31, 2013 are not necessarily indicative of the results that may be expected for the fiscal year ending January 31, 2014. The information contained in the balance sheet as of January 31, 2013 was derived from the audited financial statements for the Company for the year then ended. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company's Form 10-K for the fiscal year ended January 31, 2013 as filed with the SEC.

Nature of Business

The Company is engaged in the retail sale, service and rental of agricultural and construction machinery through stores in the United States and Europe. The Company's North American stores are located in Arizona, Colorado, Iowa, Minnesota, Montana, Nebraska, New Mexico, North Dakota, South Dakota, Wisconsin and Wyoming, and its European stores are located in Bulgaria, Romania, Serbia and Ukraine.

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates, particularly related to realization of inventory, initial valuation and impairment analyses of intangible assets, collectability of receivables, and income taxes.

Principles of Consolidation

Edgar Filing: Titan Machinery Inc. - Form 10-Q

The consolidated financial statements include the accounts of the Company and its wholly-owned and majority-owned subsidiaries. All material accounts, transactions and profits between the consolidated companies have been eliminated in consolidation.

Reclassifications

Certain reclassifications of amounts previously reported have been made to the accompanying consolidated statements of cash flows to maintain consistency and comparability between periods presented. These reclassifications had no impact on previously reported cash flows from operating, investing or financing activities.

Fair Value of Financial Instruments

The carrying amount of cash, receivables, payables, short-term debt and other current liabilities approximates fair value because of the short maturity and/or frequent repricing of those instruments, which are Level 2 fair value inputs.

Edgar Filing: Titan Machinery Inc. - Form 10-Q

Table of Contents

The Company recognized a derivative liability for outstanding foreign currency forward contracts which are recorded at fair value in an amount equal to \$0.8 million and \$0.1 million as of July 31, 2013 and January 31, 2013, respectively. Fair value was determined based on Level 2 inputs which include observable, market-based pricing components.

The carrying value of long-term debt approximates fair value as of July 31, 2013 and January 31, 2013. Fair value was estimated based upon current borrowing rates with similar maturities, which are Level 2 fair value inputs. The fair value of senior convertible notes was approximately \$140.1 million and \$152.8 million as of July 31, 2013 and January 31, 2013, respectively. The face value of senior convertible notes was \$150.0 million as of July 31, 2013 and January 31, 2013. The carrying value of senior convertible notes was approximately \$127.3 million and \$125.7 million as of July 31, 2013 and January 31, 2013, respectively. The difference between the face value and the carrying value of these notes is the result of the allocation between the debt and equity components. Fair value of the senior convertible notes was estimated based on Level 2 fair value inputs.

Earnings Per Share (EPS)

The Company uses the two-class method to calculate basic and diluted EPS. Unvested restricted stock awards are considered participating securities because they entitle holders to non-forfeitable rights to dividends during the vesting term. Under the two-class method, basic EPS were computed by dividing net income attributable to Titan Machinery Inc. after allocation of income to participating securities by the weighted-average number of shares of common stock outstanding during the year.

Diluted EPS were computed by dividing net income attributable to Titan Machinery Inc. after allocation of income to participating securities by the weighted-average shares of common stock outstanding after adjusting for potential dilution related to the conversion of all dilutive securities into common stock. All potentially dilutive securities were included in the computation of diluted EPS. There were approximately 99,000 and 66,000 stock options outstanding that were excluded from the computation of diluted EPS for the three and six months ended July 31, 2013, respectively, because they were anti-dilutive. There were approximately 10,000 and 10,000 stock options outstanding that were excluded from the computation of diluted EPS for the three and six months ended July 31, 2012, respectively, because they were anti-dilutive. None of the approximately 3,474,000 shares underlying the Company's senior convertible notes were included in the computation of diluted EPS because the Company's average stock price was less than the conversion price of \$43.17.

The following table sets forth the calculation of basic and diluted EPS:

Numerator							
Net income attributable to Titan Machinery Inc.	\$	3,833	\$	5,209	\$	3,419	\$ 12,806
Less: Net income allocated to participating securities		(56)		(54)		(45)	(125)
Net income attributable to Titan Machinery Inc. common stockholders	\$	3,777	\$	5,155	\$	3,374	\$ 12,681
Denominator							
		20,882		20,781		20,868	20,752

Edgar Filing: Titan Machinery Inc. - Form 10-Q

Basic weighted-average common shares outstanding							
Plus: Incremental shares from assumed conversions of stock options and warrants	147	219	159	229			
Diluted weighted-average common shares outstanding	21,029	21,000	21,027	20,981			
Earnings per share - basic	\$ 0.18	\$ 0.25	\$ 0.16	\$ 0.61			
Earnings per share - diluted	\$ 0.18	\$ 0.25	\$ 0.16	\$ 0.60			

Table of Contents**NOTE 2 - INVENTORIES**

	July 31, 2013	January 31, 2013
	(in thousands)	
New equipment	\$ 705,389	\$ 542,180
Used equipment	270,541	275,626
Parts and attachments	118,085	103,456
Work in process	11,804	7,954
	\$ 1,105,819	\$ 929,216

In addition to the above amounts, the Company has estimated that a portion of its parts inventory will not be sold in the next year. Accordingly, these balances have been classified as noncurrent assets.

NOTE 3 - PROPERTY AND EQUIPMENT

	July 31, 2013	January 31, 2013
	(in thousands)

	\$ 235,125	\$ 194,641

NOTE 4 - LINES OF CREDIT / FLOORPLAN NOTES PAYABLE*Working Capital Line of Credit*

As of July 31, 2013, the Company had a \$75.0 million working capital line of credit under an amended and restated credit agreement with a group of banks led by Wells Fargo Bank, National Association (Wells Fargo). The Company had \$16.2 million and \$7.1 million outstanding on its working capital line of credit as of July 31, 2013 and January 31, 2013, respectively. Amounts outstanding are recorded as long-term debt, within long-term liabilities on the consolidated balance sheets, as the Company does not have an obligation to repay amounts borrowed within one year.

