QUESTIONS AND ANSWERS

1. What is a proxy?

A proxy is a procedure which enables you, as a shareholder, to authorize someone else to cast your vote for you. The Board of Directors of the Company is soliciting your proxy, and asking you to authorize Robert S. Cubbin, President and Chief Executive Officer, Karen M. Spaun, Senior Vice President and Chief Financial Officer, or Michael G. Costello, Senior Vice President, General Counsel and Secretary of the Company, to cast your vote at the 2014 Annual Meeting. You may, of course, cast your vote in person or abstain from voting, if you so choose. The term proxy is also used to refer to the person who is authorized by you to vote for you.

2. What are a proxy statement and a proxy card?

A proxy statement is the document the United States Securities and Exchange Commission (the “SEC”) requires be provided to you in order to explain the matters on which you are asked to vote. A proxy card is the form by which you may authorize someone else, and in this case, Mr. Cubbin, Ms. Spaun or Mr. Costello, to cast your vote for you. This proxy statement and proxy card with respect to the Company’s 2014 Annual Meeting were mailed on or about April 14, 2014 to all shareholders entitled to vote at the Annual Meeting.

3. Who is entitled to vote?

Only holders of shares of the Company’s common stock at the close of business on March 21, 2014 (the “Record Date”) are entitled to vote at the Annual Meeting. Each shareholder of record has one vote for each share of common stock for each matter presented for a vote.

4. What is householding and how does it affect me?

Some banks, brokers, and other record holders may be participating in the practice of “householding” proxy statements and annual reports. This means that only one copy of our proxy statement and 2013 annual report on Form 10-K may have been sent to multiple stockholders in your household. We will promptly deliver a separate copy of these documents to you if you contact us at the address set forth above.

If you want to receive separate copies of our proxy statements and annual reports on Form 10-K in the future, or if you are receiving multiple copies and would like to receive only one copy for your household, you should contact your bank, broker, or other record holder.

5. What will I vote on at the Annual Meeting?

At the Annual Meeting, shareholders will vote upon:

1. Election of Robert H. Naftaly, Robert W. Sturgis, Jeffrey A. Maffett and Winifred A. Baker for a three-year term expiring in 2017, or, in each case, until the earlier election and qualification of such director's successor and election of Bruce E. Thal for a two-year term expiring in 2016, or in such case, until the earlier election and qualification of such director's successor;
2. Ratification of the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm;
3. An advisory vote to approve the Company's 2013 executive compensation; and
4. Any other business that is properly submitted before the Annual Meeting or any adjournments of the Annual Meeting.

6. How does the Board of Directors recommend I vote on the proposals?

The Board of Directors recommends a vote FOR each proposal.

7. How can I vote?

You can vote in person or by proxy. To vote by proxy, complete, sign, date and return the enclosed proxy card in the enclosed envelope. If you returned your signed proxy card to the Company before the Annual Meeting, the persons named as proxies on the card will vote your shares as you direct. Shares represented by proxies that are marked "WITHHELD" to vote for all five nominees for director, or for any individual nominee(s) for election as director(s) and which are not otherwise marked "FOR" the other nominees will not be counted in determining whether a plurality vote has been received for the election of directors. Similarly, shares represented by proxies, which are marked "ABSTAIN" on the proposals 2 and 3 will not be counted in determining whether the requisite vote has been received for such proposal. IF YOU WISH TO VOTE IN THE MANNER THE BOARD OF DIRECTORS RECOMMENDS, IT IS NOT NECESSARY TO SPECIFY YOUR CHOICE ON THE PROXY CARD. SIMPLY SIGN, DATE AND RETURN THE PROXY CARD IN THE ENCLOSED ENVELOPE. You may revoke a proxy at any time before the proxy is voted by:

- (i) Providing written notice of revocation to the Secretary of the Company at the address shown on the Notice of Annual Meeting of Shareholders on the first page of this statement;
- (ii) Submitting another proxy that is properly signed and dated later; or
- (iii) Voting in person at the meeting (but only if the shares are registered in the Company's records in your name and not in the name of a broker, dealer, bank or other third party).

8. Is my vote confidential?

Yes, your vote is confidential. Only the inspectors of election and certain employees associated with processing proxy cards and counting the votes have access to your proxy card. All comments received will be forwarded to management on an anonymous basis unless you request that your name be disclosed.

9. What is a quorum?

There were 50,093,743 shares of the Company's common stock outstanding on the Record Date. A majority of the outstanding shares entitled to be cast, or 25,046,872 shares, present or represented by proxy, constitute a quorum. A quorum must exist to conduct business at the Annual Meeting. Abstentions and broker non-votes are counted as votes present for purposes of determining whether there is a quorum. A broker non-vote is a proxy a broker submits that does not indicate a vote for the proposal, because the broker does not have discretionary voting authority and the broker did not receive instructions as to how to vote on the proposal.

10. How does voting work?

If a quorum exists at the Annual Meeting, a plurality vote, being the greatest number of the shares voted, although not a majority, is required to elect the five nominees for director. The five nominees receiving the highest number of votes will be elected. If a quorum is present, the affirmative vote by the holders of a majority of the votes cast in person or by proxy is required to approve proposals 2 and 3. Abstentions and broker non-votes are not votes cast. Therefore, an abstention and a broker non-vote will have no effect on the proposal to elect the five nominees for director but will be treated as being present and entitled to vote for proposals 2 and 3, and therefore will have the effect of votes against each such proposal.

The Company will vote properly executed proxies it receives prior to the Annual Meeting in the way you direct. If you do not specify instructions, the shares represented by proxies will be voted FOR the nominees for director and FOR the approval of proposals 2 and 3. No other proposals are currently scheduled to be presented at the meeting.

11. Who pays for the costs of the Annual Meeting?

The Company pays the cost of preparing and printing the proxy statement, proxy card and soliciting proxies. The Company will solicit proxies primarily by mail, but also may solicit proxies personally and by telephone, facsimile or other means. Officers and regular employees of the Company and its subsidiaries also may solicit proxies, but will receive no additional compensation for doing so, nor will their efforts result in more than a minimal cost to the Company. The Company also will reimburse banks, brokerage houses and other custodians, nominees and fiduciaries for their out-of-pocket expenses for forwarding solicitation material to beneficial owners of the Company's common stock.

12. What other information is available about Meadowbrook Insurance Group, Inc.?

The Company maintains a corporate website, www.meadowbrook.com, where the Company makes available, free of charge, copies of its Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and any amendments to those reports, as soon as reasonably practicable after they are filed. Printed copies of the above are available, free of charge, to any shareholder who requests this information.

