Notes to Condensed Consolidated Financial Statements

1. General

Basis of Reporting

The interim accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles ("GAAP") for interim financial information and with the instructions to Form 10-QSB. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal, recurring accruals) considered necessary for a fair presentation have been included. For further information, management suggests that the reader refer to the audited financial statements for the year ended December 31, 2004 included in its Annual Report on Form 10-KSB. Operating results for the nine-month period ended September 30, 2005 are not necessarily indicative of the results of operations that may be expected for the year ending December 31, 2005.

Cash And Cash Equivalents

The Company considers all highly liquid investments with original maturities of three months or less to be cash equivalents.

Nature of Operations

Meridian Holdings, Inc. (the "Company") was incorporated under the laws of the State of Colorado on October 13, 1998. The Company is located in Culver City, California, U.S.A. and contracts with physicians to provide healthcare services

Edgar Filing: MERIDIAN HOLDINGS INC - Form 10QSB

primarily within the area of Los Angeles County.

The Company is an acquisition-oriented holding company focused on building, operating, and managing a portfolio of business-to-business companies. It seeks to acquire majority or controlling interests in companies engaged in e-commerce, e-communication, and e-business services, which will allow the holding company to actively participate in management, operations, and finances. 2. Investments

CGI

On December 10, 1999, the Company agreed to acquire a 20% equity interest in CGI for common stock. On December 20, 1999, the board of directors authorized the issuance of 4,000,000 pre-split (adjusted to 12,000,000 post-split) shares of common stock in consideration for the 20% of the interest in CGI. At the date of the transaction, the Company's shares opened at a price of \$3 per share. Between September 1, 1999 and the acquisition date, the Company's stock sold within a range of \$.25 to \$3.25 per share (an average of \$.97 per share). Because of the limited trading history of the Company, the six-month average was deemed to be a fair valuation of the transaction, resulting in a total investment balance of \$3,880,000 as of December 31, 2000 and 1999. The shareholders of CGI were also issued warrants to purchase an additional 1,000,000 pre-split (adjusted to 3,000,000 post-split) shares of common stock at \$2 pre-split share (or approximately \$0.67 on a post-split basis) over a five-year period as a hedge against any fluctuation of the share price of the common stock in the immediate future. These warrants will expire on December 30, 2004.

On September 2, 2005, Meridian Holdings, Inc, announced that pursuant to the written consent of the board of directors of both Meridian Holdings, Inc, and CGI Communications Services, Inc., (OTC: CGIC) dated August 24, 2005, in which

SELECTED FINANCIAL DATA

The Company had net working capital of \$ 1,905,551 as at September 30, 2005 compared to \$ 1,009,341 as of December 30, 2004. This represents an increase in working capital of 53%. This increase in working capital is due to increase in account receivable, net allowance for doubtful accounts, as well as decrease in current liabilities.

The selected financial data set forth above should be read in conjunction with "Management's Discussion and Analysis of Financial Condition and Results of Operations" and the consolidated financial statements and notes thereto.

Item 2 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS:

The following section contains forward-looking statements that involve risks and uncertainties, including those referring to the period of time the Company's existing capital resources will meet the Company's future capital needs, the Company's future operating results, the market acceptance of the services of the Company, the Company's efforts to develop new products and services, and the Company's planned investment in the marketing of its current services and research and development with regard to future endeavors. The Company's actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including: domestic and global economic patterns and trends.

LIQUIDITY AND CAPITAL RESOURCES OF THE COMPANY.

We believe that we will be able to fund our capital commitments, operating cash requirements and satisfy our obligations as they become due from a combination of cash on hand, restricted cash as they become available, and expected operating cash flow improvements through HMO premium increases as well as royalties from software licensing.

However, there can be no assurances that these sources of funds will be sufficient to fund our operations and satisfy our obligations as they become due.

Long-term cash requirements, other than normal operating expenses, are anticipated for the continued development of the Company's business plans. The Company will need to raise additional funds from investors in order to complete these business plans.

If we need additional capital to fund our operations, there can be no assurance that such additional capital can be obtained or, if obtained, that it will be on terms acceptable to us. The incurring or assumption of additional indebtedness could result in the issuance of additional equity and/or debt which

9

could have a dilutive effect on current shareholders and a significant effect on our operations.

