EXPLANATORY NOTE - AMENDMENT

ArvinMeritor, Inc. (the “company” or “ArvinMeritor”) is filing this Form 10-K/A to include in its Annual Report on Form 10-K for the fiscal year ended September 30, 2007 (the “Annual Report”), pursuant to Rule 3-09 of Regulation S-X under the Securities Exchange Act of 1934, financial statements and related notes of Master Sistemas Automotivos Ltda. (“MSA”) and Suspensys Sistemas Automotivos Ltda. (“SSA”), unconsolidated joint ventures in which the company owns an interest. ArvinMeritor owns a 49% interest in MSA (directly) and a 50% interest in SSA (through both direct and indirect interests).

Rule 3-09 of Regulation S-X provides that if a 50% or less owned person accounted for by the equity method meets the first or third condition of the significant subsidiary tests set forth in Rule 1-02(w), substituting 20% for 10%, separate financial statements for such 50% or less owned person shall be filed.

MSA and SSA each met such test for ArvinMeritor’s 2005 and 2007 fiscal years and the company has included in this Form 10-K/A the required audited MSA and SSA financial statements for the fiscal years ended December 31, 2005 (“2005”) and December 31, 2007 (“2007”). SSA also met such test for ArvinMeritor’s 2006 fiscal year and the company has included the required audited SSA financial statements for the year ended December 31, 2006 (“2006”).

However, as MSA did not meet the significance test for ArvinMeritor’s 2006 fiscal year, ArvinMeritor is only required to file unaudited MSA financial statements for 2006. ArvinMeritor has included in this Form 10-K/A MSA’s unaudited financial statements for 2006.

The financial statements of MSA and SSA are prepared in accordance with accounting principles generally accepted in Brazil, a basis of accounting other than U.S. GAAP. Since MSA and SSA met a 30% significance test set forth in Rule 3-09 for 2007, the financial statements for 2007 include a quantitative reconciliation of key items presented under accounting principles generally accepted in Brazil with those of U.S. GAAP. Since SSA only met the significance test for 2006 at the 20% level and not the 30% level, only a narrative description of differences between these two bases of accounting is required for 2006 for SSA. No quantitative or qualitative discussion of the differences between Brazilian and U.S. GAAP was required for MSA for 2006. However, for the purpose of comparability, a quantitative reconciliation of differences between Brazilian and U.S. GAAP is included for both MSA and SSA for 2006. For 2005, both MSA and SSA met a 30% significance test. However, the company is availing itself of the accommodation to provide a reconciliation for the two most recent fiscal years rather than three years. Therefore, a quantitative reconciliation for 2005 is not provided for both MSA and SSA.

Item 15 is the only portion of the Annual Report being supplemented or amended by this Form 10-K/A. Additionally, in connection with the filing of this Form 10-K/A and pursuant to Securities and Exchange Commission (“SEC”) rules, ArvinMeritor is including currently dated certifications. This Form 10-K/A does not otherwise update any exhibits as originally filed and does not otherwise reflect events occurring after the original filing date of the Annual Report. Accordingly, this Form 10-K/A should be read in conjunction with ArvinMeritor’s filings with the SEC subsequent to the filing of the Annual Report.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Master Sistemas Automotivos Ltda.

We have audited the accompanying balance sheet of Master Sistemas Automotivos Ltda. (the "Company"), a company incorporated in Brazil, as of December 31, 2007 and the statements of income, changes in shareholders' equity and changes in financial position for the years ended December 31, 2007 and 2005. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2007 and the results of its operations for the years ended December 31, 2007 and 2005 in conformity with accounting practices adopted in Brazil.

Accounting practices adopted in Brazil vary in certain significant respects from accounting principles generally accepted in the United States of America. Information relating to the nature and effect of such differences as of and for the year ended December 31, 2007 is presented in Note 19 to the financial statements.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The statements of cash flow for the years ended December 31, 2007 and 2005 are presented for purposes of additional analysis and are not a required part of the basic financial statements prepared in accordance with accounting practices adopted in Brazil. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statement and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MASTER SISTEMAS AUTOMOTIVOS LTDA.

NOTES TO THE FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2007 AND 2006 (UNAUDITED) AND FOR THE YEARS ENDED DECEMBER 31, 2007, 2006 (UNAUDITED) AND 2005

(Amounts in Brazilian reais – R\$)

1. OPERATIONS

Master Sistemas Automotivos Ltda. (“Company”) was established on April 24, 1986, and began operations in April 1987. The Company is engaged in the development, manufacturing, sale, assembly, distribution, importation and exportation of braking systems for buses, trailers, trucks, and their related parts and components.

2. PRESENTATION OF FINANCIAL STATEMENTS

The financial statements have been prepared in conformity with the accounting practices adopted in Brazil described in Note 3, which are based on Brazilian Corporate Law and differ in certain respects from accounting principles generally accepted in the United States of America (“U.S. GAAP”). See Note 19 for a discussion of these differences and a reconciliation of stockholders’ equity and net income presented under accounting practices adopted in Brazil to U.S. GAAP.

3. SIGNIFICANT ACCOUNTING PRACTICES

Significant accounting practices adopted by the Company are presented as follows:

3.1. Temporary cash investments

Represented by fixed-income funds and stated at original values plus income earned through the balance sheet date.

3.2. Allowance for doubtful accounts

The Company assesses the risk of losses on trade accounts receivable to verify the need to record an allowance for doubtful accounts. As of December 31, there was no need for such an allowance.

3.3. Inventories

Stated at average acquisition or production cost, not in excess of market value.

3.4. Provision for loss on investments

Recorded in an amount considered sufficient to cover any losses on investments.

3.5. Receivables from and payables to parent company

Stated at original amount plus income earned and expense incurred through the balance sheet date. Interest rates for these operations are in line with market rates.

3.6. Investments

Edgar Filing: ARVINMERITOR INC - Form 10-K/A

Investment in the non-consolidated subsidiary is accounted for under the equity method of accounting. Equity in the subsidiary is recorded under the caption "Operating Income (Expenses)".

3.7. Property, plant and equipment

Recorded at cost of acquisition plus monetary adjustment through December 31, 1995. Depreciation is calculated using the straight-line method at the annual rates stated in Note 8, based upon the estimated economic useful lives of the assets.

3.8. Deferred charges

Recorded at cost and amortized using the straight-line method at the rate of 20% per year from the date the related projects start operations.

3.9. Loans and financing

Subject to monetary and exchange variations and interest through the balance sheet date.

3.10. Income and social contribution taxes

Income tax is calculated on income adjusted pursuant to tax legislation at the rate of 15% plus a 10% surtax on annual taxable income in excess of R\$240,000 and social contribution tax is calculated at the rate of 9%.

4. TRADE ACCOUNTS RECEIVABLE

2013 and thereafter	1,496,623
Total	29,329,760

The loans and financing from the BNDES are collateralized by the financed machinery and equipment.

10. INTEREST ON CAPITAL

In 2007, the Company recorded interest on capital in the amount of R\$8,023,604 (R\$6,388,428 - unaudited in 2006), by applying the TJLP (long-term interest rate) for the period between January and December of the respective year on shareholders' equity balance for December of the prior year, observing the greater of 50% of pre-tax income or 50% of retained earnings. The Company has also set aside R\$14,395,995 of the income for the year for a dividend payment to shareholders.

In accordance with tax legislation, the amount recorded as interest on capital was entirely deducted from the calculation of income and social contribution taxes, resulting in a tax benefit of R\$2,728,025 (R\$2,172,066 - unaudited in 2006). For the purpose of these financial statements, such interest on capital was considered as dividends and was recorded as a reduction of retained earnings in shareholders' equity.

Additionally, the Company recorded financial income from the interest on capital receivable from the subsidiary Suspensys Sistemas Automotivos Ltda., in the total amount of R\$2,534,227 (R\$2,925,718 - unaudited in 2006), which, for purposes of disclosure and adjustment to accounting practices, was reclassified to investments.

The receivables from and payables to the parent company Randon S.A. Implementos e Participações are adjusted according to the financial market rates (“*DI-extra*” issued by Andima [National Association of Financial Market Institutions]).

The payables to related parties pertain to accounts payable to ArvinMeritor Inc. for the import of machinery by the Company.

Commercial transactions

The commercial transactions with related parties observed the prices and terms established by the agreement signed between the parties. The agreement takes into account the term, volume and specifications of the products purchased by the related parties, which are not comparable to sales to unrelated parties.

(*) Includes: Randon S.A. Implementos e Participações (Parent Company), Fras-Le S.A., Fras-Le Argentina S.A., Fras-Le Andina Comercio y Representacion Ltda., Jost Brasil Sistemas Automotivos Ltda., Randon Veículos Ltda., Randon Argentina, and Suspensys Sistemas Automotivos Ltda.,

12. PENSION PLAN

The Company co-sponsors RANDONPREV, a defined contribution pension plan under a capitalization regime whose main objective is to provide benefits that supplement those provided by the government plans. An actuarial review was carried out by an independent actuary as of December 31, 2007, and the Company's obligations in the amount of R\$28,600 (R\$73,493 - unaudited in 2006) have been duly accrued. The expenses totaled R\$176,484 and R\$174,821 (unaudited) for the years ended December 31, 2007 and 2006, respectively.

13. CONTINGENCIES

There are contingencies of a general nature with respect to taxes since it is not possible to secure definite and final approval of income tax returns, and tax laws in general are indefinite and dependent upon administrative interpretations, which are subject to changes.

The Company, through its attorneys, has challenged at the administrative and judicial level the collection of certain taxes, labor and civil proceedings. Based on the opinion of its attorneys, the Company recorded a reserve for contingencies in the amount of R\$774,423 (R\$453,423 - unaudited in 2006) to cover probable losses that may result from the final outcome of such proceedings. The contingent liabilities as of December 31, 2007 are presented as follows:

Contingencies	Likelihood of loss		
	Probable	Possible	Remote
Civil	—	—	8,968
Labor		340,600	—
Tax	774,423	—	4,456,953
Social security	—	19,171	1,072,515
Total	774,423	359,771	5,538,436

The Company has administrative proceedings in progress for which, based on the opinion of its attorneys and in accordance with Brazilian accounting practices, no reserves for contingencies have been recorded since the proceedings have been assessed to have a possible or remote loss. The main proceedings with risk of remote loss are presented as follows:

Tax

- a) Income tax, social contribution on net profit and withholding income tax – refers to a tax assessment in the amount of R\$3,089,470, arising from payments of commissions to agents abroad. The amount includes principal, penalties and interest;
- b) Deemed IPI credit – refers to notices issued by the Federal Revenue Service in the total amount of R\$1,333,642, whereby the tax authority denied the Company’s request for deemed credit refund and demanded payment of the tax. The amount includes principal, penalties and interest.

Social Security

- a) Refers to INSS (social security contribution) tax assessment in the total amount of R\$1,072,515, because of the non-payment of payroll charges on employee profit sharing.

14. FINANCIAL INSTRUMENTS

In order to reduce the exposure to exchange variation on export financing, the Company has US\$8,400,000 in forward contracts.

The Company’s net exposure to foreign exchange risk as of December 31 is presented as follows:

	2007	2006
		(Unaudited)
Foreign customers (US\$)	9,564,552	18,738,129
Foreign suppliers (US\$)	(6,388,662)	(1,383,554)

18. AMENDMENT TO BRAZILIAN CORPORATE LAW, EFFECTIVE JANUARY 2008

On December 28, 2007, Law No. 11638/07 was enacted, altering, revoking and adding new provisions to the Brazilian Corporate Law, especially with respect to chapter XV, Fiscal Year and Financial Statements. This Law is effective for fiscal years beginning on or after January 1, 2008 and was designed primarily to update the Brazilian Corporate Law, so as to enable the convergence of Brazilian accounting practices with international accounting standards (IFRS) and allow the Brazilian Securities Commission (CVM) to issue new accounting standards and procedures, in conformity with such international accounting standards. Certain of these changes shall be applied as of the beginning of the next fiscal year while others are subject to regulation by regulatory agencies.

The main changes can be summarized as follows:

- Replacement of the statement of changes in financial position by the statement of cash flows.
- A new requirement for the presentation of a statement of value added.
- Possibility of maintaining separate accounting records for purposes of complying with tax legislation and reflecting necessary adjustments in order to prepare the financial statements in conformity with Brazilian Corporate Law.
- Requirement of periodic analysis of the recoverability of amounts recorded in property, plant and equipment, intangible assets and deferred charges.
- Requirement that certain long-term assets and liabilities be recorded at present value and, if material, for certain short-term assets and liabilities.
- Introduction of the concept of large companies and the requirement that such companies be audited by independent auditors registered with the Brazilian Securities Commission (CVM);
- Requirement to record under the caption property, plant and equipment those rights in tangible assets that are maintained or used in the operations of the Company's business, including those rights received as a result of transactions that transfer the benefits, risks and controls of such assets to the Company (e.g., capital leases).

As these changes have been introduced recently, and some of them are still subject to interpretation by regulatory agencies, management has not yet been able to assess all the effects that such changes may have on the financial statements and the results of operations for the following years.

19. SUMMARY AND RECONCILIATION OF THE DIFFERENCES BETWEEN ACCOUNTING PRACTICES ADOPTED IN BRAZIL (BR GAAP) AND ACCOUNTING PRINCIPLES GENERALLY ACCEPTED IN THE UNITED STATES OF AMERICA (U.S. GAAP)

The financial statements of the Company are prepared in accordance with BR GAAP. Note 3 to the consolidated financial statements summarizes the accounting policies adopted by the Company. BR GAAP differs from U.S. GAAP in certain significant respects, which are summarized below:

(a) Supplementary inflation restatement in 1996 and 1997 for U.S. GAAP

Under BR GAAP, inflation accounting was discontinued effective January 1, 1996. Prior to that date, BR GAAP statements included indexation adjustments which partially accounted for the effect of inflation on property, plant and equipment, investments, deferred charges (collectively referred to as "Permanent assets") and shareholders' equity, and reported the net charge or credit in the statement of operations.

Under U.S. GAAP, Brazil ceased to be treated as a highly inflationary economy starting January 1, 1998. Therefore the financial information for purposes of U.S. GAAP for the two-year period ended December 31, 1997 includes additional inflation restatement adjustments made by applying the IGP-M to permanent assets and shareholders' equity.

(b) Deferred Charges

BR GAAP allows the deferral of pre-operating expenses and certain expenses related to research and development. Under BR GAAP, these items are amortized over a period of five to ten years. Under U.S. GAAP, these are recorded as expenses when incurred.

(c) Capitalization of interest in relation to construction in progress

Under accounting practices adopted in Brazil, prior to January 1, 1996 the Company was not required to capitalize the interest cost of borrowed funds as part of the cost of the related asset. Under U.S. GAAP, capitalization of borrowed funds during construction of major facilities is recognized as part of the cost of the related assets. Under Brazilian GAAP exchange losses on foreign currency denominated assets and liabilities are capitalized. Under U.S. GAAP, capitalization of exchange losses is not permitted.

(d) Pension Plan Surplus

Under Brazilian GAAP, the excess of the fair value of the pension plan assets over the projected benefit obligation is not recognized as an asset on the balance sheet. Under U.S. GAAP, the asset is recognized on the balance sheet as prepaid pension cost.

(e) Accounting for derivative instruments

Under BR GAAP, derivative instruments are recorded at cost plus accrued interest. Under BR GAAP, there is no specific standard addressing accounting of financial derivative instruments other than for financial institutions.

Under U.S. GAAP, SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities," as amended and interpreted, is effective for all fiscal quarters of fiscal years beginning after June 15, 2000. SFAS No. 133 requires that a company recognize all derivatives as either assets or liabilities in the statement of financial position and measure those instruments at fair value.

(f) Effects of U.S. GAAP adjustments on equity investee

Suspensys Sistemas Automotivos Ltda. ("Suspensys") is accounted for using the equity method of accounting under BR GAAP. The principal U.S. GAAP adjustments that affect the Company's accounting for the results of Suspensys are as follows:

- Deferred charges
- Capitalization of interest
- Pension plan surplus
- Deferred income tax on the above adjustments

The effect of these adjustments is included as "U.S. GAAP adjustments on equity in earnings of Suspensys", a line item in the reconciliation of net income (loss) and shareholders' equity.

(g) Cash and Cash Equivalents

Under U.S. GAAP, cash equivalents are defined as short-term, highly liquid investments, which are both readily convertible to known amounts of cash and have original maturities of 90 days or less. The Company holds certain highly liquid, low risk financial investments, comprised principally of high quality government debt, which are classified as cash equivalents under BR GAAP. Under U.S. GAAP, since these investments have original maturities of over 90 days, such investments do not qualify as cash equivalents. The effect of this difference in classification on the Company's balance sheets and statements of cash flows for the periods presented is as follows:

	<u>2007</u>	<u>2006</u>	<u>2005</u>

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Suspensys Sistemas Automotivos Ltda.

We have audited the accompanying balance sheets of Suspensys Sistemas Automotivos Ltda. ("Company"), a company incorporated in Brazil, as of December 31, 2007 and 2006 and the related statements of income, changes in shareholders' equity and changes in financial position for the years ended December 31, 2007, 2006 and 2005. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2007 and 2006 and the results of its operations for the years ended December 31, 2007, 2006 and 2005 in conformity with accounting practices adopted in Brazil.

Accounting practices adopted in Brazil vary in certain significant respects from accounting principles generally accepted in the United States of America. Information relating to the nature and effect of such differences as of December 31, 2007 and 2006 and for the years then ended is presented in Note 20 to the financial statements.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The statements of cash flow for the years ended December 31, 2007, 2006 and 2005 are presented for purposes of additional analysis and are not a required part of the basic financial statements prepared in accordance with accounting practices adopted in Brazil. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statement and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

NOTES TO THE FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2007 AND 2006 AND FOR THE YEARS ENDED DECEMBER 31, 2007, 2006 AND 2005

(Amounts in Brazilian reais – R\$)

1. OPERATIONS

Suspensys Sistemas Automotivos Ltda. (“Company”) was established on October 1, 2002, and is engaged in the manufacturing and sale of air and mechanical suspensions for trucks, buses and trailers, trailer axles, third axles and hubs and drums for trucks, buses and trailers, and providing technical assistance for its products.

2. PRESENTATION OF FINANCIAL STATEMENTS

The financial statements have been prepared in conformity with the accounting practices adopted in Brazil described in Note 3, which are based on Brazilian Corporate Law and differ in certain respects from accounting principles generally accepted in the United States of America (“U.S. GAAP”). See Note 20 for a discussion of these differences and a reconciliation of stockholders’ equity and net income presented under accounting practices adopted in Brazil to U.S. GAAP.

3. SIGNIFICANT ACCOUNTING PRACTICES

Significant accounting practices adopted by the Company are:

3.1. Temporary cash investments

Represented by fixed-income funds and stated at original values plus income earned through the balance sheet date.

3.2. Allowance for doubtful accounts

The Company assesses the risk of losses on trade accounts receivable to verify the need to record an allowance for doubtful accounts. As of December 31, there was no need for such an allowance.

3.3. Inventories

Stated at average acquisition or production cost, not in excess of market value.

3.4. Property, plant and equipment

Recorded at cost of acquisition plus monetary adjustment through December 31, 1995. Depreciation is calculated using the straight-line method at the annual rates stated in Note 7, based upon the estimated economic useful lives of the assets.

3.5. Deferred charges

Refer to pre-operating expenses and costs of development of projects and are recorded at cost, less accumulated amortization. Amortization is calculated using the straight-line method for a period of 5 years.

3.6. Loans and financing

Subject to monetary and exchange variations and interest through the balance sheet date.

3.7. Receivables from and payables to the parent company

Stated at original amount plus income earned and expenses incurred through the balance sheet date.

3.8. Income and social contribution taxes

Income tax is calculated on income adjusted pursuant to tax legislation at the rate of 15% plus a 10% surtax on monthly taxable income in excess of R\$20,000 and social contribution tax is calculated at the rate of 9%. Deferred income and social contribution taxes on temporary additions and deductions, controlled in Part "B" of LALUR (Taxable Income Computation Book), are recorded under the caption "Deferred Income and Social Contribution Taxes".

6. TRADE ACCOUNTS RECEIVABLE

Trade accounts receivable as of December 31 are presented as follows:

The payables to and receivables from the parent company Randon S.A. Implementos e Participações are adjusted according to the financial market rates (“*DI-extra*” issued by Andima [National Association of Financial Market Institutions]).

General and administrative expenses refer to the allocation of corporate costs and administrative assistance services incurred by the parent company Randon S.A. Implementos e Participações.

Commercial transactions

The commercial transactions with related parties observed the prices and terms established by the agreement signed between the parties. The agreement takes into account the term, volume and specifications of the products purchased by the related parties, which are not comparable to sales to unrelated parties.

(*) Includes: Randon S.A. Implementos e Participações, Randon Veículos Ltda., Jost Brasil Sistemas Automotivos Ltda., Master Sistemas Automotivos Ltda., Frás-le Argentina and Randon Argentina

(**) Includes: Meritor Heavy Vehicle Systems LLC and Meritor do Brasil Ltda.

11. PENSION PLAN

The Company co-sponsors RANDONPREV, a defined contribution pension plan under a capitalization regime whose main objective is to provide benefits that supplement those provided by the government plans. The pension plan expenses included in the statements of income for the years ended December 31, 2007 and 2006 totaled R\$263,029 and R\$214,664, respectively.

12. CONTINGENCIES

The Company, through its attorneys, has challenged at the administrative and judicial level the collection of certain taxes, labor and civil proceedings. Based on the opinion of its attorneys, the Company recorded a reserve for contingencies in the amount of R\$136,420 to cover probable losses that may result from the final outcome of such proceedings. The contingent liabilities as of December 31, 2007 are as follows:

Contingencies	Likelihood of loss		
	Probable	Possible	Remote
Civil	—	—	169,151
Labor	136,420	217,795	10,191
Tax	—	—	2,972,347
Total	136,420	217,795	3,151,689

The Company has administrative proceedings in progress for which, based on the opinion of its attorneys and in accordance with Brazilian accounting practices, no reserves have been recorded since the proceedings have been assessed to have a possible or remote loss. The main proceedings with risk of remote loss are:

Tax

a) ICMS (state VAT) – The Company was assessed for an alleged irregularity in the calculation of the ICMS reduction benefit through the FUNDOMPEM/NOSSO EMPREGO program (see note 16). The total amount, including principal, penalties and interest, is R\$7,800,886.

On January 24, 2007, as a result of the defense presented by the Company against the above-mentioned infraction notice, the ICMS debt was recalculated by tax authorities. Based on the notice sent by tax authorities to the Company at that date,

Edgar Filing: ARVINMERITOR INC - Form 10-K/A

management estimates that the total amount of the tax assessment will be reduced to approximately R\$2,100,000, including principal, penalties and interest.

13. DIVIDENDS AND INTEREST ON CAPITAL PAYABLE

In 2007, the Company recorded interest on capital in the amount of R\$4,765,645 (R\$5,501,848 in 2006), by applying the TJLP (long-term interest rate) for the period between January and December, 2007 on shareholders' equity, observing the greater of 50% of pre-tax income or 50% of retained earnings.

In accordance with tax legislation, the amount recorded as interest on capital was entirely deducted from the calculation of income and social contribution taxes, resulting in a tax benefit of R\$1,620,319 (R\$1,870,628 in 2006). For the purpose of these financial statements, such interest on capital was considered as dividends and was recorded as a reduction of retained earnings in shareholders' equity.

14. FINANCIAL INSTRUMENTS

The Company's net exposure to the foreign exchange risk as of December 31 is presented as follows:

19. AMENDMENT TO BRAZILIAN CORPORATE LAW, EFFECTIVE JANUARY 2008

On December 28, 2007, Law No. 11638/07 was enacted, altering, revoking and adding new provisions to the Brazilian Corporate Law, especially with respect to chapter XV, Fiscal Year and Financial Statements. This Law is effective for fiscal years beginning on or after January 1, 2008 and was designed primarily to update the Brazilian Corporate Law, so as to enable the convergence of Brazilian accounting practices with international accounting standards (IFRS) and allow the Brazilian Securities Commission (CVM) to issue new accounting standards and procedures, in conformity with such international accounting standards. Certain of these changes shall be applied as of the beginning of the next fiscal year while others are subject to regulation by regulatory agencies.

The main changes can be summarized as follows:

- Replacement of the statement of changes in financial position by the statement of cash flows.
- A new requirement for the presentation of a statement of value added.
- Possibility of maintaining separate accounting records for purposes of complying with tax legislation and reflecting necessary adjustments in order to prepare the financial statements in conformity with Brazilian Corporate Law.
- Creation of two new account groups: (i) intangible assets and (ii) valuation adjustments to shareholders' equity, in order to record certain fair value adjustments, mainly for financial instruments; foreign exchange rate variations on foreign investments accounted for under the equity method of accounting (through December 31, 2007, this adjustment was recorded in profit and loss account); and certain fair value adjustments related to assets and liabilities as a result of a merger between unrelated parties that results in the transfer of control.
- Requirement of periodic analysis of the recoverability of amounts recorded in property, plant and equipment, intangible assets and deferred charges.
- Requirement that certain long-term assets and liabilities be recorded at present value and, if material, for certain short-term assets and liabilities.
- Revocation of items "c" and "d" of paragraph 1 of article 182 of Law No. 6404/76 that permitted to record (i) the premium received on issue of debentures and (ii) donations and government investment grants directly as capital reserves in shareholders' equity. Such items are now required to be recorded as part of earnings in the income statement. Donations and government grants are allocated, after being recorded in earnings, to the tax incentive reserve.
- Introduction of the concept of large companies and the requirement that such companies be audited by independent auditors registered with the Brazilian Securities Commission (CVM);
- Requirement to record under the caption property, plant and equipment those rights in tangible assets that are maintained or used in the operations of the Company's business, including those rights received as a result of transactions that transfer the benefits, risks and controls of such assets to the Company (e.g. capital leases).

As these changes have been introduced recently, and some of them are still subject to interpretation by regulatory agencies, management has not yet been able to assess all the effects that such changes may have on the financial statements and the results of operations for the following years.

20. SUMMARY AND RECONCILIATION OF THE DIFFERENCES BETWEEN ACCOUNTING PRACTICES ADOPTED IN BRAZIL (BR GAAP) AND ACCOUNTING PRINCIPLES GENERALLY ACCEPTED IN THE UNITED STATES OF AMERICA (U.S. GAAP)

The financial statements of the Company are prepared in accordance with BR GAAP. Note 3 to the consolidated financial statements summarizes the accounting policies adopted by the Company. BR GAAP differs from U.S. GAAP in certain significant respects, which are summarized below:

(a) Deferred Charges

BR GAAP allows the deferral of pre-operating expenses and certain expenses related to research and development. Under BR GAAP, these items are amortized over a period of five to ten years. Under U.S. GAAP, these are recorded as expenses when incurred.

(b) VAT Tax Incentive (Fundopem)

Under BR GAAP, as described in Note 16, tax incentives relating to certain state taxes on revenues are recorded directly in shareholders' equity. Under U.S. GAAP, these taxes incentives are recorded in the income statement

(c) Capitalization of interest in relation to construction in progress

Under accounting practices adopted in Brazil, prior to January 1, 1996 the Company was not required to capitalize the interest cost of borrowed funds as part of the cost of the related asset. Under U.S. GAAP, capitalization of borrowed funds during construction of major facilities is recognized as part of the cost of the related assets.

Under Brazilian GAAP exchange losses on foreign currency denominated assets and liabilities are capitalized. Under U.S. GAAP, capitalization of exchange losses is not permitted.

(d) Pension Plan Surplus

Under Brazilian GAAP, the excess of the fair value of the pension plan assets over the projected benefit obligation is not recognized as an asset on the balance sheet. Under U.S. GAAP, the asset is recognized on the balance sheet as prepaid pension cost.

(e) Dividends

Under BR GAAP, proposed dividends are accounted for in the financial statements in anticipation of their approval by the shareholders' meeting. Distributions characterized as interest on shareholders' equity as well as minimum compulsory dividends are accrued for under both BR GAAP and U.S. GAAP. Any excess of proposed dividends over either the minimum compulsory dividend or distributions characterized as interest on shareholders' equity would not be accounted for under U.S. GAAP, if such proposed dividends are subject to approval at the annual Shareholders' Meeting. As the proposed dividends did not exceed the minimum compulsory dividend for all periods presented, no adjustment was required in the reconciliation of shareholders' equity.

(f) Cash and Cash Equivalents

Under U.S. GAAP, cash equivalents are defined as short-term, highly liquid investments, which are both readily convertible to known amounts of cash and have original maturities of 90 days or less. The Company holds certain highly liquid, low risk financial investments, comprised principally of high quality government debt, which are classified as cash equivalents under BR GAAP. Under U.S. GAAP, since these investments have original maturities of over 90 days, such investments do not qualify as cash equivalents. The effect of this difference in classification on the Company's balance sheets and statements of cash flows for the periods presented is as follows:
