UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

x QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended June 30, 2017

OR

o TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission File No. 000-51829

COGENT COMMUNICATIONS HOLDINGS, INC.

(Exact Name of Registrant as Specified in Its Charter)

Delaware

46-5706863

Edgar Filing: COGENT COMMUNICATIONS HOLDINGS, INC. - Form 10-Q

(State of Incorporation)

(I.R.S. Employer
Identification Number)

2450 N Street N.W.

Washington, D.C. 20037

(Address of Principal Executive Offices and Zip Code)

(202) 295-4200

(Registrant's Telephone Number, Including Area Code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months, and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See definitions of large accelerated filer, accelerated filer, smaller reporting company and emerging growth company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

(Do not check if a smaller reporting company)

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Common Stock, \$.001 par value 45,936,124 Shares Outstanding as of July 31, 2017

COGENT COMMUNICATIONS HOLDINGS, INC., AND SUBSIDIARIES

NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Description of the business and recent developments:

Reorganization and merger

On May 15, 2014, pursuant to the Agreement and Plan of Reorganization (the **Merger Agreement**) by and among Cogent Communications Group, Inc. (**Group**), a Delaware corporation, Cogent Communications Holdings, Inc., a Delaware corporation (**Holdings**) and Cogent Communications Merger Sub, Inc., a Delaware corporation (**Merger Sub**), Group adopted a new holding company organizational structure whereby Group is now a wholly owned subsidiary of Holdings. Holdings is a successor issuer to Group pursuant to Rule 12g-3(a) under the Securities Exchange Act of 1934, as amended (the **Exchange Act**). In connection with the succession, the common stock of Holdings is deemed to be registered under Section 12(b) of the Exchange Act by operation of law.

References to the **Company** for events that occurred prior to May 15, 2014 refer to Cogent Communications Group, Inc. and its subsidiaries and on and after May 15, 2014 the **Company** refers to Cogent Communications Holdings, Inc. and its subsidiaries.

Description of business

The **Company** is a Delaware corporation and is headquartered in Washington, DC. The **Company** is a facilities-based provider of low-cost, high-speed Internet access and Internet Protocol (**IP**) communications services. The **Company**'s network is specifically designed and optimized to transmit data using IP. The **Company** delivers its services primarily to small and medium-sized businesses, communications service providers and other bandwidth-intensive organizations in North America, Europe and Asia.

The **Company** offers on-net Internet access services exclusively through its own facilities, which run from its network to its customers' premises. The **Company** is not dependent on local telephone companies to serve its customers for its on-net Internet access services because of its integrated network architecture. The **Company** offers its on-net services to customers located in buildings that are physically connected to its network. The **Company**'s on-net service consists of high-speed Internet access and IP connectivity ranging from 100 Megabits per second to 100 Gigabits per second of bandwidth. The **Company** provides its on-net Internet access services to its corporate and net-centric customers. The **Company**'s corporate customers are located in multi-tenant office buildings and typically include law firms, financial services firms, advertising and marketing firms and other professional services businesses. The **Company**'s net-centric customers include bandwidth-intensive users such as consortiums of universities, Internet service providers, telephone companies, cable television companies, web hosting companies, content delivery network companies and commercial content and application service providers. These net-centric customers obtain the **Company**'s services in carrier neutral data centers and in the **Company**'s data centers. The **Company** operates data centers throughout North America and Europe that allow its customers to collocate their equipment and access the **Company**'s network.

Edgar Filing: COGENT COMMUNICATIONS HOLDINGS, INC. - Form 10-Q

In addition to providing its on-net services, the Company provides Internet connectivity to customers that are not located in buildings directly connected to its network. The Company provides this off-net service primarily to corporate customers using other carriers' facilities to provide the last mile portion of the link from the customers' premises to the Company's network. The Company also provides certain non-core services that resulted from acquisitions. The Company continues to support but does not actively sell these non-core services.

Basis of presentation

The accompanying unaudited condensed consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. In the opinion of management, the unaudited condensed consolidated financial statements reflect all normal recurring adjustments that the Company considers necessary for the fair presentation of its results of operations and cash flows for the interim periods covered, and of the financial position of the Company at the date of the interim condensed consolidated balance sheet. Certain information and footnote disclosures normally included in the annual consolidated financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations. The operating results for interim periods are not necessarily indicative of the operating results for the entire year. While the Company believes that the disclosures are adequate to not make the information misleading, these interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes included in its annual report on Form 10-K for the year ended December 31, 2016.

The accompanying unaudited consolidated financial statements include all wholly-owned subsidiaries. All inter-company accounts and activity have been eliminated.

Use of estimates

The preparation of consolidated financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from these estimates.

Table of Contents

Financial instruments

At June 30, 2017, the carrying amount of cash and cash equivalents, accounts receivable, prepaid and other current assets, accounts payable and accrued expenses approximated fair value because of the short-term nature of these instruments. The Company measures its cash equivalents at amortized cost, which approximates fair value based upon quoted market prices (Level 1). Based upon recent trading prices (Level 2 – market approach) at June 30, 2017 the fair value of the Company’s \$189.2 million senior unsecured notes was \$195.4 million and the fair value of the Company’s \$375.0 million senior secured notes was \$393.8 million.

The Company was party to letters of credit totaling \$0.7 million as of June 30, 2017 and \$0.1 million as of December 31, 2016. These letters of credit are secured by investments that are restricted and included in other assets.

Gross receipts taxes, universal service fund and other surcharges

Revenue recognition standards include guidance relating to taxes or surcharges assessed by a governmental authority that are directly imposed on a revenue-producing transaction between a seller and a customer and may include, but are not limited to, gross receipts taxes, excise taxes, Universal Service Fund fees and certain state regulatory fees. Such charges may be presented gross or net based upon the Company’s accounting policy election. The Company records certain excise taxes and surcharges on a gross basis and includes them in its service revenue and cost of network operations. Excise taxes and surcharges billed to customers and recorded on a gross basis (as service revenue and network operations expense) were \$2.7 million and \$2.2 million for the three months ended June 30, 2017 and June 30, 2016, respectively, and \$5.3 million and \$4.2 million for the six months ended June 30, 2017 and June 30, 2016, respectively.

Basic and diluted net income per common share

Basic earnings per share (EPS) excludes dilution for common stock equivalents and is computed by dividing net income available to common stockholders by the weighted-average number of common shares outstanding for the period. Diluted EPS is based on the weighted-average number of shares of common stock outstanding during each period, adjusted for the effect of dilutive common stock equivalents. Shares of restricted stock are included in the computation of basic EPS as they vest and are included in diluted EPS, to the extent they are dilutive, determined using the treasury stock method. The Company’s employees exercised options for 5,995 and 18,968 common shares for the three months ended June 30, 2017 and 2016, and exercised options for 17,913 and 28,478 common shares for the six months ended June 30, 2017 and 2016, respectively.

