Gafisa Reports Strong Third Quarter and Nine Month Results

--- 3Q07 Launches Increase 119% to R\$426 million and Pre-sales Increase 56% to R\$367 million ---

--- Land Bank Grows 44% from Previous Quarter to R\$8.9 billion ---

--- Company Updates 2007 Expectations for Launches and Provides 2008 Outlook ---

Sao Paulo, November 7, 2007 - Gafisa S.A. (Bovespa: GFSA3; NYSE: GFA), Brazil's leading diversified national homebuilder, today reported its financial results for the third quarter ended September 30, 2007 (3Q07) and nine months ended September 30, 2007 (9M07). The following financial and operating information, unless otherwise indicated, was prepared and presented in accordance with Brazilian GAAP (BR GAAP) and in Brazilian Reais (R\$). Additionally, financial statements and operating information consolidate the numbers for Gafisa and its subsidiaries, and refer to Gafisa's stake (or participation) in its developments.

Commenting on results, Wilson Amaral, chief executive officer of Gafisa S.A. said, "We continue to see robust growth in the Brazilian housing industry and strong prospects for accelerated growth in the future driven by increased access to financing, especially in the lower income population segments. Through Fit Residencial and Bairro Novo, we are now creating the conditions to lead the housing industry in serving the lower income segment of the population which we believe will fuel long term-growth in the industry. And, while implementing these programs, we have continued to drive profitable growth across the organization."

Amaral continued, "I am very pleased with our third quarter and year to date financial and operating results. We are on track to meet our profitability targets and expect to exceed our earlier outlook for launches by year end 2007. We also expect significant growth in launches during 2008. Pre-sales, a strong indicator of Gafisa's ability to meet market demand, remain strong with year to date growth of 56%, reaching R\$964 million, while EBITDA increased 77% during the same period."

Operating & Financial Highlights for the 3Q07

- o Consolidated launches totaled R\$426 million in 3Q07, a 119% increase over 3Q06.
- o Pre-sales were R\$367 million in 3Q07, a 56% increase over 3Q06.
- o Net operating revenues, recognized by the Percentage of Completion ("PoC") method, rose 91% to R\$309 million from R\$162 million in 3Q06.
- o 3Q07 EBITDA reached R\$48 million (15.5% EBITDA margin), a 61% increase compared to the R\$30 million 3Q06 EBITDA (18.5% EBITDA margin). 9M07 EBITDA reached R\$122 million (15.3% EBITDA margin) vs R\$69 million (16.3% EBITDA margin) in the same period in 2006.
- o Net Income was R\$31 million (10% net margin), an increase of 12% compared with R\$28 million in 3Q06 (17% net margin). 3Q07 EPS were R\$.24, versus R\$.27 in 3Q06. 9M07 adjusted net income was R\$81 million (10.1% adjusted net margin) and 9M06 was R\$60.4 million (14.2% adjusted net margin).
- o The Backlog of Results to be recognized under the PoC method reached R\$465 million, a 60% growth over 3Q06. The Backlog Margin to be recognized reached 38.5%.
- o Gafisa joined 2 major indexes of Brazil's stock markets in addition to the MSCI emerging markets index, the Bovespa Index (Ibovespa) and IBRX-50, further strengthening our stock liquidity.
- o Gafisa's land bank totaled R\$8.9 billion, a 44% growth over 2Q07. Bairro Novo contributed with R\$468 million.

3

CEO Commentary and Corporate Highlights for Fiscal 3Q07

As we near the end of 2007, I am pleased to reconfirm that we have put in place the appropriate strategies for long term profitable growth and market leadership. There are a number of important factors to be successful over the long term and some significant barriers to entry including, the proven ability to deliver the appropriate product to the consumer, a robust and geographically diverse land bank and long term access to capital. The underlying macroeconomic conditions are very favorable and we expect conditions to improve for long term

Edgar Filing: Gafisa S.A. - Form 6-K

housing expansion.

Increasing access to mortgage financing is fueling growth. Overall savings deposits, an important source of mortgage financing, increased 9.6% in the first nine months of 2007 as compared to the same period in 2006. This translated into an 81% increase in the amount of mortgages provided utilizing this source of funding over the same period. At the same time commercial banks are offering longer repayment terms and lower interest rates. Additionally, we are working closely with banks to streamline access to financing for our clients and intend to continue to play an important role in this process.

