Enclosure: Partner Communications is pursuing the deployment of an independent fixed-line fiber optic based  
infrastructure

---

PARTNER COMMUNICATIONS IS PURSUING THE  
DEPLOYMENT OF AN INDEPENDENT FIXED-LINE  
FIBER OPTIC BASED INFRASTRUCTURE

ROSH HA'AYIN, Israel, June 21, 2016 - Partner Communications Company Ltd. ("Partner" or "the Company") (NASDAQ and TASE: PTNR), a leading Israeli communications operator, announced today that the Company submitted a letter to the Director-General of the Ministry of Communications regarding the examination done by the Company of several options for deploying a nationwide independent fixed-line infrastructure using fiber optics. Over the last few weeks, the Company has been conducting economic and feasibility studies of the project.

Partner's goal would be to deploy a fiber-optic based infrastructure as part of its overall strategy to become a comprehensive telecommunications group. The independent, fiber-optic based infrastructure would allow the Company to offer faster internet services in Israel, as well as the transmission of advanced and high quality television services. Among the alternatives being considered to deploy the infrastructure, the Company is focusing on taking advantage of the passive wholesale market that allows the installation of independent fixed-line infrastructure, including using Bezeq's cable ducts.

The project's success will require the support and assistance from the Ministry of Communications and other relevant regulatory entities.

---

Forward-Looking Statements

This press release includes forward-looking statements, as this term is defined in Section 27A of the US Securities Act of 1933, as amended, Section 21E of the US Securities Exchange Act of 1934, as amended, and the safe-harbor provisions of the US Private Securities Litigation Reform Act of 1995. Words such as "will", "believe", "anticipate", "expect", "intend", "strive", "seek", "plan", "could", "may", "foresee", "target", "objective", "goal", declensions thereof and similar expressions typically convey forward-looking statements, but these words are not the only words that convey these statements. We have based these forward-looking statements on our current knowledge and our present beliefs and projections regarding possible future events. These forward-looking statements include the Company's intention to deploy an independent fixed-line fiber optic based infrastructure as part of the passive wholesale market, and its expectations regarding the scope and quality of services that the Company will be able to offer its customers in the future. These statements are subject to risks, uncertainties and assumptions, including whether the independent fiber optic based infrastructure is feasible under current market and regulatory conditions, what financial impact the project's implementation would have on the Company, and the extent to which the project will expand the Company's ability to offer its customers various advanced technological and high quality services.

About Partner Communications
