- Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item 8.01 Other Events.

On August 21, 2006, American Biltrite Inc.'s majority-owned subsidiary Congoleum Corporation ("Congoleum") filed a motion seeking the approval of the Bankruptcy Court for the District of New Jersey for a settlement agreement between Congoleum and Century Indemnity Company and its affiliates ("Century"). Congoleum has insurance policies with Century that provide Congoleum with excess layer insurance coverage. Subject to various requirements set forth in the

## Edgar Filing: AMERICAN BILTRITE INC - Form 8-K

settlement agreement, Century will pay \$16.95 million to the trust for asbestos claimants to be formed upon confirmation of Congoleum's plan of reorganization in four installments over a three-year period commencing 60 days after all conditions to the agreement have been satisfied. A hearing on the motion has been scheduled for September 11, 2006.

On August 22, 2006, Congoleum announced that it had entered into the settlement agreement with Century. Congoleum further reported in that announcement that it has now reached over \$207 million in insurance settlements, and that negotiations will continue with other insurance carriers. In that announcement, it was further provided that Congoleum remains hopeful that its proposed plan would be confirmed in the first quarter of 2007.

On December 31, 2003, Congoleum filed a voluntary petition with the United States Bankruptcy Court for the District of New Jersey (Case No. 03-51524) seeking relief under Chapter 11 of the United States Bankruptcy Code as a means to resolve claims asserted against it related to the use of asbestos in its products decades ago.

Congoleum also announced on August 22, 2006 that that one of Congoleum's sheet flooring production lines at its Marcus Hook, Pennsylvania plant sustained extensive damage on Friday, August 18, 2006. Congoleum reported that there were no injuries and the damage was limited to the components of the production line in the area of the incident. Congoleum stated that it expects it will be able to replace the capacity of the damaged line through a combination of available overtime capacity on the other production line at the Marcus Hook plant and outsourcing. Congoleum further stated that work on replacing the damaged line had already commenced, and repairs are expected to be completed during the last quarter of 2006. Congoleum further reported that it believes its contingency plan will permit it to service its customers without any serious or long term disruption, and expects its property and business interruption insurance coverage will minimize the costs resulting from the incident, including replacing the production capacity.

### Forward-Looking Statements

Some of the information presented in this Current Report on Form 8-K constitutes "forward-looking statements," within the meaning of the Private Securities Litigation Reform Act of 1995, that involve risks, uncertainties and assumptions. These forward-looking statements are based on American Biltrite Inc.'s expectations, and American Biltrite Inc.'s understanding of Congoleum's expectations, as of the date of this report, of future events, and American Biltrite Inc. undertakes no obligation to update any of these forward-looking statements except as required by the federal securities laws. Although American Biltrite Inc. believes that these expectations are based on reasonable assumptions, within the bounds of its knowledge of its business and operations,

there can be no assurance that actual results will not differ materially from its expectations. Readers are cautioned not to place undue reliance on any forward-looking statements. There can be no assurance that Congoleum will be successful in obtaining confirmation of its proposed amended Chapter 11 plan of reorganization in a timely manner or at all. There also can be no assurance that Congoleum will be able to satisfactorily replace the capacity of its damaged production line in a cost-effective manner and on a timely basis, that Congoleum's contingency plans for servicing its customers while Congoleum works to replace its damaged production line will be successful or that Congoleum will be able to recover sufficient insurance proceeds for costs incurred resulting from the incident.

Any alternative plan of reorganization pursued by Congoleum or confirmed by the bankruptcy court could vary significantly from the version of the plan currently

## Edgar Filing: AMERICAN BILTRITE INC - Form 8-K

being pursued by Congoleum. Furthermore, the estimated costs and contributions required to confirm and to effect the proposed amended plan of reorganization or an alternative plan could be significantly greater than currently estimated. Any plan of reorganization pursued by Congoleum will be subject to numerous conditions, approvals and other requirements, including bankruptcy court approvals, and there can be no assurance that such conditions, approvals and other requirements will be satisfied or obtained.