The following details the determination of diluted weighted average shares:

	Three Months Ended June 30, 2017	Three Months Ended June 30, 2016	Six Months Ended June 30, 2017	Six Months Ended June 30, 2016
Weighted average common shares - basic	44,717,372	44,491,899	44,720,971	44,484,863
Dilutive effect of stock options	26,395	37,498	27,393	35,989

Edgar Filing: COGENT COMMUNICATIONS HOLDINGS, INC. - Form 10-Q

Dilutive effect of restricted stock	244,888	228,097	241,934	192,344
Weighted average common shares - diluted	44,988,655	44,757,494	44,990,298	44,713,196

The following details unvested shares of restricted common stock as well as the anti-dilutive effects of stock options and restricted stock awards outstanding:

	Three Months Ended June 30, 2017	Three Months Ended June 30, 2016	Six Months Ended June 30, 2017	Six Months Ended June 30, 2016
Unvested shares of restricted common stock	1,239,633	1,062,790	1,239,633	1,062,790
Anti-dilutive options for common stock	62,175	64,349	54,765	100,504
Anti-dilutive shares of restricted common stock	138,909		69,838	99,308

Recent Accounting Pronouncements to be Adopted

In February 2016, the FASB issued ASU No. 2016-02, *Leases* (ASU 2016-02). This ASU will replace most existing lease accounting guidance when it becomes effective. The new standard is effective for the Company beginning on January 1, 2019. Early application is permitted. ASU 2016-02 must be adopted using the modified retrospective approach for all leases that exist at or commence after the beginning of the earliest comparative period presented (with the option to apply certain practical expedients), which for the Company will be the period beginning January 1, 2017. ASU 2016-02 will require the Company to record a right to use asset and a lease liability for most of its leases, including its leases currently treated as operating leases. The Company is evaluating the effect that ASU 2016-02 will have on its consolidated financial statements and related disclosures and will elect to apply certain practical expedients. The Company has not yet determined the effect of ASU

Table of Contents

2016-02 on its ongoing financial reporting or quantified the impact to its balance sheet, however it does expect that the right to use asset and lease liability recorded will be material. The Company does not expect to early adopt ASU 2016-02.

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers* (ASU 2014-09), which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers, and also requires enhanced disclosures regarding the nature, amount, timing and uncertainty of revenues and cash flows from contracts with customers. ASU 2014-09 will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. ASU 2014-09 is effective for the Company on January 1, 2018. Early application is permitted for annual periods beginning after December 15, 2016. ASU 2014-09 permits the use of either the full retrospective or modified retrospective transition method. The Company anticipates adopting ASU 2014-09 using the modified retrospective transition method on January 1, 2018. Under the modified retrospective method, the cumulative effect of applying the standard would be recognized at the date of initial application. The Company does not expect to early adopt ASU 2014-09.

The Company has not quantified the effect of adopting ASU 2014-09, however it anticipates that the period for which it recognizes revenue for fees billed in connection with customer installations will change. The Company expects that revenues will be recognized over the contract term for installation fees associated with customer contracts with terms that are longer than month-to-month, which may be a shorter period than the average customer life currently used, because the fee does not give rise to a material right as defined by ASU 2014-09. The Company expects that revenues will be recognized over the estimated average customer life for installation fees associated with month-to-month contracts, because the fee represents a material right as defined by ASU 2014-09. The impact of adopting ASU 2014-09 on the Company's total service revenue and operating income is not expected to be material. Additionally, the Company will be required to capitalize certain contract acquisition costs, including commissions paid to its sales team and agents, and to amortize these costs over the period the services are transferred to the customer for commissions paid to its sales team and over the remaining contract term for agent commissions. The Company currently expenses these contract acquisition costs as incurred.

In June 2016, the FASB issued ASU 2016-13, *Financial Instruments - Credit Losses: Measurement of Credit Losses on Financial Instruments*. This guidance is intended to introduce a revised approach to the recognition and measurement of credit losses, emphasizing an updated model based on expected losses rather than incurred losses. This new standard is effective for annual and interim reporting periods beginning after December 15, 2019 and early adoption is permitted. The Company is currently evaluating the impact that this guidance may have on its financial statements and related disclosures.

2. Property and equipment:

Depreciation and amortization expense related to property and equipment and capital leases was \$18.9 million and \$18.6 million for the three months ended June 30, 2017, and 2016 respectively, and \$37.4 million and \$36.4 million for the six months ended June 30, 2017 and 2016, respectively. The Company capitalized salaries and related benefits of employees working directly on the construction and build-out of its network of \$2.4 million and \$2.6 million for the three months ended June 30, 2017 and 2016, respectively, and \$4.9 million and \$4.4 million for the six months ended June 30, 2017 and 2016, respectively.

Exchange agreement

Edgar Filing: COGENT COMMUNICATIONS HOLDINGS, INC. - Form 10-Q

In the three and six months ended June 30, 2017 and 2016, the Company exchanged certain used network equipment and cash consideration for new network equipment. The fair value of the equipment received was estimated to be \$2.2 million and \$7.4 million for the three months ended June 30, 2017 and 2016, respectively, and \$7.0 million and \$12.5 million for the six months ended June 30, 2017 and 2016, respectively and after considering the cash component the transactions resulted in gains of \$1.0 million and \$4.4 million for the three months ended June 30, 2017 and 2016, respectively, and \$3.1 million and \$6.4 million for the six months ended June 30, 2017 and 2016, respectively. The estimated fair value of the equipment received was based upon the cash consideration price the Company pays for the new network equipment on a standalone basis (Level 3).

Installment payment agreement

In March 2015, the Company entered into an installment payment agreement (IPA) with a vendor. Under the IPA the Company was able to purchase network equipment in exchange for interest free note obligations each with a twenty-four month term. There are no payments under each note obligation for the first six months followed by eighteen equal installment payments for the remaining eighteen month term. As of June 30, 2017, and December 31, 2016 there was \$9.4 million and \$5.5 million, respectively, of note obligations outstanding under the IPA, secured by the related equipment. The Company recorded the net present value of the note obligation utilizing an imputed interest rate. The resulting discount is \$0.4 million and \$0.3 million as of June 30, 2017 and December 31, 2016, respectively, and is being amortized over the note term using the effective interest rate method.

3. Long-term debt:

Debt extinguishment, redemption and new debt issuances \$375 million 2022 Notes

In March 2015, Group redeemed its \$240.0 million 8.375% senior notes due in 2018 with the proceeds from its February 2015 issuance of \$250.0 million of 5.375% senior secured notes (the 2022 Notes) and existing cash on hand. The net proceeds from the offering were \$248.6 million after deducting discounts and commissions and offering expenses. In December 2016, the Company issued an additional \$125.0 million par value of its 2022 Notes at a premium of 100.375% of par value. The Company received net proceeds of \$124.3 million after

Table of Contents

deducting \$1.2 million of offering costs. The \$0.5 million premium is amortized as a reduction to interest expense to the maturity date using the effective interest rate method. The net proceeds from these offerings are intended to be used for general corporate purposes.

The 2022 Notes were sold in private offerings for resale to qualified institutional buyers pursuant to SEC Rule 144A and mature on March 1, 2022. Interest accrues at 5.375% beginning on February 20, 2015 and is paid semi-annually in arrears on March 1 and September 1 of each year. The indenture governing the 2022 Notes provides that the Company and each of the Company's existing domestic subsidiaries and future material domestic subsidiaries guarantee the 2022 Notes, subject to certain exceptions and permitted liens. The 2022 Notes are also secured by a pledge of all of the equity interests in Group's domestic subsidiaries and 65% of the equity interests in Group's first-tier foreign subsidiaries. The 2022 Notes and the subsidiary guarantees will be Group's and the subsidiary guarantors' senior indebtedness and will rank *pari passu* in right of payment with all of Group's and the subsidiary guarantors' existing and future senior indebtedness, effectively senior to Group's senior unsecured indebtedness, including Group's 2021 Notes described below, to the extent of the value of the collateral securing the 2022 Notes and the subsidiary guarantees and senior to any of the Company's and the subsidiary guarantors' future subordinated indebtedness. The 2022 Notes are structurally subordinated to the liabilities of the non-guarantor subsidiaries and are effectively subordinated to Group's and the subsidiary guarantors' secured indebtedness to the extent of the value of the collateral securing such indebtedness on a basis senior to the 2022 Notes and the subsidiary guarantees. Holdings is also a guarantor of the 2022 Notes; however Holdings' guarantee is unsecured and thus its guarantee is not secured by any of Holdings' assets. Holdings is also not subject to the covenants under the indenture governing the 2022 Notes.