RESULTS OF OPERATIONS

THE FINANCIAL RESULTS DISCUSSED BELOW RELATE TO THE OPERATION OF MERIDIAN HOLDINGS FOR THE THREE MONTHS ENDED AND NINE MONTHS ENDED SEPTEMBER 30, 2005 AS COMPARED TO THE THREE MONTHS ENDED AND NINE MONTHS ENDED SEPTEMBER 30, 2004.

REVENUE

Edgar Filing: MERIDIAN HOLDINGS INC - Form 10QSB

Medical services revenues decreased by 2% from \$457,663 for the three months ended September 30, 2004 to \$ 444,310 for the three months ended September 30, 2005, and increased by 1.6% from \$1,477,123 for the nine months ended September 30, 2004 to \$1,501,079 for the nine months ended September 30, 2005. The increase in revenue for the nine months ended September 2005, is due to increase in fee for service revenue.

Risk pool revenue for the three months ended September 30, 2004 was \$50,986, a decrease of 55% compared to \$113,099 for the same period in 2004. For the nine months ended September 30, 2005, risk pool revenue was \$230,644, a decrease of 46 % compared to \$ 429,932 for the nine month ended September 30, 2004. The decrease in risk pool revenue for the three and nine months ended September 2005 was due to decrease in membership enrolment, with concomitant increase in claims expense, non renewal of Hospital Contract between the County of Los Angeles Department of Health Services Community Health Plan (CHP) and Tenet Health Systems.

Capitation revenues from our CHP contract decreased by 81% from \$290,495 for the three months ended September 30, 2004 to \$ 54,646 for the three months ended September 30, 2005, and by 61% from \$ 991,316 for the nine months ended September 30, 2004 to \$ 384,125 for the nine months ended September 30, 2005. The decrease in capitation revenue was due in part to the termination of some of our Managed care contracts with CHP, delay in procuring a replacement contracts for the new hospital owners, dis-enrollment of members, and increased withholding of our capitation fees by CHP. Management is pursuing all its available options to mitigate further losses, including but not limited to procuring new manage care contracts, expansion of our primary care physician network into adjoining counties in Southern California. There can be no guarantee that these efforts will be successful in reversing these losses.

Fee for Service Revenue, increased by 84% to \$338,678 for three months ended September 30, 2005, as compared to \$54,070 for comparable period in 2004. For nine months ended September 30, 2005, fee for service revenue increased by 33% to \$886,290, as compared to \$55,875, during the comparable period in 2004. This receivable relates principally, to medical services provided on a fee-for-service basis, and are reduced by amounts estimated to be uncollectible. These receivables are typically uncollateralized customer obligations due under normal trade terms requiring payment within 30-90 days from the invoice date. The Company does not charge late fees or penalties on delinquent invoices, however it continually evaluates the need for a valuation allowance. Management's estimate of uncollectible amounts is based upon its analysis of historical collections and other qualitative factors.

Of the \$444,310 total medical services revenue generated for the three months ended September 30, 2005, \$338,678 was from the fee for service component, and \$105,632 was from capitated managed care contract.

The increase in fee for Service revenue from \$54,070 during the quarter ended September 30, 2004 to current amount of \$338,678 for the comparable period ended September 30, 2005 is as a result of the recent acquisition of two large clinics from Centinela Medical Center Clinics, Inc., as of January 1, 2005. These clinic facilities provides a wide array of medical and diagnostic services to the patient population they serve.

11

With regard to revenues, expenses and receivables arising from global risk agreements with CHP and TENET, the Company estimates amounts it believes will ultimately be realizable based in part upon estimates of claims incurred but not reported (IBNR) and estimates of retroactive adjustments or unsettled costs to be applied by CHP and/or Cap Management Systems. The IBNR estimates

Edgar Filing: MERIDIAN HOLDINGS INC - Form 10QSB

are made by CAP-Management Systems, utilizing actuarial methods and are continually evaluated by management of the Company based upon its specific claims experience. It is reasonably possible that some or all of these estimates could change in the near term by an amount that could be material to the financial statements.