Some additional factors that could cause actual results to differ from Congoleum's and American Biltrite Inc.'s objectives for resolving asbestos liability include: (i) the future cost and timing of estimated asbestos liabilities and payments; (ii) the availability of insurance coverage and reimbursement from insurance companies that underwrote the applicable insurance policies for asbestos-related claims, including insurance coverage and reimbursement for asbestos claimants under Congoleum's proposed modified plan of reorganization, which certain insurers have objected to in bankruptcy court and are litigating in New Jersey state court, or any other plan of reorganization; (iii) costs relating to the execution and implementation of any plan of reorganization pursued by Congoleum or relating to any other plan or reorganization proposed by any other party in interest; (iv) timely reaching an agreement with other creditors, or classes of creditors, that exist or may emerge; (v) satisfaction of the conditions and obligations under American Biltrite Inc.'s and Congoleum's respective outstanding debt instruments, and amendment of those outstanding debt instruments, as necessary, to permit Congoleum and American Biltrite Inc. to satisfy their obligations under any plan of reorganization and to make certain covenants in those debt instruments less restrictive; (vi) the extent to which American Biltrite Inc.'s equity interest in Congoleum is diluted or otherwise reduced in connection with any plan of reorganization, including the possible elimination of the interests of all existing shareholders of Congoleum through implementation of the "cram down" provisions of the Bankruptcy Code if the holders of Congoleum's Senior Notes do not vote as a class to accept Congoleum's plan of reorganization in the requisite numbers and amounts required by the Bankruptcy Code; (vii) the response from time-to-time of American Biltrite Inc.'s and Congoleum's lenders, customers, suppliers, holders of Congoleum's Senior Notes and their representatives, and other creditors and constituencies to the Chapter 11 process and related developments arising from the strategy to settle asbestos liability; (viii) Congoleum's ability to maintain debtor-in-possession financing sufficient to provide it with funding that may be needed during the pendency of its Chapter 11 case and to obtain exit financing sufficient to provide it with funding that may be needed for its operations after emerging from the bankruptcy process, in each case, on reasonable terms; (ix) timely obtaining sufficient

creditor and court approval (including the results of any relevant appeals) of a reorganization plan and the court overruling any objections to the plan that may be filed; (x) developments in, costs associated with and the outcome of insurance coverage litigation pending in New Jersey state court involving Congoleum and certain insurers; (xi) the extent to which Congoleum is able to obtain reimbursement for costs it incurs in connection with the insurance coverage litigation; (xii) the impact any adopted federal legislation addressing asbestos personal injury claims may have on American Biltrite Inc.'s and Congoleum's businesses, results of operations or financial conditions; (xiii) compliance with the Bankruptcy Code, including section 524(g); (xiv) the possible adoption of another party in interest's proposed plan of reorganization which may prove to be unfeasible; and (xv) the ability of American Biltrite Inc. to timely replace or refinance its secured credit facility, which expires on September 30, 2006. In addition, in view of American Biltrite Inc.'s relationships with Congoleum, American Biltrite Inc. could be affected by Congoleum's negotiations regarding its pursuit of a plan or reorganization, and there can be no assurance as to what that impact, positive or negative, might be. In any event, the failure of Congoleum to obtain confirmation and

## Edgar Filing: AMERICAN BILTRITE INC - Form 8-K

consummation of a Chapter 11 plan of reorganization would have a material adverse effect on Congoleum's business, results of operations or financial condition and could have a material adverse effect on American Biltrite Inc.'s business, results of operations or financial condition. Other factors that could cause or contribute to actual results differing from its expectations include those factors discussed in American Biltrite Inc.'s other filings with the Securities and Exchange Commission, including its Annual Report on Form 10-K for the fiscal year ended December 31, 2005, its Quarterly Report on Form 10-Q for the quarter ended June 30, 2006 and its subsequent filings.

### SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