Floorplan Lines of Credit

As of July 31, 2013, the Company had discretionary floorplan lines of credit for equipment purchases totaling approximately \$975.0 million with various lending institutions, including \$375.0 million under the aforementioned credit agreement with Wells Fargo, a \$450.0 million credit agreement with CNH Capital America LLC (CNH Capital) and a \$150.0 million credit agreement with Agricredit Acceptance LLC. Floorplan notes payable relating to these credit agreements totaled approximately \$751.5 million of the total floorplan notes payable balance of \$851.2 million outstanding as of July 31, 2013 and \$629.8 million of the total floorplan notes payable balance of \$689.4 million outstanding as of January 31, 2013. As of July 31, 2013, the Company had approximately \$130.4 million in available borrowings remaining under these lines of credit (net of adjustments based on borrowing base calculations and standby letters of credit under the aforementioned Wells Fargo credit agreement, and rental fleet financing and other acquisition-related financing arrangements under the CNH Capital credit agreement). These floorplan notes carried various interest rates primarily ranging from 2.81% to 7.25% as of July 31, 2013,

Table of Contents

subject to interest-free periods offered by CNH Capital. As of July 31, 2013, the Company was in compliance with all floorplan financial covenants.

NOTE 5 - SENIOR CONVERTIBLE NOTES

The Company's 3.75% Senior Convertible Notes issued on April 24, 2012 (Convertible Notes) consisted of the following:

	July 31, 2013	January 31, 2013
	(in thousands except conversion rate and conversion price)

Unamortized debt discount	(22,748)	(24,334)
Carrying value of senior convertible notes	\$ 127,252	\$ 125,666
Carrying value of equity component, net of deferred taxes	\$ 15,546	\$ 15,546
Conversion rate (shares of common stock per \$1,000 principal amount of notes)	23.1626	23.1626
Conversion price (per share of common stock)	\$ 43.17	\$ 43.17

As of July 31, 2013, the unamortized debt discount will be amortized over a remaining period of approximately six years. As of July 31, 2013 and January 31, 2013, the if-converted value of the Senior Convertible Notes does not exceed the principal balance.

For the six months ended July 31, 2013, the Company recognized coupon interest expense of \$2.8 million, and non-cash interest expense of \$1.6 million related to the amortization of the debt discount and \$0.3 million related to the amortization of the liability-allocated transaction costs. For the six months ended July 31, 2012, the Company recognized coupon interest expense of \$1.5 million, and non-cash interest expense of \$0.8 million related to the amortization of the debt discount and \$0.1 million related to the amortization of the liability-allocated transaction costs. The effective interest rate of the liability component was equal to 7.00% for the period ended July 31, 2013.

NOTE 6 - DERIVATIVE INSTRUMENTS

The Company holds derivative instruments for the purpose of minimizing exposure to fluctuations in foreign currency exchange rates to which the Company is exposed in the normal course of its operations.

Net Investment Hedges

Edgar Filing: Titan Machinery Inc. - Form 10-Q

To protect the value of the Company's investments in its foreign operations against adverse changes in foreign currency exchange rates, the Company may, from time to time, hedge a portion of its net investment in one or more of its foreign subsidiaries. Gains and losses on derivative instruments that are designated and effective as a net investment hedge are included in other comprehensive income and only reclassified into earnings in the period during which the hedged net investment is sold or liquidated. Any hedge ineffectiveness is recognized in earnings immediately.

The notional amount of outstanding foreign currency forward contracts designated as net investment hedges was approximately \$22.6 million as of July 31, 2013. There were no foreign currency forward contracts designated as net investment hedges outstanding as of January 31, 2013. For the six months ended July 31, 2013, the maximum notional amount outstanding at any point during the period was approximately \$23.6 million. No derivative instruments designated as net investment hedges were outstanding during the six months ended July 31, 2012.

Derivative Instruments Not Designated as Hedging Instruments

The Company uses foreign currency forward contracts to hedge the effects of fluctuations in exchange rates on outstanding intercompany loans. The Company does not formally designate and document such derivative instruments as

Edgar Filing: Titan Machinery Inc. - Form 10-Q

Table of Contents

hedging instruments; however, the instruments are an effective economic hedge of the underlying foreign currency exposure. Both the gain or loss on the derivative instrument and the offsetting gain or loss on the underlying intercompany loan are recognized in earnings immediately, thereby eliminating or reducing the impact of foreign currency exchange rate fluctuations on net income.

The notional amount of outstanding foreign currency forward contracts not designated as hedging instruments was approximately \$40.5 million and \$4.0 million as of July 31, 2013 and January 31, 2013, respectively. For the six months ended July 31, 2013 and 2012, the maximum notional amount outstanding at any point during the period was approximately \$40.5 million and \$1.2 million, respectively.

The following table sets forth the fair value of the Company's outstanding derivative instruments.

NOTE 7 - BUSINESS COMBINATIONS

The Company continued to implement its strategy of consolidating dealerships in desired market areas. Below is a summary of the acquisitions completed for the six months ended July 31, 2013. In certain of the business combination transactions the Company recognized goodwill. Factors contributing to the recognition of goodwill include an evaluation of future and historical financial performance, the value of the workforce acquired and proximity to other existing and future planned Company locations. Pro forma results are not presented as the acquisitions are not considered material, individually or in aggregate, to the Company. The results of operations have been included in the Company's consolidated statements of operations since the date of each respective business combination.

On February 16, 2013, the Company acquired certain assets of Tucson Tractor Company. The acquired entity consisted of one construction equipment store in Tucson, Arizona which is contiguous to the Company's existing locations in Phoenix and Flagstaff, Arizona and expands the Company's construction presence in Arizona. The acquisition-date fair value of the total consideration transferred for the store was \$4.1 million.