To date, we have created the infrastructure and teams to serve all segments of the population. Our long-established products, complimented by the acquisition of Alphaville earlier in the year, solidify our leadership position in serving the high and mid-high end of the population with a diverse product offering. In addition, we developed Fit Residencial to serve the low income market with increased access to financing through programs established by the Caixa Economica Federal (CEF) and commercial banks. We have already launched 3 projects in different geographies under the Fit brand. We also partnered with Odebrecht, one of Brazil's strongest construction and engineering players to put us in the best position to successfully develop the large scale housing and community infrastructure required to meet the needs of the low affordable entry level segment. We have already made substantial progress in this arena with a dedicated team in place, and a highly strategic initial land bank, which made it possible for us to accelerate the expected launch of our first project from the first half of 2008 to the end of the fourth quarter 2007.

Our strategy not only addresses segment diversification, but also geographic diversification. Gafisa's current land bank has grown to R\$8.9 billion, 61% of which is located outside of Sao Paulo and Rio, distributed over 118 different sites. This land bank represents future developments in all our targeted demographic segments. The Gafisa brand, reputation and diverse product offering has helped attract excellent partners that complement us with local market knowledge and access to high quality land. Our recent acquisition of Cipesa, a leader in the Northeastern state of Alagoas is a strong example of the result of a successful partnership.

While pre-sales is a strong current indicator of our ability to deliver an appropriate product to our target consumers, it is our investment in human capital that will assure our on-going ability to execute and deliver the most appropriate products on the market. We have dedicated teams developing, executing and selling the products that serve unique market segments. And, through our trainee program, we are guaranteeing that we will have a steady flow of expertise into the future. Our trainee program is among the top three largest and most competitive across all industries in Brazil.

Finally, I am very pleased to say that we are exceeding our earlier expectations in terms of launches and that our new initiatives, namely Fit and Bairro Novo, are evolving as planned and will play an important role in the future of this company. With this in mind, we are updating our guidance on launches and now expect to deliver a potential sales value of R\$1.9 billion for full year 2007 launches, and R\$3 billion for 2008.

We intend to continue to fortify our leadership position as a diversified homebuilder with a focus on long term profitable growth.

Wilson Amaral
CEO - Gafisa S.A.

Edgar Filing: Gafisa S.A. - Form 6-K

Recent Developments

Bairro Novo's land bank reached R\$468 million in potential sales value: The Company now has a land bank of R\$ 468 million and a professional management team in place focused on developing, managing and building the large scale Affordable Entry Level (AEL) projects in suburban areas. The company was inspired after the Mexican affordable housing model and will develop large standardized communities, complete with the necessary infrastructure. Given the quality of the land bank and certain permits that were already in place, we now expect to launch Bairro Novo's first project by the end of Q407 rather than in the first half of 2008. This project will be in the city of Cotia, in the state of Sao Paulo, in a 436 thousand square meter piece of land that will have a total of around 2,300 units (Gafisa's stake is 50% of this). The project will be divided into 5 launching phases and the first should bring a potential sales value of R\$ 15 million to Gafisa. Bairro Novo's first project will have an important role for developing the company's future strategy since we will be able to test many hypotheses regarding the product, the financing, and the marketing, consolidating our knowledge on this new and highly promising market.

Acquisition of Cipesa expands Gafisa reach in Northeast: At the end of October, Gafisa announced that it acquired a 70% stake in Cipesa, the leading homebuilder in the state of Alagoas. This acquisition strengthens the Company's long-term position in the North and Northeast and adds approximately R\$1.1 billion in land bank on a consolidated basis to Gafisa. The two companies have worked together since 2006 and under the current partnership agreement plan to launch R\$109 MM of new developments by the end of 2007. Gafisa and Cipesa will create a new company ("Cipesa Empreendimentos Imobiliarios") to be 70% owned by Gafisa and 30% owned by Cipesa, and this new entity will serve as the sole vehicle for Gafisa and Cipesa to develop projects in the states of Alagoas and Sergipe.

Fit Residencial increases its national footprint: With a land bank of R\$560 million in potential sales value, Fit Residencial is leveraging Gafisa's existing national relationships and expanding its footprint throughout Brazil. With the launch of Fit Coqueiro in Belem in the state of Para and Fit Citta in Salvador in the state of Bahia, FIT is providing local Gafisa partners with an entry strategy into the affordable entry level segment while building on Gafisa's overall strategy of segment and geographic diversification and closing deals with new partners.