Senior unsecured notes \$189.2 million 2021 Notes

On April 9, 2014, Cogent Communications Finance, Inc. (Cogent Finance), a newly formed financing subsidiary of Group, completed an offering at par of \$200.0 million in aggregate principal amount of 5.625% Senior Notes due 2021 (the 2021 Notes). The 2021 Notes were sold in private offerings for resale to qualified institutional buyers pursuant to SEC Rule 144A. The net proceeds from the offering were \$195.8 million after deducting commissions and offering expenses. The net proceeds from the offering are intended to be used for general corporate purposes. In the second quarter of 2016, the Company paid \$10.9 million for the purchase of \$10.8 million of par value and accrued interest on its 2021 Notes reducing the principal amount to \$189.2 million and resulting in a loss of \$0.2 million. The loss resulted from the write off of the remaining unamortized debt issuance costs related to the purchased notes.

The 2021 Notes were issued pursuant to, and are governed by the Indenture between Cogent Finance and the trustee. The 2021 Notes bear interest at a rate of 5.625% per year and will mature on April 15, 2021. Interest began to accrue on the 2021 Notes on April 9, 2014 and is paid semi-annually on April 15 and October 15. The 2021 Notes became Group's senior unsecured obligations and are guaranteed on a senior unsecured basis by Holdings. The 2021 Notes are effectively subordinated in right of payment to all of Group's and each guarantor's secured indebtedness and future secured indebtedness, including the 2022 Notes, if any, to the extent of the value of the assets securing such indebtedness. The 2021 Notes are equal in right of payment with Group's and each guarantor's unsecured indebtedness that is not subordinated in right of payment to the 2021 Notes. The 2021 Notes rank senior in right of payment to Group's and each guarantor's future subordinated debt, if any; and are structurally subordinated in right of payment to all indebtedness and other liabilities of any of the Group's subsidiaries that are not guarantors, which only consist of immaterial subsidiaries and foreign subsidiaries that do not guarantee other indebtedness of Group.

Limitations under the indentures

The indentures governing the 2022 Notes and 2021 Notes, among other things, limit the Company's ability to incur indebtedness; to pay dividends or make other distributions; to make certain investments and other restricted payments; to create liens; consolidate, merge, sell or otherwise dispose of all or substantially all of its assets; to incur restrictions on the ability of a subsidiary to pay dividends or make other

payments; and to enter into certain transactions with its affiliates. Limitations on the ability to incur additional indebtedness (excluding IRU agreements incurred in the normal course of business) include a restriction on incurring additional indebtedness if the Company's consolidated leverage ratio, as defined in the indentures, is greater than 5.0. The indentures prohibit certain payments, such as dividends and stock purchases, when the Company's consolidated leverage ratio, as defined by the indentures, is greater than 4.25. A certain amount of such unrestricted payments is permitted notwithstanding this prohibition. The unrestricted payment amount may be increased by the Company's consolidated cash flow, as defined in the indentures, as long as the Company's consolidated leverage ratio is less than 4.25. The Company's consolidated leverage ratio is above 4.25 as of June 30, 2017. As of June 30, 2017, a total of \$107.0 million (held by Holdings) was permitted for investment payments including dividends and stock purchases.

4. Commitments and contingencies:

Current and potential litigation

In accordance with the accounting guidance for contingencies, the Company accrues its estimate of a contingent liability when it is both probable that a liability has been incurred and the amount of the loss can be reasonably estimated. Where it is probable that a liability has been incurred and there is a range of expected loss for which no amount in the range is more likely than any other amount, the Company accrues at the low end of the range. The Company reviews its accruals at least quarterly and adjusts them to reflect the impact of negotiations, settlements, rulings, advice of legal counsel, and other information and events pertaining to a particular matter. The Company has taken certain positions related to its obligations for leased circuits for which it is reasonably possible could result in a loss of up to \$2.5 million in excess of the amount accrued at June 30, 2017.

In December 2011, certain former sales employees of the Company filed a collective action against the Company in the United States District Court, Southern District of Texas, Houston Division alleging misclassification of the Company's sales employees throughout the United

Table of Contents

States in violation of the Fair Labor Standards Act. The lawsuit sought to recover pay for allegedly unpaid overtime and other damages, including attorney's fees. In March 2014, the judge de-certified the collective action. Each of the former employees that opted-in to the collective action retained the right to file an individual action. Approximately 70 former employees did so. The Company has settled a number of the cases that were filed and made the required settlement payments. Currently, only one case in California remains (Ambrosia v. Cogent Communications, Inc. in the U. S. District Court for the Northern District of California). The parties have agreed to a settlement under which Cogent will pay approximately \$3.1 million to settle the claims. The \$3.1 million proposed settlement, which was recorded in the fourth quarter of 2016 and is accrued at June 30, 2017 is subject to approval by the court and individual plaintiffs will be able to opt out of the settlement if they wish and pursue claims separately.

In the ordinary course of business the Company is involved in other legal activities and claims. Because such matters are subject to many uncertainties and the outcomes are not predictable with assurance, the liability related to these legal actions and claims cannot be determined with certainty. Management does not believe that such claims and actions will have a material impact on the Company's financial condition or results of operations. Judgment is required in estimating the ultimate outcome of any dispute resolution process, as well as any other amounts that may be incurred to conclude the negotiations or settle any litigation. Actual results may differ from these estimates under different assumptions or conditions and such differences could be material.

5. Income taxes:

The components of income before income taxes consist of the following (in thousands):

	Three Months Ended June 30, 2017	Three Months Ended June 30, 2016	Six Months Ended June 30, 2017	Six Months Ended June 30, 2016
Domestic	\$ 12,690	\$ 13,230	\$ 25,056	\$ 24,618
Foreign	(4,765)	(5,627)	(9,502)	(11,272)
Total	\$ 7,925	\$ 7,603	\$ 15,554	\$ 13,346

6. Common stock buyback program:

The Company's Board of Directors has approved purchases of the Company's common stock under a buyback program (the Buyback Program) through December 31, 2018. At June 30, 2017, there was approximately \$41.5 million remaining for purchases under the Buyback Program. During the three and six months ended June 30, 2017 the Company purchased 46,750 shares of its common stock for \$1.8 million. There were no purchases of common stock during the three and six months ended June 30, 2016.

7. Dividends on common stock:

Dividends are recorded as a reduction to retained earnings. Dividends on unvested restricted shares of common stock are paid as the awards vest. On August 2, 2017, the Company's Board of Directors approved the payment of its quarterly dividend of \$0.46 per common share. This

Edgar Filing: COGENT COMMUNICATIONS HOLDINGS, INC. - Form 10-Q

dividend for the third quarter of 2017 will be paid to holders of record on August 18, 2017. This estimated \$20.6 million dividend payment is expected to be made on September 1, 2017.

