Exhibit Index

The following document (bearing the exhibit number listed below) is furnished herewith and is made a part of this Report pursuant to the General Instructions for Form 6-K:

Exhibit	Description
No. 1	RNS Announcement, re: UPDATE BRUCE A'S REACTORS dated 25 June 2003

UPDATE REGARDING DELAYED RESTART OF BRUCE 'A'S TWO REACTORS

Further to its announcement of 13 June 2003 regarding the anticipated dates for

Edgar Filing: BRITISH ENERGY PLC - Form 6-K

the re-start of Units 3 and 4 at Bruce A, British Energy has been notified by Bruce Power that there will be further delays in the timing of the restart of Units 3 and 4.

Bruce Power has informed British Energy that all required submissions in respect of Unit 4 have been made to the Canadian Nuclear Safety Commission, and that regulatory approval to the restart of Unit 4 is expected shortly. However Bruce Power no longer expects to achieve the restart of Unit 4 by 30 June 2003.

Furthermore, as a result of this delay, Bruce Power has notified British Energy that it now expects Unit 3 will not restart by 30 July 2003.

Under the terms of the sale and purchase agreement announced in December 2002, if the restart of the two Units is delayed beyond 15 June 2003 and 1 August 2003 respectively, subject to certain exceptions, the consideration of C\$50M per Unit payable to British Energy decreases on a sliding scale falling to zero after 9 months delay.

A further announcement will be made in due course.
