**CPR PRODUCES SOLID EARNINGS RESULTS IN THIRD-QUARTER 2005
AS WESTERN CAPACITY EXPANSION NEARS COMPLETION**

CALGARY Canadian Pacific Railway (TSX/NYSE: CP) reported net income increased 15 per cent to \$204 million, or \$1.27 per diluted share in the third quarter of 2005, compared with \$177 million, or \$1.11 per diluted share in the same period of 2004.

SUMMARY OF 3RD QUARTER 2005 COMPARED WITH 3RD QUARTER 2004

Excluding foreign exchange gains on long-term debt and other specified items:

Diluted earnings per share grew 29 per cent to \$0.84 from \$0.65, driven largely by improved yield

Operating income grew 14 per cent to \$249 million

Operating ratio improved 50 basis points to 77.4 per cent

Rob Ritchie, President and Chief Executive Officer of CPR, said: CPR's ability to execute our integrated operating plan was tested under conditions of high demand for service and limitations caused by track work to expand capacity in the west during the quarter. We met service commitments to customers and handled a third-quarter record workload while keeping the expansion on schedule and on budget.

The combination of good service and tight capacity in a high-demand marketplace continued to generate a positive yield environment. We capitalized on this through CPR's quality revenue growth strategy, producing a 12 per cent increase in revenue per carload.

CPR is confident in our full-year projections going into the home stretch of 2005. Market conditions are solid and demand remains strong, Mr. Ritchie said. We also expect to see improved operating efficiency when our western expansion work is complete in the fourth quarter and CPR can take advantage of the new double track, longer sidings and better signal systems.

Revenue increased to \$1,105 million, a third-quarter record, from \$990 million in third-quarter 2004. There were double-digit growth rates in four of CPR's business lines, led by coal at 35 per cent and intermodal at 13 per cent.

Operating expenses before other specified items were \$855 million in third-quarter 2005, compared with \$771 million in the same period of 2004. The increase was mainly due to higher fuel and compensation and benefits costs. Fuel prices reached record highs, however, CPR recovered almost all of the increase through revenue from its surcharge mechanism, as well as hedging and fuel efficiency measures. A rapid appreciation in CPR's share price drove up stock-based incentive compensation, a large portion of which is marked to market and accounts for almost half of the increase in compensation and benefits costs.

SUMMARY OF 1ST 9 MONTHS 2005 COMPARED WITH 1ST 9 MONTHS 2004

Net income up 44 per cent to \$408 million, or \$2.54 per diluted share, compared with \$284 million, or \$1.79 per diluted share

Excluding foreign exchange gains on long-term debt and other specified items, income grew 47 per cent to \$360 million, or \$2.24 per diluted share from \$245 million, or \$1.54 per diluted share

Excluding other specified items, operating income increased 26 per cent to \$699 million

Revenue was \$3,225 million, compared with \$2,881 million, with growth in five of seven business lines

Operating expenses excluding other specified items were \$2,526 million, compared with \$2,326 million, with more than half the increase due to higher fuel prices

Operating ratio improved by 240 basis points to 78.3 per cent

OUTLOOK FOR FULL-YEAR 2005

CPR expects to increase revenue in the range of 12 per cent to 14 per cent in 2005. Diluted earnings per share, excluding foreign exchange gains and losses on long-term debt and other specified items, are expected to be in the range of \$3.15 to \$3.25, assuming oil prices averaging US\$55 per barrel and an average exchange rate of \$1.23 per U.S. dollar (US\$0.81) for the full year.

FOREIGN EXCHANGE GAINS AND LOSSES ON LONG-TERM DEBT AND OTHER SPECIFIED ITEMS

In the third quarter of 2005, CPR had a foreign exchange gain on long-term debt of \$65 million (\$48 million after tax), compared with a gain of \$71 million (\$73 million after tax) in the same period of 2004. There was one other specified item in third-quarter 2005, as CPR booked a reduction of \$34 million (\$21 million after tax) to an accrual taken in fourth-quarter 2004 for environmental remediation of a property in the United States. The reduction reflected a settlement of litigation related to remediation of environmental contamination. There were no other specified items in the third quarter of 2004.

In the first nine months of 2005, CPR had a foreign exchange gain on long-term debt of \$45 million (\$27 million after tax), compared with a gain of \$37 million (\$39 million after tax) in the same period of 2004. Other specified items consisted of the \$34-million (\$21 million after tax) reduction to the accrual for environmental remediation of the property in the U.S. There were no other specified items in the first nine months of 2004.