The payment of any future dividends and any other returns of capital, including stock buybacks will be at the discretion of the Company's Board of Directors and may be reduced, eliminated or increased and will be dependent upon the Company's financial position, results of operations, available cash, cash flow, capital requirements, limitations under the Company's debt indentures and other factors deemed relevant by the Company's Board of Directors. The Company is a Delaware Corporation and under the General Corporate Law of the State of Delaware distributions may be restricted including a restriction that distributions, including stock purchases and dividends, do not result in an impairment of a corporation's capital, as defined under Delaware Law. The indentures governing the Company's notes limit the Company's ability to return cash to its stockholders.

8. Related party transactions:

Office leases

The Company's headquarters is located in an office building owned by Sodium LLC whose two owners are the Company's Chief Executive Officer, who has a 51% interest in Sodium LLC and his wife who has a 49% interest. The fixed annual rent for the headquarters building is \$1.0 million per year plus an allocation of taxes and utilities. The lease began in May 2015 and the lease term is for five years which is cancellable by the Company upon 60 days' notice. The Company's audit committee reviews and approves all transactions with related parties. The Company paid \$0.4 million and \$0.5 million in the three months ended June 30, 2017 and 2016 and \$0.7 million and \$0.9 million in the six months ended June 30, 2017 and 2016, respectively, for rent and related costs (including taxes and utilities) to these lessors for these leases.

9. Stock option and award plan:

The Company grants restricted stock and options for common stock under its award plan, as amended (the Award Plan). In May 2017, the Company's shareholders approved a 1.2 million share increase to the authorized shares under the Award Plan. In the three months ended June

Table of Contents

30, 2017 the Company granted at total of 470,404 shares under the Award Plan to certain of its employees and directors with a grant date fair value of \$19.0 million. The grant date fair value will be recognized as equity-based compensation expense on a straight line basis over the respective service periods. The vesting of certain of these shares (24,050) granted to the Company's executives is subject to performance conditions and the vesting of 105,000 shares granted to the Company's CEO are subject to the total shareholder return of the Company's common stock compared to the total shareholder return of the Nasdaq Telecommunications Index.

10. Segment information:

The Company operates as one operating segment. The Company's service revenue and long lived assets by geographic region are as follows (in thousands):

	Three Months Ended June 30, 2017	Three Months Ended June 30, 2016	Six Months Ended June 30, 2017	Six Months Ended June 30, 2016
<u>Service revenue</u>				
North America	\$ 99,640	\$ 91,429	\$ 197,494	\$ 181,482
Europe	20,137	18,526	39,487	36,765
Total	\$ 119,777	\$ 109,955	\$ 236,981	\$ 218,247

	June 30, 2017	December 31, 2016
<u>Long lived assets, net</u>		
North America	\$ 287,002	\$ 285,651
Europe	89,890	76,014
Total	\$ 376,892	\$ 361,665

The majority of North American revenue consists of services delivered within the United States.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion and analysis together with our condensed consolidated financial statements and related notes included in this report. The discussion in this report contains forward-looking statements that involve risks and uncertainties, such as statements of our plans, objectives, expectations and intentions. The cautionary statements made in this report should be read as applying to all related forward-looking statements wherever they appear in this report. Our actual results could differ materially from those discussed here. Factors that could cause or contribute to these differences include, but are not limited to:

Future economic instability in the global economy, which could affect spending on Internet services; the impact of changing foreign exchange rates (in particular the Euro to US dollar and Canadian dollar to US dollar exchange rates) on the translation of our non-US dollar

denominated revenues, expenses, assets and liabilities; legal and operational difficulties in new markets; the imposition of a requirement that we contribute to the US Universal Service Fund on the basis of our Internet revenue; changes in government policy and/or regulation, including rules regarding data protection, cyber security and net neutrality; increasing competition leading to lower prices for our services; our ability to attract new customers and to increase and maintain the volume of traffic on our network; the ability to maintain our Internet peering arrangements on favorable terms; our reliance on an equipment vendor, Cisco Systems Inc., and the potential for hardware or software problems associated with such equipment; the dependence of our network on the quality and dependability of third-party fiber providers; our ability to retain certain customers that comprise a significant portion of our revenue base; the management of network failures and/or disruptions; and outcomes in litigation as well as other risks discussed from time to time in our filings with the Securities and Exchange Commission, including, without limitation, our annual report on Form 10-K for the year ended December 31, 2016.

General Overview

We are a leading facilities-based provider of low-cost, high-speed Internet access and IP communications services. Our network is specifically designed and optimized to transmit data using IP. We deliver our services primarily to small and medium-sized businesses, communications service providers and other bandwidth-intensive organizations in North America, Europe and in Asia.

Our on-net service consists of high-speed Internet access and IP connectivity ranging from 100 Megabits per second to 100 Gigabits per second of bandwidth. We offer our on-net services to customers located in buildings that are physically connected to our network. We provide on-net Internet access to corporate customers and net-centric customers. Our corporate customers are located in multi-tenant office buildings and in our data centers and typically include law firms, financial services firms, advertising and marketing firms and other professional services businesses. Our net-centric customers include bandwidth-intensive users such as consortiums of universities, Internet service providers, telephone companies, cable television companies, web hosting companies, content delivery networks and commercial content and application service providers. These net-centric customers generally receive our services in colocation facilities and in our data centers.

Table of Contents

Our off-net services are sold to businesses that are connected to our network primarily by means of last mile access service lines obtained from other carriers, primarily in the form of metropolitan Ethernet circuits. Our non-core services, which consist primarily of legacy services of companies whose assets or businesses we have acquired, primarily include voice services (only provided in Toronto, Canada). We do not actively market these non-core services and expect the service revenue associated with them to continue to decline.

Our network is comprised of in-building riser facilities, metropolitan optical fiber networks, metropolitan traffic aggregation points and inter-city transport facilities. Our network is physically connected entirely through our facilities to 2,438 buildings in which we provide our on-net services, including 1,618 multi-tenant office buildings. We also provide on-net services in carrier-neutral data centers, Cogent controlled data centers and single-tenant office buildings. We operate 53 Cogent controlled data centers totaling 603,000 square feet. Because of our integrated network architecture, we are not dependent on local telephone companies or cable companies to serve our on-net customers. We emphasize the sale of our on-net services because we believe we have a competitive advantage in providing these services and these services generate gross profit margins that are greater than the gross profit margins of our off-net services.

We believe our key growth opportunity is provided by our high-capacity network, which provides us with the ability to add a significant number of customers to our network with minimal direct incremental costs. Our focus is to add customers to our network in a way that maximizes its use and at the same time provides us with a profitable customer mix. We are responding to this opportunity by increasing our sales and marketing efforts including increasing our number of sales representatives and expanding our network to locations that we believe can be economically integrated and represent significant concentrations of Internet traffic. One of our keys to developing a profitable business will be to carefully match the cost of extending our network to reach new customers with the revenue expected to be generated by those customers. In addition, we may add customers to our network through strategic acquisitions.

We believe some of the most important trends in our industry are the continued long-term growth in Internet traffic and a decline in Internet access prices on a per megabit basis. The effective price per megabit for our corporate customers is declining as the bandwidth utilization and connection size of our corporate customer connections increases. As Internet traffic continues to grow and prices per unit of traffic continue to decline, we believe we can continue to load our network and gain market share from less efficient network operators. However, continued erosion in Internet access prices will likely have a negative impact on the rate at which we can increase our revenues and our profitability. Our revenue may also be negatively affected if we are unable to grow our Internet traffic or if the rate of growth of Internet traffic does not offset an expected decline in our per unit pricing. We do not know if Internet traffic will increase or decrease, or the rate at which it will increase or decrease. Changes in Internet traffic will be a function of the number of Internet users, the amount of time users spend on the Internet, the applications for which the Internet is used, the bandwidth intensity of these applications and the pricing of Internet services, and other factors.