Gafisa joins key Brazilian and emerging markets indices: In September Gafisa joined the Bovespa Index (Ibovespa), the main indicator of the Brazilian stock market's average performance and the IBrX-50, an index measuring the total return on a theoretical portfolio composed of 50 stocks selected among BOVESPA's most actively traded securities. Additionally, the Company is part of the MSCI Emerging Markets Index which is a free float-adjusted market capitalization index that is designed to measure equity market performance in the global emerging markets. Through the inclusion on these indices, Gafisa's stock has expanded opportunity for increased liquidity. Prior to joining the indices Gafisa traded a daily average of R\$38.1 million (or 1.3 million shares) and after joining the indices it increased an average R\$57.4 million (or 2.1 million shares).

[GRAPHIC]

Project Launches and Pre-Sales

Gafisa's project launches increased 90%, from R\$630 million in 9M06 to R\$1,200 million in 9M07. Following our strategy of diversification into high-potential, less explored markets, during 3Q07 Gafisa launched in Curitiba (in the state of Parana), Belem (in the state of Para), and Maceio (in the state of Alagoas); Fit Residencial launched in Salvador (in the state of Bahia) and in Belem (in the state of Para); and AlphaVille launched in Sao Luis (in the state of Maranhao). In 9M07, 51% of the launches were in new markets.

The decrease in the average price per square meter for the developments launched during 3Q07 (R\$2,333, compared to R\$2,760 during the same period in 2006) is due to entrance of Fit Residencial. Without Fit the the average price per square

Edgar Filing: Gafisa S.A. - Form 6-K

meter for 3Q07 would be R\$3,154 representing a growth of 14.3% compared to the same period last year.

The tables below detail new projects launched in the third quarter and the first 9 months of 2007:

[GRAPHIC]

Pre-sales increased by 56% for Q307 to R\$366.9 million from R\$235.3 million at Q306. For the 9M07 period increased 56% to R\$964.2 compared to R\$616.5 million during the same period in 2006. We have been experiencing very high overall sales velocity, even in the face of more intense competition, especially in the more traditional markets such as Sao Paulo and Rio de Janeiro.

Our diversification strategy is showing strong results, as we continue to launch and sell quickly in new markets as well. Our pre-sales in new markets increased 181%, and accounted for 44.9% of our total pre-sales in 3Q07.

In 3Q07, 58.6% of our pre-sales came from Gafisa's core business in the mid (MID) and mid-high (MHI) segments, while 39.3% came from LOTS and high income (HIG), affordable entry level (AEL) and commercial (COM) accounted for the remaining 2,0%. The large growth in the HIG and LOT segments refers to the launch of Supremo in the city of Sao Paulo and to the launches from AlphaVille. The real estate market is benefiting from rising consumer confidence, decreasing interest rates, expansion of loan terms and the strong inflow of commercial bank mortgages and this is positively impacting our ability to sell our products.

The tables below set forth a detailed breakdown of our pre-sales for the third quarter and the first nine months of 2007:

Table 5 - 3Q07 Pre-Sales by Segment

Operations

Gafisa now has 93 projects under construction in 15 different states. With a strong record of managing multiple construction sites spread over a wide geographical area, we believe Gafisa is uniquely positioned to deliver on an aggressive launch strategy.

Gafisa performs exceptionally well throughout all phases of our business cycle. We have a proven track record of delivering high quality standards on projects within budgeted construction costs and, in line with planned schedules. As the most geographically diversified homebuilder in Brazil we have built the know-how required to deliver quality projects in regions where challenges existed. For example, we have taught local service providers how to deliver materials that fit our quality standards. Furthermore, our integrated systems and solid controls have also supported our ability to continue to manage numerous construction sites all over the country in a high growth environment

Land Reserves

Consistent with our established land bank policies, the Company owns approximately R\$8.9 billion in its land bank composed of 118 different sites. The land bank totals 17.3 million square meters, which is equivalent to 79,684 units.

We have added the land bank owned by Bairro Novo and Cipesa. Bairro Novos's land bank totals R\$468 million, which is equivalent to 0.7 million square meters, and

Edgar Filing: Gafisa S.A. - Form 6-K

15,260 units. Cipesa's land bank totals R\$1,098 million, which is equivalent to 1.572 million square meters, and 5,342 potential units.

In accordance with our land bank diversification strategy, at the end of the quarter 61% of the consolidated land bank was outside of Rio de Janeiro and Sao Paulo. Our land bank reflects our strategy of servicing all segments of the homebuyer market. One of our goals going forward is to continue increasing Fit Residencial and Bairro Novo's land banks aimed at the Affordable Entry Level segment and the Low Affordable Entry Level segment, respectively.

