Down To Business with John Standley Q4 Fiscal 2018 Results

Video Script Taped: 4/12/2018

Distributed to all Rite Aid Employees 4/12/2018

Hello everyone, and welcome to Down to Business. Today, I'd like to take some time to discuss our fourth-quarter and full-year results, and how we're building critical momentum in creating the new Rite Aid heading forward.

Edgar Filing: RITE AID CORP - Form 425

We made significant progress in many areas during the fourth quarter.

Our Retail Pharmacy Segment, which includes Rite Aid stores, delivered strong results with an increase in Adjusted EBITDA over the prior year. Our Pharmacy Services Segment, which includes EnvisionRxOptions, is off to a strong start in the new commercial selling season. And shortly after the quarter ended, we successfully completed our sale of more than 1,900 stores to Walgreens, which is delivering significant benefits to our organization.

However, our most significant development was that we entered into a definitive merger agreement with Albertsons to create a truly differentiated leader in food, health and wellness.

We're really excited about the merger. It makes sense for us strategically and financially the merger will transform Rite Aid by increasing geographic presence, adding new levers for growth, and solidifying our financial strength.

As a result, the merger has the potential to create compelling value for our customers and shareholders. Our board and management believes this merger is the best, value-enhancing alternative available for the company and our shareholders.

In terms of our results for the quarter, we have introduced a new metric called pro-forma Adjusted EBITDA from continuing operations. This metric takes our Adjusted EBITDA and adds the Walgreens TSA fees we would have earned if all the stores sold to Walgreens were being supported under the TSA for the entire respective period. It also adjusts for the extra week in fiscal 2017.

In the fourth quarter, our pro-forma Adjusted EBITDA from continuing operations was **\$173.2 million** compared to **\$180.8 million** in the prior-year period.

In terms of these results, a key highlight was the improvement of our Retail Pharmacy Segment Adjusted EBITDA compared to the prior year, which was due in large part to stronger gross margin and good expense control.

While Adjusted EBITDA in the Pharmacy Services Segment decreased primarily due to a decline in commercial business and changes in our Medicare Part D membership, we have already secured **200,000** new lives in our commercial and health plan businesses for the new selling season. We anticipate that this sales momentum will continue throughout the year. We've also seen strong growth in our Medicare Part D enrollment, with 188,000 new lives year over year as of January.

As a team, we've done a tremendous job of achieving stronger results during a very busy time. Throughout the quarter, we were transferring a majority of the **1,900** stores to WBA, and these cut overs went very well.

Thanks to these outstanding efforts, we have significantly reduced our debt and put Rite Aid in a much better financial position. As we begin our new fiscal year, we are generating significant momentum in key areas of our business.

Customers are responding positively to the introduction of wellness+ Rewards BonusCash, which has replaced the issuance of Plenti points and is now a key driver in our weekly promotional program.

We continue to focus on finding new ways to make our highly popular loyalty program even stronger.

Other highlights include:

- Positive results in our Wellness stores, which continue to outperform the rest of the chain.
- Improvement in our private brand, or own brand penetration, which represents a significant opportunity to drive profitability.
- Continued progress in engaging with payor partners, with all major contracts having been signed for fiscal 2019 and better predictability on reimbursement rates and access.
- Initial conversations to participate in additional Medicare Part D preferred networks and effectively manage our drug purchasing costs long term.
- And an increase in specialty pharmacy revenue for Envision, which grew **14 percent** in the fourth quarter compared to the same period last year.

In addition to all these areas of success, we had an excellent year with immunizations.

In fiscal 2018, we set an all-time company record for total immunizations with

4.4 million, and our go-forward stores administering more than **2.7 million**.

Great job team!

This is a big win, and we continue to be highly focused on promoting all of our immunizations like the new shingles vaccine.

Heading forward, it's also important to note we will fully cycle significant plan exclusions by the end of the second quarter and therefore expect same-store prescription counts to be stronger in the back half of the fiscal year.

With momentum building in critical areas, we have tremendous confidence in our strategy for the new Rite Aid.

At the same time, we are excited about the potential to accelerate this strategy by combining with Albertsons to create a leading food, health and wellness company.

We took an important step toward completing the merger with the recent expiration of the Hart-Scott-Rodino waiting period.

The merger remains subject to other customary closing conditions, including the approval of Rite Aid shareholders, and we will be setting a date and time for a special shareholder meeting in the coming months.

Subject to these approvals, we expect the merger to close in the early part of the second half of calendar 2018.

In addition, we are pleased to see the positive results that Albertsons released on April 11, which showed strong growth in comparable sales and Adjusted EBITDA for the fourth quarter.

As we look to make the most of this transformative opportunity, our most important priority is to continue working together in providing an outstanding Rite Aid Experience to our customers and fellow associates.

Fiscal 2018 was a year of significant change, and I could not be more proud of the great work you've done.

Edgar Filing: RITE AID CORP - Form 425

From an all-time record for immunizations and successfully completing the asset sale to implementing a new field leadership structure and delivering higher customer satisfaction, your dedication to delivering positive results has been nothing short of extraordinary.

Thank you for everything you're doing to deliver a higher level of care to our customers.

Together, we will continue to build even more momentum for the new Rite Aid.

Remember, behind every positive result, is a positive customer experience. Thanks for watching, and have a great day.

Reconciliation of Non-GAAP Financial Measures

The company separately reports financial results on the basis of Adjusted Net Income (Loss), Adjusted Net Income (Loss) per Diluted Share, Adjusted EBITDA and Pro-Forma Adjusted EBITDA which are non-GAAP financial measures. See the attached tables for a reconciliation of Adjusted Net Income (Loss), Adjusted Net Income (Loss) per Diluted Share, Adjusted EBITDA and Pro-Forma Adjusted EBITDA to net income (loss), and net income (loss) per diluted share, which are the most directly comparable GAAP financial measures. Adjusted Net Income (Loss) and Adjusted Net Income (Loss) per Diluted Share exclude amortization of EnvisionRx intangible assets, merger and acquisition-related costs, loss on debt retirements, LIFO adjustments, goodwill impairment and the Walgreens Boots Alliance, Inc. termination fee. Adjusted EBITDA is defined as net income (loss) excluding the impact of income taxes, interest expense, depreciation and amortization, LIFO adjustments, charges or credits for facility closing and impairment, goodwill impairment, inventory write-downs related to store closings, debt retirements, the Walgreens Boots Alliance, Inc. termination fee, and other items (including stock-based compensation expense, merger and acquisition-related costs, severance and costs related to distribution center closures, gain or loss on sale of assets and revenue deferrals related to our customer loyalty program).

The company's management team routinely evaluates how it measures the company's financial performance. In connection with such review, the company determined that it would be beneficial to investors to reflect what the company's financial results would have been had it received all of the fees that it would have earned pursuant to the TSA Agreement with WBA for the relevant period. As a result, the company hereby introduces the non-GAAP financial measure Pro Forma Adjusted EBITDA which is defined as Adjusted EBITDA plus the fees that would have been earned under the TSA, and in order to improve comparability, Pro Forma Adjusted EBITDA further adjusts results so that periods contain the same number of weeks.