13. When are shareholder proposals for the 2015 Annual Meeting due?

All shareholder proposals to be considered for inclusion in next year's proxy statement under SEC Rule 14a-8 or otherwise must be submitted in writing to the Secretary of the Company at the address shown on the Notice of Annual Meeting of Shareholders on the first page of this booklet by December 17, 2014.

The Company reserves the right to reject, rule out of order, or take other appropriate action with respect to any proposal that does not comply with these and other applicable requirements.

THE FIRST PROPOSAL ON WHICH YOU ARE VOTING
THE ELECTION OF FIVE DIRECTORS

The Company's Board of Directors is divided into three classes with each class of directors elected to a three-year term of office. At each annual meeting of shareholders, the shareholders elect one class of directors for a three-year term to succeed the class of directors whose term of office expires at that meeting. As described below, at the Annual Meeting, proxies can only be voted for five nominees.

This year you are voting on five candidates for director. The Company's Board of Directors, acting upon the recommendation of its Governance and Nominating Committee, has nominated: Robert H. Naftaly, Robert W. Sturgis, Jeffrey A. Maffett and Winifred A. Baker as directors with terms expiring in 2017, and Bruce E. Thal for a term expiring in 2016. Each nominee has consented to his and her nomination and has agreed to serve as a director, if elected. The Board is currently considering adding a director to the classes of directors whose terms expire at the 2015 and 2016 Annual Meetings.

Hugh W. Greenberg was a director of the Company, until his death on October 21, 2013. Merton J. Segal retired from the Board of Directors on May 17, 2013, but serves as director emeritus. Mr. Segal is invited to attend Board meetings in a non-voting capacity and receives no compensation for his role or attendance. As a result, there are currently two vacancies on the Board of Directors. The Governance and Nominating Committee plans to nominate replacement candidates to be appointed, in accordance with applicable law and the Company's governing documents.

If any nominee is unable to stand for election, the Company may vote the shares to elect a substitute nominee, who is nominated by the Board, or the number of directors to be elected at the Annual Meeting may be reduced.

The Company's Board recommends a vote FOR each of the nominees.

CORPORATE GOVERNANCE

Board Matters

In 2013, the Board of Directors met seventeen times and the Committees of the Board held an additional twenty meetings. During 2013, each of the directors attended (in the aggregate) at least 75% of the total number of meetings of the Board of Directors and the total number of meetings held by all the Committees of the Board upon which he/she served.

It is the policy of the Board of Directors to encourage attendance by its members at all meetings of the Board and Committees of the Board and the Annual Meeting of Shareholders. Seven of ten members of the Board of Directors attended the 2013 Annual Meeting of Shareholders.

Board Leadership Structure and Risk Management Oversight

The Board of Directors has adopted governance guidelines to assist with fulfilling its duties and responsibilities to the Company and its shareholders. These guidelines are intended to ensure the Board of Directors has the necessary authority and procedures in place to review and evaluate the Company's business operations, make decisions that are independent of the Company's management, and align the Company's directors and management interests with those of the Company's shareholders. While the Company's bylaws do not formerly require a separation of the Chairman of the Board and Chief Executive Officer position, these positions are currently and will be held by different people with the Chairman of the Board being an independent director. The Company believes that separation of these two positions provides for appropriate oversight and review of management performance. In addition, it allows for an independent and objective assessment of agenda items to be considered at board or committee meetings. In 2013, David K. Page, an independent director, was elected as non-executive Chairman of the Board, succeeding the former Chairman of the Board, Merton J. Segal. Mr. Page chairs all Board of Director meetings, as well as all executive sessions of the Board of Directors. The Board of Directors has a practice of generally conducting executive sessions at each of the regularly scheduled Board and Committee meetings. The Board of Directors also will conduct executive sessions with the Chief Executive Officer, along with other executive officers, as it deems appropriate and necessary. Also, the Audit Committee conducts executive sessions with the Company's Chief Executive Officer, Chief Financial Officer, Chief Actuary, Vice President of Corporate Audit and General Counsel.

The Board of Directors is responsible for oversight of the Company's risk management process. Each quarter, the Board of Directors receives an updated risk assessment, as well as an enterprise risk management report with respect to the Company's approach to the management of significant risks, including monitoring and mitigation efforts, where applicable. Management has responsibility to identify, assess, and manage the risks relating to the Company's strategy and business objectives. These efforts, along with the Board of Directors' oversight, are reviewed and discussed at each regular board meeting. The Board of Directors is authorized to retain, if necessary, risk management consultants to assist the Board of Directors in this process. While the Board of Directors has the primary responsibility, other committees of the Board of Directors also have the role in the process as outlined by each of their respective Charters. The Board of Directors with assistance of the Audit Committee is responsible for reviewing, assessing and monitoring the significant risks or exposures in the accounting and financial reporting areas of the Company and assuring that management has implemented the appropriate monitors to control such risks, as well as minimize the Company's risk exposure. The Compensation Committee is responsible for adopting compensation policies that increase shareholder value, avoid undue risk taking by the Company, appropriately reward executives and employees for performance and assure that the Company's compensation policies and practices are adequately disclosed to the public. The Governance and Nominating Committee is responsible for overseeing matters relating to the nomination, selection and evaluation of its directors, reviewing and approving any related-party transactions, as well as assuring that the Company has an effective corporate governance policy, which complies with the current rules of the New York Stock Exchange and SEC. The Capital and Investment Committee is responsible for the Company's capital strategy, mergers and acquisitions and developing an investment policy that ensures the Company's investment portfolio is aligned with the risk profile of the Company.

Executive sessions are presided over by the Chairman of each Committee, with David K. Page presiding over the executive sessions of the Board of Directors.

Committees of the Board of Directors

The Board of Directors has established Board Governance Guidelines. In August 2013, the Company announced that it would commence a review of all strategic alternatives that would enhance shareholder value following announcement of the Company's 2nd Quarter 2013 results. The Board of Directors appointed directors David K. Page, Bruce E. Thal, Robert H. Naftaly, Robert F. Fix and Robert W. Sturgis to the Strategic Alternatives Committee for the sole purpose of leading this review and making any recommendations to the Board of Directors. The Strategic Alternatives Committee engaged advisors during this process, such as, an independent investment banking firm and outside counsel. The Committee met five times in 2013 and two times in 2014 for the purpose of reviewing, discussing and analyzing various strategic alternatives that would enhance shareholder value.