Presentation of non-GAAP earnings

CPR presents non-GAAP earnings in this news release to provide a basis for evaluating underlying earnings trends in our business that can be compared with prior periods' results of operations. These non-GAAP earnings exclude foreign currency translation effects on long-term debt, which can be volatile and short term, and other specified items, which are not among CPR's normal ongoing revenues and operating expenses. The impact of volatile short-term rate fluctuations on foreign-denominated debt is only realized when long-term debt matures or is settled. A reconciliation of income, excluding foreign exchange gains on long-term debt and other specified items, to net income as presented in the financial statements is detailed in the attached Summary of Rail Data.

Earnings that exclude foreign exchange currency translation effects on long-term debt and other specified items, as described in this news release, have no standardized meanings and are not defined by Canadian generally accepted accounting principles and, therefore, are unlikely to be comparable to similar measures presented by other companies.

Note on forward-looking information

This news release contains forward-looking information. Actual future results may differ materially. The risks, uncertainties and other factors that could influence actual results are described in CPR's annual report and annual information form, and may be updated in CPR's consolidated interim financial statements and interim Management's Discussion and Analysis, which are filed with securities regulators from time to time. However, CPR undertakes no obligation to update publicly or otherwise revise any forward-looking information, whether as a result of new information, future events, or otherwise. Financial results in this news release are reported in Canadian dollars. Canadian Pacific Railway is a transcontinental carrier operating in Canada and the U.S. Its 14,000-mile rail network serves the principal centres of Canada, from Montreal to Vancouver, and the U.S. Northeast and Midwest regions. CPR feeds directly into America's heartland from the East and West coasts. Alliances with other carriers extend its market reach throughout the U.S. and into Mexico. NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS**SEPTEMBER 30, 2005***(unaudited)***1 Basis of presentation**

These unaudited interim consolidated financial statements and notes have been prepared using accounting policies that are consistent with the policies used in preparing Canadian Pacific Railway Limited's (CPR, the Company or Canadian Pacific Railway) 2004 annual consolidated financial statements. They do not include all disclosures required under Generally Accepted Accounting Principles for annual financial statements and should be read in conjunction with the annual consolidated financial statements.

2 Change in accounting estimate

During the first half of the year, the Company recorded a \$23.4-million adjustment to increase revenues related to the April 1-to-December 31 period of 2004. This adjustment reflects a change in estimate as a result of a contract settlement with a customer.

3 Special charge (reduction) for environmental remediation

In the third quarter, a settlement agreement was reached with a responsible party in relation to portions of past environmental contamination at a CPR-owned property in the U.S. As a result, CPR was able to reduce accrued liabilities related to the property, and recognized a total reduction of \$33.9 million to a special charge for environmental remediation recorded in 2004.

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS**SEPTEMBER 30, 2005***(unaudited)***6 Earnings per share**

At September 30, 2005, the number of shares outstanding was 157.3 million (September 30, 2004 158.7 million).

Basic earnings per share have been calculated using net income for the period divided by the weighted average number of CPR shares outstanding during the period.

Diluted earnings per share have been calculated using the treasury stock method, which gives effect to the dilutive value of outstanding options.

The number of shares used in earnings per share calculations is reconciled as follows:

(in millions)	For the three months		For the nine months	
	ended September 30		ended September 30	
	2005	2004	2005	2004
Weighted average shares outstanding	158.1	158.7	158.6	158.7
Dilutive effect of stock options	1.9	0.3	1.7	0.3
Weighted average diluted shares outstanding	160.0	159.0	160.3	159.0
(in dollars)				
Basic earnings per share	\$ 1.29	\$ 1.11	\$ 2.57	\$ 1.79
Diluted earnings per share	\$ 1.27	\$ 1.11	\$ 2.54	\$ 1.79

For the quarter ended September 30, 2005, no options (quarter ended September 30, 2004 102,217 options) were excluded from the computation of diluted earnings per share because their effects were not dilutive. For the nine months ended September 30, 2005, no options (nine months ended September 30, 2004 843,907 options) were excluded from the computation of diluted earnings per share because their effects were not dilutive.

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS**SEPTEMBER 30, 2005***(unaudited)***7 Restructuring and environmental remediation**

At September 30, 2005, the provision for restructuring and environmental remediation was \$379.4 million (December 31, 2004 \$448.7 million). The restructuring provision primarily includes labour liabilities for restructuring plans. Payments are expected to continue in diminishing amounts until 2025. The environmental remediation liability includes the cost of a multi-year soil remediation program for various sites.

Set out below is a reconciliation of CPR's liabilities associated with restructuring and environmental remediation programs:

Total restructuring and environmental remediation liability	\$ 429.9	(29.9)	(16.3)	3.3	(7.6)	\$ 379.4

⁽¹⁾ In the third quarter, CPR established new restructuring initiatives to be completed by 2007 to reduce labour costs, primarily in administrative areas. These initiatives required the recording of a new provision of \$7.4 million. In addition, a reduction of \$7.2 million of previously accrued initiatives was recorded due to experience gains occurring in the third quarter. The adjustment to the environmental remediation program is largely due to a settlement agreement reached with another responsible party during the quarter (see Note 3).