On March 1, 2013, the Company acquired certain assets of Adobe CE, LLC. The acquired entity consisted of one construction equipment store in Albuquerque, New Mexico and expands the Company's presence into New Mexico. The acquisition-date fair value of the total consideration transferred for the store was \$1.2 million.

As of January 31, 2013, the final valuation of the intangible assets acquired in the Toner's, Inc. acquisition consummated on November 1, 2012 was not complete. As a result, the recorded intangible asset values were based on provisional estimates of fair value. The valuation of such assets was completed during the period ended April 30, 2013 and resulted in a \$0.1 million decrease in the value of the distribution rights, a \$0.2 million decrease in the value of customer relationships and a \$0.3 million increase in the value of goodwill arising from the acquisition. The comparative information as of January 31, 2013 was retrospectively adjusted to reflect the final values assigned to each of the intangible assets.

Edgar Filing: Titan Machinery Inc. - Form 10-Q

Table of Contents

The allocations of the purchase prices in the above business combinations are presented in the following table. The estimated fair values of the intangible assets acquired are provisional estimates which are subject to change upon completion of the final valuation.

NOTE 8 - SEGMENT INFORMATION AND OPERATING RESULTS

The Company owns and operates a network of full service agricultural and construction equipment stores in the United States and Europe. During the three months ended April 30, 2013, the Company determined that its International operations were a separate reportable segment. As of July 31, 2013, the Company has three reportable segments: Agriculture, Construction and International. The Company's segments are organized based on types of products sold and geographic areas, as described in the following paragraphs. The operating results for each segment are reported separately to the Company's senior management to make decisions regarding the allocation of resources, to assess the Company's operating performance and to make strategic decisions.

The Company's Agriculture segment sells, services, and rents machinery, and related parts and attachments, for uses ranging from large-scale farming to home and garden use to customers in North America. This segment also includes ancillary sales and services related to agricultural activities and products such as equipment transportation, Global Positioning System (GPS) signal subscriptions, hardware merchandise and finance and insurance products.

Edgar Filing: Titan Machinery Inc. - Form 10-Q

The Company's Construction segment sells, services, and rents machinery, and related parts and attachments, for uses ranging from heavy construction to light industrial machinery use to customers in North America. This segment also includes ancillary sales and services related to construction activities such as equipment transportation, GPS signal subscriptions and finance and insurance products.

The Company's International segment sells, services, and rents machinery, and related parts and attachments, for uses ranging from large-scale farming and construction to home and garden use to customers in Eastern Europe. It also includes export sales of equipment and parts to customers outside of the United States.

Edgar Filing: Titan Machinery Inc. - Form 10-Q

Table of Contents

Revenue, income (loss) before income taxes and total assets at the segment level are reported before eliminations. The Company retains various unallocated income/(expense) items and assets at the general corporate level, which the Company refers to as Shared Resources in the table below. Shared Resources assets primarily consist of cash and property and equipment. Intersegment revenue is immaterial.

Certain financial information for each of the Company's business segments is set forth below. The financial information for the three and six months ended July 31, 2012 and as of January 31, 2013 has been reclassified for comparability with current year presentation.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our interim unaudited consolidated financial statements and related notes included in Item 1 of Part I of this Quarterly Report, and the audited consolidated financial statements and notes thereto and Management's Discussion and Analysis of Financial Condition and Results of Operations contained in our Annual Report on Form 10-K for the year ended January 31, 2013.

Critical Accounting Policies

There have been no material changes in our Critical Accounting Policies, as disclosed in our Annual Report on Form 10-K for the year ended January 31, 2013.

Overview

We own and operate a network of full service agricultural and construction equipment stores in the United States and Europe. Based upon information provided to us by CNH Global N.V. or its U.S. subsidiary CNH America, LLC, we are the largest retail dealer of Case IH Agriculture equipment in the world, the largest retail dealer of Case Construction equipment in North America and a major retail dealer of New Holland Agriculture and New Holland Construction equipment in the U.S. We operate our business through three reportable segments, Agriculture, Construction and International. Within each segment, we have four principal sources of revenue: new and used equipment sales, parts sales, service, and equipment rental and other activities.

Our net income attributable to Titan Machinery Inc. common stockholders was \$3.8 million, or \$0.18 per diluted share, for the three months ended July 31, 2013, compared to \$5.2 million, or \$0.25 per diluted share, for the three months ended July 31, 2012. Significant factors impacting the quarterly comparisons were:

- Increase in revenue due to acquisitions and same-store sales growth in our Agriculture and International segments, partially offset by a decrease in same-store sales in our Construction segment;
- Increase in total gross profit due to an increase in revenue. Total gross profit margin remained relatively consistent at 17.1% for the second quarter of fiscal 2014, as compared to 17.2% for the second quarter of fiscal 2013, caused by positive effects of a change in gross profit mix and offset by decreases in the gross profit margin for equipment and rental and other; and
- Operating expenses as a percentage of total revenue increased to 14.4% for the three months ended July 31, 2013 compared to 13.8% for the three months ended July 31, 2012, primarily due to additional expenses associated with acquired stores and expanding our distribution

network.

[Table of Contents](#)

Results of Operations

Comparative financial data for each of our four sources of revenue are expressed below. The results for these periods include the operating results of the acquisitions made during these periods. The period-to-period comparisons included below are not necessarily indicative of future results. Segment information is provided later in this discussion and analysis of our results of operations.

Same-store sales for any period represent sales by stores that were part of the Company for the entire comparable periods in the current and preceding fiscal years. We do not distinguish relocated or newly-expanded stores in this same-store analysis. Closed stores are excluded from the same-store analysis. Stores that do not meet the criteria for same-store classification are described as acquisition stores throughout the Results of Operations section in this Quarterly Report on Form 10-Q.