EXPENSES

Total expenses decreased by 24% from \$466,116 for the three months ended September 30, 2004 to \$352,814 during comparable period in 2005.

For nine months ended September 30, 2005, the total expense decreased by 17%, to \$1,073,263 from \$1,287,738 during comparable period in 2004.

This decrease in total expense was due to decrease in enrolment in the membership in our capitated contract, out sourcing of some of the services previously performed in-house, as well as lay-off of employees to reduce cost.

Of the \$1,073,263 total expense for the nine month period ended September 30, 2005, general and administrative expense were \$789,145 or 74% of total expenses, as opposed to \$758,746 or 59% of the total expenses for the comparable period in 2004. Cost of revenue decreased by 46% from \$528,989 for the nine months ended in September 30, 2004 to \$284,117, for the same reasons as stated above.

INCOME/LOSS FROM OPERATIONS

For the quarter ended September 30, 2005, the Company recorded a net income of \$78,358, compared to a net loss of \$(150,241) in comparable period in 2004.

For the nine months ended September 30, 2005, the company reported a net income of \$126,781, compared to a net loss of \$(849,946) for comparable period in 2004.

The increase in net income is due to increase in fee for service revenue, decrease in operating expense due to cost cutting measures implemented by management.

CERTAIN FACTORS AFFECTING FUTURE OPERATING RESULTS

This Form 10-QSB contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. When used in this Form 10-Q, the words "believe," "anticipate," "think," "intend," "plan," "will be," and similar expressions, identify such forward-looking statements. Such statements regarding future events and/or the future financial performance of our Company are subject to certain risks and uncertainties, which could cause actual events or our actual future results to differ materially from any forward-looking statement. Certain factors that might cause such a difference are set forth in our Form 10-K for the period ended December 31, 2004, including the following: our success or failure in implementing our current business and operational strategies; the availability, terms and access to capital and customary trade credit; general economic and business conditions; competition; changes in our business strategy; availability, location and terms of new business development; availability and terms of necessary or desirable financing or refinancing; labor relations; the outcome of pending or yet-to-be instituted legal proceedings; and labor and employee benefit costs.

Edgar Filing: MERIDIAN HOLDINGS INC - Form 10QSB

PLAN OF OPERATIONS

The Company continues to aggressively expand its provider network, as well as seek for other managed care and PPO contracts for its contracted providers. We plan to expand our provider network to Riverside, San Bernardino, Orange and greater Los Angeles, County, with the hope of increasing our membership enrollment. Also, the company is aggressively seeking for more managed care contracts in the four counties targeted for proposed network expansion. There can be no assurance that this plan of network expansion will yield immediate dividend.

The Company has initiated a community outreach program targeting Medicare eligible members about the Medicare Prescription Drug Program.

Passed by Congress and signed into law by President Bush on December 8, 2003, the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (MMA), made sweeping changes to the Medicare program including the creation of Part D, the prescription drug coverage program that will be available beginning January 1, 2006. CMS noted in its September 23, 2005 press release, "People with Medicare will be able to get prescription drug coverage in January, through their choice of either a newly approved stand-alone prescription drug plan that works with traditional Medicare, or a Medicare Advantage plan that offers drug coverage and other benefits. We hope that by promoting this program to the communities we serve, we will be able to enroll patients into our provider network, while proving our patient population timely information regarding their healthcare needs.

Evaluation of Disclosure Controls and Procedures

As required by Rule 13a-15 under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), the Company carried out an evaluation under the Supervision and with the participation of the Company's management, including the Chief Executive Officer and President and the Principal Financial Officer, of the effectiveness of the Company's disclosure controls and procedures as of September 30, 2005. In designing and evaluating the Company's disclosure controls and procedures, the Company and its management recognize that there are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their desired control objectives. Additionally, in evaluating and implementing possible controls and procedures, the Company's management was required to apply its reasonable judgment. Based upon the required evaluation, the Management concluded that as of September 30, 2005, the Company's disclosure controls and procedures were effective (at the "reasonable assurance" level mentioned above) to ensure that information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is recorded,