The Audit Committee is responsible for reviewing the services of the Company's independent registered public accounting firm and third-party actuaries, consults with the accountants and actuaries, reviews the financial statements and loss reserves of the Company and internal controls of the Company and monitors the Corporate Audit Department of the Company. The Audit Committee also assists the Board of Directors with developing and implementing policies that govern how the Company identifies, evaluates, monitors and minimizes risk. Currently, the Audit Committee members are: Bruce E. Thal (Chairman), and Robert W. Sturgis (Vice Chairman) and Jeffrey A. Maffett . Generally, Mr. Page attends meetings as an ex-officio member of the Committee. The members of the Audit Committee satisfy the independence and experience requirements established by the New York Stock Exchange. In addition, the Board of Directors has determined that Chairman, Bruce E. Thal qualifies as a "financial expert," as defined by the SEC. The Audit Committee met four times in 2013. The Audit Committee Report is set forth later in this proxy statement.

Compensation Committee

The Compensation Committee is responsible for assuring that our named executives are appropriately compensated in relation to their duties, responsibilities and performance and that executive compensation plans are aligned with long-term shareholder value and are designed so as to avoid undue risk to the Company. The Compensation Committee's Charter authorizes the Compensation Committee to review and approve the goals and objectives for the Chief Executive Officer, evaluate his or her performance and approve his or their compensation. The Compensation Committee recommends to the Board of Directors the base salary levels, bonuses and equity compensation for the Chief Executive Officer. In addition, the Compensation Committee approves the guidelines to determine salary levels, bonuses and equity compensation for other executive officers and managers of the Company. The Compensation Committee reviews and makes recommendations with respect to the Company's compensation plans and is responsible for administering any equity awards under the Company's 2002 Amended and Restated Stock Option Plan, the 2009 Equity Compensation Plan and the Long Term Incentive Plan. All members of the Compensation Committee satisfy the independence requirements established by the New York Stock Exchange. The Compensation Committee has authority to directly retain outside consultants of its selection to assist with the development of the Company's compensation and benefits programs. The Compensation Committee has retained Pay Governance to, as periodically requested, review and assess the Company's compensation policies and plans. Currently, the Compensation Committee members are: Robert H. Naftaly (Chairman), Jeffrey A. Maffett (Vice Chairman), Bruce E. Thal and Herbert Tyner. The Governance and Nominating Committee monitors compliance with the Company's Compliance Code of Conduct and Business Ethics Policy, as well as other corporate governance policies. The Governance and Nominating Committee also reviews and approves any related-party transactions involving the Company and its directors and officers. Hugh W. Attention: Governance and Nominating Committee

The Governance and Nominating Committee has not established specific minimum qualifications or skills for directors to possess. The Governance and Nominating Committee uses a subjective process for identifying and evaluating nominees for director, based upon the information available to members of the Governance and Nominating Committee and the current needs of the Company. While the Governance and Nominating Committee does consider diversity as one of several criteria for eligibility, the Company has not adopted a formal diversity policy. The Governance and Nominating Committee does not believe there would be any difference in the manner in which it evaluates nominees based on whether the nominee is recommended by a shareholder or director. Historically, nominees have been the existing directors or persons with significant management, insurance, accounting, actuarial, legal, banking, investment or business experience.

COMPENSATION OF EXECUTIVE OFFICERS

Compensation Discussion and Analysis

The compensation discussion and analysis set forth below provides an explanation of the Company's compensation programs, including the objectives of such programs and the rationale for each element of compensation, for our named executive officers, which includes our President & Chief Executive Officer, Robert S. Cubbin, our Senior Vice President - Chief Financial Officer, Karen M. Spaun, and our other three most highly compensated executive officers, Executive Vice President, Christopher J. Timm, our Senior Vice President - General Counsel & Secretary, Michael G. Costello and our Senior Vice President – Field Operations, James M. Mahoney. The discussion is divided into the following sections:

I. Executive Summary

II. Compensation Objectives

III. Role of Compensation Committee, Compensation Consultant and Management

IV. Elements of Total Compensation

V. Factors Considered When Determining Total Compensation

VI. 2013 Compensation Decisions

I. Executive Summary

The objectives and major elements of the Company's executive compensation program did not materially change from 2012 to 2013. We believe in a compensation program and philosophy that is designed to create long-term shareholder value, as well as effectively attract, motivate and reward performance, and promote retention of senior management. The Company continues to provide our named executive officers with total annual compensation that includes a base salary and performance-based annual cash incentive awards. Also, executives are eligible for long-term equity-based incentive awards that include both a service and performance-based component. The Company also provides our executives with severance and health and welfare benefits. The Company's executive compensation program continues to emphasize performance-based pay, with a significant portion of each executive's total annual compensation being at risk and dependent upon the Company's achievement of specific, measurable performance goals. The Company's performance-based pay is designed to further align our executive officers' interests with those of our shareholders and is intended to promote the creation of shareholder value, without encouraging excessive risk-taking. In addition, our equity program rewards long-term stock performance.

We believe that the 2013 pay decisions are commensurate with our objectives in relation to market practice, our peer companies, performance and results for the incentive period ending in 2013. A summary of the pay actions is presented below along with additional details about the plans and the basis for decisions is presented in the subsequent sections.

The named executive officers did not receive a salary increase during 2013, because the Company did not achieve financial and operating objectives in 2012.

No Annual Bonus Plan awards were paid to the named executive officers, because our performance was below the required financial targets established under the 2013 Annual Bonus Plan.

Under the 2013 Long Term Incentive Plan (the "LTIP"), the named executive officers were only eligible to receive 30% of their target award opportunity based on continued service through December 31, 2013. The named executive

officers did not receive the remaining 70% of their award opportunity, because the Company did not meet the targeted financial performance goals under the LTIP for 2013.

20

Our 2013 Annual Bonus Plan included financial performance, as well as operational goals. While the Company met certain of its operational goals and objectives, the Company did not achieve its target for net operating income nor the performance guidelines for operating income per share, return on average equity targeted combined ratio and tangible book value. As such, no annual bonus was paid by the Company for 2013 performance.

The following table illustrates the performance target and guidelines established under the 2013 Annual Bonus Plan, along with the actual results:

2013 Performance Target	Target Goals:	Actual Results:
Net operating income (loss) (1)	\$33.3 million	(\$117.9) million (2)
2013 Performance Guidelines	Guideline Goals:	Actual Results:
Earnings per share net operating income (loss) (1)	\$0.67	(\$2.36)
Return on Average equity (3)	6.3%	Not achieved
Combined ratio (or less) (4)	99.7%	111.0%
Tangible Book Value (5)	\$442.4 million	\$383.3 million

(1) Net operating income (loss) and net operating income (loss) per share are non-GAAP measures that represent net income (loss) excluding net realized gains or losses, net of tax. The most directly comparable financial GAAP measures to net operating income (loss) and net operating income (loss) per share are net income (loss) and net income (loss) per share, respectively.

