REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Plan Administrator and Participants of the
Western Industries Retirement Savings Plan

We have audited the accompanying statements of net assets available for benefits of **Western Industries Retirement Savings Plan** (the Plan) as of December 31, 2008 and 2007, and the related statement of changes in net assets available for benefits for the year ended December 31, 2008. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan s internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2008 and 2007, and the changes in its net assets available for benefits for the year ended December 31, 2008, in conformity with accounting principles generally accepted in the United States.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets held for investment purposes as of December 31, 2008 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan s management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Western Industries Retirement Savings Plan

Notes to Financial Statements

As of December 31, 2008 and 2007

1. DESCRIPTION OF PLAN

The following description of the Western Industries Retirement Savings Plan (the Plan) is provided for general information purposes. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering eligible employees of Western Industries - North, Inc. (the Company and the Plan Sponsor) and Western Industries - South, Inc. Rollins, Inc. is the Company's parent. The Plan was restated effective January 1, 2003, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective April 1, 2007, the Plan was amended to grant the Plan administrator discretion to provide for transfer to and from defined contribution plans maintained by related companies. This provision is intended primarily to facilitate the periodic of transfers to and from the Rollins 401(k) Plan (Rollins Plan), without requiring participant elections, but may also apply to other 401(k) plans acquired in other acquisitions.

Effective January 1, 2009, the Plan was amended to designate the Plan investment fund invested primarily in Rollins, Inc. common stock as an employee stock ownership plan within the meaning of Section 4975(e)(7) of the Internal Revenue Code (the Code). Effective January 1, 2009, the Administrative Committee may allow participants to elect to receive dividends on Rollins, Inc. common stock or to have such dividends paid to the Plan and reinvested in Rollins, Inc. common stock. Also, effective January 1, 2009, participants may exercise voting, tendering and similar rights with respect to shares of Rollins, Inc. common stock held in their accounts under the Plan.

Eligibility

Employees are eligible to participate in the Plan following completion of three months of service for fulltime employees and one year of service in which at least 1,000 hours of work was completed for non-fulltime employees.

Notes to Financial Statements

As of December 31, 2008 and 2007

Contributions

Eligible employees are automatically enrolled in the Plan, and pre-tax contributions are withheld at 3% of eligible compensation, unless the employee elects differently. Participants may elect to contribute up to 75% of eligible compensation as defined by the Plan, subject to a maximum of \$15,500 in 2008. Participants age 50 or older may also make additional "catch-up" contributions limited to \$5,000 in 2008. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). The Company matches each participant's contribution equal to \$0.50 for each \$1.00 contributed limited to the first 3% of the participant's compensation. The Company match is contributed to employees each pay period.

Discretionary contributions made by the Company under a profit sharing program are determined at the end of the year by the Company's Board of Directors. Participants whose compensation is in excess of the Social Security taxable wage base receive an allocation equal to the greater of 5.7% or a percentage equal to the Social Security contribution rate in effect at the beginning of the Plan year of such excess compensation. The contributions remaining after making the allocation, if any, are allocated to all eligible participants based on the ratio of a participant's compensation to the total compensation of all eligible participants, provided the participant has completed 1,000 hours of service during the Plan year and is an employee on the last day of the Plan year. No discretionary profit sharing contributions were made in 2008.

Additional discretionary Company contributions are determined at the end of the year by the Company's Board of Directors. The Company can elect to provide an additional discretionary contribution up to three percent of a participant's compensation. To be eligible for the additional discretionary contribution the participant must be actively employed on the last day of the Plan's year and have completed 1,000 hours of service during the Plan year. An additional discretionary contribution of \$891,305 was made for 2008.

Participant Accounts

Each participant's account is credited with the participant's contributions, rollovers, the Company's contribution and earnings on the investments in their account and is charged with specific transaction fees. Participants direct the investment of their contributions and any Company contributions into various investment options offered by the Plan. The Company currently offers twelve mutual funds, one synthetic GIG, and Rollins, Inc. common stock as investment options for participants. Participants may change their investment options on a daily basis. Effective October 1, 2008, the default investment fund will be selected by the Administrator. The Administrator has elected to change the default investment fund to GoalMaker beginning with new enrollees on April 1, 2009. Contributions already being defaulted into the Dodge & Cox Fund will be defaulted into the Oakmark Equity and Income

Fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant Loans

Participants may obtain loans from the Plan up to 50% of their vested account balance or \$50,000, whichever is less, with a minimum of \$1,000. Loans bear interest at a reasonable rate commensurate with current interest rates charged for loans made under similar circumstances by persons in the business of lending money, are collateralized by a participant's account balance and may not exceed 5 years, or 15 years if used for the purchase of a residence. Loans are generally payable through payroll deductions and only one loan may be outstanding in a twelve-month period.

Vesting

Participants are vested immediately in their contributions, plus actual earnings thereon. Upon normal retirement, disability, or death each participant is 100% vested in the Company's contributions. Effective January 1, 2007, participants who leave the Company prior to six years of continuous credited service receive a percentage of additional discretionary and profit sharing contributions based on the following schedule:

Years of Credit Service	of Vesting
Less than 2 years	0%
Between 2 and 3 years	20%
Between 3 and 4 years	40%
Between 4 and 5 years	60%
Between 5 and 6 years	80%
6 years or more	100%

Participants hired prior to January 1, 2007 receive a percentage of additional discretionary and profit sharing contributions based on a vesting schedule that begins after 3 years and earns 20% each year thereafter through seven years of service.