The tables below show a detailed breakdown of our current land bank:

3Q07 - Revenues

Total net operating revenue for the three months ending September 30, 2007 rose 91% to R\$308.6 million from R\$161.5 million during the same period of the previous year. This growth was primarily due to the recognition of higher pre-sales from previous periods.

Revenues for 9M07 reached R\$799.4 million, a growth of 87.9% compared to the same period last year.

Revenues for the industry are recognized based on actual cost versus total budgeted costs of land and construction (Percentage of Completion method or PoC method) and the pre-sales portfolio is recognized in future periods even if the company has already completely pre-sold developments.

Edgar Filing: Gafisa S.A. - Form 6-K

[GRAPHIC]

The table below presents detailed information of pre-sales and recognized revenues by launch year:

Table 16 - Pre-sales x Recognized revenues

	3Q07

TOTAL	964,183	100.0%	799,419	100.0%	616,542	100.0%

3Q07 - Gross Profits

Gross profits for 3Q07 totaled R\$92.7 million (R\$240.8 million for 9M07), an increase of 63.7% compared to the third quarter of 2006 (84.2% versus 9M06). The gross margin for 3Q07 was 30.1% (30.1% for 9M07), 500 basis points (bps) lower than the same period of 2006 (60bps less than 9M06).

It is important to mention that 3Q06 gross profits benefited from R\$10 million in additional revenue (6.2% of 3Q06 net revenues) that came from higher interest inflows from accounts receivables.

3Q07 - Selling, General, and Administrative Expenses (SG&A)

Our aggressive growth strategy and investment in infrastructure for future growth leads to higher G&A expenses. 3Q07 growth as compared to 3Q06, is due to the consolidation of AlphaVille (R\$4.8 million), and the ramp-up of Fit Residencial (R\$2.4 million). Additionally, bonus provisions (R\$5.9 million), which were previously accrued at year end and are part of the G&A expenses now accrued on a quarterly basis.

Edgar Filing: Gafisa S.A. - Form 6-K

It is more appropriate to track SG&A expenses with the company's launches, than with revenues, as Gafisa expenses SG&A on a cash basis, and revenue recognition follows the percentage of completion method.

As can be seen on the table below, we have gained productivity in terms of selling expenses. We hope to dilute the G&A from our new initiatives soon, as these initiatives begin to contribute to our consolidated business with the revenues from their projects.

Table 18 - SG&A expenses

	3Q07	3Q06
Selling Expenses	18,941	15,874
G&A Expenses	28,173	11,900
SG&A	47,114	27,774
	9M07	9M06

G&A Expenses / Launches	6.2%	4.5%
SG&A / Launches	10.2%	10.2%

11

[GRAPHIC]

3Q07 - EBITDA

EBITDA for 3Q07 totaled R\$47.8 million (R\$122.5 million for the 9M07 period), 61% higher than the R\$29.8 million in 3Q06 (77% higher than the R\$ 69.2 million in 3Q06). As a percentage of net revenues, EBITDA decreased from 18.5% in 3Q06 to 15.5% in the 3Q07 (15.3% in 9M07 versus 16.3% in 9M06).

As we recognize 100% of expenses as they are incurred, but use the PoC method to recognize revenues, SG&A expense increases in advance of the revenues and has a material impact on our current EBITDA. As previously discussed, our aggressive growth strategy and investment in the requisite infrastructure for sustained long term growth led to higher SG&A expenses. Please refer to the 4Q06 Earnings Release for a detailed description of the SG&A accounting.

It is also important to mention that, starting in 2007, we are accruing our bonus provision on a quarterly basis. During 2006 we provisioned the yearly bonus fully in the last quarter, strongly impacting the quarter's EBITDA. The impact in 2007 will be distributed in all four quarters, with an R\$5.9 million provision in 3Q07, which represents 1.9% of net revenues.

Edgar Filing: Gafisa S.A. - Form 6-K

In order to make these impacts clearer, we have simulated what our EBITDA would look like under certain scenarios:

Table 19 - % of Net Revenues Taken from EBITDA Margin from:

	3Q07	9M07
Bonus Provision	1.9%	1.8%
Fit's EBITDA	0.9%	0.8%
Not deferring selling expenses	2.0%	1.4%

Total	4.8%	3.9%
	=====	

EBITDA Margin Without the Effect of:

	3Q07	9M07
Bonus Provision	17.4%	17.1%
Fit's EBITDA	16.4%	16.1%
Not deferring selling expenses	17.5%	16.7%

Total	20.3%	19.3%
	=====	

The above simulation's intent is to illustrate the impact our strategy of creating a start-up company to access the low-income market, as well as our chosen accounting methods would have on our EBITDA. Nevertheless, our correct EBITDA figures are the ones published on our financial statements.