(2) The net operating loss for the year ended December 31, 2013 included a non-cash, after-tax charge of \$101.6 million, or (\$2.04) per share relating to impairment of goodwill associated the Company's Specialty Insurance Operations.

(3) Return on average equity is the current year net operating income (loss) divided by the average of the current year shareholders' equity (before accumulated other comprehensive income).

(4) The combined ratio is a non-GAAP measure which management utilizes to evaluate the performance of our underwriting operations. Specifically, the combined ratio is the sum of (i) the ratio of losses and loss expenses to net premiums earned (loss ratio), plus (ii) the ratio of GAAP underwriting expenses (which include the change in deferred policy acquisition costs) to net premiums earned (expense ratio).

(5) Tangible book value is the shareholders' equity less intangible assets and goodwill.

In further evaluating the Company's performance, the Compensation Committee also considered several Company operational objectives for 2013. The Company established an operational target for the Company to maintain its A.M. Best rating of "A-". This objective was not achieved when the Company's rating was lowered during 2013 to "B++." The Company established an objective to maintain, or improve upon its premium to policyholder surplus leverage ratio. The Company achieved this objective by terminating underperforming business in the latter part of 2012 through December 31, 2013. In addition, the Company received certain capital gains within its investment portfolio in 2012, which resulted in approximately \$37.0 million being contributed to the policyholder surplus of our Insurance Company Subsidiaries. The Company also completed a convertible debt offering in 2013, which resulted in approximately \$70.0 million of the proceeds being contributed to the policyholder surplus of the Insurance Company Subsidiaries. These two capital enhancements alone increased the policyholder surplus by approximately \$107.0 million in 2013. The Company's policyholder surplus was \$488.2 million as of December 31, 2013. This increase in surplus and reduction of gross written premium also improved the Company's gross and net premium to surplus

leverage ratios. As of December 31, 2103, the gross premium leverage ratio was 1.9 to 1.0 and the net premium leverage ratio was 1.4 to 1.0 on a trailing twelve month statutory combined basis.

21

The Compensation Committee acknowledged the Company's goal of further developing new programs, products and initiatives. The Company has continued with certain professional liability classes of business, and with its marine and umbrella initiatives. Also, the Company has further developed a self-defense and fitness insurance product. These initiatives are designed to diversify the Company's product offerings and contribute to the limited growth it projects for new products and programs in 2014. The Compensation Committee viewed the Company's consideration and declination of several acquisition and new business opportunities as an affirmation that management will not consider opportunities that do not meet the Company's accretion and/or profit expectations. Along with insurance product initiatives, the Company established technology goals to assist with the processing of medical malpractice and workers compensation claims. The Compensation Committee acknowledged the progress the Company has made with regard to its premium payment processing system for certain portions of its workers compensation business.

The information technology initiatives for the Company in 2013 included Century On Line ("COL") maintenance and enhancements, policy and claim workflow projects, development of a new data warehouse for certain aspects of the Company's business and exploration of more efficient premium and claim payment options. These objectives were intended to improve the operational efficiencies of the Company. The Compensation Committee noted that the initiatives are underway and are in various stages of development. Finally, the Company maintained its compliance with Section 404 of the Sarbanes-Oxley Act of 2002, as well as continued to integrate its enterprise risk management process within the Company's operations.

A more detailed discussion of the 2013 compensation decisions is included under VI. 2013 Compensation Decisions.

II. Compensation Objectives

Our compensation policy for the Company's named executive officers is intended to promote, attract and retain a talented pool of management, encourage continued performance and attainment of corporate and personal goals as well as further promote our success by aligning the executive officers' financial interests with long-term shareholder value.

We believe these objectives are accomplished by providing our executives with a competitive mix of short and long-term compensation, by rewarding excellent performance, and by linking a significant portion of each officer's compensation to specific, measurable performance goals.

III. Role of Compensation Committee, Compensation Consultant and Management

Compensation Committee

The Compensation Committee of the Board is, among other things, authorized by its Committee Charter (the “Charter”) to evaluate whether the Company’s management is appropriately compensated in relation to their duties, responsibilities and performance, while ensuring the compensation plans are aligned with long-term shareholder value and do not expose the Company to undue risk. The Charter authorizes the Compensation Committee to review the budget of the Company, as well as the annual performance goals and objectives for the Company, Chief Executive Officer and its executive officers, evaluate the Chief Executive Officer’s performance in relation to the goals and objectives and approve his compensation (base salary, annual bonus, long-term incentive or other equity awards). The Compensation Committee is responsible for reviewing recommendations made by the Chief Executive Officer relating to the compensation of the principal executive officers who report to the Chief Executive Officer and approving the compensation for such executive officers. In addition, the Compensation Committee is responsible for the administration of our annual bonus plan, long-term incentive plan, as described below, as well as other equity-based compensation. Finally, the Compensation Committee is authorized to periodically review our compensation philosophy relating to salaries, bonuses, long-term incentives and other equity-based compensation paid to our senior management to evaluate whether the Company remains competitive with similar companies in the insurance industry. The Compensation Committee is authorized by its Charter to retain a compensation consultant to assist the Compensation Committee with the performance of its duties, and the consultant advises the Compensation Committee. The Compensation Committee considered that over 80% of the shareholders approved the compensation paid to the executives as described at the Company’s 2013 Annual Meeting. Therefore, the Compensation Committee did not make any changes to the Company’s compensation program in response to the “say on pay” vote, as part of the committee’s compensation review process.

Compensation Consultant

The Compensation Committee has utilized Pay Governance as its independent compensation consultant. Pay Governance, as requested, advises the Compensation Committee with regard to the general competitive landscape and trends in compensation and executive and director compensation matters, including (i) competitive market-based salary and incentive compensation for executive officers, as well as for director compensation, (ii) incentive plan design, (iii) performance metrics, (iv) peer group selection, and (v) updates on market practices and trends in executive and director compensation. Pay Governance periodically attends meetings of the Compensation Committee and participates in the Committee’s executive sessions as well. Pay Governance is directly accountable to the Compensation Committee. The Compensation Committee retains Pay Governance for compensation advice and reviews all fees paid. Pay Governance’s last substantial review of the Company’s incentive compensation plans was completed in 2011. The Compensation Committee has assessed the independence of Pay Governance pursuant to the rules of the Securities and Exchange Commission and concluded that Pay Governance’s work for the Compensation Committee does not raise any conflicts of interest. Additional information with respect to Pay Governance’s consulting work for the Compensation Committee is included under V. Factors Considered When Determining Total Compensation.