The growth in Internet traffic has a more significant impact on our net-centric customers who represent the vast majority of the traffic on our network and who tend to consume the majority of their allocated bandwidth on their connections. Net-centric customers tend to purchase their service on a price per megabit basis. Our corporate customers tend to utilize a small portion of their allocated bandwidth on their connections and tend to purchase their service on a per connection basis.

We are a facilities-based provider of Internet access and communications services. Facilities-based providers require significant physical assets, or network facilities, to provide their services. Typically when a facilities-based network services provider begins providing its services in a new jurisdiction losses are incurred for several years until economies of scale have been achieved. Our foreign operations are in Europe, Canada, Mexico and Asia. Europe accounts for roughly 75% of our foreign operations. Our European operations have incurred losses and will continue to do so until our European customer base and revenues have grown enough to achieve sufficient economies of scale.

Edgar Filing: COGENT COMMUNICATIONS HOLDINGS, INC. - Form 10-Q

Due to our strategic acquisitions of network assets and equipment, we believe we are well positioned to grow our revenue base. We continue to purchase and deploy network equipment to parts of our network to maximize the utilization of our assets and to expand and increase the capacity of our network. Our future capital expenditures will be based primarily on the expansion of our network and the addition of on-net buildings. We plan to continue to expand our network and to increase the number of on-net buildings we serve including multi-tenant office buildings, carrier neutral data centers and Cogent controlled data centers. Many factors can affect our ability to add buildings to our network. These factors include the willingness of building owners to grant us access rights, the availability of optical fiber networks to serve those buildings, the cost to connect buildings to our network and equipment availability.

Three Months Ended June 30, 2017 Compared to the Three Months Ended June 30, 2016

The following summary table presents a comparison of our results of operations with respect to certain key financial measures. The comparisons illustrated in the table are discussed in greater detail below.

	2017	Three months ended June 30, (in thousands)	2016	Percent Change
Service revenue	\$	119,777	\$ 109,955	8.9%
On-net revenue		85,586	79,539	7.6%
Off-net revenue		33,980	30,149	12.7%
Network operations expenses (1)		51,115	47,872	6.8%
Selling, general, and administrative expenses (2)		31,788	29,820	6.6%
Gains on equipment transactions		1,023	4,439	(77.0)%
Depreciation and amortization expenses		18,897	18,604	1.6%
Interest expense		12,090	10,243	18.0%
Income tax provision		3,608	3,379	6.8%

Table of Contents

(1) Includes equity-based compensation expenses of \$141 and \$145 in the three months ended June 30, 2017 and 2016, respectively.

(2) Includes equity-based compensation expenses of \$3,084 and \$2,542 in the three months ended June 30, 2017 and 2016, respectively.

	Three Months Ended		Percent Change
	2017	June 30, 2016	
Other Operating Data			
<i>Average Revenue Per Unit (ARPU)</i>			
ARPU on net	\$ 509	\$ 550	(7.4)%
ARPU off-net	\$ 1,232	\$ 1,286	(4.2)%
Average Price per Megabit installed base	\$ 1.17	\$ 1.36	(14.3)%
<i>Customer Connections end of period</i>			
On-net	57,307	49,243	16.4%
Off-net	9,335	7,971	17.1%

Service Revenue. Our service revenue increased 8.9% for the three months ended June 30, 2017 from the three months ended June 30, 2016. The impact of exchange rates resulted in a decrease of revenues for the three months ended June 30, 2017 of approximately \$0.7 million. All foreign currency comparisons herein reflect our second quarter 2017 results translated at the average foreign currency exchange rates for the second quarter of 2016. Revenue recognition standards include guidance relating to any tax assessed by a governmental authority that is directly imposed on a revenue-producing transaction between a seller and a customer and may include, but is not limited to, gross receipts taxes, Universal Service Fund fees and certain state regulatory fees. We record these taxes billed to our customers on a gross basis (as service revenue and network operations expense) in our consolidated statements of operations. The impact of these taxes including the Universal Service Fund resulted in an increase of our revenues for the three months ended June 30, 2017 from the three months ended June 30, 2016 of approximately \$0.5 million.

Revenues from our corporate and net centric customers represented 62.2% and 37.8% of total service revenue, respectively, for the three months ended June 30, 2017 and represented 60.5% and 39.5% of total service revenue, respectively, for the three months ended June 30, 2016. Revenues from corporate customers increased 11.9% to \$74.4 million for the three months ended June 30, 2017 from \$66.5 million for the three months ended June 30, 2016. Revenues from our net-centric customers increased by 4.4% to \$45.3 million for the three months ended June 30, 2017 from \$43.4 million for the three months ended June 30, 2016. The negative impact of foreign exchange rates had a more significant impact on our net-centric revenues.

Our on-net revenues increased 7.6% for the three months ended June 30, 2017 from the three months ended June 30, 2016. We increased the number of our on-net customer connections by 16.4% at June 30, 2017 from June 30, 2016. On-net customer connections increased at a greater rate than on-net revenues primarily due to the 7.4% decline in our on-net ARPU, primarily from a decline in ARPU for our net centric customers and from the negative impact of foreign exchange rates. ARPU is determined by dividing revenue for the period by the average customer connections for that period. Our average price per megabit for our installed base of customers is determined by dividing the aggregate monthly recurring fixed charges for those customers by the aggregate committed data rate for the same customers. The decline in on-net ARPU is partly attributed to volume and term based pricing discounts. Additionally, on-net customers who cancel their service from our installed base of

Edgar Filing: COGENT COMMUNICATIONS HOLDINGS, INC. - Form 10-Q

customers, in general, have an ARPU that is greater than the ARPU for our new customers due to declining prices primarily for our on-net services sold to our net-centric customers. These trends resulted in the reduction to our on-net ARPU and a 14.3% decline in our average price per megabit for our installed base of customers.

Our off-net revenues increased 12.7% for the three months ended June 30, 2017 from the three months ended June 30, 2016. Our off-net revenues increased as we increased the number of our off-net customer connections by 17.1% at June 30, 2017 from June 30, 2016. Our off-net customer connections increased at a greater rate than our off-net revenue primarily due to the 4.2% decrease in our off-net ARPU.

Network Operations Expenses. Network operations expenses include the costs of personnel associated with service delivery, network management and customer support, network facilities costs, fiber and equipment maintenance fees, leased circuit costs, access and facilities fees paid to building owners and excise taxes billed to our customers and recorded on a gross basis. Non-cash equity-based compensation expense is included in network operations expenses consistent with the classification of the employee's salary and other compensation. Our network operations expenses, including non-cash equity-based compensation expense, increased 6.8% for the three months ended June 30, 2017 from the three months ended June 30, 2016. The increase is primarily attributable to an increase in costs related to our network and facilities expansion activities, a \$0.5 million increase in taxes billed to our customers recorded on a gross basis (in service revenue and cost of network operations expense) and the increase in our off-net revenues. When we provide off-net services we also assume the cost of the associated tail circuits.

