Report of independent public accountants

To the Trustee of
Black Hills Corporation Retirement Savings Plan:

We have audited the accompanying statements of net assets available for benefits of the Black Hills Corporation Retirement Savings Plan as of December 31, 2001 and 2000, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements and the supplemental schedules referred to below are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements and supplemental schedules based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and supplemental schedules are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and supplemental schedules. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Black Hills Corporation Retirement Savings Plan as of December 31, 2001 and 2000, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of assets held for investment purposes and nonexempt transactions are presented for purposes of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

3

BLACK HILLS CORPORATION RETIREMENT SAVINGS PLAN

Notes to financial statements

December 31, 2001 and 2000

1 Description of the Plan

The following is not a comprehensive description of the Plan and, therefore, does not include all situations and limitations covered by the Plan. Participants should refer to the plan agreement for more complete information.

General

The Black Hills Corporation Retirement Savings Plan (the Plan) is a defined contribution plan for eligible employees of Black Hills Corporation and certain subsidiary companies of Black Hills Corporation (the Company). The eligible employees may have a percentage of their compensation withheld and contributed to the Plan, subject to limitations, as defined. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 and is designed to comply with the provisions of Section 401(k) of the Internal Revenue Code (the Code).

Merrill Lynch serves as the asset custodian and record keeper. The Plan is administered by the Black Hills Corporation Benefits Committee (the Committee). The Committee is the trustee of the Plan.

Plan expenses

Administrative fees of approximately \$51,700 and \$60,800 were paid by the Company in 2001 and 2000.

Eligibility and vesting

Employees are eligible to participate in the Plan on the first day of employment.

Participants are immediately vested in the value of their pretax salary reduction contributions. Participants vest 20 percent per year in employer matching contributions until reaching five years of service. At that time, participants are 100 percent vested in employer matching contributions. Participants also become fully vested in employer matching contributions if their employment with the Company is terminated due to retirement at or after attainment of age 65, total and permanent disability, or death.

Edgar Filing: BLACK HILLS CORP /SD/ - Form 11-K

Forfeitures from participant's who have terminated from the Plan prior to attaining 100 percent vesting rights are used to reduce the Company's annual matching contributions.

Contributions

The maximum percentage of compensation an employee may contribute to the Plan is 20 percent, with an annual maximum contribution of \$10,500, as provided by the Code. There is no limit to the number of times participants may change their contribution percentages. Amounts contributed are invested at the discretion of plan participants in any of the 28 investment options or individual investments as directed by the participant.

Effective January 1, 2000 (May 1, 2000 for employees covered by a collective bargaining agreement), the Plan was amended to include a discretionary dollar-for-dollar Company matching contribution, up to a maximum of 3 percent of an individual participant's compensation.

Rollover contributions

The Plan received \$382,579 and \$2,102,946 in rollover transfers from other qualified plans in 2001 and 2000, respectively, which are included in participant contributions on the statements of changes in net assets available for benefits. In 2000 approximately \$1.7 million of the rollover transfers came from participants who were formerly employed by Indeck Capital, Inc., which was merged into Black Hills Energy Capital, Inc in 2000.

4

Participant loans

The Plan contains a loan provision which allows participants to borrow up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balances at an interest rate of 1 percent over the prime interest rate and to repay the loan through payroll deductions, with a maximum repayment period of five years. During 2001 and 2000, interest rates on outstanding participant loans ranged from 5.75 percent to 10.50 percent and from 8.75 percent to 10.50 percent. Loans are prohibited for terminated employees.

Distributions to participants

Employee account balances are distributable upon retirement, disability, death, termination from the Company or hardship. Upon the occurrence of one of these events, a participant (or the participant's beneficiary in the case of death) may receive his or her account balance as a lump-sum payment or installment payments over a period of no more than 10 years.

Amendments and termination

The Company reserves the right to amend or terminate the Plan at any time. Upon termination of the Plan participants become 100 percent vested, and all assets will be distributed among the participants in accordance with plan provisions.

2 Summary of significant accounting policies

Basis of accounting

Edgar Filing: BLACK HILLS CORP /SD/ - Form 11-K

The accompanying financial statements have been prepared using the accrual basis of accounting.

Investment valuation and income recognition

Investments of the Plan are stated at fair value. Shares of registered investment companies are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Realized gains and losses on sales of investments represent the difference between the net proceeds from the sale of investments and their historical cost. Unrealized appreciation or depreciation of investments represents changes in the market value of investments.

Purchases and sales of securities are reflected on a trade-date basis. Interest income is recognized when earned. Dividend income is recorded on the ex-dividend date.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the reported amount of changes in net assets available for benefits during the reporting period. Ultimate results could differ from those estimates.

Reclassification

Certain 2000 amounts have been reclassified to conform to the 2001 presentation. These reclassifications had no effect on net assets available for benefits or the net increase in net assets available for benefits as previously reported.

3 Investments

The investment options of the Plan at December 31, 2001 include collective trusts of Merrill Lynch, mutual funds, common stock of the Company and other investments as self-directed by participants. Units (shares) of the various investment funds are valued daily at net asset value (which equals market value). The investment options are participant directed and participants may change their investment elections daily.

5

The following presents investments that represent 5 percent or more of the Plan's net assets as of December 31:

	2001	2000
	----	----
Merrill Lynch Retirement Preservation Trust	\$ 4,136,646	\$ 3,173,244
Merrill Lynch Equity Index Trust 1	3,865,916	4,444,205
Managers International Equity Fund	1,865,202	2,490,145
Merrill Lynch Growth Fund	*	2,103,703
Davis New York Venture Fund	1,898,412	1,588,978
Black Hills Corporation common stock	9,044,297	11,958,351

*Under 5 percent.

Edgar Filing: BLACK HILLS CORP /SD/ - Form 11-K

4 Tax status

The Plan obtained its latest determination letter on October 9, 2001, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Code. The Plan has been amended since receiving the determination letter; however, the plan administrator and the Plan's legal counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code.

5 Party-in-interest transactions

The Plan invests in Merrill Lynch funds and Black Hills Corporation stock. These transactions qualify as exempt party-in-interest transactions.

6 Risks and uncertainties

The Plan provides for investment in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