Role of the CEO in Determining Executive Compensation

While the Compensation Committee has the responsibility to approve and monitor all compensation for our named executive officers, our CEO also plays an important role in determining executive compensation. At the Compensation Committee’s request, our CEO assists the Compensation Committee by providing his evaluation of the performance of the executive officers who report directly to him, and recommends compensation levels for such officers.

Officer Stock Ownership Guidelines

The Company has adopted the following stock ownership guidelines for its executive officers: (i) CEO- 5 times his or her salary; (ii) 3 times salary for both the Chief Financial Officer and General Counsel; and (iii) 2 times salary for all other executive officers.

23

IV. Elements of Total Compensation

The table below summarizes the elements of our total compensation program.

Compensation Element	Key Features
Base Salary	<p>Base salary is designed to provide a level of assured cash compensation sufficient, together with performance based incentives, to motivate executives to perform at a consistently high level. Base salary is established based on various criteria consisting of level of responsibility, corporate performance, personal contribution to our success, experience, expertise and market data for our competitors in the insurance industry. Generally, we believe executive base salaries should be set within the competitive range of salaries for executives in similar positions at comparable companies. For an experienced, consistent performing executive, the Committee has established as a general guideline plus or minus ten percent of the market median for similar positions. Merit increases or adjustments are awarded based on the foregoing criteria and the achievement of corporate and individual performance objectives, as well as for changes in the scope of an executive's responsibilities. No salary increases were awarded in 2013. See VI. 2013 Compensation Decisions-Base Salary below for a discussion of our 2013 salary decisions.</p> <p>The Company's Annual Bonus Plan, which provides performance-based cash bonuses, has been adopted to incentivize our executive officers and other members of management to achieve our corporate performance objectives. Criteria for determining the named executive officers' annual incentive bonus includes achievement of corporate financial performance goals and objectives, corporate operational performance, personal contribution to our success, and individual performance.</p>
Annual Bonus Plan	<p>The Annual Bonus Plan is funded based upon the achievement of established performance targets and guidelines, such as, net operating income, earnings per share net operating income, return on average equity, combined ratio and tangible book value, as well as achievement of various operating objectives, such as, maintenance of acceptable premium to surplus ratios and new product development, compliance with Sections 302 and 404 of the Sarbanes-Oxley Act, maintenance of the Company's enterprise risk management process, consideration of accretive programs or acquisition opportunities, etc. Amounts are allocated to executives, as determined in the discretion of the Compensation Committee, which primarily considers individual and Company performance. Each year, the Compensation Committee establishes a new target based upon prior year performance and the forecasted performance levels anticipated for the following year. If the minimum threshold is met, the Annual Bonus Plan is funded from 0% up to a maximum cap of 120% of the targeted bonus pool. The amount of the bonus pool is established by aggregating the individual targets for each participant, which is a percentage of the employee's base salary. An employee's actual award may be above or below his or her target based upon achievement of corporate performance objectives and the employee's individual performance for the year. The target awards for the named executive officers are reviewed and established by the Compensation Committee as a part of our competitive benchmarking study, which is performed by the Company's compensation consultant.</p> <p>At the end of the year, the Compensation Committee reviews our performance in relation to the pre-determined performance targets and guidelines and then finalizes the total bonus pool available to pay cash bonuses to the executive officers and the management team based upon achievement of our corporate goals and individual performance. Ultimately, all targets, as well as actual awards, are reviewed and approved by the Compensation Committee. No annual bonuses were awarded for 2013 performance. See VI. 2013 Compensation Decisions-Annual Bonuses below for a discussion of our 2013 Annual Bonus Plan decisions.</p>

Compensation
Element

Key Features

Long -Term
Incentive Plan
(LTIP)

The Company provides the opportunity for our named executive officers and other executives to earn a long-term incentive award under the LTIP. The LTIP is intended to provide an incentive to management to improve performance of the Company, thereby increasing long-term shareholder value. For 2013, the Company established an annual LTIP. Participants are not eligible for any award under the 2013 LTIP until after the end of the performance period, or December 31, 2013. The 2013 LTIP included both a performance and service component. For the named executive officers, seventy percent (70%) of a participant's award opportunity was based upon achieving targets for net operating income, and performance guidelines for earnings per share net operating income, return on average equity, combined ratio, and tangible book value. The remaining thirty percent (30%) of a named executive officer award opportunity was based upon the service of the participant during the performance period. All awards were to be settled in Company stock. An executive's target award, which is a percentage of his or her salary, is established at the beginning of the performance period. The Chief Executive Officer and the executive officers award payouts are capped at 160% of their respective salaries. All actual awards under the LTIP are reviewed and approved by the Compensation Committee and the Board of Directors before distribution. Each executive's target was established by the Compensation Committee as a part of our competitive market-based study, which was performed by the Company's compensation consultant. See VI. 2013 Compensation Decisions-Long-Term Incentive Plan below for a further discussion of our 2013 LTIP decisions.

Retirement
Benefits

The Company provides retirement benefits to our named executive officers to encourage retirement savings in a tax-efficient manner and encourage retention. Retirement benefits are provided under our 401(k) Profit Sharing Plan covering all eligible employees and through our Executive Nonqualified Excess Plan (the "Excess Plan"). The Company's Excess Plan is intended to be a nonqualified deferred compensation plan. The Excess Plan allows eligible employees, including the named executive officers, to defer receipt of current compensation in order to save for retirement and other needs, as provided for in the Excess Plan. Deferred amounts are credited with earnings or losses based on the rate of return of funds selected by the participants in the plan. The Excess Plan is intended to be an unfunded plan maintained primarily for the purpose of providing deferred compensation benefits for eligible employees. While the Company does not contribute to participants' accounts under the Excess Plan, it does provide for a \$250,000 life insurance benefit to participants who satisfy the eligibility requirements for minimum funding by the participant and continued employment. Participants may defer up to 100% of salary and bonus payments. Distributions are made in either a lump sum or installments over a period not to exceed five years as chosen by the executive at the time of the deferral.