Consolidated Results

Revenue

	Three Months Ended July 31,		Increase	Percent Change
	2013	2012		
	(dollars in thousands)			
Equipment	\$ 358,388	\$ 306,170	\$ 52,218	17.1%
Parts	70,633	57,895	12,738	22.0%
Service	39,872	30,466	9,406	30.9%

Edgar Filing: Titan Machinery Inc. - Form 10-Q

Rental and other		19,287		15,540		3,747	24.1%
Total Revenue	\$	488,180	\$	410,071	\$	78,109	19.0%

The increase in revenue for the second quarter of fiscal 2014, as compared to the same period last year, was due to acquisitions contributing \$39.1 million and same-store sales growth of \$39.0 million, an increase of 9.6% over the prior year period. This revenue growth was across all revenue sources. Our Agriculture and International segments had growth in same-store sales over the second quarter of fiscal 2013, but our Construction segment had lower same-store sales compared to the second quarter of fiscal 2013, which was negatively impacted by continued difficult Construction industry conditions and operational challenges of underperforming Construction stores, especially those acquired in fiscal year 2013 and the first quarter of fiscal 2014.

Gross Profit Margin							
Equipment		8.2%		8.8%		(0.6)%	(6.8)%
Parts		32.0%		30.3%		1.7%	5.6%
Service		63.9%		65.6%		(1.7)%	(2.6)%
Rental and other		31.8%		38.3%		(6.5)%	(17.0)%
Total Gross Profit Margin		17.1%		17.2%		(0.1)%	(0.6)%
Gross Profit Mix							
Equipment		35.1%		38.2%		(3.1)%	(8.1)%
Parts		27.1%		24.9%		2.2%	8.8%
Service		30.5%		28.4%		2.1%	7.4%
Rental and other		7.3%		8.5%		(1.2)%	(14.1)%
Total Gross Profit Mix		100.0%		100.0%		0.0%	0.0%

The \$13.2 million increase in gross profit for the second quarter of fiscal 2014, as compared to the same period last year, was primarily due to increased revenue. Acquisitions contributed \$6.1 million to the increase in gross profit for the second quarter of fiscal 2014, while same-store gross profit contributed the remaining \$7.1 million. Total gross profit margin remained relatively consistent at 17.1% for the second quarter of fiscal 2014, as compared to 17.2% for the second quarter of fiscal 2013, caused by the positive effects of a change in gross profit mix and offset by decreases in the gross profit margin for equipment and rental and other. Challenging agriculture conditions such as decreases in agricultural commodity prices and lower projected crop yields in the areas in which the Company operates, relative to crop yields in other parts of the United States, negatively impacted customer sentiment and resulted in a decrease in gross profit margin for equipment in the second quarter of fiscal 2014. The decrease in gross profit margin on rental and other is primarily due to a decrease in the dollar utilization of our rental fleet to 29.1% in the second quarter of fiscal 2014 from 30.3% in the same period last year.

Operating Expenses

	Three Months Ended July 31,			
	2013	2012	Increase	Percent Change
	(dollars in thousands)			
Operating expenses	\$ 70,145	\$ 56,507	\$ 13,638	24.1%
Operating expenses as a percentage of revenue	14.4%	13.8%	0.6%	4.3%

Edgar Filing: Titan Machinery Inc. - Form 10-Q

The \$13.6 million increase in operating expenses, as compared to the same period last year, was primarily due to the additional costs associated with acquisitions, such as compensation, rent, travel and depreciation. As a percentage of total revenue, operating expenses increased to 14.4% for the second quarter of fiscal 2014 compared to 13.8% for the second quarter of fiscal 2013. The leveraging of fixed operating costs was negatively impacted by the Construction stores acquired in fiscal year 2013 and the first quarter of fiscal 2014 and other ongoing costs of building an expanded Construction and International distribution network in these two segments. The recently acquired Construction stores are currently operating at a much higher operating expense ratio than our average Construction store, as they are underperforming in regards to revenue levels in the markets in which they are located.

Edgar Filing: Titan Machinery Inc. - Form 10-Q

Table of Contents

Other Income (Expense)

	Three Months Ended July 31,				Percent
	2013	2012		Increase	Change
	(dollars in thousands)				
Interest and other income	\$ 337	\$ 119	\$ 218	183.2%	
Floorplan interest expense	(3,723)	(2,420)	1,303	53.8%	
Other interest expense	(3,455)	(2,774)	681	24.5%	

The increase in floorplan interest expense of \$1.3 million and other interest expense of \$0.7 million for the second quarter of fiscal 2014, as compared to the same period in the prior year, was primarily due to the increase in floorplan notes payable and long-term debt.

Provision For Income Taxes

	Three Months Ended July 31,				Percent
	2013	2012		Decrease	Change
	(dollars in thousands)				
Provision for income taxes	\$ (2,589)	\$ (3,477)	\$ (888)	(25.5)%	

Our effective tax rate remained relatively consistent at 39.5% for the second quarter of fiscal 2014 compared to 39.6% for the same period last year.

Segment Results

Certain financial information for our Agriculture, Construction and International business segments is set forth below. Revenue and income (loss) before income taxes at the segment level are reported before eliminations. Shared Resources in the table below refers to the various unallocated income/(expense) items that we have retained at the general corporate level. Intersegment revenue is immaterial.

Table of Contents

Agriculture

Agriculture segment revenue for the second quarter of fiscal 2014 increased 17.0% compared to the same period last year. The revenue increase was due to acquisitions and an Agriculture same-store sales increase of 12.0% over the second quarter of fiscal 2013.

Agriculture segment income before income taxes for the second quarter of fiscal 2014 decreased 2.2% compared to the same period last year, primarily caused by lower gross profit margin on equipment and an increase in floorplan interest expense resulting from higher floorplan notes payable, as compared to the same period in the prior year. Challenging agriculture conditions such as decreases in agricultural commodity prices and lower projected crop yields in the areas in which the Company operates, relative to crop yields in other parts of the United States, negatively impacted customer sentiment and resulted in a decrease in gross profit margin for equipment in the second quarter of fiscal 2014 as compared to the same period in the prior year. In the last half of fiscal 2014, we anticipate a challenging environment given lower commodity prices combined with lower projected crop yields in our Agriculture footprint, which may impact equipment revenue and equipment gross profit margins.

