PROXY STATEMENT

This proxy statement is furnished in connection with the solicitation by the Board of Directors of Sevion Therapeutics, Inc., a Delaware corporation, referred to herein as the Company, Sevion, we, us or our, of proxies to be voted at our special meeting of stockholders to be held on December 7, 2017, referred to herein as the Meeting, at the offices of Morgan, Lewis & Bockius LLP at 502 Carnegie Center Drive, Princeton, New Jersey 08540, at 10:00 A.M., local time, and at any adjournment or adjournments thereof. The holders of record of our Common Stock, \$0.01 par value per share, referred to herein as Common Stock, as of the close of business on November 6, 2017, referred to herein as the Record Date, will be entitled to notice of and to vote at the Meeting and any adjournment or adjournments thereof. As of the Record Date, there were 51,414,613 shares of our Common Stock issued and outstanding and entitled to vote. Each share of our Common Stock is entitled to one (1) vote on any matter presented at the Meeting.

If proxies in the accompanying form are properly voted and received, the shares of our Common Stock represented thereby will be voted in the manner specified therein. If not otherwise specified, the shares of our Common Stock represented by the proxies will be voted:

FOR the proposal to approve the adoption of an amendment to the Company's Amended and Restated Certificate of Incorporation, as amended, to effect a reverse stock split at a ratio of not less than 1-for-2 and not more than 1-for-100, such ratio and the implementation and timing of such reverse stock split to be determined in the discretion of our Board of Directors at any time prior to the completion of the Transaction (as defined below);

FOR the proposal to approve one or more adjournments to the Meeting, if necessary or appropriate, to permit further solicitation of proxies if there are not sufficient votes at the time of the Meeting cast in favor of Proposal No. 1; and

3. In the discretion of the persons named in the enclosed form of proxy, FOR any other proposals which may properly come before the Meeting or any adjournment or adjournments thereof.

We must have a “quorum” to conduct business at the Meeting. The presence, in person or by proxy, of holders of shares of our Common Stock having a majority of the votes entitled to be cast at the Meeting shall constitute a quorum.

For shares held in “street name” through a broker or other nominee, the broker or nominee is generally required to vote such shares in the manner directed by its customer. In the absence of timely customer direction, the broker or nominee is permitted to exercise voting discretion only with respect to “routine” matters to be acted upon, and is not permitted to exercise voting discretion with respect to “non-routine” matters. If a stockholder does not give timely customer direction to its broker or nominee with respect to a “non-routine” matter, the shares represented thereby cannot be voted by the broker or nominee, also known as a “broker non-vote,” but will be counted in determining whether there is a quorum. Of the proposals described in this Proxy Statement, Proposal No. 1 and No. 2 are considered “routine” matters.

Proposal No. 1—*Approval of Reverse Split*. Approval of the adoption of an amendment to the Company’s Amended and Restated Certificate of Incorporation to effect a reverse stock split at a ratio of not less than 1-for-2 and not more than 1-for-100, such ratio and the implementation and timing of such reverse stock split to be determined in the discretion of our Board of Directors at any time prior to the completion of the Transaction (as defined below), requires the affirmative vote of our stockholders representing a majority of the outstanding shares of Common Stock as of the Record Date. Brokers are authorized to vote without instructions on this proposal. Abstentions are included in the shares present at the Meeting for purposes of determining whether a quorum is present, and are counted as a vote against the foregoing proposal for purposes of determining whether the proposal is approved.

Proposal No. 2—*Approval of One or More Adjournments to the Meeting*. Approval of one or more adjournments to the Meeting, if necessary, to permit further solicitation of proxies if there are not sufficient votes at the time of the Meeting cast in favor of Proposal No. 1, requires the affirmative vote of a majority of the shares of Common Stock voting in person at the Meeting or by proxy. Brokers are authorized to vote without instructions on this proposal. Abstentions are included in the shares present at the Meeting for purposes of determining whether a quorum is present, and are counted as a vote against the foregoing proposal for purposes of determining whether the proposal is approved.

Your vote is very important. Stockholders may vote their shares by using the proxy card enclosed with this proxy statement. All properly completed proxy cards delivered pursuant to this solicitation, whether via mail, telephone or the Internet, and not revoked, will be voted at the Meeting in accordance with the directions given. You may vote in favor of, against, or you may abstain from voting on the proposal. You should specify your respective choice on the proxy card. If you do not give specific instructions with regard to the matters to be voted upon, the shares of Common Stock represented by your completed proxy card will be voted in accordance with the Board of Director's recommendation. We strongly encourage you to submit your voting instructions and exercise your right to vote as a stockholder.

You may revoke your proxy and reclaim your right to vote up to and including the day of the Meeting by giving written notice of your revocation to the Corporate Secretary of Sevion, by timely delivery of a later dated proxy (including a telephone or Internet vote) or by voting in person at the Meeting. All written notices of revocation and other communications with respect to revocations of proxies should be addressed to: Corporate Secretary, Sevion Therapeutics, Inc., 10210 Campus Point Drive, Suite 150, San Diego, California 92121.

On or about November 17, 2017 this proxy statement, together with the related proxy card, is being mailed to our stockholders of record as of the Record Date.

Our Common Stock is quoted on the OTCQB Marketplace, operated by the OTC Markets Group, under the symbol "SVON." On the Record Date, the closing price for the Common Stock as reported by OTCQB Marketplace was \$0.29 per share.

PROPOSAL NO. 1

APPROVAL OF THE ADOPTION OF AN AMENDMENT TO THE COMPANY'S AMENDED AND RESTATED CERTIFICATE OF INCORPORATION, AS AMENDED, TO EFFECT A REVERSE STOCK SPLIT AT A RATIO OF NOT LESS THAN 1-FOR-2 AND NOT MORE THAN 1-FOR-100, SUCH RATIO AND THE IMPLEMENTATION AND TIMING OF SUCH REVERSE STOCK SPLIT TO BE DETERMINED IN THE DISCRETION OF OUR BOARD OF DIRECTORS AT ANY TIME PRIOR TO THE COMPLETION OF THE TRANSACTION.

Our Board of Directors has unanimously approved and declared advisable an amendment to the Company's Amended and Restated Certificate of Incorporation, as amended, to effect a reverse stock split of all issued and outstanding shares of our Common Stock, in a ratio of not less than 1-for-2 and not more than 1-for-100, in order to, among other things, assist the Company with its application to list its Common Stock on The Nasdaq Capital Market (as described below). The precise ratio of the proposed reverse stock split shall be a whole number within this range, determined in the sole discretion of our Board of Directors. It is expected that such determination, if any, shall occur at some time on or prior to completion of the Transaction (as defined below). By approving this proposal, stockholders will give our Board of Directors authority, but not the obligation, to effect the reverse stock split and full discretion to approve the ratio at which shares of Common Stock will be automatically reclassified, from and including a ratio of 1-for-2 and up to and including a ratio of 1-for-100. Our Board of Directors believes that providing our Board of Directors with this grant of authority with respect to setting the reverse split ratio, rather than approval of a pre-determined reverse stock split ratio, will give our Board of Directors the flexibility to set the ratio in accordance with current market conditions and, therefore, allow our Board of Directors to act in the best interests of the Company and our stockholders.

In determining the ratio following the receipt of stockholder approval, our Board of Directors may consider, among other things, factors such as:

• the historical trading price and trading volume of our Common Stock;

- the then-prevailing trading price and trading volume of our Common Stock and the anticipated impact of the reverse stock split on the trading market for our Common Stock;

• the number of shares of our Common Stock then outstanding, and the number of shares of Common Stock issuable upon exercise of options and warrants then outstanding;

- the anticipated impact of a particular ratio on our ability to reduce administrative and transactional costs;

prevailing general market and economic conditions; and

the initial listing criteria of The Nasdaq Capital Market.

If our stockholders approve this proposal and our Board of Directors does not otherwise abandon the amendment contemplating the reverse stock split, we will file a Certificate of Amendment to the Company's Amended and Restated Certificate of Incorporation with the Secretary of State of the State of Delaware (the "Delaware Secretary of State") to effect the proposed reverse stock split, in the form attached to this proxy statement as *Appendix A*. Our Board of Directors has approved and declared advisable the proposed amendment to the Company's Amended and Restated Certificate of Incorporation as set forth in the Certificate of Amendment, in the form attached to this proxy statement as *Appendix A*. If the proposed reverse stock split is effected, then the number of issued and outstanding shares of our Common Stock would be reduced. Our Board of Directors has reserved the right to abandon the amendment at any time before the effectiveness of the filing of the Certificate of Amendment with the Delaware Secretary of State, even if the adoption of the amendment is approved by the stockholders. If the Certificate of Amendment is not filed with the Delaware Secretary of State prior to June 30, 2018, our Board of Directors will abandon the amendment and the reverse stock split will not be effected.

Purpose of Proposed Reverse Stock Split

On May 31, 2017, the Company, Sevion Sub Ltd., an Israeli company (“Acquisition Sub”), which is a wholly-owned subsidiary of the Company, and Eloxx Pharmaceuticals Ltd., an Israeli company (“Eloxx”), entered into an Agreement (the “Agreement”), pursuant to which, subject to the satisfaction or waiver of the conditions set forth in the Agreement, Acquisition Sub will merge with and into Eloxx, with Eloxx as the surviving corporation and a wholly-owned subsidiary of the Company (the “Transaction”). We are submitting this proposal to our stockholders for approval in connection with the Agreement and the Transaction.

In connection with the Transaction, we have submitted an application to The Nasdaq Capital Market for “uplisting” of our Common Stock from the OTCQB Marketplace to The Nasdaq Capital Market. The Nasdaq Capital Market requires, among other criteria, an initial bid price of at least \$3.00 per share and, following initial listing, maintenance of a continued price of at least \$1.00 per share. On the Record Date, the sale price of our Common Stock on the OTCQB was \$0.29 per share. A decrease in the number of issued and outstanding shares of our Common Stock resulting from the reverse stock split should, absent other factors, assist in ensuring that our per share market price of our Common Stock remains above the required price. However, we cannot provide any assurance that (i) we will pursue a listing on The Nasdaq Capital Market, or (ii) even if we do, our minimum bid price would remain over the minimum bid price requirement of The Nasdaq Capital Market following the reverse stock split.

We believe increasing the trading price of our Common Stock will assist in meeting the initial listing criteria of The Nasdaq Capital Market and is our best option to meet the initial bid price criteria to obtain an initial listing. Accordingly, we believe that the reverse stock split is in our stockholders’ best interests.

In addition, an increase in the per share trading value of our Common Stock would be beneficial to us because it would:

- improve the perception of our Common Stock as an investment security;
- reset our stock price to more normalized trading levels in the face of potentially extended market dislocation;
- appeal to a broader range of investors to generate greater investor interest in us; and
- reduce stockholder transaction costs because investors would pay lower commission to trade a fixed dollar amount of our stock if our stock price were higher than they would if our stock price were lower.

Potential Effects of the Proposed Reverse Stock Split

If this proposal is approved and the reverse stock split is effected, the reverse stock split will be realized simultaneously and in the same ratio for all of our issued and outstanding shares of Common Stock. The immediate effect of a reverse stock split would be to reduce the number of shares of our Common Stock outstanding and to increase the trading price of our Common Stock.

However, we cannot predict the effect of any reverse stock split upon the market price of our Common Stock over an extended period, and in many cases, the market value of a company's Common Stock following a reverse stock split declines, in many cases, because of variables outside of a company's control (such as market volatility, investor response to the news of a proposed reverse stock split and the general economic environment). We cannot assure you that the trading price of our Common Stock after the reverse stock split will rise in inverse proportion to the reduction in the number of shares of our Common Stock outstanding as a result of the reverse stock split. Also, we cannot assure you that a reverse stock split would lead to a sustained increase in the trading price of our Common Stock. The trading price of our Common Stock may change due to a variety of other factors, including our operating results and other factors related to our business and general market conditions. You should also keep in mind that the implementation of a reverse stock split does not have an effect on the actual or intrinsic value of our business or a stockholder's proportional ownership in our Company. However, should the overall value of our Common Stock decline after the proposed reverse stock split, then the actual or intrinsic value of the shares of our Common Stock held by you will also proportionately decrease as a result of the overall decline in value.

Examples of Potential Reverse Stock Split at Various Ratios. The table below provides examples of reverse stock splits at various ratios up to 1-for-100, without giving effect to the treatment of fractional shares. The actual number of shares outstanding after giving effect to the reverse stock split, if effected, will depend on the actual ratio that is determined by our Board of Directors in accordance with the amendment to the Company's Amended and Restated Certificate of Incorporation.

Shares outstanding at November 6, 2017	Reverse Stock Split Ratio	Shares outstanding after Reverse Stock Split	Reduction in Shares Outstanding	
51,414,613	1-for-2	25,707,306	50	%
51,414,613	1-for-5	10,282,922	80	%
51,414,613	1-for-10	5,141,461	90	%
51,414,613	1-for-50	1,028,292	98	%
51,414,613	1-for-100	514,146	99	%

The resulting decrease in the number of shares of our Common Stock outstanding could potentially adversely affect the liquidity of our Common Stock, especially in the case of larger block trades.

Effects on Ownership by Individual Stockholders. If we implement a reverse stock split, the number of shares of our Common Stock held by each stockholder would be reduced by multiplying the number of shares held immediately before the reverse stock split by the appropriate ratio and then rounding down to the nearest whole share. We would pay cash to each stockholder in lieu of any fractional interest in a share to which each stockholder would otherwise be entitled as a result of the reverse stock split, as described in further detail below. The reverse stock split would not affect any stockholder's percentage ownership interest in our Company or proportionate voting power, except to the extent that interests in fractional shares would be paid in cash.

Effect on Restricted Stock Units, Stock Options, Warrants. In addition, we would adjust all outstanding shares of any restricted stock units, stock options and warrants entitling the holders to purchase shares of our Common Stock as a result of the reverse stock split, as required by the terms of these securities. In particular, we would reduce the conversion ratio for each security, and would increase the exercise price in accordance with the terms of each security based on the 1-for-2, up to 1-for-100 ratio of the reverse stock split (i.e., the number of shares issuable under such securities would decrease by 50%, up to 99%, respectively, and the exercise price per share would be multiplied by 2, up to 100, respectively). Also, we would reduce the number of shares reserved for issuance under our existing 2008 Incentive Compensation Plan, or the 2008 Plan, proportionately based on the ratio of the reverse stock split. A reverse stock split would not otherwise affect any of the rights currently accruing to holders of our Common Stock, or options or warrants exercisable for our Common Stock.

Other Effects on Issued and Outstanding Shares. If we implement a reverse stock split, the rights pertaining to the issued and outstanding shares of our Common Stock would be unchanged after the reverse stock split. Each share of our Common Stock issued following the reverse stock split would be fully paid and nonassessable.

The reverse stock split would result in some stockholders owning "odd-lots" of less than 100 shares of our Common Stock. Brokerage commissions and other costs of transactions in odd-lots are generally higher than the costs of transactions in "round-lots" of even multiples of 100 shares.

After the effective time, our Common Stock will have a new Committee on Uniform Securities Identification Procedures (CUSIP) number, which is a number used to identify our equity securities, and stock certificates with the older CUSIP number will need to be exchanged for shares of Common Stock with the new CUSIP number by following the procedures described below. However, until such exchange is made, the old stock certificates will automatically represent the new, post-split number of shares. After the reverse stock split, we will continue to file periodic reports and comply with other requirements of the Exchange Act. Our Common Stock will continue to be listed on the OTCQB under the symbol "SVON" until such time as we change our ticker symbol to reflect the planned change of our corporate name to Eloxx Pharmaceuticals, Inc. in connection with closing of the Transaction.

Authorized Shares of Stock

The reverse stock split would affect all issued and outstanding shares of Common Stock and outstanding rights to acquire Common Stock. We will not change the number of shares of Common Stock currently authorized. However, upon the effectiveness of the reverse stock split, the number of authorized shares of Common Stock that are not issued or outstanding would increase due to the reduction in the number of shares of Common Stock issued and outstanding as a result of the reverse stock split.

As of the Record Date, we had (i) 505,000,000 shares of authorized Common Stock, par value \$0.01 per share, of which 51,414,613 shares of Common Stock were issued and outstanding, and (ii) 5,000,000 shares of authorized preferred stock, par value \$0.01 per share, of which no shares were issued and outstanding. If we issue additional shares, the ownership interest of holders of Common Stock will be diluted.

We will reserve for issuance any authorized but unissued shares of Common Stock that would be made available as a result of the proposed reverse stock split.

We do not have any plans, arrangements or understandings for the remaining portion of the authorized but unissued shares that will be available following the reverse stock split.

Procedure for Effecting the Proposed Stock Split and Exchange of Stock Certificates

If stockholders approve this proposal and our Board of Directors does not otherwise abandon the amendment contemplating the reverse stock split, we will file with the Delaware Secretary of State a Certificate of Amendment to our Amended and Restated Certificate of Incorporation, in the form attached to this proxy statement as *Appendix A*.

The reverse stock split will become effective at the time and on the date of filing of, or at such later time as is specified in, the Certificate of Amendment, which we refer to as the “effective time.” Beginning at the effective time, each certificate representing shares of Common Stock will be deemed for all corporate purposes to evidence ownership of the number of whole shares into which the shares previously represented by the certificate were combined pursuant to the reverse stock split.

Upon the reverse stock split, we intend to treat stockholders holding our Common Stock in “street name,” through a bank, broker or other nominee, in the same manner as registered stockholders whose shares are registered in their names. Banks, brokers or other nominees will be instructed to effect the reverse stock split for their beneficial holders holding our Common Stock in “street name.” However, these banks, brokers or other nominees may have different procedures than registered stockholders for processing the reverse stock split. If you hold your shares with a bank, broker or other nominee and if you have any questions in this regard, we encourage you to contact your nominee.

Following the reverse stock split, stockholders holding physical certificates must exchange those certificates for new certificates and a cash payment in lieu of any fractional shares.

Our transfer agent will advise registered stockholders of the procedures to be followed to exchange certificates in a letter of transmittal to be sent to stockholders. No new certificates will be issued to a stockholder until the stockholder has surrendered the stockholder’s outstanding certificate(s), together with the properly completed and executed letter of transmittal, to the transfer agent. Any old shares submitted for transfer, whether pursuant to a sale, other disposition or otherwise, will automatically be exchanged for new shares. **Stockholders should not destroy any stock certificate(s) and should not submit any certificate(s) until requested to do so.**

Fractional Shares

We would not issue fractional shares in connection with the reverse stock split. Instead, any fractional share resulting from the reverse stock split because the stockholder owns a number of shares not evenly divisible by the ratio would instead receive cash upon surrender to the exchange agent of the certificates and a properly completed and executed letter of transmittal. The cash amount to be paid to each stockholder would be equal to the resulting fractional interest in one share of our Common Stock to which the stockholder would otherwise be entitled, multiplied by the closing trading price of our Common Stock on the trading day immediately preceding the effective date of the reverse stock split. We do not anticipate that the aggregate cash amount paid by the Company for fractional interests will be material to the Company.

No Appraisal Rights

No appraisal rights are available under the General Corporation Law of the State of Delaware or under our Amended and Restated Certificate of Incorporation, as amended, or our Amended and Restated bylaws with respect to the reverse stock split. There may exist other rights or actions under state law for stockholders who are aggrieved by reverse stock splits generally.

Accounting Consequences

The par value of our Common Stock would remain unchanged at \$0.01 per share after the reverse stock split. Also, our capital account would remain unchanged, and we do not anticipate that any other accounting consequences would arise as a result of the reverse stock split.

No Going Private Transaction

Notwithstanding the decrease in the number of outstanding shares following the reverse stock split, our Board of Directors does not intend for this transaction to be the first step in a “going private transaction” within the meaning of Rule 13e-3 of the Exchange Act.

Potential Anti-Takeover Effect

SEC rules require disclosure and discussion of the effects of any proposal that could be used as an anti-takeover device. This proposal, if adopted and implemented, will result in a relative increase in the number of authorized but unissued shares of our Common Stock vis-à-vis the outstanding shares of our Common Stock and could, under certain circumstances, have an anti-takeover effect, although that is not the purpose or intent of the proposal. A relative increase in the number of authorized but unissued shares of Common Stock could have other effects on our stockholders, depending upon the exact nature and circumstances of any actual issuances of authorized shares. A relative increase in our authorized but unissued shares of Common Stock could potentially deter takeovers, including takeovers that our Board of Directors determines are not in the best interest of our stockholders, in that additional shares could be issued (within the limits imposed by applicable law) in one or more transactions that could make a change in control or takeover more difficult. Our Board of Directors is not aware of any attempt to take control of our business and has not considered the reverse stock split to be a tool to be utilized as a type of anti-takeover device. We currently have no plans, proposals or arrangements to issue any shares of Common Stock that would become newly available for issuance as a result of the reverse stock split.

Material U.S. Federal Income Tax Consequences of the Reverse Stock Split

The following is a summary of the material U.S. federal income tax consequences of the reverse stock split to holders of our shares. This summary is based on the Internal Revenue Code of 1986, as amended (the “Code”), the Treasury regulations promulgated thereunder, and administrative rulings and court decisions in effect as of the date of this document, all of which may be subject to change, possibly with retroactive effect. This summary only addresses holders who hold their shares as capital assets within the meaning of the Code and does not address all aspects of U.S. federal income taxation that may be relevant to holders subject to special tax treatment, such as financial institutions, dealers in securities, insurance companies, foreign persons and tax-exempt entities. In addition, this summary does not consider the effects of any applicable state, local, foreign or other tax laws.

We have not sought and will not seek any ruling from the Internal Revenue Service (the “IRS”), or an opinion from counsel with respect to the U.S. federal income tax consequences discussed below. There can be no assurance that the tax consequences discussed below would be accepted by the IRS or a court. The tax treatment of the reverse stock split to holders may vary depending upon a holder’s particular facts and circumstances.

We urge holders to consult with their own tax advisors as to any U.S. federal, state, local or foreign tax consequences applicable to them that could result from the reverse stock split.

Except as described below with respect to cash received in lieu of fractional shares, the receipt of Common Stock in the reverse stock split should not result in any taxable gain or loss to a holder for U.S. federal income tax purposes. The aggregate tax basis of the Common Stock received by a holder as a result of the reverse stock split (including the basis of any fractional share to which a holder is entitled) will be equal to the aggregate basis of the existing Common Stock exchanged for such stock. A holder’s holding period for the Common Stock received in the reverse stock split will include the holding period of the Common Stock exchanged therefor.

A holder who receives cash in lieu of a fractional share of Common Stock will be treated as first receiving such fractional share and then receiving cash in redemption of such fractional share. A holder generally will recognize capital gain or loss on such deemed redemption in an amount equal to the difference between the amount of cash received and the adjusted basis of such fractional share.

Board Discretion to Implement the Reverse Stock Split

Our Board of Directors has reserved the right to abandon the amendment at any time before the effectiveness of the filing of the Certificate of Amendment with the Delaware Secretary of State, even if the adoption of the amendment is approved by the stockholders.