Health &
Welfare
Benefits

The Company provides market competitive health and welfare benefits to executives and their dependents to promote healthy living. Health and welfare benefits, including medical, dental, vision, life and disability coverage, are available to all employees.

Severance

The Company has severance arrangements with our Chief Executive Officer, the named executive officers and other executive officers, which are provided through their employment agreements, the terms of which are described in detail in this proxy statement. The purpose of our severance arrangements is to provide a measure of financial security in the event an executive's employment is terminated without cause and to encourage retention and dedication by our named executive officers.

Compensation
Element

Key Features

Executive
Perquisites

The Company provides the opportunity for our named executive officers to receive certain perquisites, such as automobile allowances and reimbursement for club membership dues. In addition, our named executive officers, as well as other employees, may occasionally receive tickets to sporting events or entertainment for personal use if the tickets are not needed for business use, for which we do not incur incremental costs. These benefits are provided as an additional incentive for our executives and to remain competitive within the marketplace for such talent. These perquisites are described in the Summary Compensation Table in this proxy statement.

V. Factors Considered When Determining Total Compensation

Meadowbrook Peer Group Compensation — our Starting Point. When making compensation decisions, we review the target compensation of our CEO and other named executive officers relative to the target compensation of similarly-situated executives among insurance companies. This practice is often referred to as “benchmarking.” We believe benchmarks are helpful and provide an initial point of reference. Although we also use the other factors set forth below in reviewing compensation, competitive benchmarking is a starting point in our evaluation of total executive compensation.

The Compensation Committee periodically reviews market-based data compiled by its independent compensation consultant and our human resources department. This comparative information provides a basis for the evaluation of the target compensation provided to our named executive officers. Market target compensation data when presented is gathered from national published compensation surveys for similar positions at comparably-sized property and casualty insurance companies with market data regressed based upon the Company’s premiums and assets. Each compensation survey generally includes thirty to seventy participating insurance companies. The Compensation Committee then reviews the market-based data together with each officer’s job responsibilities and individual performance, internal pay equity, and performance against pre-established targets in making compensation decisions.

The Compensation Committee generally sets total compensation targets for our executives, including base salary, performance-based annual incentives, and long-term equity awards, within a competitive range (plus or minus ten percent) of the market median for the position. However, because comparative data is just one of several inputs that are used in determining executive officer compensation, pay may vary from the targeted level (generally, market median) based on various factors, including:

the level of achievement of our pre-established performance goals,

our performance against our peer group,

individual performance,

scope or change in job responsibilities,

competitive pressures for that position within the industry,

internal equity considerations, and

the executive’s industry experience and tenure.

The Compensation Committee may also deviate from the above guidelines in circumstances that it deems appropriate, which have included when an employee was hired at a higher compensation level because of market conditions, the

employee has assumed greater responsibilities than originally anticipated or the employee was hired as a part of an acquisition and an inherited employment agreement had previously established that employee's compensation.

26

Compensation Consultant. In 2013, the Compensation Committee retained Pay Governance to conduct a review of the market competitiveness of the named executive officers' base salary and their target award opportunities for the annual bonus plan and long-term incentive plan, as well as their respective employment agreements. Pay Governance consulted with management and the Compensation Committee during the review. Pay Governance developed a proxy pay peer group based upon the insurance industry with primary operations in the property and casualty business, size based on assets and premiums generally within a range of 33% to 300% of the Company and peer companies used within Institutional Shareholder Services' analysis of the Company's 2012 officer pay program. For the named executive officers, Pay Governance found the base salaries to be within a competitive range of the median (+/- 10%), but that the target award opportunities for the annual bonus plan and the long term incentive plan were well below the median for most positions. Pay Governance also found that the employment agreements were generally consistent and competitive with market practices with the exception that change in control severance benefits were generally below market median levels. The Compensation Committee reviewed and discussed the findings of Pay Governance and decided, at this time, to make no changes to the compensation and the employments agreements of the named executive officers.

Meadowbrook's Proxy Peer Group. The Compensation Committee reviews Meadowbrook's peer group to evaluate whether the companies selected are appropriate. The peer group is used to review executive officer and director compensation. Regarding executive officer compensation, the peer group is used to benchmark CEO pay levels and executive pay plan practices, such as annual and long-term incentive plan design. The list below presents the peer group used by the Compensation Committee for CEO pay comparisons when conducting a review of incentive plan designs. The peer group consisted of twenty companies, comprising companies similar in size and revenue to the Company.

Amerisafe, Inc.	Navigators Group, Inc.
AmTrust Financial Services, Inc.	OneBeacon Insurance Group, Ltd.
Argo Group International, Ltd.	ProAssurance Group, Inc.
Donegal Group, Inc.	RLI Corp.
EMC Insurance Group, Inc	Safety Insurance Group
Employers Holdings, Inc.	Selective Insurance Group Inc.
HCC Insurance Holdings, Inc.	State Auto Financial Corp.
Infinity Property & Casualty	Stewart Information Services Corporation
Mercury General Corporation	Tower Group, Inc.
National Interstate Corporation	United Fire Group, Inc.

Internal Pay Equity. We also believe that our executive compensation program must be internally consistent in order to motivate our employees as a whole to create shareholder value. We are committed to internal pay equity and our Compensation Committee monitors, on an annual basis, the relationship between the compensation of our named executive officers, other management levels and the compensation of our non-managerial employees.

VI. 2013 Compensation Decisions

Base Salary

The Compensation Committee has used Pay Governance to assist with its review and analysis of executive compensation. This review has included an analysis of the Company's peer group, as well as the duties and responsibilities of the named executive officers. Generally, such reviews are completed every other year. The Compensation Committee determined that it was not inclined to make any substantive changes to the structure or amounts of our named executive officers' compensation based upon the Company's recent operating performance.

In February 2013, the Compensation Committee reviewed the performance of the Company, as well as that of the named executive officers. The Company did not meet its 2012 performance target for net operating income or guidelines for return on average equity, earnings per share on net operating income, combined ratio or tangible book value. The Company did achieve net investment income and net commissions and fees goals, as well as achieved certain of its operational goals relating to capital strategy, acquisitions, implementation of new programs and development and implementation of additional products, compliance with the Sarbanes Oxley Act of 2002, enterprise risk management and IT enhancements. Nevertheless, since the Company did not achieve its 2012 financial performance targets and guidelines, the Compensation Committee approved no salary increases for the named executive officers during 2013.