Selling, General, and Administrative (SG&A) Expenses. Our SG&A expenses, including non-cash equity-based compensation expense, increased 6.6% for the three months ended June 30, 2017 from the three months ended June 30, 2016. Non-cash equity-based compensation expense is included in SG&A expenses consistent with the classification of the employee's salary and other compensation and was \$3.1 million for the three months ended June 30, 2017 and \$2.5 million for the three months ended June 30, 2016. SG&A expenses increased primarily from an increase in salaries and related costs required to support our expansion and the increase in our sales efforts partly offset by a \$0.8 million decrease

Table of Contents

in our legal and economic analysis fees primarily associated with U.S. net neutrality and interconnection regulatory matters. Our sales force headcount increased by 7.7% from 519 at June 30, 2016 to 559 at June 30, 2017 and our total headcount increased by 6.4% from 854 at June 30, 2016 to 909 at June 30, 2017.

Gains on Equipment Transactions. In the three months ended June 30, 2017 and June 30, 2016, we exchanged certain used network equipment and cash consideration for new network equipment resulting in gains of \$1.0 million and \$4.4 million, respectively, based upon the estimated fair value of the new network equipment less the carrying amount of the returned used network equipment and the cash paid.

Depreciation and Amortization Expenses. Our depreciation and amortization expense increased by 1.6% for the three months ended June 30, 2017 from the three months ended June 30, 2016. The increase is primarily due to the depreciation expense associated with the increase in deployed fixed assets.

Interest Expense. Interest expense results from interest incurred on our \$375.0 million of senior secured notes, interest incurred on our \$189.2 million of senior unsecured notes, interest on our installment payment agreement and interest on our capital lease obligations. Our interest expense increased by 18.0% for the three months ended June 30, 2017 from the three months ended June 30, 2016 primarily due to our issuance of \$125.0 million of senior secured notes in December 2016.

In the second quarter of 2016, we paid \$10.9 million for the purchase of \$10.8 million of par value and accrued interest of our \$200.0 million senior unsecured notes reducing the principal to \$189.2 million and resulting in a loss of \$0.2 million. The loss resulted from the write off of the remaining unamortized debt issuance costs related to the purchased notes. In June 2016, we elected to repay the outstanding \$17.1 million principal balance of the installment payment agreement before its maturity date resulting in a loss of \$0.4 million from the remaining unamortized discount.

Income Tax Provision. Our income tax provision was \$3.6 million for the three months ended June 30, 2017 and \$3.4 million for the three months ended June 30, 2016. The increase in our income tax provision was primarily related to an increase in deferred income tax expense due to an increase in income before taxes in the United States.

Buildings On-net. As of June 30, 2017 and 2016, we had a total of 2,438 and 2,297 on-net buildings connected to our network, respectively.

Six Months Ended June 30, 2017 Compared to the Six Months Ended June 30, 2016

Edgar Filing: COGENT COMMUNICATIONS HOLDINGS, INC. - Form 10-Q

The following summary table presents a comparison of our results of operations with respect to certain key financial measures. The comparisons illustrated in the table are discussed in greater detail below.

	Six months ended June 30,		2016	Percent Change
	2017	(in thousands)		
Service revenue	\$	236,981	\$ 218,247	8.6%
On-net revenue		169,173	158,244	6.9%
Off-net revenue		67,365	59,506	13.2%
Network operations expenses (1)		101,778	95,149	7.0%
Selling, general, and administrative expenses (2)		63,252	59,352	6.6%
Gains on equipment transactions		3,146	6,385	(50.7)%
Depreciation and amortization expenses		37,435	36,357	3.0%
Interest expense		23,978	20,309	18.1%
Income tax provision		7,101	5,768	23.1%

(1) Includes equity-based compensation expenses of \$252 and \$266 in the six months ended June 30, 2017 and 2016, respectively.

(2) Includes equity-based compensation expenses of \$5,620 and \$4,602 in the six months ended June 30, 2017 and 2016, respectively.

	Six Months Ended June 30,		Percent Change
	2017	2016	
Other Operating Data			
<i>Average Revenue Per Unit (ARPU)</i>			
ARPU on net	\$ 512	\$ 557	(8.1)%
ARPU off-net	\$ 1,252	\$ 1,301	(3.7)%
Average Price per Megabit installed base	\$ 1.18	\$ 1.41	(16.6)%
<i>Customer Connections end of period</i>			
On-net	57,307	49,243	16.4%
Off-net	9,335	7,971	17.1%

Table of Contents

Service Revenue. Our service revenue increased 8.6% for the six months ended June 30, 2017 from the six months ended June 30, 2016. The impact of exchange rates resulted in a decrease of revenues for the six months ended June 30, 2017 of approximately \$1.2 million. All foreign currency comparisons herein reflect our 2017 results for the six months ended June 30, 2017 translated at the average foreign currency exchange rates for the six months ended June 30, 2016. Revenue recognition standards include guidance relating to any tax assessed by a governmental authority that is directly imposed on a revenue-producing transaction between a seller and a customer and may include, but is not limited to, gross receipts taxes, Universal Service Fund fees and certain state regulatory fees. We record these taxes billed to our customers on a gross basis (as service revenue and network operations expense) in our consolidated statements of operations. The impact of these taxes including the Universal Service Fund resulted in an increase of our revenues for the six months ended June 30, 2017 from the six months ended June 30, 2016 of approximately \$1.1 million.

Revenues from our corporate and net centric customers represented 62.0% and 38.0% of total service revenue, respectively, for the six months ended June 30, 2017 and represented 60.1% and 39.9% of total service revenue, respectively, for the six months ended June 30, 2016. Revenues from corporate customers increased 11.9% to \$146.8 million for the six months ended June 30, 2017 from \$131.2 million for the six months ended June 30, 2016. Revenues from our net-centric customers increased by 3.5% to \$90.2 million for the six months ended June 30, 2017 from \$87.1 million for the six months ended June 30, 2016. The negative impact of foreign exchange had a more significant impact on our net-centric revenues.

Our on-net revenues increased 6.9% for the six months ended June 30, 2017 from the six months ended June 30, 2016. We increased the number of our on-net customer connections by 16.4% at June 30, 2017 from June 30, 2016. On-net customer connections increased at a greater rate than on-net revenues primarily due to the 8.1% decline in our on-net ARPU, primarily from a decline in ARPU for our net centric customers and from the negative impact of foreign exchange rates. ARPU is determined by dividing revenue for the period by the average customer connections for that period. Our average price per megabit for our installed base of customers is determined by dividing the aggregate monthly recurring fixed charges for those customers by the aggregate committed data rate for the same customers. The decline in on-net ARPU is partly attributed to volume and term based pricing discounts. Additionally, on-net customers who cancel their service from our installed base of customers, in general, have an ARPU that is greater than the ARPU for our new customers due to declining prices primarily for our on-net services sold to our net-centric customers. These trends resulted in the reduction to our on-net ARPU and a 16.6% decline in our average price per megabit for our installed base of customers.

Our off-net revenues increased 13.2% for the six months ended June 30, 2017 from the six months ended June 30, 2016. Our off-net revenues increased as we increased the number of our off-net customer connections by 17.1% at June 30, 2017 from June 30, 2016. Our off-net customer connections increased at a greater rate than our off-net revenue primarily due to the 3.7% decrease in our off-net ARPU.

