ITEM 7.01 REGULATION FD DISCLOSURE.

Alliance Resource Partners, L.P. (ARLP) announced that in response to continued uncertainty in the coal markets, it has taken several actions to reduce production at its higher-cost mines in order to focus on maximizing production at its lower-cost mines.

- Beginning last Friday, October 30, 2015, ARLP s subsidiary, Hopkins County Coal, LLC, reduced production from three units to two units at its Elk Creek mine, which remains slated to cease production in the first quarter of 2016. This action did not result in any job loss as a result of employment opportunities at other ARLP operations.
- On November 6, 2015, ARLP s subsidiary, Gibson County Coal, LLC, issued Worker Adjustment and Retraining Notification (WARN) Act notices to approximately 120 of its employees in anticipation of eliminating a total of one and a half production units at its Gibson North and Gibson South mines.
- On November 6, 2015, ARLP s subsidiary, Sebree Mining, LLC, issued WARN Act notices to all employees at the Onton mine, and stopped coal production at the mine. As a result of employment opportunities at other ARLP operations, this reduction in force is expected to affect approximately 140 employees.

The Onton # 9 Mine has generated 2015 year-to-date coal sales and production volumes of approximately 1,861,000 tons and 1,869,000 tons, respectively. Gibson North has generated 2015 year-to-date coal sales and production volumes of approximately 1,939,000 tons and 1,983,000 tons, respectively. The Elk Creek Mine has generated 2015 year-to-date coal sales and production volumes of approximately 2,537,000 tons and 2,648,000 tons, respectively.

A copy of the Partnership s press release is attached hereto as Exhibit 99.1.
