(i) Caution Regarding Projections: Projections used in this release are considered forward-looking statements. See cautionary statement above regarding forward-looking statements. Forward-looking information representing post-closing expectations is inherently uncertain. Estimates such as expected accretion, NAV, Net Present Value creation, synergies, expected future production, IRR, financial flexibility and balance sheet strength are preliminary in nature. There can be no assurance that the proposed transaction will close or that the forward-looking information will prove to be accurate.

(ii) Net Present Value (NPV) creation as used in this release is a management estimate provided for illustrative purposes, and should not be considered a GAAP or non-GAAP financial measure. NPV creation represents management's combined estimate of pre-tax synergies, supply chain efficiencies and Full Potential improvements, as a result of the proposed transaction that have been monetized and projected over a twenty year period for purposes of the estimation, applying a discount rate of 5 percent. Such estimates are necessarily imprecise and are based on numerous judgments and assumptions. Expected NPV creation is a forward-looking statement subject to risks, uncertainties and other factors which could cause actual value creation to differ from expected value creation.

Investors are cautioned that such statements with respect to future dividends are non-binding. The declaration and payment of future dividends remain at the discretion of the Board of Directors and will be determined based on Newmont's financial results, balance sheet strength, cash and liquidity requirements, future prospects, gold and commodity prices, and other factors deemed relevant by the Board. The Board of Directors reserves all powers related to the declaration and payment of dividends. Consequently, in determining the dividend to be declared and paid on the common stock of the Company, the Board of Directors may revise or terminate the payment level at any time without prior notice. As a result, investors should not place undue reliance on such statements.