Network Operations Expenses. Network operations expenses include the costs of personnel associated with service delivery, network management and customer support, network facilities costs, fiber and equipment maintenance fees, leased circuit costs, access and facilities fees paid to building owners and excise taxes billed to our customers and recorded on a gross basis. Non-cash equity-based compensation expense is included in network operations expenses consistent with the classification of the employee's salary and other compensation. Our network operations expenses, including non-cash equity-based compensation expense, increased 7.0% for the six months ended June 30, 2017 from the six months ended June 30, 2016. The increase is primarily attributable to an increase in costs related to our network and facilities expansion activities, a \$1.1 million increase in taxes billed to our customers recorded on a gross basis (in

service revenue and cost of network operations expense) and the increase in our off-net revenues. When we provide off-net services we also assume the cost of the associated tail circuits.

Selling, General, and Administrative (SG&A) Expenses. Our SG&A expenses, including non-cash equity-based compensation expense, increased 6.6% for the six months ended June 30, 2017 from the six months ended June 30, 2016. Non-cash equity-based compensation expense is included in SG&A expenses consistent with the classification of the employee's salary and other compensation and was \$5.6 million for the six months ended June 30, 2017 and \$4.6 million for the six months ended June 30, 2016. SG&A expenses increased primarily from an increase in salaries and related costs required to support our expansion and the increase in our sales efforts partly offset by a \$1.3 million decrease in our legal and economic analysis fees primarily associated with U.S. net neutrality and interconnection regulatory matters. Our sales force headcount increased by 7.7% from 519 at June 30, 2016 to 559 at June 30, 2017 and our total headcount increased by 6.4% from 854 at June 30, 2016 to 909 at June 30, 2017.

Gains on Equipment Transactions. In the six months ended June 30, 2017 and June 30, 2016, we exchanged certain used network equipment and cash consideration for new network equipment resulting in gains of \$3.1 million and \$6.4 million, respectively, based upon the estimated fair value of the new network equipment less the carrying amount of the returned used network equipment and the cash paid.

Depreciation and Amortization Expenses. Our depreciation and amortization expense increased by 3.0% for the six months ended June 30, 2017 from the six months ended June 30, 2016. The increase is primarily due to the depreciation expense associated with the increase in deployed fixed assets.

Interest Expense. Interest expense results from interest incurred on our \$375.0 million of senior secured notes, interest incurred on our \$189.2 million of senior unsecured notes, interest on our installment payment agreement and interest on our capital lease obligations. Our interest expense increased by 18.1% for the six months ended June 30, 2017 from the six months ended June 30, 2016 primarily due to our issuance of \$125.0 million of senior secured notes in December 2016.

In the second quarter of 2016, we paid \$10.9 million for the purchase of \$10.8 million of par value and accrued interest of our \$200.0 million senior unsecured notes reducing the principal to \$189.2 million and resulting in a loss of \$0.2 million. The loss resulted from the write off

Table of Contents

of the remaining unamortized debt issuance costs related to the purchased notes. In June 2016, we elected to repay the outstanding \$17.1 million principal balance of the installment payment agreement before its maturity date resulting in a loss of \$0.4 million from the remaining unamortized discount.

Income Tax Provision. Our income tax provision was \$7.1 million for the six months ended June 30, 2017 and \$5.8 million for the six months ended June 30, 2016. The increase in our income tax provision was primarily related to an increase in deferred income tax expense due to an increase in income before taxes in the United States.

Buildings On-net. As of June 30, 2017 and 2016, we had a total of 2,438 and 2,297 on-net buildings connected to our network, respectively.

Liquidity and Capital Resources

In assessing our liquidity, management reviews and analyzes our current cash balances, accounts receivable, accounts payable, accrued liabilities, capital expenditure commitments, and required capital lease and debt payments and other obligations.

Cash Flows

The following table sets forth our consolidated cash flows.

(in thousands)	Six months ended June 30,	
	2017	2016
Net cash provided by operating activities	\$ 51,559	\$ 51,255
Net cash used in investing activities	(24,256)	(29,294)
Net cash used in financing activities	(47,287)	(71,494)
Effect of exchange rates on cash	2,157	909
Net decrease in cash and cash equivalents during period	\$ (17,827)	\$ (48,624)

Net Cash Provided by Operating Activities. Our primary sources of operating cash are receipts from our customers who are billed on a monthly basis for our services. Our primary uses of operating cash are payments made to our vendors, employees and interest payments made to our capital lease vendors and our note holders. Our changes in cash provided by operating activities are primarily due to changes in our operating profit and changes in our interest payments. Cash provided by operating activities for the six months ended June 30, 2017 and 2016 includes interest payments on our note obligations of \$15.4 million and \$12.3 million, respectively.

Net Cash Used In Investing Activities. Our primary use of cash for investing activities is for purchases of property and equipment. Purchases of property and equipment were \$24.3 million and \$29.3 million for the six months ended June 30, 2017 and 2016, respectively. The changes in purchases of property and equipment are primarily due to the timing and scope of our network expansion activities including geographic expansion and adding buildings to our network.

Net Cash Used In Financing Activities. Our primary uses of cash for financing activities are for principal payments under our capital lease obligations and our installment payment agreement, purchases of our common stock and dividend payments. Principal payments under our capital lease were \$6.0 million and \$7.3 million for the six months ended June 30, 2017 and 2016, respectively. During the six months ended June 30, 2017 and 2016 we paid \$38.9 million and \$32.8 million, respectively, for our quarterly dividend payments. During the six months ended June 30, 2017 we also paid \$1.8 million for purchases of our common stock. There were no purchases of our common stock in the six months ended June 30, 2016. During the six months ended June 30, 2016 we paid \$10.9 million for the purchase of \$10.8 million of par value and accrued interest of our \$200.0 million senior unsecured notes and we elected to repay the outstanding \$17.1 million principal balance of our installment payment agreement prior to its maturity date.

Cash Position and Indebtedness

Our total indebtedness at June 30, 2017 was \$723.5 million and our total cash and cash equivalents were \$256.5 million. Our total indebtedness at June 30, 2017 includes \$149.8 million of capital lease obligations for dark fiber under long term IRU agreements.

Summarized Financial Information of Holdings

Holdings is not a restricted subsidiary as defined under the indentures governing our 2021 Notes and our 2022 Notes. Holdings is a guarantor under these notes. Under the indentures we are required to disclose financial information of Holdings including its assets, liabilities and its operating results (Holdings Financial Information). The Holdings Financial Information is detailed below (in thousands).

	June 30, 2017 (Unaudited)
Cash and cash equivalents	\$ 104,611
Total assets	\$ 104,611
Investment from subsidiaries	\$ 257,459
Common stock	46
Accumulated deficit	(152,894)
Total equity	\$ 104,611

Table of Contents

	Six Months Ended June 30, 2017 (Unaudited)
Equity-based compensation expense	6,397
Interest income	432
Net loss	\$ (5,965)

Common Stock Buyback Program

Our Board of Directors has approved purchases of our common stock under a buyback program (the Buyback Program). During the three and six months ended June 30, 2017 the Company purchased 46,750 shares of its common stock for \$1.8 million. There were no purchases of our common stock in the three and six months ended June 30, 2016. As of June 30, 2017, there was a total of \$41.5 million available under the Buyback Program which is authorized to continue through December 31, 2018.

Dividends on Common Stock and Return of Capital Program

Dividends are recorded as a reduction to retained earnings. Dividends on unvested restricted shares of common stock are paid as the awards vest. On August 2, 2017, our Board of Directors approved the payment of our quarterly dividend of \$0.46 per common share. This dividend for the third quarter of 2017 will be paid to holders of record on August 18, 2017. This estimated \$20.6 million dividend payment is expected to be made on September 1, 2017.