Construction

Construction segment revenue for the second quarter of fiscal 2014 increased 2.8% compared to the same period last year. The revenue increase was due to acquisitions, offset by a Construction same-store sales decrease of 6.1% over the second quarter of fiscal 2013. The decrease in same-store sales was caused by a decrease in equipment revenue, which was negatively impacted by the continued difficult Construction industry conditions and operational challenges of underperforming Construction stores, especially those acquired in fiscal 2013 and the first quarter of fiscal 2014.

Our Construction segment income (loss) before income taxes for the second quarter of fiscal 2014 decreased \$2.3 million compared to the same period last year, primarily due to an increase in operating expenses and an increase in floorplan interest expense and other interest expense, resulting from higher floorplan notes payable and rental fleet debt, respectively, as compared to the same period in the prior year. The increase in operating expenses is due to our recently acquired Construction stores and other ongoing costs of building an expanded distribution network. The Construction stores acquired in fiscal 2013 and the first quarter of fiscal 2014 are currently operating at a much higher operating expense ratio than our average Construction store, as they are underperforming in regards to revenue levels in the markets in which they are located.

International

International segment revenue for the second quarter of fiscal 2014 increased \$20.3 million compared to the same period last year, primarily due to acquisitions, new store openings and a same-store sale increase of 44.0%. Our International segment income before income taxes for the second quarter of fiscal 2014 decreased \$0.3 million compared to the same period last year, primarily due to costs of building our recently expanded footprint in Eastern Europe.

Shared Resources/Eliminations

Edgar Filing: Titan Machinery Inc. - Form 10-Q

We incur centralized expenses/income at our general corporate level, which we refer to as Shared Resources, and then allocate these net expenses to our segments. Since these allocations are set early in the year, unallocated balances may occur.

Eliminations remove any inter-company revenue or income (loss) before income taxes residing in our segment results.

Table of Contents*Six Months Ended July 31, 2013 Compared to Six Months Ended July 31, 2012***Consolidated Results***Revenue*

	Six Months Ended July 31,		Increase		Percent Change
	2013	2012			
	(dollars in thousands)				
Equipment	\$ 693,133	\$ 628,698	\$ 64,435		10.2%
Parts	133,470	116,739	16,731		14.3%
Service	71,870	60,218	11,652		19.3%
Rental and other	31,381	26,139	5,242		20.1%
Total Revenue	\$ 929,854	\$ 831,794	\$ 98,060		11.8%

The increase in revenue for the first six months 2014, as compared to the same period last year, was due to acquisitions contributing \$86.6 million and same-store sales growth of \$11.5 million, an increase of 1.4% over the prior year period. This revenue growth was across all revenue sources. Our Agriculture and International segments had growth in same-store sales over the comparable period of the prior year, but our Construction segment had lower same-store sales compared to the first six months of fiscal 2013, which was negatively impacted by continued difficult Construction industry conditions and operational challenges of underperforming Construction stores, especially those acquired in fiscal 2013 and the first quarter of fiscal 2014.

Gross Profit

	Six Months Ended July 31,		Increase/		Percent Change
	2013	2012	(Decrease)		
	(dollars in thousands)				
Gross Profit					
Equipment	\$ 60,227	\$ 57,329	\$ 2,898		5.1%
Parts	40,737	35,729	5,008		14.0%
Service	46,124	39,381	6,743		17.1%
Rental and other	10,402	8,334	2,068		24.8%
Total Gross Profit	\$ 157,490	\$ 140,773	\$ 16,717		11.9%
Gross Profit Margin					
Equipment	8.7%	9.1%	(0.4)%		(4.4)%
Parts	30.5%	30.6%	(0.1)%		(0.3)%
Service	64.2%	65.4%	(1.2)%		(1.8)%
Rental and other	33.1%	31.9%	1.2%		3.8%
Total Gross Profit Margin	16.9%	16.9%	0.0%		0.0%

Edgar Filing: Titan Machinery Inc. - Form 10-Q

Gross Profit Mix				
Equipment	38.2%	40.7%	(2.5)%	(6.1)%
Parts	25.9%	25.4%	0.5%	2.0%
Service	29.3%	28.0%	1.3%	4.6%
Rental and other	6.6%	5.9%	0.7%	11.9%
Total Gross Profit Mix	100.0%	100.0%	0.0%	0.0%

The \$16.7 million increase in gross profit for the first six months of fiscal 2014, as compared to the same period last year, was primarily due to increased revenue. Acquisitions contributed \$13.5 million to the increase in gross profit for the first six months of fiscal 2014, while same-store gross profit contributed the remaining \$3.2 million. Total gross profit margin remained consistent at 16.9% for both the first six months of fiscal 2014 and fiscal 2013, caused by the positive effects of a change in gross profit mix and offset by decreases in the gross profit margin for equipment. Challenging agriculture conditions such as the abnormally delayed spring weather, decreases in agricultural commodity prices and lower projected crop yields in the areas in which the Company operates, relative to crop yields in other parts of the United States, negatively impacted customer sentiment and resulted in a decrease in gross profit margin for equipment in the first six months of fiscal 2014 as

Edgar Filing: Titan Machinery Inc. - Form 10-Q

Table of Contents

compared to the same period last year. The gross profit margins on equipment were also negatively impacted by continued difficult Construction industry conditions and operational challenges of underperforming Construction stores, especially those acquired in fiscal 2013 and the first quarter of fiscal 2014. The dollar utilization of our rental fleet remained relatively consistent at 26.8% for the first six months of fiscal 2014 compared to 27.2% for the same period last year.

