## SECTION 1- CONFLICT MINERALS DISCLOSURE

### Item 1.01 Conflict Minerals Disclosure and Report

Magna International Inc. (herein referred to as Magna, we, us or our) is a leading global automotive supplier with 316 manufacturing operations and 87 product development, engineering and sales centres in 29 countries. We have over 133,000 employees focused on delivering superior value to our customers through innovative products and processes, and World Class Manufacturing. Our products are designed to meet the requirements and specifications of our automotive customers. Certain of these requirements and specifications entail the use of materials such as tin, tungsten, tantalum and gold (collectively, 3TG, or necessary conflict minerals).

As an issuer with necessary conflict minerals present in certain of our manufactured products, we are subject to Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the Dodd-Frank Act) (17 CFR Parts 240 and 249b) and the Securities and Exchange Commission's final rule on conflict minerals (the Conflict Minerals Rule) (Release No. 34-67716; File No.S7-40-10) and are required to perform a reasonable country of origin inquiry (RCOI) into the sources of such necessary conflict minerals.

Based on the results of our RCOI for the year ended December 31, 2014, Magna cannot exclude the possibility that a portion of the necessary conflict minerals in its products originated in the Democratic Republic of the Congo or an adjoining country specified in the Conflict Minerals Rule (collectively, the Covered Countries). As a result, Magna conducted due diligence activities on the source and chain of custody of these conflict minerals as described in Exhibit 1.01 (the Conflict Minerals Report).

### ITEM 1.02 Exhibit

A copy of the Conflict Minerals Report is publicly available on Magna's corporate website at: <http://www.magna.com/investors/financial-reports-public-filings?rpt=tax>, under the heading Form SD and Exhibit 1.01 (Conflict, Minerals Report dated June 1, 2015).