The payment of any future dividends and any other returns of capital, including stock buybacks, will be at the discretion of our Board of Directors and may be reduced, eliminated or increased and will be dependent upon our financial position, results of operations, available cash, cash flow, capital requirements, limitations under our debt indentures and other factors deemed relevant by the our Board of Directors. We are a Delaware Corporation and under the General Corporate Law of the State of Delaware distributions may be restricted including a restriction that distributions, including stock purchases and dividends, do not result in an impairment of a corporation's capital, as defined under Delaware Law. The indentures governing our notes limit our ability to return cash to our stockholders. See Note 3 of our interim condensed consolidated financial for additional discussion of limitations on distributions.

Contractual Obligations and Commitments

There have been no material changes to our contractual obligations and commitments included in Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations of our annual report on Form 10-K for the year ended December 31, 2016.

Future Capital Requirements

Edgar Filing: COGENT COMMUNICATIONS HOLDINGS, INC. - Form 10-Q

We believe that our cash on hand and cash generated from our operating activities will be adequate to meet our working capital, capital expenditure, debt service, dividend payments and other cash requirements for the next twelve months if we execute our business plan.

Any future acquisitions or other significant unplanned costs or cash requirements in excess of amounts we currently hold may require that we raise additional funds through the issuance of debt or equity. We cannot assure you that such financing will be available on terms acceptable to us or our stockholders, or at all. Insufficient funds may require us to delay or scale back the number of buildings and markets that we add to our network, reduce our planned increase in our sales and marketing efforts, or require us to otherwise alter our business plan or take other actions that could have a material adverse effect on our business, results of operations and financial condition. If issuing equity securities raises additional funds, substantial dilution to existing stockholders may result.

We may need to or elect to refinance all or a portion of our indebtedness at or before maturity and we cannot provide assurances that we will be able to refinance any such indebtedness on commercially reasonable terms or at all. In addition, we may elect to secure additional capital in the future, at acceptable terms, to improve our liquidity or fund acquisitions or for general corporate purposes. In addition, in an effort to reduce future cash interest payments as well as future amounts due at maturity or to extend debt maturities, we may, from time to time, issue new debt, enter into debt for debt, or cash transactions to purchase our outstanding debt securities in the open market or through privately negotiated transactions. We will evaluate any such transactions in light of the existing market conditions. The amounts involved in any such transaction, individually or in the aggregate, may be material.

Off-Balance Sheet Arrangements

We do not have relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually

Table of Contents

narrow or limited purposes. In addition, we do not engage in trading activities involving non-exchange traded contracts. As such, we are not materially exposed to any financing, liquidity, market or credit risks that could arise if we had engaged in these relationships.

Critical Accounting Policies and Significant Estimates

Management believes that as of June 30, 2017, there have been no material changes to our critical accounting policies and significant estimates from those listed in Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations of our annual report on Form 10-K for the year ended December 31, 2016.

Recent Accounting Pronouncements

Recent Accounting Pronouncements to be Adopted

In February 2016, the FASB issued ASU No. 2016-02, *Leases* (ASU 2016-02). ASU 2016-02 will replace most existing lease accounting guidance when it becomes effective. ASU 2016-02 is effective for us beginning on January 1, 2019. Early application is permitted. ASU 2016-02 must be adopted using the modified retrospective approach for all leases that exist at or commence after the beginning of the earliest comparative period presented (with the option to apply certain practical expedients), which for us will be the period beginning January 1, 2017. ASU 2016-02 will require us to record a right to use asset and a lease liability for most of our leases, including our leases currently treated as operating leases. We are evaluating the effect that ASU 2016-02 will have on our consolidated financial statements and related disclosures and we will elect to apply certain practical expedients. We have not yet determined the effect of ASU 2016-02 on our ongoing financial reporting or quantified the impact to our balance sheet, however we do expect the right to use asset and lease liability recorded will be material. We do not expect to early adopt ASU 2016-02.

In May 2014, the FASB issued ASU No. 2014-09, *Revenue from Contracts with Customers*, (ASU 2014-09) which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers, and also requires enhanced disclosures regarding the nature, amount, timing and uncertainty of revenues and cash flows from contracts with customers. ASU 2014-09 will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. ASU 2014-09 is effective for us on January 1, 2018. Early application is permitted for annual periods beginning after December 15, 2016. ASU 2014-09 permits the use of either the full retrospective or modified retrospective transition method. We anticipate adopting ASU 2014-09 using the modified retrospective transition method on January 1, 2018. Under the modified retrospective method, the cumulative effect of applying the standard would be recognized at the date of initial application. We do not expect to early adopt ASU 2014-09.

We have not quantified the effect of adopting ASU 2014-09, however we anticipate the period for which we recognize revenue for fees billed in connection with customer installations will change. We expect that revenues will be recognized over the contract term for installation fees associated with customer contracts with terms that are longer than month-to-month, which may be a shorter period than the average customer life currently used, because the fee does not give rise to a material right as defined by ASU 2014-09. We expect that revenues will be recognized over the estimated average customer life for installation fees associated with month-to-month contracts, because the fee represents a material right. The impact of adopting ASU 2014-09 on our total service revenue and operating income is not expected to be material. Additionally, we will be required to capitalize certain contract acquisition costs, including commissions paid to our sales team and agents, and to amortize these

costs over the period the services are transferred to the customer for commission paid to our sales team and over the remaining contract term for agent commissions. We currently expense these contract acquisition costs as incurred.

In June 2016, the FASB issued ASU 2016-13, *Financial Instruments - Credit Losses: Measurement of Credit Losses on Financial Instruments*. This guidance is intended to introduce a revised approach to the recognition and measurement of credit losses, emphasizing an updated model based on expected losses rather than incurred losses. This new standard is effective for annual and interim reporting periods beginning after December 15, 2019 and early adoption is permitted. We are currently evaluating the impact that this guidance may have on our financial statements and related disclosures.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Management believes that as of June 30, 2017, there have been no material changes to our exposures to market risk from those disclosed in Item 7A - Quantitative and Qualitative Disclosures About Market Risk, of our annual report on Form 10-K for the year ended December 31, 2016.

ITEM 4. CONTROLS AND PROCEDURES.

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Table of Contents

As required by SEC Rule 13a-15(b), an evaluation was performed under the supervision and with the participation of our management, including our principal executive officer and our principal financial officer, of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report. Based upon that evaluation, our management, including our principal executive officer and our principal financial officer, concluded that our disclosure controls and procedures were effective at the reasonable assurance level as of the end of the period covered by this report.

There has been no change in our internal control over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are involved in legal proceedings in the ordinary course of our business that we do not expect to have a material impact on our operations or results of operations. Note 4 of our interim condensed consolidated financial statements includes information on these proceedings.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Our Board of Directors has authorized a plan to permit the repurchase of our common stock in negotiated and open market transactions through December 31, 2018. We may purchase shares from time to time depending on market, economic, and other factors. As of June 30, 2017 there was \$41.5 million remaining under the authorization.

The following table summarizes our common stock repurchases during the second quarter of 2017 made pursuant to this authorization. During the quarter, we did not purchase shares outside of this program, and all purchases were made by or on behalf of the Company and not by any affiliated purchaser (as defined by Rule 10b-18 of the Securities Exchange Act of 1934).

Issuer Purchases of Equity Securities

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs
April 1-30, 2017		\$		\$ 43,298,325