Operating Expenses

	Six Months Ended July 31,			
	2013	2012	Increase	Percent Change
	(dollars in thousands)			
Operating expenses	\$ 139,078	\$ 111,363	\$ 27,715	24.9%
Operating expenses as a percentage of revenue	14.9%	13.4%	1.5%	11.2%

The \$27.7 million increase in operating expenses, as compared to the same period last year, was primarily due to the additional costs associated with acquisitions and expanding our distribution network, such as compensation, rent, travel and depreciation. As a percentage of total revenue, operating expenses increased to 14.9% for the first six months of fiscal 2014 compared to 13.4% for the first six months of fiscal 2013. The leveraging of fixed operating costs was negatively impacted by the Construction stores acquired in fiscal 2013 and the first quarter of fiscal 2014 and other ongoing costs of building an expanded Construction and International distribution network in these two segments. The recently acquired Construction stores are currently operating at a much higher operating expense ratio than our average Construction store, as they are underperforming in regards to revenue levels in the markets in which they are located.

Other Income (Expense)

	Six Months Ended July 31,			
	2013	2012	Increase	Percent Change
	(dollars in thousands)			
Interest and other income	\$ 934	\$ 607	\$ 327	53.9%
Floorplan interest expense	(7,165)	(5,318)	1,847	34.7%
Other interest expense	(6,622)	(3,567)	3,055	85.6%

The increase in floorplan interest expense of \$1.8 million and other interest expense of \$3.1 million for the first six months of fiscal 2014, as compared to the same period in the prior year, was primarily due to the increase in floorplan notes payable and long-term debt, including our Senior Convertible Notes issued in April 2012.

Provision For Income Taxes

	Six Months Ended July 31,			
	2013	2012	Decrease	Percent Change
	(dollars in thousands)			

Edgar Filing: Titan Machinery Inc. - Form 10-Q

Provision for income taxes	\$	(2,195)	\$	(8,368)	\$	(6,173)	(73.8)%
----------------------------	----	---------	----	---------	----	---------	---------

Our effective tax rate remained relatively consistent at 39.5% for the first six months of fiscal 2014 compared to 39.6% for the same period last year.

Segment Results

Certain financial information for our Agriculture, Construction and International business segments is set forth below. Revenue and income (loss) before income taxes at the segment level are reported before eliminations. Shared Resources in the table below refers to the various unallocated income/(expense) items that we have retained at the general corporate level. Intersegment revenue is immaterial.

Edgar Filing: Titan Machinery Inc. - Form 10-Q

Total	\$	5,559	\$	21,132	\$ (15,573) (73.7)%

Agriculture

Agriculture segment revenue for the first six months of fiscal 2014 increased 9.0% compared to the same period last year. The revenue increase was due to acquisitions and an Agriculture same-store sales increase of 2.2% over the first six months of 2013.

Agriculture segment income before income taxes for the first six months of fiscal 2014 decreased 28.1% compared to the same period last year, primarily caused by a decrease in the gross profit margin on equipment, additional operating expenses and an increase in floorplan interest expense, as compared to the same period in the prior year. Challenging agriculture conditions such as the abnormally delayed spring weather, decreases in agriculture commodity prices and lower projected crop yields in the areas in which the Company operates, relative to crop yields in other parts of the United States, negatively impacted customer sentiment and resulted in a decrease in gross profit margin for equipment in the first six months of fiscal 2014 as compared to the same period in the prior year. The additional operating expenses primarily relate to acquisition stores, compensation and occupancy costs. The increase in floorplan interest expense is due to higher floorplan notes payable balances than in the same period last year. In the last half of fiscal 2014, we anticipate a challenging environment given lower commodity prices combined with lower projected crop yields in our Agriculture footprint, which may impact equipment revenue and equipment gross profit margins.

Construction

Construction segment revenue for the first six months of fiscal 2014 increased 2.2% compared to the same period last year. The revenue increase was due to acquisitions, offset by a Construction same-store sales decrease of 7.7% over the first six months of fiscal 2013. The decrease in same-store sales was negatively impacted by continued difficult Construction industry conditions and operational challenges of underperforming Construction stores, especially those acquired in fiscal 2013 and the first quarter of fiscal 2014.

Edgar Filing: Titan Machinery Inc. - Form 10-Q

Our Construction segment income (loss) before income taxes for the first six months of fiscal 2014 decreased \$8.5 million compared to the same period last year, primarily due to a decrease in the gross profit margin on equipment, increase in operating expenses and an increase in floorplan interest expense and other interest expense, resulting from higher floorplan notes payable and rental fleet debt, respectively, as compared to the same period in the prior year. Equipment gross profit margin has experienced compression due to the aforementioned challenging industry conditions and operational challenges that existed during the first six months of fiscal 2014. The increase in operating expenses is due to our recently acquired Construction stores and other ongoing costs of building an expanded distribution network. The Construction stores acquired in fiscal 2013 and the first quarter of fiscal 2014 are currently operating at a much higher operating expense ratio than our average Construction store, as they are underperforming in regards to revenue levels in the markets in which they are located.

Table of Contents

International

International segment revenue for the first six months of fiscal 2014 increased \$42.1 million compared to the same period last year, primarily due to acquisitions, new store openings and an 86.7% increase in same-store sales. Our International segment income (loss) before income taxes for the first six months of fiscal 2014 decreased \$0.4 million compared to the same period last year, primarily due to costs of building our recently expanded footprint in Eastern Europe.

Shared Resources/Eliminations

We incur centralized expenses/income at our general corporate level, which we refer to as Shared Resources, and then allocate these net expenses to our segments. Since these allocations are set early in the year, unallocated balances may occur.

Eliminations remove any inter-company revenue or income (loss) before income taxes residing in our segment results.

