FORWARD-LOOKING STATEMENTS

The following information provides cautionary statements under the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 (the Reform Act). We identify important factors that could cause our actual results to differ materially from those projected in forward-looking statements we make in this report or in other documents that reference this report. All statements that express, or involve discussions as to, expectations, beliefs, plans, objectives, assumptions or future events or performance (often, but not always, identified through the use of words or phrases such as we or our management believes, expects, anticipates, hopes, words or phrases such as will result, are expected to, will continue, is anticipated, estimated, projection and outlook, and words of similar import) are not statements of historical facts and may be forward-looking. These forward-looking statements are based largely on our expectations and are subject to a number of risks and uncertainties including, but not limited to, economic, competitive, regulatory, growth strategies, available financing and other factors discussed elsewhere in this report and in the documents filed by us with the Securities and Exchange Commission ("SEC"). Many of these factors are beyond our control. Actual results could differ materially from the forward-looking statements we make in this report or in other documents that reference this report. In light of these risks and uncertainties, there can be no assurance that the results anticipated in the forward-looking information contained in this report or other documents that

reference this report will, in fact, occur.

These forward-looking statements involve estimates, assumptions and uncertainties, and, accordingly, actual results could differ materially from those expressed in the forward-looking statements. These uncertainties include, among others, the following: (i) the inability of our broker-dealer operations to operate profitably in the face of intense competition from larger full service and discount brokers; (ii) a general decrease in merger and acquisition activities and our potential inability to receive success fees as a result of transactions not being completed; (iii) increased competition from business development portals; (iv) technological changes; (v) our potential inability to implement our growth strategy through acquisitions or joint ventures; and (vi) our potential inability to secure additional debt or equity financing.

Any forward-looking statement speaks only as of the date on which such statement is made, and we undertake no obligation to update any forward-looking statement or statements to reflect events or circumstances after the date on which such statement is made or to reflect the occurrence of unanticipated events. New factors emerge from time to time and it is not possible for our management to predict all of such factors, nor can our management assess the impact of each such factor on the business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

vFinance, Inc.
Notes to Condensed Consolidated Financial Statements
March 31, 2002
(Unaudited)

1. DESCRIPTION OF BUSINESS

vFinance, Inc. is a "new-breed" financial services enterprise committed to building a worldwide audience of individuals looking to create wealth through their equity investments and businesses and the name change reflects the broader scope of services. The Company principally operates in one business segment, investment management services, consisting primarily of financial services, including retail brokerage and investment banking.

The Company conducts its broker/dealer operations and investment banking and consulting through vFinance Investments, Inc, a licensed broker dealer. It also operates its vFinance.com website through vFinance Holdings, Inc. and manages Critical Infrastructure Fund (BVI) LP through vFinance Advisors, LLC and vFinance Investors, LLC.

2. SIGNIFICANT ACCOUNTING POLICIES AND OTHER MATTERS

Basis of Presentation

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All intercompany accounts have been eliminated in consolidation. Certain amounts for the prior year financial statements have been reclassified to conform to the current year presentation.

Revenue Recognition

The Company earns revenue (commissions) from brokerage and trading which are recognized on the day of the trade - trade date basis. The Company also earns revenue from investment banking and consulting. Monthly retainer fees for investment banking and consulting are recognized as services are provided. Investment banking success fees are generally based on a percentage of the total value of a transaction and are recognized upon successful completion.

The Company does not require collateral from its customers. Revenues are not concentrated in any particular region of the country or with any individual or group.

The Company periodically receives equity instruments and stock purchase warrants from companies as part of its compensation for investment-banking services that are classified as investments in trading securities on the balance sheet, if still held at the financial reporting date. Primarily all of the equity instruments are received from small public companies. Generally, such stock purchase warrants are considered derivatives. The Company adopted Financial Accounting Standards Board Statement No. 133, ACCOUNTING FOR DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES, ("SFAS No. 133") on January 1, 2000. The Company recognizes revenue for such stock purchase warrants when received based on the Black Scholes valuation model. On a monthly basis the Company recognizes unrealized gains or losses in the statement of operations based on the changes in value in the stock purchase warrants as determined by the Black Scholes valuation model.

Occasionally, the Company receives equity instruments in private companies with no readily available market value. Equity interests and warrants for which there is not a public market are valued based on factors such as significant equity financing by sophisticated, unrelated new investors, history of positive cash flow from operations, the market value of comparable publicly traded companies (discounted for liquidity) and other pertinent factors. Management also

Edgar Filing: VFINANCE INC - Form 10QSB

considers recent offers to purchase a portfolio

7

company's securities and the filings of registration statements in connection with a portfolio company's initial public offering when valuing warrants.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the accompanying financial statements. Actual results may differ from those estimates, and such differences may be material to the financial statements.

Cash and cash equivalents

Cash and cash equivalents include all highly liquid investments with maturities of three months or less when purchased.

Investments

Investments are classified as trading securities and are held for resale in anticipation of short-term market movements or until such securities are registered or are otherwise unrestricted. Trading account assets, consisting of marketable equity securities and stock purchase warrants, are stated at fair value. At March 31, 2002 and 2001, investments consisted of common and preferred stock and stock purchase warrants held for resale. Realized gains or losses are recognized in the statement of operations when the related stock purchase warrant is exercised and the underlying shares are sold. Unrealized gains or losses are recognized in the statement of operations on a monthly basis based on changes in the fair value of the security as quoted on national or inter-dealer stock exchanges.

New Accounting Standards

In July 2001, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 142, GOODWILL AND OTHER INTANGIBLE ASSETS ("FAS 142"). Under the provisions of FAS 142, goodwill and indefinite lived intangible assets are no longer amortized, but are reviewed annually for impairment. Separable intangible assets that are not deemed to have an indefinite life will continue to be amortized over their useful lives. The Company adopted the new accounting rules beginning January 1, 2002. Management is currently assessing the financial impact FAS 142 will have on the consolidated financial statements, but does not believe it will not be material.

In August 2001, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 144, ACCOUNTING FOR THE IMPAIRMENT OR DISPOSAL OF LONG-LIVED ASSETS ("FAS 144"), which addresses financial accounting and reporting for the impairment or disposal of long-lived assets and supersedes SFAS No. 121, ACCOUNTING FOR THE IMPAIRMENT OF LONG-LIVED ASSETS AND FOR LONG-LIVED ASSETS TO BE DISPOSED OF, and the accounting and reporting provisions of APB Opinion No. 30, REPORTING THE RESULTS OF OPERATIONS - REPORTING THE EFFECTS OF DISPOSAL OF A SEGMENT OF A BUSINESS, AND EXTRAORDINARY, UNUSUAL AND INFREQUENTLY OCCURRING EVENTS AND TRANSACTIONS ("APB 30"). The Company adopted the new accounting rules beginning January 1, 2002. Management is currently assessing the financial impact FAS 144 will have on the consolidated financial statements, but does not believe it will be material because the Company wrote off most goodwill at December 31, 2001.

Stock Based Compensation

Edgar Filing: VFINANCE INC - Form 10QSB

The Company has elected to follow Accounting Principles Board Opinion No. 25, ACCOUNTING FOR STOCK ISSUED TO EMPLOYEES ("APB 25"), and related interpretations in accounting for its employee stock options and employee stock purchase warrants because the alternative fair value accounting provided for under Statement of Financial Accounting Standards No. 123, ACCOUNTING FOR STOCK BASED COMPENSATION ("SFAS 123"), requires the use of option valuation models that were not developed for

8

use in valuing employee stock options. Under APB 25, if the exercise price of the Company's employee stock options or stock purchase warrants equals or exceeds the market price of the underlying stock on the date of grant no compensation expense is recognized.

Fair Value of Financial Instruments

The fair values of the Company's financial instruments, which includes cash and cash equivalents, accounts receivable, investments, accounts payable, and accrued expenses approximate their carrying values.

The Company's financial instruments that are exposed to concentrations of credit risk consist primarily of cash and cash equivalents and accounts receivable. The Company places its cash with high quality FDIC-insured financial institutions.

Goodwill

The carrying values of goodwill as well as other long-lived assets will be tested annually under FAS 142. If this review indicates that the assets will not in part or fully be recoverable, as determined based on the undiscounted estimated cash flows of the Company, the Company's carrying values of the assets would be reduced to their estimated fair values in accordance with FAS 144.

Income Taxes

The Company accounts for income taxes under the liability method in accordance with Statement of Financial Accounting Standards No. 109, ACCOUNTING FOR INCOME TAXES. Under this method, deferred income tax assets and liabilities are determined based on differences between the financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse.

Earnings per Share

The Company calculates earnings per share in accordance with Statement of Financial Accounting Standards No. 128, EARNINGS PER SHARE ("SFAS No. 128"). In accordance with SFAS No. 128, basic earnings per share is computed using the weighted average number of shares of common stock outstanding and diluted earnings per share is computed using the weighted average number of shares of common stock and the dilutive effect of options and warrants outstanding, using the "treasury stock" method.

3. IMPAIRMENT OF GOODWILL

Management determined that, as of December 31, 2001, a write-down of the goodwill related to the NW Holdings acquisition was necessary as the Company's projections of the future operating results of First Level indicated impairment. Based on such projections and other analysis the Company took an impairment charge aggregating \$876,000 related to NWH goodwill. Goodwill remaining as of December 31, 2001 and March 31, 2002 totaled \$420,000.

Edgar Filing: VFINANCE INC - Form 10QSB

4. INCOME TAXES

Deferred income taxes reflect the net income tax effect of temporary differences between the carrying amounts of the assets and liabilities for financial reporting purposes and amounts used for income taxes.

5. SHAREHOLDER'S EQUITY

On November 28, 2001, the Company entered into a Note Purchase Agreement, as amended by subsequent letter agreements dated November 30, 2001, December 14, 2001, and December 28, 2001, February 13, 2002 and March 4, 2002 (collectively, the "Note Purchase Agreement"), with SBI Investments (USA) Inc. ("SBI"). Under the terms of the Note Purchase Agreement, SBI may provide a subordinated loan to

9

the Company of up to \$1,500,000 in the form of a 48-month non-interest bearing, convertible note. As of December 31, 2001, the Company had received \$975,000 under the Note Purchase Agreement and may receive, at SBI's option alone, an additional \$525,000 no later than June 30, 2002. The note, if and only if fully funded by SBI, is convertible, at SBI's option, into as many as 5,263,158 shares of our common stock at \$0.285 per share. The Company, at any time during the first three years of the agreement, can call for redemption of the note for \$1,750,000, canceling the option or forcing the conversion of the note into shares of common stock.

Further, if SBI funds the full amount of the loan, SBI will become a party to an Investor Right Agreement and, as additional consideration the Company will issue to SBI an option to purchase up to that number of shares of its common stock equal to 1,500,000 divided by the average closing bid and ask price of its common stock for the 20 consecutive trading days preceding the date of SBI's exercise notice to the Company, but in no event will the per share price be more than \$0.336 or less than \$0.23. The Note Purchase Agreement was amended to extended the expiration date of the option past June 30, 2002 as the date for the funding of the third Tranche was extended.

In accordance with EITF Issue No. 00-27, APPLICATION OF ISSUE NO. 98-5, ACCOUNTING FOR CONVERTIBLE SECURITIES WITH BENEFICIAL CONVERSION FEATURES OF CONTINGENTLY ADJUSTABLE CONVERSION RATIOS, TO CERTAIN CONVERTIBLE INSTRUMENTS, the Company recorded a beneficial conversion feature related to the Note Purchase Agreement of \$975,000, which is measured as the difference between the effective conversion price of the debt and the fair value into which the Note is convertible. The principal balance of this Note was discounted with a corresponding increase in additional paid-in capital by such amount. The debt discount will be accreted ratably at \$60,988 per quarter, over the term of the loan as additional interest expense.

The Company has elected to follow Accounting Principle Board Opinion No. 25, Accounting for Stock Issued to Employees ("APB 25"), and related interpretations in accounting for its employee stock options because the alternative fair value accounting provided under FASB Statement No. 123, ACCOUNTING FOR STOCK-BASED COMPENSATION, ("SFAS 123") requires the use of option valuation models that were not developed for use in valuing employee stock options. As permitted, the Company adopted the disclosure alternative of SFAS 123. Under APB 25, when the exercise price of the Company's stock options equals or exceeds the fair value of the underlying stock on the date of grant, no compensation expense is recorded.

6. DEBT

On January 25, 2002, the Company entered into a Credit Agreement with UBS Americas, Inc. ("UBS"). Under the terms of the Credit Agreement, UBS provided a revolving credit facility of up to \$3,000,000 to the Company for the purpose of supporting the expansion of its brokerage business or investments in infrastructure to expand its operations or its broker-dealer operations. The loan has a term of 4 years, must be repaid in full by January 2005, and bears interest at one month LIBOR plus a LIBOR margin of 2% if the loan is repaid within a month or 5% if it is outstanding more than a month. Among other covenants, Section 5.10 of the Credit Agreement requires the Company to maintain shareholder's equity of at least \$7,000,000. On April 12, 2002 UBS waived this requirement of the Credit Agreement to the extent necessary to exclude the Company's write-off of goodwill aggregating \$8,852,020 included in the Company's consolidated financial statements for the year ended December 31, 2001.

The Company must make early repayments under the Credit Agreement if it acquires a new broker dealer firm, enters a new line of business, or hires more than 4 brokers in a single or related transaction. This repayment is made by adding \$1.00 to the cost of each incremental clearing transaction the Company makes through CSC, a wholly owned subsidiary of Paine Webber which is a wholly owned subsidiary of UBS. The Company has not, to date, entered into a transaction that would trigger any repayment. The Company borrowed \$1,500,000 under the credit facility on January 28, 2002. The Credit Agreement does not provide for conversion of the debt into equity securities.