3Q07 - Depreciation and Amortization

Depreciation and amortization in 3Q07 amounted to R\$2.0 million, an increase of 116.3% compared to the R\$0.9 million in 3Q06. In the 9M07 period, depreciation and amortization amounted to R\$12.6 million (of which R\$7.5 million are from the amortization of the goodwill generated from the AlphaVille acquisition), an increase of 373.9% compared to the R\$2.7 million in 9M06

In regards to the amortization of the goodwill generated from the AlphaVille acquisition, it is important to mention that we used a linear calculation for the 1Q07 and 2Q07 results. For 3Q07 and 4Q07 this figure will be equal to zero, and from 1Q08 on we will amortize this goodwill through a progressive exponential calculation following the EBIT, in the percentages described below:

Year 1	Year 2	Year 3	Year 4	Year 5	Year 6	Year 7	Year 8	Year 9	Year 10

4.49%	6.28%	7.22%	10.11%	11.52%	14.02%	11.78%	11.67%	11.45%	11.46%

12

[GRAPHIC]

3Q07 - Financial Results

Net financial results totaled a negative R\$ 3.4 million in 3Q07 (negative R\$15.0

Edgar Filing: Gafisa S.A. - Form 6-K

million for the 9M07 period) compared to a negative R\$ 0.5 million in 3Q06 (negative R\$3.4 million in 9M06). Financial expenses during 3Q07 totaled R\$15 million in 3Q07 (9M07 totaled R\$50.3 million), an increase of 7.5% over R\$ 13.9 million in 3Q06 (R\$44.2 million in 9M06). Financial income decreased from R\$ 13.4 million in 3Q06 (R\$40.7 million in 9M06) to R\$ 11.5 million in 3Q07 (R\$35.3 million in 9M07), primarily due to the effect in cash and cash equivalents of the lower interest rates.

3Q07 - Income Taxes

Net income taxes and social contribution for 3Q07 amounted to R\$8.7 million (R\$7.9 million in 9M07) versus R\$0.7 million in same period of last year (R\$ 2.7 million in 9M06). The lower figures in 2006 were mainly because of tax credits.

3Q07 - Net Income and Earnings per Share

Net income for 3Q07 was R\$30.9 million (10.0% of net revenues), R\$3.2 million or 11.8% higher than the net income of R\$27.7 million (17.1% of net revenues) registered in the same period of 2006.

For the 9M07 figure, adjusted net income was R\$80.7 million in 2007, versus R\$60.4 million in 2006, with 10.1% and 14.2% adjusted net margins, respectively.

Net earnings per share was R\$0.24 in 3Q07 (R\$0.65 for the 9M07 period) compared to net earnings per share of R\$0.27 in 3Q06 (R\$0.61 for the 9M06 period). Basic weighted average shares outstanding were 129 million in 3Q07 and 103 million in 3Q06.

Backlog of Revenues and Results

The backlog of results to be recognized under the PoC method reached R\$465 million in 3Q07, R\$175 million higher than the 3Q06 and R\$46 million more than 2Q07.

The table below shows our revenues, costs and results to be recognized, as well as the amount of the corresponding costs and the expected margin:

Table 20 - Revenues and results to be recognized (R\$000)

(for the period end)	3Q07	2Q07	3Q06(1)	3Q07 x 2Q07
Sales to be recognized--end of period	1,208.6	1,100.2	665.7	9.9%
Cost of units sold to be recognized - end of period	(743.5)	(681.4)	(375.0)	9.1%
Backlog of Results to be recognized	465.2	418.8	290.7	11.07%
Backlog Margin - yet to be recognized	38.5%	38.1%	43.7%	0.4 pp

Note: (1) In order to increase transparency and visibility of future earnings, during the fourth quarter ended December 31st 2006, the Company changed the accounting practice adopted with respect to the costs and earnings to be recognized in our backlog.

Edgar Filing: Gafisa S.A. - Form 6-K

Balance Sheet

Cash and Cash Equivalents

On September 30 2007, cash and cash equivalents were equal to R\$372 million, 25% lower than June 30, 2007 R\$496 million, and 13% higher than 3Q06's R\$330 million.

Accounts Receivables

Accounts receivable increased 89% to R\$2 billion in September 2007 when compared to the R\$1.1 billion figure of 3Q06, and 14% compared to the R\$1.7 billion that was registered in June 2007. In 3Q07, receivables of completed units (post-completion receivables) reached R\$304 million or 15% of the total accounts receivables.