In May 2005, the Company completed the necessary filings for a normal course issuer bid to purchase, for cancellation, up to 2.5 million of its outstanding Common Shares, representing 1.6% of the approximately 159.0 million Common Shares outstanding just prior to the filing date. Share purchases may be made during the 12-month period beginning June 6, 2005, and ending June 5, 2006. The purchases are made at the market price on the day of purchase, with consideration allocated to share capital, up to the average carrying amount of the shares, and any excess allocated to contributed surplus. When shares are repurchased, it takes three days before the transaction is settled and the shares are cancelled. The cost of shares purchased in a given month and settled in the following month is accrued in the month of purchase. During the third quarter, 1,329,000 shares were purchased at an average price of \$46.49 (year-to-date, 1,761,000 shares have been repurchased at an average price of \$45.77).

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS**SEPTEMBER 30, 2005***(unaudited)***9 Stock-based compensation**

In 2005, under CPR's stock option plans, the Company issued 1,548,400 options to purchase Common Shares at the weighted average price of \$42.05 per share, based on the closing price on the day prior to the grant date. In tandem with these options, 508,200 stock appreciation rights were issued at the weighted average exercise price of \$42.05.

Pursuant to the employee plan, options may be exercised upon vesting, which is between 24 months and 36 months after the grant date, and will expire after 10 years. Some options vest after 48 months, unless certain performance targets are achieved, in which case vesting is accelerated. These options expire five years after the grant date.

The following is a summary of the Company's fixed stock option plans as of September 30 (including options granted under the Directors' Stock Option Plan, which was suspended in 2003):

	2005		2004	
	Number of options	Weighted average exercise price	Number of options	Weighted average exercise price

Options exercisable at September 30	2,033,516	\$ 27.25	1,284,619	\$ 24.35

Compensation expense is recognized over the vesting period for stock options issued since January 1, 2003, based on their estimated fair values on the date of grants, as determined by the Black-Scholes option pricing model. Had CPR used the fair value method for options granted between January 1, 2002, and December 31, 2002, CPR's pro forma basis net income and earnings per share would have been as follows:

		For the three months ended September 30		For the nine months ended September 30

Under the fair value method, the fair value of options at the grant date is \$10.0 million for options issued in the first nine months of 2005 (first nine months of 2004 \$9.5 million). The weighted average fair value assumptions were approximately:

	For the nine months ended September 30	
	2005	2004
Expected option life (years)	4.50	4.50
Risk-free interest rate	3.49%	3.36%

Expected annual dividends per share	\$ 0.53	\$ 0.50
Weighted average fair value of options granted during the year	\$ 9.65	\$ 8.04

10 Pensions and other benefits

The total benefit cost for the Company's defined benefit pension plans, defined contribution pension plans and post-retirement benefits for the quarter ended September 30, 2005, was \$21.0 million (quarter ended September 30, 2004 \$14.3 million) and for the nine months ended September 30, 2005, was \$62.4 million (nine months ended September 30, 2004 \$53.4 million).

11 Significant customers

During the first nine months of 2005, one customer comprised 14.8% of total revenue (first nine months of 2004 11.4%). At September 30, 2005, one customer represented 7.6% of total accounts receivable (September 30, 2004 8.1%).

NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS

SEPTEMBER 30, 2005

(unaudited)

12 Commitments and contingencies

In the normal course of its operations, the Company becomes involved in various legal actions, including claims relating to injuries and damages to property. The Company maintains provisions it considers to be adequate for such actions. While the final outcome with respect to actions outstanding or pending at September 30, 2005, cannot be predicted with certainty, it is the opinion of management that their resolution will not have a material adverse effect on the Company's financial position or results of operations.

Capital commitments

At September 30, 2005, CPR had multi-year capital commitments of \$693.4 million, mainly for locomotive overhaul agreements, in the form of signed contracts. Payments for these commitments are due in 2005 through 2016.

Operating lease commitments

At September 30, 2005, minimum payments under operating leases were estimated at \$588.7 million in aggregate, with annual payments in each of the next five years of: remainder of 2005 \$38.6 million; 2006 \$136.4 million; 2007 \$98.3 million; 2008 \$71.6 million; 2009 \$46.9 million.

Guarantees

The Company had residual value guarantees on operating lease commitments of \$221.6 million at September 30, 2005. The maximum amount that could be payable under these and all of the Company's other guarantees cannot be reasonably estimated due to the nature of certain of the guarantees. All or a portion of amounts paid under certain guarantees could be recoverable from other parties or through insurance. The Company has accrued for all guarantees that it expects to pay. At September 30, 2005, these accruals, which do not include any amounts for residual value guarantees, amounted to \$9.3 million.