Liquidity and Capital Resources

Cash Flow Used For Operating Activities

For the six months ended July 31, 2013, cash used for operating activities was \$48.5 million. Our cash used for operating activities was primarily the result of an increase in net cash for inventories of \$218.6 million. This amount was principally offset by an increase in floorplan notes payable of \$140.9 million, our reported net income including noncontrolling interest of \$3.4 million, an add-back of non-cash depreciation and amortization of \$13.3 million a net decrease in receivables, prepaid expenses and other assets of \$25.3 million. The increase in net cash for inventories primarily reflects lower than expected equipment sales in the six months ended July 31, 2013, new equipment stocking to support our seasonally higher sales in the last half of the fiscal year and the building of inventory to support our expanded International operations. We evaluate our cash flow from operating activities net of all floorplan activity. Taking this adjustment into account, our non-GAAP cash flow used for operating activities was \$27.0 million and \$33.2 million for the six months ended July 31, 2013 and 2012, respectively. For reconciliation of this non-GAAP financial measure, please see the Non-GAAP Cash Flow Reconciliation below.

For the six months ended July 31, 2012, cash used for operating activities was \$93.3 million. Our cash used for operating activities was primarily the result of an increase in net cash for inventories of \$189.4 million and a net decrease in accounts payable, customer deposits, accrued expenses and other long-term liabilities of \$44.8 million. This amount was principally offset by an increase in floorplan notes payable of \$93.4 million, our reported net income including noncontrolling interest of \$12.8 million, an add-back of non-cash depreciation and amortization of \$10.2 million and a net decrease in receivables, prepaid expenses and other assets of \$17.7 million. The increase in net cash for inventories primarily reflected new equipment stocking to support forecasted equipment sales.

Edgar Filing: Titan Machinery Inc. - Form 10-Q

Cash Flow Used For Investing Activities

For the six months ended July 31, 2013, cash used for investing activities was \$16.7 million. Our cash flow used for investing activities primarily consisted of property and equipment purchases (excluding rental fleet) of \$12.5 million and purchases of equipment dealerships (net of cash purchased) of \$4.8 million.

For the six months ended July 31, 2012, cash used for investing activities was \$39.5 million. Our cash used for investing activities primarily consisted of purchases of equipment dealerships (net of cash purchased) of \$16.2 million, purchases of rental fleet of \$16.5 million and purchases of property and equipment (excluding rental fleet) of \$7.7 million.

Cash Flow Provided By Financing Activities

For the six months ended July 31, 2013, cash provided by financing activities was \$43.3 million. Our cash flow provided by financing activities was primarily the result of an increase in non-manufacturer floorplan notes payable of \$21.5 million and proceeds from long-term debt exceeding principal payments on long-term debt by \$22.0 million.

Table of Contents

For the six months ended July 31, 2012, cash provided by financing activities was \$180.2 million. Our cash provided by financing activities was primarily the result of proceeds from our Senior Convertible Notes offering of \$145.2 million and an increase in non-manufacturer floorplan notes payable of \$55.0 million, offset by and principal payments exceeding proceeds from long-term debt by \$22.2 million. We used the proceeds from our Senior Convertible Notes to reduce certain interest-bearing floorplan notes payable and long-term debt balances.

Table of Contents*Non-GAAP Cash Flow Reconciliation*

We consider our cash flow from operating activities to include all equipment inventory financing activity regardless of whether we obtain the financing from a manufacturer or other source. We consider equipment inventory financing with both manufacturers and other sources to be part of the normal operations of our business and use the adjusted cash flow analysis in the evaluation of our equipment inventory and inventory flooring needs. Non-GAAP cash flow provided by (used for) operating activities is a non-GAAP financial measure which is adjusted for the following:

- **Non-manufacturer floorplan notes payable:** The adjustment is equal to the net change in non-manufacturer floorplan notes payable, as shown on the consolidated statements of cash flows. GAAP categorizes non-manufacturer floorplan notes payable as financing activities in the consolidated statements of cash flows.
- **Impact of senior convertible notes:** We issued \$150.0 million of Senior Convertible Notes (the **Convertible Notes**) in April 2012. We used a significant amount of the proceeds from the Convertible Notes to reduce our floorplan notes payable balances, resulting in a higher level of equity in our equipment inventory than we have historically maintained. To analyze the impact of this fluctuation of equity in our equipment inventory, we use this adjustment to maintain a constant level of equipment financing. The adjustment is equal to the difference between our actual equity in inventory at the balance sheet date and our historical average level of equity in inventory of 15%. If the level of equity in inventory is less than 15% then we assume that no proceeds of the Convertible Notes were used to pay down floorplan notes payable balances. GAAP categorizes proceeds from our Convertible Notes offering as financing activities in the consolidated statements of cash flows.

We believe that the presentation of non-GAAP cash flow provided by (used for) operating activities is relevant and useful to our investors because it provides information on activities we consider normal operations of our business, regardless of financing source. The following table reconciles net cash provided by (used for) operating activities, a GAAP measure, to non-GAAP cash flow provided by (used for) operating activities and net cash provided by (used for) financing activities, a GAAP measure, to non-GAAP cash flow provided by (used for) financing activities (in thousands):

	As Reported	Adjustment (1)	Adjustment (2)	Non-GAAP Measures
Six months ended July 31, 2013:				
Net cash provided by (used for) operating activities	\$ (48,481)	\$ 21,517	\$	\$ (26,964)
Net cash provided by (used for) financing activities	43,329	(21,517)		21,812
Six months ended July 31, 2012:				
Net cash provided by (used for) operating activities	\$ (93,348)	\$ 55,037	\$ 5,066	\$ (33,245)
Net cash provided by financing activities	180,191	(55,037)	(5,066)	120,088

(1) - Net change in non-manufacturer floorplan notes payable

(2) - Impact of Convertible Notes

Non-GAAP cash flow provided by (used for) operating activities should be evaluated in addition to, and not considered a substitute for, or superior to, other GAAP measures such as net cash provided by (used for) operating activities.

Sources of Liquidity

Our primary sources of liquidity are cash reserves, cash flow from operations, proceeds from our public stock offerings, proceeds from the issuance of debt and our Convertible Notes, and borrowings under our credit facilities. We expect that ongoing requirements for debt service and capital expenditures will be funded from these sources.

Adequacy of Capital Resources

Our primary uses of cash have been to fund our strategic acquisitions, finance the purchase of inventory, meet debt service requirements and fund operating activities, working capital, payments due under building space operating leases and manufacturer floorplan notes payable. Based on our current operational performance, we believe our cash flow from operations,

Table of Contents

available cash and available borrowings under our existing credit facilities will adequately provide our liquidity needs for, at a minimum, the next 12 months.

Certain Information Concerning Off-Balance Sheet Arrangements

We do not have any relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance, special purpose entities or variable interest entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes. We are, therefore, not exposed to any financing, liquidity, market or credit risk that could arise if we had engaged in these relationships. In the normal course of our business activities, we lease rental equipment and buildings under operating leases.

PRIVATE SECURITIES LITIGATION REFORM ACT

The Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for forward-looking statements. Such forward-looking information is included in this Quarterly Report on Form 10-Q, including in Management's Discussion And Analysis Of Financial Condition And Results Of Operations, as well as in our Annual Report on Form 10-K for the year ended January 31, 2013, and in other materials filed or to be filed by the Company with the Securities and Exchange Commission (as well as information included in oral statements or other written statements made or to be made by the Company).

Forward-looking statements include all statements based on future expectations and specifically include, among other things, all statements relating to our expectations regarding exchange rate impact, equipment sales and our primary liquidity sources and adequacy of our capital resources. Any statements that are not based upon historical facts, including the outcome of events that have not yet occurred and our expectations for future performance, are forward-looking statements. The words "potential," "believe," "estimate," "expect," "intend," "may," "could," "plan," "anticipate," and similar words and expressions are intended to identify forward-looking statements. Such statements are based upon the current beliefs and expectations of our management. Such forward-looking information involves important risks and uncertainties that could significantly affect anticipated results in the future and, accordingly, such results may differ from those expressed in any forward-looking statements made by or on behalf of the Company. These risks and uncertainties include, but are not limited to, adverse market conditions in the agricultural and construction equipment industries, the continuation of unfavorable conditions in the credit markets and those matters identified and discussed in our Annual Report on Form 10-K under the section titled "Risk Factors."

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to various market risks, including changes in interest rates and foreign currency exchange rates. Market risk is the potential loss arising from adverse changes in market rates and prices such as interest rates and foreign currency exchange rates.

Interest Rate Risk: Exposure to changes in interest rates results from borrowing activities used to fund operations. For fixed rate debt, interest rate changes affect the fair value of financial instruments but do not impact earnings or cash flows. Conversely, for floating rate debt, interest

Edgar Filing: Titan Machinery Inc. - Form 10-Q

rate changes generally do not affect the fair market value but do impact future earnings and cash flows, assuming other factors are held constant. We have both fixed and floating rate financing. Some of our floating rate credit facilities contain minimum rates of interest to be charged. Based upon balances and interest rates as of July 31, 2013, holding other variables constant, a one percentage point increase in interest rates for the next 12-month period would decrease pre-tax earnings and cash flow by approximately \$4.9 million. Conversely, a one percentage point decrease in interest rates for the next 12-month period would result in an increase to pre-tax earnings and cash flow of approximately \$4.9 million. At July 31, 2013, we had variable rate floorplan notes payable of \$851.2 million, of which approximately \$450.4 million was interest-bearing, variable notes payable and long-term debt of \$40.1 million, and fixed rate notes payable and long-term debt of \$59.1 million.

Foreign Currency Exchange Rate Risk: Foreign currency exposures arise as the result of our foreign operations. The Company is exposed to foreign currency exchange rate risk, as our net investment in our foreign operations is exposed to changes in foreign currency exchange rates. In addition, the Company is exposed to the translation of foreign currency earnings to the U.S. dollar, whereby the results of our operations and cash flows may be adversely impacted by fluctuating foreign currency exchange rates. The Company is also exposed to foreign currency transaction risk as the result of certain intercompany

Table of Contents

financing transactions. The Company attempts to manage its foreign currency exchange rate risk through the use of derivative financial instruments, primarily foreign exchange forward contracts. Based upon balances and exchange rates as of July 31, 2013, holding other variables constant, we believe that a hypothetical 10% increase or decrease in foreign exchange rates would not have a material impact on our results of operations or cash flows.

ITEM 4. CONTROLS AND PROCEDURES

(a) *Evaluation of disclosure controls and procedures.* After evaluating the effectiveness of the Company's disclosure controls and procedures pursuant to Rule 13a-15(b) of the Securities Exchange Act of 1934 (the "Exchange Act") as of the end of the period covered by this Quarterly Report, the Company's Chief Executive Officer and Chief Financial Officer, with the participation of the Company's management, have concluded that the Company's disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)) are effective.

(b) *Changes in internal controls.* There has not been any change in the Company's internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f)) during its most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are currently not a party to any material pending legal proceedings.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this report, including the important information in "Private Securities Litigation Reform Act," you should carefully consider the "Risk Factors" discussed in our Form 10-K for the year ended January 31, 2013 as filed with the Securities and Exchange Commission. Those factors, if they were to occur, could cause our actual results to differ materially from those expressed in our forward-looking statements in this report, and materially adversely affect our financial condition or future results. Although we are not aware of any other factors, aside from those discussed in our Form 10-K, that we currently anticipate will cause our forward-looking statements to differ materially from our future actual results, or materially affect the Company's financial condition or future results, additional risks and uncertainties not currently known to us or that we currently deem to be immaterial might materially adversely affect our actual business, financial condition and/or operating results.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES
