Fund Information

The investment objectives of Small Cap Premium & Dividend Income Fund Inc. (the Fund) are to provide stockholders with a high level of income, with a secondary goal of capital appreciation. The Fund pursues its investment objectives principally through a two-part strategy. First, the Fund will invest in a statistically selected sample of stocks included in the Russell 2000® Index (the Index) and/or other investments that have economic characteristics similar to the securities that comprise the Index, which may include futures, forward, swap and option contracts based on the Index, as well as other investment funds with a composition similar to that of the Index. Second, the Fund will write (sell) call options on the Index or on exchange-traded funds (ETFs) which seek to track the performance of the Index with respect to some or all of the value of its assets. There can be no assurance that the Fund will achieve its investment objectives.

Symbol on New York Stock Exchange (NYSE)	RCC
Initial Offering Date	July 29, 2005
Yield on Closing Market Price as of June 30, 2009 (\$9.29)*	21.53%
Current Semi-Annual Distribution per share of Common Stock**	\$1.00
Current Annualized Distribution per share of Common Stock**	\$2.00

* Yield on closing market price is calculated by dividing the current annualized distribution per share by the closing market price as of June 30, 2009. Past performance does not guarantee future results.

** The distribution is not constant and is subject to change. A substantial portion of the distribution may be deemed a tax return of capital at fiscal year end.

The table below summarizes the changes in the Fund's market price and net asset value for the six-month period:

	6/30/09 (a)	12/31/08	Change (b)	High	Low
Market Price (c)	\$9.29	\$8.67	7.15%	\$11.40	\$6.35
Net Asset Value	\$9.06	\$9.55	(5.13%)	\$10.26	\$7.05

(a) For the six-month period, the Common Stock of the Fund had a total investment return of 5.34% based on net asset value per share and 18.98% based on market price per share, assuming reinvestment of dividends. For the same period, the Fund's unmanaged reference index, the Russell 2000® Index, had a total investment return of 2.64%. The reference index has no expenses associated with performance.

(b) Does not include reinvestment of dividends.

(c) Primary Exchange Price, NYSE.

Summary Schedule of Investments as of June 30, 2009 (Unaudited)

This summary schedule of investments is presented to help investors focus on the Fund's principal holdings. It includes the Fund's 50 largest holdings and each investment of any issuer that exceeds 1% of the Fund's net assets. Other Securities represent all issues not required to be disclosed under the rules adopted by the Securities and Exchange Commission. In addition, the summary schedule of investments allows the adviser certain efficiencies. As such, any cost savings in report production or printing are passed on to the Fund and, ultimately to Fund stockholders. A complete schedule of investments is available without charge, upon request, by calling 1-877-449-4742 or on the Securities and Exchange Commission's website at <http://www.sec.gov>.

Summary Schedule of Investments (concluded)

For Fund portfolio compliance purposes, the Fund's industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Fund management. This definition may not apply for purposes of this report, which may combine industry sub-classifications for reporting ease.

Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 price quotations in active markets/exchanges for identical securities

Level 2 other observable inputs (including, but not limited to: quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Level 3 unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Fund's own assumption used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Fund's policy regarding valuation of investments and other significant accounting policies, please refer to Note 1(a) of the Notes to Financial Statements.

The following table summarizes the inputs used as of June 30, 2009 in determining the fair valuation of the Fund's investments:

Valuation Inputs	Investments in Securities	Other Financial Instruments
	Assets	Liabilities
Level 1	\$ 117,216,118	\$ (1,070,734)
Level 2	7,585,991	
Level 3		
Total	\$ 124,802,109	\$ (1,070,734)

Other financial instruments are futures and options.

Notes to Financial Statements (Unaudited)

1. Significant Accounting Policies:

Small Cap Premium & Dividend Income Fund Inc. (the Fund) is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as a diversified, closed-end management investment company with a fixed term of approximately five years. The expected termination date of the Fund is on or about July 21, 2010. The Fund's financial statements are prepared in conformity with U.S. generally accepted accounting principles, which may require the use of management accruals and estimates. Actual results may differ from these estimates. These unaudited financial statements reflect all adjustments, which are, in the opinion of management, necessary to present a fair statement of the results for the interim period. All such adjustments are of a normal, recurring nature. The Fund determines and makes available for publication the net asset value of its Common Stock on a daily basis. The Fund's Common Stock shares are listed on the New York Stock Exchange (NYSE) under the symbol RCC.

Investing in the Fund involves certain risks and the Fund may not be able to achieve its intended results for a variety of reasons, including, among others, the possibility that the Fund may not be able to structure derivative investments as defined below as anticipated. Because the value of your investment in the Fund will fluctuate, there is a risk that you will lose money. The following is a summary of significant accounting policies followed by the Fund.

(a) Valuation of investments Equity securities that are held by the Fund that are traded on stock exchanges or the NASDAQ Global Market are valued at the last sale price or official close price on the exchange, as of the close of business on the day the securities are being valued or, lacking any sales, at the last available bid price for long positions, and at the last available asked price for short positions. In cases where equity securities are traded on more than one exchange, the securities are valued on the exchange designated as the primary market by or under the authority of the Board of Directors of the Fund. Long positions traded in the over-the-counter (OTC) market, NASDAQ Capital Market or Bulletin Board are valued at the last available bid price or yield equivalent obtained from one or more dealers or pricing services approved by the Board of Directors of the Fund. Short positions traded in the OTC market are valued at the last available asked price. Portfolio securities that are traded both in the OTC market and on an exchange are valued according to the broadest and most representative market.

Exchange-traded options are valued at the mean between the last bid and ask prices at the close of the options market in which the options trade. Options traded in the OTC market are valued at the last asked price (options written) or the last bid price (options purchased). The value of swaps, including interest rate swaps, caps and floors, will be determined by reference to the value of the components when such components consist of securities for which market quotations are available. In the absence of obtainable quotations, swaps will be valued by obtaining dealer quotations. Financial futures contracts and options thereon, which are traded on exchanges, are valued at their last sale price as of the close of such exchanges. Obligations with remaining maturities of 60 days or less are valued at amortized cost unless the investment adviser believes that this method no longer produces fair valuations.

Repurchase agreements are valued at cost plus accrued interest. The Fund employs pricing services to provide certain securities prices for the Fund. Securities and assets for which market quotations are not readily available are valued at fair value as determined in good faith by or under the direction of the Board of Directors of the Fund, including valuations furnished by the pricing services retained by the Fund, which may use a matrix system for valuations. The procedures of a pricing service and its valuations are reviewed by the officers of the Fund under the general supervision of the Fund's Board of Directors. Such valuations and procedures will be reviewed periodically by the Board of Directors of the Fund.

Generally, trading in U.S. government securities, money market instruments and certain fixed income securities, is substantially completed each day at various times prior to the close of business on the NYSE. The values of such securities used in computing the net asset value of the Fund's shares are determined as of such times. Overnight Time Deposits are valued at the amount deposited each day. Occasionally, events affecting the values of such securities and such exchange rates may occur between the times at which they are determined and the close of business on the NYSE that may not be reflected in the computation of the Fund's net asset value. If events (for example, a company announcement, market volatility or a natural disaster) occur during such periods that are expected to materially affect the value of such securities, those securities may be valued at their fair value as determined in good faith by the Fund's Board of Directors or by the investment adviser using a pricing service and/or procedures approved by the Fund's Board of Directors.

Notes to Financial Statements (continued)

(b) Real Estate Investment Trusts (REITs) A portion of distributions received from REITs may constitute a return of capital. During the year an amount, based upon prior experience and guidance from the REITs is reclassified from dividend income and recorded as an adjustment to basis of the REIT holdings. The adjustment is a reduction in basis and is reflected in either unrealized appreciation (depreciation) or realized gain (loss).

(c) Derivative financial instruments The Fund may engage in various portfolio investment strategies both to enhance its returns or as a proxy for a direct investment in securities underlying the Fund's index. Losses may arise due to changes in the value of the contract due to an unfavorable change in the price of the underlying security or index, or if the counterparty does not perform under the contract. The counterparty, for certain instruments, may pledge cash or securities as collateral.

Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards No.161, Disclosures about Derivative Instruments and Hedging Activities an amendment of FASB Statement no.133 (FAS 161) has been implemented by the Fund. The Fund utilizes derivatives to enhance return and management has determined the use of derivative instruments is not designed to hedge security positions. The Fund's use of derivatives involves risks different from, and possibly greater than, the risks associated with investing directly in the investments underlying these derivatives.

Derivatives may be volatile and involve significant risk, such as, among other things, credit risk, currency risk, leverage risk and liquidity risk. They also involve the risk of mispricing or improper valuation and correlation risk (i.e., the risk that changes in the value of the derivative may not correlate perfectly, or to any degree, with the underlying asset, interest rate or index). Using derivatives can disproportionately increase losses and reduce opportunities for gains when security prices, indices, currency rates or interest rates are changing in unexpected ways. The Fund may suffer disproportionately heavy losses relative to the amount of its investments in derivative contracts.

Derivative instruments utilized by the Fund are defined below and delineated in the statement of assets, liabilities and capital and statement of operations of the Fund. As the Fund utilized more than one type of derivative in the period covered by this report, the following table summarizes the use of derivative investments in the current period:

Statement of Assets, Liabilities and Capital as of June 30, 2009

Derivatives not accounted for as hedging instruments pursuant to FASB Statement 133(a)	Liabilities	Amount
Equity Options	Options written, at value	\$ 976,000
Futures Contracts	Variation margin payable	\$ 7,200

Statement of Operations for the six months ended June 30, 2009

Derivatives not accounted for as hedging instruments pursuant to FASB Statement 133(a)	Realized gain (loss)	Change in unrealized appreciation (depreciation)
Written Equity Options	\$ 4,424,455	\$ 74,180
Futures Contracts	\$ (282,485)	\$ (156,672)

Edgar Filing: Small Cap Premium & Dividend Income Fund, Inc. - Form N-CSRS

Options The Fund writes call options. When the Fund writes an option, an amount equal to the premium received by the Fund is reflected as an asset and an equivalent liability. The amount of the liability is subsequently marked-to-market to reflect the current market value of the option written. When a security is purchased or sold through an exercise of an option, the related premium paid (or received) is added to (or deducted from) the basis of the security acquired or deducted from (or added to) the proceeds of the security sold. When an option expires (or the Fund enters into a closing transaction), the Fund realizes a gain or loss on the option to the extent of the premiums received or paid (or gain or loss to the extent the cost of the closing transaction exceeds the premium paid or received). Written options are non-income producing investments.

Writing (selling) covered call options subjects the Fund to certain additional risks. The Fund, by writing covered call options, will forgo the opportunity to benefit from

Notes to Financial Statements (continued)

potential increases in the value of the equity investments above the exercise prices of the options, but will continue to bear the risk of declines in the value of the equity investments. The premiums received from the options may not be sufficient to offset any losses sustained from the volatility of the equity securities over time.

The premium received from writing options and amounts available for distribution from the Fund's options may decrease in declining interest rate environments. The value of the equity investments also may be influenced by changes in interest rates. Higher yielding equity investments and those issuers whose businesses are substantially affected by changes in interest rates may be particularly sensitive to interest rate risk. A summary of option transactions is found in Note 3, Investments.

Financial futures contracts The Fund may purchase or sell financial futures contracts and options on such financial futures contracts. Financial futures contracts are contracts for delayed delivery of securities at a specific future date and at a specific price or yield. Upon entering into a contract, the Fund deposits, and maintains as collateral, such initial margin as required by the exchange on which the transaction is effected. Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in value of the contract. Such receipts or payments are known as variation margin and are recorded by the Fund as unrealized gains or losses. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed. With futures, there is minimal counterparty credit risk to the Fund since futures are exchange traded and the exchange's clearinghouse, as counterparty to all exchange traded futures, guarantees the futures against default.

(d) Income taxes It is the Fund's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its stockholders. Therefore, no federal income tax provision is required.

FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48) requires an analysis of tax positions taken or to be taken on a tax return and whether such positions are more likely than not to be sustained upon examination based on their technical merit. To the extent they would not be sustained, tax expense (and related interest and penalties) would be recognized for financial statement reporting purposes. Management has evaluated the application of FIN 48 to the Fund, and has determined that FIN 48 does not have a material impact on the Fund's financial statements. The Fund files U.S. and various state tax returns. To the best of the Fund's knowledge, no income tax returns are currently under examination. All tax years of the Fund are open at this time.

(e) Security transactions and investment income Security transactions are recorded on the dates the transactions are entered into (the trade dates). Realized gains and losses on security transactions are determined on the identified cost basis. Dividend income is recorded on the ex-dividend dates. Interest income is recognized on the accrual basis.

(f) Dividends and distributions Dividends and distributions paid by the Fund are recorded on the ex-dividend dates. For the current period ended June 30, 2009, Fund management believes it is likely total dividends and distributions may exceed net investment income and accumulated realized capital gains, resulting in a portion of the total distribution treated as a tax return of capital. A portion of the distributions paid by the Fund during the year ended December 31, 2008 was characterized as a tax return of capital.

2. Investment Advisory Agreement and Transactions with Affiliates:

The Fund has entered into an Investment Advisory and Management Agreement with IQ Investment Advisors LLC (IQ Advisors), an indirect, wholly owned subsidiary of Merrill Lynch & Co., Inc. (ML & Co.), which is a wholly owned subsidiary of Bank of America Corporation (Bank of America). IQ Advisors is responsible for the investment advisory, management and administrative services to the Fund. In addition, IQ Advisors provides the necessary personnel, facilities, equipment and certain other services necessary to the operations of the Fund. For such services, the Fund pays a monthly fee at an annual rate equal to .90% of the average daily value of the Fund's net assets plus borrowings for leverage and other investment purposes.

Notes to Financial Statements (concluded)

In addition, IQ Advisors has entered into a Subadvisory Agreement with BlackRock Investment Management, LLC (the Subadviser), an indirect, wholly owned subsidiary of BlackRock, Inc. (BlackRock). Pursuant to the agreement, the Subadviser provides certain investment advisory services to IQ Advisors with respect to the Fund. For such services, IQ Advisors pays the Subadviser a monthly fee at an annual rate of .39% of the average daily value of the Fund's net assets plus borrowings for leverage and other investment purposes. There is no increase in the aggregate fees paid by the Fund for these services.

IQ Advisors has entered into an Administration Agreement with Princeton Administrators, LLC (the Administrator). The Administration Agreement provides that IQ Advisors pays the Administrator a fee from its investment advisory fee at an annual rate equal to .12% of the average daily value of the Fund's net assets plus borrowings for leverage and other investment purposes for the performance of administrative and other services necessary for the operation of the Fund. There is no increase in the aggregate fees paid by the Fund for these services. The Administrator is an indirect, wholly owned subsidiary of BlackRock. ML & Co. has a substantial financial interest in BlackRock.

Merrill Lynch, Pierce, Fenner & Smith Incorporated, an affiliate of IQ Advisors, received \$4,223 in commissions on the execution of portfolio security transactions for the Fund for the six months ended June 30, 2009.

Certain officers of the Fund are officers and/or directors of IQ Advisors and/or ML & Co. or their affiliates.

3. Investments:

Purchases and sales of investments, excluding short-term securities, for the six months ended June 30, 2009 were \$17,467,335 and \$27,131,163, respectively.

Transactions in options written for the six months ended June 30, 2009 were as follows:

	Number of Contracts	Premiums Received
Outstanding call options written, at beginning of period	1,250	\$ 3,635,363
Options written	8,035	13,727,084
Options expired	(2,830)	(5,479,815)
Options closed	(5,255)	(10,143,339)
Outstanding call options written, at end of period	1,200	\$ 1,739,293

4. Common Stock Transactions:

The Fund is authorized to issue 100,000,000 shares of stock, par value \$.001 per share, all of which were initially classified as Common Stock. The Board of Directors is authorized, however, to classify and reclassify any unissued shares of Common Stock without approval of the holders of Common Stock.

Shares issued and outstanding during the six months ended June 30, 2009 increased by 90,551 as a result of dividend investments. Shares issued and outstanding during the year ended December 31, 2008 decreased by 206,725 as a result of a repurchase offer.

Subject to the approval of the Board of Directors, the Fund will make offers to repurchase its shares at annual (approximately 12-month) intervals. The shares tendered in the repurchase offer will be subject to a repurchase fee retained by the Fund to compensate the Fund for expenses directly related to the repurchase offer.

With regard to repurchase fees, IQ Advisors will reimburse the Fund for the cost of expenses paid in excess of 2% of the value of the shares that are repurchased.

5. Capital Loss Carryforward:

Edgar Filing: Small Cap Premium & Dividend Income Fund, Inc. - Form N-CSRS

As of December 31, 2008, the Fund had a net capital loss carryforward of \$55,567,793, all of which expires in 2016. This amount will be available to offset like amounts of any future taxable gains.

SMALL CAP PREMIUM & DIVIDEND INCOME FUND INC.

JUNE 30, 2009

Fundamental Periodic Repurchase Policy

The Board of Directors approved a fundamental policy whereby the Fund would adopt an interval fund structure pursuant to Rule 23c-3 under the Investment Company Act of 1940, as amended (the 1940 Act). As an interval fund, the Fund will make annual repurchase offers at net asset value (less repurchase fee not to exceed 2%) to all Fund stockholders. The percentage of outstanding shares that the Fund can repurchase in each offer will be established by the Fund's Board of Directors shortly before the commencement of each offer, and will be between 5% and 25% of the Fund's then outstanding shares.

The Fund has adopted the following fundamental policy regarding periodic repurchases:

- a) The Fund will make offers to repurchase its shares at annual (approximately 12-month) intervals pursuant to Rule 23c-3 under the 1940 Act (Offers). The Board of Directors may place such conditions and limitations on an Offer, as may be permitted under Rule 23c-3.
 - b) The repurchase request deadline for each Offer, by which the Fund must receive repurchase requests submitted by stockholders in response to the most recent Offer, will be on approximately the anniversary of the prior year's repurchase request deadline; and will be the fourteenth day prior to such exercise date; provided, that in the event that such day is not a business day, the repurchase request deadline will be the business day subsequent to the fourteenth day prior to the exercise date of the call spreads and written call options (the Repurchase Request Deadline).
 - c) The maximum number of days between a Repurchase Request Deadline and the next repurchase pricing date will be fourteen days; provided that if the fourteenth day after a Repurchase Request Deadline is not a business day, the repurchase pricing date shall be the next business day (the Repurchase Pricing Date).
 - d) Offers may be suspended or postponed under certain circumstances, as provided for in Rule 23c-3. (For further details, see Note 4 to the Financial Statements.)
-

Availability of Quarterly Schedule of Investments

The Fund files its complete schedule of portfolio holdings with the Securities and Exchange Commission (SEC) for the first and third quarters of each fiscal year on Form N-Q. The Fund's Forms N-Q are available on the SEC's website at <http://www.sec.gov>. The Fund's Forms N-Q may also be reviewed and copied at the SEC's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330.

For Fund portfolio compliance purposes, the Fund's industry classifications refer to any one or more of the industry sub-classifications used by one or more widely recognized market indexes or ratings group indexes, and/or as defined by Fund management. This definition may not apply for purposes of this report, which may combine industry sub-classifications for reporting ease.

Financial Accounting Standards Board Statement of Financial Accounting Standards No. 157, Fair Value Measurements clarifies the definition of fair value, establishes a framework for measuring fair values and requires additional disclosures about the use of fair value measurements. Various inputs are used in determining the fair value of investments, which are as follows:

Level 1 - price quotations in active markets/exchanges for identical securities

Level 2 - other observable inputs (including, but not limited to: quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market-corroborated inputs)

Small Cap Premium & Dividend Income Fund Inc.

Schedule of Investments as of June 30, 2009 (Unaudited)

Level 3 - unobservable inputs based on the best information available in the circumstance, to the extent observable inputs are not available (including the Fund's own assumption used in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. For information about the Fund's policy regarding valuation of investments and other significant accounting policies, please refer to Note 1 (a) of the Notes to Financial Statements.

The following table summarizes the inputs used as of June 30, 2009 in determining the fair valuation of the Fund's investments:

Valuation Inputs	Investments in Securities	Other Financial Instruments+	
		Assets	Liabilities
Level 1	\$ 117,216,118	\$ (1,070,734)	
Level 2	7,585,991		
Level 3			
Total	\$ 124,802,109	\$ (1,070,734)	

+ Other financial instruments are futures and options.