Annual Bonuses

In February 2013, the Compensation Committee established performance target bonus awards based as a percentage of salary for each named executive officer. Mr. Cubbin's target was 80%, while the target was 50% for the other named executive officers. These targets remained unchanged from the prior year. The Committee is responsible for evaluating the performance of the Chief Executive Officer, while the Chief Executive Officer evaluates the individual performance of the other named executive officers and provides individual recommendations to the Committee with respect each named executive officer's award.

For 2013, the Company established five financial targets and guidelines for the Company, which were used to assess the performance of the Chief Executive Officer, as well as each of the named executive officers. Generally, the goals and objectives are guidelines with the exception of net operating income, which is a performance target. The performance goals and guidelines included financial, operational and entity-wide control objectives.

The following table illustrates the performance target and guidelines established under the 2013 Annual Bonus Plan, along with the actual results:

2013 Performance Target	Target Goals:	Actual Results:
Net operating income (loss) (1)	\$33.3 million	(\$117.9) million (2)
2013 Performance Guidelines	Guideline Goals:	Actual Results:
Earnings per share net operating income (loss) (1)	\$0.67	(\$2.36)
Return on Average equity (3)	6.3%	Not achieved
Combined ratio (or less) (4)	99.7%	111.0%
Tangible Book Value (5)	\$442.4 million	\$383.3 million

(1) Net operating income (loss) and net operating income (loss) per share are non-GAAP measures that represent net income (loss) excluding net realized gains or losses, net of tax. The most directly comparable financial GAAP measures to net operating income (loss) and net operating income (loss) per share are net income (loss) and net income (loss) per share, respectively.

(2) The net operating loss for the year ended December 31, 2013 included a non-cash, after-tax charge of \$101.6 million, or (\$2.04) per share relating to impairment of goodwill associated the Company's Specialty Insurance Operations.

(3) Return on average equity is the current year net operating income (loss) divided by the average of the current year shareholders' equity (before accumulated other comprehensive income).

(4) The combined ratio is a non-GAAP measure which management utilizes to evaluate the performance of our underwriting operations. Specifically, the combined ratio is the sum of (i) the ratio of losses and loss expenses to net premiums earned (loss ratio), plus (ii) the ratio of GAAP underwriting expenses (which include the change in deferred policy acquisition costs) to net premiums earned (expense ratio).

(5) Tangible book value is the shareholders' equity less intangible assets and goodwill.

28

In addition to these performance objectives, the Company established other operational goals, which included an analysis of the Company's capital strategy so as to improve and maintain appropriate leverage ratios, development of new insurance products, implementation of certain information technology initiatives, consideration of strategic acquisitions and maintenance of the Company's current AM Best Rating of "A-." Further, the entity-wide control objectives included continuance of our enterprise risk management process and maintenance of the internal controls over financial reporting and continued compliance with the Sarbanes-Oxley Act of 2002.

In February 2014, the Compensation Committee determined that the Company had achieved certain of its operational goals relating to maintaining acceptable premium to policyholder surplus leverage ratios, implementation of a limited number of new insurance programs, development and implementation of additional insurance products, compliance with the Sarbanes-Oxley Act of 2002, continued development of the Company's enterprise risk management process and IT project implementation. However, the Company did not meet its financial performance target for net operating income or guidelines for return on average equity, tangible book value, earnings per share net operating income or combined ratio. Since the Company did not meet its 2013 performance target and guidelines, the Compensation Committee and the Board of Directors determined the annual bonus pool for 2013 would not be funded. Consequently, no annual bonuses were paid to the named executive officers for 2013.

Long -Term Incentive Plan (LTIP)

The Company provides the opportunity for our named executive officers and other executives to earn a long-term incentive award under the LTIP. The LTIP is intended to provide an incentive to management to improve performance of the Company, thereby increasing long-term shareholder value. For 2013, the Company established an annual LTIP. Participants are not eligible for any award under the 2013 LTIP, until after the end of the performance period, or December 31, 2013. The 2013 LTIP included both a performance and service component. Seventy percent (70%) of a participant's award opportunity was based upon achieving the performance target for net operating income, and the performance guidelines for return on average equity, combined ratio, earnings per share net operating income and tangible book value as described in VI. 2013 Compensation Decisions-Annual Bonus. The remaining thirty percent (30%) was based upon the service of the participant during the performance period. All awards were payable in Company stock. An executive's target award, which is a percentage of his or her salary, is established at the beginning of the performance period. The 2013 LTIP target for Mr. Cubbin target was 110%, Mr. Costello's and Ms. Spaun's target was 75% and the target for Messrs. Timm and Mahoney was 70%. The Chief Executive Officer and the executive officers payout opportunity was capped at 160% of their respective salaries. All actual awards under the LTIP are reviewed and approved by the Compensation Committee before distribution. Each executive's target was established by the Compensation Committee.

Because the Company did not meet its 2013 financial performance targets and guidelines, the Compensation Committee and the Board of Directors determined the (70%) performance component of the LTIP would not be funded in February 2014. Consequently, only the service component (30%) of the 2013 LTIP was approved by the Compensation Committee and the Board of Directors in February 2014. The Compensation Committee awarded 41,113 shares to Mr. Cubbin; 13,081 shares to Ms. Spaun; 15,174 shares to Mr. Timm; 14,203 shares to Mr. Costello; and 11,512 shares to Mr. Mahoney. Twenty percent (20%) of these shares vested on February 22, 2014 with the remaining eighty percent (80%) scheduled to vest over the next four years, subject to forfeiture rules relating to voluntary termination without good reason or termination for cause.

REPORT OF THE COMPENSATION COMMITTEE
OF THE BOARD ON EXECUTIVE COMPENSATION

The Compensation Committee of the Company's Board of Directors has submitted the following report for inclusion in the Proxy Statement:

EMPLOYMENT AGREEMENTS

Executive Employment Agreements – Robert S. Cubbin, Michael G. Costello, Karen M. Spaun and James M. Mahoney

The Company is a party to employment agreements with Messrs. Cubbin, Costello and Mahoney and Ms. Spaun. Under the terms of the agreement, each agreement automatically renews for successive one-year terms unless either the Company or the named executive officer gives notice to the other party of an election not to renew the employment agreement on or before December 31 of each year.

These employment agreements provide for a base salary, along with customary increases, at the sole discretion of the Company. Upon the attainment of certain growth and profitability goals, profit center goals and personal goals and objectives, each agreement provides for a discretionary bonus. Mr. Cubbin's agreement provides for a discretionary bonus targeted at 80% of his base salary and the employment agreements for Mr. Costello, Ms. Spaun and Mr. Mahoney provide for a discretionary bonus targeted at 50% of his or her base salary. Furthermore, each agreement provides for, (1) participation in the Company's LTIP with target LTIP awards determined on an annual basis, and (2) severance benefits upon termination of employment under the circumstances described below.

In the event the executive's employment is terminated by the Company without cause, or by the executive for good reason, the Company will pay to the executive (a) the executive's base salary for twenty-four months in the case of Messrs. Cubbin and Costello or twelve months in the case of Ms. Spaun and Mr. Mahoney, payable over the Company's regularly scheduled payroll, (b) a pro rata share of the portion of the executive's discretionary bonus that is based on actual Company performance, (c) all unvested stock or LTIP awards, and (d) the executive's COBRA premiums for health care coverage for eighteen months, or, if earlier, the cessation of the executive's and his or her family members' eligibility for COBRA continuation coverage.

In the event the executive's employment is terminated by the Company following a change in control and without cause, or by the executive for good reason, the Company will pay to the executive (a) an amount equal to the target LTIP award for the current performance period, plus a severance multiple of the sum of (i) the executive's annual base salary, plus (ii) the executive's target discretionary bonus, to be paid in a lump sum payment within ten days following the date the executive's employment terminates, (b) a pro rata share of the portion of the executive's discretionary bonus that is based on actual Company performance, and (c) the executive's COBRA premiums for health care coverage for eighteen months, or, if earlier, the cessation of the executive's and his or her family members' eligibility for COBRA continuation coverage. In addition, outstanding stock options and stock awards, if any, will vest and become exercisable by the executive. In the event the executive's employment terminates following a change in control and the executive becomes entitled to the aforementioned payments, the executive has agreed to be subject to restrictive covenants against competing with the Company for a period of two years in the case of Messrs. Cubbin and Costello and one year in the case of Ms. Spaun and Mr. Mahoney. These restrictions are in addition to those already in effect for all Company employees.

In the event Mr. Cubbin's employment is terminated for cause, he is not entitled to any severance payment under the employment agreement and he will forfeit all of the shares of Company stock subject to a pledge agreement with the Company, but the Demand Note he has with the Company will be cancelled and deemed paid in full. (See Certain Relationships and Related Party Transactions). The Demand Note was amended effective June 1, 2001 and deemed a non-recourse loan with the Company's sole remedy in the event of a default being the reclamation of the shares of the Company that were pledged as collateral. The employment agreement also provides that in the event Mr. Cubbin's employment is terminated by the Company without cause or as a result of any purchaser acquiring fifty percent or more of the outstanding shares of the Company, then (a) the Demand Note will be cancelled and deemed paid in full, and (b) Mr. Cubbin will be entitled to retain his shares of Company stock subject to the pledge agreement or, in his discretion, sell the shares back to the Company at the then current market price or book value, whichever is greater. This provision continues in effect the identical provision contained in the amendment to Mr. Cubbin's prior employment agreement with the Company that was adopted on June 15, 2002. In the event the employment of Mr. Costello, Ms. Spaun or Mr. Mahoney is terminated for cause, the executive is not entitled to any severance payment under the employment agreement.

In addition to the aforementioned payments, pursuant to the LTIP, immediately following a termination by the Company and without cause, for good reason, or following change in control of the Company, the executives will receive payment of any cash award previously approved by the Committee under the LTIP for performance periods that have previously ended, but which have not yet been paid. The executives would also be entitled to any pro rata share of any LTIP award for the current performance period based on actual performance.

Audit Committee Policy on Pre-Approval of Services Rendered by Independent Registered Public Accounting Firm

In accordance with the SEC rules issued pursuant to the Sarbanes Oxley Act of 2002 the Audit Committee pre-approves all audit and non-audit services provided by the Company's independent registered public accounting firm. The Audit Committee has adopted a formal policy on auditor independence. This policy requires the approval by the audit committee for all professional services rendered by the Company's independent registered public accounting firm prior to the commencement of the specified services. The Audit Committee pre-approved all professional services rendered by the Company's independent registered public accounting firm. Likewise, the Board pre-approved all professional services rendered by the Company's independent registered public accounting firm prior to the commencement of the services.

Audit Committee Financial Expert

The Board of Directors has determined that the Company has an Audit Committee financial expert, as defined by the SEC, serving on its Audit Committee. Mr. Bruce E. Thal is the Audit Committee financial expert. He is independent as such term for audit committee members is defined in the New York Stock Exchange's independence standards, as those standards have been modified or supplemented, and he has no other relationship that would impair his independence.

Auditor Independence

After such consideration, the Audit Committee determined the services were compatible with maintaining the auditor's independence and pre-approved those services.

THE THIRD PROPOSAL ON WHICH YOU ARE VOTING
ADVISORY VOTE TO APPROVE THE COMPENSATION OF THE NAMED EXECUTIVE OFFICERS

Shareholders have an opportunity to cast an advisory vote to approve the compensation of executives as disclosed in this Proxy Statement. This proposal required by Section 14A of the Securities Exchange Act, commonly known as a “Say on Pay” proposal, gives shareholders the opportunity to vote upon the fiscal 2013 executive compensation programs and policies and the compensation paid to the named executive officers. The Company’s practice is to present this proposal to shareholders at each annual meeting.

As discussed in the Compensation Discussion and Analysis section of this Proxy Statement, the primary objective of our compensation program, including our executive compensation program, is to promote, attract and retain a talented pool of management, encourage continued performance and attainment of corporate and personal goals, as well as, further promote our success by aligning the executive officers’ financial interests with long term shareholder value.

This proposal allows our shareholders to express their opinions regarding the decisions of the Compensation Committee on the prior year’s annual compensation to the named executive officers. Your advisory vote will serve as an additional tool to guide the Board of Directors and the Compensation Committee in continuing to improve the alignment of the Company’s executive compensation programs with the interests of the Company and its shareholders, the Company’s risk tolerance and is consistent with our commitment to high standards of corporate governance.

Because the vote on this proposal is advisory in nature, it will not affect any compensation already paid or awarded to any named executive officer and will not be binding upon or overrule any decisions by the Board of Directors. It will not create nor imply any additional fiduciary duty on the part of the Board of Directors, and it will not restrict or limit the ability of shareholders to make proposals for inclusion in proxy materials related to executive compensation. The Compensation Committee will take into account the outcome of the vote when considering future compensation arrangements for our named executive officers. The affirmative vote of a majority of the votes cast is required to approve the proposal.

The Company’s Board recommends you vote “FOR” the executive compensation of our named executives as disclosed in this Proxy Statement.
