**Item 7.01. Regulation FD Disclosure**

On April 15, 2010, Casey's General Stores, Inc. (the "Company") reported March 2010 same-store sales results for stores open for one full year. Same-store sales for prepared food and fountain increased 7.0%, and grocery and other merchandise increased 1.4% in March 2010 compared to March 2009.

Same store gasoline gallons sold were unchanged in March 2010 compared to March 2009, reversing a five-month trend of negative same store gallon movement. The average retail price of gasoline sold during March 2010 was \$2.65 per gallon. The gasoline margin was above the Company's fiscal 2010 goal of 11.0 cents per gallon.

Results in March reflect improving same store sales trends, relative to the past five months, amidst more favorable weather. In the grocery and other merchandise category, the Company is pleased with the 1.4% increase over a strong March 2009, which reflected significant cigarette manufacturer price increases prior to the April 1, 2009 federal excise tax increase. Same store sales in the prepared food and fountain category were the strongest in nearly a year as improved weather and strategic price increases have begun to have a meaningful impact. These price increases represented approximately half of the 7% sales increase in prepared food and fountain.

Weather in April has been more favorable, contributing to strong same store sales in all categories through the first half of the month.