Table 21 - Accounts Receivables from Clients

Real estate development receivables:	3Q07	3Q06	2Q07	3Q07 x 3Q06	3Q07 x 2

Total Accounts Receivables	2,035,333	1,078,008	1,791,071	88.80%	13.64

Inventory (Properties for Sale)

Our inventory includes land paid in cash, construction in progress, and finished units. Our inventory increased to R\$709.1 million in 3Q07, an increase of 85.0% as compared to the R\$383.1 million registered in 3Q06 due to recent land acquisitions in cash (more details in the "Land Reserves" section of this report) and developments under construction. It is important to note that the increase in units completed is due to the consolidation of AlphaVille.

The tables below details inventory for the 3Q07:

Table 22 - Inventory

Edgar Filing: Gafisa S.A. - Form 6-K

As of September 30 2007, our net debt to equity ratio was 0.3% compared to negative 10% in 3Q06 and negative 9% in 2Q07.

Outlook

At the end of 3Q07, Gafisa reached 72% of the guidance provided for full year 2007 launches. Therefore, we are increasing 2007 full year launch guidance to R\$1.9 billion (from R\$1.65 billion) given our accelerated schedule for the fourth quarter. The Company now expects an increase of 90% in consolidated project launches over 2006. Approximately R\$1.5 billion of the year's launches are expected to come from Gafisa's core business, R\$200 million from Fit Residencial, R\$200 million from AlphaVille.

For 2008, Gafisa expects to launch R\$3 billion for the consolidated company.

The Company continues to expect a full year 2007 EBITDA margin of between 15% and 16%.

Edgar Filing: Gafisa S.A. - Form 6-K

Glossary

Backlog of Results - As a result of the Percentage of Completion Method of recognizing revenues, we recognize revenues and expenses over a multi-year period for each residential unit we sell. Our backlog of results represents revenues minus costs that will be incurred in future periods from past sales.

Backlog of Revenues - As a result of the Percentage of Completion Method of recognizing revenues, we recognize revenues over a multi-year period for each residential unit we sell. Our backlog represents revenues that will be incurred in future periods from past sales.

Backlog Margin - Equals to "Backlog of results" divided "Backlog of Revenues" to be recognized in future periods.

Land Bank - Land that Gafisa holds for future development paid either in Cash or through swap agreements. Each decision to acquire land is analyzed by our investment committee and approved by our board of directors.

PoC Method - Under Brazilian GAAP, real estate development revenues, costs and related expenses are recognized using percentage-of-completion ("PoC") method of accounting by measuring progress towards completion in terms of actual costs incurred versus total budgeted expenditures for each stage of a development.

Pre-sales - Contracted pre-sales are the aggregate amount of sales resulting from all agreements for the sale of units entered into during a certain period, including new units and units in inventory. Contracted pre-sales will be recorded as revenue as construction progresses (PoC method). There is no definition of "contracted pre-sales" under Brazilian GAAP.

HIG (High Income) - segment with residential units sold at minimum price of R\$3,600 per square meter.

MHI (Mid-High) - segment with residential units sold at prices ranging from R\$2,800 to 3,600 per square meter.

MID (Middle Income) - segment with residential units sold at prices ranging from R\$2,000 to 2,800 per square meter.

AEL (Affordable Entry Level) - residential units targeted to the mid-low and low income segments with prices ranging from R\$1,500 to 2,000 per square meter.

LOT (Urbanized Lots) - land subdivisions, or lots, with prices ranging from R\$150 to R\$800 per square meter

COM (Commercial buildings) - Commercial and corporate units developed only for sale with prices ranging from R\$4,000 to R\$7,000 per square meter.

SFH Funds - Funds from SFH are originated from the Governance Severance Indemnity Fund for Employees (FGTS) and from savings accounts deposits. Banks are required to invest 65% of the total savings accounts balance in the housing sector, either to final customers or developers, at lower interest rates than the private market.

Swap Agreements - A system in which we grant the land-owner a certain number of units to be built on the land or a percentage of the proceeds from the sale of units in such development in exchange for the land. By acquiring land through this system, we intend to reduce our cash requirements and increase our returns.

Edgar Filing: Gafisa S.A. - Form 6-K

About Gafisa

We are one of Brazil's leading diversified national homebuilders. Over the last 50 years, we have been recognized as one of the foremost professionally-managed homebuilders, having completed and sold more than 900 developments and constructed over 37 million square meters of housing, which we believe is more than any other residential development company in Brazil. We believe "Gafisa" is one of the best-known brands in the real estate development market, enjoying a reputation among potential homebuyers, brokers, lenders, landowners and competitors for quality, consistency and professionalism.

This release contains forward-looking statements relating to the prospects of the business, estimates for operating and financial results, and those related to growth prospects of Gafisa. These are merely projections and, as such, are based exclusively on the expectations of management concerning the future of the business and its continued access to capital to fund the Company's business plan. Such forward-looking statements depend, substantially, on changes in market conditions, government regulations, competitive pressures, the performance of the Brazilian economy and the industry, among other factors; therefore, they are subject to change without prior notice.

Edgar Filing: Gafisa S.A. - Form 6-K

- 3Q07 Launches Increase 119% to R\$426 million and Pre-sales Increase 56% to R\$367 million --
- Land Bank Grows 44% from Previous Quarter to R\$8.9 billion --
- Company Updates 2007 Expectations for Launches and Provides 2008 Outlook --

Sao Paulo, November 7, 2007 - Gafisa S.A. (Bovespa: GFSA3; NYSE: GFA), one of Brazil's leading diversified national homebuilders, today reported its financial results for the third quarter (3Q07) and nine months ended September 30, 2007 (9M07). The following financial and operating information, unless otherwise indicated, was prepared and presented in accordance with Brazilian GAAP (BR GAAP) and in Brazilian Reals (R\$). Additionally, financial statements and operating information consolidate the numbers for Gafisa and its subsidiaries, and refer to Gafisa's stake (or participation) in its developments. To view a more detailed review of third quarter results filed with the Brazilian Comissao de Valores Mobiliarios ("CVM"), please visit Gafisa's website www.gafisa.com.br/ir.

Net operating revenue for the third quarter, recognized by the Percentage of Completion ("PoC") method, increased 91% to R\$309 million from R\$162 million in the prior year period. Backlog of Results to be recognized under the PoC method at the end of the third quarter reached R\$465 million (Backlog margin of 38.5%), an increase of 60% from the previous year's quarter.

Project launches during the quarter totaled R\$426 million, an increase of 119% over the same period in 2006. Pre-sales reached R\$366.9 million, an increase of 56% over the 3Q06 pre-sales of R\$235.3 million.

The Company's land bank is currently R\$8.9 billion of future sales, close to 3 times our 2008 potential launch value, and 44% higher than at the end of 2Q07. The increase is largely due to the addition of the Bairro Novo land bank of R\$468 million and R\$1.1 billion, corresponding to the 70% share of the land bank acquired through the Cipesa transaction. This acquisition gives Gafisa a strong foothold in the Northeast region of the country.

Selling, general and administrative (SG&A) expenses were R\$47.1 million in 3Q07 versus R\$27.8 million in the prior year. The increase in SG&A is primarily due to the Company's rapid expansion and management expenses associated with the new divisions targeting Brazil's lower income segments, Fit and Bairro Novo. Additionally, 3Q07 amounts include the consolidation of Alphaville and the implementation of quarterly accruals for bonuses during 2007.

EBITDA for the third quarter increased 61% to R\$47.8 million from R\$29.8 million in the prior year period. Net Income for the third quarter increased 12% to R\$30.9 million, or R\$0.24 per share from R\$27.7 million in the third quarter of 2006. Net Income taxes for the quarter were R\$8.7 million versus R\$0.7 million in 3Q06. The lower tax figures in 2006 were mainly due to utilized tax credits.

Nine month EBITDA reached R\$122 million (15.3% EBITDA margin) in 2007 versus R\$69 million (16.3% EBITDA margin) in 2006 and adjusted net income was R\$81 million (10.1% adjusted net margin) in 9M07 compared to R\$60.4 million (14.2% adjusted net margin) in 9M06.

Commenting on results, Wilson Amaral, chief executive officer of Gafisa S.A. said, "We continue to see robust growth in the Brazilian housing industry and strong prospects for accelerated growth in the future driven by increased access to financing, especially in the lower income population segments. Through Fit Residencial and Bairro Novo, we are now creating the conditions to lead the housing industry in serving the lower income segments of the population which we believe will fuel long term growth in the industry. And, while implementing these programs, we have continued to drive profitable growth across the organization."

Amaral continued, "I am very pleased with our third quarter and year to date operating and financial results. We are on track to meet our profitability targets and expect to exceed our earlier outlook for launches by year end 2007. We also expect significant growth in launches during 2008. In fact, we now expect the first launch of a Bairro Novo development targeting the lower income segment with large scale housing developments, to take place by the end of 4Q07 rather than in the first half of 2008. Bairro Novo's high quality land bank with certain existing permits allowed us to accelerate the launch of this project.

23

[GRAPHIC]

"Pre-sales, a strong indicator of Gafisa's ability to meet market demand, remain strong with year to date growth of 56%, reaching R\$964 million, while EBITDA increased 77% during the same period. We have also continued to launch new projects in diverse geographies at an unprecedented rate. During the first nine months of the year Gafisa's new developments reached nearly R\$1.2 billion."

Commenting on the Company's strategy, Amaral said, "To date, we have created the infrastructure and teams to serve all segments of the market. Our long-established products, complemented by the acquisition of Alphaville earlier in the year, solidify our leadership position in serving the high and mid-high end of the population with a differentiated product offering. Fit Residencial and Bairro Novo will serve the lower income markets with increased access to financing through programs established by the Caixa Economica Federal (CEF) and commercial banks. We have already launched 3 projects in diverse geographies under the Fit brand and are announcing today the expected launch of our first Bairro Novo project by the end of this year.

"Our strategy not only addresses segment diversification, but also geographic diversification. Gafisa's R\$8.9 billion land bank is distributed over 118 separate land parcels, 61% of which is located outside of Sao Paulo and Rio. The Gafisa brand, reputation and diverse products have helped attract excellent partners that complement Gafisa with local market knowledge and access to high quality land. Our recent acquisition of Cipesa, a leader in the Northeastern state of Alagoas was the result of a successful partnership.

"Our investment in human capital will assure our on-going ability to aggressively execute and deliver the most appropriate products on the market. We have dedicated teams developing, executing and selling the products that serve unique market segments. And, through our trainee program, we are guaranteeing that we will have a steady flow of expertise into the future. Our trainee program is among the top three largest and most competitive across all industries in Brazil.

"Finally, the underlying macroeconomic conditions are very favorable and we expect conditions to continue to improve for long term housing expansion. Overall savings deposits, an important source of mortgage financing, increased 9.6% in the first nine months of 2007 as compared to the same period in 2006. This translated into an 81% increase in the amount of mortgages provided utilizing this source of funding over the same period. Commercial banks are offering longer repayment periods and lower interest rates. Additionally, we are working closely with banks to streamline access to financing for our clients and intend to continue to play an important role in this process", concluded Amaral.

Outlook

Edgar Filing: Gafisa S.A. - Form 6-K

At the end of 3Q07, Gafisa reached 72% of the guidance provided for full year 2007 launches. Therefore, we are increasing 2007 full year launch guidance to R\$1.9 billion (from R\$1.65 billion) given our accelerated schedule for the fourth quarter. The Company now expects an increase of 90% in consolidated project launches over 2006. Approximately R\$1.5 billion of the year's launches are expected to come from Gafisa's core business, R\$200 million from Fit Residencial, R\$200 million from AlphaVille.

For 2008, Gafisa expects to launch R\$3 billion for the consolidated company.

The Company continues to expect a full year 2007 EBITDA margin of between 15% and 16%. Gafisa's core business continues to increase its EBITDA margin, but the consolidated figure will be impacted by the costs associated with ramping up Fit Residencial and Bairro Novo.

Conference Call

The management of Gafisa will host a conference call in English on November 8, 2007, at 9:00 a.m. EST/12:00 p.m. SP. To access the call, dial +1 (480) 293-1744 and enter the code # 3797967. A replay of the conference call will be available until November 08, 2007. To access the replay, dial +1 (303) 590-3030 and enter the code # 3797967. A live webcast of the conference call will be available on the internet at www.gafisa.com.br/ir.

About Gafisa

We are one of Brazil's leading diversified national homebuilders. Over the last 50 years, we have been recognized as one of the foremost professionally-managed homebuilders, having completed and sold more than 900 developments and constructed over 37 million square meters of housing, which we believe is more than any other residential development company in Brazil. We believe "Gafisa" is one of the best-known brands in the real estate development market, enjoying a reputation among potential homebuyers, brokers, lenders, landowners, and competitors for quality, consistency, and professionalism.

This release contains forward-looking statements relating to the prospects of the business, estimates for operating and financial results, and those related to growth prospects of Gafisa. These are merely projections and, as such, are based exclusively on the expectations of management concerning the future of the business and its continued access to capital to fund the Company's business plan. Such forward-looking statements depend, substantially, on changes in market conditions, government regulations, competitive pressures, the performance of the Brazilian economy and the industry, among other factors; therefore, they are subject to change without prior notice
